WATCH ACTION OF OFFICIALS

New Administration is now Backed with full Support and Many Changes are Expected.

With the formal installation of the present administration's full list of officers, developments will be watched with much interest by the people of Escanaba.

Whether the newly appointed officers will bring about improvements in public service, which were either ignored or but a half hearted attempt made to bring about by the old regime, remains to be seen.

Some of the newly appointed officers have never before held public office and in assuming their new duties an attempt should be made to carry out principles which will cause their services to the city to attract favorable attention.

Old officers have before been tried and have proven efficient and of those much is expected. They will be expected to remove shortcomings in their department of public service and to establish a system that will be satisfactory to the majority.

Mayor Perron now not only has a council to back any stand that he may see fit to take but a full list of city officers who are believed to be in sympathy with the principles which he advocated in his campaign for election to the office which he holds.

The course of the administration is yet an open one and its shaping lies with the chief executive himself.

One movement which should receive prompt attention from the administration's health department is to inaugurate a general cleaning movement.

The necessity for cleaning the rear yards and alleys in all parts of the city is known. It has been undertaken already in a half hearted manner but many points of filth still exist and alleys are choked with the collection of debris of the past winter.

The excuse is not now available that officers of the former administration have refused to carry out orders of the new, and decisive action to bring about a general cleaning movement is one of the reforms expected.

TRACK MEET IS ARRANGED FOR

Athletes of Escanaba High School will Compete at Driving Park on Saturday Afternoon.

Members of the different classes of the Escanaba high school will compete for honors in field events at the Escanaba Driving park on Saturday afternoon, as the first tryout for candidates to represent Escanaba in the annual field meet of the Upper Peninsula Intercollegiate Athletic association which will be held at Ishpeming on June 22.

All of the different classes of the high school will have representatives in Saturday's meet and some excellent sport for the spectators, who will be attracted, is promised.

Among the events of the afternoon's program will be, 100 yard dash, 200 yard dash, 440 yard dash, half mile run, two mile run, low hurdles, high hurdles, high jump, put, hammer throw, discus, vault and relay races.

Following are the names of the athletes who will compete today for the honor of representing their schools.

PASSSED AWAY THIS MORNING

Mrs. William Langley of Garth Died at Home of Sister After long Illness.

After an illness of several months from cancer of the liver Mrs. William Langley of Garth, well known to many people of Escanaba, died early this morning at the home of her sister Mrs. Michael O'Connell at 1109 Escanaba avenue.

Mrs. Langley had been in poor health since late in last fall and her condition had gradually grown more critical until two weeks ago when she was brought to the home of her sister in Escanaba in order that the constant attention of a physician might be had. Nothing could be done to prolong her life and at 1 o'clock this morning she passed away.

Mrs. Langley was 60 years of age and was survived by one sister and four brothers.

The children are all grown and three were at the bedside of their mother when she died.

Mrs. Michael O'Connell is the only surviving sister of Mrs. Langley and her brothers are: Dennis J. Glavin of Escanaba, John H. Glavin of Spokane, Wash., J. P. Glavin of Chicago and E. J. Glavin of Bark River.

Funeral services will be held at St. Patrick's church at 9 o'clock on Saturday morning, the Rev. Father Langan officiating.

FUNERAL WAS HELD YESTERDAY

Funeral services over the body of George O'Neil, who died at the home of his parents Mr. and Mrs. Thomas O'Neil at Nabua on Monday, were held at Nabua yesterday. Interment was at the cemetery at Garden.

IS GUILTY OF HERESY

Batavia, N. Y., May 10.—Special.—By a unanimous verdict Dr. Algernon S. Crapsey was found guilty of heresy, the members voting to unlock him.

BABE FUNERAL HELD YESTERDAY

Funeral services over the body of Emanuel Clement the 15 months old son of Mr. and Mrs. A. Clement who died at the home of the family on Tuesday after an illness of but a few hours were held at St. Anne's church at 2 o'clock yesterday afternoon the Rev. Father Menard conducting the service. Interment was at St. Anne's cemetery.

FIRE CAUSED LOSS AT FLINT

Flint, Mich., May 10.—Special.—A fire started this morning in the furnace room of the New Ingals block and before it could be controlled it burned out the Irquois Cigar Co., Flint Music Co. and Rixon's drug store. Two hundred people are out of employment and the loss is placed at \$50,000, with considerable insurance.

GIVE CAUSES FOR BIG STRIKE

Disagreements Which led to Impairment of Lake Traffic Are Given by Authorities.

Notwithstanding both employees and employer have made statements relative to the cause of the marine strike, there are not many persons in Escanaba who know the history of the trouble. Recognition of the pilots' union by the Lake Carriers' association is to date the sole principle involved. It is not believed that the scale of wages or the number of hours of work would have entered into it at all, as these seemed satisfactory to both sides, but the conference between the Lake Carriers and President Keefe of the longshoremen did not get that far. At once when the conference started the recognition of the mates was brought up and the Lake Carriers' absolutely refusing to consider it, the conference abruptly came to an end.

A good many of the mates, it is claimed, have affiliated with the longshoremen and that is why the latter organization has taken up cudgels for them. It is purely a matter of principle that is at stake.

C. C. McCain of Buffalo, commissioner of the association of Lake Lines, which is composed of all the package freight lines operating on the Great Lakes, has issued the following statement giving the vessel owners' side of the fight and telling why they will not recognize the mates.

"The Lake Carriers' association has a membership of substantially all the vessel interests on the Great Lakes, including the package freight carrying lines. A committee of the association has for several seasons past arranged for the wages and conditions of the various subordinate classes of vessel labor and has been prepared to consider and arrange for the conditions to apply for the season of 1906.

"At the annual meeting of the Lake Carriers' association held in January last, attention was given to the understood attitude of the mates and the following resolution was adopted:

"Resolved, That as mates are executive officers and the sources to which we look for masters and are educating to be masters of our ships, our masters are instructed not to employ any mate who is a member of or affiliated with any labor union."

"Numerous additional reasons could be stated why a mates' union, as such and affiliated with labor organizations, would be inimical to the carriers' rights. It would mean a relinquishment by owners of the control and direction of the principal vessel officers, the obligation to accept the assignment to vessels of officers, of questionable competency, the dominating influence over such officers by unions composed by subordinate employees, the consequent impairment of discipline and interference at critical and important periods with the companies' management, and public duty as a common carrier.

"The orderly and expeditious conduct of the freight traffic on the lake, the navigation of vessels, the proper protection of shippers' property and the fulfillment of the lake carrying companies' obligations to the shipping public and connecting transportation lines, renders it absolutely necessary that owners shall have the unrestricted right to employ such officers aboard vessels as will insure this necessary and proper protection and compliance with those accepted business obligations."

WILKES-BARRE CENTENNIAL

Wilkes-Barre, Pa., May 10.—Special.—The elaborate preparations for Wilkes-Barre's centennial celebration were completed last evening. The celebration began at sunrise this morning with a salute of 100 guns and the ringing of bells. The city is filled with visitors. Choral singing on the river common was a feature of the forenoon. This afternoon a parade was held of Grand Army veterans and numerous other organizations. Historical exercises in the army are set for this evening, with addresses by prominent residents of the "Diamond City." Tomorrow will be civic and industrial day and on Saturday the celebration will close with athletic contests and carnival features.

Dance given by the NATIONAL PROTECTIVE LEGION of Ford River at Scandia hall May 12. Admission 50 cents. B914-5-8-8.

NEW OFFICIALS ARE IN CHARGE

Officers Deposed by Mayor and Council Retire to Allow Successors to Take up Duties.

Despite the fact that former city officials, who were deposed by Mayor Perron and the members of the council on Monday evening, were entitled to hold office until next Monday all of the newly appointed officers have entered upon the discharge of their new duties and their predecessors have retired.

In one instance at least a former city official who was removed by the new administration did not await the appearance of his successor before throwing down the reins of office. That official was Officer Peter Monson who on learning that he had been deposed immediately removed his star and turned his club and insignia of office over to the headquarters of the department without waiting to complete his day's work.

Other newly appointed officials took up the duties of their offices on Tuesday and the city of Escanaba is now being conducted under the new regime.

Chief Beitzer has already assumed charge of the police department, taking the place of Chief Gabourie who in turn took up the beat that had been covered by the new chief before being promoted.

Chief Beitzer has as yet made no changes in the department and for the present will allow the same program that has been carried out in the past to continue until other arrangements are made.

CHURCH BAZAAR OPENS MONDAY

Annual Undertaking at Schaffer Church will have an Auspicious Opening

Everything is in readiness for the opening of the annual church fair of the Sacred Heart church of Schaffer on Monday evening preparations for which have been under way for several months.

The fair will be continued for an entire week and special features, will be provided for each evening to attract crowds of people from the surrounding country.

On every evening of the week beginning with Monday a musical program will be given together with the usual auction sales and an elaborate supper which will be provided by the women of the church.

On Thursday evening the special feature of the fair will be a humorous lecture by the Rev. Father A. Poulin of Menominee who has been prevailed upon by the Rev. Father Dyssailva to appear.

On Friday evening the contest for a silver water set between Mrs. Laviolette and Mrs. Drouin will be decided while on the final evening the case contest between A. H. Meloche and Isaac Pepin will be brought to a close.

All of the funds derived from the week's fair will be devoted to the building up of the church at Schaffer and all present indications point to a considerable sum of money being realized, from the undertaking.

WILL DEBATE ARBITRATION

Washington, D. C., May 10.—Special.—Much interest is manifested in the debate here this evening between representatives of the law schools of Notre Dame and Georgetown universities. The questions elected for the debate is: "Resolved, That capital and labor should be obliged to settle disputes by arbitration."

NAHMA COMPANY BUYING TIMBER

The Bay de Noc-Lumber company of Nahma has just purchased a big tract of 15,000 acres of land in Garden township from L. Van Winkle of Van's Harbor. The deal has just been closed.

NICK AND ALICE WILL SAIL SOON

New York, N. Y., May 10.—Special.—Mr. and Mrs. Nicholas Longworth will sail for Europe on June 2 to meet kings and potentates of the old world.

"There's no chance of missing it!" Satisfaction is a certainty when you buy Groceries or Meats here.

The quality we sell is the kind that will whet your appetite and make meal time a pleasure.

FOUR STEAMERS ON THIS ROUTE

Goodrich Transportation Company Gives to Green Bay Ports Better Service Than Ever Before in History of Company.

The Goodrich Transportation company this week commenced running four steamers a week to Escanaba on the Chicago-Escanaba run. The new order began on May 7, and will continue throughout the season as long as there is any business to be secured at this point. This is the first time the company has operated as many steamers per week on this run, even three a week being an unusual number and never kept in service long.

The usual rate has been two steamers a week.

The very heavy business handled last summer taxed the capacity of the Goodrich boats to the utmost and necessitated the extension of the service. The business is steadily increasing and local dockmen state that prospects for this season are the best in many years.

The establishment of the enlarged Goodrich service gives Escanaba the best and most complete through steamship line that has ever been known here. Connections will be made with various ports on the east shore of Lake Michigan and lake travel rendered comparatively quick as well as comfortable.

SERVE NOTICE ON CONTRACTORS

Notice was issued today by officials of the Escanaba Mason's union that hereafter union masons workers will not engage in any work on any building the foundation of which was laid by non union masons.

It is claimed by the officers of the local union that several non-union masons

It is claimed by the officers of the local union that several non-union masons are at work in the city, employed by different contractors, and that action was taken to protect their organization.

W. P. Stewart,
Official in Charge.

It was hardly to be expected that the action of the republican state central committee in deciding against the formal proposition to have the United States senatorial contest fought out in the next state convention would be satisfactory to all. And yet it is more than probable that the action of the state committee represented the judgment of the larger number of the republicans of the state. No such action as was asked of the state central committee ever has been taken by that body in Michigan. The vote of a minority or even of a majority of the delegates to the state convention would probably not be satisfactory or conclusive to the senatorial candidates not favored, and in that case the dissatisfaction might have a hurtful influence with local candidates all over the state. There is of course nothing to prevent the several senatorial candidates from insisting that the contest be taken up and made a part of the proceedings of the coming republican state convention, but under existing circumstances it can hardly be claimed that such an insistence will be for the best good of the party as a whole.

President Roosevelt's service to the country in making clear, and definite charges against the Standard Oil company in connection with its participation in violations of the anti-rebate laws, and in making them so direct and emphatic that vague denials or general protests will not avail, is among the best he has performed. The Standard Oil company deserves no more and on less consideration than any ordinary individual or person charged with a criminal offense, and after a long time it seems now that conditions exist which will provide for just such consideration.

Senator Alger's decision not to become a candidate to succeed himself will probably release that peculiar publication, the Gateway, from the

requirement, seemingly connected with its monthly appearance, of devoting much of its space to abuse and vilification of one of the most honored and honorable citizens of the Gateway's home city and home state. The fact that the Standard Oil company, assisted by one or two trust companies and similar organizations are the principal advertisers and supporters of the Gateway, may in part explain its editorial attitude.

It is worthy of note that with hardly an exception those persons who are asking for tariff changes are using arguments which they think will be applicable tomorrow. There is no cause for complaint today, they will freely admit, but we should provide against troubles ahead. The trouble ahead which the busy people of this country most need to provide against is that which these same tariff changing advocates are seeking to create.

It will be well for Michigan Republicans who have taken advantage of present satisfactory conditions in state and nation to temporarily stray into independent and non-partisan paths and fields to keep it in mind that the coming fall elections involve the choosing of congressmen and have vitally to do with expectations which will encourage or discourage industrial activities through the two years to follow.

Never before in the history of Michigan have the sales of property on delinquent tax account been so small as this year. During the past five years the total cost of delinquent advertising has been reduced from about sixty thousand dollars to hardly one fourth of that amount. Michigan's advancement has extended not only to all sections of the state but to all classes of its people and to all lines of state interest.

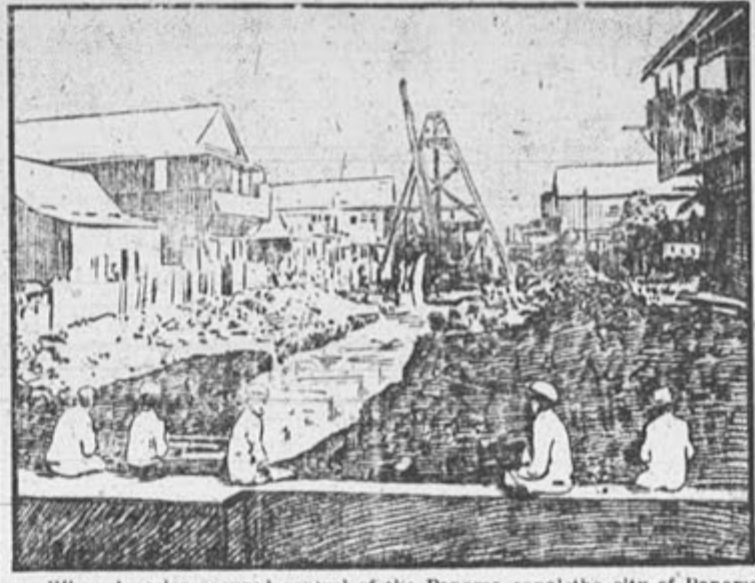

SAYS DEMANDS ARE UNJUST

"The audacious attempt of a weakened union of unskilled land laborers to control highly paid skilled employes, of whom not one-tenth are members of any union, has resulted in the temporary paralysis of lake traffic," says the Iron Trade Review. "Owing to the rapid increase of the use of automatic unloading machinery, the number of laborers required on the docks is being gradually reduced and the union of longshoremen, in order to strengthen its position, has demanded that the vessel owners recognize its control of the mates."

"While the amount of ore shipped this month will undoubtedly be reduced, it does not seem probable that the manufacture of iron will be interfered with to any great extent. The final outcome of the strike promises to be a much more satisfactory relation of employers and employes."

When the baby talks, it is time to give Hollister's Rocky Mountain Kne. It's the greatest baby medicine known to loving mothers. It makes them eat, sleep and grow. 75 cents. Tea or Tablets.—Hill Drug Store, both stores.

CONSTRUCTING A DRAINAGE SYSTEM AT PANAMA.

When America secured control of the Panama canal the city of Panama was without any system of drainage, and was one of the most unhealthy places in the world. The first work of the American engineers was the construction of a drainage system, which is now virtually completed, and Panama is as healthy as New York.

AGED GROOM LOST NERVE

Because the groom did not appear when all preparations for a wedding had been made Miss Josephine Furlong of Ypsilanti will not marry Charles H. Crane. The ceremony was all arranged, the bride in readiness, the priest upon his way when the bride became anxious about the groom and upon inquiry found that he had left the city. When seen the bride said:

"Mr. Crane and I have been going together for about a year.

I said I would marry him if he would deed over a portion of his property to me. He consented and we had arranged to go to Ann Arbor on Monday to get the papers fixed, but he did not show up. I supposed, of course, he would be present in the evening, but as he did not appear I've had to call the wedding off."

Mr. Crane is a well known grocer of Ypsilanti. At his store no one knows where he is gone and his children refuse to talk, but it is said they were very much opposed to the marriage and finally persuaded him to call it off. He is 55 years of age, while Miss Furlong is about 25.

Torturing eczema spreads its burning area every day. Doan's Ointment quickly stops its spreading, instantly relieves the itching, cures it permanently. At any drug store.

SWEDEN AND NORWAY

The lowest rate of illiteracy in the world is found in Norway, Sweden and Germany. In the two first named countries there is no person under the age of 10 years who can not write unless he has forgotten his accomplishments or his mental faculties are feeble that he has not been able to acquire them.

The fact is so well understood by the census enumerators that whether a person can read or write is not considered necessary for Education compulsory. Every child is required to attend school and no community so small or so poor as to provide educational facilities for its children. The same is true, in measure, throughout Germany only people who can not write are the feeble-minded aged who have outgrown the privilege.

DOWNWARD COURSE

A little backache at first. Daily increasing until the back lame and weak. Urinary disorders quickly cured. Diabetes and finally Bright's Disease and finally Bright's Disease. This is the downward course of kidney illness.

Don't take this course. Follow the advice of an Escanaba citizen. Richard Steinke, of 615 W. Escanaba Mich., says: "I used Doan's Kidney Pills to cure a true backache. While working in a lumber camp in Wisconsin I caught a heavy cold which settled in my kidneys and caused much suffering. I tried all remedies but kept getting worse. I could not work and could scarcely get my clothing on. I was told by a friend about Doan's Kidney Pills and I got them at the Mead Drug Store. Inside of a week my backache was gone and I was able to resume my work. My back became as strong and the pains all disappeared and I got two more boxes and since which time I have no backache. I would not be without Doan's Kidney Pills in the future. I am welcome to refer to my experience."

For sale by all Dealers. Foster-Milburn Co., New York, sole agents for the States. Remember the name—Doan's—take no other.

JAMES GORDON BENNETT IS 65

New York, May 10.—Special.—How old is James Gordon Bennett, the man who "is the New York Herald?" Few persons, even among those who profess to know New York and its people like a book, can guess offhand anywhere near the age of the proprietor of the Herald?

It is certain that a very few unless they had consulted "Who's Who," would place the number of Mr. Bennett's years at sixty five. But such is the fact. Today was Mr. Bennett's sixty-fifth birthday and the manager of his interest in New York and the members of his journalistic staff took occasion to cable a congratulatory message to their chief in Paris.

Of all the proprietors of metropolitan newspapers James Gordon Bennett is the least known to the public. Mr. Bennett does not desire that he should be personally known, or any more than a name, either to the readers of the Herald or to the community at large. Mr. Bennett enjoys life in Europe. Of late years his visits to New York have become fewer and farther between, though he is still the master of the Herald, the owner of it, and the recipient of the great revenues that accrue to him from it.

The world presents no similar example of genius successfully conducting and inspiring from a permanent residence more than 3000 miles distant; from scattered private villas on the European continent, or from the cabin of a steam yacht in European ports—situation so sensitive to the pressure of personal influence, and so exacting of the masterful surveillance of a great daily newspaper.

That Mr. Bennett's paper has prospered so magnificently is a tribute to his personal influence, and so exacting of the masterful surveillance of a great daily newspaper.

He uses the bright colors of his paper to press his views on the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

He uses the power of his paper to influence the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

He uses the power of his paper to influence the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

He uses the power of his paper to influence the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

He uses the power of his paper to influence the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

He uses the power of his paper to influence the world. He uses the power of his paper to influence the world. He uses the power of his paper to influence the world.

MILWAUKEE IN THIRD PLACE

Milwaukee harbor stands third among the five leading lake ports in the receipts and shipments of freight during the calendar year 1905, according to a statement compiled by United States Engineer W. V. Judson. The five ports enumerated are Buffalo, Chicago, Milwaukee, Cleveland and Duluth. The total amount of freight that entered that port the past year was 12,901,196 tons, comprising a value of \$198,224,518.95. In valuation Buffalo and Chicago exceed Milwaukee, the former with \$364,859,082.43 and the latter showing \$327,558,000.55. In tonnage Chicago is first with 14,783,619, Duluth second with 14,506,408 tons, Buffalo comes fourth, totaling 11,574,171, and Cleveland is last among the five ports, including 10,538,230 tons. The valuation of the Cleveland and Duluth receipts and shipments is \$147,344,821.76 and \$110,791,189.10 respectively.

The largest item in the valuation column for Milwaukee is flour, of which commodity 3,088,760 tons, valued at \$16,001,552, was handled in this port. Of coal, anthracite and bituminous, 815,751 tons of the former and 2,397,998 tons of the latter were received. Nine hundred thousand tons of what were shipped and received at this port for the same year, which was worth \$884,888. Other grains aggregating 9,884,463 tons were handled in the Milwaukee harbor. Iron ore was received to the extent of 532,000 tons, and 40,335 tons of manufactured iron were received and shipped. Lumber is another significant item in the table, 146,519 tons being handled, valued at \$7,710,156. The smallest item is copper, of which but 2983 tons entered the port of Milwaukee in 1905.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life."

THE SATURDAY EVENING POST BUSINESS COLLEGE

BESIDES giving thousands of bright boys abundant spending money (some earn \$15.00 a week) we teach our boys salesmanship, that quality that commands such high salaries in the modern business world. A Brooklyn insurance man, whose son sells THE POST, writes us:

"You are probably conducting the best business college on earth, for you are not dealing with theories but with cold facts in practice, based upon your excellent methods for encouraging and helping boys in every way."

Boys who want to make money, boys who want to be taught how to win, by one of the most successful business firms in the world—these are the boys we want to hear from. We can teach you how to "play the game" and you make good money while you are learning. It doesn't cost you a cent to start—for we furnish the first supply of magazines free and you can buy your next supply with the sales of the first.

We have a booklet that tells about some of our boys—the money they have made, the extra prizes they have won and how they gained success. If you are a "success boy"—made of the right stuff—we want you to write us—right now.

PREPARE FOR TRACK MEET

Athletes of Upper Peninsula Schools will Meet at Ishpeming on June 2.

The students of the Escanaba school who will participate in the annual athletic meet of the Upper Peninsula Athletic Association at Ishpeming Saturday, June 2, are now training for the events. The team may not be as strong as some that have represented the school in the past, but expects to make a fair showing.

It is expected that at least eleven schools will be represented, including Calumet, Hancock, Bessemer, Ironwood, Norway, Escanaba, Menominee, Sault Ste. Marie, Marquette, Negaunee and Ishpeming. The largest teams will come from Calumet, Hancock, Bessemer, Ironwood and Menominee, and the others, exclusive of Ishpeming, will be represented by from three to eight men.

The Calumet team, which won the meet last year, expects to rank well up again this spring. It will be composed of Victor Curto, captain; O'Brien, Kohlhaas, Dymock, Sincock, Laine, Lawrence, Amolsch, Ackerviss, Clark and Eddy.

Word comes from Bessemer that its team expects to give their competitors a few surprises this year. An Ishpeming athlete said that it would not surprise him if either Calumet or Bessemer won the meet, but he expressed the belief that Ishpeming will take at least a few firsts. The fight in most of the track events last year was between Ishpeming and Calumet, the honors being about equally divided. Walters won the 100-yard dash, and the Jack-deck boys swelled Ishpeming's score considerably by their good work in the larger runs.

In a recent issue of the Calumet Evening News the following complimentary was paid Ishpeming: "One pleasing feature of the track meet that it is to be held at Ishpeming. The Calumet boys would rather go there than to any other town as the people of the Hematite City are noted in school circles as royal entertainers."

PIANO DEALERS ARE IN SESSION

Washington, D. C., May 10.—Special.—An idea of the extent of the piano industry in America may be gained from the number of visitors now in Washington for the joint annual convention of the National Association of Piano Manufacturers and the National Association of Piano Dealers. The visitors number more than one thousand and they come from every section of the country. The gathering will be in session six days, during which time every matter relating to the trade will be discussed. One of the special features will be a banquet at which addresses will be made by Vice President Fairbanks, Justice Harlan, Secretary Shaw, Senator Daniel of Virginia and Representative Adam Hale of Minnesota.

Juggling With Dynamite.
Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Ellsworth's Drug Store.

LARGEST BOAT IN THE WORLD

Hamburg, May 10.—Special.—The new Hamburg American liner Kaiserin Augusta Victoria, the largest steamship ever built, was given an enthusiastic send-off today on her departure on her maiden trip to New York. She carries a full complement of passengers together with a number of the line's officials, marine engineers and representatives of the Vulcan Ship-building company.

The Kaiserin Augusta Victoria is of 23,500 tons gross register, as against the 22,876 tons of the White Star liner Baltic, which heretofore has had the distinction of being the largest steamship afloat. She is 700 feet long, 78 feet beam, has eight decks above the water line, and room for 4150 persons, including the crew of 650 officers and men. The ship has fifty suites of rooms, a gymnasium, special telephone service and a magnificent palm garden.

NOTICE.
I hereby notify the public that I am not responsible for any bills my wife, Mrs. Augusta Nelson may contract as she has left me without just cause or reason.

NON-FICTION BOOKS POPULAR

Growth in Demand for Better Class of Reading Matter is Shown in Monthly Sport of Librarian.

While the report of the Carnegie public library for the month of April shows a slight falling off in patronage, as compared with the report for March, a gain over the circulation for the month of April of last year is shown and which fact is most pleasing to those interested in the institution. With the coming of the warm months of the spring, offering all manner of attractions out of doors, the demand for reading matter by the public is decreased and is shown in the spring and summer reports of librarians throughout the country. Public libraries, it has been found, reach the height of their usefulness to the public in the late fall and winter months when out of door attractions are few and when some form of amusement in the home is demanded.

In the month of April it is shown by the report of the librarian of the Carnegie public library that the total number of books circulated was 3937. Of that number 1982 were taken out by adults, 1583 by juveniles and 372 by the schools.

The most encouraging feature of the report is the growth shown in the circulation of non-fiction works. The total number of non-fiction works circulated last month was 1591 while the number of fiction works circulated was 2346.

The number of non-fiction works is shown to be more than one-half as great as the number of fiction works circulated, which growth is great, as but a few months ago if the non-fiction circulation approached one-quarter of the fiction circulation it was thought by the library authorities that an excellent record had been established.

During the month of April a total of 277 new books were added to the library and nearly all of these books were works of non-fiction, which fact is believed to be responsible for the great growth last month in the demand for the class of reading.

The total number of books and public documents in the library on May 1 was 4905. Of that number 627 volumes are included in the reference department which are never taken from the library and 769 are public documents which are also kept in the building. The total number of books which are thus kept in the library without being circulated is 1287 and accordingly leaving but 3618 books to circulate.

It is interesting to note that out of 2618 books in the library that circulated, 2097 were in circulation in the month of April or every book in the library was loaned once in the month and 519 were loaned twice in the 25 days that the books were circulated.

Twenty-six new borrowers' cards were issued in April again increasing the number of regular patrons. In the four Sundays of the month 813 readers were in the reading rooms or an average Sunday attendance of 203.

In April the daily circulation never fell below the 100 mark, the smallest number of books taken from the library on any one day was 153 while the greatest circulation of any one day was 237.

The month of April was a busy one at the public library. Over 300 new books were received, accessioned, classified, catalogued, and in every way prepared for the shelves.

to keep any record of the number of readers in the reading rooms or the number of reference books consulted in the library without a regular attendant in each reading room. The number of books loaned to the schools for circulation among the pupils has been good. The work the library is doing for the schools is continually growing.

The library is in need of more books and especially of juvenile literature. Any donations of books or the price of a book or a number of books to the library will be greatly appreciated by the library board, the readers and patrons in general.

INDUSTRIAL NEWS NOTES

The gross earnings of United States railroads for the month of January showed an increase over January, 1905, of no less than \$21,824,988, or 50.40 per cent, and the gain in the net foots up \$11,676,497, or 43.25 per cent.

Contracts aggregating \$19,000,000 have been awarded by the Dominion government for the construction of two sections of the national transcontinental railroad.

Express trains now run from Mexico City to St. Louis in 50 1/2 hours—an average of 33 miles an hour for 1,877 miles.

The manufacture of salt from sea water has developed into a great industry in California. In Alameda county 100,000 tons were produced last year. Only a few years ago the state imported all its salt. Now it produces enough for its own use and has large quantities left for export.

The Soo line will start its annual Alaska excursion from Minneapolis July 7. On the way to Dawson and the Klondike tourists will stop at Banff, Laggan, Field, Glacier, Vancouver, Victoria, Skagway and White Horse. The return will be made through the Kootenay Lake district.

The Oklahoma and Pan handle railroad company has been chartered in Oklahoma to build a line 300 miles in length from Alton west to the Texas boundary, and thence southwest through Texas to Pecos, N. M., and outburst from Altus to Waurika, Okla. The line is designed to be an Orient railroad feeder.

The output of the Crapple Creek district during April was 56,170 tons of ore, worth \$1,270,000 gross. This brings the total for the first four months of 1906 to 194,670 tons with a value of \$60,012,050.

The value of the shipments of lead and zinc from the Joplin district for the first four months of this year exceeded that of the same period of last year by more than \$620,000.

The new limited train put on by the Mobile and Ohio road between Mobile and St. Louis has proven very successful. It makes the run between the two cities in twenty hours.

WILD FLOWERS

Yellowstone is truly one of the "Seven Wonders." As a place of grandeur and scenery it is unsurpassed by the famous Alps. Wild flowers abound there in great profusion.

In order to furnish the public with a souvenir within reach of all, the Northern Pacific Railway has prepared a dainty publication, containing twelve specimens of the most beautiful wild flowers in the Park, which have been pressed and mounted in portfolio form.

This attractive souvenir, which contains six full page halftone illustrations, will be mailed prepaid upon receipt of 50 c.
A. M. Cleland, General Passenger Agent, St. Paul, Minnesota.

TO REFOREST BARREN LANDS

Cleveland Cliffs Company is Prosecuting Work on An Extensive Scale.

Another step in the movement initiated a year ago by the Cleveland Cliffs company for the reforestation of its large area of cutover lands will be the establishment of a forest tree nursery at Coalwood, Alger county, this spring.

The work is already under way, and within a few weeks there will be about four acres of 2-year old white pine seedlings under cultivation at Coalwood, as well as other varieties of forest trees transplanted from the Negaunee nursery of the company.

A ten acre wild cherry orchard set out at Coalwood last spring stood the winter very well. But few trees were killed by the cold, although some were broken down by the snow.

Twenty thousand Norway spruce plants set out in the vicinity of the company's private fish hatchery at Munising, also withstood the winter in excellent fashion.

Trees will be planted this spring in the vicinity of Trout bay, on Grand Island, off Munising. At least 10,000 white pine, Norway pine and Norway spruce trees will be set out at that point.

The forestry work of the company in Alger county is in charge of two experts, graduates of the Baltimore forestry school.

WARNING.
You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Ellsworth's Drug Store.

PARLIAMENT OPENS SESSION

St. Petersburg, May 10.—Special.—The eyes of the whole civilized world are turned toward St. Petersburg, today. In the Tauride palace, in this city, there assembled today the first parliament composed of representatives of the people that Russia ever has known. On reconsideration of the government the opening ceremonies were brief and were conducted without pomp or panoply.

The first national assembly is not expected to accomplish much. The sincerity of the government in calling the body together is questioned, and the idea that the whole affair is but a trick has gained ground since the dismissal of M. Witte and the installation of reactionaries at the helm of affairs. Distrust is also excited by the provision that the czar may dissolve the parliament and order new elections, but which does not make provision for the time when the new parliament shall assemble.

But the all important fact is that a representative form of government for the Russian people has now become an established fact and with this as a foundation upon which to begin work, the task of developing its powers and increasing its prerogatives is a matter for the genius of the people to work out. It is manifested, however, that this task must be accomplished in the face of government opposition.

DO NOT BE IMPOSED UPON.
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Ellsworth's Drug Store.

NOTICE.

The Building committee of the city council will receive bids for the construction of a city jail building according to plans and specifications now on file with the city clerk, until 12 p. m. Thursday May 17, 1906. Each bid must be accompanied by a certified check for \$100.00. For the entering into the contract each contractor must furnish a bond, equal to not less than one half the contract price. The committee reserves the right to reject any and all bids. Bids to be delivered to city clerk.

of your grocery order is a very important matter sometimes. In this particular you can always rely on us. We will send your order promptly and it will be filled with the best groceries obtainable. Our prices are as usual lower than you can buy the same quality of groceries elsewhere.

PROMPT DELIVERY

FRANK H. ATKINS & CO.,
Both phones 422 Ludington street

There are a half a dozen good reasons why you should see me before buying Real Estate and chief among them is the fact that there is no property on my books which I cannot recommend.

Just now I have some special values in:

New six room house and lot in North Escanaba, Price \$650.00. Home seekers examine this property.

House and lot No. 908 S. Sarah Street. Price \$3300.00. This is a new house just completed, 8 rooms, all modern conveniences, bath, furnace, hot and cold water. Examine this bargain before making purchase.

One 7 room house No. 45 S. Norris St. Price \$1650.00. \$500.00 cash, balance yearly payments. This property is in a good condition, all public improvements are made, street paved, sidewalks in front and around house.

Benjamin Love's 1 lot cor. Sarah and 3rd sts., price \$500. 1 lot cor. Fannie and 4th sts., price \$250. 1 lot cor. Sarah and 4th sts., price \$100. 1 lot next to above Sarah and 4th sts., price \$100. 1 lot cor. Twedy and oak sts., price \$400.

Those wishing to buy farms or trade farms for city property would do well to consult me before buying. The above are only a few of the many pieces of property which I have on my list.
