BLOW AT PAN AM UNION TO BE TURNED ASIDE

MORROW RETURNS TO OFFICE IN MEXICO

BY DAVID LAWRENCE. (Copyright 1928, by the Escanaba Press) Washington, Jan. 31.—With Ambassador Morrow back in Mexico City some important developments in the relations of Mexico and the United States are expected. Not in many years has there been such a friendly feeling between the two governments. The financial affairs of the southern Republic are still far from satisfactory and it is believed that plans for bringing more American capital into Mexico are under consideration both in the financial district in New York and in Mexico City with the friendly good offices of Ambassador Morrow.

Incidentally the first surprise over the early return of Ambassador Morrow to Mexico City from the Pan American conference at Havana has cleared away, as it now is apparent that Mr. Morrow by reason of his intimate friendship with President Calles can do more in Mexico City than in Havana to keep the Mexican delegation from disturbing the tranquility of the conference.

Considered on Merits.

The proposals of the Mexican delegates at Havana are being considered on their merits and the United States delegates are not lining themselves up in direct opposition to the suggestions made, preferring to leave it to the other countries to decide whether for instance, a rotating system of chairmen and a rotating appointment of a director-general would promote efficiency or interfere with the continuity of the Pan American Union's operation. It all depends on whether the Central and South American countries want to invest the Pan American Union with a political character and give it diplomatic problems to consider or whether they want to use it as a means of protecting commercial relations. The business men of South America would prefer the latter as they think existing diplomatic channels can take care of international policies and that what Central and South America is to be better known in the United States as to commercial opportunities and resources and for the United States to be better understood in the same respect in the other republics.

Opposition Strong.

There is enough opposition to kill the proposal of a change in the character of the Pan American Union, opposition which comes from other countries than the United States. If the Mexican delegation should propose anything that might prove embarrassing to the United States, in the view of the assurances given by President Calles, in Mexico City could receive suggestions from Washington which would enable him to discuss them directly with the Mexican government contemporaneously with the Havana conference.

DEATH CLAIMS HUGH JENNINGS

Picturesque Diamond Leader Was Former Detroit Manager

Scranton, Pa., Feb. 1 (Wednesday)—Hugh Jennings, noted baseball player, died at 1:15 o'clock this morning. Jennings was stricken seriously ill last Friday and his condition became grave on Sunday with little hope for his recovery. He put on a game battle but shortly after midnight this morning began to lose ground rapidly. Jennings was one of the more foremost figures in America's greatest outdoor game. For three years in succession he led the Detroit Tigers to pennants and later became assistant to John J. McGraw of the New York Giants.

Hugh Ambrose Jennings, picturesque diamond leader and a factor in the pennant drives of numerous championship teams during a baseball career of more than three and one-half decades, rose to success in the sphere of professional athletics from a humble start as breaker boy in the coal fields of Scranton, Pa.

Captain of the great Baltimore Orioles in 1894, 1895 and 1896, manager of three pennant-winning Detroit teams in the American League and final manager of the St. Louis Browns during the four-year stretch in which the Giants swept the National League pennant, Jennings was a conspicuous figure in the majors.

The former Tiger pilot, who always held the attention of fans by his nervous habit of grass-picking on the coaching lines and his well-known shout, "Eyah!" first drew the attention of baseball men while playing shortstop for a semi-professional club at Leighton, Pa., in 1890.

Born on April 2, 1871, at Moolie, Pa., Jennings quickly became a favorite in the coal-mining regions. One year after joining the Leighton club, however, he was signed by the Louisville Nationals, who traded him with the following season to the Baltimore Orioles. There Jennings forged the links of a strong friendship with McGraw which was enduring throughout the baseball careers of the two famous leaders.

Three Held in Bomb Explosion

Lansing, Jan. 31.—(AP)—Three Jackson men are being held by Lansing police in connection with the bombing today of the Michigan Fruit company warehouse. A nitro-glycerine bomb thrown against the building damaged one wall and shattered windows in neighboring houses. Police believe the incident was a gesture in a long-standing feud. The men detained are James D. Giovanni, Frank Scarpino and Carl Magnotta, all of Jackson.

Detroit Magazine Picked as Organ for Advertisers

Detroit, Jan. 31.—(AP)—The Advertiser, official publication of the Detroit Advertiser club, has been adopted the official organ of the International Advertising Association. It was announced today. It is to be known as the International Advertiser and the first issue under the new name will be in February to approximately 22,000 members of the International organization.

INSANITY OF YOUTH TRACED TO ANCESTORS

SHOW HICKMAN'S RELATIVES WERE UNBALANCED

Hall of Justice, Los Angeles, Jan. 31.—(AP)—The asserted indications of insanity in William Edward Hickman were traced from his Arkansas ancestors down through the troubled domestic life of his mother to center upon the mentality of the kidnaper-killer himself in his sanity trial here today. Depositions read into the record by the defense included testimony that Hickman's grandfather, Otto Buck, was considered "crazy", that the defendant's mother, Mrs. Eva Hickman, once was confined in the Arkansas state hospital for nervous diseases at Little Rock; that his father, Thomas Hickman, deserted the family; that the youth underwent a mental transformation after losing an oratorical contest while in high school in Kansas City.

Noticed Insanity Last Summer

In a deposition given by Don Johnson, a school mate of Hickman, the defendant was pictured as a brilliant scholar at Central high school in Kansas City, who turned morose over defeat in trials for the national oratorical contest in 1925. After losing the contest, Johnson said Hickman resigned from clubs at school, took little interest in his work and was embittered. It was last summer, Johnson said, that he first decided his friend was insane. This was before Hickman started on his career of robberies which culminated in the abduction and slaying of Marian Parker, Los Angeles school girl. Johnson said he formed the opinion that Hickman was insane because of his many changes of jobs and plans for going to college.

Mother Had Mental Disease

Hickman's mother was disclosed in defense depositions as suffering at one time from "simple depression" and "mild dementia." A report of the Little Rock institution where Mrs. Hickman was confined for a short time in 1913, two years after she attempted suicide by poison, showed she was held there as a "guest." It also revealed her parent after a (Continued on Page Two.)

Two Men Found Guilty of Fraud

Shelbyville, Ind., Jan. 31.—(AP)—James Ryan of Saginaw, Mich., and Paul Flanagan of Harrisburg, Ill., were found guilty by a jury today of obtaining money by fraud. Each was fined \$100 and costs and sentenced to serve ninety days at Indiana state farm. The defendants were charged with operating a short change trick at a local store.

File Nomination Papers for Frank Lowden Saturday

Washington, Jan. 31.—(AP)—An announcement that the Presidential nomination papers for Frank O. Lowden, will be filed in Illinois Saturday was made today by Clarence F. Buck of Monmouth, Ill., in a statement issued at the office of Representative Dickenson, Republican, Iowa. "Buck, who signed the statement as 'Manager of the Lowden Campaign,'" said that nomination papers now were being circulated in Illinois and that Lowden thus will become the first candidate to file in any primary. Declaring that prospects for Lowden's nomination at the forthcoming Republican convention in Kansas City, "never were so good," Buck predicted that the former Illinois governor will have considerable eastern support.

Three Cent Gas Tax Yields Less Than Old Levy

Lansing, Jan. 31.—(AP)—Three-cent gasoline tax yielded less in December proportionately than the two-cent levy did a year ago, according to a report today by John S. Haggerty, secretary of state. The net yield of the three-cent tax for the month was \$837,690, as compared with \$735,497 in December, 1926, under the two-cent law. The department of state pointed out, however, that prior to the new law some large assessments against companies were collected for months at a time in single payment, whereas now they are collected monthly. This may explain the variance, it was said.

OFFICER KILLED; POLICE HOLD 2

Patrolman Found Lying in Street; Trace Crime by Gray Roadster

Detroit, Jan. 31.—(AP)—Two suspects arrested today in connection with the shooting of Patrolman Vivian Welsh, who was found lying on the pavement of St. Aubin avenue here shortly after noon today, were formally charged with first degree murder after a short quizing by police tonight. The men gave their names as William Laks and Jake Stein. They were arrested at the home of a man who gave his name as R. R. Barnes.

Barnes had been identified as the driver, earlier in the day, of a gray roadster used by the man or men who fired the shots that caused the patrolman's death. An automobile agency told police Barnes had been loaned the car for a test drive. He had reported the car stolen.

Welsh was found lying unconscious in the street, his chest riddled with bullets at 1:10 o'clock this afternoon. He died in the Hamtramck police station ten minutes later without regaining consciousness.

Two men told police they had seen a gray roadster leaving the scene of the shooting, and one woman gave the license number. Immediate check of the circumstances surrounding the murder and of the addresses of suspects resulted in the arrest of Laks and Stein.

Welsh, who was on furlough, was dressed in plain clothes. He was married and was appointed to the force December 1, 1925.

Special Police Badges Called In

Detroit, Jan. 31.—(AP)—Police Commissioner William P. Rutledge today called in all special police commissioner's badges issued through his office since he took office two years ago. He said issuance of the badges had gotten almost beyond control and that some had been given out without his knowledge. About 50 such badges now are in use, he said.

AMBASSADOR OF GOODWILL ON SCHEDULE

AMERICA'S FAVORITE AVIATOR GREETED BY CROWDS

St. Thomas, Virgin Island, Jan. 31.—(AP)—A presidential salute of 21 guns announced to Virgin Islanders today that Colonel Charles A. Lindbergh had completed another lap on his good will tour.

Rain cut down the size of the crowd at the golf course where he landed, but it was estimated that 2,000 persons were present to cheer as he dropped out of the sky at the end of a 1,050 mile segment of the Caribbean circle he is negotiating. The hop from Caracas, Venezuela, required ten hours and fifteen minutes.

The entire region was notified of his approach by the firing of two cannon and the ringing of church bells. The city of St. Thomas went wild with excitement and enthusiasm when it knew that America's favorite flier was near.

It had rained most of the day but shortly before the arrival, the sun broke through the clouds to light up the golf course, where bunkers and traps and other hazards had been leveled to give a broad fairway for the landing. Even after the appearance of the "Spirit of St. Louis" there was a short period of suspense as an aviator from Porto Rico who made a test flight recently to try out the field had refused to risk landing.

Lindbergh, however, who alighted on a small athletic field at Belize, British Honduras, made an excellent landing. To the immediate cheers of the throng at the golf course was quickly added the salute of 21 guns from the town battery and the raucous noise of steamer whistles in the harbor.

When the flier stepped from his machine with his customary air of modesty he was given a bouquet by one of the Virgin Island belles. He was then escorted by the government secretary and the governor's chief of staff to where Captain Walter Evans, U. S. N., retired, governor of the islands, was waiting in an open automobile.

After the governor greeted him, a procession formed and drove through the business section of Charlotte Amalie, chief town of the island, to the governor's residence where Lindbergh will be a guest.

Multitudinously cheering crowds greeted the car at every foot of the way through the extensively elaborately decorated city.

Representative Becomes Ordinary Prison Workman

Detroit, Jan. 31.—(AP)—Chester A. Good, state representative from Highland Park, became an ordinary prison workman in the Detroit house of correction today. Taken to the institution yesterday to begin his term of 4 to 15 years for burglary, Good was reported to have spent a sleepless night, but was put to work in the prison chair factory today.

The 33 year old immaculate legislator was assigned to his prison routine after being dressed in the house of correction uniform of woolen trousers and blue denim shirt. He is to be guarded by a prisoner against him among other prisoners because he supported the state's new criminal code in the last legislature.

Good's attorney announced he would ask the state supreme court to review the legislator's case.

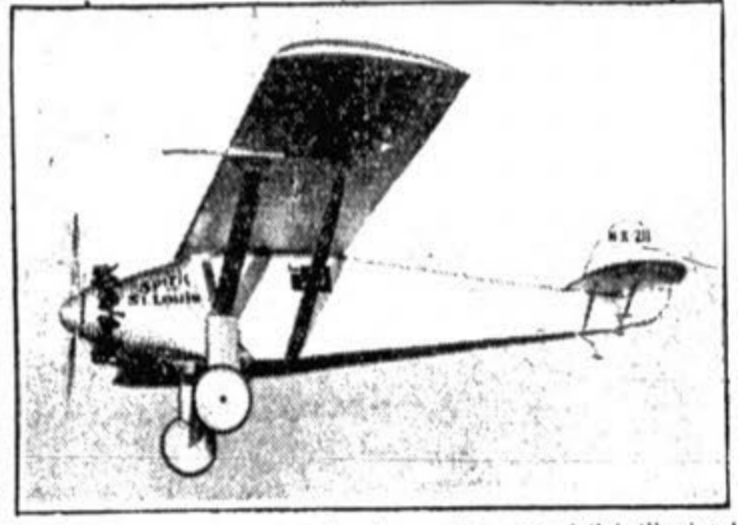

Expect New Jitney Battle in Detroit

Detroit, Jan. 31.—(AP)—Another court fight between jitney interests and the city over efforts to enforce an ordinance barring jitneys from downtown streets loomed today when Circuit Judge Clyde I. Webb granted the jitneys a new temporary injunction restraining enforcement of the ordinance.

In granting the injunction, the court denied a motion by the city to dissolve a similar injunction granted jitney interests in July 1928 by Circuit Court Judge Harry Dingman.

The city's next step in the case has not been determined but a city council stood firm in its position to fight to a finish to enforce the ordinance. The case already has been in the courts more than five years.

The picture broadcast was another form of the one recently demonstrated from WEAF, when a picture of Mayor Walker was put on the air, but it was believed to be the first time a face had been first transcribed to a phonograph record.

OFFICER TAKES WITNESS STAND

Captain J. Leland Bass Defends Self in Courtmartial

Chicago, Jan. 31.—(AP)—Capt. J. Leland Bass, U. S. A., defended himself from the witness stand today at his courtmartial upon ten charges of conduct unbecoming an officer and gentleman growing out of allegations he mishandled intoxicants stored in the sixth corps area warehouse here.

Given his option of making a written or verbal answer to the charges, Bass chose the former, testifying under oath. Before the session ended, Capt. Bass denied two of the allegations. He asserted he had not authorized a shipment of alcohol by army truck or otherwise to an alleged bootlegger's "clearing house," and that he had sent alcoholic fluids in line with his duty as a quartermaster officer.

Under interrogation by Egbert Robertson, his civilian counsel, Capt. Bass explained the system in vogue at the depot when he took charge in 1925.

"Major Joseph D. McKeany, chief of the supply department, took me to the oil house at the army warehouse, where alcohol is kept, and told me arrangements had been made to get alcohol gratuitously from the United States marshal's office here, without putting it on stock record and then to issue it gratuitously to almost anyone with a right to receive it," Capt. Bass testified.

"What do you mean by 'almost anyone?'" asked Robertson. "The officers of the depot, civilian employees and the Port Sheridan station. I believe Fort Sheridan was the only station that could get it thus, though the University of Chicago and Northwestern university R. O. T. C. stations probably could also get it without requisition."

Brooks Lands at Cleveland Field

Detroit, Jan. 31.—(AP)—Harry Brooks, chief test pilot of the Ford Motor company, flying the new Ford "River" plane, landed at the Cleveland municipal airport today, officials announced. Brooks will continue completing the first severe test of the tiny airplane. He left Washington, D. C., at 8:55 this morning.

Bank Robber Given Long Prison Term

Detroit, Jan. 31.—(AP)—Carl E. Davis, 24, who walked into a Central Savings bank branch here last Friday, pushed a note demanding money under the window of a teller's cage and then disappeared with \$2,700 the teller gave him, pleaded guilty today to a charge of robbery while armed, and was given a prison sentence of from 7 1/2 to 15 years. He said he resided in Sibley, Ill.

Auto Collides With Truck, Man Killed

Detroit, Jan. 31.—(AP)—Fatally injured early today when a car in which he was riding collided with a truck near New Hudson, Mich., Jennings Crum, 35, died in a hospital four hours later. Russell Machette, driver of the car, was seriously injured.

PASS JONES BILL BY 53 TO 31 VOTE

SOLONS TAKE STEP IN OPPOSITION OF ADMINISTRATION

Washington, Jan. 31.—(AP)—Over the opposition of President Coolidge and administration leaders, the senate today passed the Jones bill to expand the American merchant marine and to maintain it under government control.

A combination of Democrats and western Republicans sent the measure to the house by a vote of 53 to 31 after rejecting by overwhelming votes a long series of amendments put forward in a last-minute attack by those who contended the measure would establish a policy of permanent government ownership and operation of the merchant fleet.

Heading to the demands of President Coolidge for early transfer of the fleet into private hands, administration Republicans centered their attack on the provision of the bill requiring unanimous consent of the shipping board for the sale of any vessels here after.

An attempt, however, by Senator Edge, Republican, New Jersey, to modify that bill to authorize sale of ships by majority vote of the board was rejected, 57 to 31. A move by Senator Willis, Republican, Ohio, to permit sales by vote of five of the seven members of the board was then turned down, 47 to 35.

Finally, on the closest vote of the day, the senate rejected an amendment by Senator King, Democrat, Utah, adding a provision that nothing in the language of the bill had been construed as committing the United States to a policy of permanent ownership and operation of the merchant marine. It lost, 43 to 38.

Authorizes Building Program. Senator Jones, Republican, Washington, author of the bill, saw nothing in the measure requiring such an amendment but Senator King insisted that the provision requiring unanimous consent of the shipping board for the sale of ships, established a government ownership policy.

Twelve Democrats joined with 26 administration Republicans in support of the King amendment while 28 Democrats, 14 Republicans, and the lone Farmer-Labor senator voted against the King proposal. The final vote on the bill was 33 Democrats, 19 Republicans and the Farmer-Labor senator in support of it and 8 Democrats and 23 Republicans in opposition.

In addition to requiring the unanimous consent of the board for the sale of any ships, the bill also would authorize an extensive program for replacement of the present government fleet. No appropriation is provided but Senator Jones announced that it would permit the shipping board to ask for funds to go through its \$250,000,000 15-year construction program.

State Hospitals Are Overcrowded

Lansing, Jan. 31.—(AP)—State hospitals are overcrowded that insane patients must virtually be left on the door steps, was the picture drawn in a letter received today by W. W. Potter, attorney general, from Dr. Herman Ostrander, superintendent of the Kalamazoo hospital.

Dr. Ostrander requested an opinion as to whether the county may force him to take inmates when he has no room for them. The attorney general ruled he need not accept them. If patients are dangerously insane they should be confined in jails or elsewhere, but there is nothing in the law compelling state institutions to accept them when the hospitals already are jammed to capacity, the attorney general held.

Dr. Ostrander declared that Kalamazoo county has indicated insistence upon delivering patients even though informed there was no place for them in the hospital.

Green Considering Detroit's Request for Extra Session

Detroit, Jan. 31.—(AP)—Gov. Fred W. Green is giving every consideration to the request of the Detroit city council that he call a special session of the state legislature, the governor said in a letter received here today. He would indicate when he would reach a definite decision.

The council is seeking a special session to obtain enactment of a bill which would help the city to overcome a financial shortage for street-widening projects.

ATTACKS FARM RELIEF BILLS

Wentworth, Economist for Packing Co., Speaker at Farm Meeting

East Lansing, Mich., Jan. 31—(AP)—National farm relief efforts applied as blank measures for the whole industry were attacked this afternoon by Edward N. Wentworth, economist for Armour & Co. of Chicago, when speaking at the opening general session of Farmers' Week.

Declaring that the different sections of the country furnished diversified interest, he said that the only plausible method of relief would have to incorporate the complaints of each section. He advocated an individual re-adjustment by each farmer as the best method.

Although approving diversified farming as a means to increase capital earning, Wentworth stated that the day of specialization in agriculture for efficiency had arrived.

The farmer expert plunged into optimistic statements over the future of agriculture and said that the industry is growing more rapidly than any other. He is not concerned with any so-called talk about the farmer in danger of becoming a peasant.

U. P. Increased Herds. Citing a big decline in the hog market last year because of large foreign production, Wentworth stated that high prices should again prevail about June, when the foreign market is exhausted. He said the cattle industry was more prosperous today than ever before in history.

Upper peninsula is the only section of the state which has increased its herds, he said, adding that it called forth added responsibility to fill the great demand.

Co-operation between producers and dealers was urged by Burt Schaller, chairman, Detroit Meat Merchants association, when speaking to the Michigan Beef Producers association.

few weeks as being in a "natural state of health." The deposing Ozark Hills family doctors admitted under state's cross-examination that Mrs. Hickman's mental trouble was considered curable and that it was concluded to have been the result of family troubles.

That Mrs. Hickman probably could tell the "difference between right and wrong," was testified by Dr. L. K. Brown, superintendent of the Little Rock hospital. He said "there was no evidence of faulty judgment or mental deterioration." He termed the woman's illness as simple depression, a curable mental condition.

Prosecution attorneys said Dr. Brown's admission that Mrs. Hickman could distinguish right and wrong disposed of any legal insanity in her case, the California law describing sanity as the ability to determine right from wrong.

Grandfather Had Epileptic Fits. Dr. H. P. Ruth of Tulsa, Oklahoma, described Mrs. Hickman's illness as "mild dementia," which he declared was brought on by worry over the unfaithfulness of her husband. According to the physician, the elder Hickman "ran away" with a woman who worked in a restaurant at Hartford, Ark., where the family lived when the defendant was a child.

DISASTROUS TO ALTER DRY LAW

W. C. T. U. Opens Crusade to Prevent Repealing of Volstead Act

Utica, Jan. 31—(AP)—The United States will be plunged into industrial chaos by the repeal of the Volstead act, Mrs. Ella Bolle told prohibition leaders of the nation tonight. Speaking at a mass meeting of Women's Christian Temperance Union officers and club women from six mid-western states gathered here to inaugurate the presidential year dry crusade, the national W. C. T. U. president charged that advocates of repeal have failed to provide any means for control of the liquor traffic.

Those who would repeal the Volstead act, Mrs. Bolle said, "would also repeal state reinforcement codes and the logical sequence would be liquor traffic unrestrained by federal or state laws. The government would be powerless to supervise or control the manufacture, sale or transportation of intoxicating liquors and even before prohibition such control was necessary and provided. Repeal would abolish federal control of industrial alcohol and create chaos in the industrial world."

HUGE CUT MADE IN AIR BUDGET

Slash Million From Army Plane Appropriation; Program to Halt

Washington, Jan. 31—(AP)—Cut of \$1,078,000 by the budget bureau in the amount requested by the army air corps for its activities during the fiscal year beginning next July 1, was disclosed today with the report to the house of the annual war department supply bill.

Assistant Secretary Davis, in charge of army aviation, under questioning by members of the house appropriations committee which drafted the bill, said that in his opinion the amount approved by the budget was inadequate to carry out the second year of the five-year army aircraft building program.

Earnings of Dodge Brothers Drop Off During Past Year

New York, Jan. 31—(AP)—Profits of Dodge Brothers, Inc., automobile manufacturers, for 1927 were \$14,830,476, equivalent to \$11.34 per share on preferred and \$1.55 per share on common stock, stockholders were informed today in the annual report. Profits in 1926 were \$21,471,415, the equivalent of \$25.40 per share on preferred and \$6.46 per share on common stock. Net sales were \$173,581,526 as compared with \$253,997,481.

In a review of operation since May 1, 1925, when the company was transferred from private to public ownership, the report said a comprehensive development program has been completed, including production of a completely revised four-cylinder car, development of two lines of six-cylinder cars and a revision and increase of plant facilities.

#### Splendid Charity Project Completed by Local Organization

A most intelligently directed public charity is being inaugurated in this section by the Ladies Auxiliary of the Benevolent Protective Order of Elks. After careful investigation and some solicitation they have made possible a charity bed in St. Francis hospital.

The project was fully covered at a recent meeting of the lodge and a vote of confidence was tendered to the auxiliary. The proposed charity has the enthusiastic support of a large majority of local physicians and also has the endorsement of the State Medical association.

A list of categorical questions was submitted by the ladies to the Delta County Medical association through Dr. G. C. Bartley, its president, and in turn by him to the state association. Through this questionnaire it was learned that every hospital has from one to one hundred such beds; that the rate quoted by the local hospital is exceedingly low and that the entire plan with proper safeguard is highly estimable and founded in long and successful experience.

This charity, so far confined to Elks, is not intended for public charges, or for habitual indigents. It is intended for the worthy poor who are not public wards nor chronic seekers of aid, and who by having proper care at the proper time minus the worry of added debt, may the sooner be able to resume their work and meet their other living obligations with a stultifying handicap to themselves and their families.

A maximum of secrecy will be maintained insofar as a rigid investigation may permit and no case will be accepted except upon recommendation of a reputable physician or a local clergyman.

The solicitation is not yet complete, but so far, the responses have been excellent. Contributions will assist materially by donating without delay as the labor entailed in promoting this enterprise has been arduous.

### IN NEW YORK

New York.—The other morning they found a beautiful young Russian singer dead in a gas-filled Brooklyn bathroom. She had made her New York debut a few nights before. The critics curiously and briefly record that she could not sing—at least she could not sing well. She had spent many years studying with great teachers. She thought her hour had come. It had taken a few hundred dollars—perhaps all she had—to make the gesture of a public appearance in a public forum. After that, it seemed to her, there was no use going on.

And there you have a typical "little tragedy" of Manhattan. Perhaps one of the most water reactions of the great city is this destructive effect upon vanities and egos and hopes.

To be a "success" in New York seems to be the beginning and end of so many dreams. To get "good notices" in New York seems such a magnified achievement. To fall in New York seems to sound the death knell of any hopes. New York is looked upon as the goal. If one is to achieve anything, tradition says that New York is the place that must stamp its O. K. on the performance. And so little struggling humans come to get their values all mixed up.

Heartbreak, headache, despair, despond and even suicide follow in the wake of the innumerable efforts made to crack this city's hard shell. Individuals, wrapt for so many years in themselves—a pretty natural consequence when one is training toward some end—seem to forget that tens of thousands are constantly doing the same thing. For every one that wins the applause of the city a thousand go unnoticed, or, what is equally bitter, barely noticed.

They come trooping to New York from every hamlet and city—all the great army of youngsters who have plugged long hours at their piano exercises or at their fiddling. Perhaps they have even gone to Europe and studied with a recognized master. Perhaps the master has told them he was proud of their work. And then they come to New York for an appearance.

### SLAYER OF GIRL WILL ESCAPE GUILLOTINE

President Doumergue of France has commuted to life imprisonment the death sentence imposed on Gaston Guyot (below), millionaire, for the murder of his sweetheart Marie Louise Beaulieu (top), "the girl with the green eyes." The commutation was granted after Guyot's lawyers had pleaded that the murder was not premeditated.

### Debate Society Elects Officers

The Escanaba high school Wranglers' Debate society elected the following officers for the second semester at their regular meeting at the Carnegie library Monday evening:

Harriet Fragile, President.  
Dorothy Follo, Vice President.  
Alice Mae Whittier, Secretary.

The question that the Wranglers debated on at the meeting was: Resolved: That the proposed child labor amendment to the constitution be adopted. The contest was won by the affirmative team composed of Catherine Mathews, Viola Christie and Mae Damour. The negative was upheld by Betty Leighton, Bertha Olson and Lucille Lindsay. The three members of the society who judged the debate are Jane Glavin, Dorothy Follo and Alice Mae Whittier. About twenty-five members of the organization were present at the meeting.

### New Hair Mode from Broadway

"Everyone admires my hair, now that I'm doing it the new way that nearly every really smart girl I know is using," says Miss Agnes Trane, popular dancer, now appearing in the Broadway hit, "Tio Rita." "My hair doesn't need shampooing more than once a month, now. My scalp feels better than it ever has felt. I have gotten rid of all my dandruff. My hair is much easier to arrange and it stays that way. All I do to keep it like this is put a few dashes of Danderine on my brush every time I use it. It's wonderful how Danderine adds to the beauty of your hair, makes it look so silky and lustrous."

Danderine is not oily. It removes the oily film from each strand of hair and restores the natural color and lustre. It dissolves dandruff, cleanses and invigorates the scalp. It is delightfully fragrant. The big bottles are just 35c at all drug stores. Beautiful, smooth, gleaming hair and a healthy scalp for a few cents. Adv.

### BRIEFLY TOLD

Light Bearers Meet—The Anna C. Smith circle of Light Bearers will meet at the First Presbyterian church parlors at 4 o'clock this afternoon.

Ladies Aid—The Ladies Aid society of the Swedish Methodist church will hold its monthly social Thursday afternoon in the church parlors at 2:30 o'clock. Mrs. Hannah Wicking and Mrs. John Hogman will serve as hostesses. The public is cordially invited to attend.

Can Phone to Holland—Transatlantic telephone service was extended to Holland Monday by the American Telephone and Telegraph company, with the opening of circuits to Amsterdam, Rotterdam and The Hague. This is the second continental nation and the sixth foreign country to be connected with the United States by telephone. Service to Belgium was opened two weeks ago. Due to the extension of transatlantic service the American caller can now reach a total of 1,836,500 telephones on the other side of the Atlantic. The rates for the calls to the Netherlands will be \$1.75 for the first three minutes from any Michigan point and \$25.25 for each additional minute.

Jefferson P. T. A. Meeting—The Jefferson P. T. A. meeting will be held in the kindergarten room of the school Thursday evening at 7:30 o'clock.

A musical program and health play will be given by some of the grade students.

R. E. Cheney, superintendent of schools, will address the assembly on the subject, "The Teaching of Health."

C. Arthur Anderson will render a vocal solo.

As this is to be a "fathers' meeting" the \$1 award for attendance will go to the room having the largest number of fathers present.

A small admission fee is asked to help buy milk and graham crackers for the kindergarten children.

At the Coliseum—A lucky circle party will be held at the Coliseum this evening with a matinee skating party in the afternoon. The Wolverines will furnish the music for the regular Friday night dance.

### Daggett Dairyman Sells Grades, Buys Herd of Purebreds

Menominee, Jan. 31.—Wences Dolsky, through a recent purchase of a herd of 17 purebred Holsteins, becomes one of the largest breeders of registered cattle in the western end of the peninsula. Mr. Dolsky, who is a member of the high-way commission, lives on county road No. 3, west of Daggett. His purchase was made from Edward Oerickson of Florence, Wis. Mr. Oerickson was formerly herdsman for the Mining company and at their sale purchased the cream of their herd. This herd will be shipped to Mr. Dolsky as soon as the tuberculosis test has been completed. The herd consists of six mature females and 11 heifers. The sire of the herd was a direct descendant of the Papst stock of Wisconsin. His dam has a record of 984 pounds of butter in a year. Mr. Dolsky will strike a sale of the cows he already has and will become a breeder of purebred cattle only.

### Marquette County Lists Streams for Season's Opening

Marquette, Jan. 31.—Recommendations relative to the opening and closing of trout streams in Marquette county were adopted at a special meeting of the Marquette Sportsmen's association last night in the Peter White public library and will be forwarded to the state department of conservation in Lansing.

The Marquette sportsmen's recommendations are:

Close Nelson's creek.  
Open the Little Garlic and Big Garlic rivers.

Open the Whitefish river to the L. S. & I. railway crossing instead of to the Delta county line, which would leave about six miles of this stream open.

The present status of other trout streams in the county is satisfactory. It was decided, and it was recommended that no other changes be made this year.

Ankle when she fell on an icy sidewalk in South Twelfth street about 8 o'clock last night. An X-ray examination will be made to determine whether the ankle was sprained or fractured.

### AMUSEMENTS

AT THE DELFT  
Laura La Plante, Universal's beautiful blonde star, will be seen on the screen of the Delft today and tomorrow in her latest release, "Silk Stockings."

This is a story which is admirably suited to Miss LaPlante's unique talent as a comedienne. She has always scored her greatest successes in light farce and "Silk Stockings" is an ideal vehicle.

Miss La Plante became a comedienne by chance. Her first real roles were leads in very serious Western melodramas in which she played the innocent country girl beset by the villain and all his henchmen.

By a lucky break she was chosen to play opposite Reginald Denny in a picture, Denny, of course, is noted as a comedy star. But when the picture was previewed it was discovered that Miss LaPlante stole many of the laughs. This was especially true in "Skinner's Dress Suit" made slightly more than two years ago.

After that Carl Laemmle definitively groomed her for stardom in her own name. Each of her comedies has increased in entertainment value and now she is recognized as the screen's greatest comedienne.

Supporting her in "Silk Stockings" which Wesley Ruggles directed are John Harron, Otis Harlan, William Austin, Tempe Pilot, Marcella Daly, Ruth Cherrington and Heinie Conklin.

AT THE STRAND  
Hoot Gibson, the star of Universal's "Gallop 'n' Fury" which is booked at the Strand today and tomorrow, was once just a clumsy lad.

He was a messenger boy in Portland, Oregon, for a time and suddenly came into the dignity of long pants. He had long before given up his temporary vocation and began to be a follower of ro-

## Two Months "Winter Mileage"

Right now, and for the next two months or more, you need the safety that new Firestone tires with their non-skid protection give you, more than any other time of the year. Treads that are worn smooth make dangerous driving on ice, snow and slush.

And in addition to having perfect non-skid protection during the next two months you can start the Spring season with tires still practically new as GOOD RUBBER SHOWS PRACTICALLY NO WEAR in cold weather.

Your worn tires not only make winter driving risky, but increase the gasoline consumption with excessive slippage on wet and icy streets.

EDITORIAL

The Escanaba Daily Press A Morning Newspaper Published by The Escanaba Daily Press Company JOHN P. NORTON President and General Manager Office 400-402 Ludington St.

The life of us, we can't get excited about it. We hope it is not unpatriotic for us to remark that there is just a wee bit too much fussing nowadays about "ethics of the flag."

A REAL RACE.

With all due respect to the gallant sportsman, Sir Thomas Lipton, we were never able to get much of a kick out of those widely-advertised yacht races to which he is everlastingly bringing new boats.

They are so hedged about with restrictions, time allowances, rules and regulations that they lack appeal to the average landsman. If the wind is stiff, the great sloops do not race; if it is light, they jog along so slowly that the punch of the contest is lost.

This summer, however, there will be a yacht race "as is a race." The king of Spain is offering a cup for a yacht race from New York to Spain. A large number of sea-going yachts have entered already, and you can look for some real thrills when the race takes place.

Transatlantic yacht races have been held before and they are contests for real sailors. So daringly do the yachtsmen crack on sail that the affair is truly risky; hardly a race of this type has been held without one or more sailors being lost overboard from one or another competing yacht.

Watch for this race this summer. It will give you some real thrills.

THE YOUNGER VANDERBILT.

It is impossible not to feel a great deal of sympathy for young Cornelius Vanderbilt as he struggles to pay off the \$1,250,000 debts his venture into the publishing business has brought him.

Vanderbilt, born to riches and social position, could have been an idler all his life. He could have devoted himself to one of those delightful careers that some rich men find so enjoyable—yachting, polo, travel and so on. But he didn't. He wanted to do something, to be a worker.

It cost him his fortune. His family is indignant with him. One gathers that there is a feeling that he has somehow disgraced the family name.

We don't agree. It seems to us that he has added a good deal of luster to it.

THE "CANARY" MURDER CASE

BY S. S. VAN DINE AUTHOR OF THE BENSON MURDER CASE CHAPTER XIV

Your Long Island Don Juan has certainly not supplied you with any footprints in the snow," said Vance.

"Anyway, his coming forward at this time closes one line of inquiry over which we might have wasted considerable time."

"If many more lines of inquiry are closed," remarked Vance, drily, "you'll be in a distressing dilemma, don't you know?"

"There are enough still open to keep me busy," said Markham, pushing back his plate and calling for the check. He rose, then pausing, regarded Vance meditatively. "Are you sufficiently interested to want to come along?"

"Eh, what? My word! . . . Charmed, I'm sure. But, I say, sit down just a moment—there's a good fellow!—till I finish my coffee."

I was considerably astonished at Vance's ready acceptance, careless and bantering though it was, for there was an exhibition of old Chinese prints at the Montross Galleries that afternoon, which he had planned to attend. A Rikoi and a Moyek, said to be very fine examples of Sung painting, were to be shown; and Vance was particularly anxious to acquire them for his collection.

We rode with Markham to the Criminal Courts building and, entering by the Franklin Street door, took the private elevator to the district attorney's spacious but dingy office which overlooked the draystone ramparts of the Tombs. Vance seated himself in one of the heavy leather-upholstered chairs near the carved oak table on the right of the desk, and lighted a cigaret with an air of cynical amusement.

"I await with anticipatory delight the grinding of the wheels of justice," he confided, leaning back lazily.

"You are doomed not to hear the first rattle of those wheels," retorted Markham. "The initial revolution will take place outside of this office." And he disappeared through a swinging door which led to the judges' chambers.

Five minutes later he returned, and sat down in the high-backed swivel chair at his desk, with his back to the four tall narrow windows in the south wall of the office.

"I just saw Judge Redfern," he explained—"it happened to be the middle recess—and he verified Spottswode's statement in regard to the poker game. The judge met him outside of the club at ten minutes before midnight, and was with him until three in the morning. He noted the time because he had promised his guests to be back at half past eleven, and was twenty minutes late."

"Why all this substantiation of an obviously unimportant fact?" asked Vance. "A matter of routine," Markham told him, slightly impatient. "In a case of this kind every factor, however seemingly remote to the main issue, must be checked."

"Really, you know, Markham"—Vance laid his head back on the chair and gazed dreamily at the ceiling—"one would think that this eternal routine which your lawyer chaps worship so devoutly, actually got one somewhere occasionally; whereas it never gets one anywhere. Remember the Red Queen in 'Through the Looking-Glass'—"

Lengthy Names Rouse Editors Ire

London—Double barreled names are not so popular as in days of old. Newspaper editorial writers, in defense of the "sub-editors," as head writers are called here, have opened an offensive against them, especially those whose names appear frequently in front print. Such historic names as Pitt, Penn and Peel, are recalled as being ideals for newspaper headlines.

Of the politicians with double barreled names Sir Philip Cunliffe-Lister, president of the Board of Trade, stands first, which the writers consider a handicap. He was born with one hyphen and inherited another. Formerly he was entitled Sir Philip Lloyd-Greame.

You can't ask a girl to walk. (Why, even a girl's too far.) And how all the gang will talk—But Father has taken the car! He generally just comes in, From somewhere he works downtown, And gives us a friendly grin, And usually just sits down. Well, here I am ready to go (You know how these parties are). Here I'm all ready to blow—And Father is using the car! ### THEFT SUSPECT ARRESTED HERE

#### Wayne Page Is Turned Over to Marinette Authorities

Wayne Page, wanted by Marinette county authorities in connection with the theft of merchandise from stores in Wausaukee and Amberg, Wis., was arrested by the sheriff's department at camp No. 23 of the Bay de Noc Lumber company near Nahma yesterday.

Sheriff Oscar Dahl of Marinette came late yesterday to Escanaba and took Page into custody. The robber suspect has been working at the lumber camp several weeks and had been known there as Roy Smith, an assumed name. Sheriff Dahl obtained information that Page was in this county, and notified Sheriff Elmer Swanson to make the arrest.

Two brothers, Lester and Robert Page, have been held for several days in the Marinette jail, having admitted robbing the Laun Brothers and Charles L. Payant warehouses in Wausaukee and the A. G. Port and company store at Amberg. They claim their elder brother Wayne was their leader in these three burglaries.

Lester Page was arrested last week at the home of Wayne Page, Wausaukee, where a large quantity of merchandise from the warehouses was found. At the time of his arrest, Lester admitted having had a hand in the robberies and told the officers a young man named Dennis Strak of Milwaukee was his accomplice. He said Strak had left Wausaukee the morning after the robbery.

The loot consisted of a pair of candy, several mittens and gloves, a quantity of matches and 5,000 cigarettes.

### George Kjellberg Placed on Pension by Northwestern Ry.

George Kjellberg, 314 South Fourteenth street, was placed on the pension roll of the Chicago and North-Western railway effective today after being in the service of the company here continuously for 38 years.

Mr. Kjellberg is 70 years old, having been born in Dumo-Druk, Sweden, April 23, 1858. He came to this country in May, 1888, and entered the employ of the North-Western railway in May, 1889, taking the position of "braking up" engines at the roundhouse. He held this position until 1907, working nights throughout this period. From 1907 until 1922, he was front end inspector, but was stricken with paralysis with the result that it was physically impossible to continue in this line of work and was assigned to new duties as engine wiper. He suffered a slight stroke two years ago, and a recurrence last November 3 forced him to take a vacation. He is at the present time confined to his home, but recently has shown much improvement and is considered well on the road to recovery.

### PRESENT PLAY SUNDAY NIGHT

#### Christian Endeavor Society Delights Large Audience

Sunday, January 29, Young People's Day in the Presbyterian church of the United States and Canada, was suitably observed by the young people of First Presbyterian church, Escanaba, when the members of the Christian Endeavor society presented the missionary pageant, "Two Thousand Miles for a Book." This pageant is based upon historical facts and tells of the journey of the Indians from Oregon to St. Louis for the white man's "Book of Heaven."

The speech made by Ta-wis-sim-nim at St. Louis as delivered in the pageant, and aroused great interest throughout the country. It was the reading of this speech that gave the first impetus to pioneer missionary work in the northwest.

The pageant was exceedingly well presented, all the members of the cast showing marked ability and careful study. The solos of Miss Grace Mills during the pageant were especially enjoyed. The auditorium was filled by a reverent and appreciative audience. Miss Alma J. Suter, counselor of the Christian Endeavor society, directed the pageant.

Act I—A camp of the Chopunish Indians in the Oregon country.  
Act II—Parlour in General Clarke's quarters at the barracks in St. Louis.  
Act III—Teepee of Chief Ta-wah-

que-nah in the Oregon country.  
Between the acts cornet solos by William Karas, and violin solos by Margaret Laing were very much enjoyed and a delightful vocal duet by John Duranceau and Richard Carlton added greatly to the evening's enjoyment.

### SECOND ROUND DEBATES START

#### Dates Selected for Teams in Upper Peninsula League

Debating teams representing eight upper peninsula high schools, high point-winners in the first round of the Upper Peninsula Debate League schedule, are ready to meet in their second-round debates, which must be concluded by February 6.

First-round winners were Alpha, Iron Mountain, Escanaba, Newberry, Bessemer, Negaunee, Ishpeming and Manistique. Selection of dates for second-round debates will be left to the schools to decide, but Don H. Bottum, principal of John D. Pierce school and manager of the debate league, has paired the teams as follows:

Alpha negative at Bessemer affirmative  
Iron Mountain negative at Negaunee affirmative  
Escanaba negative at Ishpeming affirmative  
Newberry negative at Manistique affirmative

Third-round debates will be held February 17 and the upper peninsula championship debate, between winners in the third round, will take place February 24 or March 3.

preferably February 24 so that it will not conflict with district basketball tournaments.

The points won by the various teams in the first round are announced as follows: Iron Mountain, 15; Ishpeming, 12; Newberry 12; Alpha, 11; Manistique, 11; Besse-

mer, 11; Negaunee, 10; Escanaba, 9; Felch, 9; Sault Ste. Marie, 9; Iron River, 8; Vulcan, 8; L'Anse, 8; Kingsford, 8; Marquette, 6; Gladstone, 4; National Mine, 4; St. Joseph's parochial, Escanaba, 4; Bergland, 3; Marinisco, 2; Quinnesec, 0.

### WHAT A DOCTOR KNOWS ABOUT CONSTIPATION

There is a way of overcoming the tendency to constipation. And here is how you can PROVE it. The next time your bowels need any assistance, don't take the first laxative that comes to mind. Take one of the druggists can assure you is made with CASCARETS. Just as effective as using force, and it's good for the system. Indeed, it helps make good blood. For cascara is nothing but the bark of a tree. The Indians chew this bark, and live to an old age without a day's sickness.

What happens when you cascade the bowels? They will usually function well for SEVERAL DAYS. One more dose—no larger, and perhaps smaller than the first—and the bowels function of their own accord for a still longer time. Until you don't feel the need of any aid of any sort for weeks-on-end.

So, the only habit you get from cascara is that of natural and normal regularity. How different from things one must usually repeat on the morrow! Cascara is the ideal laxative; and the familiar little candy cascaret is doubtless its ideal form. Children beg for these tasty tablets, and many men and women wouldn't think of taking ANYTHING else for the purpose. And EVERY druggist has them.

# SMOKE DAMAGE SALE

## Involving the Entire Footwear Stock of MANNING & SULLIVAN

Insurance adjusters have settled the claims sustained by us during the fire of our next door neighbor, the L. A. Erickson Co., and we now throw on the market our entire stock of Men's, Women's and Children's footwear at price concessions that will amaze you. Not a SINGLE ITEM in our store was PERCEPTIBLY DAMAGED by the fire, but the smoke that filled our store makes a complete clearance of all stocks necessary—and to accomplish this in as brief a time as possible we have cut prices even below the limit that insurance allowances permit. It will be the greatest footwear sale you ever attended—and this is why we announce it a day in advance—so that you can plan to be here for sure.

THE MONEY that Anne Caldwell won in her \$50,000 breach of promise suit against John W. Hubbard, Pittsburgh shovel czar, is to be invested in a fashion shop in New York. So she said when this photo was made.

THEY PICK their beauties in mid-winter out on the balmy Pacific coast. Miss Diana Daire has been chosen for the honor at Los Angeles harbor. She is 19 and a brunet.

TOM TAGGART, high card of Indiana's Democratic pack, was thus caught by the camera taking it easy at Miami Beach, Fla. The next you hear of him probably will be at the Houston convention in June.

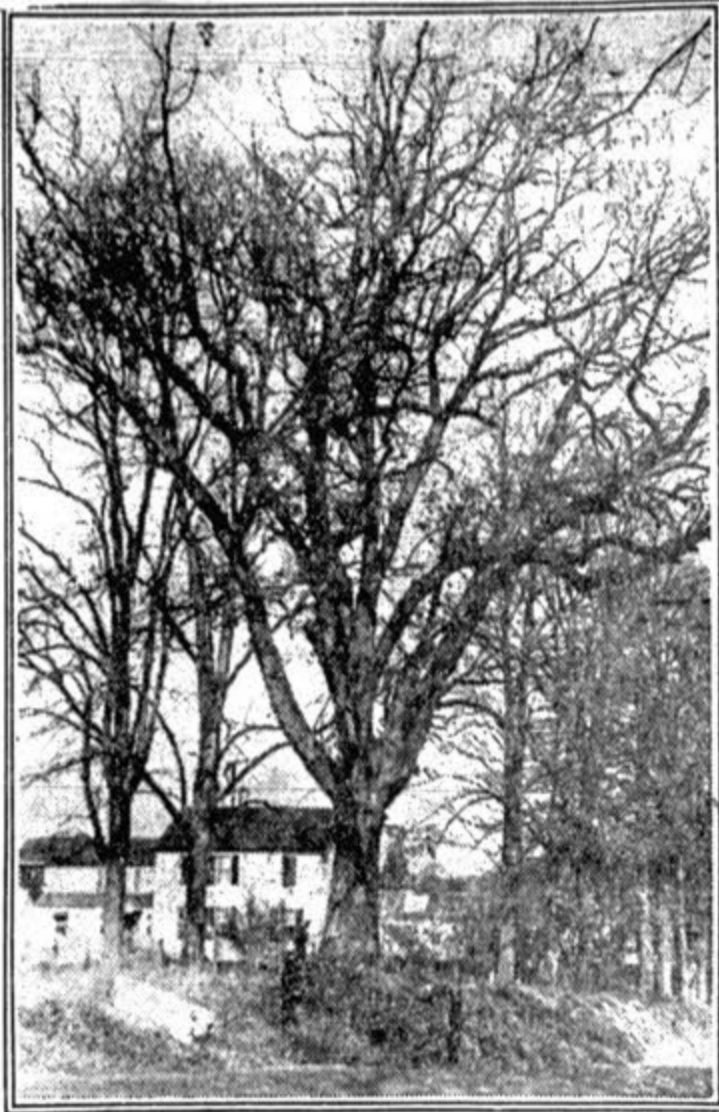

WHEN PRESIDENT COSGRAVE of the Irish Free State arrived in Chicago, it was necessary, of course, to have his picture taken with Mayor William Hale (Big Bill) Thompson. Mayor Thompson is not pro-British, according to advices from Chicago, but he was very glad to greet the Irish chief executive.

MRS. SOPHIE KEMMER, 97, of Fargo, N. D., has a title few women live to possess—great, great grandmother. Mrs. Kemmer is shown to the right, below. The baby is Daniel C. Matteson, who is held by his mother, Mrs. Chester Matteson of Grand Forks. Mrs. C. W. Littlefield, great grandmother, stands to the right, and Mrs. J. F. Wellenton, of Alice, N. D., stands behind her daughter and grandson.

NEW YORK SOCIETY stages almost as many of its weddings in January as in June. Pretty typical of the mid-winter's brides was Jane Carruthers, pictured here leaving fashionable St. Thomas' Church after her marriage to G. Hilmer Lundbeck, Jr.

"MOTORIST, SPARE THAT TREE..." might well be a modern parody of the old-time poem. For it is to automotive expediency, not the woodman's axe, that this historic "whipping post" tree near Hartford, Conn., is to bow. The staunch old oak, probably a half a thousand years old and used in colonial days as a whipping post, must go because a new concrete turnpike has been routed right over the spot where it stands.

THIS IS ONE OF THE few pictures ever taken of "Scarface Al" Capone, Chicago gang leader, and shows him (right) watching a friend take a workout with the medicine ball. The picture was taken without Capone's knowledge at Beach Casino, Miami, Fla., just before his conference with city officials at which it was agreed "mutually" that it would be best if Capone gave up his expensive leased Miami Beach home and left the city.

IF YOU'VE GOT A PAIN in the mediterranean or an ache in the mozambique—here's the cure: a little setting up exercise a la 1928. The exhibition is on the sands of Miami Beach—by Jolie Lillian Lucas, of Chicago.

MME. DE JOUVENEI, noted Frenchwoman, is pictured here presenting to Mrs. Evangeline Lodge Lindbergh of Detroit an album containing the autographs of France's prominent men and women. The presentation was made at Henry Ford's home at Dearborn, Mich. Left to right are Mayor Lodge of Detroit, Mme. de Jouvenei, Count Alain de Leche, and Mrs. Lindbergh.

A TRAIN LOAD of Tennesseans, headed by Gov. Henry Horton, will go to New York next month to see Grace Moore, former Jellico (Tenn.) girl, make her debut with the Metropolitan Opera Co. in "La Boheme." Miss Moore, who started her singing career with the choir of the First Baptist Church at Jellico, was signed by the Metropolitan after a hearing last summer.

PRETTY, ALL RIGHT, and smart in the latest of Paris raiment was Genevieve Bristley when she returned to her New York home on the S. S. Olympic. Her dad's a big bakin' powder man.

ALZAMON IRA LUCAS 2ND is nine years old, but scientists say his brain equals that of a 21-year-old man. The boy's father says he will fight the order of Cleveland school authorities that the boy must go to school. Alzamon is shown here with his mother.

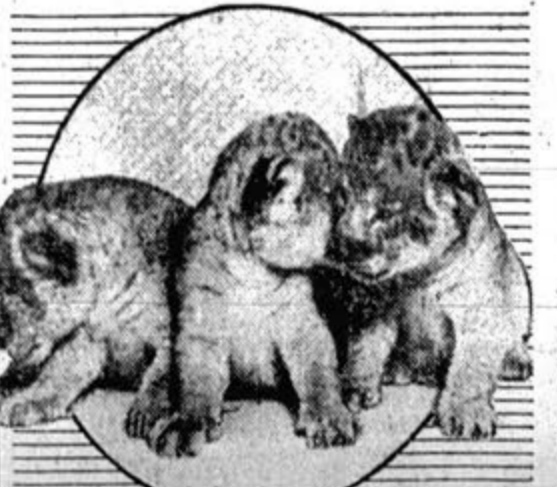

THEY CAME to New York seekin' gold for their alma mater did Gladys Anderson and Ernest Nicholson, students at the work-your-way College of the Ozarks, Clarksville, Ark. Fellow undergraduates sent them and they travelled in day coaches and carried lunch. And they'd hardly reached Gotham when a benevolent woman added \$30,000 to the college endowment fund.

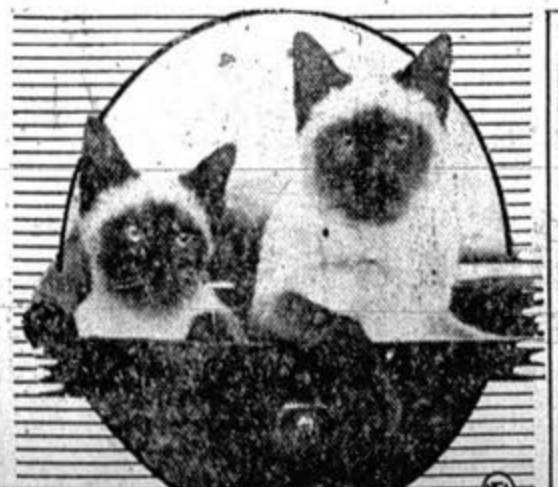

THAT'S FRANK VINCENT, 15, who claims to be the world's smallest cabin boy. His smiling swank is at the service of 350 passengers who recently set out from New York on the S. S. Empress of Australia for a 133-day cruise round the world.

THEY WON THE DERBY, did these three fuzzy pups—or at least they won blue ribbons. Miss A. Frampton of London entered them in an English show and everybody thought them mighty cute. They're Pekingese.

THERE CERTAINLY SEEMS to be a swapping of secrets here. And the poor little lion cub on the left doesn't seem to be in on it. Maybe they were gossiping about him when their pictures were snapped at New York's S. P. C. A. Hospital, where they were born.

"GOODNESS, SUCH FACES!" Wash them right now! Most mother cats would say if they saw these feline youngsters. But they're Siamese kittens, if you please, and the smudge is there to stay. A New Yorker imported them.

IS THERE SOME mistake here? But no—Mother and Dad Black Swan of Pancoast Lake at Miami Beach, Florida, insist the three white swanette swimming beside them are their very own. And if you please, they're but one day old!

OLD RESIDENT PASSES AWAY

Mrs. John Wall, 68, Lived in Escanaba for 39 Years

Mrs. John Wall, 62, passed away Tuesday morning at 10:15 o'clock at the family home, 424 South Fourteenth street, after an illness of three months, due to asthma.

Mrs. Wall is survived by her husband, two daughters and two sons. Mrs. Mary Martin and Mrs. Ira Stebbins of Milwaukee; John Wall, Jr., and Raymond Wall of this city; seven grandchildren; three sisters, Mrs. John Boye and Mrs. Frank Post of Escanaba, Mrs. James Boye of Gladstone, and one brother, Barney McLaughlin of this city.

The body was taken to the Alto Funeral Home and will be removed to the family home this morning where it will remain until Friday morning at 9 o'clock when funeral services will be conducted at St. Patrick's church. Members of the Ladies' Auxiliary to the Ancient Order of Hibernians will assemble at St. Patrick's hall Friday morning at 8:30 o'clock to form an honorary escort to the church and attend the services in a body. The members will go to the family home Thursday evening after the meeting to recite the rosary.

Burial will be in St. Joseph's cemetery.

SOCIAL

Elks Auxiliary Dance—Plans for the dance sponsored by the Ladies' Auxiliary of the Elks to be given at the Elks Club Friday, February 10th, are going on nicely. The ladies in charge, with Mrs. Win Schuldes, as general chairman, wish to stress the fact that the young people of the city are cordially invited to attend the Valentine party.

Appropriate Valentine decorations will be used through the club rooms and it is anticipated that the event will be successful socially and financially.

Eggle-Beauchamp Announcements have been received in the city of the marriage of Miss Esther Eggle, daughter of Mr. and Mrs. Adolph Eggle of Grand Rapids to Lawrence Beauchamp of Milwaukee, Wis., son of Mr. and Mrs. Antoine Beauchamp of Flat Rock. The ceremony was performed by Reverend Father Reece at St. Mary's church at Grand Rapids, Michigan, Monday morning, January 30th at 8 o'clock. They will make their home at Milwaukee after a trip to Toledo, O., and Detroit, Mich. Mr. Beauchamp is employed at the Woolworth store at Milwaukee and has a host of friends in this section of the county who join in wishing the couple happiness.

FIRE DAMAGES ROOF SLIGHTLY

Only slight damage was done to the roof of the home of Mrs. Martine Paquin, 1122 First avenue south, by a fire which called out the fire department at 5:20 o'clock yesterday afternoon. Sparks from the chimney had ignited the wooden shingles.

A false alarm called out the firemen about twenty minutes later. The alarm had been turned in at Box No. 52, near the Ed Erickson store.

Wrecker Called Out to Menominee

Chicago and North-Western passenger train No. 221 was about three and one-half hours late yesterday morning because of a slight accident which occurred near Menominee. The dropping off of a tire from one of the trailer wheels caused the truck to be derailed. The wrecker was called out of Escanaba to remedy the situation. No damage was done.

OLDEST BARMAID

Munich, Germany (P)—Frau-Hein Hedwig Forster, aged 72, challenges bartenders the world over to prove that they have dispensed more "suds" than she.

For 37 years this oldest barmaid in Germany has served uninterruptedly as "Kellnerin" of the Hofbrau Haus. During that time, countless steins have been filled and refilled by Hedwig, whose strong hands, steeled by years of experience, find no difficulty carrying seven or eight earthen jugs, each holding one quart of beer, simultaneously.

According to Hedwig's own estimate, she has served 343,450 gallons of Muenchener in the course of her career.

CLAIMS BAKERY SUPREMACY

'Champion Baker of the World' is the title that has been assumed by J. N. Mackman, a baker of Hull, Eng., since he was presented to the Duchess of York recently. Mackman has won more than 4,000 bakery awards, and is now head of a large concern. He works from 10 to 12 hours a day, and much of his time is spent in the bakehouse of his plant.

Elimination Debate to Be Held Feb. 2

The Escanaba high schools' participation in the first round of the Upper Peninsula debate tournament has been changed from Monday, February 5, to Thursday, February 2. On that date, the Escanaba negative debaters will keep after a trip to Toledo, O., and Detroit, Mich. Mr. Beauchamp is employed at the Woolworth store at Milwaukee and has a host of friends in this section of the county who join in wishing the couple happiness.

The strength of the Hemette debaters is not known although their past record is impressive. The Ishpeming squad have won three of their four debates, one of their victories being at the expense of the Marquette squad that defeated the locals in the debate at Marquette.

The debaters who Coach Clarence Zerbel will take to Ishpeming with him Thursday are Rita Auerbach, William Peters and Captain Helen Snyder. Marguerite Elis may accompany the debaters as an alternate.

Enlisted men of the U. S. army have saved \$65,243.22 in the last 52 years.

LOCKHART TO SEEK RECORD

Will Try to Better Sea-grave's Mark of 203 Miles Per Hour

Indianapolis (P)—A bullet-nosed black streak, powered with a sixteen-cylinder motor built to do 60 miles an hour in first speed 150 miles an hour in second and upward of 220 miles an hour in high, will be shipped to Daytona Beach, Fla., early next month to try to bring back to America the world's straightaway automobile speed record for one mile.

The present record 203.79 miles an hour, was established on the same course a year ago by Major H. O. D. Seagrave of London.

The automobile is the creation of Frank Lockhart, famous speedway and dirt track driver, and the Stutz Automobile company. Lockhart has had personal charge of its construction for months. Painted a solid black, it will be known as the Black Hawk. A fortune has been spent in the car, the price alone being valued at \$20,000.

The speedster is a toy both in physical size and motor size compared with the English Sunbeam in which Major Seagrave established his record. The motor will develop less than 400 horsepower, as against 1,000 for the English car; its piston displacement will be 183 cubic inches as compared with 2,760 cubic inches for the record-holder, and it will be many feet shorter in wheel base.

The trials are to take place between February 15 and 23. Two other cars will try for the mark, one built by Malcolm Campbell of London, and another the creation of White of Philadelphia. Pa. White's racer will be powered with three motors.

GLADSTONE NEWS

Members of the Gladstone high school Negative debate team and their coach, Clark C. Wilkes, leave today for Menominee to meet the Menominee high school affirmative team there tonight. The regular debate subject will be discussed, the direct primary system.

Those making the trip today are: Marguerite Hupp, first speaker; Patricia Peterson, second speaker; William Van Winkle, third speaker; Mildred Cornell, alternate.

The names of the judges have not yet been announced.

A member of the Lawrence college faculty will be judge. In the return debate Friday night in which Menominee will come here, Supt. R. E. Cheney of Escanaba, Principal Auerwald of Marinette and Mr. Lynch of Ishpeming high school will be judges.

The trials are to take place between February 15 and 23. Two other cars will try for the mark, one built by Malcolm Campbell of London, and another the creation of White of Philadelphia. Pa. White's racer will be powered with three motors.

The car Lockhart will drive will have a wheelbase of only 112 inches and an overall length of 15 feet, six inches. It will be only 36 inches high except for the headrest and the wind deflector, which will be 43 inches from the ground. The body will be only 24 inches wide at its widest part, the cockpit. The entire mechanism will be enclosed within the body; except a dual draglink and two steering arms, one on each side.

Every part of the assembly has been constructed either to eliminate wind resistance or to facilitate speed. Steel disk wheels encased in shields, streamlined to increase speed, were decided upon after long experiment. While the body design is extremely simple, it was made after a long series of tests in wind tunnels at Long Island and at the Army field service department at McCook Field, Dayton, Ohio.

The sixteen cylinder motor is composed of two blocks of eight cylinders, set each at a 15 degree angle. There will be two carburetors, and the car will be driven only through the rear wheels.

The car has no radiator. The motor will be kept cool by running water through a tank of cubic ice.

Lockhart, who is 25, holds the American speed records for every distance from one to a hundred miles.

William F. Sturm, Indianapolis newspaper and magazine writer, is managing Lockhart's attempt at the record. Sturm was Major Seagrave's manager a year ago when the Englishman established the record.

Enlisted men of the U. S. army have saved \$65,243.22 in the last 52 years.

THEATRES

AT THE RIALTO. "Chang," a motion picture revealing the hazardous life of the jungle, has been brought back to America by Merian C. Cooper and Ernest B. Schoedsack, who spent 22 months in the remote interior of Siam making the production.

Heralded by Paramount in such extravagant superlatives as "one of the greatest pictures of all time" "Chang" is utterly different from any photoplay ever made, in that although ferocious animals of the jungle—tigers, leopards, elephants, great snakes and chattering monkeys are the principal actors—the picture contains a basic plot, skillfully embroidered with the conventional dramatic forms of sympathy, struggle, menace, tragedy, pathos and exceptional comedy, furnished by a white gibbon named Bimbo.

and Schoedsack constantly faced death, not only from the tigers, elephants, leopards and snakes, but from cholera which took the lives of seven native members of their expedition. Schoedsack himself was stricken with a severe attack of malaria which delayed work on the film.

As the protagonists of man in his eternal fight to wrest a living from the wild, the producer chose an heroic Stamese family—a man, his wife, their two children, household pets and Bimbo, the monkey.

The theme of "Chang" is most elemental—the conflict of man against his implacable foe, the jungle, and the hostile beasts sheltering by its abundant foliage.

CROWD ENJOYS BRANCH RICKEY AT AUDITORIUM

An insight of the invisible element that wins in life as well as baseball was given to Manistique people Monday night by Branch Rickey, vice president manager and stockholder of the St. Louis Cardinals, in a dynamic address at the high school auditorium.

Linking together a series of incidents from his baseball world Rickey characterized this winning force as "a dominant desire to win," and placed it above all else as a factor of success. In the presentation of his message, which proved immensely enjoyable and absorbing to his audience, Rickey revealed himself as a showman, orator, preacher, pacifist and humorist as well as an eminent baseball strategist and business manager.

Rickey, who is a Michigan alumnus, has been characterized by sport writers as a failure as a team manager. They point out that his strategy is largely theory, and that he lacks the knack of getting on with his players, of working with them cooperatively on the principles of practical field generalship. Be that as it may, he stands out as a big figure in the baseball world, and Manistique residents, men and women alike, found top-notch enjoyment in his address.

Significant among the statements made by Rickey was his opinion on war. "I hate war," he declared. Rickey was an officer overseas during the world conflict, and with scores of other officers, all holders of degrees from universities and colleges, attended a gas school. It was here that he was struck by the futility of educated men, "plotting—planning, for an efficient means of killing their fellowmen without them knowing it."

Brief reference to the now famous St. Louis "Knot-hole gang" was made in the speaker's discussion on her worship. He scored "outlandish," hero worship at the same time, lauding the idea when properly applied. Himself an idealist, he made a plea for idealism in boys, and questioned the stability of an educational system which made no provision for the spiritual side.

Rickey was a guest of the local Michigan Alumni club at dinner in the Elks Temple Monday evening, and yesterday addressed high school students at the auditorium.

SCHOOLCRAFT COUNTY FARMER IS ACCLAIMED THE CHAMPION POTATO GROWER OF MICHIGAN

Bringing the potato championship of Michigan to the upper peninsula for the first time in history, Alphonse Verschuere of Manistique was yesterday acclaimed "Champion Potato Grower for 1927" at the farmers' week banquet held in East Lansing in conjunction with the Farmers' Week program of the Michigan Agricultural college.

The Schoolcraft county farmer had a yield of 388 bushels per acre on a five-acre plot, an achievement which brings the entire upper peninsula, as well as this county, into prominence as a potato growing region.

Additional credit is attached to the record made by Mr. Verschuere when it is found that he entered his entire acreage in the contest, rather than selecting the two best as allowed by the rules of the competition. The championship field, like most of the Verschuere farm, is underlaid with rock, and in many places the soil is only a few inches deep.

There are a number of things which are responsible for Mr. Verschuere's success as a potato grower. First of all, a carefully planned crop rotation is carried out, the rotation being designed to maintain soil fertility and to make high yields possible. Phosphorus and potash plant food is supplied in the form of commercial fertilizer. The nitrogen is supplied by plowing under green manure crops.

In the use of fertilizers, Mr. Verschuere believes that if a little fertilizer will increase yields, heavier applications will bring still greater results.

His System Works. To secure a large yield is one thing, to have potatoes run true to type is another; to get both yield and quality calls for the use of some means other than mere accident. The excellent type one will find in his entire field run of potatoes is the result of a number of years of careful selection of seed stock. The cutting of the potatoes for seed, distance of planting in and between the rows, proper preparation of the seed bed, cultivation of the crop, the treating of seed and spraying to control insects and plant diseases, have all been carefully studied. As a result of field experiments and by reading every piece of literature obtainable on potato culture, Mr. Verschuere has evolved a system of potato growing that works.

Another characteristic of this champion that is a real asset, is his open-mindedness and eagerness to learn of and to put into practice any new ideas or discoveries that are applicable to his particular conditions. As Mr. Verschuere says, "It isn't the number of cows or chickens or acres of potatoes, but the net profit per unit or acre that counts." Application of this sound business principle has brought success to man, and will spell success to others if they will but apply this principle to their farming operations.

RURAL CARRIER EXAMS WILL BE AT MANISTIQUE

An examination to fill the position of rural carrier on Route 1 at Manistique has been announced by the U. S. civil service commission. The examination will be held in this city, and receipt of applications will close February 29. The date of the examination will be stated on admission cards mailed to applicants, and will be about 10 days after the closing date for applications.

The salary of a rural mail carrier on a standard daily wagon route of 24 miles is \$1,800 per annum, with an additional \$30 per mile or fraction thereof in excess of 24 miles. Certain allowances are also made for maintenance of equipment. The examination will be open only to citizens who are actually domiciled in the territory of the post-office where the vacancy exists and who meet the other requirements set forth in Form 1977. Both men and women, if qualified, may enter this examination, but appointing officers have the legal right to specify the sex desired.

Form 1977 and application blanks can be obtained from the vacancy office mentioned above or from the U. S. Civil Service Commission at Washington, D. C. Applications must be on file with the commission at Washington prior to the close of business on the date specified above. At the examination, applicants must furnish unmounted photographs of themselves taken within two years.

With a striking window display Sigler's Sport Shop and hardware store opened for business at Manistique this week. The shop occupies the former Robert Rubin store building, and carries a full line of shelf hardware in addition to sporting goods and smokes.

Mrs. Julius Pihlman and Mrs. William Magnuson returned to their home at Iron Mountain after visiting friends, and relatives for a week.

Mr. and Mrs. George Leonard of Iron Mountain are in Manistique as the guests of their son and daughter-in-law, Mr. and Mrs. Russell Leonard.

Popularity of the Manistique skating rink is increasing, and the place is being used extensively in the evening. Skaters report lack of lights as the only handicap to the evening sessions on the ice.

After a visit at the home of her parents, Mr. and Mrs. Adolph Sandberg, Mrs. John Hawbridge left Monday morning for her home at Detroit.

George Frazer, expects to leave today for Montreal, Can. He will also visit in eastern and central states before returning.

With Jackson Hole, Wyo., as their destination, Mr. and Mrs. D. J. Ward and son, Chester, will leave Manistique tonight for a stay of several months in the Southwest. At Jackson, they will be guests of Rev. W. A. Thomas and family, who are well known in this city. Reverend Thomas is an Episcopalian missionary, and for several years was stationed at Pt. Hope, Alaska. Mrs. Thomas is a daughter of Mr. and Mrs. Ward.

The Manistique party will arrive at Jackson Hole Saturday.

ENTERTAIN AT DINNER. Mrs. John Herrick entertained a number of guests at a 7 o'clock dinner Sunday in her home, 117 North Third street. Those present were: Mr. and Mrs. Edward Purtil of Garden, Miss Stella Gauthier of Garden, Don Farley of Garden, Miss Lily Nelson, Alfred Farley and Orville Shaw of Detroit.

BANQUET IS BIG SUCCESS

Twentieth Anniversary of Church Fittingly Observed. At a banquet that was a success from every standpoint, Alice Memorial Methodist Episcopal church, Monday evening, fittingly observed its twentieth anniversary.

The spiritual observance of the anniversary was held on Sunday with two splendid sermons by the pastor, Rev. H. W. Colenso, and special music by the choir and by soloists. The public observance, an annual affair, in which the community joins in wishing the congregation continued success, was Monday night's banquet.

Every detail of the evening from the serving of the banquet to the final words of the after-dinner program was carried out successfully, making the evening one of thorough enjoyment in its every phase.

The banquet started promptly at 7 o'clock, the guests entering the church parlors, to a march played by the Sunday school orchestra, with under the direction of Van Kneib, played during the banquet.

The invocation was given by Rev. R. C. Williams, pastor of the First M. E. church of Escanaba.

Credit To Aid. The tables were attractively arranged with cut flowers forming centerpieces and the banquet programs at each place, and the delicious dinner was well prepared and was equally well served by the members of the Ladies' Aid society of the church who were in entire charge. One hundred and seventy-five persons were served.

The banquet program opened with an introduction by Prin C. C. Strickland, head of the Gladstone high school, who spoke of the occasion of the banquet. Mr. Strickland, possessing a fund of apt illustrations and narratives, was an able and entertaining toastmaster.

The opening numbers of the program were vocal selections by Miss Aleene Hufford, "Beautiful World of My Dreams," and "I Know a Little Girl," Robert Kee playing the accompaniment; "The Railroad Crossing," a reading by Mary Virginia Watson, who was heartily cheered; vocal duets, "The Rose of Memory Lane," and "Among My Souvenirs," by Misses June and Fernie Woodhall; Miss Hufford accompanying them; and two solos, "The House at the End of the Lane," and "Sing a Song," by Mrs. Ed Foster, Miss Ailwyn Empson, playing the accompaniment, all of which were received with applause.

Short Talk. A short talk, on "Hanging Models," by W. S. Skellenger, followed. Mr. Skellenger spoke of the continual change in all phases of life during the present age, using this to bring out more forcibly the one thing unchanging, "God's divine play for His church." He spoke of the harm of the present tendency to parade crime, but reiterated his belief that Christian ideals, religion and the divine plan of God will save the world.

Following this were two songs, "Shipmate O' Mine," and "Give a Man a Horse He Can Ride," by Lawrence Van Horn. Miss Hufford accompanying him; a clever reading, "The Swimming Hole," by Mrs. Van Kneib, and two whistling solos, "Spring Song," and "Charmaine," by Winifred Jackson, whom Mrs. Fred Minicay accompanied, numbers equally fine and equally well received.

The address of the evening, one of the finest heard here in some time, was delivered by Rev. F. L. Leonard of Marquette, superintendent of the Marquette district.

Reverend Leonard, speaking

"First, everyone of them is old. All Old. The speaker then took each item and showed that its practice dated back thousands of years. Those who mock religion, he referred to Cain; the notion that scoffing at the Bible, turning it old-fashioned, is new, he dispelled by the story of the finding of the Bible, forgotten for a generation, in the Old Testament temple which was being repaired; in amusements, he stated, there has been variation, but no change; drinking, he pointed out, is as old as the human race, and women were drinking 3,000 years ago; and, as for the ultra-modern woman, Eve was the first of her kind and her practice of smoking was the practice of squaws at the time Columbus discovered America and was enjoyed by old women, termed as "Old cronies," not so long ago.

The second thing pointed out by the pastor was that not one of the so-called up-to-date practices takes us nearer toward the ideal toward which we are advancing.

"It is not enough to fall into line and to do just what is being done," he stated. "Every man who has been worth-while, has been ahead of his time," and he gave as examples, Isalah, the prophet, Christ, John Wesley and Martin Luther.

"It was a wonderful new day when Christ said, 'Repent ye, the kingdom of Heaven is at hand,'" he said in conclusion. "Fall into the path of Jesus Christ who saw so far ahead, far down the line toward peace, plenty, health and righteousness. Get in line with Him!"

When the applause had died down, Mr. Strickland closed the program, thanking the Ladies' Aid and expressing the appreciation of every one for their services, and thanking the orchestra.

Appreciation Expressed. Reverend Colenso then spoke a few words, also of appreciation, and of his regret that it was impossible to find places for all who wished to attend. The pastor's benediction closed the banquet.

DISTURBING PEACE, THREE ARE ARRESTED. Mrs. John Lynch, Milton Lynch and Zeula Smith, arraigned in justice court Tuesday on charges of disturbing the peace, were ordered to leave Gladstone.

The complaint was made by Officer Earl LaBumhard following a row in which all three took part Sunday night on Delta avenue.

Smith, who was to have left Gladstone by noon Tuesday, failed to follow the court's order and he was placed in jail under bonds of \$200 with his hearing set for February 3.

Mrs. Lynch and her son will depart before noon, February 1.

"It was a wonderful new day when Christ said, 'Repent ye, the kingdom of Heaven is at hand,'" he said in conclusion. "Fall into the path of Jesus Christ who saw so far ahead, far down the line toward peace, plenty, health and righteousness. Get in line with Him!"

When the applause had died down, Mr. Strickland closed the program, thanking the Ladies' Aid and expressing the appreciation of every one for their services, and thanking the orchestra.

Appreciation Expressed. Reverend Colenso then spoke a few words, also of appreciation, and of his regret that it was impossible to find places for all who wished to attend. The pastor's benediction closed the banquet.

New York, Jan. 31.—(P)—Selling pressure was lifted from today's stock market and prices moved upward under the stimulus of pool operations and short covering.

Publication of the quarterly statement of the U. S. Steel corporation after the close of the market showed net earnings of \$1.05 a share, as against \$2.14 in the preceding quarter.

American Zinc and Lead preferred soared 10 points to a new peak at 74. Auto sales reached new high ground on buying influenced by expanding earnings.

Foreign exchanges were slightly easier, with sterling cables quoted around \$4.85 16-32.

Commodities were irregular. Fractional losses in wheat futures were offset by slightly higher prices for corn and oats.

Chicago Potatoes: Chicago, Jan. 31.—Potatoes, receipts 65 cars; on track 250; total United States shipments 478 cars.

Chicago Livestock: Chicago, Jan. 31.—Cattle, receipts 9,000; generally steady; trade on feed steers and yearlings the stock in line with yesterday.

Chicago Butter: Chicago, Jan. 31.—Butter ruled steady today on top scores and on medium and lower grades with a fair trade reported.

## IRON MT. FIVE TO PLAY INDEES

### Ramblers to Meet Daily Press Quint in Preliminary

Unperturbed by the defeat handed them by the Niagara Badgers Monday night, the Escanaba Independents eagerly await the arrival of the strong Iron Mountain quintet for a game at the Escanaba high school gymnasium Thursday night.

The Niagara aggregation of former college stars proved too much for the local five, and won easily by a 66 to 30 score. The Badgers are all tall, rangy fellows with remarkable speed. They have won every game this season except one with the Crystal Falls squad, which is led by Eddie Chambers, former University of Michigan star.

Iron Mountain comes here to obtain vengeance for a beating given them by the Independents earlier this season.

An equally good attraction for basketball fans will be the preliminary to the Iron Mountain-Indees game. The Ramblers, winners of last year's amateur tournament, will play their old-time foes, the Press Typeslingers. The Daily Press quintet was runner-up in this same tourney. Each team has a large following who have been waiting anxiously the time when these two squads will clash.

## Sea Gulls and Mice Land in City Pound

Paris (AP)—Paris, like the smallest village, has its Pound. That institution, abhorred of dog-lovers, now rivals in attraction the Zoological Garden. Among the fauna to which it now offers an unwanted hospitality, are a super-bull, a cow, two small billy-goats, six white mice, found in the subway, an owl with a broken wing and a sea-gull, similarly maimed.

The cow, whose name is Caroline, unlike the other guests, is an ill-tempered animal. The day she arrived, Caroline sat down in the garbage box and was induced to get up with great difficulty. The only find to be reclaimed is the sea-gull with the broken plume, and he is shortly to be restored to his owner, if the latter is willing to settle for his board.

### BRACELET WATCHES LATEST SOCIETY WOMEN OF EUROPE

adoption of a new fashion at dances this season. On their arm is always a bracelet wrist watch. At times it may be the only bracelet, but often it is one of several. The oval or oblong, running up the arm instead of across it, are the favorite shapes. The bracelet watches usually are very elaborately jeweled, and some are set in black or shagreen bands.

### Keep Lena Blackburne.

Lena Blackburne is liked as coach of the Chicago White Sox and already has been signed for the job this year.

A calf killed at Gosford, New South Wales, had in its stomach a pair of gold sleeve-links, a gold collar-stud, and a gold safety pin.

## BIG TEN OF GOLFDOM

Bobby Jones and George Von Elm, two of the outstanding players of the 1926 season, rank first and second on the 1927 list selected by the United States Golf Association as the "Big Ten" of the amateurs. Rating them on their season's work, the association selected Jones first, Von Elm second, Jess W. Sweetser third, Francis Quimet fourth, Watts Gunn fifth, Bon Stein sixth, Eddie Held seventh, Jesse P. Guildford eighth, Harrison B. Johnston ninth, and Roland B. McKenzie tenth. They appear in this order in our layout.

## WRITING? GIVE 'EM GOLF!

Why worry with writing when one's getting a winter sunning at Palm Beach? So say Rex Beach (left) and Grantland Rice, scribes. They feed off in the writers' and artists' links tournament and were well up in front as the final rounds approached.

## Pawnshop Loans Make Huge Total

Paris (AP)—There are as many things in pawn in Paris as there are families and the Credit Municipal, popularly called "The Nail," ranks with the big banks in its loan totals.

There are at present half a million objects pledged for an average of \$10 each and there is a constant turnover. Jewelry represents more than nine-tenths of the collateral although there are dozens of automobiles in for winter "storage."

The curious department is the room where people living in cramped quarters often leave their bicycles, taking them out only for the summer months.

### Home-Run Slugger.

Jumbo Barrett, rookie catcher from the Sally League who will try out with the Giants this spring, hit 39 home runs last season with Knoxville.

### Two Western Entries.

California and Washington are the only two western schools who are sure to enter the Poughkeepsie regatta this year. Talk that others would has died down lately.

### After Sherry Smith.

Atlanta, in the Southern league, is trying to get Sherry Smith, former major league star, to pitch for the Crackers this year.

By BOB MATHERNE  
VINCENT RICHARDS SAYS:  
Through a spirit of patriotic loyalty and a respect for those players who have spent so many years in its defense, I certainly would like to see the United States win back the Davis cup this year from France.

But I do not believe there is a chance. It may be years before we can develop a team good enough to regain the world's team tennis title.

The United States was able to win the cup and retain it only as long as Tilden and Johnston remained the two greatest match players in the world. Other nations had to wait patiently until those two great stars passed their prime.

We find now that France with Lacoste, Crochet, Brugnon, Borotra and several other younger stars is even stronger than the United States was with Tilden and Johnston because they have more good players and a better balanced team. They are all young players too and it might not be putting it too strong to figure that they will remain in form for at least three years and maybe longer.

As a challenger, the United States will have to assume a harder burden by playing through the eliminations and by playing the French on their home courts and if you don't think there is a vast difference between playing at Forest Hills or Germantown and in Paris, you should try it.

## OTHER CLUBS IN LEAGUE ADMIT THESE RECORDS

Even if it is a long time since, it does not burden the memory to recall that the New York Yankees won the American League pennant and the world series. They also made a number of other figures that the statisticians are uncovering.

They won 110 games for a new American League record, won the world series in four straight, tying the big time record, and took 21 straight from the St. Louis Browns for a new record.

They established new records in hits, extra bases, total bases, home runs and scoring runs.

Babe Ruth made a new record of 60 home runs and Lou Gehrig made a new mark by driving in 175 runs.

## Nahma Defeats Iron Mountain Cage Team

Nahma, Jan. 31—(Special)—The Nahma Legion defeated Iron Mountain, 31 to 19, here tonight. The game was clean and fast and ably handled by Referee "Tarzan" Johnson of Escanaba. W. Ranguette and Warner starred for Nahma while Eckholm and Fox were the shining lights of the visiting team.

### Had Good Start.

James Battle, rookie third baseman who will try out with the White Sox this spring, played in six games for them last season and batted .375 in those six games.

### Retain Witham as Coach.

The University of Colorado changing plans immediately after football season, will retain Myron Witham as football coach next season.

## SAINTS PLAY AT NEWBERRY

Undaunted by the severe drubbing they received at the hands of Coach "Bud" Finch's cagers at Marquette last week, the St. Joseph high school cage team are practicing hard for their game with Newberry high school next Friday night.

Newberry ranks second in the Cloverland Athletic Conference basketball race with the Baraga Parochial squad in the top position. The Celery City quintet will be a hard nut to crack, the St. Joseph lads realize, and they have been showing in their practice a determination to retrieve their lost laurels.

Sault Ste. Marie will furnish the opposition for Coach Roels' basketballers at the high school gymnasium here Friday night.

Other games on schedule for that night are:  
Ishpeming at Marquette.  
Negaunee at Munising.  
Republics at National Mine.  
Michigan at Champion.  
John D. Pierce at Gwinn.  
Ontonagon at Bergland.  
Rapid River at Rock.  
Calumet at Dollar Bay.  
Lake Linden at Painesdale.  
Houghton at Hancock.  
Baraga Parochial at Manistique.  
Gladstone at Menominee.  
Iron River at Vulcan.  
Crystal Falls at Stambaugh.  
Kingsford at Iron Mountain.  
Stephenson at Norway.

## Hooks and Slides

Delayed action of the German athletic authorities in granting permission to Herr Doctor Otto Feltzer to exhibit his world's champion half-mile legs in this country, put the officials of the Amateur Athletic Union in the well-known middle.

To refuse permission for the celebrated German medic to run in the United States would not be good diplomacy for the nation acting as his host and some of the good burghers in Berlin might believe that the good Americans were afraid their doctor might show them up.

To grant permission for the speedy German to run in the three meets which his native bosses limited him to would get the A. A. U. in a fine jam with about a dozen influential clubs all claiming first rights and consideration for his services.

It would be the same mess that was the result of the tours of Paavo Nurmi, Edwin Wide and Charley Hoff, only worse.

Because when those distinguished athletes were swelling the gate receipts for the favored clubs, the less favored clubs could be properly snubbed and put in their places.

### Tough Luck of Hahn

At the present time, however, no club can be snubbed properly because every club is expected to kick in its share to support the Olympic expedition and it has happened in the past that the larger the fund at the disposal of the committee the more wives and members of the families of some of the committee could be taken along.

There are other good reasons, however, for the American officials to be concerned about the diplomatic results of any races in which a prospective winner of the Amsterdam Olympic 800-meters runs in this country.

They have been pointed out by Gustavus T. Kirby, one of the big college men on the committee, who knows his track number.

Some of the clubs promoting indoor meets watch the box office closer than the arena. It will be recalled that Lloyd Hahn, in the first big indoor meet of the season, made a new indoor record for the half-mile, but it was not allowed.

It developed that no guard rail had been constructed on the inside of the track, which the regulations prescribe. It was easier and cheaper to paint the inner boundary line and the "huge" saving kept a deserving runner from a very fine record.

### Gate Is the Thing

Supposing Kirby pointed out, that such carelessness should be used in building a track for one of the meets in which Feltzer might be a competitor, that he fell through a defective board or injured himself otherwise through faults of construction and would be ruined for the Olympic games.

Regardless of the fact that Germans are good sportsmen you would have to listen to some stories that he was trapped deliberately and imposed upon so that a dangerous rival might be taken care of. You have to think of these things.

Regardless of the claim that "track enthusiasts" are demanding that the fleet doctor run in competitive company in this country, the promoters want him chiefly for the gate receipts.

In this connection and other connections, it is to be hoped that the truth may come out some time about the experiences of Paavo Nurmi and Charley Hoff.

## Collins Traded to Canadian Ball Club

Detroit, Jan. 31—(AP)—Rip Collins, right-hand pitcher of the Detroit American League baseball club, has been traded to the Toronto team of the International League for Vic Sorrell, another right-handed hurler. It was announced here tonight. No cash or other player considerations were involved in the deal, according to officials of the Detroit club.

## FIGHTERS MUST GIVE BIG BOND

### Benny Bass and Canzoneri Will Put Up \$25,000

New York, Jan. 31—(AP)—A remedy concocted by the New York state athletic commission to cure certain types of illness among heavyweight boxers even before they occur was passed in today on fighters in lesser divisions.

The commission called upon Benny Bass, Philadelphia nominee of the National Boxing association for the featherweight championship, and Tony Canzoneri, favorite son of the New York commission for forfeits of \$25,000 apiece to ensure their going through with a title match scheduled for February 10 at Madison Square Garden.

Precedent for this action was set two weeks ago, when the commission ordered Tom Heeny and Jack Delaney to post \$5,000 apiece to guarantee appearance for their heavyweight "elimination" battle here March 1. The move followed Jack Sharkey's postponement of the original date for his recent draw match with Heeny because of an injured hand. The commission thought that postponement unnecessary.

The forfeits which must be posted by Thursday will be split into equal sums guaranteeing appearance and weight under the 126 pound limit. In case of default, the weight forfeit will be turned over to the offender's opponent, while the appearance money will be paid the Madison Square Garden.

While not affecting the boxer's standing in New York, the commission advised Joe Sekyra, Dayton light heavyweight, to settle his differences immediately with the Montgomery county boxing commission of Ohio, or else take the matter to court. The mid-west commission, although it has no working agreement with New York, asked assistance in forcing Sekyra in carrying out a contract made with promoters for matches every twenty days throughout 1928 in Dayton.

York, Pa., served as the capital of the United States in 1777.

## The NUT CRACKER

Great Britain's ping pong team is on its way to Stockholm to try to win back the championship. Gruelling battles loom up there in the frozen northland.

You'll know it's spring when the baseball scribes start picking the batterymen for the opening day.

Mr. O'Goofy was just reading a notice about that skates derby in Chicago and said he didn't think they held horse-races there in winter.

Knute Rockne tells of a town in the middle west where the population is 10,000 and where the basketball armory seats 12,000. Oh, well, maybe they're going to make a bid for one of the Tunney-Dempsey fights.

Babe Ruth says if he had stayed one more day in North Carolina he'd have got a bear. O'Goofy says he'd have left a day too soon, too.

O'Goofy, by the way, has been reading the papers quite diligently of late, and he says there is one sports writer out in Indiana some where who thinks that even at that Hornsby isn't such a bad ball player.

## Roughhousers Play Two Games Tonight

The North Escanaba Roughhousers will engage in a doubleheader tonight, meeting the F. F. U. Invincibles at 7 o'clock at the Webster gym and the Gladstone Buckeyes in the second tilt.

The Buckeye aggregation is composed of former high school stars including Moore, Berg, Peterson and the Rajala brothers. The Roughhousers will start their regular lineup with Reidy and Erdman at forward positions, E. Erickson, center, and Bobby and "Tiger" Johnson holding down the guard duties. "Hank" Brown, Vanderlin and Ellason will also be seen in action.

### TRY TO FIND RADIO NOISE

#### Believe Trouble Is Confined to One Power Circuit

Tests made at the municipal electric plant yesterday noon appeared to indicate that the source of the objectionable noises that have been disturbing radio reception the past week is confined to one particular power circuit within the city. Just where the defect is located along the circuit could not be determined yesterday since such a matter usually requires considerable investigation.

In making the tests, those interested in the project installed a radio receiving set at the city electric plant. While the set was in operation, one by one the various circuits were "cut off" but the troublesome noises persisted until the "three-phase power" circuit was segregated. The tests on this particular circuit were repeated numerous times until those in charge were satisfied they had located the troublesome circuit.

It is planned to carry out tests along the circuit in question if the trouble continues. There have been times during the past week when radio reception was considered excellent. The noises recur, however, periodically in a way that has puzzled radio enthusiasts.

Reports have come in that the interference has been noted in the rural sections within a twenty-mile radius, but not as annoying as is experienced here.

### "Experts" Bombed Two Chicago Homes

Chicago, Jan. 31.—(AP)—Bombing of the homes of Charles C. Fitzmorris, city comptroller, and Dr. W. H. Reid, stalwarts of the administration of Mayor William Hale Thompson, probably was the work of experts from other cities and now far beyond the reach of the Chicago police, Lieut. Make Mills, the police department's bomb expert, said today.

Carl Schmidt and Samuel Wilens, against whom bombing charges are pending in criminal court, were arrested today, but later released. The police attached but little importance to the seizure of the men, which brought arrests to nearly two score.

"I don't believe any of the men arrested so far had anything to do with bombing the Fitzmorris or Reid homes," said Mills. "It is my theory that the bombers were brought from New York, St. Louis or Detroit, were promptly paid off and told to go back home and forget about it."

### GERMAN BIRTH RATE DROPS

In the schools of Berlin are only 353,000 children as compared with 700,000 before the World war, and the birth rate is less than half that of 15 years ago. This was the declaration of the Ober-Burgemeister of Berlin, speaking recently in the Prussian Council of State. He attributed the decrease in the birth-rate principally to the insufficient number of houses.

## Talks on Health

By Dr. Morris Fishbein

### CAFFEIN IS STIMULATING TO HEART AND BRAIN

The essential stimulating principle of both tea and coffee is caffeine.

A strong cup of tea or of coffee contains about one-tenth of a gram of 1 1/2 grains of caffeine. In addition, coffee has fat and chlorogenic acid, while tea has tannin and theobromin.

**Tea Not a Food**  
Prof. R. J. S. McDowall of the University of London points out that tea cannot be considered as in any way a food. The amount of tannin or caffeine in the tea depends largely on the way in which it is made.

Caffein has a stimulating action on the body, particularly as relates to the higher brain centers and to the heart. It sometimes causes a rise in the blood pressure and it incidentally has the power of increasing the activities of the kidneys.

The British authorities agree with American investigators that the disadvantages of tea lie in excessive consumption and in the possibilities of bad preparation. Caffein taken in excess, for example in the amount of five cups of tea a day by a young person,

might bring about nervous excitation, disturbed sleep and headache.

**Tanning an Astringent**  
If tea has been infused too long, the tannin effects are considerable. The tannin acts as an astringent and brings about difficulties with digestion.

The moderate consumption of properly made tea has no serious disadvantages and is an exceedingly pleasant drink. An unusual amount of bitterness in the tea suggests that the tannin is excessive. This excessive tannin is also responsible for dryness in the mouth.

New York, Jan. 31.—(AP)—Ruby Goldstein was awarded a judges' decision over Danny Cooney in a six-round bout here tonight. Goldstein weighed 140 1/2; Cooney, 141 1/2. In a six-round semi-final, Jack McFarland, of Newark, 151 pounds, outpointed Joe Schlocker of Los Angeles, 148 3-4.

The first thermometer was made by Gabriel Daniel Fahrenheit in 1740. In his early experiments, he used spirits of wine instead of mercury in his glass tubes.

## MICHIGAN NEEDS NEW TAX PLANS

### Present System Is Not Satisfactory, Green Tells Farmers

East Lansing, Jan. 31.—(AP)—Solution of Michigan troubles is found in the need for a new tax system, Governor Green told Farmers' Week visitors here tonight. Elimination of the general property tax and a system based on the ability to pay, equitable to all, were advocated by the governor. Relief has come to other industries, and it is now

time for farm relief, he said. Emphasizing the need for continued economy in state affairs the governor, however, took issue with the Michigan Grange on the curtailment of the road-building program in the state. After stating that his administration had paid \$5,000,000 of a \$6,000,000 road debt, he said it would continue with its road improvement program.

Praise for the 1927 legislative criminal code again was expressed by the chief executive, who stated that \$80,000 had been saved in Detroit in jury fees of the relief of the code from technicalities.

**Rural Life College Problem.**  
The proper function of the land grant college in the study of anything that demands human investigation, declared W. O. Thompson, president emeritus of Ohio State university tonight. He belittled the claim of liberal arts college heads that sciences should not be included in the curriculum of agricultural colleges.

Rural life problems are problems in the agricultural college, Thompson stated. The fact that the city is recruited from men and women on the farm makes the problem of the land grant college a national one. Farmers must satisfy their own problems and not depend on national legislation, Thompson declared in touching upon farm relief.

### NEW UMBRELLAS

Paris (P)—Dark blue silk umbrellas with crook handles of light yellow bamboo are the latest and most favored for general usage by Parisians. The handles are short but broad enough to hang easily over the arm without budging. Dark blue and white pin check covers are also in the height of fashion.

### Get a Raise This Month? How Much Will You Save?

BETWEEN 1921 and 1926 the income of the United States grew from 62 to 90 billion dollars. An increase of 28 billions or \$573 per person!

While earnings went up, living costs went down. The dollar will buy more today than in 1921.

During this time of increased earnings and lowered living costs, how much of the surplus, thus made, did you put into permanent savings?

If you got a raise the first of the year, will you keep expenses down and save part of it, or will you let your expenses increase and consume it all?
