LOCAL WATER RATES TO BE ADVANCED

SUPERINTENDENT OF ESCANABA PLANT IS INSTRUCTED TO MAKE RERATING OF THE CITY.

ADVANCE TO BE SLIGHT, HE SAYS

New Rules and Regulations for Guidance of Consumers are Also to be Formulated—Mr. Hatton Attends American Water Works Association Convention in New Orleans—Some Features—Enjoys Visits and Entire Trip.

While at Philadelphia recently in conference with the officials of the Escanaba Water company, Superintendent William J. Hatton, after making a complete report of the condition of the plant here and the situation in general, was instructed to make a rerating of the city and to issue new rules and regulations for the local water consumers.

Under the new rerating, Mr. Hatton states, the flat and meter rates for water are to be slightly advanced, but they will still be below the rates which the company would be permitted to charge under its franchise. Mr. Hatton is unable to say at this time when the new rates will become effective, but it will be in the near future.

Mr. Hatton returned Sunday from his trip, which included not only Philadelphia but New Orleans also. At New Orleans he attended the annual convention of the American Water Works association, which was held from April 26 to 30. The attendance at the convention was not as large as usual, Mr. Hatton states, but there were about 500 representatives of water companies from all parts of the country present and the proceedings were of the greatest interest and value.

Business and Pleasure.

The opening session on Tuesday morning, April 26, was devoted to a reception to the delegates and an address of welcome by Mayor Martin Behrman of New Orleans, who extended to the visitors all of the courtesies and hospitalities of the city.

Some highly instructive papers were read and addresses made, Mr. Hatton states, during the various sessions of the convention. It was not all business, however, for there was much of entertainment afforded by the citizens of New Orleans. The entertainment program included a card party with refreshments, dancing, a trip to the famous New Orleans pumping station and filter plant, an illustrated lecture, harbor and river excursion on the steamer "J. S.", the theatre performances, automobile rides, etc. The delegates to the convention were provided with badges which gave them free and welcome entrance wherever they wished to go.

Sees Fire on Train.

On the way home, Mr. Hatton had the experience of witnessing a fire and its extinguishment on a car of the Illinois Central train on which he was one of the passengers. In some manner a dining car attached to the train took fire. When the fire was discovered, the train was stopped, a bucket brigade of trainmen and passengers was formed and the fire was soon extinguished with water taken from the locomotive and passed along in buckets to the burning.

BRYAN'S DAUGHTER IS MARRIED TODAY

(By Associated Press.) Lincoln, Neb., May 3.—Lieutenant Reginald Owen and Mrs. Ruth Bryan Leavitt, daughter of William J. Bryan, were married at Fairview at nine o'clock this morning. The strictest secrecy was maintained and all information concerning the details of the wedding were withheld from the reporters, who tried many times to get the desired information.

KING'S SONS TO GIVE ANNUAL BREAKFAST

The King's Sons' society of the First Presbyterian church will hold annual May breakfast on Saturday May 28. A similar breakfast has been given each year by this society since its organization and each year this event has been largely patronized and the young men feel sure that the breakfast will be more largely attended this year than ever before. The young men will be ready to serve at 5:30 o'clock and will serve as late as the patrons desire. A meeting will soon be called by the president to arrange the plans for the event.

FIRE BREAKS OUT IN AUTOMOBILE TOP

If any of the residents along Wells avenue had been afflicted with a superstitious fear of Halley's comet, they might well have been frightened this noon when the runaway belonging to Dr. Harry Long passed down the street with a trail of smoke and sparks flying in its wake. In some manner the top of the car, which was folded down, got on fire and was not noticed by Dr. Long until he reached the garage, when he made the discovery and extinguished the blaze.

DOCTORS DISAGREE ON TUBERCULOSIS

(By Associated Press.) Washington, D. C., May 3.—Whether tuberculosis is caused by milk or meat from bovine sources and what may be the best employment for patients that are suffering from the disease, were the chief subjects for discussion today in the session of the National Tuberculosis association that opened here this morning.

The discussion of the former topic was started by Dr. William H. Park of New York, and later on Dr. A. M. Forster of Louisville, Ky., Dr. Park held that pulmonary tuberculosis among adults is not the result of impure milk or foods.

Dr. S. Adolphus Knopf of New York attacked the Nebraska law, which requires indigent consumptives to submit to the serum treatment, and also the action of the Oklahoma state board of medical examiners, which forbids any physician to practice in the state if he is suffering, or in the past has suffered from the disease.

Attorney Frank D. Mead attended the opening of circuit court in Me-

MINISTERS HOLD MONTHLY MEETING

The Twin City Ministerial association held its regular monthly meeting yesterday in the parlors of the First M. E. church, this city, and it proved to be a most interesting and profitable session. Nearly all of the Escanaba members of the association were present besides Rev. G. C. Empson, Rev. Edgar Wilson and Rev. E. J. Warren of Gladstone. The meeting was presided over by the Rev. G. C. Empson, president of the association. The principal feature of the meeting was the presentation of a paper on "Some Present Day Demands" by Rev. Edgar Wilson, pastor of the First Presbyterian church, Gladstone. It was followed by a general discussion. At the conclusion of the meeting the ministers repaired to the New Ludington hotel, where they had dinner. The next meeting of the association is to be held in Gladstone.

YOUNG MEN ACCORDED FINE ENTERTAINMENT

The members of the King's Sons society of the First Presbyterian church were entertained last evening at the home of Mr. and Mrs. A. E. Ellsworth Jr., 916 Second street. The business and devotional meeting was led by the president, Albert M. Allyn. After the discussion of different matters pertaining to the work of the organization, the society adjourned to meet at the call of the president.

S. T. Zemer of the science department of the High school gave a very interesting and instructive talk, which was greatly appreciated by the young men. After a formal program, a delightful luncheon was served by the hostess and this was followed by singing and an informal good time.

The meeting last night was one of the most delightful that has been given for the young men's society. Many words of appreciation were spoken by the young men for their hostess and a formal vote of thanks was recorded for Mr. Zemer's talk and the hospitable entertainment received at the Ellsworth home.

Harold Greene and Kenneth Morrill were the guests of the King's Sons last evening.

EXECUTIVE HEAD OF LABOR BODY HERE

W. J. Emery of Detroit, president of the Michigan Federation of Labor, is in the city and expects to remain for several days for the purpose of visiting and inspecting the unions affiliated with the federation. Tomorrow evening Mr. Emery is scheduled to deliver an address at a special meeting of the Trades and Labor council to be held in Union hall. Last evening he attended a meeting of the Masons and Bricklayers' International union.

ADDITIONAL LOCAL NOTES.

The Women's guild of St. Stephen's Episcopal church will meet at the home of Mrs. George Beath, 511 Wolcott street, Wednesday afternoon at three o'clock.

The Peterson Garage company has received two new Ford touring cars to be delivered to purchasers in this territory.

H. Freaman of Boston, Mass., arrived in the city today to take a position as window decorator in the stores of the Kratzke Brothers. Mr. Freaman has the reputation of being an expert in his line of business.

James Jandro of Marinette, who is at the head of the shingle weavers' union in this district, was in the city and vicinity yesterday and today, stopping off here on his way home from attending a meeting of the shingle weavers at Manistique.

In order to give Escanaba people an opportunity of attending the Peddlers' parade, which is to be held at Gladstone on the evening of May 19 for the benefit of the Gladstone Baseball club, the steamer Maywood will make a special trip from Escanaba to Gladstone on that evening. It is stated that a number of Escanaba men are to take part in the parade.

ESCANABA TO HAVE NEW POLICE CHIEF

ANDREW IVERSON IS SAID TO BE SLATED TO SUCCEED PRESENT CHIEF, GEORGE ROWE

ALSO A NEW PARK COMMISSIONER

Mayor Greenhoot and Members of the City Council Hold a Star Session and Come to a Tentative Agreement Upon Appointments of City Officers to Be Made This Evening—Nearly All of Present Officials Are to Be Reappointed.

According to information which The Mirror has been able to secure, Escanaba is to have a new police chief and a new park commissioner.

Andrew Iverson, at present a patrolman on the police force, is to be promoted to the position of head of the police department, succeeding George Rowe, the present chief, and George M. Mashek is to be park commissioner, vice W. B. Linsley, who, it is understood, desires to be relieved from the office because he has not the time to spare to give its duties proper attention.

Reappointments the Rule.

It is understood that these changes were agreed upon at a star chamber session last evening by Mayor Greenhoot and members of the council and that they will be announced along with the mayor's other appointments at a regular meeting of the council this evening.

There are few, if any, other changes to be made in the personnel of the other appointive officers, it is intimated, and reappointments will be the rule. One new officer, that of garbage master, is to be filled, but the identity of the prospective appointee to that position is still buried in oblivion.

ROOSEVELTS RIDE ABOUT COPENHAGEN

(By Associated Press.) Copenhagen, Denmark, May 3.—The Roosevelts today enjoyed an automobile drive to the castle of Frederiksberg. Their visit to the National museum was made the occasion of a friendly demonstration by students from the government school. Colonel Roosevelt acknowledged the greeting in a brief speech. The motor drive was then continued to Helsingoor.

PRESIDENT TAFT IS IN CINCINNATI

(By Associated Press.) Cincinnati, Ohio, May 3.—After arriving here this morning President Taft spent most of his time in renewing neighborly relations with home folks. Except for a brief address, which he delivered at noon before the trustees of the Mercantile library and another short talk late in the day before the Loyal Legion, the president devoted himself to shaking hands and chatting with old friends. Sharing social honors with President Taft was German Ambassador von Bernstorff, who arrived with the presidential party from Pittsburg at 10:25 o'clock.

MRS. W. E. MARTIN'S FUNERAL TOMORROW

Funeral services over the remains of the late Mrs. Walter E. Martin, whose death occurred yesterday afternoon, will be held at 2:30 o'clock tomorrow afternoon at the family residence, 242 Michigan avenue. Rev. P. B. Ferris, pastor of the First Presbyterian church, will conduct the services and the remains will be laid to rest in Lakewood cemetery. The pall-bearers will be A. J. Young, Matt Fillion, A. H. Ryall, G. M. Haberle, C. M. Thatcher and E. C. Voght.

Mrs. Martin was twenty-eight years old and besides her husband and infant daughter is survived by her father and step-mother, Mr. and Mrs. B. J. Bassingthwaite of Ashland, Wis., who arrived here this morning to attend the funeral. Mr. Martin's mother and sister are expected here from Iowa tomorrow morning.

HALLEY'S COMET IS NOT PLAINLY SEEN

Escanaba Astronomer Contributes an Interesting Article Relating to the Celestial Wanderer—Discusses Other Phenomena of the Heavens Now Prevailing.

Editor The Mirror:—So much has been said in previous numbers of magazines and newspapers, that there is little to say without repetition about Halley's comet.

Since the comet came out from behind the sun on April 20th, it is still low down in the bright background of dawn early in the morning. Much has been said in newspapers that the comet is visible to the naked eye, but I find it so faint that it is of the sixth magnitude, which is the limit of vision to the naked eye.

I have seen it three times now since it is West of the sun. On May 1st it was visible about twenty minutes between rifts in the clouds. The comet was seen only a few times all over the country, the cloudy weather making observations impossible. Any small telescope will show the comet now, as a round dim star out of focus.

I have found no tail to the comet, but just a short jet of light away from the sun, still the comet may have a tail, but the bright background makes this quite impossible to see.

In about ten days Halley's comet will again disappear in the sunlight; it is already on its journey to the East, after the 20th of May we will see it in the evening. Still this does not mean the comet is leaving just yet; it is merely disappearing from the morning sky.

Another comet is now visible in 16 hours 39 m. 46.91 s. This is correct for May 3d. This is d'Anest's comet, and is also a periodic comet due for 1910, and is now visible. I can give the exact positions of this comet to July 1st, to those wishing to know where to find it.

I have heard several people say they saw the comet with the naked eye, but I doubt it. To the naked eye it is a faint star, and could not be recognized even by an experienced eye; no doubt it will now brighten as it nears the earth.

If I see anything new about Halley's comet my readers shall hear at once from me.

My tables of the planets Venus and Saturn lead to a wonderful meeting point. I find that on June 4th the planet Venus passes only a little north of the Moon, and one June 5th the two planets Venus and Saturn, will appear so close together as to look like one large star. This is a wonderful sight, and does not happen very often, and is worth while seeing. A small telescope will separate the two planets, but the eye cannot. Mercury is visible now early in the evening, low in the west. Very few see this planet, but it can easily be seen with the naked eye. Its motion is great each day; it will disappear in a few days.

JOHN NOVACK.

MRS. M. J. RYAN ILL WITH BLOOD POISON

Mrs. M. J. Ryan is very ill at her home with an attack of blood poisoning, contracted in a most peculiar manner. While at work about her home last Saturday morning, Mrs. Ryan accidentally pierced the end of her right forefinger with a kitchen fork. Nothing was thought of the accident at the time and Mrs. Ryan continued with her household duties and forgot the incident. Sunday the injured finger began to cause trouble and the family physician was called in. It was found that Mrs. Ryan was suffering from blood poisoning. Her condition is somewhat improved today over what it was yesterday, but she is still very ill.

MRS. RITTMAN MUST DEFEND ELECTION

Chicago, Ill., May 3.—Mrs. Rose D. Rittman, who was elected High Chief Ranger of the Woman's Catholic Order of Foresters some time ago by defeating Mrs. Rodgers, must defend the manner of her election, under the terms of the decision of the appellate court of Cook county, which was rendered today.

MISS BLANCHE WALSH COMING ON MAY 10

Manager P. M. Peterson today received a telegram from the manager of Miss Blanche Walsh, starring this season in a new play called "The Test," announcing that Miss Walsh would appear at the Peterson opera house on Tuesday evening, May 10, instead of Thursday evening, May 12, the date originally booked and announced. The coming of Miss Walsh to Escanaba will be awaited with anticipations of pleasure by local theater-goers who appreciate high class talent on the stage.

BABY LOSES TIP OF ITS INDEX FINGER

While playing around a vacuum cleaning machine yesterday, the year old baby in the family of Dr. and Mrs. Carlson at 615 Elmore street, had the index finger of its left hand caught in the machine and it was necessary to amputate it at the first joint.

The cleaning machine was rented in the morning and as it was entirely covered and seemingly fully protected from doing any harm, there were no fears for the safety of the baby and it was allowed to investigate as to what the new addition to the household was supposed to be for.

Near the base of the machine is a small hole for letting in the air and just inside this hole there is a rapidly revolving fan that causes the suction.

After carefully inspecting all the rest of the machine the baby discovered the hole and just to see what was inside, a finger was inserted. The blades of the fan caught the little digit and before the baby could get loose the end of the finger was so badly bruised and cut that it was found necessary to remove the tip. The child was exceedingly brave and withstood the pain like a much older person. It is resting easily today and doesn't seem to be suffering much from the shock.

BUSINESS MEN NAME THEIR COMMITTEE

At a meeting of the Escanaba Business Men's association, held last evening, a committee of five was appointed to represent the association in the charter revision matter. The members of this committee are: Mayor M. Perron, Dr. W. A. Cotton, W. R. Smith, Hon. Peter Jensen and City Attorney Ira C. Jennings. This committee will meet, probably on some evening of this week, with similar committees from the common council and the Trades and Labor council for the purpose of selecting candidates for membership on the charter revision commission, which is to be elected at a special election on May 23. The committee is to be given the task of changing and revising the present city charter.

The Chevalier de Lafayette society of Negaunee has engaged the Negaunee City band to accompany its members to Escanaba on June 24, when the great annual celebration of French societies of the upper peninsula is to be held here.

Al. Stoner, who suffered a stroke of paralysis several weeks ago, is able to be out again.

LOCAL AMATEURS SHINE ON STAGE

ST. JOSEPH'S DRAMATIC CLUB SCORES A HIT IN PRODUCTIONS AT THE OPERA HOUSE.

LARGE AUDIENCE WELL PLEASSED

"A Tramp's Revenge" and "The Troubled Lieutenant" Furnished Good Entertainment—Members of the Cast in Both Productions Acquit Themselves Very Creditably and Win Plaudits—Plays to be Repeated This Evening.

St. Joseph's Dramatic club in its presentation at the opera house last evening of a two act play and a one act sketch scored an emphatic success. For amateur thespians the members of the club did very well, indeed, and the large audience present was not slow in expressing its appreciation and pleasure over the excellence of the entertainment afforded. All of those taking part in both productions were letter perfect in their respective parts and quite at ease in both their rendering of lines and actions.

The play, "A Tramp's Revenge," was produced first. Its scene was a camp in the woods and there was nothing lacking to make it realistic. It was produced by the following cast of characters, all of whom acquitted themselves so creditably that there is no necessity for mentioning each individually:

Cast of Characters.

Mr. Pemberton, president of the Empire bank, George Semer. Herbert Wells, alias Jim Parr, formerly cashier of the Empire bank, Frank Lang.

Curtis Dunbar, a "truly good" young man, George Powers. Elliott Brayton, a sweet "goody goody," Joseph Gaudette.

Old Obadiah Siggins, a farmer with an eye for business, Ray Garland. Young Obadiah, his son, William Wisert.

Jack Ashton, a reporter, John Richardson. Raggles, a tramp, Claude Raymond. Dick Percival, a leading actor, Oscar Loeffler.

Toots, a negro, Frank H. Nolden. Dennis Clancy, an all around man, Fred Raymond.

A newsboy, Victor Lemmer. The singing introduced during the action of the play was very good and the comedy was heartily enjoyed.

In the sketch, "The Troubled Lieutenant," there were but five characters, as follows: Sergeant, Claude Raymond; Hans, William Wisert; Cy Green, Frank Lang; O'Shaughnessy, George Powers; Cooper, Albert Kirstine. This was a funny affair, especially the burlesque drill that followed the enlistment of the recruits and which brought the entertainment to a close.

Between the production of the two plays William Wisert introduced a singing specialty that made a hit. He appeared in the character of a Dutchman and sang and danced in a manner that some Dutch comedians might envy. The audience left the opera house apparently well pleased with the pleasure of the evening.

This evening the productions of last night will be repeated and it is expected there will be another good-sized audience out to enjoy them.

Al. Stoner, who suffered a stroke of paralysis several weeks ago, is able to be out again.

SON OF SUGAR KING

TO WED MISS MOON

Eau Claire, Wis., May 3.—Miss Ellis Moon of East San Jose, Cal., and Claus Spreckels of San Francisco will be married within a few days, the exact date being not known. Miss Moon is a granddaughter of the late Delos R. Moon, an Eau Claire millionaire lumberman. The young couple have been friends since childhood and met first when Miss Moon visited her brother at Breed school, where young Spreckels was a student. The bride was educated in New York. Her mother is a widow.

NO MORE "SKEETERS" IN NEW JERSEY

New York, May 3.—There will be no mosquitoes in New Jersey this year, according to State Entomologist William S. Smith. He made the solemn declaration in Jersey City today to Mayor Witten that he had examined all the swamps, marshes and mud-holes in Hudson county, and finds that the larvae of the mosquito have all been destroyed.

Ever since the advent of warmer weather the board of health of Hudson, Bergen and other counties which mosquitoes have found favorable for breeding have been treading swamps and marshes with a preparation of oil which is represented to be sure death to mosquito larvae.

RESIGNS COMMAND OF NAVAL RESERVES

Lansing, Mich., May 3.—Lieut. John Wilson, commanding the First division, state naval brigade of Detroit, has resigned. An election will be called to fill his place.

OFFICIALS OF WOODMEN BOOSTING FOR BYRNS

A. R. Talbot, Head of Order, Recommends Ishpeming Man for Marquette Collectorship.

The only live piece of news in any way relating to the Marquette collectorship that has developed for weeks past is contained in a recent Washington dispatch to The Grand Rapids Herald telling how Van Gettle of Illinois, editor of the Woodmen, and other national Woodmen officials, called on President Taft to boost for C. J. Byrns of Ishpeming for the appointment. The dispatch in question is as follows:

"A. R. Talbot of Lincoln, Neb., head consul of the Modern Woodmen of America, accompanied by General Attorney Smith of Minnesota and Editor VanGettle of Illinois, editor of the Modern Woodmen, having a circulation of over a million copies a year, had an extended conference this morning with President Taft. They were accompanied to the White House by Senator William Alden Smith. The president invited Head Consul Talbot and his associates to the cabinet room for a conference, which lasted some time. While none of the gentlemen will speak particularly of the nature of the visit, it is known that the head officials of the Modern Woodmen of America all testified in the highest terms for Hon. Charles J. Byrns, who has been recommended for appointment to an important federal position.

Attacks are Unwarranted.

"Some false statements have been made concerning Mr. Byrns which were sharply refuted by general officials of the Woodmen organization and the authors of this slander were denounced by the head consul most vigorously.

"Director Byrns' connection with the Modern Woodmen has been highly creditable to that great organization and to himself. There is no more efficient worker on the board of directors than Mr. Byrns, while the attacks upon him have been petty and contemptible. President Taft has carefully gone over all of these charges and gives no credence to them. It is certain that if Mr. Byrns desires to hold a political office he can do so without further effort in his behalf. His associates in the Modern Woodmen have all urged him not to accept a political place, as his term of office as a director in the great organization does not expire for two years and it is generally believed that Mr. Byrns would be re-elected with enthusiasm on his record and as a rebuke to the cowardly attacks which have been made upon him. President Taft presented Head Consul Talbot with one of his latest photographs, upon which he inscribed his good wishes."

GIRL'S WHITE HAIR CAUSES HER GRIEF

Cleveland, May 3.—Curiosity of acquaintances over the cause of her white hair, which resulted from fright led Ruth Wilshire, aged sixteen years, to attempt suicide at her home, 1728 Agnes court. The girl swallowed an ounce of carbolic acid. She was removed to the city hospital.

A year ago Ruth, returning home at night, encountered a man in the dark hall. She failed to recognize him as a friend calling on her sister, and became hysterical. Parts of her hair turned white. The rest is black, and the contrast caused many questions. Her mother says this made Ruth despondent.

"Ruth often cried about people's questions," Mrs. Wilshire said Thursday. "She asked me if there

wasn't some way she could dye her hair. Since her fright she has suffered from terrible headaches, too."

STEEL PLANT TO ADVANCE WAGES

Pittsburg, Pa., May 3.—The Jones & Laughlin company operating the largest independent steel plants in the country, has announced an increase of 6 per cent in the wages of all employees who are not on a yearly salary basis. The advance will add about \$240,000 a year to the company's pay roll and will affect about 6000 men. It is roughly estimated that May day will find nearly 250,000 employees in western Pennsylvania working at increased wages, which will mean about \$5,000,000 more money in their pockets this year than last.

OFFERS NOVEL PLAN FOR JURY SYSTEM

(Special to The Daily Mirror.)
 Spokane, Wash., May 3.—Jurors elected at regular intervals by a vote of the people or appointed by the courts and paid a salary of \$3000 or more a year would, I believe, greatly improve our jury system, which is a relic."

Judge E. H. Sullivan, dean of the Spokane county superior court, said this at the close of a long drawn out case suggesting a solution of a problem of nation wide interest. He added:

"The number of men in this service could be cut down from twelve to six or five and the jury composed entirely of members of the legal profession. Each county could have a set or several sets of regular jurors trained in the law, and, to avoid prejudice and bias they would be exchanged in the various counties. The other smaller regulations could be worked out in detail by a jury commission.

"Under the present system we select a jury composed of good business men, farmers and laboring men. They are honest and levelheaded as a rule and are here to uphold the advance of our laws; but what do they know about the real meaning or phrases in the law. We ask a judge who has probably spent thirty or forty years in studying the law and watching its development to write in a few hundred words the instructions, which, in a great part, is so much Greek to the average jurymen. That part of the system is radically wrong.

"Another thing is the average business or professional man or even a laborer has not the time or inclination to devote to this branch of the service, and as a result some of the cases presented for adjudication are not given the attention they should have. It is also true that a lawyer who is sure of his legal right and his legal rights and his facts would much rather trust his case to a judge, while if he is not certain he would rather take chances with a jury.

BIG INHERITANCE TAX IN NEW YORK

Albany, N. Y., May 3.—The largest inheritance tax ever paid into the state treasury was received yesterday in the form of a check for \$1,159,325.45 and was drawn on the Manhattan bank of New York. It was in payment of the tax on the estate of John S. Kennedy, the New York millionaire who died some months ago.

Do You Intend Buying a Piano In The Next Year or Two?

Buy of the Maker and Save \$100

Your ONE Piano Buying Opportunity is at the Great Factory Sale of the Cable Piano Company; But You Must Buy NOW.

Don't let the need of ready cash keep you away. We give you three years or longer to pay. Easiest payment plan. Time extensions in case of sickness. Courteous and honorable treatment at all times.

Instruments from our factories are to be found in every part of the world. You are assured of getting a piano of known and proven worth when you come to us. Thirty five years of clean, upright business methods and millions of dollars back of our guarantee which goes with every piano.

We build EVERY PART of our pianos, and EVERY PIANO IN OUR STOCK is made in one of the Cable factories.

Being the largest makers of pianos in the world, we are beyond the pale of any local competition.

You owe it to yourself and family to call and investigate the claims we are making. A comparison of our pianos, point for point, will show them superior to many other makes selling at \$100.00 to \$125.00 more money.

Many pianos are being sold at this sale. They will not last long. It is better to buy now than to wish you had later.

Cable Piano Co.

"America's Leading Piano House"

Escanaba Branch Store, 721 Ludington Street. The largest manufacturers of pianos and inner-player pianos in existence. Branch stores in the leading cities of the United States, agencies in every part of the civilized world.

THE PROHIBITION WAVE SAID TO BE SUBSIDING

The Model License League Says People Are Learning Prohibition Doesn't Prohibit.

Mayor Solomon Greenhoot is in receipt of the following circular letter from the president of the National Model License League, which is of public interest and is therefore published for what it is worth:

To His Honor, the Mayor:—
The prohibition wave that has been passing over the country is showing unmistakable signs of subsiding because the people are finding out that prohibition, whether by state or county, does not prohibit.

The indisputable evidence of the internal revenue department proves beyond question that putting over half of the United States under prohibitory laws has increased the per capita consumption of distilled and fermented liquors fifty per cent.

Prohibition destroys millions of property and of revenues, but it does not check the demand for whisky, beer, wine, brandy, gin, alcohol in the form of patent medicines, etc., and while this demand exists the mail-order houses, the druggists, the bootleggers and the moonshiners will see that it is supplied.

A nation that consumes each year twenty-three gallons of alcoholic beverages per capita may pass prohibitory laws, each voter favoring them for the other fellows, but it will not be denied these beverages by any edict of law and it will not for long, nor seriously, prosecute the men who supply them.

The question, therefore, for the future is to regulate the sale of these beverages and it is the part of wisdom to adopt regulation that will regulate.

The people and the press of this country are demanding obedience to law and the liquor trade will welcome the adoption of license laws that will both encourage and compel obedience so far as trade is concerned.

The League's Recommendations.
Persecution, excessive taxation, excessive competition and nominal penalties may compel the saloonkeeper in his fight for existence to do things that are wrong, but it is a great mistake to suppose that brewers, distillers, wholesale or retail liquor dealers favor law violation or that they would not welcome a law abolishing such practices.

I ask your consideration, therefore, of what are known as Model License provisions and should they appeal to you I urge that your influence be employed to engraft them into your liquor ordinances. We recommend:

First. That all licenses must be

renewed so long as the holder is not convicted the second time of the violation of law and the business is not prohibited by a vote of the people.

Second. The licenses issued in the future shall not be in excess of one license for each five hundred of population.

Third. That the license shall be reasonable, fair and just and not represent a penalty.

Fourth. That for the first conviction by a jury of the violation of law the license shall be suspended for thirty days and the place closed for that period; and for the second like conviction the license shall be cancelled, and the holder never again licensed to retail liquors in that city.

The permanent license will remove the saloonkeeper from politics, for the political boss could no longer cancel his right to do business; it would be a valuable asset and especially if limited in number as suggested, and the holder of such a license would hesitate a long time before he would invite its destruction by violating a law.

Has But One Purpose.
The mandatory penalty which no judge could set aside would do away with the farce of minimized penalties which are generally imposed and which are merely an invitation to further disobedience.

Under most of our license laws the profits incident to the violation of law are so great as compared with the penalties imposed that the one thought of the saloonkeeper in his fierce struggle for existence is to get around the law, but under Model License the saloonkeeper's one thought would be to obey law.

Saloonkeepers, like bankers, merchants, manufacturers, railway companies, oil magnates and men in general will violate law if it pays and if the penalties are small, but no man will violate law if he knows it will not pay.

The National Model License League has but one purpose and that is to bring about the adoption of license laws under which the liquor trade will not be tempted or compelled to violate law, and in submitting our ideas to you we indulge the hope that you will give them your favorable consideration and join with us in urging their adoption.

Yours very truly,
T. M. GILMORE,
President National Model License League.

FLY IS MORE FATAL THAN THE BULLET

Common Fly of the House Variety Killed Nearly 2,000 Men During the Spanish American War—They Carry Typhoid Germs—Courts Recognize Their Danger.

The housefly killed 1,924 United States soldiers during the Spanish-American war through the medium of typhoid fever, more than were killed and wounded by Spanish bullets. There were 22,420 out of 133,513 soldiers, or one man out of seven of the enlisted force of the United States army attacked with the disease.

It has been known for many years germs are taken through the mouth, but it was not until the Spanish-American war that the housefly was known to be largely responsible for its spread.

At Camp Ramsey, Minn., where the Fifteenth Minnesota was in camp, what became known as ill-fated G. company was detailed when the regiment left for Georgia to police the camp. Thirty members of the company were taken ill with typhoid within a day, and within a week the number increased to fifty, nearly half the company. More than twenty men, of the flower of the company, died. The sudden epidemic has since been charged to the presence of myriads of flies which swarmed the deserted company streets and carried decayed refuse to the cook tent.

Officers of the hospital corps at that time believed that typhoid fever was only contracted by drinking affected milk or water.

The court of Germantown, Pa., has recognized the fact that flies transmit fever germs. A resident recovered heavy damages from the city as he proved that he had contracted the disease because a polluted sewage stream flowed through his yard. An entomologist convinced the jury, however, that the case of typhoid fever was contributed through the medium of flies carrying the infection from the stream to the food.

The Peterson:—Henry B. Harris will present "The Traveling Salesman," James Forbes' latest comedy success, at the Peterson Thursday evening, May 5. The first act of the "Traveling Salesman" shows the interior of a railway depot at Grand Crossing, a little town in the middle West. It is here that Bob Blake, the traveling salesman, makes the acquaintance of Beth Elliott, the pretty telegraph operator and ticket agent. Beth is possessed of a piece of barren and unprofitable land, which suddenly becomes of immense value because it is necessary to a scheme of improvement of the railroad company desires to carry out. Martin Drury, who is Blake's employer, becomes possessed of the knowledge that the railroad company is to make the improvements, and attempts to defraud the girl of the property through a perversion of the laws governing the sale of land by the township to default taxes. It is Blake's aim to defeat this scheme and the predicament he finds himself in through his impetuous and misvalued efforts, furnishes the necessary dramatic thread for Mr. Forbes' comedy, which affords chiefly, at a humorous exposition of the characteristics of the modern drummer. The second act, which transpires in Blake's room in the Elite hotel, is said to be as unique a portrayal of "life on the road" as was the second act of "The Chorus Lady" in illustrating "life behind the scenes."

Mr. Harris will send "The Traveling Salesman" to this city with the same company and production that scored such a success in this company and production that scored such a success in this comedy in New York and Chicago, in which cities it ran for over a year.

The Peterson:—The Willard Stock company will not appear in "An American Gentleman" Wednesday evening, as previously announced, but will do so Friday, Saturday and Sunday evenings. Instead, the company will present the same play at Rapid River tomorrow and Thursday evenings, returning here to open Friday evening. "An American Gentleman" is a four act comedy and is said to give all the members of the Willard company an excellent opportunity to display their respective abilities. The play is a clean and thoroughly amusing one and should furnish good entertainment to Rapid River and Escanaba audiences. Beginning Friday evening, the Willard company will in addition to the regular theatrical performance present a number of high class specialties.

DOG AN EXAMPLE FOR ITS MASTER
Vancouver, Wash., May 3.—After admonishing Paul Smith to take a lesson in sobriety and faithfulness from his dog, Judge A. J. Bigham released the prisoner, who was arrested for drunkenness. The dog was locked in the same cell with Smith and stood faithful guard over his master while he was intoxicated. The judge pointed out that even the dog would not do what Smith had done to debase himself, and the canine was a shining example for him to follow in the virtues mentioned.

If they're DESIRABLE, there's a to-be-found tenant who WANTS those rooms. He answers ads!

ABBOTSFORD TO BE WIPED OFF THE MAP

Abbotsford, Wis., May 3.—Abbotsford is to be abandoned as the division point for the main line of the Soo in the Ashland division, and all of the extensive railroad interests will be transferred to Spencer, as the Soo has already started on a cutoff line running from Spencer to Owen, which will shorten the distance considerable between Chicago and Minneapolis.

This will practically end Abbotsford's existence as a village, as practically all of its interests are created by railroad work.

The right of way is being secured for the cutoff from Boyceville to Cylon and from Stanley to Boyd. The New Richmond cutoff will be seventeen miles in length. The new line will run through the village of Old Somerset, and the Somerset station will be discontinued.

WILL SHOW HOW TO SEND PHOTOS BY WIRE

New York, May 3.—T. Thorn Baker, who has perfected an invention by which photographs are sent by telegraph and who has successfully operated his system between London and Paris, has arrived on the Cunarder Carmania to demonstrate his system in this country. He says that he has so far developed his system that it is now a commercial proposition and there is a great future for it, especially on the lines of transmission of photographs by wireless.

"The difficulty heretofore has been that the pictures became distorted in transmission, but I have invented a 'balance,' as it is called, that corrects this and now it can be used with ease and correctness," said Mr. Baker. "The most interesting part is that photographs can be sent by wireless as well as by wires. I look forward to the time when the newspaper photographer will carry the apparatus with him in compact box and when he has made a photograph, develop it and send it by wireless to his office."

Mr. Baker will probably work first between New York and Washington. As a rule he uses the telephone wires to send his pictures.

PNEUMONIA IS WISCONSIN SCOURGE

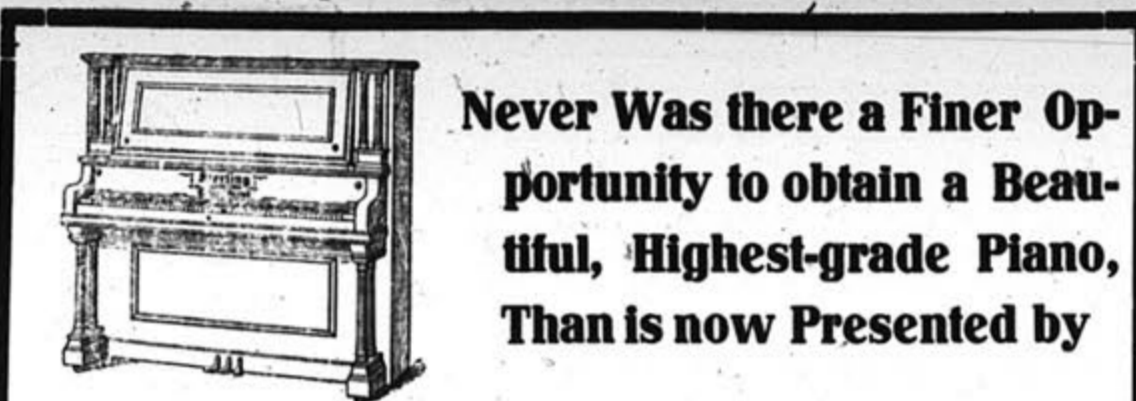

Madison, Wis., May 3.—For the months of January, February and March, 1910, tuberculosis still held a high place in the mortality column for Wisconsin, ranking second only to pneumonia. Tuberculosis ended the lives of 645 persons in those three months, while pneumonia took 856.

These figures are from an abstract of the monthly mortality report of the state bureau of vital statistics.

During the first quarter, 7,293 deaths were reported. This corresponds to an annual death rate of 12.2 per thousand and estimated population.

SHIPPING SEASON WILL BE HEAVY

Cleveland, O., May 3.—The move-

Never Was there a Finer Opportunity to obtain a Beautiful, Highest-grade Piano, Than is now Presented by

GRINNELL BROS. Monstrous Clearing Sale

It is exceptional in the character of the instruments offered—the amazing discounts—the extreme liberality of terms. To every Piano purchaser, no matter where located, our sensational Clearing Sale affords a chance not likely to ever be duplicated. Immense spot cash purchases, and shipments reaching us when our warerooms were already filled, are the factors which make necessary this sale, and at the same time, make possible our unheard of prices. We cannot accommodate this surplus stock; it must be moved just as quickly as possible, and we have made prices which will accomplish this. Careful buyers of Escanaba and vicinity are finding in this sale just the opportunity they have been waiting for. The Pianos are being transferred rapidly to music-loving homes.

If you ever expect to own a beautiful, sweet-toned instrument you simply cannot afford to let this sale pass. See our Pianos; get our prices and terms, and you'll then realize the full truth of this statement. Come in today! We will be glad to show you the stock and you won't be urged to buy.

STATE TREASURY IS IN GOOD SHAPE NOW

Lansing, Mich., May 3.—Friday night the state treasury had credited the state fund with \$6,133,636.08 in cash, this big wad of money being the result of the payment by the big railroads of the state of their annual taxes. The Pere Marquette sent in \$620,000 in the afternoon. Of the \$6,000,000 about \$4,500,000 will be sent out between the 1st and 10th of the month by State Treasurer Sleeper in payment of the primary school apportionment, which will be at the rate of about \$6 per capita. This big shift of funds, in view of the keen demand for money, makes it a somewhat delicate task to avoid disturbing bank balances, and Treasurer Sleeper is here looking after the matter himself. Before the primary money is sent out to county treasurers, the latter officials are required to send in receipts for the funds. In this way the treasury is sure of receiving the receipt, because the counties are anxious to get hold of the funds and return the document promptly, while they were often negligent under the old system, in vogue years ago, of requiring them to receipt when the money arrived.

There is a balance of \$5,492.63 in the hands of State Oil Inspector Neal as a result of the operations of his department during the last quarter, according to his report to the board of state auditors. He also shows that he paid out in salaries of deputies during that period \$5,584.58; in deputies' expenses, \$1,874.08; inspector's salary, \$376; inspector's expenses and office rent, \$265.

HOT PLACE HEAVEN ENOUGH FOR EDITOR

Frederick C. Beyer, a well known Cleveland editor, told at a recent press banquet a newspaper story.

"A Medina editor died," he said, "and was, of course, directed to ascend to the abode of the just. But during the ascent the editor's journalistic curiosity asserted itself, and he said: 'Is it permitted for one to have a look at—er—the other place?' 'Certainly,' was the gracious reply, and accordingly a decent to the other place was made. Here the edi-

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection WICK BLUE FLAME Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Automobile Notes.

LEFT HAND DRIVE NOW POPULAR

Comfort, Safety and Efficiency Reasons For Change.

GREAT AID TO THE DRIVER.

Enables Him to Make Quick Change In Handling the Steering Wheel—Opposite of This Prevails Under Old Method.

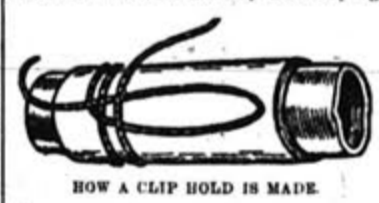

Within the last few months many manufacturers have adopted the left hand drive for the new models, one which gives promise of becoming immensely popular. The reasons for the popularity of the left hand drive at once become obvious when the question of comfort, safety, economy, convenience and efficiency is carefully considered.

In places where the statutes or local ordinances require all vehicles to be so placed and headed in public thoroughfares that the right side of the car is next to the curb it will readily be seen that with the levers on the left side the occupants of the front seat may step directly upon the sidewalk.

With the left drive the operator's left hand is free to shift the levers and blow the horn. This permits the exclusive use of the right hand for the steering wheel. The opposite of this prevails under the old method. There the driver must almost invariably make a quick change in handling the steering wheel from his right hand to the left in order to be able to shift the levers. Result—two movements to do what is now done by one with the left drive.

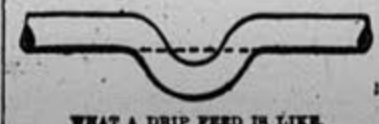

On narrow roads the driver with the left hand drive is able to gauge more safely the clearance when passing other vehicles. This is especially true where the roads are narrow, sharply crowned and poorly ditched. It is said by eminent automobile engineers that the running of the vertical motor placed in front tends to depress the right side of the car, which is largely overcome by placing the driver on the left side.

To Make Clip Hold. When a clip is too large to tighten up properly on rubber water connections a few turns of insulating tape wrapped round the tube to enlarge it is a ready way of making the clip hold. A good substitute for a clip and one that makes a sound job is to bind the tube with macramé twine. It is better than wire and when wound on neatly and secured without a knot by underlying

the end looks well. To serve it on take about five feet, double it in a hairpin about six inches from one end and lay it on the tube. Take the first round turn over all about two inches from the bend and draw taut, following with as many more turns as may be required and working toward the loop, as shown in the sketch, but keeping the turns close together. Then pass the long end through the bend or loop, pull on the short end to draw the bright well under the turns, and then cut off the ends close.

Drip Feeds. The clouding of sight feed glasses, which very quickly become opaque, can be prevented in a very simple manner. The cause of the trouble is that the heat of the lubricating oil in the crank chamber generates a smoke, which gets up the oil pipes and renders the glasses opaque. To prevent

WHAT A DRIP FEED IS LIKE.

this, make a U bend in all the oil pipes (as shown in the sketch) at some point in their length where they are horizontal. The bend will make no difference whatever to the flow of oil. It does not obstruct it from going forward to the crank chamber, and smoke cannot return.

Have Two Jacks. The careful motorist should have two jacks, one to carry in the car and the other to keep in the motor. The jack should have a long handle so it will not be necessary for you to crawl under the car each time you want to place the jack in position.

Get New Springs. Valve springs, like other parts of a motor, will not remain the same forever. After all methods have been tried and the motor still lacks its usual power a new set of springs will usually remedy the trouble.

Spare Asbestos Washers. Spare asbestos washers should always be treated before being placed among the spares on the car. A six hours' soaking in olive oil, followed by a draining and brief drying and a final rubbing in of fine black lead, will give a good tight washer that will come adrift cleanly at any time.

COURSE NOT.

The Girl—There's a sucker at the end of that line. The Boy—Not at this end.

COULDN'T TURN.

Sam—Look heah, Lise, youse going too far wid me. Doan yo' know dat if yo' tread on a worm it will turn? Lise—Dat's all right, but if yo' eber gets dem feet ob yours on one it won't.

Descriptive. "What does this represent?" I asked the realistic artist, as I paused to examine a picture showing an old man, totally bald, save for a single lock of hair on his forehead, and a well-dressed, stalwart young fellow, who was in the act of branding the older man with a huge wrench. "Man alive!" sputtered the artist with irritation. "Have you no powers of perception whatever? Why, any child would know that the picture represented 'A Plumber Killing Time.'"

J. A. CHISHOLM NO MORE WITH LIVING

Announcement is made of the death of J. A. Chisholm, formerly principal of the Seney schools when that Schoolcraft county burg was thriving and paid a salary superior to that of many a city superintendent. Mr. Chisholm was also for some time commissioner of schools of School-

craft county. He was possessed of great educational ability and after leaving the upper peninsula held various positions of responsibility and large remuneration in southern Michigan. He passed away at Montague.

PROFANITY BARRED FROM BALL FIELD

Profanity, a characteristic of every-day American life and generally permitted on the stage, is strictly tabooed on American association ball fields this year. President Chivington, some time ago issued his ultimatum, and in a letter the other day to Jerry Freeman reiterated his stand. Chivington called attention to Jerry's slip of the tongue in one of the games at Toledo, and declared that if the first sacker belches forth any torrid talk in the future the ante will be raised to \$25. It was \$10 for the first offense.

START IS MADE TO MAKE STATE "DRY"

Missionaries of the Prohibition Party Are Out in the Field Now Obtaining Card Pledges from the Voters—Hope to Secure 765,000 Names Before Election.

Detroit, Mich., May 3.—An effort of the Prohibition party in Michigan to make the entire state dry in the election next November has been started with the placing of 20 young men at various points, who are busy circulating small cards on which recipients are requested to affix their signatures as a pledge to support the movement.

It is the hope of the Prohibition state committee to secure the names of 165,000 residents of the state before election time next fall, and Supt. Mason declared today the cards are coming into headquarters here at a rate of 250 per day. He also declared 10 per cent of the names received are original Prohibition voters, the remainder being from the ranks of the Democratic and Republican parties.

The present plan of the state committee is to add from 30 to 50 more men to the card circulating force next month. These men will first go through a school of training for the work, one of which is now located in charge of B. C. Hoyt, a veteran prohibition worker. Two other schools will be opened next month. The men will be educated in the method of procuring supporters of the cause.

The idea of the state committee is to elect a purely prohibition legislature and governor this fall. Joseph P. Tracey of Detroit is spoken of as the gubernatorial candidate, but as yet has made no definite announcement of his intentions. It is expected the party will have fully 200 workers in the field soon to work for the cause until election.

The Michigan movement is similar to a recent one in Minnesota, where 50 young men went into the state and succeeded in changing the Prohibition vote from 4,000 to 54,000.

DISTRICT SOCIETY TO MEET IN MARINETTE

Marinette, Wis., May 3.—The Northwestern Michigan District society will hold its semi-annual meeting in the Swedish Evangelical Mission church, corner of Menashaue avenue and Tenth street, beginning Wednesday evening and continuing every night of the week with four meetings on Sunday.

All the pastors of the district will be present from Wednesday to Saturday and four or five will stay over Sunday. The district consists of all the Swedish Mission congregations of Northern Michigan and some parts of Wisconsin and missions in various small places of Northern Michigan and Wisconsin.

AMATEUR RAISES A BLUE ROSE

Morristown, N. J., May 3.—A blue rose, something for which the horticulturists have long striven in vain, has been achieved at last by a Morristown amateur. The plant is a seedling of the ordinary crimson rambler. The flowers on opening have a purple-pink shade, which later developed into a brilliant steel blue.

AMAZING CRUELITIES ARE CHARGED

Washington, May 3.—Amazing cruelty and atrocities in Nicaragua are detailed by Narciso Arellano, a citizen of Nicaragua, in a letter to the American consul at Managua. His letter says that the officials are torturing men and boys by hanging them by their thumbs to extort confessions regarding the movements of the insurgents. Many are thrown into prison, and then their property

HENRY CLAY'S STATUE PUT UNDER GROUND

Lexington, Ky., May 3.—To stop the vandalism of curio hunters, a gigantic stone statue of Henry Clay, which for half a century has topped a shaft 100 feet high in the Lexington cemetery, was lowered yesterday and buried near the mausoleum containing the bodies of the statesman and his wife.

AND TEACHER "GUZINTU" FITS

Ypsilanti, Mich., May 3.—The teacher in one of the lower grades in a local school, recently heard one of her little girl scholars making a peculiar noise with her teeth and mouth. She walked down closer and listened to it. It sounded like "guzintu, guzintu, guzintu."
"Why, what are you doing, Margaret?" asked the teacher.
"I'm studying my guzintus," was the tart reply of the youngster.
"What are your guzintus?" queried the teacher, perplexed.
"Why, don't you know?" asked Margaret in surprise, "why, one guzintu two two times, two guzintu six three times, three guzintu nine three times, and so on."
The teacher admitted it was a new one on her and returned to her desk, suppressing a hearty laugh with difficulty.

ALMOST CHICKENS.

"They say that if you drop an egg in the water and it is light enough to float it is bad." "Almost as light as feathers, I suppose."

A CLEVER GRAFTER.

James B. Dill, whose recent speech on "Graft" at Oberlin college attracted so much attention, told recently, apropos of "graft," a story about a swindling tramp.
"This tramp," said Mr. Dill, "had the alert, unscrupulous, bold mind that makes 'grafting' successful."
"He was walking in Chicago one day when he saw a little boy stoop and pick up something."
"He crossed over to the boy quickly."
"You have made a find, my lad," he said.
"Yes, sir," said the innocent boy. "I have found a silver ring."
"I thought so," said the tramp. "It's the one I just dropped. Now, ain't it lucky I had my name cut in it?"
"What's your name?" said the boy, suspiciously.
"Sterling, lad."
"Take it, then. It's yours," said the boy, handing over the ring with a disappointed air.—Judge.

Discussing the Air Ship Subsidy.

Excited American (in the subsequent)—It's a shame the way our merchant-airline has dwindled. Why, fifty years ago, sir, the American flag was respected in every air over the globe! Calm American—Yes; and it will be again, sir, when we have an honest tariff revision, and can build air ships in this country as cheap as they do abroad.—Puck.

SURELY HAD NARROW SQUEAK FOR LIVES

Sault Ste. Marie Paper's Version of the Canadian Pacific Wreck Wherein an Escanaba Man and Others Had a Miraculous Escape from Serious Injury or Death.

The Sault Ste. Marie Evening News of Monday tells the following story of the Canadian Pacific wreck Saturday afternoon, in which T. M. Judson of this city was a participant, as related in The Mirror yesterday:

"Tom" Reynolds, hero conductor of the Spanish River wreck, where when several Canadian Pacific passenger coaches were precipitated into the icy waters and with Herculean strength he pulled to safety through the roof of the submerged diner nearly a dozen persons, stepped smilingly off No. 7 Saturday evening shortly before 7 o'clock, just as much alive as ever, in spite of the fact that reports said "Tom" Reynolds had been ditched," but came out without a scratch.

No. 7 was running along about twenty-five miles an hour about a mile and a half west of Spanish River Saturday afternoon shortly before 1 o'clock. It was a long train, the sleeper bringing up in the rear, preceded in order by the diner and first-class coach. Six persons were in the sleeper and two passengers in the diner. Conductor Reynolds was there also.

Suddenly something went wrong and the two rear coaches, the sleeper and diner, had crashed over on their sides and the first-class coach was still standing upright, but at a little angle from the track. A crash and it was all over. A few screams from the occupants of the coaches thrown over was about all there was to it, besides the general scrambling to get out via the windows. Nobody seemed the worse for the shaking up except W. W. Kirby of Windsor, Ont., who, feeling something was going awry, had jumped through a window and in doing so had sustained a cut to his back. He maintained he wasn't badly hurt and wanted to continue his journey upon arriving at the Canadian Soo, but there he was obliged to go to the general hospital.

The delay was only about half an hour. The other portion of the train was all right, and as soon as personal baggage could be transferred to them, the trip to the Soo was resumed. Upon arriving here, the train was an hour and 40 minutes late, but a portion of this delay was met before the wreck. A wrecking outfit was sent up from Webbwood, and it was not anticipated that it would occupy much time in replacing the coaches. Considerable repair work was to be done to the track.

"The wreck didn't amount to anything," said Conductor Reynolds. "It delayed us only about half an hour. Wrecks that kill nobody don't amount to anything."

SOO HEN LAYS ONE OVER BRAMPTON HEN

Performance of Black Minorca Owned by Allen Tyrrell Is Outdone by a Hen Proudly Possessed by a Soo Man—Brampton Hen Must Get Busy Again.

The recent performance of a Black Minorca hen owned by Allen Tyrrell of Brampton in laying an extraordinarily large egg appears to have been outdone by a hen owned by A. W. Lomas of Sault Ste. Marie. Mr. Tyrrell should not allow the big egg honor to escape from him. Perhaps he can regain it by reading the following from The Soo Times to his record egg layer and excite her pride so that she will lay an egg still larger than that of her Soo rival:

"Last week The Times published a clipping from The Escanaba Mirror showing that Allen Tyrrell of Brampton had displayed an egg laid by a Black Minorca hen which measured 8 1/2 inches around the long way, and 6 1/2 inches around the short way (weight not given) and we expressed the fear that Judge Holden's famous hens had been outdone and the Soo had lost the record for large hens' eggs; but our fears were groundless, as clearly appears by the following letter received today from Mr. A. W. Lomas, who lives on Armory Place, this city, and who has shown the one-third of a pound egg to many of our citizens. The letter is as follows:

"I recently purchased from Mr. L. C. Holden a Single Comb Black Minorca hen, said to be eight years old, that on April 10, 1910, laid an egg 9 inches around the long way and 7 inches around the short way, and it weighed on the druggist scales, five and one-half ounces.

Yours,
"A. W. Lomas."

WATCH FOR THE COMET
The Red Dragon of the sky. Watch the children for spring coughs and colds. Careful mothers keep Foley's Honey and Tar in the house. It is the best and safest prevention and cure for croup where the need is urgent and immediate relief a vital necessity. Contains no opiates or harmful drugs. Refuse substitutes.

FEAR OF CHARIVARI LEFT HIM WIFELESS

St. Paul, May 3.—Swann Anderson, a farmer on the north arm of Lake Minnetonka, lived for fifteen years in such dread of a charivari that he remained unmarried.

Recently he died and left a will, making Mrs. Mary Danielson, his housekeeper, his sole legatee. Ira Nolan, a relative, is contesting the will in the Hennepin county district court.

On behalf of Mrs. Danielson, who feels that she is entitled to the estate according to the terms of the will, a mass of testimony has been introduced to show that Anderson, during the last 15 years of his life, was in love with her and wished to marry her, and that he was deterred therefrom only by his dread that the boys of the neighborhood would render his life a burden by an old-fashioned charivari.

No decision in the case has been handed down.

ESCANABA NEEDS A SOCIETY LIKE THIS

The Humane society of Iron Mountain has reelected its officers, as follows: Alfred Cruse, president; L. E. Amidon, secretary-treasurer; E. E. Brewster, T. H. Barron, John Larkin and T. A. Hanna, members of the executive committee. The society was organized two years ago. Its object is two-fold. The first is to endeavor to protect song birds by offering a reward for information leading to the conviction of anyone destroying them. The second is to help more closely to enforce the anti-cruelty laws of the state. Numerous cases have been investigated under each of the above objects.

On the charge of killing song birds four arrests have been made the past two years, and fines and costs amounting to \$65 have been collected. There have been four arrests for cruelty the last year. Of the four there were three convictions with fines and costs of over \$15. The society has a standing reward of ten dollars for information leading to the conviction of anyone killing song birds. The annual dues are fifty cents, with no further liability. At present there are forty members. In addition there are a few especially interested who will see that the society is kept on its feet financially.

THE MOST ENVIED WOMAN NOVELIST

The most envied woman novelist of today is Selma Lagerlof, whose selection as a winner of the Nobel prize for 1909 is the greatest public reward attainable. Madam Curie (for the discovery of radium) and the Baroness von Suttner (for her efforts in behalf of peace) are the only other women who have received this prize. Miss Lagerlof also has received an honor never before conferred upon a woman in Sweden—an honorary degree from the University of Upsala. On her fiftieth birthday, a little more than a year ago, she was the recipient of a great ovation. The best known literary men and women sent her eloquent expressions of their admiration and esteem. She now is living in a small town, and is writing another novel which will be published soon.

RAISES TROUT AND DEER FOR MARKET

Birchwood, Wis., May 3.—H. P. Nelson has procured twelve more deer from Minnesota which will help swell the herd he is raising to sell. Trout raised by Mr. Nelson now measure six inches and will soon be ready for sale. This unique enterprise seems likely to be successful and deer or fish are expected to find a ready market.

If there's a half-likelihood of your moving soon, the want ads are LIVE reading matter for you nowadays.

ARMSTRONG FINED AND SENT TO PRISON

Jackson, Mich., May 3.—A. Armstrong, former warden of the state prison, was on Monday sentenced by Judge Parkinson to pay \$5,000 and a year's imprisonment at the Detroit house of correction for accepting a \$100 bribe from Fred Green, an Ionia contractor, to use his influence on the prison board in getting Green a contract.

Armstrong immediately paid the fine. The bribe was offered by Green as a bait and Armstrong was caught with the marked money.

MR. ORR IS NOW WITH MACCABEES

Emerson A. Orr of Petoskey, for the past three years district deputy of the Modern Woodmen of America, his territory including northern Michigan and the upper peninsula, has resigned his position to take the deputyship of the Maccabees of the World. Mr. Orr is known as one of the most successful of the fraternal orders' organizers and has been the means of making the Woodmen very strong in this section of the country. He expects to move his family from Petoskey to the Soo, which he will make his headquarters.

CHANGES MADE IN THE CUSTOMS FORCE

Thomas Blain has been appointed deputy collector and inspector on the Sault Ste. Marie customs force, filling the vacancy created through the death of Hugh McLarney. Harry A. Mosely has been appointed deputy collector and inspector at the port of Superior. A. M. Dolg, formerly of the Soo, who has been stationed at Superior since his appointment last summer, has been transferred to the port of Gladstone. Ira Perry, who has been employed at the depot, has been appointed opener and packer at the port of Gladstone.

SURE THING.

Antiquarian—The public is waging war against the milk trust.
Frog—Yes, and the public will be next to take water, as usual.

Antique Tables.
An old gentleman was proudly exhibiting some of his most valued possessions to a friend who had called to see him. "That table," he said, with the pride of a connoisseur, "is 500 years old."
"That's nothing," came the startling reply from the visitor's son, who was accompanying his father; "we have one at home which is 3,000 years old."
"Impossible, my dear boy—impossible. What kind of a table is it?" said the old gentleman.
"The multiplication table,"—Tit Bits.

Acquiring Wisdom.
"What kind of a plant is this?" queried the fair summer boarder.
"It's a tobacco plant just beginning to blossom," explained the old farmer.
"Indeed!" exclaimed the f. s. b. "And how long will it be before the cigars are ripe?"

The Optimist's Corner Daily Helps to Health and Happiness

By GEORGE F. BUTLER, A. M., M. D.
A prolific cause of chronic indigestion is eating from habit, and simply because it is meal time and others are eating. To eat when not hungry is to eat without relish, and food taken without relish is worse than wasted. Without relish the salivary glands do not act, the stomach juices are not freely secreted and the best of foods will not be digested. Many perfectly harmless dishes are severely condemned for no other reason than that they were eaten perfunctorily and without relish. Hunger makes the plainest foods enjoyable. It causes vigorous secretion and outpouring of all the digestive fluids, without a plentiful supply of which no foods can be perfectly digested. Wait for an appetite, if it takes a week. Fasting is one of the saving graces. It has a spiritual significance only through its physiologic importance. If breakfast is a bore or lunch a matter of indifference, cut out one or both of them. Wait for distinct and unmistakable hunger, and then eat slowly and chew the food well. If you do this, you need ask few questions as to the propriety and digestibility of what you eat. Some men use up so much nerve force in eating and digestion that they have nothing left with which to achieve those triumphs which, otherwise, would be easy to them.

Non-Detachable.
Witness—At the time of the accident my maid was in my bozoor arranging my hair.
Lawyer—Yes; and where were you?
Witness—Sir!

THE SOUND SLEEP OF GOOD HEALTH

Is Not for Those Who Suffer From Kidney and Bladder Ailments.

Sleep, sound and plenty of it, is one great necessity of health. Any ailment that prevents your sound natural sleep must be cured at once or you will lose your good health, your strength, your vigor, your ability to do your work easily and naturally and your interest in your family and friends.

Kidney diseases and irregularities of the bladder and urinary organs are one great source of sleeplessness, and these must be cured or your health will be undermined and your life in danger.

Foley Kidney Pills.
Get first a quick relief and then a permanent benefit for these troubles. They are very carefully compounded of ingredients specially selected for the cure of all disorders of the kidneys and urinary organs and they are besides strengthening, healing and antiseptic and tonic in quality and action. If you have aching pains over your hips and in your back with a soreness through your kidneys, if you are compelled to get up many times during the night, thus losing your sleep, and if you are compelled to get up many times during the night, thus losing your sleep, and if you have a painful and burning sensation; then you need Foley Kidney Pills. If there is a cloudy or milky voiding, with floating particles or a brick-dust sediment, or if there is a sand-like substance passed, then you need Foley Kidney Pills. If you are nervous, have dizzy spells, especially in the morning, with specks before the eyes, then do not delay longer, as all these symptoms show a disordered state of the kidneys and bladder, which must be cured before you can regain health and strength.

For sale by all druggists.
Do You Know Why You Have These Ills?
Because the kidneys whose sole duty it is to get rid of the waste matters that poison the system are diseased, are not working properly and these poisonous matters are carried back through the system by the
