

HICKMAN ENTERS PLEA OF NOT GUILTY

JANUARY 25 SET AS DATE FOR TRIAL

INSANITY TO BE PLEA FOR DEFENSE OF YOUTH

Los Angeles, Jan. 3.—(P)—William Edward Hickman, confessed kidnaper and slayer of Marian Parker, will make his fight against the gallows with a plea of insanity.

In superior court here this afternoon Hickman entered pleas of not guilty to charges of murder and kidnapping; and coupled with his answer to the defense that he was insane when he abducted and killed the 12-year-old school girl, Superior Judge Carlos F. Hardy fixed January 25 the date of trial.

Only One Attorney

Jerome Walsh, Hickman's youthful attorney who was hired to defend him from the accused youth's mother, at the opening of the hearing filed an affidavit asking for delay in entering his client's plea, but this was denied.

The accused youth spoke only twice during the short session. Throughout the proceedings he sat beside his lawyer at the counsel table with eyes fixed on the floor.

Behind him, at the rear of the court room, was the only representative of the Parker family present, Perry ("Nilt") Parker, step-brother of the slain girl.

While court recessed Hickman was taken to the prisoner's room, adjoining the court room, and was returned four minutes later when Judge Hardy resumed the bench.

KIDWELL WINDS UP TESTIMONY

Juror Was Intimidated by Prosecutor; Signed False Affidavits

Washington, Jan. 3.—(P)—Edward J. Kidwell, Jr., who recently wound up his first day's testimony in the Teapot Dome oil contempt case by alleging that the prosecutor had intimidated and threatened him, finished five days on the witness stand today with an additional charge that an assistant district attorney had threatened him with prosecution if he failed to testify that false affidavits were true.

Kidwell made his first charge when testifying as a government witness in the criminal contempt hearing against Harry F. Sinclair, William J. Burns and their four associates. He asserted that James J. O'Leary, assistant district attorney, had forced him to sign affidavits which he told the prosecutor were untrue.

Cincinnati, Ohio, Jan. 3.—(P)—George Remus was saved from the Lima insane asylum today only by the prolongation of a writ of habeas corpus hearing until next Thursday.

PRESIDENTIAL CANDIDATES ARE WITHOUT SUPPORTERS

BY DAVID LAWRENCE.

Washington, Jan. 3.—Members of the United States Senate who are not candidates for the presidency themselves, have been hesitant to commit themselves for or against the outstanding men mentioned for the nomination.

Wets Factor in Jersey.

Meanwhile, however, the pressure for some sort of political line-up is growing so that the delegations may be chosen.

There is, however, no likelihood that support for Mr. Hoover in New Jersey will be confined to Senator Edge or former Governor Stokes.

The activity for Mr. Hoover in the East is gratifying to his workers, friends who have known right along that he must win substantial support in the east or go to the convention with only a fringe of Far Western and Southern states.

Pleasing to Hooverites.

# CLASH BETWEEN STATE, COLONY

## Opposition to Court Order Against Receivership, Cause of Trouble

Lansing, Mich., Jan. 3.—(P)—The state and House of David colony grappled in the courts again today when briefs were submitted in support and opposition to modifying the supreme court's recent order prohibiting the receiver named by Judge Louis H. Fead from taking charge of the colony.

George E. Nichols, special state prosecutor, Wilbur E. Brucker, assistant attorney general, and George H. Bookwiler, Berrin prosecutor, charged again in the colony are approaching a crisis. They urged the supreme court to recede from its position enough to allow the receiver to make a complete inventory, to enjoin the colony from disposing of any property and to compel the posting of a bond high enough to cover all tangible assets.

"With internal strife rampant and the death of the leader an accepted fact any decree dealing with the House of David will be nullified unless some restraint is imposed. The death of Benjamin Purnell undoubtedly will be a revelation and disillusionment to the members. Followers of Purnell are in conflict with Queen Mary and Francis Thorpe.

"There will be a general effort on the part of each faction to get all it can," the state brief averred.

W. J. Barnard and H. T. DeWhirst, attorneys for the cult, returned with a stinging brief in which they charge the language of state's attorneys was insulting.

**May Redeem Bond**

"The state is attempting to force government paternalism upon the House of David," the defense brief asserted. "The language of counsel for the state savors of an eleven hour political canard of a ward healer. It is a direct insult."

The brief asserted the average net income of the colony is between \$10,000 and \$12,000 a year. The only difference made by Benjamin's death was that \$70,000 posted as bail bond for which when criminal warrants were pending may possibly be released to the colony, the defense declared.

The state has no proprietary interest in the colony and should not attempt to force upon it the receivership decreed by Judge Fead while an appeal is pending according to the colony attorneys.

"More people are robbed by receiverships than by stick-up men," the brief concluded.

**WILL REMOVE BODY.**

Benton Harbor, Jan. 3.—(P)—The remains of Benjamin F. Purnell, deceased king of the House of David, will soon be removed from their temporary resting place in the Fred H. Martin undertaking rooms here, and taken back to the colony where the bearded followers of the self-styled seventh messenger are preparing his tomb.

Martin said today that Purnell's body would probably not be kept longer than early next week, and will be committed to its final resting place before next spring when the colonists will erect an elaborate mausoleum. On Thursday of this week, Mr. Martin announced, a group of Benton Harbor business men who knew Purnell in life will be invited to view his body to satisfy the public of the identity of the cult ruler who died last month after a lingering illness which had reduced him to an invalid when he was captured at the colony in November, 1926, by Michigan state police. Following Benjamin's death, which was kept a secret by his followers until announcement of his demise was made three days later by his physician, Dr. C. N. Sowers of Benton Harbor, the more ardent followers of the faith awaited his resurrection, which failed to occur. The local authorities then demanded that customary steps be taken to prepare his remains for interment.

**Believe Detroit Police Officer Was Murdered**

Detroit, Jan. 3.—(P)—A theory that Patrolman George C. Buhler, 25, whose body was found in a vacant foundry building was murdered and did not take his own life is being followed by police officials investigating his death.

Buhler's body, his clothing encrusted in snow and ice, was found by a group of children playing in the building. There was a bullet wound in his head and his revolver, with one cartridge discharged, was found nearby.

A post-mortem examination showed the officer died from a bullet from his own revolver. A six-inch cut in the crown of his cap and another cut in the back of his coat also were found.

The murder theory was strengthened, police said, when Patrolman Peter Eisenback, one of Buhler's companions, said that at 11:30 o'clock last night Buhler and he agreed to meet at 1:15 a. m., and that Buhler did not appear.

Officers at the Scotton station where Buhler was stationed, said the patrolman answered the roll call at 2 a. m., but Eisenback, who was there, declared Buhler was not present at that time.

## Supreme Court Passes Decision in Long Disputed Question

Lansing, Mich., Jan. 3.—(P)—The recurring dispute as to whether lake bottom and related lands are possessions of the state or the riparian owners, was settled by the state supreme court today when it again affirmed the state's absolute title.

The court held the land is being held in trust by the state for its more than 4,000,000 residents. The way for ejectment proceedings against those occupying the disputed property, of which there is an area of hundreds of miles was opened by the ruling.

The decision was made in the case of William P. Kavanaugh against John Baird, former conservation director. Kavanaugh claimed title to a strip relict land along Saginaw Bay. He named the property Alpin Beach, sub-divided and proceeded to lease cottages and lots. Baird insisted the land belonged to the state because it was below the original meandered line to which Kavanaugh's property extended, therefore was really lake bottom and belonged to the state.

The court agreed with the conservation head's view. While the opinion admitted that precedents might have been set in the other direction—that is, rulings have held the riparian owner also owns the relict land—the court took the position that the intention of Michigan provisions clearly was to keep the title in the people.

**Have Right to Water.**

The question of what arrangements may be made with occupants of relict land was referred to the conservation commission by the court in this paragraph:

"Whether further legislation is needed or whether the exercise of hard-headed common sense by the littoral owners and the conservation department will solve their problems was not questions for this court to determine."

The court explicitly specified, however, that riparian owners have the right to free access to the water, to build wharves to as long as they do not interfere with navigation and otherwise to have the use of the water.

The questions involved in the Kavanaugh suit were similar, in many respects to those in litigation relative to ownership and lease holds in the St. Clair flats.

# Presbytery and Heirs of Man in Court Over Estate

Detroit, Jan. 3.—(P)—The Presbytery of Detroit and heirs to James Joy who died in March 1910, were before Judge Glenn G. Gillespie of Pontiac, sitting in Wayne county circuit court, today asking for \$209,000 representing the accumulation from a trusteeship under the will of Joy.

By his will, Joy left his estate to his widow with provision that it go to the Presbytery at her death. She died in 1924 and when the estate was probated it was found that \$209,000 had accumulated from the capital. An order by the probate court that the accumulated fund be distributed among the Joy heirs was appealed by the Presbytery who claims the principal as well as the interest. The hearing was begun before Judge Gillespie.

# Hockey Career Result of Joke

Ottawa, Ont.—Alex Connell, goalkeeper of the Ottawa Senators, world's professional hockey champions, broke into hockey and started on a career that led to stardom through the kidding remarks of friend.

Connell just out of short pants, never had played hockey and had no particular ambitions that way, though greatly interested in the game, when he joined the Canadian army and went to camp at Barriefield, Ont. A friend of Connell's told the manager of a Kingston amateur team that he had a fine goal keeper in tow from Ottawa, and because it afforded some relief from the monotony of camp life, Connell joined in the kidding, and went out to practice.

**Was Poor Skater.**

After amazing everybody by playing a great game despite the fact that he wasn't a good skater and had to prop himself against the posts, Connell was asked to sign a form to play in the Ontario Hockey association, the leading Canadian amateur organization.

"I am not a goalkeeper," said Connell. "I never played a game in my life."

The manager ascribed the words to Connell's modesty, and insisted that Connell sign on the dotted line, which he did. He made his debut in Cornwall, Ont., and was a sensation until his regiment moved away.

**Becomes Star.**

His next goal keeping role was with Cliffhides of Ottawa, and even then Connell continued to take his role as a joke. After he had attracted attention in Ottawa he took his work seriously and began to study the opposing forwards and aimed to perfect himself.

Thereafter, Connell's rise was rapid and seven years after he stood in front of a net he was signed by T. P. Gorman, then manager of the Ottawa Senators, to succeed Clint Benedict as goalkeeper when Benedict was sold to the Montreal Maroons.

# Saginaw School Building Burned

Saginaw, Jan. 3.—(P)—About 400 children were left without school facilities when fire swept through the Potter school building here tonight. No one was in the structure at the time of the fire, which apparently started from the furnace.

Officials of the board of education estimated the replacement value of the building as \$60,000 and the insurance total at \$40,000.

**Bandits Take Gems Valued at \$35,000**

Detroit, Jan. 3.—(P)—Leo W. Welner, a wholesale jeweler, reported to police that two bandits held him up in his establishment today and escaped with jewelry valued at \$35,000. He said he was struck over the head with the butt end of a revolver when he resisted as one of the men started to tie him.

# Man Found Dead in Detroit; Met With Foul Play, Belief

Detroit, Jan. 3.—(P)—Police are investigating the death of an unidentified man, believed to have been an employe of the department of street railway, whose body was found today half submerged in a ditch beside a highway outside the city limits.

A theory that he was murdered and the body thrown from an automobile into the ditch has been advanced.

A sweater had been tied around the man's arms and the hands were bound. The uniform coat of the street car department was found near the body.

# HUMAN LIFE IS LENGTHENING

## Yale Professor Speaker at Race Betterment Conference

Battle Creek, Jan. 3.—(P)—Henry Ford and Mrs. Ford tonight attended the race betterment conference here, where ways and means of prolonging life are being discussed.

Prior to a program of speeches by genealogists and scientists, the automobile manufacturer and his wife assisted in a demonstration of old-fashioned dances.

Dr. Irving Fisher of Yale, principal speaker on tonight's program, declared the span of human life is lengthening so rapidly that the average American may expect to live to be an octogenarian.

Dr. Fisher declared some scientists even believed the average duration of life might reach 100 years in the year 2000. "It may be that a super-hygiene gland transplanting or other device or devices yet unknown will some day open up new vistas," he said.

"The only obstacle seems to be man's highly differentiated structure. There are so many parts to get out of order, the failure of any one of them reacts to cause the failure of all, meaning death."

**See Health Examination.**

Medical science in preserving the unit or individual is paradoxically contributing to race deterioration, Prof. Edward Alsworth Ross of the University of Wisconsin, said "In all previous stages of civilization fools and weaklings disappeared early but now they are not only kept alive but are assisted to maintain homes in which they raise their children," he said. "Beside saving worthwhile persons from consequences of their misfortunes, philanthropy is saving the unworthy from the results of their incompetency and misconduct."

Dr. Franklin H. Martin, director-general of the American College of Surgeons, predicted that within five years 50 per cent of the 125,000,000 persons in the United States would submit to periodic health examinations.

"This will make possible disease-free men and women," he said, "and increase the probability of the birth of disease-free children."

# 'CHICAGO MAY' IS ENGAGED

## Internationally Known Woman Criminal to Wed Criminologist

New York, Jan. 3.—(P)—The engagement of an internationally known woman criminal to marry the internationally noted criminologist whose inspiration she was in the preparation of a book on the famous women criminals of all time, was announced today.

May Vivienne Churchill, known to the police of three continents as "Chicago May" Churchill, assisted and inspired Netley Lucas, English criminologist, in the preparation of his book, "Ladies of the Underworld." Lucas today announced their engagement. The date for the wedding has not been determined upon, he said. Lucas came to New York recently to start a study of underworld conditions in the United States.

"Chicago May" Churchill has a police record which in the past thirty-five years included charges of blackmail, robbery and attempted murder. She is best known, however, as the associate of Eddie Guerin, who in 1902 was convicted of robbing the American Express company in Paris of several million dollars. Sentenced to Devil's Island for the crime, Guerin became the first man to escape from that penal colony.

In 1907, "Chicago May" was sentenced to fifteen years in prison and an associate named "Smith" to life for an attempt to kill Guerin in London. Smith was charged with the actual shooting, while Mrs. Churchill was convicted of inspiring the crime out of pique because Guerin refused to recognize her on the street.

# FOUND YEARS AGO.

Detroit, Jan. 3.—(P)—"Chicago May" Churchill, after dropping out of the public spotlight for many years, was discovered in a local hospital a year ago, undergoing treatment for a minor ailment. She was recognized by a Detroit police woman, who many years ago, served in the probationary department of a New York court. Among the delinquents who had come to her attention there had been "Chicago May."

Mrs. Churchill, who is about 55, had been living here for several years and was engaged in literary work. She left here several years ago, according to authorities. She lived quietly here and at no time was under surveillance of any kind, police said. She was said to have a substantial income from newspaper and magazine articles, which were syndicated throughout the world.

## Platteville, Wis., Jan. 3.—(P)—Wisconsin's lead mining district, which in its heyday was one of the greatest in the country, suffered another blow with the announcement that the Mineral Point Zinc company for many years the leading zinc firm in southwestern Wisconsin, is shutting down its mines.

The concern was merged with the New Jersey Zinc company, a \$50,000,000 corporation after 20 years' operation.

# HAKKI GIVEN PRISON TERM

## Lathrop Man Pleads Guilty to Manslaughter Charge

Alex Hakki of Lathrop was sentenced to serve at least four years and not more than 10 years in the Marquette branch prison by Judge Frank A. Bell in circuit court yesterday after he entered a plea of guilty to a charge of manslaughter in connection with the fatal shooting of his wife.

Hakki shot his wife through the top of the head during a fit of rage at their farm home in Lathrop on Sunday night, September 16, the woman dying from her wounds about three weeks later in St. Francis' hospital. Ever since the shooting, he has maintained that the shooting was accidental, that he intended only to frighten his wife when he picked up the rifle and pointed it at her.

Mrs. Hakki, a few hours after the shooting, declared also that the shooting was accidental, but before she died she changed her story and told sheriff officers that the shooting was wilful.

Testimony at the coroner's inquest indicates that Hakki was jealous of his wife, and that the couple often quarreled.

Upon the plea of Hakki's attorney, Thomas J. Riley, the original charge of murder was dropped, and the defendant pleaded guilty to the manslaughter charge.

Five men entered pleas of guilty to charges of prohibition violation, while two entered pleas of not guilty. John Coghlan was placed on probation for two years, one of the conditions of the parole being that he serve 90 days in the county jail starting at once. Joseph Chenard, Asa Tatrow, Dan Trozo and Louis Kopp were also placed on parole for two years, and were ordered to pay court costs amounting to \$100 each.

The cases of Daniel Russell and John Lindstrom, who pleaded not guilty to charges of prohibition violation, were continued to the April term of court.

Adolph Quist, charged with manslaughter and negligent homicide in connection with the death of Rudolph Johnson when Quist drove a truck into an E. and L. S. train, was arraigned yesterday morning. He stood mute, and the court entered a plea of not guilty. The case was continued to the next term of court.

T. A. Montgomery, charged with issuing a bogus check, was placed on probation for two years. He issued a check more than a year ago, defrauding the Fair Savings Bank out of \$50, but it was explained by the court that he had made restitution for the offense by paying back the money.

Larson Sent to Jail. Gilbert Hood, 19, of Gladstone headed guilty to a charge of statutory burglary, and was placed on probation for two years, but must serve ninety days in the county jail. The youth confessed to breaking in and entering the Gilbert Erickson grocery store in Gladstone on the night of October 14.

Pat Kelley of Munising, a man in his sixties, and the father of 11 children, also was placed on parole for two years after he pleaded guilty to a statutory burglary charge in connection with the entering of the Louis Kopp soft drink parlor in Gladstone a short time ago. In dealing mercy to the defendant, Judge Bell stated that Kelly should not have to pay the court costs or serve any jail term.

Carl Larson of Marquette, who was charged with issuing a bogus check, will have to serve 90 days in the county jail in addition to being placed on probation for two years. Larson, also known as Rudolph Pearson, issued a worthless check to Earl G. Fisher of Gladstone, defrauding him of \$20.

The case of Peter Foy of Garden, charged with violation of the prohibition law, was continued owing to the illness of the defendant.

## ROTARY HEARS FR. SEIFERT

### Fingerprints Infallible, Says Former Prison Chaplain

The infallibility of the fingerprint as a means of identification was impressed upon members of the Escanaba Rotary club yesterday, by Rev. Father Seifert, of Dargett, in a most interesting address before that club at its regular weekly meeting, in the Delta hotel, at noon yesterday. Father Seifert pointed to the recent identification and capture of Edward Hickman, as the abductor and murderer of Marian Parker, through finger prints left by Hickman at the scene of his crime, as definite proof of the efficacy of finger-print identification, was known to be in common practice at least 3,000 years ago. He related the history of the study of finger-prints and told of the positive science to which that study has been advanced to today.

Father Seifert distributed among his audience, enlarged photographs of his own finger-prints and directed the attention

of the members of the club to the widely varying lines and dots that marked each finger. He said it had been proven that no individual in a total of 64,000 million carried identical finger prints and showed that the growth of the population of the world would never make it possible for two individuals living in the world at the same time to have the same finger prints.

Personal Experiences. Father Seifert punctuated his address with the relation of personal experiences, as a student of finger-prints while serving as chaplain of Marquette prison and gave a great number of instances in which identification of criminals was made possible by the finger-print method. Father Seifert's address was both instructive and highly interesting and when he had concluded the speaker was accorded a decided ovation.

Kenneth Wilson and Arol Beck, high school students, appeared before the club yesterday in costume and gave a most entertaining impersonation of the Two Black Crows.

SALESMAN SAM

A FAR-FLUNG INDUSTRY.

The growth of the fur industry in the United States has been one of the phenomenal advances in a trade that caters largely to the whims of women. Figures on this growth are astounding—in 1914 production of fur goods in this country amounted to about \$44,000,000; now it is well over a quarter of a billion dollars.

Next he made an appearance in Marinonnie where he was observed chasing caterpillars down the dusty sidewalks. Yesterday he was seen sitting on a fence in Escanaba. Hardy old bird! What?

The Blazing Horizon

He often fretted at such an existence, but reflecting that it was of his own shaping, he grimly stuck it out, refusing to make any appearance in Marinonnie where he was observed chasing caterpillars down the dusty sidewalks. ing in the east—maybe Philadelphia. Meanwhile you're to take things easy till you hear from me. I don't want to lay eyes on you again until everything's in shape. Tony did not hear from him until a month later, when he hurried to Philadelphia in response to Pawnee Bill's wire that everything was in readiness. Even Cherokee was there, Lillie informed him proudly.

IN NEW YORK

New York.—Almost every morning, if you haunt a certain Broadway corner, you will see a smallish, alert man, well groomed, with well whitened hair and eyes that reflect, under close inspection, a capacity for quick emotional change. You feel these eyes could fill with tears or twinkle merrily on a moment's notice. You feel he could tell a sentimental tale that would break your unsophisticated heart or could, with equal ease, relate one of those stories which begin, "Stop me if you've heard this..."

IT'S HARD TO BE WILD.

Modern youth has tried to be wild, just as wild as gossip would have it be, and found it just couldn't be done. That is the testimony offered by a co-ed at a western university. Here is her explanation: "Youth likes to pose and gets a thrill out of what Mrs. Grundy has heralded as the moral decline of the younger generation. Youth even has experimented with the various standard forms of devility Mrs. Grundy laid at its door, and not only found distaste for the whole business, but found it physically impossible. Thus, common sense has convinced this so-called wild younger generation that there is no pleasure or profit in attempting to live up to the 'flaming youth' talk so generally heard."

WHY NOT BE READY?

When the S-51 was sunk off Block Island, New York, naval men said that the only ship in the world specially constructed to lift a submarine was the property of the German government. Now another disaster has been added to the navy's roll of terrible accidents. When the S-4 went down off Cape Cod, there not only was not such a ship with in reasonable reach, but there wasn't even a pontoon derrick ship within miles. The pontoons, that were used in 1925 in salvaging the S-51, were stored in the Brooklyn navy yard and were towed to Provincetown by slow tugs.

THE NEW YORK state health commissioner declares that automobiles soon will be equipped with speed governors, limiting them to twenty miles an hour. If the twenty miles an hour is intended as a minimum, we suspect that the doctor is jolly well right.

ONE DISADVANTAGE of being a mere man is, that when he arises to late to comb his hair, the neighbors don't think he is wearing a new kind of storm-tossed bob.

Something of the desperation that enters into the competitive business spirit of New York is to be gained from this tale that a young lady entertained me with recently: For some months a generous spender had been taking her about. Almost every day there came from a high-priced Park Avenue florist a handsome bouquet of flowers. The friend was called away on business and hence, for several weeks no flowers were forthcoming. Whereupon the young lady received a frantic note from the florist that went something like this: "Realizing what fresh flowers mean to cheer and happiness of one accustomed to receiving them, we would appreciate your sending us the present address of Mr. William X..."

The long-haired man appeared not to have heard him. When he spoke he said, "Tony, maybe there is such a thing as destiny, after all. This letter's from the Chamber of Commerce of Wichita. They want me to head up the Boomers, perfect an organization and take them into Oklahoma. The letter finds me without funds, without a job, without prospects. #### New Departments.

The 1928 publication contains all of the essential features of previous issues together with such amplifications and improvements as have been suggested by experience.

The several major departments are the miscellaneous department which includes a variety of information on such as city government, county officials, banks, cemeteries, churches, hospitals, incorporated companies, miscellaneous societies and clubs, newspapers, etc. This is followed by the street guide and householders directory, a numerical department whereby it is easy to immediately locate anyone sought and the quickest method of reaching that point. Next comes the alphabetical list of citizens, business firms and corporations. In this section, Escanaba is entirely separate from Gladstone and the list of other towns and villages in Delta county.

A classified business directory is also embodied which shows the various manufacturing, mercantile and professional occupations, compiled in alphabetical order under headings appropriate to the class of industry pursued. Another valuable portion of the book is the farmers' directory of Delta county which lists alphabetically the farmers and other citizens residing in the rural areas of the county, giving names, section, acreage, assessed valuation and name of township and postoffice address.

### Find Mosquitoes That Are Stingless

Paris (AP)—Mosquitoes that don't sting are running out those that do, in the south of France.

A new race of the stingless variety is being propagated, the Academy of Sciences was assured recently by Professor Louis Eugene Bouvier who presented the work of Dr. Legendre.

This modern mosquito, known to his Latin-speaking scientific friends as "culex papyleneus," was found by Dr. Legendre in the northern part of France. For two years he has cultivated them in the Pons region, west of Marseilles, and they are replacing their stinging brethren so effectively that their is hope of an era when mosquitoes will be in good repute.

H. D. Brackett, head of the firm which distributes Chevrolet Motor cars in this territory, estimated yesterday that upwards of 2,000 persons visited the show rooms at 601 Ludington street Sunday and Monday and looked over the new models which Chevrolet is making this year.

The cars were closely inspected by many of the visitors and comments of the callers indicated that interest in the Chevrolet line is very keen. Mr. Brackett declared. There was no special program. Open house was maintained over the New Year week-end.

# BLAZE CAUSES \$10,000 LOSS

## Two Families Are Made Homeless in Hutte Garage Fire

Two families were made homeless and a loss of about \$10,000 was suffered when fire of unknown origin virtually destroyed the two-story Hutte Motor Service building, 505 Ludington street, yesterday afternoon.

Seven automobiles and considerable garage and office equipment were severely damaged by the blaze, which called out the fire department at about 2:30 o'clock and kept the fire fighters busy for almost five hours.

Occupants of the second story were unable to save any of their possessions, for the building was blazing furiously shortly after the fire was discovered. Despite the fact that the fire had gotten a good headway, the firemen by playing three streams of water at points of vantage were able to prevent the razing of the building. The flames crept through all parts of the structure, however, making it only a charred shell.

Mr. and Mrs. John Nicholson and four children and Mrs. Charles Duncan and her eight children were given shelter last night in a local hotel and with friends. An appeal for mattresses and other bed material, wearing apparel and food was issued by local charity organizations who are aiding the two unfortunate families. Anyone wishing to contribute articles for their aid is urged to notify the city clerk's office.

The cause of the blaze is undetermined. Albert Hutte, proprietor of the garage, was not at his place of business when the fire started. About 2:30 o'clock, he attempted to telephone the garage on several occasions and was advised by the operator that the line was busy. Sensing that something was wrong, he drove to the garage and found it ablaze.

The Nicholson family did not notice the fire until smoke started issuing from the floor, a fact that leads firemen to believe that the fire did not start on the second floor. One of the Nicholson boys carried his mother downstairs as the aged woman was unable to find her way from the building because of the heavy accumulation of smoke.

Damage to the garage property is estimated at \$6,000, while the damage to the building and household goods upstairs is fixed at about \$4,000. One of the cars burned was a new Chandler sedan, which arrived a few days ago from the factory. Mr. Hutte said last night he could probably reclaim about \$2,000 worth of property from the ruins. The building is owned by M. Peron.

Seven automobiles, which Mr. Hutte had stored in the adjoining building known as the old Hessel stables, were not damaged. The brick wall prevented the spread of the flames from the garage building. An entrance between the second floors of the two buildings was blocked by a steel fire-proof door, and this was kept closed while the fire was in progress.

The Hutte Motor Service business will be continued at the Hessel building, 507 Ludington street. Yesterday's fire came while Mr. Hutte was moving from the old location to his new place of business.

A London firm of vermin destroyers last year killed more than 60,000,000 rats in British ports.

**Wedding Anniversary.**  
Mr. and Mrs. Edward Packenham, 613 So. 17th street were made aware of their popularity Saturday evening, December 31st when a group of thirty-five friends came to their home to surprise them on the occasion of their tenth anniversary of their wedding.

**Press Family Party.**  
Eighty members of the Escanaba Daily Press family—employees and their wives or partners—participated in the fourth annual Press Family party in the Delta hotel Monday night. Following an elaborate dinner, there was an informal program. John P. Norton introduced each member in an appropriate manner. Miss Adrienne Tounignant gave a series of impersonations of pertinent personages; Hal Rammel demonstrated his new musical discovery, the "Rammelphone," and offered a few problems in leggermain; C. S. Curtis, Associated Press telegraph operator, gave an eloquent and forceful address on the value of friendliness and cooperation, and Miss Margaret Cooper played a delightful piano solo.

The evening closed with dancing with a splendid musical program by the Blue Aces.

Miniature newspapers, "The Daily Press," were used as programs.

## RIFLEMEN TO MEET FRIDAY

Organization of a rifle club, which, it is planned, will become affiliated with the National Rifle Association of America, will be effected at a meeting of gun enthusiasts who will meet at Nerbonne's barber shop at 7:30 o'clock Friday night.

Considerable interest has been shown since the plans for the formation of the new organization were announced a few days ago, and indications are that an active body will be organized here.

In two sharpshooting contests held here recently, several Escanaba men demonstrated that they are good shots with the rifle and, no doubt, will hold their own if the local club should compete with other clubs in this section.

With the signing up of members and the election of officers Friday night, the next step will be to apply for the allotment of equipment which is given by the U. S. government to such organizations. It is felt that if the club is organized and application is made to the government at this time, that the necessary equipment will arrive here in time for the summer activities of the local club. All those interested in the project are invited to attend the organization meeting.

# Give Your WANT ADS Every Chance to Pay Out

**T**HERE are four things to keep in mind in using Want Ads. They are: the market, the price, the particular character of your offer, and the *wording of your Want Ad*. Assuming that your market and price are fair and that your offer is a desirable one, the greatest factor for the consideration of the Want advertiser is the *wording of his offer*.

A Want Ad is a little thing, but its small size does not indicate that it can be constructed without effort or thought. Want Ads are remunerative in direct proportion to the amount of effort and thought that is expended on them.

The next time you write a Want Ad make a list of the important factors of your offer. In the panel above you will find lists of details of such classifications as Real Estate, Automobiles, Help Wanted, etc., which will help you in picking out the important features of your offer. When you have listed all the outstanding features of your offer, make a new tabulation in which these various factors are recorded in the order of their importance. Then write your Want Ad. Or, better yet, come in, or phone in, and let one of our experts give you their professional assistance—without charge, of course.

### OLD '27 TAGS GO IN DISCARD

Brisk business was experienced all day yesterday at the State Savings bank, local branch for issuing automobile licenses, and by night green and white plates had replaced most of the black and red ones now in operation at Manistique.

No arrests were made by local police, but a number of drivers were warned that use of 1927 license tags was in violation of the state law, and a few yellow summons tags were handed out by Chief of Police John A. Peterson.

In spite of the chilly weather that prevailed Tuesday, a number of motorists were seen stopping on the street to attach their new 1928 plates.

Miss Maude Witter left Monday for a two weeks' visit with relatives and friends at Detroit.

George Kinzing left Monday morning on his regular business trip to Lower Michigan.

A baby girl was born December 26 to Mr. and Mrs. William Bessner at the Thomson hospital.

After a holiday vacation at Manistique, W. J. Bebeau, Jr., left Monday morning for Detroit.

### BRANCH RICKEY ON MANISTIQUE LYCEUM SERIES

Patrons of the Manistique lyceum course, which is sponsored by the Manistique Woman's club, are anticipating one of the biggest numbers ever offered here for January 23, when Branch Rickey, manager of the St. Louis "Cards," will speak from the local platform. This address is regarded by many as the most notable attraction of the entire entertainment series.

In many ways, Branch Rickey is an exceptional genius. He is a combination of baseball player, scout and manager; football player and coach; lawyer, soldier, orator, hunter, bank director and student of men and events. He is the developer of the "Knot hole gang" in St. Louis, whereby the boys of that city have had an opportunity to "pay their way" with clean living.

Along with his friend, Christy Mathewson, Rickey entered the U. S. military service in 1918, and was commissioned major in the chemical warfare service. With Mathewson he went across and rendered valuable service to the allied cause. It was shortly after his return that he assumed active management of the St. Louis team.

In his earlier days Rickey was a big league catcher—first with the Cincinnati "Reds," for a brief period, and later with the St. Louis and New York Americans. For St. Louis, in 1906, he batted slightly under the .300 mark. Devotees of the national pastime—whether "fans," managers, players or sport writers, have never questioned that Rickey is a "man with the bark on," who plays a clean game, and plays to win.

Although the date is not specifically noted on season tickets, the price of the course includes this important number, and all holders of admission tickets for the series may attend this lecture without additional charge. Because of Rickey's prominence in baseball circles his appearance here is expected to draw a record crowd.

### Manistique Debate Team Goes to Soo

The Gladstone Rotary club members enjoyed vocal and piano selections by two well-known artists Tuesday noon at the regular Rotary club luncheon at the Rialto building.

Earl Wetteland of Chicago, noted Scandinavian pianist, and known especially to radio audiences, played a number of selections and James J. Moon of Manistique, tenor, sang a number of songs.

"I know, George!" Tears unexpectedly stung her eyelids. Maybe it would have been better for her if she had married George. Except that she didn't love him. But what had love brought her except turmoil and pain and now this supreme agony?

"Suits me," George agreed cheerfully, speeding the car up a bit as if he realized the urgency of her need for solitude. "Now, why not anything right now. But you must promise me one thing, and keep your promise. Promise me you won't tell Bob I'm here. If you don't promise, I'll run away again as soon as you've left me."

UPBAYS PLAY HERE FRIDAY

U. P. Cage Squads to Swing Into Action After Holiday Rest

High school basketball squads of the peninsula will take to the courts again on Friday night after enjoying the usual Christmas holiday rest.

The battle that commands the attention of basketball fans in this section is the coming encounter between the Escanaba and Gladstone squads on the Hilltoppers' home floor. Coach Eldon Kell has been turning out snappy quintets since he took over the reins at the Upbay school, and his squads have had the edge on the local cages. This season, however, Coach C. B. Roels has produced a team, which judging from its showing made against Ishpeming recently, should forge well in front in U. P. competition.

The main event which will start at 8:15 o'clock, will be preceded by a preliminary battle between the Escanaba and Gladstone Reserves. This first game is scheduled to start at 7:15 o'clock.

Other games on the card for Friday night are: Iron River at Norway, Lake Linden at Calumet, Houghton at Palmsdale, Dollar Bay at Hancock, Kingsford at Niagara, Wis. Negaunee at Marquette, Baraga Parochial at Rock, Manistique at Munising, Bergland at Wakefield, Sault Ste. Marie at Newberry, Gladstone at Michigamme, Republic at Champlain, Iron Mt. at Menominee, Powers at Quinnesec, Bessemer at Stambaugh.

Sarazen Keeps His Miami Beach Open Golf Crown

Miami Beach, Fla., Jan. 3—(AP)—Gene Sarazen, national open champion today successfully defended his Miami Beach open golf crown winning that event with a card of 292 for the 72 holes of medal play.

Johnny Farrell, New York and St. Augustine professional, was second with 295, while Joe Kirkwood, the Albany, Ga., professional, was one stroke behind him in third place.

Willie Klein, Miami professional was fourth with 298.

The NUT CRACKER by Joe Williams

It is suggested that the uniforms of the Cleveland Indians (black and white) is too somber and a bit of color is proposed. Maybe the scribes think the boys have been under the old wraps too long.

The proposed change should be carried out imaginatively among several other big league ball clubs. The Boston Braves might wear blankets to indicate they're just out of the sidelines and not really running.

Colonel Ruppert's brewery team might be decorated with a handsome schoner emblazoned on every man's breast—and we don't mean ship.

The Phillies could wear khaki, so the dust wouldn't show.

For Brooklyn, whose boss never has been called spendthrift, we suggest the uniforms have an embroidered design of Uncle Wilbert looking through a waste basket for a two-cent stamp.

For some of the clubs, we recommend a uniform of khaki and blue.

Now that Jack Britton has come back to the ring, we expect to receive several inquiries about Jem Mace.

Stan Zbysko has sailed for India, where he will give several exhibitions for the Rajah of Punjab. If the Rajah can stand it, so can we.

A Christmas charity boxing show in Detroit drew \$8761 and the boxers cost \$8900. The children really owe them something.

Maybe when Gene Tunney said he wanted a couple of "tune-up" battles early in 1928, he really meant he was after the notes.

The Britisher who said the United States should double its air force probably never even has heard of Jack Sharkey.

Mr. O'Goody just came in and said he heard that the reason the Navy wasn't going to play the Army in 1928 was that the Army boys were planning to use Jack Pershing in the backfield.

Four World Famous Stars Present Costliest Hour in Radio History

This shows how four great headliners will entertain millions of fans on a single Dodge program tonight. Radio in 1928 will start with what is considered the costliest program ever put before the mike. This will be the single hour of broadcasting from WEAF over an N. B. C. network of 33 stations, tonight, from 10:30 to 11:30 eastern time.

Spartans Defeat Ohio Northern

East Lansing, Mich., Jan. 3—(AP)—A brilliant short pass offense combined with a five man defense which was impenetrable until the middle of the second half gave Michigan State its first victory of the season over the Ohio Northern university basketball five here tonight by a score of 39 to 25.

WOLVERINES BEAT BRADLEY

Ann Arbor, Jan. 3—(AP)—The University of Michigan quintet, although playing ragged basketball, easily defeated Bradley Tech, Illinois, 46 to 30, in a basketball game here tonight.

Escanaba Aces to Play Garden Five

The Escanaba Aces will go to Garden tonight for a return basketball game with the speedy Garden quintet. The Aces were beaten by Garden 23 to 24 recently in what fans of the Cross-bay peninsula described as one of the speediest and most exciting encounters ever staged there.

Cuts Three Veterans Loose. Toledo released three veteran ball players—Everett Scott, Emil Meusel and Joe Bush—at one swoop recently.

2 CHAMPIONS IN SPOTLIGHT

Canzoneri Signed to Meet Benny Bass at New York January 27

New York, Jan. 3—(AP)—Rapid shifting of pugilistic fortunes brought two champions back into the metropolitan spotlights of pugilistic arenas today, one contender scurrying west in search of a heavyweight fray to set the stage for clearing all doubt as to who should start the world featherweight crown.

Simultaneous with the matching of Tony Canzoneri, New York state athletic commission entrant in the featherweight sweepstakes, and Benny Bass, color bearer of the National Boxing association, for a 15-round match at Madison Square Garden, January 27 to settle once and for all the question of the featherweight supremacy, Tex Rickard announced "big doings" in the welterweight division, Gene Tunney neared New York from Miami, and Jack Delaney's new manager reached Chicago in quest of a bout with the big marne.

Ace Hudkins, the Nebraska wildcat, enters the picture as the probable opponent for Joe Dundee, welterweight champion, in a titular match scheduled for next March in the Garden. However, Hudkins, recently reinstated after a long suspension, must first defeat Lew Tendler, Philadelphia southpaw, January 10, and Soldier Sammy Baker, army sharpshooter, some time in February.

Tunney came north from his winter vacation to sit in at the "all-champion banquet" to be staged by Rickard's "600 millionaires" club tomorrow night. Joe Jacobs, who recently announced the purchase of Delaney's contract from Pete Reilly for \$50,000, left New York after failing to convince Rickard that the Bridgeport Warrior's proper place now is in the thick of the current heavyweight elimination tournament.

Bud Taylor, Terre Haute scrapper, was restored to good standing in New York. This was an automatic result of Taylor's fight with Tony Canzoneri here last week. He had been under ban until fulfilling a long-standing contract to fight the New York Italian.

### COURT JURORS ARE EXCUSED

#### No Jury Trials During January Term of Court Here

Notices that they are excused from service at this term of circuit court were sent out to the jurors when it developed at the opening day of court yesterday that there would be no trials by jury this term.

With most of the criminal cases disposed of yesterday through the entering of pleas of guilty by the defendants, it was indicated that this term would be sort-lived.

A few criminal cases remain to be acted upon, and it was expected that chancery cases would be taken up today.

In the calling of the calendar of law cases, the following were continued by consent of both parties in the actions to the next term of court: Globe Indemnity Co. vs. Joseph Richer; Wolverine Delta Motor Co. vs. August Goodman; Collins Land & Lumber Co. vs. Oliver H. Neveau; Clara Bonz vs. Cloverland Auto Co.; E. C. Watson, DeGrand Motor Co. and Packard Motor Car Co.; Charles McKoskey vs. the Minneapolis, St. Paul & Sault Ste. Ry. Co.

A motion for dismissal in the case of George D. MacKillop vs. the Holland Furnace Co., Alfred Johnson and Albert Morin was denied, and upon application of the defendant the case was continued to the next term.

The case of Frank O. J. Lindley vs. Isaac Boniface was dismissed.

### Corporation Law Invalid, Supreme Court Declares

Lansing, Jan. 3.—(P)—The state law requiring corporations to pay the state franchise fee when renewing their corporate life was declared invalid by the state supreme court today.

The old law, enacted in 1891, required renewal of corporate franchises with the payment of the fee every 30 years. In 1921 the legislature enacted a new law governing corporations and omitted, intentionally or otherwise, the fee provision. The court held that the 1921 act repealed the old statute, and that no fee may be imposed until the legislature says so.

According to Mrs. Alice Alexander, head of the state corporation division, the ruling will not seriously affect the state providing the fee provision into the law. She stated refunds will not be made to corporations which have paid the renewal fee since 1921, except the C. N. Ray corporation which took the appeal to the supreme court. Not more than 50 corporations renew annually, she estimated, and in most cases the fee is not large.

### BY THE NEA BOOK SURVEY

After a year in which thousands of trifles and less-than-trifles constituted the major portion of a colossal book output, it is comforting to find two spokesmen of our own fluctuating point of view.

On one hand is Joseph Hergesheimer, in the current American Mercury, upholding what we have long considered the finest presentation of what novelistic aims should be, to wit: James Branch Cabell's, "Beyond Life" and the essays by this same writer in "Straws and Prayerbooks."

On the other hand is Upton Sinclair, still brandishing his crusader's sword in a volume titled, "Money Writes!" (A. and C. Boni). At various times Sinclair has turned his attention to the Chicago packers, the newspapers, the American universities, the money powers, and all that. Though the pen may be mightier than the

regular Friday night dance this week.

**DeMolay Supper and Initiation:**—The Delta Chapter, Order of DeMolay, will hold a supper at the Masonic Temple tonight at 6:30 o'clock. Masons and fathers of DeMolays are invited to the supper. Following the supper, new candidates will be initiated into the order. Members of the Masonic fraternities are especially requested to be present at this meeting as they will be given a chance to see the degree work of the DeMolay.

**Epworth League at Bark River:**—The Bark River Epworth League of the First Methodist church will meet at the home of Mr. and Mrs. Clarence Anderson of Bark River at 8 o'clock Thursday evening.

**New Year Party.**  
Miss Marbey Boes of Wells entertained a group of friends at a New Year party Saturday, December 31. Games were played after which a lunch was served.

sword, it is Sinclair's conviction that gold is mightier than the pen. Hence, says he, the young idea is owned body and soul before it starts.

"I plead with the young writer to identify himself with the real ideas of awakening industrial democracy," he shouts. "The artist should produce wholeheartedly for the whole of mankind instead of with greed and contempt for a greedy and contemptuous group—that is precisely the difference between a basis for true art and a basis for false art."

We sympathize to some extent with the general notion. All workers and no players makes Jack a dull bookishness, so far as we are concerned. There is a field of hymnals to the subway builder, the skyscraper heroes, the symbols of the machine age, the Utopians and the class strugglers.

Our own preference in novels leans, however, in the direction pointed by Cabell in "Beyond Life," wherein he advises us that the main, if not sole, purpose of imaginative writing is to afford escape for those whose lives come in constant contact with the struggles that the Sinclairs prefer to portray.

Hergesheimer, in defining Cabell, also defines Hergesheimer, who seems to us to have been gradually falling away since "The Bright Shawl." Sinclair spouts of what the artist should do, but Hergesheimer points out: "No one has been thoughtful enough to define art... beauty and art, like the blaze of the sun, transcend the literal power of words..." Hergesheimer advocates objective creation. He sees a "tragic discrepancy between reality and what is within the writer." If there were a satisfactory world

about him, there would be no necessity for a man "to condemn himself to the solitude of the pen." Therewith is an agreement with Sinclair that things are not what they might be. But another course is suggested:

"An imaginative book, as Cabell has so often made clear, is a way of escape for its author, a struggle against the fatality of the flesh, an anodyne. . . . A novel, in short, is as good as the man that writes it. . . . Even the greatest wisdom is no deeper than a mirror." Cabell's manner is "an armor, rather than an expression of cordiality." Cabell's manner plain that "he is not responsible for common faults of humanity" and, hence, does not pretend to be sympathetic in his attitude.
