expertly bought, properly trimmed, and always kept at the correct freezing temperature. Here's the place for finicky housekeepers

looking for juicy steaks, royal roasts, and tender lamb. Not a single "bargain" on our premises, but always the best meats for the money. For finest meats and a weekly saving on the whole list, give us a chance to prove it.

MIKE GUNTER,

419 Ludington Street.

WANT RELATIVES OF YOUNG MAN

Kenosha, Wis. Undertaker Attempting to Locate Uncle of Walter Wieding who Died There.

An attempt is being made by D. A. Oliver to locate relatives in Escanaba of Walter Wieding, 18 years of age, who died at Kenosha, Wis., on June 1.

A letter was received by Mr. Oliver this morning from Thomas Hahn, an undertaker of Kenosha, asking that an attempt be made to locate the relatives of the young man here and every effort is being made to comply with the request.

It is believed that Wieding has an uncle and small sister living in Escanaba but up to a late hour this afternoon it had been impossible to locate them.

It is believed that the name of the uncle of the young man is Gardner and all of the Gardner families living in Escanaba whose names are entered in the city directory were seen today without finding any trace of the relatives of the dead man.

Following is the letter that was received by Mr. Oliver today:

D. A. Oliver, Esq.

Dear Sir: Yesterday a young man died here at hospital. Name, Walter Wieding aged 18 years. Was born at Manistee, Mich. He is an orphan and should have a sister, at Escanaba, about 5 years old, with some relative there, said to have an uncle at Escanaba named Gardner. This is all the information I can give. If you can get any trace of his relatives telegraph at my expense. Telegraph if you find them or if you don't find them, or the body will be buried here at the expense of our county.

Your very truly,
Thomas Hahn.

GOOD BILL IS OFFERED

Manager Salinsky has Excellent Bill for Patrons of Ben's Theatre This Week.

What is your best bill? Manager Salinsky of Ben's theatre to be one of the best specialty bills that he has offered to the patrons of his amusement place in many weeks, that which will give its first performance to-night.

All of the numbers included in the bill for this week are sent to Escanaba highly recommended by the circuit managers and it is expected that an especially large audience will be attracted for the initial performance of the engagement.

The numbers included in the bill for this week are: Robertson's dogs who have a number which will be especially attractive to women and children, West & Fowler in a German comedy act, Grace Coyne, in a singing specialty, and James T. Derrin ventriloquist.

The illustrated song and moving picture features are assured by Manager Salinsky to be up to the standard.

RUSH WORK ON PAVILION

New Amusement Place at South Park will Probably be Opened on Wednesday.

The work of remodeling the pavilion at South park, preparatory to the opening at that place of an open air skating rink, had been started and building operations will be pushed as fast as possible in order that the new amusement place may be opened to the public by June 5.

The remodeling work at the pavilion is being done by a crew of carpenters working under the direction of Contractor J. W. Lawson who has promised with favorable weather conditions to complete the greater part of the work by Wednesday.

Arrangements have been made by John E. Todd who will act as manager of the new amusement place, with E. C. Sullivan to furnish the musical programs at the rink and the success of that feature of the company's plans is thus assured.

Season tickets for the skating rink have been issued, giving the holders the privilege of having skates reserved for them at all times, and are now on sale at the central store of the Escanaba Cycle works and at the office of Manager Todd.

Very Low Rates to Kenosha, Wis.

Via the North-Western Line. Excursion tickets will be sold June 2, 3, and 4, limited to return June 8, inclusive, on account Meeting of German Catholic Societies. Apply to agents Chicago & North-Western R'y. 6-4.

Everybody's friend—Dr. Thomas' Electric Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, sores. Stops any pain.

MANY MASONS ATTEND FUNERAL

Body of John L. Foster was Laid to Rest Yesterday Afternoon at Lakeview Cemetery.

Funeral services for the body of John L. Foster, who was found in a dying condition in his room at a Chicago hotel on Friday morning. It is claimed from breathing illuminating gas, and whose body was brought to Escanaba yesterday morning, were held at the home at 616 South Jennie street at 2:30 o'clock yesterday afternoon.

The services were conducted under the auspices of the Escanaba lodge of Masons, and the Rev. J. C. Rooney of the First Baptist church delivered the funeral sermon. A large number of the members of the Masonic lodge of Escanaba attended the service and accompanied the body to its last resting place at Lakeview cemetery.

Although the verdict of the coroner's jury which was called at Chicago to determine the cause of death was asphyxiation from breathed illuminating gas, William Harper, brother-in-law of Mr. Foster, who went to Chicago to take charge of the body, believed that Mr. Foster was the victim of foul play.

It is believed by Mr. Harper that his brother-in-law was gagged and robbed as nearly all of the money which he carried with him when he left Escanaba on Tuesday of last week had disappeared and it was said by the proprietor of the hotel where he obtained lodging that he appeared to be ill when he arrived at that place.

For two nights and one day Mr. Foster was allowed to remain in the room before an investigation was made by the proprietor of the place to why he had not appeared.

On the second morning after he had taken the room a chamber maid in passing the sleeping chamber of Mr. Foster noticed the smell of gas. The proprietor of the hotel was notified and the door was broken in. Mr. Foster was found in a dying condition and was removed quickly to a hospital but nothing could be done to save his life.

Gas was found to be seeping slightly from one of the pipes in the room but it was not believed by some of the people at the hotel, who were seen by Mr. Harper, that there was sufficient gas in the room to have caused the death of the occupant.

Mr. Foster had many friends in Escanaba and the announcement of his sudden death in Chicago has come as a great shock to them.

A. P. GORMAN DIED TODAY

One of Democratic Leaders in U. S. Senate Passes Away After Lingering Illness.

Washington, D. C. June 4.—Special.—Arthur P. Gorman, one of the leading Democrats of the country and once mentioned as a candidate for the presidency, died here this morning after a lingering illness.

He was a native of Howard county, Maryland and earned his first money by selling papers on the streets of Baltimore.

Friends obtained for him a position as page in the senate and later he was made postmaster of that body. He was later appointed as collector of customs at the port of Baltimore. He served both in the house of representatives and in the Maryland state senate and was elected as a United States senator in 1881.

He quickly became prominent in that body and won many notable victories.

DANISH PICNIC WAS A SUCCESS

Over 600 people took part in the annual picnic given by the Danish Brotherhood of Escanaba at Stoughton yesterday.

While the number attracted was not as large as was expected by the promoters of the outing the event was a complete success.

The Steamer Maywood made regular trips between the Stephenson dock, Gladstone and Stoughton throughout the day but the number of passengers carried out of the upper bay city yesterday was but small.

A musical program was furnished on the boat and at the park pavilion by Brotherton's orchestra.

TROUBADOURS TOMORROW

At the Peterson opera house for one night only the famous Georgia Troubadours will appear tomorrow night. The company comes recommended from neighboring towns as being chuck full of fun from the start to the finish with catchy music and good singing and dancing.

The famous creole nightingale Mies Kattie Taylor, known as one of the greatest singers of her race and Master Louis Tompkins the wonderful pianist are with the company.

DELTA COUNTY TO HAVE "BOSS"

Roger M. Andrews of Menominee Herald Leader has Another Wield and Wonderful Dream.

Delta county Republicans are at last to have a "boss".

A perfectly organized "machine," headed by Atty. N. C. Spencer of Stephenson and aided and abetted by Ex-Prov. Atty. John Cominsky has been perfected in Delta county and will go into commission at once.

Such at least are the claims of Roger M. Andrews, editor and publisher of the Herald Leader of Menominee who is frequently given to the dreaming of wider and wonderful tales which while not taken seriously by the public, probably furnish much amusement for the writer.

In the issue of the Herald Leader of Saturday Mr. Andrews editorially outlines an admirable scheme which he said says has been decided upon for the control of the Republicans of Delta county.

Republicans of the county will be greatly pleased to learn that really after waiting longingly for many years are at last to support one of their persons known to politicians of Menominee and certain tower personalities in Delta county as a "boss".

Delta county has never before had a "boss" and while the editor of the Herald Leader may have reason to know the principal duties and functions of one of these personages, Republicans of Delta county are now wondering what they will do with a chief factotum, big mogul and general superintendent of political activities.

Menominee county law long boasted a "machine," a mechanism as yet unknown in Delta county, and the word "boss" falls freely from the mouth of the editor of the Herald Leader.

Mr. Andrews announces with much seriousness that Atty. Spencer has been named to "deliver" Delta county.

Such information is most pleasing to the rank and file of the Republican party in this county, and may also offer some amusement for the leaders of that party.

Roger M. Andrews with his excellent knowledge of the workings of a machine and the principal duties of a "boss" falls freely from the mouth of the editor of the Herald Leader.

DISCLOSURES HORRIFYING

Special Report on Chicago Packing Houses sent to Congress Today by President.

Washington, D. C. June 4.—Special.—Disclosures so horrifying as to be almost beyond belief are made in a special report on Chicago Packing houses prepared by Charles P. Nell, Commissioner of Labor and James B. Reynolds of New York and submitted to congress today by President Roosevelt.

In a message accompanying the report the president characterized the conditions found as "revolting" and urged immediate and drastic legislation in the interest of health and decency.

He not only urges the passage of the "Bevelidge amendment" but says that the conditions threaten to destroy the foreign business of packers should congress fail to provide for federal inspection of carcasses at all stages of preparation.

In the event of such failure the president says he will be "compelled to order that inspection labels and certificates on canned products shall not be used hereafter." Without these labels products shall be excluded from European markets. The Nell Reynolds report is not nice reading. It is a story of filth and pollution. Some statements made are actually sickening.

Factors are charged with displaying absolute disregard not only for accepted rules of sanitation and cleanliness but also those of common decency.

In describing the dirty conditions in meat handling rooms and disgusting practices of employees the investigators have been compelled to use plain language.

They tell only what they actually saw during their two and a half weeks' visit to packing towns but numerous affidavits were presented to them most of which were to the effect as being beyond possibility of verification in the limited time at their disposal.

Attention was called by both the president and the investigators to the fact that the present report is only preliminary and that only certain grave charges especially those in connection with adulterating the use of chemicals and dye in "dyeing" meats that otherwise would have to be discarded, are the subject of inquiry.

It is stated in the report submitted to the president that the most serious allegations that have been made by investigators are those suspecting that lack of sanitation and cleanliness exist and are shown graphically that the present system of government inspection is entirely inadequate to prevent germ laden meat products from being thrown generally on the market at home as well as abroad.

Respecting their report the commissioner remarks that they have restricted their statements to those practices and conditions which they found most common, and are not confined to a single house or class of houses.

The investigators proceed first to describe the condition of the yards.

They say that the pavements are mostly brick laid with deep grooves between them which inevitably fill up with refuse. "Such pavements," they declare, "cannot be properly cleaned and are slimy and malodorous when wet, yielding clouds of ill smelling dust when dry."

RIDER HIT AUTOMOBILE

While riding a bicycle at a terrific rate of speed shortly afternoon today Eugene LeDuc 20 years of age collided with the automobile driven by Dr. H. W. Long, at Wells avenue and Georgia street, and was thrown to the pavement unconscious.

The wheels of the automobile did not pass over the body of LeDuc and he was quickly carried by Dr. Long to his office where he soon recovered and was able to leave unattended.

LeDuc was riding east on Wells avenue when Dr. Long was running west on that street.

At Georgia street LeDuc, who was riding with his head down and evidently had not seen the automobile, collided with the machine as Dr. Long was turning north on Georgia. The bicycle struck the front of the automobile and the rider plunged headlong to the pavement clearing the machine.

The only injury sustained by LeDuc was a slight cut at the side of the head and a badly wrenched thumb.

He was riding on the left side of the street and it is claimed that had he observed the laws of the road the accident would not have happened.

Much excitement was caused about the down town streets when the report of the accident was spread as it was first reported that LeDuc had been killed when in fact his injuries were but slight.

SAY BURTON HAS RESIGNED

Washington, D. C. June 4.—Special.—A dispatch received here from St. Louis announces that Senator Burton has resigned.

BICHLER BUYS GROOS QUARRY

Entire Available Stone Supply Adjacent to Escanaba now Owned by one man.

Announcement was made today that John Bichler has purchased from Jacob A. Groos the Groos stone quarry, at Groos, together with all quarrying and stone crushing machinery.

Mr. Bichler has already taken possession of the new quarry and now alone holds the only available building and crushed stone supply adjacent to the city of Escanaba.

A total of eight acres of land is included in the purchase made by Mr. Bichler and he will continue to conduct his own quarry in conjunction with the newly purchased property.

The Groos quarry recently came into prominence in Escanaba by the disclosure of the fact that Ex-Ald. Edward Smith held a contract for the entire output of crushed stone and which resulted in his arrest two weeks ago.

BLOOD IS SHED IN MINERS' RIOT

Guards at United States Coal Company's Plant Attacked by Armed Body of Laborers.

St. Aubinville O., June 4.—Special.—In a battle early this morning between striking miners and guards at the United States Coal company's works two guards and two miners were wounded.

Two hundred and fifty miners were assembled on a hill side fired upon the guards as they were marching to the plant and the volley was returned.

Sheriff Voorhees has asked Adj. Gen. Hughes to send 100 state troops here at once.

The cause for the outbreak this morning is said to be that an Italian miner was set upon by the guards and severely beaten.

Columbus O., June 4.—Special.—Secretary Savage of the United Mine workers says that the guards have been trying for some time to provoke a riot.

Chairman John H. Winder of the operators says however that 200 armed men attacked the guards and killed 12 of them in cold blood.

MARINE NOTES OF LOCAL PORT

Arrivals and Clearances at Docks and Other Shipping Notes of Interest.

Following are the arrivals at the docks: Saturday night and Sunday: Wawatam, Veronica 4:30 p. m. yesterday, Str. Black Rock, Str. Malinta, Str. Senator with coal, Barge Grover with coal Western Star, this morning, Frank Goodyear, Str. LaSalle, Str. Leafield, Str. Maruba.

NEWS EMPLOYES ARE REMEMBERED

Detroit, Mich. June 4.—Special.—The will of the late James E. Scripps, which was filed today leaves \$50,000 to the city of Detroit and \$2,000 to the city board of education.

Three weeks' pay is given to all employees of the Detroit News of 15 years standing and two weeks' pay to those employed on that paper for ten years. One thousand dollars is given to the Detroit Visiting Nurses.

Aside from a few legacies and small annuities the bulk of the estate is to be held in trust for his four children for 30 years when it is to be equally divided.

COURT ROOM IS A BAKE SHOP

The court room of Judge O. V. Linden took on the appearance of an up-to-date baker's shop this morning when Mrs. Jennie Mosher of North Escanaba attempted to prove that crackers and biscuits delivered to her by the Work Cracker company of Minneapolis were not of the quality ordered by her.

Judge O. V. Linden was forced to sit as a judge not only of the legal points involved but as to the quality of the crackers and biscuit samples displayed.

After tasting each of the samples and listening to the evidence the judge held that the company was entitled to recover but \$16 out of a total claim of \$38.

After a heavy meal, take a couple Doan's Regulants, and give stomach, liver and bowels what they will need. Regular regular passage of the bowels.

LID LIFTED FOR A DAY

Detroit News Correspondent says Gladstone Saloon Keepers Allowed to Remain Open on Memorial Day.

The Detroit News of June 1 has the following concerning the reform wave which has swept over the city of Gladstone:

The law and order administration, of which Mayor I. E. Shelley is the head, has furnished a series of surprises to the city since his election in April. The latest was the unusual notifying the saloonkeepers that by special permission they might do business on Decoration day, provided they would lock their front doors and permit no disturbances in their places of business. It is claimed that the mayor made an agreement before election that he would enforce the liquor laws only with regard to Sundays, as legal holidays are not mentioned in the scriptures.

Mayor Shelley's first proclamation ordered saloons and pool rooms to close at 11 p. m. on Sundays, and that livery barns, candy stores, restaurants and the postoffice might remain open if conducted in an orderly manner. He later amended this by adding that baggage might be hauled for private citizens but not for traveling men or show troupes.

MAY WAS A COLD MONTH

Each Day of Last Month was one and Three Tenths Degrees Colder Than the Normal.

It was one and three tenths degrees colder on each day of the month of May in Escanaba than the normal temperature for this district during May for a period of 34 years, according to the monthly meteorological summary issued by Observer W. P. Stewart.

It is also shown by the report that the amount of precipitation in the month of May was nearly two inches less than the normal for that month in this district.

The highest temperature recorded in any day of May of this year was 79 degrees and the lowest point reached by the mercury in the official thermometer at the weather station during the month was 26 degrees. The least difference in temperature in any 24 consecutive hours of the month was 5 degrees on May 20. The average temperature in Escanaba in May was 47 degrees while the normal temperature of that month during a period of 34 years in this district has been 49.2 degrees thus making an average daily deficiency in temperature of just more or less than one degree.

Former months of this year, when abnormally high temperatures maintained, have however caused an accumulation of 200 degrees of temperature to be formed and since Jan. 1 of this year the temperature of each day has been 1.1 degrees above the normal for the first five month period in 34 years in this district.

The total precipitation in Escanaba in May was 1.67 inches. In May a trace of snow was recorded on one day and the greatest rainfall in any 24 consecutive hours was .53 of an inch on May 1 and 2.

The average precipitation in Escanaba in May for a period of 34 years has been .763 inches and that amount compared with the waterfall of last month shows that there was 1.96 inches less of precipitation in May of this year than the normal.

Since Jan. 1 there has been a deficiency in precipitation in this district of .89 of an inch as compared with the normal for the period.

The prevailing winds of the month were from the south with an average hourly velocity of 10.9 miles. The greatest velocity attained by the wind at any time during the month was 40 miles an hour on May 31. There were 6 clear days in May, 14 were partly cloudy and on 11 the sun failed to appear at any time.

SWEIG DRAWS LIGHT SENTENCE

Leonard Sweig of Bagley who was arrested in Escanaba charged with desertion and John Reichgeld of Menominee, were tried by court martial at Fort Sheridan last week and have received their sentences. Sweig was sentenced to six months at hard labor at Fort Sheridan and a forfeiture of \$10 a month from his pay while in prison. John Reichgeld was sentenced to four years at hard labor at Fort Sheridan. Leonard Sweig was represented at the court martial by Senator Mill of Menominee, and because of the latter's ability and Sweig's exemplary conduct while in prison the young man received a comparatively light sentence.

For any pain, from top to toe, for any cause, apply Dr. Thomas' Electric Oil. Pain can't stay where it is used.

RICHELIEU COFFEE

Mrs. Schwarberg, of Sprague Warner & Co., an experienced Coffee demonstrator will be at our store during the week beginning with Monday, May 14th. We would be pleased to have all those who are interested in good Coffee and how to make good Coffee call and see this demonstration. Mrs. Schwarberg is an earnest, conscientious lady and we believe that you will be pleased with what she will have to say to you.

FRANK H. ATKINS & CO.,

Semer Block Escanaba, Mich.

HERE'S MONEY

For you. I mean of course the money you can save by seeing me when you are thinking of investing your idle cash in Real Estate.

I have always good values to offer on my books. I especially quote:
 One large house and lot in good repair No. 625 Jennie St. Price \$2800. To any person looking for a home in a good location this cannot be beat.

Ten room house and lot No. 1001 Delta Ave.. Price \$1900. This property is in a first class condition.
 3 houses on two lots in North Escanaba, rents for \$24.00 per month. Price \$1800. Invest your money in this.

I have on my list several farms which may be exchanged for city property. Space will not permit me to numerate all the property on my list, such as house and lots, building lots in all parts of the city, also farms improved and unimproved. Call and examine before you make a purchase and save money.

DOHERTY, Real Estate, Loans, Fire and Life Insurance.

IS A GREAT COLORED SINGER

Miss Katie Marie Taylor is considered to be one of the greatest singers of her race. She is with the Georgia Troubadours and will sing Swanano River in which she will make high a flat only made by the once famous Jenny Lind. The Troubadours will appear at the Peterson on June 5.

Three Physicians Treated him Without Success.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Kentucky treated me without success. I then took Foley's Kidney Cure. The first bottle gave immediate relief, and three bottles cured me permanently. I gladly recommend this wonderful remedy." Ellsworth's Drug Store.

MAKE HAUL AT IRON MOUNTAIN

Library Burglars not Frightened by Reception in Escanaba and Proceeded With Work on Friday Night.

That the library burglars who visited Escanaba on Thursday night and were frightened away by Officer George McCarthy who was arrested in the building have not abandoned their tour of the entire district, is shown by the fact that the Carnegie library at Iron Mountain was entered on Friday night. Approximately \$17 in cash was taken and the building was left in a state of great confusion.

Don't Make

Yourself sick by working about the dullness in copper stocks. If you are making

Any Mistake

by not buying good copper stocks now while the price is low, don't blame me when you see the biggest boom

In Coppers

that you have ever seen, for I can convince you why good copper securities are a better purchase now than they have ever been before.

the burglary were a shoe with a high heel. The foot prints left by the burglars near the Iron Mountain Library are described as nearly identical with those found by the police officer of Escanaba surrounding the library here on the morning following the attempted burglary. The Iron Mountain Tribune has the following concerning the robbery:

The Carnegie library was burglarized some time last night or at an early hour this morning and approximately seventeen dollars in money taken. The burglars gained entrance by breaking the top pane of glass in the side window under the side porch; then turning the catch and opening it. Upon entering the basement he discovered the door leading from the boiler room to the hallway, locked. The obstacle proved of little consequence to him, however, as he sealed the door, raised the transom and crawled through to the hallway. Once in the passageway, aided by light from matches, as evidenced by the burned matches on the floor, he experienced but little difficulty in making his way up the stairs leading from the basement to the floor above.

He pried open a drawer in the librarian's desk, took approximately \$17 in cash, but refused to have anything to do with a box of pennies which he also found. The box of pennies he took from the drawer and placed the same on top of the desk, presumably afraid to carry coppers away as he would probably find difficulty in disposing of them, and thinking they might also be a means of identification, he decided to leave them behind. He then ransacked the entire desk and threw the drawers and contents on the floor.

The burglar also visited the office of L. E. Amidon, superintendent of schools, which is on the same floor. Here he pried open the desk, raised the top and pulled out the middle drawer, which he relegated to the floor. In one of the pigeon holes, he found a dollar in cash. This he appropriated. He then took his departure from the building.

The burglary was discovered by Miss Margaret McVety, librarian, who was the first to reach the building this morning following which the police department was notified. A search for the vandals was then instituted and two suspicious looking characters arrested. These two men were later released as they gave evidence that they were not the ones wanted.

LOWELL MAKES GOOD RECORD

Escanaba Student at University Wins "M" for Record in Baseball and is Counted as best Catcher in big College League.

John Lowell, who graduated from the Escanaba high school one year ago, is the first Escanaba student at the university of Michigan who in recent years has been awarded an "M" by the university athletic association.

By superior playing with the university baseball team Lowell has won a regular place on the team and recently when the award of "Ms" was made by the athletic association he was one of the new members of the squad to receive official recognition.

Escanaba students at the university are especially proud of the record that has been made in baseball by Lowell and much satisfaction is gained by them by pointing to his performance in the different important games played by the university team.

For the greater portion of the college baseball season Lowell has been the regular catcher on the team and both in his position behind the bat and with the stick his record has been an excellent one.

In the Illinois game it was an two base hit made by Lowell which won the contest for Michigan and it was that game which was needed by Michigan to win the championship of the west. In three times to bat in the Illinois game Lowell drew one two base hit and two singles.

In the contest with the Michigan Agricultural college team Lowell lined out a clean home run with two men on bases and in the Chicago game he drew one two base hit and one single, both of which scored Michigan players.

In all of the games with the university team Lowell has made but a single error this season and after the close of the Illinois contest when the Escanaba player's record attracted particular attention, Coach McCallister said that without question Lowell was the best batter and catcher in the big college league and had in him the making of a second Bowerman, of the New York Giants.

The recognition that has been given to Lowell by the athletic authorities of the university is especially pleasing to his friends in Escanaba as out of the great number of Escanaba students who have figured in athletic events at the university in recent years Lowell is the first man to be awarded an "M" showing that he has made a good record in a university championship contest.

Smoking in a Powder Magazine. Is courting death more suddenly but not more surely than neglecting kidney disorders. Foley's Kidney Cure will cure a kidney disorder in a few days and its continued use will cure the most obstinate cases. It has cured many people of Bright's disease and diabetes who were thought to be incurable. If you have kidney or bladder trouble, commence taking Foley's Kidney Cure today, before it is too late. Ellsworth's Drug Store.

MORE DEATHS THAN BIRTHS

Race Suicide in Escanaba is Threatened According to Report of State Board of Health.

According to statistics completed by the state board of health there were two more deaths reported in the city of Escanaba than total number of births in April.

Three cities in the state of Michigan in the same class, according to population, as that occupied by the city of Escanaba, had a greater death rate in the month of April than was recorded here.

The total number of deaths in Escanaba in April was 28 and Ann Arbor with 27 deaths, Battle Creek with 40 and Muskegon with 30, exceeded the record of this city.

Following was the number of deaths in the different upper peninsula cities in the same class with Escanaba, according to population: Ironwood 8, Ishpeming 12, Marquette 10, Menominee 19 and Sault Ste. Marie 6.

With the exception of Houghton county Delta had a greater number of deaths in the month of April than any other upper peninsula county.

In this county in the month of April 43 were reported, and in Houghton county 103 deaths were recorded. Following is the death list for April in other counties of the peninsula: Alger, 7; Baraga 6, Chippewa 14, Dickinson 17, Gogebic 19, Iron 14, Keweenaw 6, Luce 1, Mackinac 6, Marquette 41, Menominee 26, Ontonagon 13 and Schoolcraft 9.

The cities of Sault Ste Marie and Ishpeming led all other cities of the peninsula in the same class for the number of births in the month of April, in each of those cities a total of 30 births being recorded. The total number of births in Escanaba in that month was 26, Ironwood recorded 25 births, Marquette reported 16 and the city of Menominee occupies the bottom of the list with but 7 births in the month.

There were three more births than deaths in Delta county in the month of April but the birth record for this county was not up to the record boasted by other counties of the peninsula.

Following is the birth record for other upper peninsula counties: Alger 14, Baraga 8, Chippewa 45, Dickinson 54, Gogebic 53, Houghton 28, Iron 19, Keweenaw 15, Luce 4, Mackinac 25, Marquette 87, Menominee 31, Ontonagon 23, and Schoolcraft 13.

TO PROTECT THE PUPILS

Medical Inspection of all Public Schools Favored by Health Officers of State.

Grand Rapids, June 4.—Special—Medical inspection of the public schools were endorsed by the health officers Saturday.

Dr. Angus McLean of Detroit, presided over the session and the paper on medical inspection of school children, which aroused much enthusiasm, was read by Dr. E. H. Herdman, of Ann Arbor, inspector of schools at that city.

"The government of this and other states makes it compulsory for children to attend school," said Dr. Herdman. "It should, therefore, supervise the physical welfare of the child as well as its mental improvement and development."

Among the important troubles of children which might be prevented by thorough medical inspection of the little ones at school are defective eyesight, troubles of the ear and skin diseases.

"The responsibility of the present to the coming generation regarding school life is enormous," said he, "and involves all such questions as the proper location of school buildings with regard to pure air and good drainage; the construction of the building itself, with regard to window space and the direction of light; the tendency toward overcrowding; the use of proper drinking water; the providing of clean wash bowls, towels and soap, and the construction of desk in size corresponding to the children in the room, so that the pupil may firmly plant his feet on the floor and always occupy the same position relative to his desk as he grows."

"A discussion of far reaching interest has taken place in the French academy of medicine on the subject of class books as disseminators of contagion in schools, especially in the case of such diseases as scarlet fever, measles and diphtheria. Paper has long been recognized as a dangerous agent of infection, even to tuberculosis, owing to the habit among children of turning over leaves wet with saliva." Dr. J. Vernon White, of Detroit, gave an interesting paper on the care and treatment of the nose and throat in infectious diseases.

Feel Impending Doom. The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Ellsworth's Drug Store.

STATUE OF M'CLELLAN.

Equestrian Figure of the General to Adorn the City of Washington.

Washington.—This city of monuments and statues is to be graced by a fine equestrian statue of Maj. Gen. George B. McClellan, which is now being constructed by Frederick MacMonnies, whose fountain at the World's Columbian Exposition won him world-wide fame. It is expected that the statue will be ready for unveiling on October 13. The commission in charge of the work is composed of the secretary of war, Senator Wetmore, of Rhode Island, and Gen. Horatio C. King, of Brooklyn. The statue is the outcome of the efforts and subscriptions of the Society of the Army of the

STATUE OF MAJ. GEN. GEORGE B. M'CLELLAN. (It Will Be Unveiled in Washington on October 13, Next.)

Potomac, which will hold its thirty-seventh annual reunion coincident with the unveiling in the capital city. The discussion caused by the appearance of the model of Gen. McClellan in a slouch hat, at a period when that was not worn, led to the substitution of the cap which Gen. McClellan wore at the time, in which the statue depicts him, when he was in command of the Army of the Potomac.

Various other works of MacMonnies of a military character are to be found throughout the country. He designed the army and navy groups for the soldiers' and sailors' monument at Indianapolis; the figure of Victory in the battle monument of West Point; and of his other works in this country may be mentioned the magnificent bronze doors and statue of Shakespeare in the library of congress; the Nathan Hale monument in City Hall park, New York, and the fountain at the world's fair at Chicago, to which reference has already been made.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

LAST OF THE BLOOMERS.

One Lonely Old Woman the Sole Survivor of the Once Famous Band.

All that remains of the famous "Bloomer Band" of half a century ago is one lonely old woman and a new word in the dictionary. The term "bloomers" has survived, but few know that the word had its origin in a movement of half a century ago for the revolutionizing of woman's costume as a first step toward the enforcement of equal rights with men. The woman who led this band was Mrs. Anne Bloomer, of New York. Mrs. Bloomer was a famous advocate of woman's rights, but she attained world-wide fame only when she called upon her enslaved sisters to break the shackles, defy convention and the male sex and step into the light of day wearing trousers, the uniform of liberty. Not all at once did the little band of women who responded to the Bloomer call cast aside the garb of the down-trodden sex. A compromise was effected in the form of a costume part trousers part skirt. It was hideous, a nightmare, a thing to make both sexes shudder and seek the woods. But many women set their teeth and marched into the limelight wearing the new "Bloomer" costume.

The entire world shrieked. The Bloomerites were lampooned in type and picture, even Punch considered the subject important enough for his satirical shafts. The nerve of some of the Bloomerites failed them after a time and the costume became less and less familiar in the streets of American cities. It was generally supposed that nothing remained of the Bloomer movement but the name, now applied to more than one kind of nether garment. But there is one "Bloomer" woman still living and still boldly facing a mocking world, wearing the costume adopted at the time of the futile movement of half a century ago. This last survivor of the famous Bloomer brigade is Susan Fowler, of Vineland, N. J. For 46 years she has tilled her farm, gathered her harvest and, clad in the costume to which she has ever remained faithful, has driven to market to sell her produce. Indifferent to the attention she attracts, the only living Bloomer woman walks the streets of Jersey town or toils on her farm dressed in the garb over which she comes papers of the world cackled with merriment in the fifties. It may be funny to some, but it is a little pathetic, too, to see the lonely old woman (for she is 80 years of age and works and lives in solitude) clinging stanchly to the dress she undertook to wear when women were calling on their sisters to discard the skirt of thralldom and be free like men.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

Very Low Rates to Port Huron, Mich. Via the North-Western Line. Excursion tickets will be sold June 16 and on account of favorable rates limits on securing of meeting of Ladies of Modern Maccabees. Apply to agents Chicago & North-Western R'y. 6-17.

DEATH RATE WAS LOWER

Total Number of Deaths in State During Month of April was 3,097.

The total number of deaths returned to the office of the Secretary of State for the month of April was 3,097, corresponding to a rate of 14.6 per 1,000 estimated population. This is slightly lower than the rate for the preceding month, 14.8, but slightly higher than the death rate for the corresponding month of 1905, which was 14.4 per 1,000 population.

There were 4,709 births returned as having occurred during the month of April, representing a rate of 20.1 per 1,000 estimated population. This is slightly higher than the rate for the preceding month, which was 18.7 per 1,000.

By age there were 581 deaths of infants under one year of age, 213 deaths of children aged 1 to 4 years inclusive, and 984 deaths of persons aged 45 years and over.

Important causes of death were as follows: Tuberculosis of lungs, 239; other forms of tuberculosis, 25; typhoid fever, 30; diphtheria and croup, 85; scarlet fever, 28; measles, 42; whooping cough, 45; pneumonia, 341; diarrheal diseases of infants under 2 years, 5; meningitis, 51; influenza, 61; cancer, 131; accidents and violence, 157.

There was some increase in the number of deaths from tuberculosis of the lungs, typhoid fever, measles, enteritis, meningitis, influenza and violence and a slight decrease in the number of deaths returned from the other important causes.

There was one death returned from small pox during April which occurred in Coaster township, Sanilac county.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Busling, 701 W. 3rd st., Pavepoint, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years, and if I had taken it at the start I would have saved years of suffering." Ellsworth's Drug Store.

7th Semi-Annual Payment of Interest In Our Savings Department

Interest was credited on our books June first and is ready for payment, or for entry on passbooks at convenience of depositors.

Interest not withdrawn will be added to principal and bear interest thereafter the same as original deposit.

The FIRST NATIONAL BANK, ESCANABA, MICH.

The only Cough Syrup that rids the system of a cold by acting as a cathartic on the bowels is

BEE'S LAXATIVE HONEY AND TAR

THE ORIGINAL LAXATIVE COUGH SYRUP

Best for Coughs, Croup, Whooping Cough, Etc.

BEE'S LAXATIVE HONEY AND TAR

The only laxative that is on every bottle. Prepared by Parke, Davis & Co., Chicago

All old-time cough syrups were designed to treat throat, lung and bronchial affections without due regard for the stomach and bowels, hence most of them produce constipation. Bee's Laxative Honey and Tar the original Laxative Cough Syrup, expels colds from the system by gently moving the bowels, and cures all Coughs, Colds, Croup, Whooping Cough, La Grippe, etc.

R. E. Slattery of Crystal Falls was in the city yesterday.

The Misses Hazel and Ethel Fisher visited with friends in Marquette yesterday.

BLUE RIBBON FOR BRAINS.

English Wise Men Will Enter an Interuniversity Thinking Match.

British thinkers, rebelling against the custom of awarding great prizes to college athletes and neglecting the thinkers, have proposed and are urging throughout the kingdom a "blue ribbon for brains." An interuniversity contest between the thinkers and students, for an award of merit.

The neglect of brains and the constant lauding of brawn in the press of Britain, as well as in university circles, has called forth the protest and the demand for recognition and reward of the brainy men of the great schools.

Just what form the thinking match for the championship is to assume is not stated. Those who are urging the contest plead that pine men from each of the great universities meet in the contests. Whether it will consist of looking wise, or in oratory, in written examinations in certain subjects, they do not state. The contest may take the form of the standing long jump, or the running high jump, or the two-minute handicap think, or the long distance think.

At any rate, the proposition is to make the event of the blue ribbon thinking match of all England and to show the thinkers that they are esteemed as high at least as are the athletes. Who will be the first champion thinker of Great Britain is a question of vital interest.

DOGS FOR HOSPITAL SERVICE IN THE ARMY.

"Fritz," a noble animal of the setter breed, who has come to this country from the German army to teach American dogs a new usefulness in time of war. Ambulance dogs are now a regular feature of the armies of Italy, France, Germany and England.

Education a Gift. In the common schools of the United States are now enrolled more than 16,000,000 children, or about one-fifth of the population, under nearly half a million teachers. As this education is given to the children free it is at the bottom, says the New York Sun, and very truly, of the nature of a charity. The state takes them under its guardianship so far as concerns their elementary instruction and bestows on them its bounty. The state exercises a function on behalf of its citizens in this matter of education of very much the same kind as it employs in their sanitary regulation, now carried to so great an extreme of expense and in detail. Like school instruction, this sanitary regulation is a measure of self-protection for the state, since unsanitary conditions in a particular district affect injuriously the whole community in which the region is situated. Hospitals, also, are maintained for a like reason, or not merely for the particular benefit of the sick in them but that the general public health may be protected. From the cradle to the grave the poorest citizen is looked after by the municipal authorities. The whole machinery of society is organized for his benefit. The defective and the delinquent and even the vicious are looked after without regard to any share they may have in paying the cost or in increasing it. The spirit of charity extends its wings over the whole community. So also the college and university may be called a benevolent institution, wholly or in great part. The latest statistics of the United States bureau of education enumerates 443 of these, in which the students number 139,157 young men and 41,977 young women, who contribute in tuition fees less than one-half of the total income, to say nothing of the interest on the cost of plant, appliances, etc. More than half of the education of these students is purely gratuitous. To that extent they are the recipients of charity. Besides about \$90,000,000 of productive funds, these institutions have invested in grounds and buildings, in libraries and apparatus, nearly as much more. Except for this endowment in productive funds, a gratuity to the students, most of the institutions would have to go out of business. Munificent gifts to these endowment funds have distinguished this country for many years past, yet there is not now a single university or college which is not in need of more. Applications for still further benefactions are urgently made by the oldest and most famous universities in the union. These facts cast no reflection on the pupils and students, but prove simply that the educational advantages these enjoy are largely of the nature of a free gift by society or by individuals of wealth.

Hennery Phonography. A Stockport (N. Y.) poultry farmer has had great trouble of late because his hens were not producing the proper number of eggs. A nearby neighbor has a fine flock of hens which were working overtime to produce eggs. While hanging over the back fence listening to the triumphant cackling of his neighbor's hens, says a local informant, an idea struck the luckless owner of hens. He went into the house and brought out his phonograph, inserted a blank record and succeeded in getting a fine imitation of the cackling of the laying hens. He then installed the phonograph in his own hen house and started it going. The first day the hens were greatly amazed, but the second day they got down to business and ground out an egg every time the phonograph cackled. The hens have stopped cackling themselves, however, and when the phonograph stops they stop laying and the originator of the idea has to sit in his coop all day long to keep the phonograph going.

Much of the feeling against motor cars in the country is due to a disregard, or an apparent disregard, of the rights of others. The feeling re-

marks Youth's Companion, would melt rapidly if all automobilists understood human nature as well as one man in Missouri. On the back of his machine is a large sign, "Thank you!" When a farmer pulled out at one side of a narrow road to let the automobile get by, and then, looking after it a little crossly, perhaps, sees that sign, he smiles and feels better. Other motorists in the same region have adopted the plan, and now, it is said, the farmers will even pull an automobile out of a hole without making sarcastic remarks about the superiority of horseflesh to gasoline.

Uncle Sam annually distributes 345 tons of seeds free to farmers and others at an annual cost of \$34,500. If the seed, like that spoken of in holy writ, fell on good ground and produced abundantly after its kind there might be some justification for his paternalistic practice, but as a matter of fact most of it falls by the wayside and among the thorns of politics. Still, we shall probably go on scattering it.

A newly discovered bacillus is described by a Baltimore scientist as a "diplac bacillus, with chromogenic form in yellow pigment." The description would seem to the lay ear to be specific enough.

Disease and Crime.

Science makes marvelously rapid strides—in a circle. We have seen it by it through many uses, and we are now about where we were 2,000 years ago, declares a St. Louis Globe-Democrat writer. We are proving that Plato's concept of the universe was about right. And in time "by the grace of God we may know as much as our Father Adam knew." Modern savants have preached so eloquently for the past decade that crime is a disease; that the world was about ready to accept the theory and build sanitariums in lieu of penitentiaries, and to substitute the surgeon for the hangman. But now comes "an authority" who tells us that "disease is a crime," reversing the formula that we have learned. He supports his theory by many plausible arguments. Disease, he says, results ordinarily from the infraction of some of nature's laws, and such infraction is criminal. It would seem that there is nothing for it now but to give medical treatment to the morally diseased, and to hang the physically criminal persons. We must come to regard criminals as unfortunate, and the sick as willful law-breakers. Or else we must consider crime and disease as one, and devise a common method for treating both. It is a dark and involved subject. Perhaps, before our comfortably adjusted philosophy of life is snatched from us, it would be wise to take the law into our own hands and formulate a doctrine that would spare us further worry? We could say that science makes us unhappy; hence it is criminal, and its practitioners enemies to the human race. We could then righteously hang the scientists, and be comfortable and ignorant in our own way, and not with the trained ignorance of the savants.

One of Mr. Carnegie's declared reasons for founding and munificently endowing the institution at Washington that bears his name was that "the exceptional man" might be discovered and developed. His purpose more particularly contemplated the exceptional man in science, but he is anxiously awaited and warmly welcomed whenever found in every relation of life. Sometimes he appears when no special conditions have been prepared for him. Perhaps as often as not he comes to the front through circumstances apparently fortuitous, but which nevertheless call out responsive though unsuspected qualities in him. The exceptional man is not made to order. In fact he is not made at all, but comes to his own through opportunity.

FOUND—Black cow with white horns. Owner can have same by calling at 517 Ogden avenue Peter Durancanau. 56-6-4-3.

Simpler Foods Needed. Manufactured foods deserve more attention from the profession than has usually been given to them. The extraordinary statements of the makers should be frowned upon in the interests of public health, says American Medicine. Periatrists have lessened the evils of baby foods which so often caused scurvy and other diseases of malnutrition. Some of these foods, by the way, being made mostly of starches and sugars, with a minimum of nitrogen, have undoubtedly caused unrecognition cases of nitrogen starvation. So many of the foods for invalids are merely stimulating extracts of beef, having no nutritive value whatever, that it is difficult to understand why the extravagant claims of their nutritive value are believed. The breakfast foods, which contain so much sugar and dextrin with their starch, are said to be followed by glycosuria now and then. The predigested carbohydrates are poured into the blood in such large amounts that they cannot be disposed of, so they drain off wasted. The mechanism for reducing the sugars is able to work on small amounts only. Is it not time, then, to get back to nature and simplify our dietetics? Is not the peasant with his bread and cheese, with a trifle of meat now and then, really better off than the Falstaff "with good capon lined"? An awakening of the needs of a scientific dietetic may result in a simplification of our foods. The public certainly needs instruction, and there is a field for much useful work by the profession. Plain oatmeal, strabout and crushed wheat were good enough for our healthy ancestors, and should be for us. Fancy names given to them only cost us money and give no more nutriment. Therapeutically, also, there is much room for improvement, perhaps. A livelier interest in the uses of all foods will certainly lead to better knowledge of their uses for the sick.

SAY SCHWAB IS TO BUILD PLANT

Bethlehem Pa. June 4.—Special.—It is reported here that Charles M. Schwab will build a million dollar plant in this city for the manufacture of automobiles.
