Mary's Little Lamb
was no doubt raised very tenderly, but was no tenderer than the choice lamb that we handle every day. Whether it is Spring lamb or full grown sheep it is the sweetest, juiciest morsel you can obtain in that line. All our meats are selected from reliable sources and are prepared here with a master hand that fits them for the epicure's table.

Willing young man will find steady employment and the best of chances in learning good trade at GUNTER'S.

MIKE GUNTER,
419 Ludington Street.

CONDITIONS WERE IDEAL

Outing Arranged by Escanaba Lodge of Elks Yesterday was Enjoyed by Many People.

Over 300 Escanaba and Gladstone people took part in the excursion arranged by the Escanaba Lodge of Elks on the steamer Maywood to Marinette and Monominee yesterday.

While many excursions have been arranged out of this city by different organizations those who returned from the outing of yesterday pronounced it to have been one of the most enjoyable events of its kind ever given by a lodge of this city.

The weather of yesterday was ideal both for the trip down the bay and the return trip in the evening.

The boat was not overcrowded with passengers and which fact added to the pleasure of the members of the party.

The Maywood left the Stephenson dock shortly after 9 o'clock yesterday morning and arrived at Marinette at 2 o'clock. The greater portion of the excursionists spent the afternoon at Lakeside, Marinette's resort place, and at 7 o'clock the boat left the Marinette dock for the return trip.

Not a wave broke the surface of the water of the bay for the return trip and the temperature was just sufficiently low to make all conditions ideal.

At 11:45 o'clock the passengers were delivered back at the Stephenson dock and the Maywood then left for Gladstone to return the excursionists from that point, to their homes.

Like the excursion the promenade given at Peterson's hall on Saturday evening was a marked success. An especially attractive musical program for the event was furnished by the Third Regiment band of Monominee and the applause from the great crowd of dancers that filled the hall showed their pleasure.

The officials of the Elks' lodge who had charge of the two events are greatly pleased with the result of their efforts as while the amount of money that was cleared from the two undertakings was not large it is believed that both were enjoyed by the people who took part in them.

BONIFAS IS AGAIN NAMED

Contest for Office of Chairman of Delta County Board of Supervisors did not Develop.

A contest for the office of chairman of the Delta county board of supervisors did not develop at the opening session of that body today when Chairman William Bonifas, of Garden township, was selected by a unanimous vote.

Up to today it had been understood that Mayor M. Perron of Escanaba would be a candidate for the position held by the representative of Garden township but this morning it was announced that Mr. Perron had retired in favor of Mr. Bonifas.

When the business of electing a chairman of the board was reached the name of Mr. Bonifas was proposed by Supt. O. E. Youngquist of the Third ward of Escanaba, and no other candidate was entered.

The election of Mr. Bonifas was thus made unanimous. The first session of the members of Delta county's new board of supervisors was opened at 11 o'clock this morning when County Clerk A. P. Smith called the meeting to order and a recess was taken until 2 o'clock this afternoon.

Following the election of a chairman at the afternoon session another recess was taken until 3:30 o'clock to allow the chairman to select the different committees of the board for the year.

MOVING CELLS TO NEW SITE

The two large steel cells owned by the city and recently removed from the old city jail building, at Harrison and Wells avenues, are being moved to the new police station site adjoining the city hall where they will be placed in position before the walls of the new building are constructed.

Work on the building has been suspended by Contractor O. R. Johnson until the cells are delivered at the new site.

Miss Minnie McCas and Miss Della Rossau of Menominee are guests of the Misses Lillian and Caroline Grenier.

SUMMER SCHOOL OPENED TODAY

Nearly Thirty Students Entered in Special Sessions to be Continued for six Weeks.

With an enrollment of nearly 30 students the Escanaba summer school, conducted under the direction of Supt. F. D. Davis, Prof. J. W. Woodhams and Miss Mary Atkins was opened this morning at the Franklin building. Notices have been issued by Supt. Davis to the parents of all pupils in the public schools who were conditioned in any subjects in the final examinations just closed. It is believed that the greater portion of the conditioned students will be enrolled in the summer school in order that they may proceed with their regular classes at the opening of the school year.

The summer school will be continued for six weeks with one session being held on each school day of the week, from 8 o'clock a. m. to 1 p. m.

STOCK COMPANY AGAIN SCORES

Winninger Brothers Company Played to Another Capacity Audience at the Peterson.

Winninger Brothers Stock company of players returned to the Peterson opera house last night for a special one night engagement and again attracted an audience which filled every seat and the aisles of that theater. The Village Comedian was the bill presented last night, with the leading part taken by Frank Winninger who kept the audience in a constant uproar.

All of the members of the company were effective in their parts and the whole production was up to the standard of any that were given during the company's week's engagement recently closed here.

But few traveling stock companies can boast of the popularity with the theater goers of Escanaba that is held by the Winninger Brothers company and the patronage that was given the company last night was but another evidence of the decided hit that had been scored here.

GOOD RACES MARKED MEET

Close Finishes were the Rule at First Race meet of Season at Driving Park.

One of the most successful matinee race meets that have ever been arranged by the Gentlemen's Riding and driving club, of Escanaba, was that held at the Driving park yesterday afternoon.

Ten horses were entered in the three races on the card for the afternoon and in each event close finishes marked the program.

A large crowd of horse race enthusiasts were at the park and cheered lustily, showing their approval of the card arranged.

In the Free for all event, which was one of the most interesting races of the afternoon Briton Boy owned by Sheriff Richard Perron won first place.

In the Class B. event Glenn S. owned by H. W. Cole, of Rapid River, won first place.

In the class C. event Little Ned, owned by E. E. Wood, was the winner. The next race met will be held by the club on July 3.

PNEUMONIA WAS FATAL

After a short illness from pneumonia Lillian Seidel, the 23 months old daughter of Mr. and Mrs. Andrew Seidel, died at noon today at the home of the family at 131C Hale street.

Funeral services will be held at 2 o'clock on Wednesday afternoon at St. Joseph's church the Rev. Father Eusebius officiating. Interment will be at St. Joseph's cemetery.

Cleanliness is the first law of beauty; also the second and third. No matter what your complexion is, Hollister's Rocky Mountain Tea will cure them. 35 c. in 5. Tea or Table salt. -Hull Drug Co., both stores.

HAPPY HOOLIGAN WILL RETURN

Strong Farce Comedy to be Given at Ben's Theatre Next Sunday Evening.

The plot of "Hooligan's Troubles," the musical farce comedy that returns to Ben's theater next Sunday concerns the attempt of an elderly suitor to win a young and beautiful heiress. He induces "Happy Hooligan" to assume the clothes and character of an English nobleman and he makes love successfully to the young girl's aunt, an elderly spinster. Then the old man, who is also the girl's guardian, finds the spinster has a still larger fortune. But "Happy" has made good with his opportunity and it is only when he loses his clothes in a bath house at the sea shore that the fraud is exposed and the spinster is won by the wealth designing many. "Happy" takes to a sugar barrel as the latest thing in wearing apparel.

Late songs hits, jingling musical numbers, pretty girls, dances and specialties are all features of this musical farce comedy. Happy appears on the stage in a condensation of the cartoons that have made his name famous and his humor is quite as contagious as that of the comic supplements. The part is played by Billie A. Ward, a comedian of considerable repute.

Skillfully arranged confusion is the secret in the writing of a successful farce. It is only essential that the contrivance shall contain original ideas and that the situations which lead to them have the quality of newness. This describes in brief the success of "Hooligan's Troubles." It is bright and ingenious leaving no disagreeable after thought. It is full of honest merriment and ludicrous complications. Pretty girls add to Hooligan's troubles and the company ranks as one of the best in the profession.

HOYLER WON'T SELL PROPERTY

Purchaser of East Half of Tilden Block says he has no Intention of Selling to City.

Richard Hoyler, who last week purchased the east half of the Tilden house block from the Proprietor's Realty company, announced today that he would not sell the property to the city of Escanaba as had been said at a meeting of the city council held on Friday evening.

It was announced by Mr. Hoyler that he had spoken to Mayor Perron concerning the purchase of the property several weeks ago but that he had not agreed to sell to the city since actually obtaining possession of it.

The new owner of the property says that he intends to construct a residence on one of the lots and the remaining portion of the half block will be divided into lots and sold to individual purchasers.

COMMON DRUNKARD HELD FOR TRIAL

Alfred W. Scott, of Gladstone charged with being a common drunkard is confined at the county jail awaiting the coming July term of circuit court when he will be arraigned before Judge Stone.

Scott has twice before been arrested on the same charge and when arraigned before Judge Frederick Huber of Gladstone for the third time he was held for trial in the circuit court.

Edward Murphy, also charged with being drunk and disorderly, was sentenced by Judge Huber to 30 days in the county jail.

MAYOR PERRON FOUND MONEY

Mayor M. Perron did not lose \$107 as was stated on Saturday. The mayor simply thought that he had lost that amount of money and had charged it up to the account of profit and loss through negligence, and had marked it as a practice to be guarded against in the future, when the missing roll of bills was found on his person.

The bills, which had been carried in the small watch pocket of his trousers, had worked out of the pocket and were held inside his vest until he removed his clothing on Friday night when the missing money dropped out.

Try a Mirror Want Ad.

THE CONTRACT IS AWARDED

William Denniston will Remodel St. Paul's German Lutheran Church.

The contract for remodeling St. Paul's German Lutheran church at Jennie and Jacob streets, where extensive improvement plans are to be carried out has been awarded to Contractor William Denniston.

The bid for carrying out the proposed work presented by Mr. Denniston was \$1167 which was the lowest proposal submitted. Mr. Denniston will begin work on the building within two weeks and will complete it within 90 days.

Several proposals for the work were submitted by different contractors of the city.

RAPID RIVER BEAT RICHTERS

Escanaba Players were Defeated by Combination of two Upper Bay Teams Yesterday Afternoon.

The Richter Brewing company's team was defeated in a game of base ball at Rapid River yesterday by the team of that place and the 5 best men they could pick up from Gladstone.

Up to the seventh inning the score stood 0 to 0 but by the aid of what were considered unfair decisions from the umpire the upper bay players scored continually until the end of the game, when the score stood 8 to 0 in favor of the Rapid River.

The features of the game were McDonald's pitching and Walsh's catching for the Richter team, McDonald striking out 13 men. Walsh played an excellent game behind the bat catching his man at second every time, and also touched up the opposing pitcher for a three base hit.

CONVENTION ROW IS CALLED OFF

Arthur Hill has abandoned his propaganda for the nomination of a candidate for United States senator in the Republican state convention. He made the announcement after conferring all day with his friends and advisers from the various parts of the state where he has secured a foothold. This means that the only real work now before the convention is the adoption of a set of resolutions and the nomination of a new candidate for superintendent of public instruction.

In a statement Mr. Hill said, "If the state committee had inserted the nomination of a candidate in the call of the convention, or if the people had demonstrated on primary day that they sincerely wished to keep the nomination of all their higher officers and representatives in their own hands, there would be no reason for changing my policy at this time, but it must be admitted that the apparent indifference of the rank and file of the party as judged by the volume of ballots June 12 was a disappointment as compared with the demands of the people for direct nominations in the past."

START CLASS FOR TEACHERS HELD FUNERAL THIS MORNING

Announcement was made today that the regular class for teachers at the Escanaba summer school, which was opened today will be organized on next Monday morning and will be continued through the remainder of the year. By that time all of those who took the teachers examination of last year will have been informed whether or not they will be awarded certificates and those who have failed will be able to prepare for the August examination through the aid of the summer school.

MARINE NOTES OF LOCAL PORT

Following are the arrivals at the docks: Str. Majestic, Str. Volunteer, Str. Charles, A. Eddy, Str. Uranus, Str. Meridia, Str. Powell Stackhouse Clearances: Str. J. B. Cowle, sch. Parsley, Str. G. Kerr, Str. Scranton, Str. Nyanza, Str. Falcon, Str. Gladstone.

COMMITTEES WILL MEET

Much Important Business will be Transacted by men in Charge of Celebration Tonight.

What will probably be the final general meeting of the regular and special committee in charge of Escanaba's Fourth of July demonstration will be held at the city hall at 8 o'clock tonight.

Because of the importance of the business to be transacted Chairman Joseph Wickert and Secretary E. E. Wood have urged every member of every committee to attend the meeting.

Final details for the full program of the day will be settled tonight and in addition the two special features, that will characterize the program will be decided upon.

Secretary Wood has a list of four special "thrillers" to submit to the members of the committee and it will be decided by them which shall be accepted.

If all of the business that is scheduled to be transacted tonight is carried out it is not thought that it will be necessary to hold another general meeting before the celebration.

OLD RESIDENT FOUND DEAD

Joseph L. Moser Stricken With Apoplexy at Home in Danforth Settlement.

After dying suddenly from a stroke of apoplexy some time during Saturday night the body of Joseph L. Moser, who lived alone at his farm at the Danforth settlement and was one of the earliest settlers in that district, was found shortly after noon yesterday. The body was found by Mrs. Moser, who conducts a store at North Escanaba and who went to the home to visit with her husband yesterday and found him lying dead in the house.

A physician was called and it was found that death had evidently come several hours before. A lighted lamp stood upon a table in the room where the body lay and from the position of the body it is believed that he was preparing to retire for the night when he was stricken.

The body was removed to the undertaking rooms of D. A. Oliver where it was prepared for burial today.

An investigation of the death of Mr. Moser was made by the coroner and after the testimony of Mrs. Moser had been heard today a verdict of death from apoplexy was returned.

Up to late this afternoon definite arrangements for the funeral had not been made.

Mr. Moser was 77 years of age and had lived continuously in Delta county since 1876 when he settled on a farm in the Danforth settlement and where he had made his home almost continuously since that time.

He was born in Germany and came to the United States when a young man and stopped for a short time at several upper peninsula points before settling in Delta county.

He was well known to many of the old residents of the county to whom the announcement of his sudden death will come as a shock.

Mr. Moser is survived by a wife and one son, E. L. Moser of Marquette.

HELD FUNERAL THIS MORNING

Especially impressive were the funeral services held over the body of Mrs. Mary Hamacher, one of the pioneer residents of Escanaba who died at her home on Friday morning, at St. Joseph's church at 9 o'clock this morning.

Solemn requiem high mass was celebrated by the Rev. Father Langner of Negaunee assisted by the Rev. Father Barth of Stephenson, the Rev. Father Menard of St. Ann's church and the Rev. Father Eusebius of St. Joseph's church.

The sermon was delivered by the Rev. Father Barth and in which he paid many high compliments to the character of Mrs. Hamacher. Interment was at St. Joseph's cemetery.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

Generally Fair tonight and Tuesday.

LOCAL DATA.

Highest temperature, yesterday, 77° above zero; lowest temperature this a. m. 58° above; precipitation for last 24 hours, 0.

W. P. Stewart,
 Official in Charge

Detroit is in need of more working men. The very highest wages ever paid there since the Indians surrendered to the white men, are being paid now, but there is work for all who will take it and more men are needed; more than a thousand more, the newspapers of that city say. This situation may be embarrassing to the business managers of the great industries of Michigan's metropolis but it is not bad for the workmen. There was a time, not longer than the memories of many Detroit working men will include, that more than a thousand men were out of employment, and those who were employed were getting about half the wages they now receive. It is not necessary to insist that the happy change in conditions is due to changes in national policies as compared with the other years in mind but it will be well if such related facts are kept in mind.

It has been estimated that the increase in the cost of a pair of shoes by reason of the tariff on leather, is from two to seven cents. The effort to save seven cents a pair on shoes through a revision of present tariff rates would probably be the most expensive move the history of such efforts has ever known. Under present arrangements the shoes are made here, the wages for their making are paid here, much of the leather is produced here, and the entire transaction is one of home gain and home profit.

It is interesting to take note of the fact in connection with an evident desire on the part of the Democrat party to load its guns again with ammunition once exploded, that the money circulation of the United States is greater for each man, woman and child, than ever before since this government was established, and the rate of interest paid by the government is lower than that ever paid by any other nation. There is good material in these facts to dispense of whole columns of glittering generalities.

U. P. RETURNS GIVE SURPRISE

Primary election returns from the upper peninsula are something of a surprise. It had been represented that there was little sentiment in the northern counties for direct nominations, but the returns received indicate a large total vote and majorities for the adoption of the law. Marquette county cast 1,082 votes for direct nominations and 221 against. Schoolcraft, a sparsely settled county, polled 508 Republican votes for the principle, to 146 against it.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

SOO LINE

Very low round trip rates East and West. Good returning September 30th. Inquire of W. D. HUGHES, Agent.

DEMS ARE LEFT IN THE LURCH

Withdrawal of Ferris From Gubernatorial Campaign Leaves Party in Peculiar Position.

Although they do not say so in plain language, it is evident that most Democrats feel that Prof. Ferris has left the party in a lurch. Few of them care to discuss specific candidates, and the general sentiment is that it would be best to allow the state convention on August 2 to determine who should be the leader.

Under present circumstances it is no trouble at all to be a candidate, and as a score of names are being mentioned. Detroit is honored with three, William C. Maybury, Alfred Lucking and J. L. Hudson not one of whom would consent to be a candidate. Mr. Maybury has the mayoralty, the only office that could tempt Mr. Lucking is another term in congress while Mr. Hudson is too thoroughly occupied with business matters.

"This thing has come upon us so suddenly," said Mr. Maybury last evening, "that it is best to wait awhile. There will be no trouble in nominating a strong man. But we have had no right to do so, but we all supposed that Prof. Ferris would make the run again, and no one else has been thought of. Now the problem confronts us and we will meet it as we always have done."

George F. Monaghan, who is a member of the state central committee, has no choice, and he also takes the view that the convention will have no difficulty in selecting a successor to Prof. Ferris.

Through the state there are any number of candidates in addition to Charles H. Kimmerle, of Cassopolis, and Lawton T. Hamans, of Mason. The list includes Editor James W. Helms, of the Patron, the farmers' organ; E. O. Wood, of Flint; G. P. Hummer, of Holland, and former Mayor Sweet, of Grand Rapids. New names are popping up every day.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Silent disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Ellsworth's Drug Store.

MACK'S NERVE STILL GOOD

"I'll stay in this jail until I rot, before I will give up \$100 for a fine," declared John Mack, the suit club tailor, when asked by the Mining Journal if he intended to pay his fine. "You can tell 'em that the fellows who are responsible for my jail sentence will never get their clothes, if I can help it. They had a fair chance to let me off and give me a chance to take measures and perform my part of the contract, but they wouldn't do it, so they'll have to stand for not getting their suits."

Mack is reconciled to jail life, and is apparently satisfied to stay the sixty day period for which he was sentenced. He shuddered when a fellow prisoner communicated to him the sheriff's intention to have all short time prisoners on the jail wood pile beginning next week, sawing and splitting the winter supply. Mack is not on good terms with hard work, his hands bearing evidence of never having made the acquaintance of a cross cut saw or a shovel. He will probably have a chance to see what he can do with hard work before he leaves the jail.

Smoking in a Powder Magazine. Is courting death more suddenly but not more surely than neglecting kidney disorders. Foley's Kidney Cure will cure a slight disorder in a few days and its continued use will cure the most obstinate cases. It has cured many people of Bright's disease and diabetes who were thought to be incurable. If you have kidney or bladder trouble, commence taking Foley's Kidney Cure today, before it is too late. Ellsworth's Drug Store.

Water Consumers Take Notice. That all water services now due remaining unpaid after June 30th will be discontinued. By order of the Auditor of Water Co.

FOLLOW LEAD OF THE KNIGHTS

Ladies of the Modern Maccabees also Adopt Flat Rate Plan of Insurance.

The most important of all conventions in the history of the Ladies of the Modern Maccabees closed last week at Port Huron after having accomplished much important legislative work.

It has practically changed the system of operations in the insurance branch from the "assessment as needed" plan to one based on scientific mortality tables. The new system follows closely along the lines of the changes made by the Knights of the Modern Maccabees at their Ludington convention and creates two classes of members, one composed of those members who desire to continue under the old assessment system and the other paying a regular monthly rating, based on the fraternal congress mortality experience table and remaining level during a certain term or during whole life period according to selection. Present members have the option of transferring to the new plan if they desire the new members may select either plan.

The change was adopted after and ladies had been thoroughly instructed in the condition of the organization under its present plan by Actuary Abb Landis and been shown the inadequacy of the present rates.

Another change effected is in the method of representation to future conventions. The district plan was adopted and future representation will be on basis of one delegate for each 200 members. Delegates will be elected at district conventions, districts being composed of one or more counties, according to membership. This will materially reduce the membership in the great hive convention and make that body less unwieldy.

The services of the executive officers were given deserved recognition by increases of salaries as follows: Great commander, raised from \$2,000 to \$2,500; great record keeper, from \$2,000 to \$2,500; great finance keeper, from \$1,500 to \$1,500; auditors from \$500 to \$500.

Port Huron was selected as the permanent headquarters of the order, the offices to be removed from Ann Arbor during the coming month. The ladies will occupy the entire second floor of the new Modern Maccabee temple. Toledo was selected as the place for holding the next biennial review.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulators act gently and cure constipation. 25 cents. Ask your druggist.

MORGAN MAKES ANOTHER RECORD

With a record cargo for the route from Lake Superior to Lake Erie, the 600 foot steamer J. Pierpont Morgan is now on her trip down the lake. The model of the Morgan and of the four big freighters of the Pittsburg Steamship Co. fleet which preceded her are quite similar. The others are 569 feet long.

It is reported that the Morgan carries about 11,500 tons on this trip, which is her second one. She has just smashed the record between Escanaba and South Chicago, with a cargo of about 13,295 tons.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 W. 3rd st., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me for twelve years, and if I had taken it at the start I would have been saved years of suffering." Ellsworth's Drug Store.

Fourth of July Excursion Rates.

Via the North-Western Line. Excursion tickets will be sold at reduced rates July 8 and 4, good returning until July 6th, inclusive, to all points where one way rate is \$7.50 or less, on the North-Western Line, including C. St. P. M. & O. Ry., to points on Union Pacific R. R. east of and including Cheyenne, Wyo., and La Salle, Colo., points on Colorado & Southern, Orin Jet to Cheyenne, inclusive, also to points on D. S. & A. Ry., and Mineral Range R. R. Apply to agents Chicago & North Western R'y. 7-8.

Removes black heads drives away beauty ills. Stimulates the whole nervous system. Greatest beautifier known. Nothing so helps fading loveliness as Hollister's Rocky Mountain Tea. 85 cents.—Hill Drug Co., both stores.

Food of Immigrants.

A silent but titanic struggle is now on between two great economic forces in this country, and the bone of contention is the European immigration. It takes people to work the thousands of great mills in the industrial sections of the north and east, and labor that is cheaper is in such demand as to be powerfully attracted. The vast undeveloped reaches of the south and west cannot be made to become productive without population, so that from the vanguard of the nation builders comes the unceasing cry of "People, people, more people!" A railroad is immediately interested in the transportation of people and their belongings from the eastern centers of population which are the points of ingress of European immigrants to the districts where they are going to make habitation, but it is more profoundly interested in permanently establishing a thrifty stock in the fertile regions which it taps, inasmuch as every step of progress the settler makes raises the value of the railroad by increasing its business. The transcontinental haul is sufficiently profitable only to enable the railroads to hold their own in the sparsely populated strip lying between the Mississippi valley and the Pacific coast. To broaden single lines of track into such great four-track routes as the New York Central, for instance, it is necessary that the railroads traverse as populous and prosperous a country as New York state. Every railroad man knows this, says the Technical World, but the public either forgets it or has never thought of it. That is why the railroads are the leaders in the grand battle to wrench the immigrant out of the hands of the eastern employing agencies, which get first call on him when he leaves Ellis Island, and which have the advantage of ready cash instead of glowing opportunity to offer him.

Artificial Beefsteak.

Will they call it beefsteak? Artificial beefsteak discounts the trusts. It begins with peptones and peptones. Peptones, we are informed by a scientific authority, are decomposition products of albumen and a result of the action of certain re-agents found in the pancreatic glands and known as ferments, which decompose albumen. This decomposition is a physiological process known to the lay mind as digestion. Without peptones the albumen which forms a large percentage of our food would be about as nutritious as sand or wood. Peptones are similar and are the anhydride acids. Prof. Emil Fischer, who invented the artificial production of grape sugar, concludes that albumen is nothing but a compound built up of many peptones. By the synthesis of seven peptones he has already produced a compound greatly resembling albumen. It froths, can be beaten into foam, and is decomposed or digested when treated with the juice taken from the pancreatic duct of a dog. He thinks that 30 or 40 peptones form a peptone, and that albumen is a compound of several peptones. Science, therefore, has set to work to find out ways and means of combining as many peptones as possible in order to achieve artificial albumen. Since albumen is the principal component part of the bodies of all animals, of grain and corn, of all our nourishment, this would mean artificial bread, artificial meat, no more fears over failure of crops. It would not be impossible to get nourishment out of coal. No more hungry folk. The social problem ought to be solved.

Probably the most important step that has been taken in this country during the last decade has been in the direction of reclaiming arid and semi-arid lands by means of irrigation. Vast tracts in the west and middle west are now richly productive that once were considered worthless for raising crops. Deserts formerly given over to meager brush and cactus are now wonderfully fruitful fields and gardens. In this development the department of agriculture has been a most potent factor. It has realized the dreams of the pioneers that were considered visionary and impractical.

A traveler who has just returned from Europe met A. J. Drexel at Monte Carlo. Mr. Drexel was entertaining a crowd of European nobility, including a couple of Russian grand dukes. The traveler was chatting with him in the casino one afternoon. "I had been trying my luck," said the former, "had lost on the red a number of five-franc pieces and I talked rather excitedly about the Monte Carlo tables. One thing led to another. Finally I said: 'What would you do if you saw a man cheating here?' Mr. Drexel smiled. 'Do?' he said. 'Why, back him, of course.'"

The pastor of the Methodist Episcopal church in an Indiana town suggested that if the men in the congregation could not join in the singing they should whistle the tune. He set the example by whistling the first verse himself.

A Chicago girl recently routed a burglar with a meat-ax. Is the time-tried hatpin becoming obsolete?

The new Russian parliament votes by pushing the button. The czar does the rest.

CRYSTAL FALLS GETS EVEN BREAK HERE

Visiting Team Took Saturday's Game but Defeated by Decisive Score With Strengthened Team Yesterday. Large Crowds saw Both Games. Bad Errors Marked Saturday's Game While in Contest of Yesterday Errors Were Conspicuous by Almost Total Absence.

Escanaba and Crystal Falls broke even in a series of two games played at South park on Saturday and Sunday, Escanaba winning the contest of yesterday afternoon easily by a score of 4 to 1 and being defeated in the game of Saturday by a score of 6 to 2.

While the game of Saturday was marked by frequent errors by Escanaba players and which made possible the victory for the visiting team, the contest of Sunday afternoon was characterized by the almost complete absence of errors.

The Crystal Falls team played both games with but one error while the number marked up against Escanaba players on Saturday was 6 and in the game of yesterday one error was made which allowed Crystal Falls to score the clincher that was made in the game.

In the game of Saturday the six hits that were taken off Olmsted by the Crystal Falls players were hunched and which coupled with errors both on the infield and outfield positions allowed scores which should not have been made. Nema-check was in the box for Crystal Falls and was a puzzle to the Escanaba batters for the greater portion of the game. The six hits that were taken off Nema-check were well scattered and it was only in the fifth inning when with a base on balls followed by two hits that Escanaba was all to score.

With a completely rearranged lineup Escanaba had on its batting clothes yesterday and the form of the players in every position was in sharp contrast to that of Saturday.

Nolden, who was in the box yesterday, lost in his baseball career picked a better game than that of yesterday when he allowed but two hits and struck out seven men. No pitcher who has ever worn the uniform of an Escanaba team, in fact, a never played a more brilliant game than did the big south paw yesterday. From the opening inning through every period of the contest he was effective and with excellent support behind him the Crystal Falls players were retired in one, two, three order in every inning with the exception of two.

Every Escanaba player had on his batting clothes yesterday, a total of eleven hits being taken off of Murray, the young pitcher who was in the box for Crystal Falls.

In both Saturday and Sunday's contests, Elmer Escanaba's little center fielder was the particular batting star, drawing three hits in four times at bat in Saturday's game and in the game of yesterday lining out a pretty three base hit and in addition landed a sacrifice in the first inning of the game.

Buckley, Escanaba's "Grand Old Man" of baseball, was another of the Escanaba players who showed in yesterday's contest accepting every chance that was offered him in the right field and lining out a two base hit in the first inning a single in the fifth and drawing a base on balls in his last chancing with the stick.

The form shown by the whole lineup of the Escanaba team in yesterday's game demonstrated the fact that had the same players been played in the same positions for the game of Saturday Olmsted could easily have won his contest, and Crystal Falls would have been treated to two decisive defeats.

In the game of yesterday Escanaba began its scoring bee in the first inning while Crystal Falls was retired in one, two, three order. Crystal Falls was first to bat and Henry struck out, Shaw went out from third to first and Agnew hit a pop pop to Loell at first.

When Escanaba came to bat Fred Olmsted drew a single, Flath sacrificed him to second. Buckley lined out a two bagger on which F. Olmsted scored. Nolden drew a single on which Buckley scored and Nolden stole to second. With Loell at the bat Nolden stole to third and when the batter drove out a single Nolden scored. Jaegers retired the side by going out from second to first.

Crystal Falls again went out in one, two, three order with bill striking out. When Escanaba came to bat Matt was hit by the pitcher, Lehr flew out to center, F. Olmsted flew out to left and Flath flew out to center.

In the third inning Fennette came to bat for Crystal Falls and struck out. Kuder followed and lined out a lone three base hit. Murray singled and Kuder crossed the home plate. Henry and Shaw retired the side by striking out.

H. Olmsted 1. Struck out by Nema-check 11, by Olmsted 5. Bases on balls off Nema-check 2, off Olmsted 2, hit by pitched ball, by Nema-check, 2 by Olmsted none. Batteries Olmsted and Matt, Nema-check and Agnew. Umpire Hodson. Attendance 1200. Time of game 1 hour 40 minutes.

Never can tell when you'll smash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas Electric Oil instantly relieves the pain—quickly cures the wound.

FLAT RATE IS ADOPTED

Great Camp of Modern Macabees Takes Important Step for Good of Future of the Order.

An important step in advance in fraternal insurance was taken at the meeting of the great camp of the Modern Macabees at Ludington last week. This was the adoption of an absolutely flat rate insurance policy for the benefit of persons who wish to protect themselves up to a certain age and wish to know exactly what the insurance will cost them.

Speaking of the change this morning, George S. Lovelace, a member of the executive committee of the great camp, said:

"As is well known, the rates of any fraternal insurance organization increases as the association grows older and the death rate becomes higher.

"Heretofore the Macabees have made no provision for the future, but have simply made assessments from time to time large enough to meet the losses.

"At the meeting of the great camp at Ludington we adopted a new plan by which a person desiring it may take out a policy running till he is either 50, 60, or 70 years of age at an absolutely flat monthly rate.

"This rate is, of course, higher than the ordinary life rate, but the person who takes out a policy under it will know that it will never be higher.

"The new rate will not affect in any way the policies of members already in the order and life policies under the old plan will continue to be issued to those who prefer them the same as before.

"The style of policy will be interchangeable with the old and can also be changed from one length of duration to another whenever the holder desires to make a change.

"The rates for the new policy are based on the mortality statistics prepared by Abh Landis of Nashville, Tenn., and adopted by the National Fraternal Congress.

It is wonderful what a little careful grooming will do for a woman. It's inspiration and sweetness. It's delightful and bewitching. The effects of Hollister's Rocky Mountain Tea, 35 cents, Tea or Tablets.—Hill Drug Co., both stores.

Notwithstanding and nevertheless, the new business of the life insurance companies of the United States, amounting to \$2,400,000,000 in 1905, was as large as the entire foreign commerce of the United States, including both imports and exports.

The manufacturers of gloves say they make a No. 6 woman's glove larger than they did five years ago. Women have become more athletic and thin hands have grown larger, but they insist on wearing the same number of gloves.

Now a young man has asked for his money back because the rich widow who advertised for a husband was not as represented in the advertisement.

CLOTHING AND GENTS' FURNISHINGS.
1109 Ludington St., Escanaba, Mich.

For you. I mean of course the money you can save by seeing me when you are thinking of investing your idle cash in Real Estate.

I have always good values to offer on my books: I especially quote:

One large house and lot in good repair No. 623 Jennie St. Price \$2800. To any person looking for a home in a good location this cannot be beat.

Ten room house and lot No. 1001 Delta Ave. Price \$1900. This property is in a first class condition.

3 houses on two lots in North Escanaba, rents for \$24.00 per month. Price \$1800. Invest your money in this.

I have on my list several farms which may be exchanged for city property. Space will not permit me to numerate all the property I have on my list, such as house and lots, building lots in all parts of the city, also farms improved and unimproved. Call and examine list before you make a purchase and save money.

LOCAL NOTES

Miss Katherine Carroll left this morning for Marinette where she will visit with relatives.

Shoes shined at Walkers' Barber shop on Sunday mornings on any week day. Joseph Ferrin, Champion Boot-black.

Miss Josephine Patton, who has been engaged as a teacher in the public

schools of the city for the last year left this morning for her home at Appleton.

FOR RENT—Offices in theatre and store building. Enquire of Ben Salinsky. C45-7-1.

Miss Mary Kessler left this morning for Oshkosh where she will visit with friends.

Save your piano. Export tuning, voicing and repairing. All work guaranteed. Leave orders at Grinnell Bros.

Mrs. Fred Dupuy who has been visiting with her brother visiting with her mother returned to her home at Marinette this morning.

There's a hot time coming. Be prepared by having a case of our famous export beer in your house. Escanaba Brewing Co. Bell phone 121.

Mr. and Mrs. Christ Peterson attended the funeral of Mrs. Henry Hansen at Spalding yesterday.

George Eastwood who has been confined into his home for two weeks as the result of being struck by a car in the yards of the North-Western road, is recovering and will be able to be out within a few days.

A glass of beer with your meals is much better for your health than a glass of ice water. The latter chills your stomach while beer produces warmth. Ice water retards, beer aids digestion. Try our celebrated family brew. Escanaba Brewing Co. Bell phone 121.

Mrs. F. H. Atkins, Miss Elsa Atkins and Robert Atkins arrived this morning from Ann Arbor. Robert Atkins graduated this year from the literary department of the university of Michigan and Mrs. Atkins and Miss Atkins remained at Ann Arbor to attend the commencement week exercises.

John McNaughton who has been a resident of Ford River for several years has gone to British Columbia where he will make his home in the future.

Miss Esther Lucia of Nahma visited with relatives in the city yesterday.

G. W. Clark of Green Bay was in the city yesterday.

Frank Augie and C. Cornish of Ishpeming are visiting with friends in the city.

D. F. Fox of Ishpeming spent Sunday in the city.

Herman Billings of Hermansville spent Sunday in the city with friends.

M. Gaffney of Powers visited with friends here yesterday.

Mrs. O. M. Coldren and children and Miss Lynda Willman of Ishpeming are guests of Mr. and Mrs. G. W. Willman.

William Lineban who has been a member of the city fire department for two years has resigned his position and has reopened the Fond du Lac house on upper Ludington street under the name of The Office.

Mrs. Ada Bucholtz of Menominee, formerly of Escanaba, is visiting friends and relatives in the city.

Mrs. William Fumell and Mrs. David Giguere of Oconto are being entertained at the home of the latter's father, C. G. O'Neil.

Mrs. W. La Bonte and G. Bastin of Marquette visited at the home of C. Grenier, Saturday and Sunday.

Display of premiums offered for Lantz Bros. Glee Soap and Snow Boy Washing powder will be continued all this week at The Fair Savings Bank. See them. Valuable articles of glass, silver, etc. given away. C167-1.

Have you tried our export beer? Let us send a case to your home. Escanaba Brewing Co. Bell phone 121.

"There will be a joint business meeting of the Ladies Aid society and the mission circle of the First Presbyterian church in the library room of the church Tuesday afternoon June 26 at 3 o'clock.

The Ladies Aid society of the First Presbyterian church will hold a social at the home of Mr. and Mrs. H. W. Reade, 709 Tweedy St. Friday evening June 29.

Three Physicians Treated him Without Success.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Kentucky treated me without success. I then took Foley's Kidney Cure. The first bottle gave immediate relief, and three bottles cured me permanently. I gladly recommend this wonderful remedy." Ellsworth's Drug Store.

IS NOW A FELLOW

H. L. GOODWIN ELECTED TO GEOGRAPHICAL SOCIETY.

He is Only 28 Years of Age—The Object of the Famous Organization and Privileges Enjoyed by Its Many Members.

Kansas City, Mo.—There are three members of the Royal Geographical society in this city. They are Dr. Edwin R. Heath of Kansas City, Kas., Col. J. Gardner Stowe, formerly United States consul general in Capetown, South Africa, and H. Llewellyn Goodwin. Mr. Goodwin has just been elected a member of the famous old organization on the recommendation of Dol. Stowe. There are only six honorary members of the Royal Geographical society in the United States. Dr. Heath of Kansas City, Kas., is one of the six. In the whole United States there are not more than 75 Fellows of the society, and all were elected in recognition of something, scientific attainments, explorations or fame of one kind or another. Mr. Goodwin, the latest addition to the society's ranks, is only 28 years old. He was formerly a department manager for Swift & Co., packers, but is now general western manager for a scale manufacturing company. He was born in Burlington, Kan. Mr. Goodwin is possessed of unusual educational qualifications, particularly in mathematics. Col. Stowe had known him many years and admired his business energy. Under the rules of the Royal Geographical society a fellow may, after a year's membership, propose the name of another for the same honor.

The Royal Geographical society was founded in 1830 for the advancement of geographical science. It received a royal charter of incorporation in 1860. It started with 460 members. Today it has 4,315 in all parts of the world. Nearly all these members are noted in some capacity. They represent the arts, the sciences, the armies and navies of many nations.

H. LLEWELLYN GOODWIN. (Who Has Been Honored by Election as Fellow of the Royal Geographical Society.)

kings and princes; professional men whose names are known everywhere. There are scores of members with titles enough to tire most people and from five to 20 letters tacked on the end of their names. His majesty, the king of England, is a patron of the society, and his royal highness, the prince of Wales, vice patron. Rt. Hon. Sir George Taubman Goldie, K. C. M. G., F. R. S., D. C. L., LL. D., and other things, is president.

The Royal Geographical society, to be absolutely correct about it, can trace its beginning back to 1555, when the first organized geographical work was undertaken. Travelers began then to write books telling what they had seen in their wanderings. The "Royal society" was founded by some of these travelers. The African association was organized in 1788 to promote the exploration of the Dark Continent. The Raleigh Dining club came into existence in February, 1827. These three organizations were merged in 1830 into the trust now known as the Royal Geographical society. So that H. Llewellyn Goodwin, in being elected to so distinguished a body of such ancient lineage, may reasonably be pardoned if he give evidence of gratification.

A member of the Royal Geographical society has advantages over ordinary traveling mortals. If he wishes to visit some out of the way quarter of the globe, about which no one seems to know anything, he may write to the secretary in London, or visit the "house" if he chances to be over that way, and find out all about it in short order. If his mission shall appear to be particularly praiseworthy, the society will put up money to push it along and may even lend him instruments if he needs them, and an outfit. And when the explorer returns, if he ever does, the society will hold an extraordinary meeting with much solemnity and listen to his story. The collection of maps and books on travel in the society's rooms is not excelled anywhere.

Pulpwood in 1905.

The returns from 159 firms, controlling 232 pulp-mills, give over 3,000,000 cords as the total amount of wood used last year. The wood was divided among the various processes as follows: Sulphite, 1,538,000 cords; soda, 410,000 cords; ground wood, 1,068,000 cords. The total pulp production by all processes by the firms reporting was 1,993,000 tons. According to the census of 1900, the consumption of pulpwood was then 1,986,310 cords, so that there has been an increase of over 50 per cent. in the last six years. This demonstrates, in a striking manner, the drain upon the forest caused by the pulp industry.

BOERS IN NEW COUNTRY.

Tiring of British Rule, Many of Them Emigrate to Argentine Republic.

Immigration of Boer people to the Argentine republic has commenced. A few weeks ago about 300 of them, all strong men, women and children from the Transvaal, Orange River Colony, and Cape Colony, under guidance of the resolute P. Van Wyk, a hero of the battle of Magersfontein, arrived at Cape Town to sail on the Highland Fling.

Five hundred estates, each of 3,000 acres, are already at the disposition of the immigrants, the price being \$250 for each estate, to be paid in five yearly installments. The new settlers will set themselves to cattle rearing and especially to sheep raising. They intend to build churches and schools as soon as possible, and a committee for education is already chosen and approved of by the Argentine government. They will have the right to have their children taught in the Dutch language as well as in Spanish.

The Boers have not sold their lands in South Africa and will not do so at present. They emigrate because they are tired of British rule, but not because they are poor.

They think much of their future liberty and go full of pluck to their new country.
