(Continued From Page One.)

great fire which swept the business district of that city reached the main telephone exchange. The operators were all forced to leave their places and service was suspended. The exchange is situated near the city hall, and not far from the Pocasset mills where the fire originated.

#### SPREADS RAPIDLY.

Fall River, Mass., Feb. 2.—(AP)—Fire tonight swept through the center of Fall River's business district, causing losses placed in early estimates at several million dollars. At least 12 large buildings were destroyed and the flames were driving on, fanned by a brisk northwest breeze. Aid had either arrived or was on the way from New Bedford and other cities.

The fire started shortly after 7 o'clock in the southeast corner of the Pocasset mills, a dismantled textile plant which was being razed. The mills are the property of Louis K. Liggett of Boston. All four units of the plant were wiped out.

In rapid order the fire spread to and demolished the Mohican hotel, with several stores in the same building, the Rialto theatre, the Boys Club, the old building of the Fall River Herald-News, the building of the French daily newspaper, L'Independant, the Vermont hotel, the Kresge building and the Granite block. The new building of the Herald-News, recently completed, and the R. A. McWhirrer department store.

Loss of life was feared, but early reports of casualties could not be verified. One rumor was that five firemen had been buried in the collapse of a wall at the Pocasset mills. Six firemen were under treatment at various hospitals for injuries.

When the fire started there was a large audience in the Rialto theatre, but the hundreds of spectators fled out in an orderly manner.

#### Fire Breaks Check Blaze.

Sparks carried by the wind set many fires in other parts of the city. The Troy mills, situated a mile from the scene of the fire, caught in this way and one section of the plant was in flames. A number of dwellings to the eastward of the main fire were also burning.

On opposite sides of Main street two buildings stood as fire breaks in the path of the flames. On the west side of the street the flames were checked at the Merchants block, built in 1843. This building had withstood previous conflagrations in the Fall River business district. On the east side, the building of the Fall River Globe newspaper marked the limit of the ravaged area. Employees of the newspaper were engaged in playing hose on the roof of their building. The Wilbur hotel, immediately adjoining the Globe building, was burning. The city hall nearby was threatened.

Numerous fires broke out in residences on Pleasant street, but most of these were brought under control by residents assisted by firemen. The Union mills on Pleasant street also became ignited, and were threatened with destruction.

#### Wind Spreads Blaze.

From the editorial rooms of the Fall River Globe, members of the newspaper staff watched the progress of the flames down Main street and kept the Associated Press informed by telephone. Every few minutes these observers would report that another building had caught, or that some blank wall left standing in the wake of the flames had finally crashed down into the embers.

The fire from its early moments sped beyond the powers of the fire fighting forces and spread before the wind with almost lightning rapidity. At 10 o'clock there seemed to be signs that it was burning itself out. The efforts of the firemen were directed at drenching the walls and roofs of buildings in the path of the flames to prevent a further spread.

### ESCANABA TRIO IN SEMI-FINALS

#### Negative Debate Team Defeats Ishpeming Speakers

Ishpeming, Feb. 2.—(Special)—Opposing the question: Resolved that the direct primary system of nominating candidates for public office in the United States should be abolished, the negative debaters of the Escanaba high school defeated the local affirmative team at the high school auditorium last evening.

Professors Hunt and Brown and Dr. Shriner, of the Northern State Teachers' college, judges, awarded the Escanaba trio a 2 to 1 decision, which places them in the semi-finals of the upper peninsula debate tournament. Members of the Upper Peninsula Debate League will meet Monday at the Northern State Teachers' college, to draw opponents and decide the place of meeting for the semi-finals.

The well-trained and convincing Escanaba team was composed of Rita Auerbach, William Peters and Helen Snyder with Marguerite Eis as alternate. They were accompanied by their coach, Clarence Zerbel.

The local affirmative speakers were Myrtle Cardew, Clara Leo and Zona Kemp.

ogy standing squarely on the Coolidge record.

But the big question is whether the Hoover element will gain the outspoken Coolidge support. The intention of the president is to remain absolutely neutral, in fact if he were to have indicated that he wanted the secretary of commerce to resign just because his friends were booming him for the presidential nomination it might have been interpreted as an unfriendly act.

California for Hoover. Meanwhile the California delegation in the house has unanimously announced its support of Mr. Hoover and there is considerable talk of harmony in California among the friends of Hiram Johnson who is up for re-nomination as a senator.

Mr. Johnson and Mr. Hoover fought out the issue in the presidential primaries before, but California's choice this time will be Mr. Hoover and the action now by the California delegation is taken to show the other Republicans of the country that there are no "ifs" and "buts" about California's support of Herbert Hoover.

### Present Ordinance to Prevent Sale of Mexican Drug

Detroit, Feb. 2.—(AP)—A proposed city ordinance which would ban the sale and use of marijuana, a Mexican drug, and all other forms of narcotics, except for medical purposes, was presented today to the city council by Nathaniel H. Goldstick, assistant corporation counsel.

The measure was proposed as a result of recent reports by narcotic officers that marijuana is being smoked in cigarette here by criminals to nerve them to commit crimes. It makes provision that any drug addict upon application to recorder's court, may be committed to a county, city or private hospital to be kept until cured.

The greatest number of deaths occur between the hours of 6 p. m. and 8 a. m.

gush between right and wrong. In reply to one question, the witness turned his eyes on his prisoner-brother as he said, "My brother told me his ambition in life was to become a great public speaker and leader."

The sixth day of the trial also brought the first of the defense attorneys to the defense of the accused youth who was 20 years old yesterday. Dr. R. O. Shelton of Los Angeles, explaining to the jury his opinion that the prisoner "suffered the form of dementia praecox," when the session was adjourned until tomorrow.

Father Cross-Examined. An exhibit brought into the case was the heavy knife with which Hickman dissected the body of the child victim after strangling her. Women jurors were visibly affected when they inspected the weapon and morgue photographs of the slain girl's body. These exhibits were introduced by the defense.

While the father of the defendant was on the stand he was cross-examined by Prosecutor Asa Kever who drew from him the statement that before his wife, some years ago, was sent to an Arkansas asylum for a short period, he had told the officials who committed her that he had never seen signs of insanity until she made the suicide attempt.

The father denied he believed his alleged relations with other women had caused his wife's unhappy condition. He admitted that when he left his family in 1920, he married again across the border in northern Mexico.

### ASKS DRASTIC ENFORCEMENT

who accepts a nomination for president and consents to run a platform that is silent on this point, is insincere and deserves to lose the confidence of the people.

LaGuardia reiterated his charges that prohibition enforcement cannot be found in the larger cities and said that breweries running in New York state are members of a clearinghouse in New York which operates in offices at 1182 Broadway and that this beer ring dispenses the illegal beverage virtually unrestricted. He also charged corroboration in the administration of the Knickerbocker warehouse there, which he said was a depository for seized liquor where it is possible to buy liquor taken in raids under protection from Washington.

Refuses to Answer Question. He urged that prohibition be applied so strictly that even members of congress could not get a drink and added, "think of that," while the few members on the floor laughed. When he said that he would allow the Anti-Saloon League to administer the "rotten law," Representative Schafer, Republican, Wisconsin, attacked the suggestion with a charge that the Anti-Saloon League has directed many appointments to the enforcement ranks and that some of these appointments had been "crowded."

Representative Howard, Democrat, Oklahoma, asked LaGuardia whether his personal attitude would be one of co-operation for law enforcement if such drastic methods proposed were adopted, but the New Yorker refused to commit himself.

Later in the day, LaGuardia introduced a resolution under which Secretary Mellon would be directed to supply the house with information concerning the number of persons employed to enforce prohibition in the 250 largest cities of the country.

The measure was proposed as a result of recent reports by narcotic officers that marijuana is being smoked in cigarette here by criminals to nerve them to commit crimes. ills of the tax system were attributed by Newton to use of the property tax to the virtual exclusion of other forms of taxation based on ability to pay. He advocated eternal vigilance over governmental costs, a scientific classification of property and a modern plan of equalization as remedies.

Master farmers in session today went on record as supporting efforts of Senator Capper to secure a charter for national organization charters. Demonstration Hall echoed to the strains of spirituals, hymns and patriotic tunes this afternoon as choruses competed in the fourth annual Grange singing contest. Thirteen members of the Brandon group of Oakland county took first prize of \$100 with the selections, "Joy, Brothers, Joy," and "Nancy Lee," the latter optional. Other winners were Welcome Grange, Hastings; Montclair Grange, Greenville; Wheatfield Grange, Williamston, and Lime Creek Grange.

Favor Capital Punishment. Unless relief immediately is found, the farmer is due to be relegated to peasantry and to be termed a "yokel," Prof. William E. Dodd of the University of Chicago told members of the Michigan State Farm bureau at their tenth annual banquet tonight. Prefacing his remarks with an extensive history of agriculture, Professor Dodd expressed gloom over the future of the industry.

Resolutions favoring capital punishment, elimination of alienists from criminal procedure, revision of state taxes to do away with the property measure in favor of income taxes, stressing of economic phase of the college extension work and the support of this work entirely by public funds, creation of a traffic director in the department of agriculture and approval of the McNary-Haugen bill and candidates supporting it, were presented to members today by the bureau committee on resolutions. Approval of the entire group will be carried over to the session Friday.

General sessions closed tonight with a humorous speech by James Schermerhorn on "Making a daily out loud."

### Police Hunt Man Believed Kidnaped

Detroit, Feb. 2.—(AP)—Police are investigating the disappearance of Edward Crash, alleged bookmaker, who is thought to be held for ransom. His wife received a letter early today demanding \$30,000 with the threat of death for her husband if the money is not paid. Crash has been missing since Tuesday, according to his wife.

Police believe the kidnaping of Crash is a revival of a campaign by extortionists against operators of gambling houses.

### MRS. HICKMAN TELLS STORY OF HER LIFE

(Continued From Page One.)

not seem to know what he wanted to do. He wouldn't stay at any one thing. It was just his mind.

Didn't Discuss Murder. When I saw him the other day when I walked into that jail cell, the first time I'd seen him since last October, he just said, "Hello, mother," as if he'd parted from me that very morning. Then he said, "How are you? Don't cry mother." He was really consoling me.

He asked me about his sister. We didn't mention the trouble at all. . . . He didn't and I didn't. . . . But the next time I see Edward I'll pull him out and see what he will say in regard to it. I wouldn't have been a true mother at all if I hadn't come to see him. I hope that I can help him, but I don't see how. He doesn't look like a criminal. But maybe that's because he's mine I think that. He looks all right to me.

He studied very hard that last year in high school for an oratorical contest and when he lost he was so disappointed. He came home and cried over it. He used to mourn too because his father went off and left us. He used to say if his father had stayed home and he had his companionship, things would have been different.

Missed His Father. "I always tried to encourage him and tell him that he could be a real man even if his father was gone. Of all my children, Edward seemed to miss his father most. He was the only child who mentioned his father being gone. He was only nine when his father left in 1917.

My life has been just one tragedy after another. I'll stay until the finish if my funds hold out. I'm against capital punishment. They way I look at it, it's not the way of punishing anyone. It doesn't do any good. Seems as if a person is insane he should be put away and cured.

Edward said the other day, "Mother, I wouldn't read the papers." It's terrible. You can just go there and look at his face and never think such a thing as this would befall him. I can't figure where he could carry out a thing like that. Seems like someone older than he is in it.

Poor little old Ed. . . . It's just unbelievable. I can hardly make myself believe he's in it. . . . It's so tragic. Sometimes I take on a little courage and go on.

Recalls His Childhood. "I can see him in every conceivable way when he used to be at home and picture him in his trouble.

Anyone who was normal couldn't do such a thing. How can everyone be so bitter? If there was just justice and fair-

### WATER TASTE IS DISCUSSED

#### Council Again Takes Up Old Problem; Tests Continue

That "bad taste" in the city's supply of drinking water again came up for some discussion at the regular meeting of the city council last night.

Declaring it was of the utmost importance that this disagreeable condition be eliminated, Councilman William H. Needham said he felt that the city would be justified in going to considerable expense to obtain wholesome drinking water.

It was again brought out that an extensive investigation is being made to find some locality in the bay where the water is most consistently free of the bad taste. Test holes have been made in the bay over a broad expanse, and samples are being taken from each location repeatedly in order to determine the conditions prevailing throughout a long period of time.

All this is being done, it was explained, in an effort to determine whether it would be advisable to extend the intake pipe or do other work which would bring about a better supply of water. It still remains the general opinion of the city council that no expensive project should be undertaken until it is definitely established that this would solve the problem.

**Urge Insurance Legislation.**

It was authorized that a letter be written to Governor Green and representatives from this district requesting that legislation be passed giving the state insurance department authority to regulate automobile liability insurance companies. It was explained that the matter had been taken up with the state insurance department, but that

### FRED CAMPS.

Marinette—There was a requiem yesterday morning in Our Lady of Lourdes church at Marinette upon the occasion of the funeral of Fred Camps, an old-time resident of this city, whose death occurred last Saturday. The cortege formed at the family home, 838 Jackson street, whither the body had been removed from the McLain Funeral Home, and proceeded to the church. The Very Rev. Dean F. G. Tulley, rector, officiated at the final rites in the presence of a large assemblage of people.

The casket was borne by brother members of Branch 5, Catholic Knights of Wisconsin, to which Mr.

it was without authority to act. The report of the justices of peace showed that during January 1927 in fines was collected by Justice Doherty and \$53.90 by Justice Ranguette, a total of \$206.90.

### Does Friendship Really Count In Business?

Quite a long time ago someone said, "there is no friendship in business." He couldn't have been thinking very hard when he said it because nothing was ever farther from the truth.

The business of our store has been built up entirely on friendship—the sincere kind that tries to give our customers just a little more than a square deal.

The very future of this town depends on the friendship of the surrounding community, and we who serve in its stores should remember that every discourteous and selfish act on our part hurts our own future; every kind and thoughtful act is just another stone to build up mutual prosperity.

Let's make 1928 a big year for community development. We can do it if we'll pull together.

THE "CANARY" MURDER CASE

CHAPTER XVI

He hung up the receiver and rubbed his hands together. "Now we're sailing," he rejoiced.

Vance had gone to the window, and stood staring down on the "Bridge of Sighs," his hands thrust deep into his pockets. Slowly he turned, and fixed Heath with a contemplative eye.

"It simply won't do, don't you know," he asserted. "Your friend, the Duke, may have ripped open that belly box, but his head isn't the right shape for the rest of last evening's performance."

Heath was contemptuous. "Not being a phrenologist, I'm going by the shape of his fingerprints." "A woeful error in the technic of criminal approach, Sergeant," replied Vance delicately.

"The question of culpability in this case isn't so simple as you imagine. It's deuced complicated. And this glass of fashion and mould of form whose portrait you're carrying in next to your heart has merely added to its intricacy."

Markham dined at the Stuyvesant Club, as was his custom, and at his invitation Vance and I remained with him. He no doubt figured that our presence at the dinner-table would act as a bulwark against the intrusion of casual acquaintances; for he was in no mood for the pleasantries of the curious.

Rain had begun to fall late in the afternoon, and when dinner was over it had turned into a steady downpour which threatened to last well into the night. Dinner over, the three of us sought a secluded corner of the lounge-room, and settled ourselves for a protracted smoke.

We had been there less than a quarter of an hour when a slightly rotund man, with a heavy, florid face and thin gray hair, strolled up to us with a stealthy self-assured gait, and wished Markham a jovial good evening. Though I had not met the newcomer I knew him to be Charles Cleaver.

"Got you note at the desk saying you wanted to see me," he spoke with a voice curiously gentle for a man of his size; but, for all its gentleness, there was in it a timbre of calculation and coldness.

Markham rose and, after shaking hands, introduced him to Vance and me—though, it seemed, Vance had known him slightly for some time. He took the chair Markham indicated, and, producing a cigar, he carefully cut the end with a gold clipper attached to his heavy watch-chain.

"I'm sorry to trouble you, Mr. Cleaver," began Markham, "but, as you probably have heard, a young woman by the name of Margaret Odell was murdered last night in her apartment in 71st Street."

He paused. He seemed to be considering just how he could best broach a subject so obviously delicate; and perhaps he hoped Cleaver would volunteer the fact of his acquaintance with the girl. But not a muscle of the man's face moved; and, after a moment, Markham continued.

"In making inquiries into the young woman's life I learned that you, among others, were fairly well acquainted with her." Again he paused. Cleaver lifted his eyebrows almost imperceptibly, but said nothing.

"The fact is," went on Markham, a trifle annoyed by the other's deliberately circumspect attitude, "my report states that you were seen with her on many occasions during a period of nearly two years. Indeed, the only inference to be drawn from what I've learned is that you were more than casually interested in Miss Odell."

"Yes," the query was as non-committal as it was gentle. "Yes," repeated Markham. "And I may say, Mr. Cleaver, that this is not a time for pretenses or suppositions. I am talking to you tonight, in large measure ex officio, because it occurred to me that you could give me some assistance in clearing the matter up. I think it only fair to say that a certain man is now under grave suspicion, and we hope to arrest him very soon. But, in any event, we will need help, and that is why I requested this little chat with you at the club."

"And how can I assist you?" Cleaver's face remained blank; only his lips moved as he put the question.

"Knowing this young woman as well as you did," explained Markham patiently, "you are no doubt in possession of some information

certain facts or confidences, let us say—which would throw light on her brutal and apparently unexpected murder. Cleaver was silent for some time. His eyes had shifted to the wall before him, but otherwise his features remained set.

"I'm afraid I can't accommodate you," he said at length. "Your attitude is not quite what might be expected in one whose conscience is entirely clear," returned Markham, with a show of resentment.

The man turned a mildly inquisitive gaze upon the district attorney. "What has my knowing the girl to do with her being murdered? She didn't confide in me who her murderer was to be. She didn't even tell me that she knew any one who intended to strangle her. If she'd known, she most likely could have avoided being murdered."

BIRD TOO FAST FOR FILM. Efforts of the air ministry of Great Britain to film the wings of a humming bird proved a failure recently because the slow-motion picture machine taking 300 pictures a second was too slow. The bird's wings travel so fast that they showed only a blur in the picture. The films were made with the hope of revealing the character of the bird's flying so that the principle could be used in perfecting a flying machine that could stand still in the air as does the humming bird when gathering food from flowers.

# 'BIG CROWDS TO GREET PUPPETS

## Jean Gros' Marionettes to Appear Before Capacity Houses

Two "sell out" houses will greet Jean Gros' marionettes here on February 10. It was apparent yesterday following a checkup made by R. E. Cheney, head of the Lyceum bureau committee which is sponsoring the entertainment.

The 1000 seats for the children's matinee, in the afternoon, when the marionettes will be seen in "Uncle Wiggly at the Circus," probably will all be sold by the end of this week, reports from the public and parochial school indicated. The tickets are being offered first to grade school children. They will have until next Tuesday to buy matinee tickets at the reduced rate. After that, high school pupils will be offered the seats that remain. It seemed improbable, yesterday, however, whether there would be any left when the grade school youngsters had been supplied.

For the night performance of "Tom Sawyer," all seats on the main floor of the auditorium are being sold at \$1. The balcony will be reserved exclusively for students at a half-price rate. None of the students, however, will be admitted to the balcony, and students who purchase seats on the main floor will pay the full price. All seats in the house are being reserved. Reservations can be made beginning at 8 o'clock Saturday morning at the Office Service company.

Reports from salesmen, yesterday, indicated that the night attendance would also fill the auditorium to capacity.

# DAIRY MEETS TO BE HELD

Russell Horwood, U. P. dairy specialist, will conduct a second series of dairy meetings in Delta county on Thursday and Friday, February 9 and 10.

At the meetings held last December here, Mr. Horwood discussed problems of feeding dairy cows, and at next week's gatherings he will talk on the feeding of calves.

Farmers in the county displayed much interest in the first series of meetings, and it is expected a good attendance will be noted again.

The schedule is as follows: Garden—Feb. 9, 2:00 p. m. Ogontz—Feb. 9, 8:00 p. m. Bark River—Feb. 10, 2:00 p. m. Perkins—Feb. 10, 8:00 p. m.

# JANUARY FIRE LOSS \$20,515

Losses by fire in Escanaba during January amounted to \$20,515, according to the monthly report issued by Fire Chief Arvid Johnson. This figure is about two-thirds of the total damage done by fire in 1927, the aggregate for the year being \$32,000.

Three blazes accounted for most of the destruction during the past month.

The fire department answered 27 fire calls during the month, 15 of which were for chimney fires.

## Careful Driving on Gladstone Road Urged by Sheriff

Motorists are urged to drive slowly on the Gladstone-Escanaba highway where construction work is now in progress. A warning was issued yesterday to this effect by the sheriff's department coincident with the receipt of several reports of accidents occurring along this stretch of road.

Large trucks, used for hauling sand for the grading job, are using this highway throughout the day and therefore speeding is very likely to cause collisions. Reckless driving also constitutes a hazard to workmen employed on the road.

**SIBERIA HAS FROZEN MILK.** Siberia, as well as America, has frozen milk, according to recent disclosures, but the Asiatic country has the lactical fluid refrigerated all the year round. For convenience the natives let it freeze around a stick, which serves as a handle to carry it. "Don't break the milk," is an admonition of Irkutsk parents to their children.

The name "Rita" is the Italian form of the Greek name "Mar-karet," and means "a pearl."

### AMUSEMENTS

**AT THE DELFT**  
"The Wreck of the Hesperus," first written as a ballad by Henry Wadsworth Longfellow in 1839, and later set to music by J. L. Hutton, is the newest American classic to be utilized by a film producer as screen material. It will be shown at the Delft today and Saturday.

Elmer Clifton directed the production as a Cecil DeMille special from the script of Harry Carr and John Farrow, who adapted the poem for filming.

"The Wreck of the Hesperus" is a colorful story of New England and her sea-faring folk; a story which mounts to a gripping climax in its spectacular wreck scenes.

Featured in its romantic leading roles are Virginia Bradford, who portrays the "skippers' little daughter," and Frank Marion, while others of the cast are Alan Hale, Sam DeGrasse, Ethel Wales, Josephine Norman and Milton Holmes.

**AT THE STRAND**  
Harry Langdon's "surprise" picture, "Three's a Crowd," has been booked by Strand for Friday and Saturday along with new chapters of "The Masked Menace."

Langdon, who is a retired chap, went to work on "Three's a Crowd" almost six months ago, but didn't say much about it. The story was his "pet" and he didn't want it affected by premature ballyhoo.

After months of work, the production was completed just recently and is being hailed as the laugh-and-story hit of the year.

"Unlike many productions which come on the heels of a flood of publicity and advertising, "Three's a Crowd" was filmed quietly. Langdon and his aides feel it is his finest screen achievement.

Gladys McConnell, "Baby Star," and Cornelius Keefe, recent recruit from the New York stage,

## Gamble-Robinson's Branch at Iron Mt. Has Changed Hand

Iron Mountain—Purchase of the Gamble-Robinson wholesale grocery company's Iron Mountain branch, at 300 East E street, by the Carpenter Cook company, wholesalers of Menominee, operating a distributing center here, was announced yesterday by F. X. St. Peter, president of the Menominee concern, who came here to complete the transaction. The consideration involved in the deal was not made known. James A. Ridgeway, treasurer for the Gamble-Robinson company, represented his concern in the transaction.

It is the second important move made by the Carpenter Cook company's officials for their Iron Mountain branch within the past few

months, the concern having recently purchased from A. E. Brauns the building on East Ludington street in which the local unit is situated. The stock involved in the purchase will be transferred to the Carpenter Cook company's warehouses here, the Menominee company retaining the Gamble-Robinson building largely for the storage of fruit products.

Established in 1920, the Iron Mountain branch of the Carpenter Cook company has made rapid progress in the field which it serves, and has enjoyed a growth which in April of last year, prompted the company's officials to take permanent possession of the building. The site, however, still remains the property of Mr. Brauns.

**THE MAGIC TOUCH.**  
"With a single stroke of the brush," said the school teacher, taking his class round the National Gallery, "Joshua Reynolds could change a smiling face to a frowning one."  
"So can my mother," said a small boy. "Tit Bits."

# Tired people ...

So MANY women, so many men, can't last through the day. Even mid-afternoon finds them listless and spent. Hopelessly tired.

What a difference it would mean if they but realized how constipation saps health and energy. How it steals youth. Mocks beauty. Kills ambition. How it leads in the end to untold diseases.

And it can be so easily relieved. So surely and safely prevented. Kellogg's ALL-BRAN is guaranteed to relieve it promptly and pleasantly. To prevent it ever beginning its deadly work.

Why "all-bran" is necessary

To relieve constipation naturally, the system must have plenty of bulk. ALL-BRAN, because it is 100% bran, furnishes bulk in generous quantity. It carries moisture through the intestines—exercising them, gently sweeping out poisons and wastes. There is seldom enough bulk to properly do this work in a part-bran product. That is why doctors

recommend ALL-BRAN—the 100% bran.

Farewell, dangerous drugs

How much better is ALL-BRAN than habit-forming pills and laxatives—whose dose must be constantly increased to remain effective. Kellogg's ALL-BRAN is a pleasant, healthful cereal food. Don't you agree that it is far safer and far better to correct constipation in this natural way than to risk pills, drugs or part-bran products?

Kellogg's ALL-BRAN is delicious with milk or cream—with fruits or honey added. Use it in cooking too. Sprinkle it into soups. Mix it with other cereals. Just eat two tablespoonfuls daily—chronic cases, with every meal.

But insist on genuine Kellogg's. Don't risk part-bran substitutes. ALL-BRAN is sold by all grocers. Served in hotels, restaurants. On dining-cars. Made by Kellogg in Battle Creek.

Guaranteed! Kellogg's ALL-BRAN is sold with this delicious guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

### SOO PREPARES FOR "ROUNDUP"

#### Tad Wieman Will Be Speaker at Conference Banquet

Plans at the Sault to entertain the hundreds of boy delegates to the Older Boys' Conference are nearing completion. The boys will be quartered in the Lock City's finest homes.

On Saturday night, February 18, the big conference banquet will be served in the high school gym, with Coach E. E. "Tad" Wieman, successor to Fielding H. Yost, as Michigan's football mentor, as the chief speaker. The famous Soo high school band, three times champion of upper Michigan, has been engaged for the conference. Saturday afternoon has been set aside for recreation and sight-seeing. An ice carnival, including a hockey game and races, is planned. Other features will include inspection of the famous locks, local industries and a visit to Canada.

Other speakers on the conference program, in addition to Coach Wieman, are Dr. J. M. Artman of Chicago, who will give three addresses; Earl W. Brandenburg, nationally known worker with boys; George W. Campbell of St. Louis, a song leader, and Fred B. Freeman of Detroit.

Registrations have been coming in earlier than ever before. Seven or eight towns have asked for increases in their quotas. February 8 has been set as the date when registrations should arrive at the Soo, in order to assure reservations and special railroad rates.

PETITION FOR RIGHT-OF-WAY IS SUBMITTED

The petition of the city of Gladstone that the school board deed to it the right-of-way for part of the continuation of Eighteenth street, which is now a part of the Marble Athletic field, was read at the regular February meeting of the board held Wednesday evening.

Due to the fact that there were but three members of the board present at the meeting, no action was taken, but the building committee of which Archie Harris is chairman, was instructed to investigate and report at the next full meeting.

THIS WOMAN FOUND RELIEF

After Long Suffering by Taking Lydia E. Pinkham's Vegetable Compound

In a little town of the Middle West, was a discouraged woman. For four months she had been in such poor health that she could not stoop to put on her own shoes. Unable to do her work, unable to go out of doors or enjoy a friendly chat with her neighbors, life indeed to Mrs. Daugherty.

It is a thrilling love tale of the fighting arena in which a charming fate entertainer thinks she is in love with the champion mauler only to discover later that her heart beats only for the contender and challenger of the coveted championship crown.

GERMAN "HAMLET" SCORED. Seldom has a great man of letters been so severely criticized as Gerhart Hauptmann, Germany's most famous poet and playwright, following the recent production in Dresden of his version of "Hamlet." Hauptmann's theory is that the fourth act of Hamlet, as it is today, contains only the mutilated remains of what Shakespeare wrote, and that the first actors who played Laertes, dissatisfied with the part, fished lines and scenes which Shakespeare had given to Hamlet.

CAIRO LIKES SHAKESPEARE. Shakespeare in English was a success in Cairo, Egypt, where the government backed a season of plays by the Bard recently. The government had guaranteed gross receipts of \$21,500, but \$630 in excess of this was taken in at the Opera House box office. Crowded houses were the rule, and when "Hamlet" and "Othello" were given, extra seats had to be arranged. Not only did the English patronize the productions, but at some performances half the audiences were Egyptians. They especially enjoyed "Hamlet" and frequently interrupted the performance with their enthusiastic applause.

Ed Groleau left Tuesday for Flint where he will be employed.

Special Music Sunday Night. There will be special music at the evening services at Alice Memorial M. E. church Sunday evening at 7:30 o'clock. A ladies' quartet will sing, Miss Allyn Empson playing the accompaniment.

# Lock City Quintet Meets Roellers Here Tonight

## 3 CONTESTS ON CAGE PROGRAM

### Soo Team Comes to This City With Good Record for Season

Escanaba vs. Soo—that is the nature of tonight's basketball card to be staged at the Escanaba high school for the benefit of the local cage fans. There is little doubt that the gymnasium will have another capacity crowd to witness this game of games. This contest is the first home game for the Roellers since their victory over Menominee here two weeks ago.

The starting lineup that Coach Roels will use to battle the Cranmen is the same as in previous games—Stegath and Snyder, forwards; Olson, center, and Gustafson and Peltin, guards. Coach Roels has perfected this quintet during the week to such an extent that he feels reasonably confident that the Soo cagers will receive the same fate as Menominee received. Peltin, the speedy floor guard, has lacked experience in earlier games but has been traveling like a veteran in practice this week. Stegath, Snyder and Olson have been almost uncanny in dropping the pellet through the loops. Gustafson's defense has become almost impregnable, all of which shows the Roellers' earnestness to send the Lock City boys back home on the tail end of the score.

However, the ability of the Soo lads must not be underestimated. The Cranmen have met and defeated some of the best teams in the peninsula this winter. Many veterans of their 1927 team are playing for the Soo again this year and have been working smoothly. The Escanaba-Soo game will start at 8:15 o'clock sharp. Y. E. Pore of Iron Mountain will be on hand to keep the game clean and fast.

At 7:15 o'clock, another of Coach Roels' quintets—the Reserves—will face the strong Garden team. The strength of the Garden team can be appreciated by noticing the scores of their games. Last week they handed Perkins a decisive 70-2 defeat. The Escanabans, however, have a record equally as impressive. They have only lost one game this year and have won the last five in succession. Dick Berry will handle the whistle in this fray.

The first preliminary will begin at 6:45 o'clock. In this game the eighth graders, coached by E. E. Edick, will face Coach Swanson's Freshmen quintet. Stanley St. Louis has been selected to referee this contest.

## M'TIGUE MEETS LOMSKI TONIGHT

### Veteran to Battle Youngster at Madison Square Gardens

New York, Feb. 2.—(AP)—Michael "Methusalem" McTigue, ancient of the prize ring, will match the wisdom of almost 40 years against the slashing fists of Leo Lomski, youthful Aberdeen Washington boxer in a light heavyweight elimination joust of ten rounds at Madison Square Garden tomorrow night.

The winner has been promised a match with Jimmy Slattery, clean cut Buffalo star, and later Joe Sekyra, curly-headed blonde from Dayton, as a part of the process of weeding out another challenger for Tommy Loughran's 175 pound title. Lomski and Slattery failed to lift the Philadelphia's crown in recent tries, although the hard smacking westerner twice dumped Tommy for nine counts in the opening round of their set-to.

The canny old Irishman, who twice sported the light heavyweight title, is running a poor second in the betting with odds of 2 to 1 against his chances. A recent one round knockout at the hands of Mike Walker, middleweight champion, dimmed McTigue's star at the very start of his "final" comeback campaign.

"Bowd Michael," who first won the light heavyweight championship from Battling Siki on St. Patrick's day in Dublin in 1923, gained it a second time when Jack Delaney renounced the division to cast his lot among the heavyweights last year. Mike lost the title to Loughran last fall.

Two rugged local middleweights, K. O. Phil Kaplan and Maxie Rosenblum, head a string of three supporting eight round bouts.

Dr. Peltzer, German Runner, Wins 1,000 Yard Feature Event

BY ALAN J. GOULD  
(Associated Press Sports Editor.)  
New York, Feb. 2.—(AP)—Making his American indoor debut, Dr. Otto Peltzer, German champion, scored a sensational victory over nine American rivals in a 1,000 yard race that featured the Millrose track and field carnival tonight.

Yielding at the last minute to demands of American athletic authorities that he enter open competition instead of a special event, Dr. Peltzer demonstrated his prowess on unfamiliar ground by outracing the Illinois A. C. C. veteran, Ray Dodge, in a thrilling nip-and-tuck battle over the last three laps.

## RAMBLERS BEAT TYPE SLINGERS

### Independents Lose by 33 to 23 Score to Iron Mountain

The Ramblers quintet nosed out the Daily Press' squad, 15 to 14, and Iron Mountain triumphed over the Independents, 33 to 23, in two thrilling basketball games played at the Escanaba high school gymnasium last night. A large crowd witnessed the two contests which brought together two of the leading teams in the city amateur circuit and gave the invading Ford City crew a chance to avenge for a defeat handed them by the Independents several weeks ago.

Lough and O'Brien were the chief point getters for the Ramblers, while Schou and St. Louis counted most of the points for the Type-slingers. Desllets, Daily Press guard, was ruled out of the contest with four personal fouls scored against him. The contest was capably handled by Edick to the satisfaction of all interested.

Fox, center, and the lanly Le Jaunesse, guard, starred for the Ford City quintet. Soderberg was the shining light in the Independes' lineup, scoring three field goals and playing a great defensive game. In the scoring, Andrews and St. Louis tied with Soderberg with six points apiece.

City, N. M., sprinter, missed his second bid for victory when he finished fourth and last in a 300-yard special, won by Robbins of New York university. Greenwade ran second from the start but lost his stride jockeying for position around one of the last turns and dropped back.

Maryland's crack relay quartet won a nip-and-tuck tussle with Harvard in a one-mile race in which Pennsylvania was third.

The two-mile international mile-and-out race, in which the last runner in the field was cut off on every other lap, proved fatal for many of the stars, including Leo Lemond of the Boston A. A. C., the favorite. Lemond, unbeaten previously this season, was caught napping on one of the closing laps and forced out as Russell Payne, Illinois A. C., sprinted past him. Mel Delton, young Seton Hall star, outraced Eddie Kirby, New York A. C., former Cornell athlete, to win the event by two yards. Graham was third. Johnny Romig of the Meadowbrook club, Philadelphia, Jimmy Loucks of Syracuse and Arthur Key, Toronto, were other stars eliminated.

Unfamiliar With Track.  
Dr. Peltzer was slated originally to enter a special 800 meter race, which, in view of the hand-picked list of opponents, would have afforded little more than a work-out for the German holder of the world's half-mile record. At the insistence of the A. A. U. the foreign star entered an open event instead and picked the 1,000-yard race in preference to the half-mile open. Picketed and buffeted about as the field of 10 got off the marks, Dr. Peltzer's chances of victory appeared remote for the first three laps. The German showed his unfamiliarity with the sharply banked board turns, but finally cut loose with a burst of speed on one of the straightaways and took the lead from Dodge, an Olympic veteran and ex-national champion. He held it only for a lap as Dodge swept to the front again, followed by J. L. Robinson of the University of Virginia. Again Dr. Peltzer sprinted. His long, low-link stride carried him to the lead on the fifth lap. He kept it over the last circuit of the track in spite of Dodge's desperate challenge while the crowd was in an uproar. Robinson finished third, 10 yards behind Dodge. Robert Greenwade, the Silver

## The NUT CRACKER by Joe Williams

Some scientist comes forth with the announcement that St. Louis has more dirt in the air than any other American city. But you never could tell Rogers Hornsby that.

New Yorkers are said to eat about a teaspoonful of this atmospheric dirt every day, but they handed Rogers a shovel to take his with.

Now that Hornsby has gone to the Boston team, he will get some real professional experience digesting dust.

Speaking of dust, Pullman porters working out of Philadelphia are going to strike for vacuum cleaners.

Young Stribling knocked out Martin Burke the other night. Marty, it seems, ended his career with a great guff of dust, too.

## PUBLIC SCHOOL SKATE RACING

### Miss Ladd Arranges Fine Program for Saturday Afternoon

The annual skating contest of the public school athletic league will take place at the municipal ice rink Saturday, beginning at one o'clock. The contests will be open to boys and girls of the fourth, fifth, sixth and seventh grades. They will be entered by weight in three classes, as follows:

Class A—84 pounds and above.  
Class B—70 to 85 pounds.  
Class C—Under 70 pounds.

There will be three classes for boys and three for girls, with the same weight classifications. Three contestants from each school may be entered in each event. The races for boys' Classes A and B will be two laps of the rink and for the other classes, one lap.

Miss Florence G. Ladd, physical director of the public schools, has arranged the following table of scoring and program:

Five points will be given for first place; three for second place, and one for third place. One-third of the points won by each school will be granted toward the semester total for the winning of the league cup. These will be counted in the second semester points.

Each entrant must wear a tag certified by the principal on which is the following data: School name, class, pupil's name, principal's name. These tags will be sent to the schools in a few days. A substitution, due to illness of a contestant, may be made the day of the race by notifying the judge of the contest before the races start and by providing the substitute with an entry tag.

Sweepstakes Race.

Sweepstakes races will be held, one for boys and one for girls, open to winners of first and second places in Classes A, B and C. No points will be given for these races toward the school total. It will be a race for honors only.

Races will be run for eighth grade students also, one for girls and one for boys. These will be two laps of the rink. Three students may be entered from each section. These entrants must wear tags as above but have section number given instead of class.

Ribbons will be awarded all winners.

### FIREMEN SEEK PLATOON PLAN

#### Want Work Arrangement Changed to 24 Hours On Duty, 24 Off

Consideration of a plan to establish the two-platoon system in the Escanaba fire department was asked of the city council by a special firemen's committee which appeared at its regular meeting last night.

The request was referred to City Attorney Thos. J. Riley and City Manager T. F. Kessler, who were asked to report at a future meeting as to the advantages of adopting the proposed system and whether provision can be made to take care of the additional expense which would be involved.

It is unlawful for a municipality, having more than 15,000 inhabitants as shown by the last federal census, to require any person in the fire department to be on duty more than 24 hours or off duty less than 24 consecutive hours of any 48-hour period, according to Act 125 of the Public Acts of 1925. This was pointed out by the spokesmen of the firemen's committee, who also explained that under the present system firemen here are working 96 consecutive hours to 24 hours off duty.

He said the adoption of the "24 hours on duty, 24 hours off duty" plan would mean an increase in efficiency. The new system would probably require the employment of five additional men, which would mean a salary expense increase of \$1,100 annually, according to the figures presented. Such an arrangement, it was explained, would provide for a total force of 20 men. Ten firemen would be on duty in every 24-hour period, but the lay-off crew would be subject to call at all times in case of serious fires. General fire inspections are made by the off-duty crew at no extra salary expense, it was explained.

A recent report of fire conditions here made by the Michigan Inspection Bureau recommended the adoption of the two-platoon system as a means of increasing the efficiency of the fire fighting personnel. Under the present arrangement, the firemen's force is reduced at meal hours considerably, ranging from five to eight on hand at the station. Under the proposed system, ten men would always be on hand.

### RADIO NOISE CAUSE FOUND

After three days of investigation, the seat of the disturbance to radio reception here was located yesterday morning, the trouble being a "leak" on the primary side of the three-phase power line in the alley near the city hall.

Those who made the tests made the discovery by covering the business district with a loop aerial receiving set to determine the direction of the objectionable noise. Six directions were taken and converging lines drawn on a map of the city's business district showed the disturbance was centered near the city hall.

#### GOITRE OCCURRENCE IS GREATER AMONG GIRLS

Since the World War numerous investigations have been made in various places in the United States to determine the presence of goitre among people in the communities concerned.

The United States Public Health Service has made extensive goitre surveys in Minnesota, Oregon, Colorado, Montana, Connecticut, Massachusetts and in Cincinnati, Ohio.

These surveys include 55,179 boys and 70,307 girls in 192 localities. The reports indicate that goitre is more frequent in Minne-

sota and less frequent in Connecticut and Massachusetts, the other states occupying intermediate positions.

There is a greater tendency among girls than among boys, and small goiters developing when the children are young tend to last longer in girls than in boys.

Physicians know that the extensive development of goitre in the groups mentioned is due to a lack of iodine in the food supply and in the water of the regions concerned. The least number of goitre cases appear in regions near to the sea coast; the greatest number in the region of the Great Lakes.

Modern preventive medicine prevents such goiters by giving to the children regularly at the time of their growth a small dosage of iodine. In some states the matter has been controlled through the administration of iodine under the direction of school authorities or of health departments.

In most communities the family physician is fully informed and is able to prescribe the proper form of iodine and the proper dosage on request.

### MINORS NEED WORK PERMIT

A permit or certificate from the superintendent of schools or county commissioner of schools is requested only of employes under 18 years of age, according to Michigan's law regarding employment of minors.

The last amendment, Act 200 of 1923, reads as follows: No female or male under the age of 18 years shall be allowed to clean machinery while in motion nor employed in any hazardous employment or where their health may be injured or morals depraved, etc. etc.

Act 19 of 1927 provides: Any minor over 16 and under 18 years of age engaged in an occupation approved by the department of labor and industry, as required by Section 11 of Act 285 of the Public Acts of 1909 as amended shall, within the meaning of said act be considered to be legally employed and shall in all

cases be subject to Act 19 of the Public Acts of 1912 (extra session) as amended, known as the Workmen's Compensation Law, provided the employer has filed the required permit or certificate for said minor.

Section 11, Act 285 of 1909, as amended by Act 206 of 1923, provides that any male person over 16 and under 18 years of age may be employed in any occupation, other than cleaning of machinery while in motion, subject to the following conditions: "not more than 54 hours in any week nor more than 10 hours in any day—the occupation by approved by the department of labor and industry, as not being injurious to health or morals, or unduly hazardous—the employer must file the permit or certificate required by Section

10 of this act." Section 10 is that requiring employers to keep a register of the names, birthplaces, ages and places of residence of every person employed under the age of 18 years, and to get and keep on file a permit or certificate issued by the superintendent.

### Home Talent Show Will Be Given By Presbyterian Aid

The Ladies' Aid society of the First Presbyterian church will present a unique entertainment in the near future in the form of a farce entitled "The Womanless Wedding." It is a very unusual production in that all major parts of the cast will be female impersonations.

Seventy-five of Escanaba's leading business and professional men will be the actors. The bride's part will be played by the tallest man in town, the flower girl, by the fattest man, and the bridesmaids will tower to at least six feet. In fact, all the female parts will be filled by men who stand six feet or over, while all the male characters will be of shorter stature.

The cast is made up of men only, and will be beautifully costumed and "made up" according to the latest fashion innovations with gorgeous gowns and fine head-gear as well as lovely jewels. The men selected for the cast will wear feminine attire with surprising grace. Rehearsals will start February 20.

IT DIDN'T WORK! First Farmer: How do you come by that black eye, George? Second Ditto: Oh, our Jersey cow has a playful habit of flicking her tail while I'm milking her, so yesterday I tied a brick on the end of it.—Passing Show.
