FINE MEATS

expertly bought, properly trimmed, and always kept at the correct freezing temperature. Here's the place for finicky housekeepers

looking for juicy steaks, royal roasts, and tender lamb. Not a single "bargain" on our premises, but always the best meats for the money. For finest meats and a weekly saving on the whole list, give us a chance to prove it.

MIKE GUNTER,

419 Ludington Street.

BULGARIA'S CREW BROUGHT TO CITY

Men on Vessel Wrecked at Fishermen's Shoal Tell Exciting Tale of Escape. Three Escanaba men were Aboard Boat Which is Believed to be a Total Wreck. First Heavy Gale will Break up the Wreck Because of Exposed Position. No Attempt yet Been Made to Lighter Cargo of Soft Coal.

Members of the crew of the steamer Bulgaria which was wrecked on Fishermen's shoal, four and one-half miles southwest of Washington Island in a dense fog on Monday night, arrived in Escanaba last night and tell an exciting tale of their escape from the wrecked boat.

Out of a crew of 19 men, carried by the Bulgaria, three are from the port of Escanaba and they are: Benjamin Gallagher, second mate, Daniel L. Blair, lookoutman and John Trechler, steward.

According to the members of the crew it is believed that the Bulgaria is broken in two and should a heavy gale of wind arise is in great danger of going to pieces. The seams of the hull have already been opened at several points and it is believed that only a small portion of the cargo can be saved.

The Bulgaria rests on the bottom in 24 feet of water aft and ten feet of water forward.

A great hole is stove in the hull forward which is gradually being increased in size as the waves dash over the wreck.

First mate Thomas Hurley of the wrecked vessel with five members of the crew left Escanaba this morning in a gasoline launch for the scene of the wreck and will remain at Washington Island until the vessel is either broken in pieces or some action is taken to lighten at least a portion of the cargo.

The Bulgaria was bound from Cleveland to Green Bay, with a cargo of soft coal and on entering Lake Michigan encountered a heavy fog which continued throughout the day.

On Monday evening the fog had become so dense that the captain lost his actual bearings and at 7:10 o'clock on Monday evening the Bulgaria struck the shoal.

The story of the wreck as given by Daniel L. Blair of Escanaba, lookoutman on the Bulgaria, and who arrived here last night with the crew is as follows:

"I was just getting ready to turn in when the boat struck. We had been running in a heavy fog during the afternoon and the minute that the crash came I knew what had happened. I rushed out on deck but partly dazed and grabbed the log line, believing that we might be able to ease her off. Capt. Minor was on the bridge and Chief Engineer Hanns was on watch. The captain gave order as soon as the boat struck to reverse the engines and turn on the pumps and his orders were obeyed at once. As I reached the side of the boat I saw a timber nearly ten feet long that had been torn from the hull move out and then she began to sink. In less than three minutes the vessel had been downed and the captain seeing that she was going to the bottom ordered the lifeboats lowered.

Orders were given not to attempt to save clothing or baggage and with every man standing at his post we carried out the orders of the captain who stood on the bridge as cool as if nothing had happened.

We hoisted the boats but when it was seen by the captain that the boat was already resting on the bottom he ordered us to save our clothes. We lost no time in doing that and soon had the greater part of our belongings.

As the weather was mild the captain ordered us to stand by the wreck again, and for the remainder of the night we occupied the forward quarters which were out of water. At 4 o'clock on Tuesday morning the captain and seven members of the crew left the wreck and rowed to Jackson Harbor where the owners and the local inspectors were notified of the accident. The captain and his crew returned to the wreck at 9:15 and at 10:10 o'clock the life saving crew from Plum Island, who had been notified, arrived to take us off.

As the vessel was beginning to show signs of breaking up and all of us left the wreck and were left at Detroit Harbor where we remained until yesterday afternoon when we were brought to Escanaba. The members of the crew carried by the Bulgaria were: Capt. N. L. Minor, Mason, Mich., First Mate Thos. Hurley, Oswego, N. Y., Second mate, Benjamin Gallagher, Escanaba, Mich., Chief Eng. H. F. Hanns, Cleveland, O., Second Eng. Frank Brotz, Sheboygan, Wis., Oiler, Aug. Ackler of Sheboygan, Wis., Wheelman Thos. Glendon, Tawas, Mich., Wheelman, Thomas Riley, Toledo, O., Lookoutman, Daniel L. Blair, Escanaba, Mich., Lookoutman Norman Minor, Mason, Mich., Watchman Fred White, Knoxville, Tenn.,

Steward, John Trechler, Escanaba, Mich., Second Cook, Gordon Dawson, Detroit, Mich., Fireman, William Schwilrig, Cleveland, Fireman, Louis Reimelt, Cleveland, Fireman, Emil Goetz, Bellevue, Ohio, Deckhand, Bert Hill, Peterborough, Ont., Deckhand, Charles Chacon, Boston, Mass., Deckhand, Tom McComb, Pittsburg, Pa.

Today the different members of the crew were paid off and left for different ports to take new births.

The Bulgaria, which it is believed has now made its last trip, has been in service on the Great Lakes since 1887 when it was built at West Bay City. She was 280 feet long with 40 foot beam and depth of hold of 21 feet. She was owned by James Corrigan of Cleveland.

LIQUOR MEN ARE FOR TEMPERANCE

National Association says Intoxication Should be Made a Crime.

The National Liquor Dealers' association, in its annual convention at Louisville issued an address to the people of the United States, in which the belief of its members in temperance is expressed; obedience to the law is endorsed; the work of the various temperance societies is commended, and the statement made that intoxication should be considered a crime. The address says in part:

"From time to time during the past seventy-five or one hundred years waves of public sentiment antagonistic to the manufacture and sale of wine and spirits and other alcoholic beverages have passed over this country, leaving in their train state, county and municipal legislation of a more or less drastic character—legislation entirely out of sympathy with the spirit of American institutions—legislation that was bound to fail of its purpose in practically every instance—and this because the sentiment that compelled it was a sentiment engendered by agitation and totally unripe for its enforcement.

"Experience has shown that when a man votes for prohibition it is invariably for the benefit of others and not for himself, for no man sees a really better society can order his life more wisely than he can order it; and for this reason all prohibitory laws, be they passed by the people of Maine or of Kansas, or of Iowa, have in each and every case become dead letters on the statute books, demoralizing to order, destructive of revenues and at war with common sense and good citizenship.

"The white ribbon movement, the blue ribbon movement, the prohibition movement and the anti-saloon league movement were or are pretenses upon the part of good men and women against two of the greatest evils connected with our civilization—drunkenness and those saloons which are conducted in a disreputable manner or else in such a way as to demoralize rather than to elevate those who patronize them—and we, the delegates to this convention of the wine and spirit trade, desire to express our entire sympathy with the efforts that have been put forth to exterminate the evil, and our willingness to lend co-operation and assistance.

"We believe that wine and spirits are blessings per se, intended by an all-wise providence to bring health and happiness to mankind.

"We believe that the legitimate manufacture and sale of wine and spirits is an honorable trade and one that should be respected by society and by the laws.

"We believe that the saloon and cafe should be so conducted that men would not hesitate to visit them accompanied by their wives and children and that the atmosphere of such places should be beneficial to both mind and body."

John Mack, who was arrested in Marinette some weeks ago on the charge of conducting a lottery and who has also operated in Escanaba, has been found guilty of the charge in his trial at Green Bay. The following dispatch from Green Bay gives an account of the trial:

"The trial of John Mack, who was

CHARGED WITH THE SELLING OF LOTTERY TICKETS ON SUIT IN THIS CITY AND ELSEWHERE, CAME UP IN MUNICIPAL COURT SATURDAY AFTERNOON. HE WAS FOUND GUILTY AND A MOTION WAS MADE BY HIS ATTORNEYS FOR A NEW TRIAL. THE ARRANGEMENTS FOR THE NEW TRIAL WILL COME UP WEDNESDAY MORNING.

John Mack came to this city the fore part of last month and sold to nearly all the business and professional men in this city tickets on tailor made suits. The scheme of the affair was that all who wished could buy a ticket for \$1 and every week a suit was raffled off, someone in the club being sure to get it. If you were not the lucky person the first time by paying in the sum of \$1 you were entitled to a chance the next week and so on until you received a suit.

"Tailors in this city and in other towns in the Fox River valley complained against Mack and he was arrested."

MAY ESTABLISH NEW BUSINESS

W. T. Seeger of Ashland may Organize Merchants Protective Agency and Collection Bureau Here.

William T. Seeger, formerly manager of the Ashland theater, at Ashland, Wis., and until recently proprietor of a circuit of theaters in Northern Wisconsin and the upper peninsula of Michigan, is in Escanaba and may decide to locate here permanently.

Should Mr. Seeger decide to remain in Escanaba he will organize a businessmen's protective agency in conjunction with a collection bureau and for which it is believed there is an excellent opening.

Mr. Seeger formerly conducted such an agency at Ashland and made it a marked success.

He is also an accomplished musician and director and should establish himself in Escanaba will cooperate with local musicians in organizing a city band and orchestra.

LODGE MEMBERS ATTEND FUNERAL

Body of Nicholas Williams was Laid to Rest This Morning at St. Joseph's Cemetery.

Members of the Luxemburger Bruder Band attended the funeral service over the body of Nicholas Williams Sr., an honorary member of that order which was held at 9 o'clock this morning at St. Joseph's church. The Rev. Father Eusebius conducted the service. Interment was at St. Joseph's cemetery.

Mr. Williams had been a resident of Escanaba for 14 years and many of the old residents of the city who were intimately acquainted with him attended the funeral service this morning.

The members of the Luxemburger Bruder Band marched to the church in a body and after attending the service accompanied the body to its last resting place at St. Joseph's cemetery.

WIND STORM CAUSED DAMAGE

Marshall, Mich., June 8.—Special.—Last night a thunder storm coupled with a heavy wind caused the power company to cease operations for six hours. The farm house owned by A. E. Scribner was burned with a loss of \$280.

CHANGES ARE IMPROVEMENT

New specialties and new songs marked the change in the bill at Ben's theater last night when another large audience was attracted to that amusement place.

While the bill that was offered at the opening performances of the engagement was up to the standard it is believed that with the changes instituted last night that an improvement in the attractive features of the program is offered.

The change of bill will remain in force for the remainder of the week.

At the Sunday evening performance it is announced by Manager Saliowsky that a 100 piece dinner set will be given away to the holder of the lucky number. Tickets on the dinner set will be given away at the theater at each performance and in order to participate in the result of the drawing all ticket holders must be in the theater on Sunday evening.

STIKERS AND MILITIA CLASH

Indianapolis, Ind., June 8.—Special.—In a clash between the state constabulary and the strikers early today two strikers were killed and several wounded. The affair occurred at Ernest

SPELLS DOOM FOR KEROSENE

Removal of Tax From Alcohol is Claimed will be Boon to People as a Whole.

It having become generally known that the so-called free alcohol law is assured, members of congress are besieged by their constituents with inquiries as to its workings.

Consumers have been paying around \$2.40 per gallon for grain alcohol, and from 70 cents to \$1.50 per gallon for wood alcohol—a greatly inferior substitute—hence 80 or even 50-cent alcohol means a tremendous benefit to them. In view of this, it is altogether likely that the regulations will provide for the use of a larger percentage of wood alcohol as a denaturant in all alcohol intended for manufacturing purposes, as the question of increased cost would not be in any wise prohibitive.

The question of supplying farmers and other consumers of alcohol for light, power and fuel, in competition with gasoline and kerosene, is a very close one, and the great work in bringing about this legislation has been to protect the interests of such people.

So far as can be ascertained at this time, the regulations of the commissioner will provide for the licensing of distilleries with a daily capacity of 100 bushels of grain, or about 250 gallons of commercial alcohol. Under the law and the regulations the small distillery will be on all fours with the large one.

It would seem that under working of the law distilleries could be established at numerous points in Michigan which would easily compete with the big distilleries of Illinois and Indiana, as well as the molasses distilleries of the far east and the gulf coast, as the country distillery would be in the midst of the raw material and the consumers. The slops and mash from the stills make cheap food and forage to complete the rations for the cattle and hogs.

Whether alcohol can be made in small quantities locally is more or less problematical and remains to be demonstrated. There are over 6,000 farm distilleries in Germany making denatured alcohol for fuel light and power. It seems certain, if the price is high, alcohol can be made locally and great benefit will accrue; if low, the benefit will come to the people as consumers, while possibly it may work benefit to farmers both "going and coming." A great deal will depend upon the regulations governing the amount of denaturing material as this directly affects the cost. In order that congress might have the full benefit of the experience of other countries, Mr. Hill of Connecticut urged the president to send Commissioner Yerkes to Europe to investigate the workings of the law there and the president has consented to do so. Mr. Yerkes will leave about the 1st of July.

This country last year consumed over 500,000,000 gallons of kerosene, and over 200,000,000 gallons of gasoline a total of 800,000,000. The demand is increasing beyond the supply. During the last five years the supply of kerosene increased 9.6 per cent, while the price increased 23 1-2 per cent; the supply of gasoline increased 23 1-2 per cent and the price increased 33 1-3 per cent, and a greater increase will certainly come in the future.

In 1880, when alcohol was free of tax in this country, the consumption for industrial purposes was one gallon per capita. This was before the date of internal combustion engines and automobiles and motor boats. Today, there are 300,000 such engines in use in the United States, and we are manufacturing 100,000 annually. Under these new conditions, with the present prosperous times, the consumption in a few years should reach 200,000,000 annually in the opinion of the experts.

The greater benefit to the producers will be as a price regulator. There will be no more burning of corn in Kansas, and no more potatoes in vast quantities in Michigan allowed to rot in the ground. When raw material is cheap it can be made into alcohol and stored. A uniform price, giving living profits each year to farmers is much to be desired, and is a much safer proposition than a high price this year and a losing price next year.

Undoubtedly the first direct benefit that will come to the whole mass of the people will be in the use of alcohol for lighting purposes.

CLOTHING TORN FROM HIS BODY

Employe at Gladstone Lath Mill had a Narrow Escape From Death.

While at work at the North Western Co. at Gladstone, John Mattson, an employe, was severely injured being whirled about a rapidly revolving shaft until his clothing was completely torn from his body.

On examination it was found that he had sustained a broken shoulder blade together with numerous bruises about the body. While the condition of the injured man is serious it is believed that he will recover.

Mattson was starting a machine in the lath mill of the plant when his clothing was caught in a revolving shaft. It was lifted from his feet and whirled about several times before his clothing gave way and he was thrown to the floor several feet away.

Several employes at the plant saw the accident and that Mattson was not instantly killed is considered to be miraculous.

BRAKEMAN WAS HIT BY CAR

George Eastwood Sustained Injury While Cutting off Baggage Car in North-Western Yards.

While engaged in uncoupling a baggage car from an engine in the yards of the North-Western road shortly after 10 o'clock last night George Eastwood, a brakeman, and one of the best known young men of Escanaba, received serious injuries about the head and right shoulder.

He was removed to the home of his parents on South Georgia street in an unconscious condition and up to noon today had not regained consciousness.

At a late hour this afternoon it was said that it might be decided advisable to move the patient to the hospital where an operation would be performed.

Mr. Eastwood had arrived in the city with the regular Iron Mountain passenger train at 10 o'clock last night and on reaching the lower yards, near the round house was engaged in cutting off the baggage car from the engine. He was between the car and tender and had removed the coupling pin when a switch engine backed down on the switch and struck the baggage car. The back of the brakeman's head was struck by the edge of the car and he fell unconscious to the ground at the side of the track.

He was found immediately and when a physician was summoned he was removed to his home.

MEAT MEN TO MOVE PLANTS

Chicago Meat Packers Plan to go Indiana.

Chicago, Ill., June 8.—Special.—The heads of the beef trust learned today that it is probable that Sir Thomas Lipton will start a rival meat company at Gary, Indiana, the new city of the Illinois Steel corporation. It is also reported that at least six Chicago concerns will be removed to Indiana and plans have been made for a canal six miles long to the Little Calumet river to carry off the refuse.

WINNINGER BROS. COMPANY GOOD

In the amusement profession as in all other vocations, originality and bonny taste precede in the race for success and supremacy. The imitator is always outdistanced. Above competition, occupying a place by itself, Winninger Bros. Own company, has elevated the popular price amusement to the plains of the higher price attractions, and is recognized as one of the best in their line.

Winninger Bros. have never experienced a losing season, violated a financial obligation or in any way imposed upon their patrons, the amusement loving public.

This record speaks for itself and is a lasting guarantee. In organizing their attraction this season, they have outdistanced all would be competitors. A line of plays never before presented at popular prices and equal to the best "One Night" stands, a clever line of vaudeville novelties between the acts, accomplished players in every part and a band and orchestra are the features. At the Peterson opera house 8 nights and Saturday matinee commencing Sunday June 10.

"What a difference there is in beer," said a man who had just enjoyed glass of Escanaba beer. Order today. Escanaba Brewing Co. phone 151.

W. P. Stewart, Official in Charge

Whoever may be persuaded to accept the Democrat nomination for governor this year will entirely lack the support of the many traveling men which was given to Prof. Ferris two years ago. The traveling men who opposed the Republican candidate through the last state campaign had been persuaded that he would be subject to railroad dictation and low control. Many of them became convinced before election day that the charges were false ones, and there is now not a traveling man in Michigan who does not admire Fred M. Warner for his good work in their behalf in direct opposition to the very influences some of them feared would control him.

Whatever other explanations may be made use by those who are doubtful with the problem, there is no doubt but that the real reason why it is now so hard to persuade acceptable persons to take places on the Democrat ticket, is that there is no good reason why that ticket should receive any support this year not given it by Democrats of the extreme hard shell type. If Governor Warner had not more than redeemed his pledge of good service, if he had not through his official course and by many definite acts fully disproven all of the campaign charges against him, and if there remained a single good reason why any Republican should vote against him, the nomination for governor on the Democrat ticket would not be regarded with the disfavor now indicated.

The fair trial which Michigan Republicans are everywhere inclined to give to the primary nominating system can not be given if the primary election duties of next Tuesday, June 12, are neglected or forgotten. Decision must be made next Tuesday, by ballot, for or against the nomination of state and county and district candidates at primary elections. Every voter's opinion and desire should be expressed on this question.

REPUBLICAN COUNTY CONVENTION.

A convention of the Republican delegates of Delta county, to be elected in the several wards and townships of the county at the primary election to be held on the twelfth day of June 1906, is hereby called to meet at the court house in the city of Escanaba in said county, on Monday the eighteenth day of June 1906 at 11 o'clock in the forenoon for the purpose of electing ten delegates to attend the state convention, hereafter to be called, for the nomination of state officers.

DR. PRICE'S Cream Baking Powder

Good Health depends upon the food you eat.

Adds to the healthfulness of all risen flour-foods, while it makes the food lighter, sweeter, finer-flavored, more delicious. Exercise care in purchasing baking powder to see that you get Dr. Price's, which makes the food more wholesome and at the same time more palatable.

NOTE—There are many mixtures, made in imitation of good baking powders, which the prudent will avoid. They may be known by their price, being sold for ten to twenty-five cents a pound, or a cent an ounce. They are made with alum, interfere with the healthfulness of the food.

The several wards in the cities of Escanaba and Gladstone and the townships of the county are entitled to delegates in the convention based on the vote for governor at the general election held in November 1904 as follows:

| Townships | Delegates |
|-------------|-----------|
| Baldwin | 1 |
| Bark River | 2 |
| Bay de Noc | 1 |
| Brampton | 1 |
| Cornell | 1 |
| Escanaba | 1 |
| Fairbanks | 1 |
| Ford River | 2 |
| Garden | 2 |
| Maple Ridge | 1 |
| Masonville | 2 |
| Nahma | 2 |
| Wells | 2 |

WINNIEGERS BROTHERS Their Own Company, Band and Orchestra Will Open a Week's Engagement at Peterson's Opera House Sunday Evening, June 10th

TEAM GOES TO STURGEON BAY

Escanaba Players will Accompany Light Guard Excursion to Lower Green Bay Port on Sunday.

Many people of the city will take part in the excursion that has been arranged by the Escanaba Light Guard from Gladstone and Escanaba to Sturgeon Bay on Sunday. The steamer Maywood has been chartered by the officers of the guard, for the occasion and will leave Gladstone at 7 o'clock on Sunday morning and leaving Escanaba at 8 o'clock for the lower Green Bay port.

The West Virginia Federation of Labor, in annual convention at Wheeling recently, passed resolutions giving permission to delegates to enter politics and to have committees appointed to investigate the standing of all political candidates on labor issues.

George E. McNeil, who died in Boston recently, was the first head of the Knights of Labor and in his day one of the best-known labor leaders in America.

Labor Commissioner McLeod of Michigan has announced that he will strictly enforce the law prohibiting children under 16 years to work in factories.

UNIQUE EVENT TO DRAW MANY

Tour Around the World will be Given Tonight by Mission Circle of First Presbyterian Church.

Tonight will be marked by the carrying out of one of the most unique entertainment plans that have ever been attempted by any organization in Escanaba.

By arranging a "Tour Around the World" in which five foreign countries and the national capital will be represented, the Mission Circle of the First Presbyterian church has set a new mark for other organizations to follow, and it is believed have planned an event which will attract a great crowd of interested people.

From 7:30 o'clock tonight, when the first "train" will carry its first load of "tourists" out of the central station at 617 Ludington street, until a late hour, it is believed that the facilities that have been arranged to care for the crowds will be severely taxed.

A regular schedule for the "trains" in carrying the passengers from the central station and from one country to another, has been planned to prevent delays at any point and if the schedule does not miscarry the tourists will be kept on the move, with the exception of the regular stops provided for at each station, from the time they leave the central station until they are delivered at the First Presbyterian church where a reception will be held.

After leaving the central station the tourists will be taken directly to Paris which will be represented at the home of Mrs. C. M. Thatcher. From Paris the visitors will proceed to Germany, which country will be represented at the home of Mrs. C. A. Cram. A visit to Ireland is next on the schedule with that country represented at the home of Mrs. Edward Erickson.

From Ireland the tourists will move to Scotland, represented at the home of Mrs. H. H. Allyn. A brief visit to Japan, represented at the home of Mrs. Ole Erickson will next be in order and following the stop at that station the tourists will be delivered at Washington, represented at the home of Mrs. S. H. Seldin. The tour of regular stations will then be completed but the visitors will proceed to the First Presbyterian church where a reception committee will be in waiting and at 10 o'clock a musical and literary program will be given.

Every detail for the event has been fixed and all that is now hoped for is favorable weather conditions in order that all plans can be carried out.

For any pain, from top to toe, from any cause, apply Dr. Thomas' Electric Oil. Pain can't stay where it is used.

BOSTON EXCURSIONS VIA THE WABASH. The Wabash will sell excursion tickets to Boston, May 31 to June 9, via Niagara Falls and direct line, via Montreal or via New York, at one fare plus \$1.00 for the round trip. Extended return limit July 15 1906. Write for printed matter and full details. F. H. Trisram, Ass't. Gen. Pass. Agent, 97 Adams St., Chicago, Ill., 5-91.

Very Low Rates to Boston, Mass. Via the North-Western Line, for tickets to be sold June 2, 3, and 4, with favorable return limits, on account of American Medical Association Meeting. Apply to agents Chicago & North-Western R'y. 6-4.

WINNIEGERS BROTHERS Their Own Company, Band and Orchestra Will Open a Week's Engagement at Peterson's Opera House Sunday Evening, June 10th

TEAM GOES TO STURGEON BAY

Escanaba Players will Accompany Light Guard Excursion to Lower Green Bay Port on Sunday.

Many people of the city will take part in the excursion that has been arranged by the Escanaba Light Guard from Gladstone and Escanaba to Sturgeon Bay on Sunday. The steamer Maywood has been chartered by the officers of the guard, for the occasion and will leave Gladstone at 7 o'clock on Sunday morning and leaving Escanaba at 8 o'clock for the lower Green Bay port.

Members of the Escanaba baseball team, especially strengthened for the contest, will accompany the guard and on Sunday afternoon will meet the Sturgeon Bay team in that city.

Sturgeon Bay claims to support one of the fastest baseball teams boasted by any Green Bay port and the meeting between that team and the Escanaba players will be full of interest.

Nolden and McDonald, Escanaba's two fast twirlers will accompany the team and will alternate in the pitcher's box while other positions on the team will be filled by the best players that Escanaba has produced.

By leaving Escanaba at 8 o'clock on Saturday morning the Maywood will deliver its passengers at Sturgeon Bay early in the forenoon and the entire afternoon will thus be offered the visitors at that port.

Both on the trip to Sturgeon Bay and on the return trip the Maywood will stop at Menominee, giving people of Escanaba an excellent opportunity to visit with friends in the twin cities and returning with the boat in the evening.

The excursion to Sturgeon Bay on Sunday is the first outing that has been arranged this year from this city to an outside port and with the interest that has been aroused it is expected that nearly a capacity load will be carried by the Maywood.

Three Physicians Treated him Without Success.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Kentucky treated me without success. I then took Foley's Kidney Cure. The first bottle gave immediate relief, and three bottles cured me permanently. I gladly recommend this wonderful remedy." Ellsworth's Drug Store.

KNIGHTS OF GRIP MEET IN LACROSSE

Lacrosse, Wis., June 8.—Special.—The annual state convention of the United Commercial Travelers met here today. Grand Counselor Maynard of Oshkosh presiding. There were present when the gavel fell for order several hundred delegates, who are accompanied by many other visitors. The city is decorated and given over to the travelers, who will remain here until Sunday. The initial session was devoted to the exercises of welcome. The annual reports show the affairs of the order to be in a satisfactory condition.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lax liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

NOTES FROM LABOR WORLD

The first union clubbers to be built by a labor organization in Chicago for the use of its members will be erected shortly by the Chicago Federation of Musicians. The players' home as projected will cost \$100,000.

The recent biennial convention of the Commercial Telegraphers' Union of America held in Cincinnati was one of the most successful and profitable gatherings in the history of the organization. Among other things the convention inaugurated a mutual benefit department. The former officers were re-elected and Milwaukee was selected as the meeting place of the next biennial.

In no state of the Union is the agitation against child labor more pronounced at the present time than in Maryland. It has taken hold of all classes and extended to all parts of the state.

Under Lord Stanley, Conservative postmaster general of the Balfour Ministry, the employees of the British postoffice department were not allowed to organize in labor unions, but under the new ministry they are accorded full right to form unions for the betterment of their condition and wages and to confer with the postmaster general through delegates from their various unions.

It is reported that John Mitchell, president of the United Mine Workers, will soon resign that position to enter the law office of Clarence Darrow in Chicago. President Mitchell has studied law and been admitted to the bar.

The International American Foundry men's association held its eleventh annual convention at Cleveland this week with an attendance of several hundred delegates.

George E. McNeil, who died in Boston recently, was the first head of the Knights of Labor and in his day one of the best-known labor leaders in America.

Labor Commissioner McLeod of Michigan has announced that he will strictly enforce the law prohibiting children under 16 years to work in factories.

FOLEY'S KIDNEY CURE

Will positively cure any case of Kidney or Bladder disease not beyond the reach of medicine. No medicine can do more.

FOLEY'S KIDNEY CURE

strengthens the urinary organs, builds up the kidneys and invigorates the whole system.

IT IS GUARANTEED

TWO SIZES 50c and \$1.00

Passed Stone and Gravel With Excruciating Pains

A. H. Thurnes, Mgr. Willis Creek Coal Co., Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pains. Other medicines only gave relief. After taking FOLEY'S KIDNEY CURE the result was surprising. A few doses started the brick dust, like fine stones, etc., and now I have no pain across my kidneys and I feel like a new man. FOLEY'S KIDNEY CURE has done me \$1,000 worth of good."

No Other Remedy Can Compare With It

Thos. W. Carter, of Ashboro, N. C., had Kidney Trouble and one bottle of FOLEY'S KIDNEY CURE effected a perfect cure, and he says there is no remedy that will compare with it.

GETS LETTER FROM FERRIS

Democratic Candidate For Governor Urges Members of Party to Vote on June 12.

Saginaw, Mich., June 8.—Special.—John T. Winship, chairman of the Democratic state central committee, today received a letter from Woodbridge N. Ferris of Big Rapids, in which Mr. Ferris urged all Democrats to vote "yes" on the question of direct nomination to be submitted at the June 12 election. Mr. Ferris briefly characterizes the present primary law: "For features that are dark it is without a parallel in machine legislation, and framed by those openly opposed to its principles."

No direct reference is made to Mr. Ferris's position as regards the governorship, but there is a significant paragraph which is taken by some people to indicate that with strong endorsement at the polls at the coming election Mr. Ferris will, as a patriotic citizen, feel it his duty to be his party's standard-bearer.

Chairman Winship was asked if he did not construe Mr. Ferris's letter as indicating his willingness to serve if called upon, or if he had any statement or intended to prepare any statement.

His reply was to the effect that Mr. Ferris was a master of plain speech, that the letter spoke for itself and that he, the chairman, had only one request to make of the enrolled Democrats of Michigan and that was to go to the polls June 12 and vote for Mr. Ferris and also to endorse direct nominations by voting "yes."

TELEPHONE IS TABOOED

Dayton, O., June 8.—Special.—The annual convention of the Old German Baptists, commonly known as Dan-kards, closed today. The rite of foot-washing was observed in the usual manner. Several hundred people not members of the order witnessed the exercises.

At the business session it was almost unanimously decided that telephones and automobiles should be let alone. A query regarding the use of traction cars, however, met with sympathy, and this mode of travel may be used. It was reported that the old German congregation now numbers over 5,000 in Ohio, Indiana and Pennsylvania. The next convention will be held in California.

COMPLAINTS ARE MANY

State Tax Commission Hear From Objecting Property Owners in All Parts of State.

Lansing, Mich., June 8.—Special.—The state tax commission will probably be very busy in the near future as complaint from taxpayers as to the assessments in various counties are coming in rapidly.

Though the various county boards of review did not complete their work until June 1 nine complainants asking the tax commission to investigate the assessments in as many counties have already been received.

Probably the most interesting complaint is that from Brimmer, Geogebie Co., where several large iron mines are located. City Attorney Rice and Supt. Green and Liegviel ask the commission to come there and investigate their assessments.

The tickets say that the Tilden mine, belonging to the steel trust, was raised from \$384,000 to \$1,400,000 in 1900, when the tax commission reviewed the assessment at that place, but since then the local authorities have dropped the re-valuation of this mine to \$275,000, while the personal assessment has been dropped from \$300,000 to \$210,000.

The Palmis mine, belonging to the Schlesinger syndicate, of Milwaukee, has been dropped from \$75,000 in 1900 on real estate to \$12,000. The personal assessment on this mine, so the complaint says, has been dropped from \$70,000 in 1900 to \$4,500 in 1906. All this drop is a face of a distinct boom in the iron business.

The tax commission held a meeting today and decided to go to the upper peninsula where they will probably investigate this complaint, and they also will visit the other iron districts in that part of the state.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

RUSH CAUSES MUCH WORRY

The rush of orders for new ships, following upon three years of unprecedented building, is causing a general feeling of uneasiness among vessel men. President Wallace of the American Shipbuilding company of Cleveland has returned from Duluth, where he closed a contract with a syndicate of Superior and Marquette people for a 7,500 ton steamer for delivery in 1907. The new boat will be 440 feet over all, 420 feet keel, 32 feet beam, and 28 feet deep. It will have triple expansion engines and Scotch boilers. The cost will be \$300,000. This is the fourth order placed with the company in a week, and at this pace it will not be long before all the berths for the year will be filled.

It tones and vitalizes the entire system and makes life worth living no matter what your station. Hollister's Rocky Mountain Tea is the greatest preventive known for all diseases. 35 cents, Tea or Tablets.—Hill Drug Co. both stores.

GIRLS LONG ON THE LOOKS

Chicago, June 8.—Special.—On the question of whether or not two Chicago young women are good looking may depend their getting positions in the city civil service system.

Miss Josephine R. Korten, of No. 6722 Union avenue, and Miss Valerie D. Oberstein, of No. 5461 Cornell avenue, have passed the examination for assistant chemists in the city laboratory, but Chief Chemist Jones objects to good-looking women.

"The men would spend too much time talking to them," he said. Health Commissioner Whalen probably will have to decide the question.

There's little room in this great world of ours for the "Fat Woman." She's a hindrance to herself in street cars, flats, elevators; but what can she do, poor thing—take Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets.—Hill Drug Co. both stores.

TO SAFEGUARD AGAINST REDS

Bomb Outrage in Madrid Arouses Nations and International Action may be Taken.

Washington, D. C., June 8.—Special.—The bomb outrage in Madrid last week, which came near taking the lives of King Alfonso and his bride, has again aroused the nations to the necessity of co-operating in measures for the extirpation of anarchism. It is learned from a trustworthy source that the United States will probably take the initiative in a movement which, if it is carried out, will close the door of every nation to persons professing anarchistic doctrines and enable the extradition as common criminals of anarchists involved in the assassination of or attempts upon the life of a ruler.

It is said that Secretary Root, after conference with the president and with various members of the diplomatic corps in Washington, is considering the advisability of recommending that authority be given the Pan-American congress, which will assemble next month in Rio Janeiro, to consider measures for the suppression of anarchism. Of course the decision of the United States will determine whether the Congress shall take action. Confidence is felt that the South American countries will readily acquiesce in the proposal. Anarchy finds short shrift in South America. The man with the bomb or the bullet faces an unpleasant alternative—deportation or incarceration. The bars are up, not in a single country, but throughout the entire southern half of the western hemisphere. All through South America the anarchist is the object of popular hatred as well as of political repression. If he undertakes to disseminate his creed he is promptly taken into custody, and released only upon agreement to leave the country. More than this, his kind is prevented as far as possible from settling there.

Action by the Pan-American Congress would undoubtedly be followed by an exchange of views by Europe and the Americas which would lead either to an anti-anarchist conference or to an agreement under which all would act along similar lines for the eradication of anarchism. One of the plans proposed is for the institution of an international police surveillance, which would circulate information regarding the movements of followers of anarchism among the several governments for their guidance and action.

Europe has long appreciated the necessity of united international action for the extirpation of anarchism, but because of the absence of constitutional or statutory authorization and of labor conditions in the United States, the Washington government has consistently refrained from joining in any international movement to this end.

The government realizes that the suppression of anarchism is a question which must be handled with the utmost delicacy because of the possibility that action might infringe the rights of the individual. Under the constitution, Congress is prohibited from making any law abridging the freedom of speech or of the press.

Notwithstanding these provisions, however, many leading jurists are of the opinion that Congress has ample authority to enact a law defining anarchism and punishing all advocates or followers of its doctrines.

Smoking in a Powder Magazine.

Is courtling death more suddenly but not more surely than neglecting kidney disorders. Foley's Kidney Cure will cure a slight disorder in a few days and its continued use will cure the most obstinate cases. It has cured many people of Bright's disease and diabetes who were thought to be incurable. If you have kidney or bladder trouble, commence taking Foley's Kidney Cure today, before it is too late. In health, even those die, it is true. Her face was fair & sweet, The secret of her beauty lay, In Rocky Mountain Tea.—Hill Drug Co. both stores.

IS BIRTHPLACE OF ANARCHY

Rome, June 8.—Special.—The infamous and shameful attempt on the lives of King Alfonso and Queen Victoria last week was perhaps heard by no other European country with such sincere sorrow as by Italy, and the feeling was intensified when it was learned that the perpetrator of the outrage was an Italian. The latter fact occasioned little surprise, however, as Italy is the land most productive of anarchists. The peninsula has had during the last twenty-five years the unenviable distinction of providing most of the instruments for so-called political crimes.

But it has been only during the past decade or so that the serious "work" of Italian anarchy has progressed. It began with the murder of President Sadi Carnot by Sante Caserio in 1894. The success of this first "operation" evidently encouraged other anarchists, for their crimes followed each other closely. Lega fired at Crispi, Acciarito tried to stab King Humbert, Angiolini shot dead the Spanish premier, Canovas del Castillo, Lucheni assassinated the Empress of Austria and Brusci killed King Humbert.

It is a remarkable feature of this long and atrocious list that not one of the murderers committed their crimes before having been and lived abroad, where the germs of what is called "individualistic" anarchy are imbedded. But the fact remains that Italy, notwithstanding the kind-heartedness and gentleness of her inhabitants, furnishes the arms which execute the diabolical criminal plans conceived by others. Two reasons are advanced for this. One is that human life is held more cheaply in Italy than in almost any other civilized country. The second reason which is believed to make the Italian a most ready recruit to anarchy is his hereditary leaning toward secret societies.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 W. 3rd st., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years, and if I had taken it at the start I would have been saved years of suffering." Ellsworth's Drug Store.

SPORTSMEN IN BIG MEETING

Buffalo, N. Y., June 8.—Special.—The League of American Sportsmen, which aims to secure more stringent laws for the protection of game, began its eighth annual meeting in this city today with headquarters at the Hotel. Officers of the league were present from Michigan, Oregon, Virginia, Oklahoma, Pennsylvania, California, Illinois, Indiana, Minnesota, Idaho and several other states when the gathering was called to order by the president, G. O. Shields of New York. The meeting will be in session two days. An effort will be made by the league to induce the Southern states to sanction their open seasons for game. Proposed legislation for the prohibition of spring shooting will also be discussed.

HONOR MEMORY OF WAR HEROES

Portsmouth, Va., June 8.—Special.—The handsome monument erected by the Artillery Association of this city in memory of those who fell in the battle of Gettysburg during the war of 1861 was unveiled today with interesting exercises. Civilians and military united with the patriotic societies to make it a gala occasion. Col. William H. Stewart delivered the oration for the day.
