ESCANABA, MICHIGAN, THURSDAY, APRIL 28, 1910.

12 CENTS PER WEEK.

ESCANABA PASTOR CHOSEN PRESIDENT

REV. C. A. LUND LEADS NEW SWEDISH LUTHERAN CONFERENCE ORGANIZED HERE.

ELECTED AGAINST HIS WISHES

Organization of the Conference is Finally Effected by Adoption of a Constitution, Election of Officers and Selection of a Name—Business of Conference Not Concluded Until Midnight—Jubilee Services—Other Details.

President—Rev. C. A. Lund, Escanaba.
Vice president—Rev. J. W. Johnson, Ironwood.
Secretary—Rev. Augustus Nelson, Manistique.
Treasurer—Olo Leonardson, Marquette.

These are the officers elected for the first permanent term by the Swedish Lutheran conference, which was organized in this city yesterday by ministerial and lay delegates of the Green Bay, Ogemaw and Ishpeming districts of the Swedish Lutheran church. In addition to the officers, two ministers and two laymen were chosen members of the executive committee, these being Rev. Oscar Sandahl of Marquette, Rev. C. J. Karl of Marquette, John Bergh of Marquette and G. N. Olson of Ironwood. The president and treasurer of the conference are ex-officio members of this committee.

Conference Name Adopted.

Final organization of the conference was effected by the adoption of a constitution, the election of the officers as noted and the selection of a name. It was decided that the name shall be "The Superior Conference of the Evangelical Lutheran Augustana Synod of North America."

Following these actions the question of the mission work in the new conference was generally discussed and some measures taken to further this work advantageously. An extensive mission field is found in this territory and this was the principal reason, it is stated, for organizing the new conference.

The Jubilee Festival.

The services at the jubilee festival following supper in the evening were most inspiring and largely attended. Interesting addresses were delivered by Rev. Oscar Sandahl of Marquette and Rev. C. A. Rosander of Crystal Falls. The choir of the church rendered a beautiful selection and Mrs. C. A. Lund sang an inspiring solo. An offering of \$22 was taken for the Esbjorn chair in church history at the Theological seminary at Rock Island, Ill.

The supper, which preceded the festival, was served by the ladies of the Swedish Lutheran church in compliment to the delegates and visitors to the conference and was a meal of surpassing excellence. It was deftly served and heartily enjoyed by the sixty persons who partook of it. Nearly all of the ministers and laymen in attendance at the conference

left today for their respective homes, well pleased with their work and the hospitable entertainment given them while in the city.

Election of the President.

The election of permanent officers of the new conference was an interesting event. When the name of Rev. C. A. Lund of this city was proposed for president that gentleman arose and declared that he was not a candidate for the office and did not desire to be elected there. He said that while he had been active in the steps taken toward the formation of the new conference, it was largely because of the circumstances under which he found himself placed and he would prefer therefore that some other man be chosen as the conference executive head.

Mr. Lund's protests were of no avail, however, and he was elected president. Then he resigned the office, but the conference refused to accept the resignation and Mr. Lund had to yield to the wishes of the conference in the matter. His selection as president is not only a compliment to Mr. Lund but to the city in which he makes his home and performs his labors in the religious field.

Correction of an Error.

In yesterday's report of the conference proceedings a typographical error made The Mirror say that upon the adoption of the resolution creating the new conference "Rev. G. A. Ekeberg and Mrs. Johnson of Norway were called upon to offer prayer and invoke God's blessing." It should have read Mr. Johnson, not Mrs. Johnson.

ESCANABA MASONS ENTERTAIN BROTHERS

Escanaba Masons are busy today entertaining visiting brothers from Manistique, who came over last night to attend a meeting of the local commandery to which they belong. There were twelve in the party from the Schoolcraft metropolis, all of them business and professional men. Manistique is the banner lodge town of upper Michigan and when anything is doing of any importance in any lodge, Manistique is sure to be well represented.

LOOKS BAD FOR TROUT FISHING

Continued cool weather does not serve to lighten the spirits of Escanaba trout fishermen, who for many months have been planning a trip to their favorite trout streams next Sunday, the first day of May. As the result of the recent snow, which is still far from gone, the streams are high and the water icy cold. Two weeks ago, the conditions for trout were nearly ideal, but from present indications very few trout will be hooked next Sunday, or for some days afterward.

CHINESE PRINCE IN WASHINGTON

(By Associated Press.)
Washington, D. C., April 28.—Prince Tsai Tao, the famous uncle of the Chinese emperor, arrived in Washington today and was escorted to his hotel by a troop of cavalry. Representatives of the state department as well as President Taft took the prince in charge as soon as he arrived.

ESCANABA HIGH SCHOOL APPROVED

Its Accredited Relations with Universities and Colleges of the North Central Association are Extended for the Next Two Years—What This Action Means.

The local school authorities have just received the report from the secretary of the North Central Association of Colleges with reference to the accredited relations with the Escanaba High school. It will afford great pleasure to all who are interested in the schools to know that the Escanaba High school is approved and the accredited relations with the universities and colleges of the North Central Association are extended for the years of 1910-11.

This Association held its annual meeting in Chicago, March 25, and was attended by representatives of the leading colleges and universities of the northwest. At this meeting the reports and records of all inspected schools in the north central territory are looked over by proper committees and approved or rejected by the Association. The object of this Association is to harmonize the requirements for entrance in the higher educational institutions, and thereby exert a direct influence upon the high schools of the country. The report of this Association has been delayed until the present time to enable the secretary to submit printed reports to the various high schools.

The inspection of the high schools of Michigan is made by Professor Whitney of the University. The results of his inspection are taken by him to the annual meeting of the North Central Association, in Chicago, and submitted to the delegates present for their approval. The schools whose work, courses of study, and corps of teachers are in accordance with the requirements of this Association are approved by them.

The result of this approval means that any pupil graduated from the Escanaba High school from college preparatory course is admitted to any higher education institution within the jurisdiction of the North Central Association. This includes all of the universities and colleges of Michigan, Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Kansas, Nebraska, North Dakota, South Dakota, Montana, Wyoming, Colorado, and Oklahoma.

The rules of the North Central Association are very rigid with regard to the qualifications and teaching ability of the teachers employed and the character of the work done by pupils in the high school, and only schools maintaining a high standard of efficiency are accorded the approval of this Association.

BANKER ENDS LIFE WITH CARBOLIC ACID

(By Associated Press.)
Chillicothe, Mo., April 28.—S. R. Nelson, vice-president of the bank here and formerly president of the Missouri State Bankers' association, committed suicide today by drinking carbolic acid. It is not known why he took his own life and no word of explanation was left by him for his family or friends. It is said that his accounts in the bank were in excellent condition.

GERMAN LUTHERANS FINISH BUSINESS

The quarterly meeting of the Lake Superior conference of the German Lutheran synod of Wisconsin and other states, which was held in this city, came to a conclusion with a special service last evening in the German Lutheran Emanuel church, of which Rev. L. A. Witte is pastor. Nine ministers were present at the meeting, at which only routine business was transacted. The principal speakers at the special services last evening were Rev. Theodore Albrecht of Crivitz, Wis., and Rev. Roetke of Marquette. The ministers from outside who attended the meeting left today for their respective homes.

FORMER ESCANABA DOCTOR APPOINTED

Upon the recommendation of Congressman H. O. Young of this district, Dr. Andrew Nelson has been appointed pension examining surgeon at Manistique, vice Dr. J. M. Settler, resigned. Dr. Nelson is a former resident of Escanaba, having moved to Manistique from here only a few years ago. He has many friends here who are pleased to learn of his appointment as noted above.

GET YOUR SEATS FOR "A TRAMP'S REVENGE"

The reserved seat sale for "A Tramp's Revenge," which is to be presented at Peterson's opera house next Monday and Tuesday evenings by St. Joseph's Dramatic club, will open at Mead's drug store tomorrow. The rehearsals for the play have been carried on regularly for some time and now all of the members of the cast are right up in their lines and stage work. This will not satisfy those in charge, however, and the rehearsals will be continued for the balance of the week in order to assure extreme proficiency. The young men who are taking part are not new to the stage, most of them having already scored hits before Escanaba audiences.

NAVAL RESERVES OFFERED A PRIZE

Through the generosity of Executive Officer Grant T. Stephenson, some enlisted member of the Escanaba division of the Naval Reserves will after August 1 be the possessor, without monetary cost to himself, of a fine gold watch. Executive Officer Stephenson has offered such a prize to the member of the division who shall on August 1 be adjudged the most proficient enlisted man in the division, which is officially designated as No. 2, Second Battalion, Michigan Naval Brigade. The prize is one well worth striving for and it is expected will prove an incentive to the enlisted members of the division to put forth their best efforts in attaining proficiency in all branches of Naval Reserve work. The watch is now on exhibition in the show window of the H. M. Stevenson Company's store, this city.

GETS A PATENT ON FINGER MOISTENER

Harry S. Cates of this city has received notice that he has been granted a patent upon his finger moistener. Application for a patent upon the invention, which has heretofore been described in these columns, was made some time ago. The moistener will be manufactured by the Cates Finger Moistener company, the members of which are H. S. Cates and D. A. Brotherton. The first lot is now being made under a contract and will soon be ready for the market.

MRS. H. O. FAIRCHILD SERIOUSLY INJURED

Mrs. H. O. Fairchild of Green Bay, wife of Attorney Fairchild, who was one of the attorneys in the case of Frederick Martin vs. the Jerry Madden Shingle company, which was tried in circuit court here this week, fell over backwards down a staircase at her home Tuesday night and as a result is in a precarious condition. She sustained an ugly wound on the back of her head when she struck on the steps. Although Mrs. Fairchild's condition is serious, it is believed she will recover. Mr. and Mrs. Fairchild formerly lived in Marinette and have a number of friends in Escanaba.

Saturday evening Mrs. Victor Bertrand was pleasantly surprised at her home by about forty of her Escanaba and Wells friends. The evening was greatly enjoyed by all. One of the features of amusement was dancing and an elaborate luncheon was served.

SHERIFF ARONSON ON THE WITNESS STAND

Trial of the Libel Case of the Sheriff of Delta County Against Editor of an Escanaba Paper Gets Fairly Under Way—Some Difficulty in Securing a Jury.

At four o'clock this afternoon Sheriff F. W. Aronson was on the witness stand in circuit court giving testimony in his own suit brought against Francis L. Baldwin, editor of The Escanaba Journal, to recover damages in the sum of \$10,000 for alleged libel. Mr. Aronson was called as a witness by the defense after Mr. Baldwin had been called and testified regarding his authorship of the alleged libel printed in his paper.

Considerable time and difficulty were required before a jury was secured to try the case. Although the matter of getting a jury was taken up yesterday afternoon, the task was not completed until about ten o'clock this morning, both sides rejecting a number of proposed jurors.

The jury as finally selected is made up of the following citizens:

Joseph Gingras, M. P. Fay, Edward Bergman, William Northup, Nicholas Gunter, Noa Deloria, August Larson, Ambrose Clement, Maurice Call, Erick Hall, Jacob Gross and George Deiter.

Interest in the case is very great and the court room is again crowded to its capacity this afternoon.

T. ALBERTS PLEADS GUILTY TO FORGERY

Toban Alberts, the Green Bay young man, who was arrested some time ago on a charge of having passed a number of forged checks in this city, was brought into circuit court this morning, arraigned on a charge of forgery and pleaded guilty to the information as read. He was then taken back to the county jail, where he has been since his arrest, and will be sentenced later.

Alberts, by means of forged checks, succeeded in getting money from a Fond du Lac man, who happened to be in the city at the time, the firm of Young & Fillion and several other firms or individuals. He was caught a couple of weeks later after an exciting chase which he led police officers between Green Bay and DePere and was brought back to Escanaba. He waived requisition, offering no objection to being brought back here to answer for his alleged misdeeds.

ROOSEVELT BIDS PARIS FAREWELL

(By Associated Press.)
Paris, France, April 28.—The visit of Colonel Roosevelt and his family in Paris terminated today, when, accompanied by Mrs. Roosevelt, Miss Ethel and Kermit, he took the morning train for Brussels.

During his stay in Paris Colonel Roosevelt was showered with honors and the family were given an enthusiastic send off at the railway station today.

ALMHOUSE INMATE STRICKEN BY DEATH

Victor Berg, an old man who had at various times for a number of years past been an inmate of the Delta county almshouse, was found dead about 3:30 o'clock yesterday afternoon in the yard attached to the county poor farm. It is supposed he died of heart disease. No one was with him when he was stricken down by death. His remains were brought to the undertaking rooms of J. A. Allo and prepared for burial, which will be made tomorrow. Mr. Berg was about sixty-seven years old and so far as known had no relatives.

THE STORK COMES OFTEN TO ESCANABA

The stork evidently has a strong liking for Escanaba, judging from the frequent visits he has been making of late to this town. His visits are welcome, for every time he comes he leaves behind an addition to the population. Within the last few days the following couples have been made happy by a visit from the ever busy bird, which left with them a new member of their family:

Mr. and Mrs. Joseph Guay, 608 South Norris street, a daughter.
Mr. and Mrs. A. Villeneuve, 321 North Sarah street, a daughter.
Mr. and Mrs. Eugene Perron, 422 South Oak street, a daughter.
Mr. and Mrs. Gustave LaPorte, 210 North Charlotte street, a daughter.

FOREST RESERVE FOR UPPER PENINSULA

Representative H. O. Young this week introduced a bill having for its object the establishing of a federal forest reserve in the upper peninsula. It provides that upon the request of the secretary of agriculture, the secretary of the interior will accept on behalf of the United States the relinquishment to the government by the state of Michigan of any lands covered by its unperfected claims under the land laws of the United States, which in the opinion of the secretary of agriculture should be made a part of a national park in the state of Michigan.

The state is authorized to select, in lieu of any lands relinquished, other lands of equal area and value from any part of the unoccupied lands of the state. Within two or three years the federal government has considerable areas of federal land in the eastern part of the upper peninsula, as well as extensive tracts in the lower peninsula.

LANFORD GETS THE BEST OF KETCHEL

(By Associated Press.)
Philadelphia, April 28.—Sam Langford and Stanley Ketchel fought six rounds before the National Athletic club here last night, before a great crowd. The negro had the better of the mill, no decisions being allowed here. Ketchel forced the fighting at the start and in the second round. Heavy exchanges in the third ended in a clinch. In the fourth Langford was more aggressive, bringing the blood in a stream from Ketchel's nose. Langford punched Ketchel's damaged nose again in the fifth, and fell from a missed right swing as the gong sounded. In the last round each landed hard blows to the head. The negro again played on Ketchel's damaged nose and the latter was weak on his legs and clinched repeatedly. Langford played for the damaged nose and Ketchel was covered with blood when the round and the fight ended.

Pole Defeats the Turk.
Buffalo, April 28.—Zbysko, the Polish wrestler had no trouble in disposing of Clara Ezet, the latest arrival from Turkey, in two straight falls here last night.

Supt. F. D. Davis returned this morning from Lansing, where he attended the annual meeting last week of the Michigan Association of School Superintendents and School Boards.

ONE OF BEST EVER HELD IN MICHIGAN

HEAD OF ESCANABA SCHOOLS SAYS THAT OF MEETING OF SCHOOL SUPERINTENDENTS.

GOOD RESULTS ARE EXPECTED

Returns From Lansing and in an Interview Presents a Most Interesting and Comprehensive Report of the Proceedings and of Profitable Results Expected to Follow—Visits Noted Educational Institutions in Other Cities.

According to Supt. F. D. Davis of the Escanaba public schools, who returned today from Lansing, the joint meeting of the Michigan Association of School Superintendents and School Boards, held at Lansing last week and which he attended as Escanaba's representative, was one of the most interesting educational meetings ever held in the state.

There were, Mr. Davis said in an interview with a representative of The Mirror today, in attendance about 200 of the leading superintendents and about 100 members of school boards from various sections of the state. Each subject was presented in the form of a written paper by some leading school man or member of school board and then was thrown open for discussion.

In a summarized form, further information and conclusions in regard to the meeting learned in The Mirror's interview with Mr. Davis may be set forth as follows:

The meeting was opened by Dr. Bion Whelan of Hillsdale upon "The Medical Inspection of Scholars and Teachers," and was followed by Dr. F. W. Shumway, secretary of the state board of health. These men were followed by other members of school boards and superintendents, showing what was being done in the various cities of Michigan to improve the health conditions of pupils in the schools. This is a live topic, and will receive much attention from school authorities during the coming year in all the cities of the state.

Primary School Fund Problem.
"The Primary School Fund" was presented by the Hon. F. L. Kaelor, deputy superintendent of public instruction, who represented the department in Lansing, and strongly urged a departure from the present system of apportionment of the primary school fund. At present it is apportioned in accordance with the school census, which in the judgment of the educational department at Lansing and many leading school men is not the most desirable method that could be adopted.

Under the present system a large number of school districts in the state receive more money from this fund each year than they spend in the entire support of the schools. It is very plain that if two school districts had each one thousand children of school age, and in one district practically all of the children were attending school, and in the other school districts only a small proportion of them attending school that a manifest injustice might appear when each district received the same amount. From the sentiment expressed there by school officials and teachers a bill will probably be introduced into the next legislature to change the basis of apportionment from the school census and have the apportionment.

Teacher Should Rank High.

If education is to do what we hope for our children, it is imperative that the best and most gifted men and women should be attracted into the ranks of teachers and that they should be regarded as filling one of the most highly honored positions in the land.

Too Much Selfishness.

One of the reasons why the present age is said to be so exceptionally dismal is that so many men and women give themselves up to selfishness. Selfishness is the secret of unhappiness.

WANTS 10,000 MORE TO AID IN FIGHT

Ten thousand members for the Wisconsin Anti-Tuberculosis association.

That is the object of a campaign begun by the leaders of the Wisconsin crusade against consumption. In appealing to the citizens to join actively in the fight, the association says:

"This is a call to arms. The association needs more members to take up the battle against consumption.

"For almost two years a comparative few have been sacrificing themselves in the cause. With the co-operation of all the ultimate eradication of the disease will more speedily come into realization. This is the fight of every man, woman and child, for tuberculosis is no respecter of persons and no one knows where it will strike next."

Want ad-answering journeys are NEVER WHOLLY unprofitable; and, occasionally, they end in golden good fortunes.

TOMORROW IS ARBOR DAY—ITS SIGNIFICANCE

Story of Its Origin is One of Great Interest—Nebraska First State to Adopt It.

Tomorrow, April 29 has been set apart as Arbor Day in the state of Michigan, and hence a brief historical sketch of the origin of the day, and a simple statement of its significance will not be out of place at this time.

The first suggestion respecting the annual planting of trees by children is attributed to Hon. B. G. Northrup secretary of the Connecticut board of education, who made the suggestion in his official report of 1865. It gradually grew in favor, and in 1876 he offered prizes to the children of Connecticut to stimulate centennial tree planting. The setting apart of an annual day for that purpose by state authority originated with ex-Governor J. Sterling Morton of Nebraska, who induced the then governor of that state to issue a proclamation appointing a day for the planting of trees throughout the state. In 1872 the day was made a legal holiday by enactment of the legislature, in which provision was made for awarding premiums to those who set out the largest number of trees. The day was named, April 22, and the plan followed upon that first Arbor Day, more than a million trees were planted in Nebraska. It is calculated that more than 800,000,000 Arbor day trees are now in a thriving condition on the prairie tracts of that state.

Other States Follow Suit.
Arbor Day was observed first in Minnesota in 1876, when a million and a half of trees were planted. Kansas in 1878 followed the example of Nebraska with grand results. Next came Iowa, then Illinois. Michigan passed an Arbor Day law in 1881, and Ohio in 1882. Since then Arbor Day has been recognized and encouraged by the civil authorities, and more than forty states now observe the custom.

The Grand Army of the Republic the grange organizations, and the state agricultural societies have largely aided in securing the observance of Arbor Day in several of the states, and in addition to the original aim of planting trees for salutary, economic, and atmospheric purposes, has been that for the adornment of home and

school grounds.

Several of the states are doubly blessed. Indiana observes one day in April and one in November. The governor of Pennsylvania has also appointed two days. The time of observance varies in the different states, being determined somewhat by climatic conditions. In Florida it comes about the middle of February.

On the observance of the first Arbor Day in Ohio in 1882, the children of Cincinnati celebrated it by planting memorial trees and dedicating them to authors, statesmen and other distinguished citizens. This has come to be known as the "Cincinnati plan," and originated with Hon. Warren H. Hiley, president of the Ohio forestry commission.

Now Generally Observed.
Now such a day is observed in more than forty states and territories, in accordance with legislative act of recommendation of state agricultural and horticultural societies to the state grange, or by special proclamation of the governor or recommendation of the state school superintendents, and some states by all these combined. It has already become the most interesting, widely observed and useful of school holidays.

This good work has been greatly facilitated by the eminent authors of America who have written so many choice selections in prose and poetry on the value of beauty of trees. What growth of mind and heart has come to myriads of youth who have learned these rich gems of our literature and applied them by planting and caring for trees, and by combining sentiments of patriotism with the study of trees, vines, shrubs and flowers, and thus with the love of nature in all her endless forms and marvelous beauty! Long may Arbor Day be celebrated!

WHAT EVERYBODY WANTS

Everybody desires good health which is impossible unless the kidneys are sound and healthy. Foley's Kidney Remedy should be taken at the first indication of any irregularity, and a serious illness may be averted.

Finest New Pianos

Factory to Home Direct

We are manufacturers of the Magnificent GRINELL BROS., PIANO and Factory Distributors for the old-reliable SMITH & BARNES, the popular STERLING, the excellent HUNTINGTON and others.

You can buy one of these Excellent Pianos at a BIG SAVING and on the EASIEST OF TERMS during our

Monstrous Clearing Sale

which is now in progress.

As explained in our former announcements, we recently made a number of heavy cash purchases, from manufacturers who needed money and made us great concessions in order to obtain it. These purchases approximated 500 Pianos. A great many of them have been allotted to our Escanaba Branch to dispose of. Being already overstocked we have no room for these additional instruments. They must either be sold as fast as they arrive, or stored at considerable expense.

WE HAVE MADE UP OUR MINDS TO SELL THEM and we are ready to make prices low enough to induce QUICK BUYING.

You Save \$50 to \$150 on Your Piano

by taking prompt advantage of this Sale. **TERMS NO OBJECT!** We must move the instruments and will accept any terms within reason that will suit your convenience. **COME TODAY**, or write for further information. These low prices and easy terms are open to any family, anywhere. **WE PAY THE FREIGHT!**

SALOON MEN MUST

CARE FOR "DRUNKS"

Sterling, Ill., April 28.—The Morrison city council has passed a stringent saloon ordinance. The most peculiar feature provides that no saloonkeeper shall throw an intoxicated person from his saloon into the street. If any saloonkeeper expels an intoxicated person it shall be considered a violation of the ordinance and sufficient to revoke the license. The ordinance provides that it shall

be the duty of the saloonkeeper or his bartender to take good care of the intoxicated person until he be perfectly sober and that a place shall be provided for him to sleep.

A Reason.

"Do be quiet. Don't you know, that there's a visitor in the next room?" said Frances to her little brother. "How do you know? You haven't been in." "But," said Frances, "I heard mamma saying 'My dear' to papa." —Tit-Bits.

WIDOW SUES FOR

\$10,000 DAMAGES

Wausau, Wis., April 28.—A suit for \$10,000 damages has been brought by the widow of Napoleon Henry Herri-man against the North-Western road for the loss of her husband's life in an accident at Ashland, October 21, 1909, while in the company's employ as engineer. The action was started in the Ashland court and has been brought here on a change of venue.

Thousands of bargains will be put out whereby you can save from 25 to 65 cents on the dollar.

THE I. STEPHENSON CO. WELLS

CHILDREN TO PLAY PART IN G. A. R. ENCAMPMENT

They Will Help Entertain Michigan Veterans When They Meet at Holland in June.

Holland, Mich., April 28.—One of the biggest factors and one of the biggest features in the state G. A. R. encampment to be held here the week of June 19, will be the part to be played by the children of Holland. Next to the veterans themselves the children will be most conspicuous in all the lines of entertainment. They will form one division of the parade on Wednesday and will have a campfire of their own which will be one of the principal features of the encampment. The children's campfire will be held Tuesday night, when arrangements will be made to entertain 1,500 children.

Peck's Bad Boy Author Coming.
Ex-Gov. George W. Peck, the Peck's Bad Boy of Wisconsin, has accepted an invitation to speak at this campfire and a large number of children are now busy preparing their part of the entertainment. There will be a children's chorus to sing the patriotic airs which enlivened the nights in the camps of the south. There will be tableaux recalling to memory the scenes of the war and there will be drills all by the children.

A girls' drum corps of thirty-six members will march in the parade and these girls are now perfecting themselves in drumming. They will be clad in red, white and blue costumes and should put up a most interesting appearance.

Many Notables Present.
Among the big men who will be guests of Holland during the week

are Senator William Alden Smith, Senator J. C. Burrows, himself a veteran, Governor Warner and staff, Gen. Joseph N. Greenfield, Ex-Governor Van Sant, commander-in-chief of the G. A. R. of the United States, and the entire Michigan delegation will be one of the principal speakers in view of the fact that Holland is his home town.

Another feature of the encampment of more than ordinary interest will be the presence of the National Association of Civil War Musicians, commanded by Squire Johnson, drum major of Adrian, Mich. This organization numbers between fifty and sixty men, drummers, fifers and buglers and will be able to turn loose the same music and in the same way they did on the field of battle.

Ready for Big Crowds.
Already every preparation is being made for handling the big crowds. Boyd Pantlind will open the Ottawa Beach hotel for this week and the Macatawa Park hotel will also be opened for the use of the visitors exclusively.

Under the circumstances it is probable no city in Michigan would be able to give as comfortable accommodations to the veterans as will Holland. While other cities may have more and larger hotels, none will have two great summer resort hotels looking out upon Lake Michigan which can be opened for the exclusive use of the veterans and the guests of Holland the week of July 19.

Miss Fernanda Elison and Miss Margaret Drew in a scene from Charles Klein's newest sensational success "The Third Degree" coming to the Peterson Opera House Sunday, May.

SENDING ORE CARS OVER ON THE FERRY

Menominee, Mich., April 28.—During the past few days the Ann Arbor company has been sending two car-ferries per day to Menominee and they will continue to do so for several weeks, or until they have completed transferring the one thousand and new ore cars which are being brought to the upper peninsula by the Chicago & Northwestern road. Already three hundred have been brought from across the lake and seventy-two more are expected in within a few hours on the No. 2, which is due this evening. The schedule of two car-ferries every day establishes a record that is unusual, especially considering how the Ann Arbor people are handicapped since the loss of their ferry at Manitowoc.

The new ore cars are of the latest type steel constructed, this being a wide departure from the old wooden type, which has always been used before. The railroad has sent the new ore cars into this section in anticipation that this will be one of the biggest ore years in the history of the upper peninsula. The season has not entirely opened as yet, but within a few weeks it will be in full swing.

HICKS MAKES DIRE MAY PREDICTIONS

The Rev. I. R. Hicks predicts weather for May as follows: A reactionary storm period is central on the 2nd, 3rd and 4th, during which days look for change to warmer. Brief reaction to cooler will follow closely.

A regular storm period is central on the 9th, extending to the 12th. The central days of danger are the 8th, 9th, 10th and 11th.

A reactionary storm period falls centrally on the 14th, 15th and 16th, and change to cooler will follow at the close of all May storm periods.

A regular storm period covers the 18th to 22nd, central on the 20th. Low barometer, much warmer, with decided electrical storms will result about the 19th to 22nd.

A reactionary storm period is central on the 25th, 26th and 27th. Falling barometer and storms will appear promptly and pass from west to east over the country during these days, followed by cooler. The month ends as we enter a regular storm period.

FOR MORE THAN THREE DECADES.

Foley's Honey and Tar in the yellow package. Refuse substitutes. Foley's Honey and Tar has been a household favorite for all ailments of the throat, chest and lungs. For infants and children it is best and no harmful drugs. None genuine but

TO MY BEST LOVE.

So slender, virginal and delicate—So cold to all the world, save me alone, Yet when the flame within thy heart I light,

So tenderly responsive—all my own!

Beneath thine influence each trouble seems To take swift wings and drop its dusky cloak (Dispelled, like mist, amid a thousand dreams),

And lightly soar forth, ascend in smoke! Thy breath is peace and perfume—and thy kiss

Of all that's rapturous the prototype! Ah, matrimony would be perfect bliss if wives had half thy charms—my bride pipe!

GIGANTIC METEOR FALLS IN TEXAS

El Paso, Tex., April 28.—News comes from the mountains in the vicinity of the Mormon colonies south of here in Mexico of the falling of a gigantic meteor. It burst and spread out in four directions and some of the fragments started a considerable forest fire.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection WICK BLUE FLAME Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

ANTI-SPITTING LAW SHOULD BE ENFORCED

Attention is Called to the Danger of Spread of Tuberculosis from This Unclean Practice, in a Bulletin Recently Issued—Some Hard and Fast Facts.

In view of the fact that there is some agitation in Escanaba in favor of the passage by the common council of an anti-spitting ordinance, it is interesting and somewhat discouraging to note that in a bulletin just issued by the National Association for the Study and Prevention of Tuberculosis it is alleged that anti-spitting ordinances, laws and regulations in more than five-eighths of the cities and towns in the country are not enforced as they should be.

While most of the larger cities of the United States have such laws on their books in the great majority of cases they are ignored or overlooked.

A glance at the police report for last year shows that no one was arrested for violation of this ordinance. The laxity is not looked upon as the fault of the officers. It has not been a general practice to enforce this ordinance in any of the Michigan towns. In fact the ordinance is adhered to strictly in but one or two of the larger American cities.

Dr. E. L. Tuohy of Duluth, Minn., says the most effective way of battling with the white plague is to destroy the cause. He says:

"The germs are contained in sputum and when this is allowed to be distributed on the city streets, where it can dry, and then blow away as part of the atmosphere, it is carrying with it the deadly germ deposited there by the consumptive."

An idea of the general violation of this ordinance can be gained from the fact that during the year 1909 in eighty cities, 8,421 arrests were made for violation of the laws regarding spitting in public places. Over 2,900 convictions were secured and \$4,100.87 were collected in fines.

New York city had more arrests than any other city, having had 2,513, with 2,099 convictions, and \$1,936.80 collected in fines. Baltimore comes next with 214 arrests and an equal number of convictions. Pittsburgh is third in rank with St. Louis in fourth place. St. Louis, however, would have been in second place, if the sanitary police who enforce the law in that city had been at work in 1909. In fifty-two cities out of the eighty the law was either not enforced at all or very poorly enforced. Of the remaining twenty-eight cities, less than one-half of them contributed more than three-fourths of the arrests for spitting and of the fines collected.

BOY WHO BARKED LIKE DOG IS CURED

San Francisco, Cal., April 28.—Ralph Madison, sixteen years old, son of a wealthy Palo Alto rancher, has been cured of chorea, a rare disease, which caused him to labor under the delusion that he was a dog. Barking and snarling, the boy who had been suffering from the strange malady for two years, was admitted to a local hospital last month. Prominent

physicians interested themselves in the case.

An electric bell was placed upon the patient's waist, and whenever the boy had a convulsion and barked a nurse pressed a button and gave him a sharp shock. By auto-suggestion and through fear of the shocks, the physicians say, the boy began to improve, the convulsions became less frequent and now they have ceased entirely and a permanent cure, it is believed has been effected.

THEATRICAL

The Peterson:—"The Third Degree," which Henry B. Harris will present in this city at the Peterson opera house next Sunday night, August 29, is a strong, clean and pure play. It is written by the most famous of American dramatists, Charles Klein, who is also the author of that sensational success, "The Lion and The Mouse." One of the distinguished features of Mr. Klein's latest work is the telling of a simple and interesting story with direct and never ceasing movement. Not an unnecessary character is introduced; hence, the perfect action obtained.

The theme of "The Third Degree" is a protest against the brutal methods of the police in their interrogation of suspected criminals; and incidentally it is illustrative of the persistency manifested by a woman who, once started upon a given object, never stops until she obtains her end.

The cast which Mr. Harris will present the piece with in this city is one that includes none but well known artists, who have creditable reputations by reason of their ability and genius.

LONESOME MONKEY HANGS HIMSELF

Evansville, Ind., April 28.—A monkey, supposed to have belonged to the Norris & Rowe circus, which opened the season here, committed suicide here by hanging himself with a chain to a rafter in the plant of the Globe Handle company, on the west side. It is supposed the monkey was lost by the circus, and, becoming homesick, decided to end his life.

MISSING MAN'S BONES FOUND BESIDE TRACK

Marquette, Mich., April 28.—The mystery of the disappearance of John Gordon, a Gogebic iron range man, missing since last fall, has been solved by the discovery of his bones beside the Chicago & Northwestern railroad track in the vicinity of Dunham. The man was a carpenter and had gone to the woods to seek work at a logging camp in the winter. It is supposed that he was struck and killed by a train. Gordon was forty years old and had no relatives as far as is known.

WON HIS FIRST GAME IN A CUB UNIFORM

Harry McIntyre, for Whom the Chicago Club Traded Three Promising Recruits to Brooklyn, Started Season With a Victory.

Brains and Hard Work Will Win, Says Chance

Cub Leader Declares Players Should Think, Eat and Drink Baseball

(Copyright, 1910, by Joseph B. Bowles.)

I don't know how I win. As a fact I don't care how I win, if I win, beyond winning by clean methods and not asking favors. There are so many things to take into consideration in trying to figure out why a team wins, or why one man is a winning ball player, that it is hard to tell. It is all in the man himself. There are many great ball players who are not winning ball players and many winning ball players who never were great players.

Brains and hard work are the chief essentials. A man or a manager must give all his time, all his attention and all his thought to the game and think, eat and drink baseball.

I know I go into a game confident of winning and the confidence never ends. The harder they beat us the harder I work, and if a manager keeps working and fighting all the time his players will be with him. If he quits

FRANK CHANCE.

or weakens, his men will do the same. I try to get the best work out of myself and my players, to fight and keep fighting until the finish, and then try to forget the game and work for the next one. Remembering what happened yesterday is a bad thing in effect. I never plan out far ahead but play one game at a time and try to win it.

The first thing to do is to study the weaknesses of the other club and to recognize its strength and then, allowing for the greatest strength and least weakness, to figure out how to beat it at its best. I make a close study of opposing pitchers, and plan the attack upon the weakest point of the other team. I always give the opposing team credit for having brains enough to strike at our weakest point,

and try to fortify that point by adapting the team work to the conditions. I believe the hardest work a manager has is to figure which of his pitchers will be most effective against a team. I want to know exactly the condition of the pitcher who is going to work, and if there are two or three in top condition, I study which one is best against the team we are to play that afternoon. Much depends upon the state of the weather, the wind and the prospective crowd. Before a game it pays to study the pitchers and see how the existing conditions affect them, before starting them.

In the game I try to outguess the other side all the time and to do things and have my men do things the other team is not expecting. I believe in taking chances at bat, in the field and especially on the bases, and I think taking chances with men and in games has won for me.

But, going to the bottom of facts, the truth is I and my team have won because we have worked harder and more earnestly to win than other teams have. It isn't "swelled headness" to say that. We have worked all the time and I believe that hard work and constant practice, condition and working together for the good of the team rather than for the good of ourselves, has been the secret of the past successes of the Cubs.

WHAT IS THE HARDEST JOB ON A BALL CLUB? HERE'S WHAT MEN SAY

"There's only one hard job on a ball club," remarked George Mullin to Bill Donovan.

"And that's pitching," declared Bill.

"The catcher's a cinch," asserted George.

"Catcher? They ought to charge those fellows to get in the park," added Bill.

"And the infielders—look at them—mere child's play. They ought to pay the club for the privilege of playing."

"The catchers are just back there so that there'll be nine men. They fill in—that's all."

"And the one who really works is out there on the mound—he is filling the one hard job on a ball club. He is pitching."

"Yes, we're the hard workers of the team."

Jennings overheard this conversation.

"When I was playing shortstop I felt the same way about that position as you boys feel about pitching," remarked Hughes.

"And I," added Matty McIntyre, "claim the outfield job has them all beaten for hard work."

"You fellows are inclined to overlook one job, aren't you?" asked Harry Tuthill. "Who's the first man at work in the morning? The trainer. Who's the last man to leave at night? The trainer. Who gets more complaints than anyone else? The trainer. Who goes—"

"I guess it will remain an open question," commented Hughes, closing the argument.

Lynch Camera Rule Enforced.
 President Lynch of the National league shows his appreciation of the nice things the newspapers have said about him by barring photographers from the field while the game is on. The papers want to catch the players in action, but they will have to confine themselves to the American league to do it.

Jimmy Barrett Batting Well.
 Jimmy Barrett, with Milwaukee, is showing a lot of batting strength. The veteran's early work in the field as well has also been fast and accurate.

PET BEAR HANGS SELF TO LIMB OF TREE

Seized With a Desire to Run Away and Prevented, Just Commits Suicide—Bruin, Which Was Raised From a Cub, Grows Melancholy for Lack of Society—Story.

Bangor, April 28.—The strangest seeming suicide to be recorded in this state is that of a bear owned by Edward Berry of Skowhegan, formerly of Caratunk. The bear evidently became melancholy because he could not mingle with other bears and, to all appearances, went and hanged himself to an apple tree in the orchard.

A little more than two years ago Mr. Berry, while hunting in the woods near his former home, found a bear cub. He brought it home with him, and soon a baby bruin became the pet of the family. He seemed to be contented with his life and was given the liberties of a dog about the place. During the following summer the bear was petted and made much of by visiting strangers. When winter came Mr. Berry dug a place in the side of the hill for the bear to hibernate in. Along in November the bear showed signs of wanting to go to his winter home. So Mr. Berry placed him in the hole and covered him up for the winter. Along about February Mr. Berry became somewhat worried about his pet, fearing that he would not live through the winter, but on looking into the hole he found that the cub was sleeping, as is the custom of bears in the winter.

About the middle of this last March Berry took the bear from his winter lair. The animal seemed to be as happy and contented as ever. He would frolic and play with the children and as ever was their pet until a few days ago when he tried to get away. Berry, being near, noticed the unusual action of the bear and investigated. Peering through the bushes he saw a large she bear looking at the pet. Berry hastened to get his gun and when he came back the two bears were hugging each other.

One shot finished the old bear, and the young one acted as if wild. He was finally quieted down, but for two days he showed a disposition to run away and would not eat. He was kept tied up all the time and a few days ago when Berry went out to feed the pet it was gone, having gnawed his post off. Going a little distance from the house, Berry found the bear hanging from an apple tree. The chain was wound round the end of a limb with the end of the post, to which the chain was attached caught in the crotch of a limb.

STATE INSURANCE DEPARTMENT PAYS

Lansing, Mich., April 28.—The state insurance department, in charge of Commissioner J. V. Barry, is one of the most remunerative of the state departments, something like \$500,000 being turned into the state fund while the expenses are only about \$30,000.

Through the efficient work of Mr. Barry Michigan's insurance department has been brought up to a high standard. The work of this department is an important factor in the state's government. At the present time experts from the insurance commissioner's office are engaged in auditing the several insurance companies of the state to ascertain their assets and liabilities. From these reports are compiled which prove of immense value to the state and other states where Michigan companies are conducting business.

Many matters of importance pertaining to all kinds of insurance are settled through this department. The department is carried on in a way to give the people of the state protection, causing stricter regulations being made governing insurance companies.

HAS PRIZED RELIC IN JACKSON'S HAIR

(Special to The Mirror.)
 Spokane, Wash., April 28.—C. P. Hallett, a storekeeper in Spokane, has come into possession of a lock of iron-grey hair, cut from Andrew Jackson's head after the battle of New Orleans in 1816. His mother, Mrs. A. M. Hallett, formerly of Nashville, Tenn., received the relic in 1848, as a present from Mrs. Donelson, wife of Andrew Jackson Donelson, nephew of "Old Hickory," with a double page of black bordered stationery, bearing this inscription:

"Mrs. Donelson's respects to Mrs. Hallett, with a small quantity of Andrew Jackson's hair, cut from his head after the battle of Orleans in 1816, together with a keepsake for the little boys, hoping they are good Democrats."

Mrs. Donelson reigned as mistress at the White house during General Jackson's term as president, when her husband was his private secretary and confidential advisor.

Mrs. Hallett died near St. Paul in 1889, when the relic was handed to her eldest son, who, in turn, passed it to the Spokane man.

"My father was intimately acquaint-

Danderine

Grows Hair and we can PROVE IT!

The Great DANDERINE Never Fails to Produce the Desired Results.

It enlivens and invigorates the hair glands and tissues of the scalp, resulting in a continuous and increasing growth of the hair.

Letters of praise are continually coming in from nearly all parts of the country stating that Danderine has renewed the growth of hair in cases that were considered almost hopeless.

A lady from Brooklyn writes: "After a short trial my hair stopped falling, and I now have a lovely head of hair, very heavy and over one and a quarter yards long."

Danderine stimulates the scalp, makes it healthy and keeps it so. It is the greatest scalp invigorator known. It is a wholesome medicine for both the hair and scalp. Even a small bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.

Now on sale at every drug and toilet store in the land; 3 sizes 25c, 50c and \$1.00

Free To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the Danderine Dandruff Co., Chicago, with their name and address and five in silver or stamps to pay postage.

ted with Andrew Jackson," said Mr. Hallett. "He was chairman of the committee which greeted 'Old Hickory' on his return to the Hermitage, at Nashville, after retiring as president. My father was the first man to shake hands with the general when he arrived in Nashville on the steamer Buckeye, on which he made the journey up the Cumberland river."

Mr. Hallett added that he would not part with the relic for a fortune, but intends to make some provision for its preservation after he is gone, when it probably will go to one of the historical societies in Tennessee. He intimated, however, it might be presented to the city of Nashville, his birthplace, after his death.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens the stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

BOYNE CITY NOW HAS TELEGRAPH

Boyer City, April 28.—Boyer City has lost its reputation as being the biggest city in the state without telegraph connections. The Western Union company has installed an office at this point.

THE ONLY WOMAN DISTRICT ATTORNEY

Los Angeles, April 28.—Los Angeles has the only woman district attorney in the country. Mrs. Laura Clara Shortridge Foltz has received her commission and will take the oath of office today. The appointment came as the result of the request of various women's clubs and organizations.

As proof of this, many people have bought during the past few days who have been looking into piano values for the past year or more. They realized that our present factory sale prices are far lower than any we have ever made, and bought at once while they could save money. HIGHEST GRADE PIANOS are included in this sale. Such well known instruments as "Conover," "Cable," "Kingsbury," "Wellington," and other standard makes. Every one of them is made in one of the Cable factories, of the finest and most carefully selected material, and by expert workmen. We build every integral part of our pianos—actions, key frames, cases and all under one supervision; each part made for the other, thus insuring a nicety of adjustment not obtainable in instruments merely assembled from parts made by various makers.

Artistic Case Designs.
The critical care we give to the building of our pianos is shown also in the beautiful and original cases we put out. Nowhere in the United States can you find a more artistic collection of pianos from this standpoint, and we employ a special force of the best designers for this department alone. The new 1910 case designs are offered for sale here in beautiful mahogany, figured walnut and quartered oak. We never imitate, we create.

We maintain and operate factory branch stores in leading cities over

the entire United States. Ten of these stores are in Michigan.

INSTRUMENTS OF PROVEN WORTH. Do not overlook the fact that Cable instruments have been before the public for thirty-five years and that government statistics show us to be the largest makers of pianos in the world, enabling us to produce pianos of superlative merit of the most economical conditions.

Inner-Player Pianos.
In our Inner-Player pianos are embodied some sixteen distinct patented features which we own, a number of these are among the most valued player-piano patents ever issued. Ask for our booklet entitled "Fifty-Four Points of Superiority."

Investigate.
We not only expect visitors to our sales rooms to come through a spirit of investigation, but we encourage them to look closely into the merits of every instrument they find here. Bring your musical friends with you.

Testimonials.
In our previous announcements we published many testimonials from many of the leading music schools and musicians in the country. We have them from every part of the United States, from the finest artists, from the best conservatories and from thousands of satisfied purchasers. By installing one of our pianos in your home you are simply following the example set by a host of happy piano buyers. Over 400,000 instruments from the Cable factories are in the homes of the people.

ONE OF BEST EVER HELD IN MICHIGAN

(Continued from page one.)

remontment based upon the attendance at school. If this should be enacted into law, each school district would draw its share of the primary school fund based upon the number of pupils that attended in that district for the legal period of five months.

Thursday evening, Dr. Leonard P. Ayres of the Russell Sage Foundation of New York City, addressed the Association, using graphic illustrations to show the progress made by pupils of the various grades in several of the leading cities of Michigan as compared with the official report for the entire state.

Other Important Topics.
The chief topic of special interest for Friday's session was "Text Book Legislation," introduced by Senator H. E. Straight, a member of the school board at Coldwater. There was a general sentiment expressed that the cost of text books and supplies in many districts was an unnecessarily heavy burden upon the laboring man with a large family of children to provide for. It was also generally thought that a reduction in the prices of text books and supplies could be secured without necessarily cheapening the quality so as to injure the efficiency of the work of the schools.

The question of state uniformity was also discussed and very generally disapproved, but a bill will be introduced into the next legislature, however, with the support of the department at Lansing for county uniformity of text books.

The other subjects of interest to those in attendance were "The Report of the Legislative Committee," by Professor Whitney of Ann Arbor, and "A Correct Basis of Promotion," by Superintendent Martindale of Detroit.

During his absence from the city Superintendent Davis also visited the State Normal college at Ypsilanti, University of Michigan at Ann Arbor, Chicago University and the Art Institute in Chicago for a conference with members of the faculty of those institutions and to meet applicants for positions in the Escanaba schools.

MARTIN IS GIVEN VERDICT FOR \$2,500

If the verdict of the jury is permitted to stand, the Jerry Madden Shingle company will be obliged to pay Frederick Martin the sum of \$2,500 for the loss of his good right arm because of an injury which Martin sustained while in the company's employ. The case, as previously noted in The Mirror, was tried in circuit court and went to the jury about 2:30 o'clock yesterday afternoon. After deliberating until 11:45 o'clock last night, or more than nine hours, the jury arrived at its verdict awarding the plaintiff damages in the amount noted and the costs of the suit. At eleven o'clock the jury asked the court for further instructions and an agreement was reached not long afterward.

"TOM" TAGGART IS GIVEN THE BUMPS

(By Associated Press.)
Indianapolis, Ind., April 28.—By a vote of 858 to 800 the "Tom" Taggart proposition to nominate a state senator by a state primary election was lost and the official will be nominated in convention.

When the convention opened this morning there was a bitter fight by the two factions, one headed by Taggart and the other by Governor Marshall. The Taggart faction wanted the decision by state wide primary and Governor Marshall was for the endorsement of a candidate by the present convention.

Several speeches were made and at times the speakers became so bitter in their declarations that the whole convention was thrown into a turmoil of excitement.

The delegates blocked the aisles and it required the most strenuous efforts of the police and the conservative leaders to quiet them. At the conclusion of the speeches, a roll call was ordered which resulted in the defeat of Taggart and his forces.

After the question of state senator had been disposed of Senator Shively was made permanent chairman of the convention and made a speech in which he denounced the new tariff law and spoke in favor of a dollar a day pension for Union veterans, the popular election of senators and local self government in the matter of the control of the liquor traffic.

SERVED AS AIDE TO GENERAL CUSTER

Dover, N. H., April 28.—James H. Simpson, who served as an aide to General Custer, is dead at his home here. He was seventy-seven years old. Colonel Simpson was the first president of the People's bank of Dover, and was stockholder in several mining, railroad and industrial corporations.

800 OFFICIALS MUM ON REPORTED CHANGES

Wausau, Wis., April 28.—It is reported here that Abbotsford is to be abandoned as a division point for the main line of the Soo on the Ashland division and that all of the extensive holdings of the company there are to be transferred to Spencer. The company has already started work on a cut-off from Spencer to Owen, which will shorten the distance between Chicago and the Twin cities materially.

President Pennington of the Soo line is quoted as saying that the distance between Chicago and Minneapolis would be materially lessened in a short time and that many of the heavy grades and round about routes would be eliminated.

Those in Wausau who are familiar with the location of the road and the towns through which it passes, are of the opinion that the division point, if removed from Abbotsford, will be located at Marshfield. Several arguments in support of this belief are advanced and the logical conclusion is that Marshfield would probably be the place selected.

The company is reported to be buying property in Unity and in other towns in the western part of Marathon county, but the officials are silent as to what the future plans of the company are.

GIGANTIC PLAN TO COLONIZE U. P. LAND

Agent of Upper Peninsula Land Company Confirms Big Land Story—Higher Official Does Not Confirm It, However—Tests Have Been Made of the Soil.

Sault Ste. Marie, Mich., April 28.—Further information relative to a St. Paul syndicate having taken hold of the realty interests of the Upper Peninsula Land company has been received here and the news is confirmed by an agent of the company, although F. J. Merriam of the company would not do so when wired by The News.

According to the agent, the new company is about to engage in a gigantic colonization scheme in which it is proposed to people thousands of acres of land in the Upper and other upper peninsula counties, Chippewa being first to receive attention. The number of acres secured by the syndicate of the Upper Peninsula Land company is close to 20,000, the greater portion being located in this county.

On much of this land tests have been made showing that it is well adapted not only for agricultural purposes but for grazing, stock raising and fruit culture, much of it being equal to the famous farming lands of Bruce, Soo, Pickford and Rudyard townships.

Another story is to the effect that the syndicate has arranged to take over the former holdings of the Hall & Munson company located in this county, but now owned by the Cleveland Cliffs company, much of which is timber lands. As fast as the timber is taken off the lands will be colonized.

The fact that Chippewa county offers much better inducements for home seekers than does the Canadian northwest is being more and more realized, and it only needs the advertising, a little push and organized effort to start the trend of travel in our direction, and this according to the reports is to be done in the very near future. All that is required is a start to be made. No man has ever yet made a failure of farming in this county and there has never been a crop failure in the history of the oldest inhabitant. The conditions are almost ideal for success and if the scheme of the St. Paul syndicate as outlined is carried out it means that Chippewa will soon be among the most prosperous and thickly populated counties in Michigan.

MEXICO SHIPPING IN BAD GOLD COINS

San Antonio, Tex., April 28.—Local secret service agents have in their possession a considerable number of counterfeit United States five dollar gold pieces, believed to have been made in Mexico. This spurious money has become so plentiful in certain parts of Mexico that hotel keepers are now refusing gold in payment of bills of tourists and others.

NEW STYLE IN LOCOMOTIVES

Cabs on the front of the locomotive, instead of behind it, is the innovation the Southern Pacific has adopted on twenty-one new engines just being delivered.

The Mallet type of engine is being used to a large extent on the Southern Pacific and the engines which have the cab in front use oil for fuel. The Mallet engines have sixteen driving wheels. They are designed for freight service on the mountains or where long hauls are needed.

IMPORTANT SESSION OF FEDERAL COURT

Term Opening on June 14 Likely to Be the Most Interesting Ever Held in Marquette—Many Notable Cases to Be Heard, Including Chinese Smuggling Cases.

According to The Marquette Mining Journal, the June term of United States court promises to be one of the most important ever held in Marquette. The spring term was originally set to begin in May, but for the convenience of the attorneys and court officials, it has been postponed until the second Tuesday in June. Grand and traverse juries for the term were drawn some time ago, but as all of the venire has not yet been summoned, the names of the jurors are as yet kept a close secret.

Two criminal cases of unusual interest will in all probability be tried. One is that of George H. Beddow, formerly assistant cashier of the defunct First National bank at Ironwood, who is charged with embezzlement, and the other that against Richard, alias Felix, Wagner, a Soo resident who is charged with having been engaged in the business of the business of smuggling Chinese across the St. Mary's river. Both of the cases will doubtless be hard fought, and the trials will undoubtedly be followed with much general interest.

In connection with the Ironwood bank failure, there are some twenty-five or thirty civil cases, brought by the receiver against a large number of upper peninsula residents for payment of notes found among the assets of the bank. Most of these notes, on which payment is protested, are "accommodation notes," so called, and the persons by whom they are signed allege that they were given without any consideration, other than to accommodate the bank officers. As many of these cases involve the same legal points, it is not likely that all or any great proportion of them will be tried, the decision in one applying with equal force to several others, in many instances.

There will also be a considerable number of Chinese cases, the defendants in which are fighting deportation. The government holds that these Chinese are not legal residents of the United States, but quite a number of them do not propose to go back to China without making a fight.

STATE LAW PUTS BAN ON TREATING

Candidates for Public Office in Michigan May Not Play the Part of "Good Fellows"—Campaign Cigars and Floating Schooners Across the Bar Tabooed.

No more will the malodorous stogie be a stepping stone to office for the political candidate or the foamswept "schooner" bear a cargo of votes for the man aspiring to be a leader of the people. Any such courtesies which in the divers ways might bring a harvest of ballots to the candidates, are strictly tabooed by the new state law. Electors may on June primary and election days, join in the harmonious tones of "How dry I am." Thus saith the law:

"It shall be unlawful for a candidate for nomination under the provisions of this act, after he has announced himself as a candidate for any office included in this act, or after he has filed his petition to have his name placed upon the primary bal-

lot as herein provided and before the close of the polls on any primary day, in any store, saloon, hotel, hall or other public building, public street or place within the territory from which he seeks a nomination, directly or indirectly to buy or give to, or cause to be bought for, or given to, any elector residing therein any spirituous, malt, brewed, fermented or other intoxicating liquor or beverage. It shall be unlawful for any person for or on behalf of any such candidate, or to help or injure the candidacy of any such candidate, in any of the places included in this section for the purpose of influencing the vote or the support of such elector for or against any such candidate, or when it is announced or made known in any way to any such elector before or after such beverage is served that the same are given or served for the purpose of assisting or injuring the candidacy of any candidate, or influencing the action of such elector in relation thereto, it being the intent of this section to prohibit the prevailing custom of treating by candidates for nomination for public office or any other person on behalf of such candidates."

The candidate is imperatively forbidden to play the role of the "good fellow." The aim of the law "was to place a check on the man with the money and to give to his less prosperous fellow candidate equal opportunities to draw the votes of the people. The law will be a potent factor at the primary election in September.

Observer.

F.H. Atkins & Co.
Phones 6 and 96.

We wish to announce to those who appreciate something better than the ordinary, that we have just received and added to our stock a line of

Franco American Food Products

Included in this line are

BROTHS FOR INVALIDS, specially prepared from the best of fresh meats, without spices or vegetables.

These are very beneficial to children and persons of feeble constitutions, on account of being so easily digested.

Also we have these Soups in Half Pints, Pints and Quart Tins, in the following varieties:

TOMATO, CONSOMME, BOULLION, CHICKEN, MULLIGATAWNY, MOCK TURTLE, OX TAIL, PEA.

THE STEAMER ARGO HAS NEW OWNER

The passenger steamer Argo, which went ashore on Lake Michigan in 190, has been sold by the underwriters to E. W. Seymour of Chicago, manager of the Northern Michigan Transportation company for \$27,000. The steamer, which is at Maultowoc, will be rebuilt. She will be operated on Michigan.

That New Suit is a Part of Your Business Expense

To neglect it is to neglect your business. To make the old one "do" is not the way you do business OTHERWISE.

YOU and your business interests are not often SEPARATED. And the impression your clothes give is the impression YOU give. Don't allow that impression to "hurt business"—for it might just as well HELP business.

No Matter What Your Occupation This Bank Can Serve You

It may be that some time you will need the assistance this bank can render. If you are depositing your money here and transacting your business with us, you may be assured of our friendly consideration at all times.

Every man, today, has a good chance to lay up a competence in twenty-five years or less if he saves. An account with this bank will provide an excellent plan of laying aside that portion of your earnings not needed for immediate use.

The Escanaba National Bank

Escanaba, Michigan.

ABOUT THE TOWN

W. J. Caldwell of Detroit, auditor for the National Grocer company, arrived in Escanaba this morning on business and will spend a day or two inspecting the local branch. On his way up from Chicago, Mr. Caldwell stopped off at Green Bay to see M. J. Ryan, who is in the hospital at that place convalescing from an operation for appendicitis. Mr. Ryan is recovering rapidly says Mr. Caldwell and will return to Escanaba in a few days.

The strawberry season finds us close to the best shippers in Chicago. You will get the best berries at CHAMPLINS.

The Chicago & Northwestern passenger train from the north, which is due here a 9 p. m., was nearly four hours behind time last night. The cause of the delay is said to have been a streak of balkiness in the engine that was pulling the train. Another engine had to be sent to Little Lake to take its place.

JONES URGES you to eat plentifully and freely of healthful and delicious fresh fruits and vegetables. Most alluring array in town.

Among the outside relatives of the late Mrs. George McCarthy who are already here to attend her funeral, which is to be held from St. Patrick's church Saturday morning are her daughter, Sister Ethelbert of Marinette; son, George McCarthy Jr. of Milwaukee; daughter, Mrs. T. Norton of Fond du Lac; son-in-law and daughter, Mr. and Mrs. George Roche of Norway, and her brothers, Daniel, Thomas and Michael Costello of Fond du Lac.

THE SANTO vacuum cleaner. Don't buy until it has been tried by you in your house. J. B. WILKINSON will tell you all about it.

E. A. Braun of Milwaukee, secretary of the Queen Consolidated Mines company of Goldfield, is in the city. Mr. Braun has just returned from Goldfield having come direct to Escanaba after only one day's stay in Milwaukee. He will remain in the city for a few days and will be glad to have interested persons call on him at the Ludington hotel.

The funeral of the late Emil R. Zoellner, whose death occurred Tuesday night, will be held at 2:30 o'clock tomorrow afternoon from the Emanuel German Lutheran church. Rev. L. A. Witte will conduct the services and remains will be buried in Lakeview cemetery.

WEDDING RINGS all sizes and shapes at H. M. STEVENSON CO., Jewelers. 156-17.

William Coplan of Milwaukee, formerly of this city, is visiting at the home of relatives.

See Greenlaw's ad elsewhere in this paper for bargain days in Suits, Coats and Skirts. 118.

Miss Alice Powers, Miss Nellie Gilbeau, Miss Eva Gauthier and Miss Rose Lafleur spent Sunday at Wells.

WEDDING GIFTS at the jewelry store of the H. M. STEVENSON CO. 156-17.

Mrs. Isaac Stephenson, who recently returned to her home in Marinette from Washington, D. C., where she had been since the holidays with Senator Stephenson, arrived at Wells yesterday afternoon to visit with her son, Grant T. Stephenson.

DAY or NIGHT automobile service at reasonable rates. Charles Bellstrom, phone 165J. 17.

Attorney John E. Tracy, who was one of the attorneys for the plaintiff in the case of Frederick P. Martin vs. the Jerry Madden Shingle company, which was tried in circuit court here this week, has returned to his home in Menominee.

You can always find just what you want in fresh fruits and vegetables at O. G. CHAMPLINS. 17.

THE WOMAN who promptly writes a want adv., when there's room for another in the boarding house, has learned one of the valuable lessons of practical life.

EVERY BOTTLE of wine, liquor or non-intoxicant in our store is strictly guaranteed under the pure food law. DELTA COUNTY LIQUOR STORE, 17.

C. H. Jones has recovered from a short illness and is again able to attend to business.

C. H. JONES has delicious and healthful fresh fruits and vegetables. 17.

The Misses Carrie and Gertrude Jaegers, who were called home by the illness of their father, have returned to Chicago, where they will resume work at the hospital where they have taken up nursing.
