WAGE BATTLE WON BY P. M.

Plea of Rail Men to Have Pay Raise Retroactive Denied Detroit, Jan. 11.—(AP)—Employees of the Pere Marquette railroad today lost their fight to have recent wage increases made retroactive, when the federal board of arbitration held in favor of the carrier. The Pere Marquette on April 16, 1927, granted a wage increase of seven and one-half per cent to its engineers, firemen, hostlers, hostler helpers, conductors, trainmen and switchmen. Later, 19 railroads in the same district granted the same increase to firemen, hostlers, and hostler helpers, effective February 1, 1927. When the Pere Marquette increase was finally granted the employees began a fight to have it made retroactive to the same dates on other roads, declaring they were entitled to such action on the basis of equity with the other roads. This equity was denied by the Pere Marquette which pointed out that 14 other roads in the same territory did not occur in the December 1 increase, and 16 were not affected by the February 1 increase.

St. Stephen's Parish Holds Inspiring Annual Meeting

St. Stephen's Episcopal church has completed a \$23,000 church building project with about \$5,000 indebtedness remaining. The building committee, headed by W. R. Smith, told members of the parish at the annual business meeting held Tuesday night. Mr. Smith reviewed the project from its beginning, traced it through, financially and physically, and gave the St. Stephen's parishioners some highly interesting details of obstacles that have been passed over in completing the building. Although no solicitations have been carried on outside of the parish, some voluntary contributions have been received, but by far the greater portion of the building funds have been raised quietly among the members.

Tribute to Committee.
Discussing the new church, the rector, Rev. John S. Evans, in his annual report, paid the following tribute to Mr. Smith and his committee:

"It was a perfect combination of artistic sense which took a decrepit building and after looking at it, saw it shrouded with the exterior beauty which now marks its reality; and the business acumen which put the construction across on a financial schedule which actually held good.

"These are such obvious achievements that it is scarcely necessary to mention them. To build something new, from the ground up, with hands not tied by old foundations and have a thing a beauty result is comparatively easy. But to take an architectural liability with little grace of line or beauty of form and being tied to that; to conceive and to create such an asset as is now a reality, is true genius.

"And I suppose still more rare in the history of buildings, either public or private, is financial judgment so sound that the preliminary estimate of the cost actually held good from beginning to end. To estimate a reconstruction of \$23,000 and then to go ahead and do it for \$22,000 is—we, like the farmer and the grafter, 'They ain't no sitch cropper.' But in spite of precedent, the unprecedented is precisely what Mr. Smith and his colleagues actually accomplished."

At this point, Mr. Smith and the members of his committee were given an enthusiastic rising vote of appreciation and thanks.

The new building, Mr. Evans told the congregation, is the result of "years of dreaming and hoping of past rectors, together with years of constructive and devoted efforts on their part." He mentioned, as among the builders, the Rev. Mr. Green, Rev. W. J. Datson, Rev. A. H. Wilder and Rev. A. I. Ernest Boss.

Plans for Future.

Plans for the future use of the new building were outlined:

"The church school," Mr. Evans said, "will have two departments; the upper division which will meet at 9:30 o'clock each Sunday morning, and the kindergarten and two lower grades which will meet simultaneously with the late church service. This will permit parents of the younger children to accompany them to and from the church.

"It is my hope to see the men of the parish meet occasionally with the vestry in combined social and business sessions. I do not believe in men's church clubs. Most men (and women) are almost clubbed to death nowadays. The vestry would be a sufficient foundation for the occasional association of the men who are interested in the church. The church should be a

sufficient center for men to get together on occasions. The church already is organized. That should be enough.

"I am led to speak a word about music. The boys' choir is a part of the church school program. I can see no reason why the boys' choir should not continue to be the pride of my heart. I have never attempted boys' work before and I want to say right now to you men that if you want to get real thrills and a new kick out of living, just jump into a little amateur boys' work of your own. We could make men a new earth if we would do, in an amateur and perhaps bungling way, what we try to pay to have done by secretaries and professional up-lifters. We would be more sincere, at least, and boys can forgive all manner of bungling if a sincere spirit is back of the effort.

Officers Re-elected.

"The boys are being exposed to the church and to the church, every agency, sooner or later, must go for the stuff out of which real character is built. The boys are getting, first hand, what too often comes second or third hand. Right teaching and belief are built right into the church edifice. Contact with it and exposure so specific as those boys are getting, will in most cases incurably infect them."

Mr. Evans also paid tributes to heads of other church departments, and gave some interesting statistics concerning the growth of the congregation. The fact that two of the young men of the parish now are studying for the ministry means, he said, "that St. Stephen's is going to be preaching long after those of us who are here are silent."

The following members of the vestry were re-elected: Misses Thomas, A. T. Hoffman, C. R. Henderson, W. R. Smith, W. J. Clark, C. W. Bissell, Sam Mills, C. E. Lewis, G. M. Mashek, C. M. Cuthbert, L. J. Jacobs and A. H. Groesbeck.

About one hundred persons participated in the most excellent dinner served by women of the parish, which preceded the business meeting.

Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Surgeon's Prescription Called **Moone's Emerald Oil Has Astonished Physicians.**

There is one simple and inexpensive way to reduce the danger of swollen veins and bunches, and get them down to normal, and that is to apply Moone's Emerald Oil night and morning, using the Moone's Bandage to support them during the day. People who have painful, enlarged veins should not neglect them for they sometimes burst and cause much misery and expense.

Moone's Emerald Oil besides being so marvelously antiseptic that it destroys germs and poisons caused by germs is such a remarkable healing agent that eczema, barbers' itch, salt rheum and other inflammatory skin eruptions go in a few days.

For years it has been used for boils, ulcers, abscesses and open sores that discharge and with the most perfect success. Any druggists will be glad to supply you.

AMUSEMENTS

AT THE DELFT

What would you think if you were told that some of New York's cleverest crooks had broken down the barriers of society and had invaded the realms of the upper class?

This is only a wee fraction of the plot that is interwoven for the basis of "Cheating Cheaters," the greatest comedy-drama production of the season, which

will be shown at the Delft again today.

With Eddie Gribbon and Erwin Connelly, an unbeatable comedy team, playing supporting roles to the intriguing blonde beauty, Betty Compton, it is no wonder that the house fairly shook with laughter. And in the next instant to be thrust into a spirit of depression as the handsome Kenneth Harlan has his lofty ideals of love shattered on the rocks of reality, all tends to hold the interest of the most critical audience.

Others in the supporting cast

are Sylvia Ashton, enacting one of her favorite mother roles, Lucien Littlefield and Cesare Gracina.

AT THE STRAND

Millions of motion picture fans, the world over, who have been longing to see Ramon Novarro in the role of a real Latin lover are going to realize this ambition when they see him in the stellar role of "The Road to Romance," a screen version of Joseph Conrad's most famous story, as well as his most colorful melodrama. Novarro, who has just com-

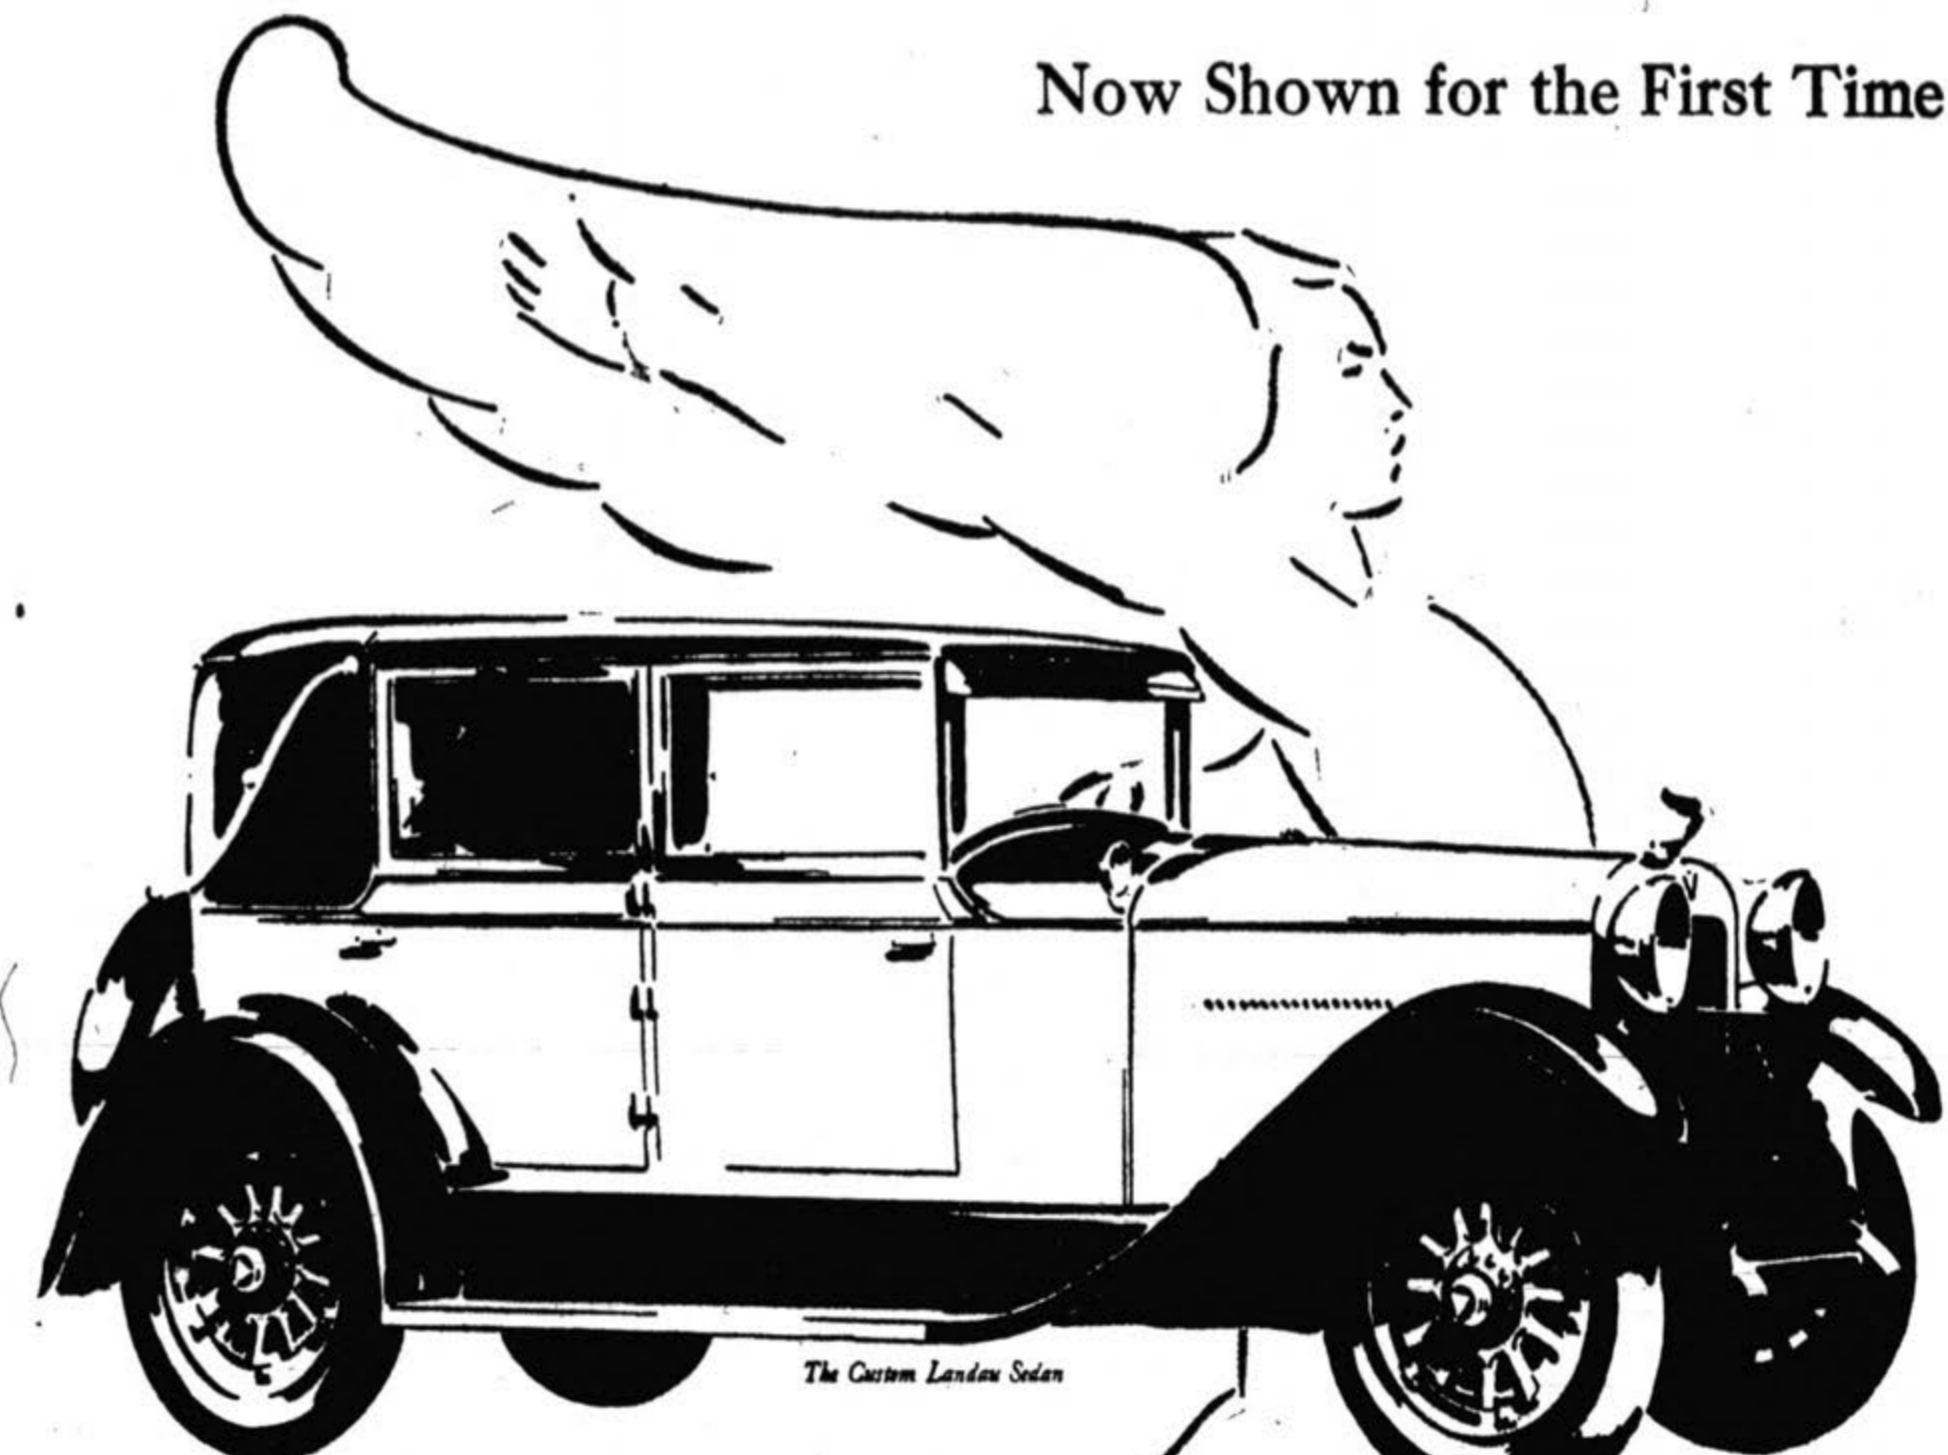

pleted the role of the prince in "The Student Prince," plays the part of a Spanish courtier seeking adventure in the New World—which he finds plenty.

Novarro plays this part as though he were born to it, and in doing so merely emulates the actions of his own ancestors who came to America several centuries back. Marceline Day has the featured feminine role in the picture which is now being featured at the Strand.

Connie Mack's real name is Cornelius McGillicuddy.

Greater Beauty . . .
with matchless super six
performance

*Tomorrow's
Vogue*

Hudson crowns a long succession of triumphs in the new Super-Sixes which dealers are now showing.

The resources which achieved and led the mechanical possibilities of the day, have been brilliantly employed to create and lead a new mode of beauty, comfort and luxurious appointment.

For Hudson now introduces Tomorrow's Vogue.

As dramatic as the first introduction of the Super-Six principle which set today's standard for motor smoothness and efficiency.

As boldly original as the Coach, which turned the trend to closed car dominance.

As revolutionary as the companion invention to the Super-Six principle, the high-compression motor toward which all builders aim.

With higher, narrower radiator, with vertical shutters, saddle lamps, full crown fenders and low sweeping lines, here is Hudson beauty in gloriously new guise. All bodies are designed in a modern style which is outstanding for smartness. The unity of design begins at the very front of the car, and carries through to every detail within and without.

The handsome new steering wheel, of hard rubber with steel core, the instrument board of ebony

black, grouping motometer, ammeter, speedometer, gas and oil gauges under glass, the form fitting seats and beautiful upholstery are a few notable interior changes.

And in all models, every value of body and chassis heretofore known, is surpassed. You will agree without hesitation the moment you see them.

A new and glorious thrill is in store for you when you take your first ride.

Three Lines of Bodies—Two Hudson Chassis

Three lines of Hudson bodies are presented—the Standard, the Custom Designed and the Custom-built—and two chassis—the 118-inch and the 127-inch. The Custombuilt Hudson Super-Sixes, we believe, are the most beautiful, distinctive and original bodies ever produced in America. They are designed and built for Hudson by Custom builders to Oriental rulers and to the leaders of the West Coast.

The Custom designed line by the same masters, are built by an old and famous company of custom craftsmen on a volume basis. Standard models are produced in Hudson's own body plant.

Buyers can pay for cars out of income at lowest available charge for interest, handling and insurance

STOCK SALES AVERAGES

Table with columns: Date, Industrials, Railroads. Rows: Wednesday, Tuesday, Week ago, Year ago, High 1928, Low 1928, Total stock sales.

New York, Jan. 11.—(AP)—Frequent shifts of speculative sentiment in today's stock market was interpreted in Wall Street as revealing the nervousness and uncertainty of professional traders.

Reduction in the call money rate from 4 1/2 to 4 per cent and the importation of nearly \$10,000,000 in gold from Canada were offset by the slightly higher rates for time money.

Steel shares failed to make much response to the reported increase in mill operations and the forming up of commodity prices.

Railroad shares displayed a firm undertone, several moderate gains being recorded in that group.

Chicago, Jan. 11.—Potatoes, receipts 97 cars; on track 178; total United States shipments 946 cars; better demand for russets, market firm; other stock also market steady.

Saint and Sinner

The fog lifted from Faith's fever-dazed brain miraculously. Even before her eyes flew open to fasten hungrily upon Cherry, cunning came to her aid.

IN NEW YORK

New York.—In one of Broadway's most popular plays, a veteran actor is shown describing in enthusiastic terms the manuscript of a new play he has just read.

The points involved are very simple. The New York folk like to think that nothing is accomplished outside the limits of their slender island.

Everybody knows by this time that it is the folk back from Idaho, Iowa and Kansas who do sing, dance, write plays and compose songs.

State to Re-Name Peninsula Lakes; Committee Named

Acting under instructions from Governor Fred W. Green, Dr. Geo. N. Fuller, secretary of the Michigan Historical Commission at Lansing, has appointed a committee with jurisdiction over the upper peninsula, to select names for un-named lakes and streams.

The members of the committee are Geo. E. Bishop and Prof. Lew Allen Chase of Marquette; Thos. Conlin, Crystal Falls; Dr. W. O. Hotchkiss, president of the Michigan College of Mining and Technology at Houghton, and Stanley Newton of Sault Ste. Marie.

State authorities have found on investigation that several dozen sizable lakes and streams in the upper peninsula either have no name at all or are known by more than one name.

Talks on Health

By Dr. Morris Fishbein

CANCER IS FOUND AMONG MEN WHO SPIN COTTON. A mule-spinner is not as one might suppose a person who works with the animal called a mule, but a person employed in the cotton industry who handles a device called a mule.

The overall rigidly against the body. Inquiry made in other countries indicates that cases do occur, although not so frequently as in Great Britain. A statistician has found a considerable number of instances among workers in American cotton trades, and believes that more would be found if our statistics were more scientifically prepared.

ton. I was afraid she was not well, since she was acting peculiarly, but I did not dream it was anything serious. On thinking it over I became somewhat alarmed and tried to telephone her here at the Denham. I was told that there was no Mrs. Hathaway registered here.

"The manager said she wasn't here!" Cherry interrupted. "Oh, tell me: what's the matter with my sister?"

Faith, lying very still, waited breathlessly for the doctor's answer. "Your patient is Mrs. Robert J. Hathaway, of Shelton. She asked me to drive her to Darrow yesterday when I accidentally came across her on the streets of Shelton."

Serving a Course

NEVER TRY TO MAKE BOTH ENDS MEAT.

WILL RIDE IN EUROPE. Chicago—Albert Johnson, one of America's greatest jockeys, a member of the turf elect to ride two winners of the Kentucky Derby, will ride in France next year.

THE DEVIL-TROOP OF MADAGASCAR is said to drop poison spines on persons or animals who seek to take advantage of its apparently welcoming shade.

Boots and Her Buddies

By Martin HOW DO YOU LIKE MY NEW HAT, STEPHEN? I WAS JUST NOTICING IT - IT LOOKS VERY NICE. DO YOU THINK IT IS ATTRACTIVE? YES INDEED - VERY!

HOW DO YOU LIKE THE COLOR? SPLENDID! I SAID, I LIKED IT VERY MUCH! BOO HOO HOO! THAT'S JUST WHAT I WAS AFRAID OF - IT DOESN'T APPEAL TO YOU!

One of the most successful editors of one of the most successful magazines of the glamorous outdoors is a highly strung victim of the nervous tension created by life in this hectic hamlet.

I paid a visit to a friend who edits a series of magazines devoted to the exploits of buccaroos, broncho-busters, Canadian mounted police and such. He was bewailing the lack of young men who could grind out these adventures by the yard.
