The effort of the Democrat state central committee to take the selection of candates for state officers entirely out of the hands or the members of that party is being openly objected to. 'It is not for them to select candidates,' declares one prominent objector. "Boss rule is what the Democrats have been critisising for years," he further de clared. As a matter of fact the rank and file of the Democrat party have had nothing to do with the state nominations for many years. The disgraceful scenes that marked the Democrat state convention of two years ago have been avoided in other years only because the state "managers" could agree. Two years ago they could not agree and then there was a riot in the convention hall and charges of fraud and trickery. But with it all the ordinary Democrat voters of the state had nothing to do, and they will probably have as little to say this year in spite of criticisms and protest.

One important item of gain to the state through the Galbraith bill, enacted at the last session of the legislature, is the requirement of about \$15,-000 per year from the Pullman Car pine lumber industry as well as the comrany on state tax account. Here truck-growing business of southern tofore the Pullman company's payment Mississippi. to the state has been but a few dollars. The state officers have had the unrea sonableness of that corporation's tax nayment in mind for several years, and the Galbraith bill afforded an opportunity which was well made use of. Few opportunities in that direction have escaped Michigan's present state

primary election of June 12 whether or not candidates for congressional or legislative or county offices will be hominated by direct vote or through conventions as heretofore. Petitions now being circulated are for the privilege of voting as to how such nominations shall bereafter be made. No action having to do with the nominations of particular candidates for district or county offices, therefore, can properly be taken until the question of how such nominations shall be made is do-

The Richest Man in the World,

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky. writes: "I take great pleasure in stating it cured me permanently of kidney disease. which certainly would have cost me my life."

BIG METHODIST

RALLY OPENS

Chicago, Ill., May 3.-Special.-Twenty-five Methodist Episcopal Lishops from all parts of the United States and all parts of the world are in Chicago to hold their annual meeting and take part in the semi-centennial celebration of the founding of the Garrett Biblical Institute. Tonight, in the Auditorium, the entire board of bishops will occupy the platform at a big rally, the object of which is to stir the 80,000 Methodists of Chicago for a

sweeping evangelistic movement. Governor J. Frank Hauley of Indiana, one of the leading Methodist laymen, is to preside at the rally, and the speakers will include Rev. Dinsdale T. Young of London, and Bishops

MORE HEMLOCK BARK PEELED

High Price of That Lumber will Cause Much to be Placed on Market Tanneries Need

Little.

That the peel of bemlock would be 50 per cent less this year than in 1905 is a statement recently made, but it is known that conditions in bemlock lumber and in the tanning business are such that there will be a larger peel this year than in 1905, and there will be less demand than ever for the bark, says a leading authority in the tannery business at Grand Rapids. The unusually high price of bemlock lumber, the advance probably being more than \$4 per thousand over that of 1905 will insure a very large peel of the bark, and already offers from the upper peninsula to the tanners warrant the conclusion that the 1906 peel will far exceed that of 1905.

When the claim is made that the supply of bemlock is diminishing it must be taken into consideration that ping extracts. These extracts are much more desirable to the tappers for the reason that one car will t ansport ten hox cars to carry the load. The cost of the extract as compared with the cost of bemlock bark is considerable less when the units of tanning

LINER COMING

Victoria, B. C., May 3. - Special .-Marine men and others are awaiting with much interest the arrival of the Mabeno of the Canadian Australian line, now on her maiden voyage from Sydney, Australia, to this port. She is the first turbine liner to cross the l'acific, and furthermore is one of the most magnificent vessels to engage in the Pacific trade. She is elaborately fitted out for passengers, of whom she carries 223 first class, 116 second and 60 third. On her official trial trip the Mabeno attained a mean speed of 17.5 knots.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Dean's Regulets. They operate easily, tone the stomach, cure constipation.

BISCUIT MAN'S DAUGHTER WEDS

Greenwich, Conn. May 3 -Special -A special train brought a large party of New York society folk here today for the wedding of Miss Jane Green, daughter of A. W. Gran, the millionaire president of the National Biscuit company, and Orville Browning Carroll of Quincy, Ill. The wedding took place at Belle Haven, the summerhome of the bride's parents.

Did you order that case of export beer from the Escanaba Brewery yet?

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Trouble. An Escanaba Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urnary trouble sets in they think it will soon corret itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabets or Bright's disease. The best remedy to use is Doan's Kidney Pills. - It cures all ills which are caused by weak or diseased kidneys. Escanaba people testify to permanent cures.

James Bridge, carpenter, of 1995 Ecanaba St. Escanaba, Mich., sayys: 'I suffered with my kidneys for several months, the result of a bad fall on the ice about two years ago. I have neath it a coarser quality, similar to had several very severe attacks brought "Liverpool salt," is found. Springs of on by taking colds which settled in my water running through this salthed back and caused terrible pains particuare surcharged with salt and deposit larly at night. I could not stoop forward and regain an erect position without taking hold of something, and have had to lay off work several times. soil to a depth of some three or four I used a number of remedies but none of them gave any more than temporary relief. I learned the value of Doan's Kidney Pills and got a box at the Mead Drug Co's store. The relief obtained from their use was almost instantaneous and the cure was permanknow, mother; I haven't written out ent. I have had no return of the trouble now for over eighteen months."

MAUVE DISCOVERED BY HIM

Scientific Men in England to Cele-

brate in Honor of Dr. W. H.

Perkin.

London.-Among the romances of

science few appeal more strongly to

the imagination than the discovery, 5

years ago, by Dr. W. H. Perkin, when

a youth of 18, which started the great

coal tar industries that now absorb

many millions of dollars of capital

and afford a livelihood to thousands

Unlike many inventors who have made

vast fortunes for others, Dr. Perkin

reaped a substantial reward from his

discovery: He is still living, hale and

hearty, happy and prosperous. He

soon will celebrate his sixty-eighth

brithday agniversary. To commem-

orate the occasion and the jubilee of

aniline dyes, he is to be presented with

yesterday.

The strikers charge the vessel Town started the make by auchoring their vecels outside the Cleveland preakwater, the lang-horemen claim, thus get off the steel trust's fleet, or fifteen or twenty vessels of other fleets which have landed just outside the breakwater

"It is a shrewd move on the part of vess I owners to keep the men on their bouts, but it will not do them any go.o." said an official of the longshoremen : day. "They will have to pay their men, and just as soon as the boats

DR. W. H. PERKINS. He Discovered the Process of Making Dyes Fifty Years Ago.) to be known as the Perkin rej

fund, for the promotion of chemical research. Many of the most famous scientific men in England have taken the matter in hand.

Dr. Perkin's father was a builder and wished his son to be an architect. but the lad wanted to go in for chemistry, and, fortunately, his father let him have his own way. When 15 years old he entered the Royal College of Chemistry, and made such rapid headway there that two years later he was appointed assistant to Prof. Hoffman, who had charge of the college. One day the professor suggested to him that he should endeavor to produce quinine by artificial means He failed, but his experiments led him to treat sulphate of afiline, a product resulting from the distillation of coal tar, with yellow potash bichromate, and thus he obtained the dye

stuff called mauve. For many years after its discovery mauve pervaded the ribbons of civilized womanhood, and under the names of lilac and heliotrope is still recognizable among the latest triumphs of the print works and the looms. It is still the favorite color of Queen Alexandra. But its chief title to-distinction is that it was the first of the long series of coal tar colors, more than 100 in number, and rivaling the hues of the rainbow. which have utterly revolutionized the dyeing trade. Dr. Perkin patented his process, and with his father and brother established works near Harrow.

London.-"I put Dolly in the water. Dolly dead. Buy another Dolly." This statement was made by the threeyear-old daughter of Mrs. Branch, of JUDD YELLAND die. My sister and 1 did not linger the inspection of bulls and boilers and Nyanza street. Plumstead, to her mother. It was only too true; she had drowned her baby sister. The victim was the six-weeks-old child of Mrs. Branch, who told the Woolwich coroner that on Friday afternoon she left her infant in the kitchen with the older child. The latter came to her and remarked: "Sorry, mamma." As the little girl was in the habit of making this remark when she had done anything wrong, the mother did not pay any particular heed, but when she added that Dolly was dead the mother went to the kitchen and found the

A communication from Frank Bor cures the most obstinate cases. Why of taxes \$35 30 and special paying tax deau requesting a rebate of \$50,00 paid suffer. All druggists sell it.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

CURED OF BRIGHT'S DISEASE.

Mr. Robert G. Burke, Elnora, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from 12 to 30 times each night to relieve my bladder. I was all bloated up with dropay and my eyesight was so impaired that I could acarcely see one of my family across the room. In fact, I was so baddy used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 50-cent bottle worked wonders, and before I had taken the third bottle the superficous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefitted.
