## BUT TWO CHANGES MADE IN THE LIST

### MAYOR GREENHOOT LEAVES PERSONNEL OF CITY OFFICERS AND EMPLOYEES ALMOST INTACT

### COMPLETE SLATE GOES THROUGH.

Appointments Are Confirmed by the Council, the Vote Standing 7 to 6—Andrew Iverson Succeeds George Rowe as Police Chief and G. M. Mashek is New Park Commissioner Complete List of the Appointments and Details.

City Attorney—Ira C. Jennings. City Engineer—D. A. Brotherton. City Physician—Dr. J. O. Groos. Health Officer—Dr. Harry W. Long. City Street Commissioner—Peter Holmes. Poor Commissioner—N. J. Blanchet. Pound Master—Henry McFall. Scavenger—William A. Martens. Fire Department—Chief, Herman Kamrath; captain of No. 1, William Meler; captain of No. 2, A. Johnson; drivers, S. Anderson and John O'Donnell; linemen, August Gaboric, V. Rondeau, J. Brunelle, William Bray and John Young. Police Department—Chief Marshal, Andrew Iverson; city detective,

ANDREW IVERSON, Appointed last night to succeed Geo. Rowe as chief of police.

George McCarthy; patrolmen, D. McCauley, M. Stern, A. Gaboric, Neil Nelson, Knute Larson, Charles Larson and Hugh Early. Member Board of Public Works—Edward Erickson. Member Park Commission—George M. Mashek.

Confirmed by Close Vote. These are the appointive officers and employees of the city who were named by Mayor Solomon Greenhoot at the regular meeting of the common council Tuesday evening and the appointments were confirmed by the close vote of 7 to 6, all of the members of the council, except Alderman Priester, being present. Alderman Priester is confined to his home by illness. The vote on confirmation of the mayor's appointments was as follows: Ayes—Aldermen George Sherman, John P. McColl, John Schmidt, Louis Folio, A. J. Valentine, Charles Nelson and E. J. Kirkpatrick—7. Nays—Aldermen E. C. Wickert, Paul Jaegers, F. T. Long, E. M. St. Jacques, John Garrity and Carl Johnson—6.

But Two Changes Made. As forecasted by The Mirror yesterday,

day, there were but two changes made in the entire list of appointees from the former personnel of the office appointments. One was the appointment of Andrew Iverson to be chief of police, vice George Rowe, and the other the nomination of George M. Mashek to succeed W. B. Linsley as park commissioner. The offices of city chemist, now held by Dr. O. C. Breitenbach, and that of garbage master were not included in the appointments made Tuesday evening. Mayor Greenhoot will make these appointments after the council has taken action upon an ordinance regularly creating the office of city chemist and after the health authorities are ready to require the services of the garbage master. The proposed ordinance creating the office of city chemist and empowering the mayor to appoint its incumbent was introduced at the meeting Tuesday evening and referred to the ordinance committee.

## PRETTY WEDDING IS SOLEMNIZED TODAY

Miss Marguerite Lenore Raymond and Roy Herman Zipp are United in the Bonds of Happy Wedlock—Wedding Breakfast Follows Ceremony—Leave on Trip.

The marriage of Miss Marguerite Lenore Raymond and Roy Herman Zipp was solemnized this morning at 9 o'clock at St. Joseph's parsonage, Rev. Father Julius officiating. The wedding was attended only by members of the bride's family. Miss Raymond is the daughter of Mrs. Virginia Raymond, 311 Jennie street, and is known to many people in the city, having recently acted as collector for The Daily Mirror. Mr. Zipp, who is employed as city salesman for the Armour company, has been in Escanaba about a year. After the marriage ceremony had been performed a wedding breakfast was served at the home of Mrs. Ivan G. English, the sister of the bride, 307 Wells avenue. The decorations consisted of Killarney roses and ferns.

The newly wedded couple, left on the eleven o'clock train for Merrill, Wis., where they will visit at the home of Mr. Zipp's parents for two weeks.

## SWITCH ENGINE GETS "CROSSED" ON RAILS

The switch engine at Norway, on the Chicago & Northwestern railway went crosswise of the rails on the bridge over the street with the result that traffic was delayed on the old line from eight o'clock Monday evening until nine o'clock yesterday morning.

The locomotive was not damaged to any great extent, but some damage was occasioned to the ties when the engine swung crosswise of the structure. The wrecker was sent out from Escanaba and the crew labored all Tuesday morning to replace the "iron horse" to its former position, while the bridge crew from Iron Mountain meanwhile set about to make the repairs. During the time the engine was being placed on the rails, and the bridge being repaired, the trains were sent over the new line.

As a result of the mishap, the fireman on the engine had one of his legs broken in two places. He is now in a hospital.

## ESCANABA COUPLE WEDDED AT IRONWOOD

Without Notifying Their Most Intimate Friends of Their Intention, Mrs. Annie F. Hohlfeldt and Henry Abenstein Go Away and Come Back Married—Story.

Without notifying even their intimate friends and keeping the secret to almost the last moment, Mrs. Annie F. Hohlfeldt and Henry Abenstein were married yesterday at Ironwood, Rev. Father Buchholz, a brother of the bride, performing the marriage service.

Last night there was a meeting of a club to which the bride belonged and at which she was to have read a paper. Instead of being present to read it, the manuscript was sent to the secretary to be read by one of the other members. There was where the first inkling of the wedding cropped out. After talking it over, the women decided that they would wait on the corner until the street car from the late train arrived and satisfy themselves that their surmises were correct.

Sure enough, when the car stopped at the corner of Ludington street and Dousman avenue, the couple alighted and the watching members of the club knew that they had guessed the truth. Mr. and Mrs. Abenstein were taken in charge by the party and escorted to their home, but the women would not allow them to enter until they had admitted the fact of their wedding.

The bride is the daughter of Jacob Buchholz and the bridegroom is one of the city's best known business men. He has had charge of the Hohlfeldt jewelry store for a number of years and is prominent in local affairs.

## ESCANABA YOUNG MAN STOOD SECOND

Mrs. George Young has just received a letter from her son, George who is at Brooklyn, N. Y., and a member of the submarine flotilla of the United States navy. In order to be long to the submarine branch of the navy it is necessary to take a special examination on secret subjects that only come up in the submarine work. This examination was taken by George Young recently and he stood second in the list of those that took the work.

## NORTHWESTERN ORE CARS ARE DERAILED

About 7:15 o'clock last evening eight or nine ore cars were accidentally derailed and piled into a heap on the main track of the Chicago & Northwestern road near the south "Y" in this city.

Men were immediately set to work clearing away the wreckage, but the work occupied some time and the Soo and nine o'clock Northwestern passenger, southbound, did not get in until 9:15 o'clock.

## FORMER MAYOR GETS THE "AUTO FEVER"

One of the latest enthusiasts to join the ranks of automobile owners is ex-Mayor M. Perron, who has placed an order for a Cadillac "30," which will be shipped from the factory within a few days. The car that has been ordered by Mr. Perron will be delivered complete with all the necessary luxuries. The side and tail lights will be electric and the car will be fully equipped with slip covers for the seats, wind shield, speedometer, foot rail, robe rail and tire irons. Mr. Perron has had the "fever" for some time, but was slow to order as he wanted to see what his friends would buy and what kind of luck they would have with their cars.

City Poor Commissioner N. J. Blanchet, who has been occupying the city treasurer's office in the city hall, has moved across the hall and is now located in the room just east of the mayor's office. City Treasurer Frank J. Hess is now in sole possession of the treasurer's office.

## WIRELESS STATION CERTAIN TO COME

COMPANY'S MEN ALREADY AT WORK MAKING PREPARATIONS FOR ITS COMPLETION

### WILL BE IN OPERATION SOON

Mayor Greenhoot Receives a Gratifying Letter From an Official of the Great Lakes Radio Telephone Company, Praising Action of the Common Council in Aiding Toward Establishment of Station in This City—The Letter.

That there will be no "flash in the pan" regarding the establishment of a wireless telephone or telegraph station in this city at an early date is sufficiently indicated by a letter which Mayor Solomon Greenhoot received today from the assistant manager of the Great Lakes Radio Telephone company, which was recently given permission by the common council to erect a station upon land leased by the city for park purposes.

The letter gives assurance that a station will be established here shortly and that the citizens of Escanaba will have reason to congratulate themselves upon its acquisition. For the gratification of Escanaba citizens generally the letter itself is here reproduced in full. It is as follows: Text of the Letter.

"Chicago, Ill., May 3, 1910.

"His Honor the Mayor of Escanaba, Escanaba, Mich. "Dear Sir:—The Great Lakes Radio Telephone company takes pleasure in expressing its appreciation of the modern and expeditious business-like method by which you permitted our representative to place our proposition before yourself and the honorable council.

"Our men are now actually at work making preparations for the speedy completion of our station in your city. "The Great Lakes Radio Telephone company is going to give the citizens of Escanaba BETTER, FASTER and CHEAPER communication than they have ever had before.

"We hope to have the enthusiastic support of yourself and every citizen of Escanaba in our undertaking.

"Within a year from the time our station goes into commission you will count the day lucky when the Great Lakes Radio Telephone company selected Escanaba as one of the links in its chain of wireless stations. Very sincerely, Great Lakes Radio Telephone Co."

## BOARD OF SPECIAL ASSESSORS NAMED

Although not included in the list of appointments, given elsewhere in this issue, Mayor Greenhoot last evening appointed the board of special assessors for the coming year and the appointments were unanimously confirmed by the council. The members of the new board of special assessors are: City Assessor C. C. Stephenson, City Engineer, D. A. Brotherton and A. E. Ellsworth Jr.

## PROSPECTIVE BRIDE TENDERED A SHOWER

Miss Edith Rose, daughter of Mr. and Mrs. L. A. Rose, who is to be married in June to Robert J. Franson of Chicago, was the recipient last evening of a miscellaneous shower at the hands of the members of the Protected Home Circle in their lodge hall. There were present about thirty of Miss Rose's fellow members of the circle and a delightful time was enjoyed, while the prospective bride received many parcels containing articles which will be useful to her in her wedded life. One of the crowning features of the occasion was the presentation to Miss Rose of a wedding cake covered with roses.

Miss Anna Sjoblad and William Wick, both of this city, were united in marriage Monday evening, the ceremony being performed at the Swedish Lutheran parsonage by Rev. C. A. Lund. The bridal couple's attendants were Miss Hilda Bonn and Erick Anderson. Mr. and Mrs. Wick will continue to make their home in Escanaba.

## ESCANABA ESCAPES DISASTROUS FIRES

During the Last Year the Total Fire Loss in City was But \$2,600, According to Annual Report of Fire Chief—Recommendations Made to the Council.

Escanaba during the last year has been remarkably fortunate in escaping heavy losses by fire. According to the annual report of Fire Chief Herman Kamrath, submitted to the common council Tuesday evening and ordered placed on file, the total loss by fire in the city during the past year was but \$2,600 on buildings and contents. The significance of these figures may be seen in the further statement that the insurance on the buildings where fires occurred amounted to \$14,000, while on their contents it amounted to \$19,700.

From these statements it is not difficult to estimate the big total value of the property that was endangered by flames and saved largely through the efforts and efficiency of the fire department.

Fifty-nine alarms were responded to by both companies during the year. In his report Chief Kamrath strongly recommended the establishment of a fire station in North Escanaba, some where near the Chaffield foundry, with a company and the necessary equipment to protect the ever increasing manufacturing industries in that section.

Chief Kamrath also requested that the fire chief be provided with an office and with a horse and buggy, the latter to be used for making duty calls to the different fire stations, etc.

He recommended the purchase of four fire alarm boxes, two to be placed in North Escanaba, one in the Hessel addition and one near Birch street. He also recommended a general overhauling of the line and the reserve hose wagon.

In the report the chief included a complete inventory of the fire department equipment and the fire alarm system.

## CITY PROFITS BY LIGHTING PLANT

Escanaba's municipal lighting plant appears to be a profitable investment for the city. According to a report presented to the council last night and which was ordered placed on file, the plant earned during the eleven months from April 30, 1909, to March 31, 1910, \$12,454.98 over and above all expenses. The cash on hand March 31 was \$5,604.75. The gross earnings for the period noted were \$43,228.36 and the net earnings \$40,347.44, while the operating expenses amounted to \$27,892.46. The total collections were \$45,291.54, of which \$2,382 was on old accounts.

At the date of the report the plant had 1,252 patrons, of which number 1,120 were consumers of electricity and 132 users of gas. The valuation of the plant was \$69,461.79. During the eleven months the overdraft against the plant had been reduced to the extent of about \$4,000 and the bonded indebtedness lessened by \$2,500. The report was largely in detail and listened to with considerable interest by the aldermen and large number of citizens present in the council chamber.

## TENDERLY LAID IN LAST RESTING PLACE

Impressive services over all that is mortal of the late Mrs. Walter E. Martin were conducted at 2:30 o'clock this afternoon at the home of the Martin family, 242 Michigan avenue, and were largely attended by friends of the deceased, who was held in high regard and affection by all who enjoyed her friendship. Rev. P. B. Ferris conducted the funeral services and preached a short funeral sermon, after which the remains were taken to Lakeview cemetery and tenderly given burial.

As testimonials of love and respect for Mrs. Martin's memory there were a large number of beautiful floral offerings. The musical part of the services was contributed by Mrs. Eugene Royce and Oliver Thatcher, who sang, and by Miss Sarah Thatcher, who accompanied them on the piano. The pall-bearers were: Albert J. Young, Matt Fillion, A. H. Ryall, G. M. Harberie, C. M. Thatcher and E. C. Voght.

## COMMITTEES TO MEET TOMORROW EVENING

Mayor Greenhoot Gives Notice to Their Members to Meet in the City Hall for the Purpose of Nominating Candidates for the Charter Revision Commission.

Mayor Solomon Greenhoot today sent notices to the members of the several charter revision committees notifying them that a meeting will be held in the council chamber at eight o'clock tomorrow (Thursday) evening for the purpose of taking up the work for which the committees were appointed.

As previously explained in these columns, the committees have been assigned the task of selecting suitable men to stand as candidates for the charter revision commission, which is to be elected at a special election on May 23.

This commission will consist of ten members, one from each of the wards and three from the city at large. It is expected that the candidates the committees nominate will be satisfactory to the citizens of the city generally and that their election will be without opposition.

Following is the personnel of the several committees that have been appointed for the purpose indicated:

Representing the common council—Mayor Solomon Greenhoot, Aldermen J. P. McColl, E. M. St. Jacques, Paul Jaeger and John Garrity. Representing the Escanaba Business Men's association—Ex-Mayor M. Perron, Dr. W. A. Cotton, W. R. Smith, Hon. Peter Jensen and City Attorney Ira C. Jennings. Representing the Trades and Labor Council—Frank Bacon, Charles Ford, C. C. White, Louis Folio and Joseph Eis.

## SHOOTING TOURNAMENT IS SET FOR MAY 28

At a meeting of the Nook de Nook Gun club it was decided to arrange for a series of shooting contests to take place on Saturday, May 28, at the grounds of the club at Wells.

The complete list of events has not been planned as yet, but the committee that has that matter in charge will have the full schedule made out in a few days. Invitations will be sent out to sharpshooters throughout adjacent territory and it is likely that a goodly number of sportsmen will try for the trophies that will be hung up by the club.

## NOT FAVORABLE TO STEEL MAGNETS

(By Associated Press.) Washington, D. C., May 4.—The report of the bureau of labor on the conditions of the steel works at South Bethlehem, was submitted to the senate this morning and is not very favorable to the steel magnates. According to this report, 2,322 men worked twelve hours a day and seven days a week and that the large percentage of them only earned about 12½ cents an hour.

## SENSATION IN THE CITY COUNCIL

CITY CHEMIST BREITENBACH PAYS HIS RESPECTS TO CERTAIN OF THE ALDERMEN.

### THEY RECENT HIS ACCUSATIONS

Breitenbach Declares Three of the Aldermen Have an Unworthy Motive Opposing Ordinance Creating Office of City Chemist—Appeals to Council to Stand by Those Who Are Working for Better Sanitary Conditions.

Dr. O. C. Breitenbach, city chemist, created something of a sensation before the common council last evening when he emphatically declared that Alderman A. J. Valentine of the Sixth ward, Alderman E. J. Kirkpatrick of the Fifth and another member of the council, whom he did not name, were actuated by unworthy motives in seeking to prevent the passage of the proposed ordinance creating the office of city chemist, which ordinance had previously been introduced and referred to the ordinance committee.

Alderman Kirkpatrick and Valentine vigorously resented Dr. Breitenbach's remarks when their turn came and just as emphatically denied the charges he brought against them. The discussion became quite warm and threatened to grow hot, but Mayor Greenhoot called it off before it reached the latter stage.

### By Special Request.

In opening his talk to the council Dr. Breitenbach stated that he had proposed to make a long report at some future time relative to the matters of which his office has charge, but that some things had arisen within the last few days that made a report of some kind necessary at this time. He stated that he had been specially requested by several aldermen to make a statement of conditions at this time. He reviewed what has been done since 1905 in making Escanaba a more sanitary city and gave some figures showing that in 1905 there had been a total of thirty deaths from typhoid fever, entailing a monetary loss of approximately \$88,000. These facts, which he presented in a previous report, alarmed the citizens of the city and they got busy in an effort to remedy the situation. One of the results is a filtering plant which is equal to any of its size in the United States. He said he has all along insisted that a filtering plant without close and constant inspection is useless. This inspection he has given. He took great pride, he said, in the fact that the city has gone at least one month (last April) without one death from typhoid, and he expressed the belief that the disease has practically been annihilated.

Dr. Breitenbach spoke of the doubtful appearance of the water since the spring breakup and of the fears its color had occasioned. He said there was no need to be alarmed. The cause of the discoloration had been investigated and found to be simply the large amount of snow water flowing into the bay from the rivers and creeks, not chemicals used in the filtering plant.

### Comes to the Point.

Coming to the proposed ordinance creating the office of city chemist, Dr. Breitenbach said it was immaterial to him whether the office is perpetuated or not, but he felt in duty bound

 May 11.—Martin's "Uncle Tom's Cabin," at the Peterson.  
 May 23.—Special election to elect city charter revision commission.

#### CHANGE IN POLICE CHIEFS.

In the passing of Chief of Police George Rowe Escanaba loses one of the best chiefs of police that the city has ever had. He has not been let out through any fault on account of his work, but because the police department is part of the political machine that is disgusting to every fair minded person.

The new chief of police has been a most efficient patrolman and his promotion is justified and well merited. He will make a good chief, but takes the position knowing full well that no matter how efficient he is or how well he does his duties as a public official, he may only hold the position one year, or two at the most. Escanaba should put the police and fire department on the civil service as soon as it can be done. Cut out politics and make the town better.

#### A Poor Doctor.

Ruth and Louise are chums, and were one day deploring the fact that there was not a baby in either home. Ruth said: "I've just been begging my mamma to get Dr. O— to bring us a baby girl." Louise spoke up quickly in a disgusted tone of voice: "O, I don't get him, he brought all the little Miller children; there's so many of them, and they are all so homely."—Delineator

#### A New Punishment.

There are numerous ways of punishing a man. Sometimes he is sent to the penitentiary; sometimes he is hanged. Why not order him to attend a dance, remain until three o'clock in the morning and then force him to arise at the usual time next morning and perform his usual work all day? That would be something new and exquisite in punishment.—Achtison Globe.

#### The Mule's Intelligence.

"Dat ol' mule knows dat plowin' time has come," said Brother Dickey. "W'en I gone ter der barn ter feed him dis mawin' he had done kicked de do' loose, jumped two wire fences an' swimmid de mill pon' ter de big wech. W'en you stops ter consider de few advantages de mule hex had de 'intelligence er mere man can't hol' half a candle ter him."—Atlanta Constitution.

#### Learn to Accept Afflictions.

The afflictions to which we are accustomed do not disturb us.—Juvenal.

### WEDDING WAS EVENT IN DETROIT SOCIETY

The Detroit Free Press Gives an Interesting Account of the Nuptials of Miss Alta Poppleton and Attorney Charles T. Winegar, a Former Escanaba Man.

The following account of the recent Poppleton-Winegar wedding, taken from the Sunday issue of The Detroit Free Press, will no doubt be read with much interest by the Escanaba friends of the bridegroom who is the son of Capt. and Mrs. B. D. Winegar of this city and who was himself brought up here:

"Included in the number of attractive weddings in April's social calendar was that Wednesday evening of Miss Alta Winston Poppleton and Charles T. Winegar, of Iron Mountain. The relatives with a few close friends witnessed the ceremony, which was performed by Rev. Charles Brittan Clark at the residence of the bride's mother, Mrs. Mary Barclay Poppleton, 1189 Woodward avenue.

"Quantities of maples and palms formed a background in the parlor, marking the place of the ceremony. The living room was brightened with white iris, while golden iris was used in the other rooms. Yellow shaded candles and side lanterns shaded in yellow lent a mellow light blending charmingly with the yellow and white color note predominating in the floral embellishments.

"The bride wore a gown of cream silk cludy lace over ivory satin, elaborately trimmed with pearls and brilliants. A half crown of orange blossoms held in place a veil that fell in graceful folds to the edge of her court train. She carried an armful of white lilacs and lilies, tied with a large white tulle bow. She was unattended, while the groom's best man was his brother, Merrill Winegar. Mrs. Poppleton's gown was of black chiffon over white satin and trimmed with duchess lace. The groom's mother, Mrs. B. D. Winegar of Escanaba wore gray French crepe with Irish lace. Monday Dr. and Mrs. Robert C. Jamison gave a box party at the Garrick and a supper at the Pontchartrain and Tuesday Mrs. Manly Davis gave a dinner for the bridal party and relatives. After a trip to the Pacific coast, Mr. and Mrs. Winegar will be at home in Iron Mountain.

### NEW LAWS IN SIGHT FOR GREAT LAKES

Washington, D. C., May 4.—Health Commissioner Evans' bill to prohibit the pollution of Chicago's water sup-

ply through the dumping of dredgings and other refuse into Lake Michigan between the shore and the cribs has been passed by the house.

The bill makes it unlawful to dump refuse into the lake within eight miles of the shore line unless the deposit is made behind bulkheads or breakwaters. Any person violating the law may be fined not more than \$1,000 for each offense.

The conflict regarding jurisdiction over crimes committed on Lake Michigan will be ended if the senate adopts a joint resolution passed by the house. It grants consent to the states of Illinois, Indiana, Michigan and Wisconsin to enter into a compact "to determine and settle the jurisdiction to be exercised by such states respectively over offenses upon the waters of Lake Michigan.

### THIS FATHER IS HIS SON'S SON-IN-LAW

Forest City, Iowa, May 4.—John Whitlock, aged 18 years, and Mrs. Arville Leays, aged 33 years, were married yesterday. Young Whitlock's father is already the husband of the daughter of the woman the youth married.

Now, mathematicians are trying to figure out if the elder Whitlock thus becomes his son's son-in-law, if his wife is her mother's stepmother or if his mother-in-law is his daughter-in-law?

Some say that young Whitlock is his stepmother's stepfather, and his wife's daughter is his stepmother. The senior Whitlock's daughter-in-law becomes his mother-in-law and his son is the stepfather of the father's wife.

### INDICTMENTS LAID FLAT IN MARINETTE

Marinette, Wis., May 4.—Almost the entire so-called graft prosecution in Marinette county went down when Judge Hasting sustained the demurrer against Frank E. Noyes of The Marinette Eagle Star, former Sheriff Thomas Brown and former Supervisor Fred M. Price and quashed the indictments. A decision was rendered in only one of the cases and is reserved in others to permit the state to go to the supreme court on the contested point. The indictments were found to be faulty. The only other case was that against former Sheriff Seibel and this was nolleed by the state. The only remaining charge is that of larceny against former Sheriff Brown.

# Our Daily Short Story

## A Mud House

By EVELYN B. EMERSON

Copyright, 1910, by American Press Association.

Among the Boers of South Africa forty years ago lived a farmer named Van Wyk. He was very poor—so poor that he could not choose a desirable place or a decent house in which to live. Indeed, his farm was a circular depression, and when too much rain came it was flooded, and his crops were rotted. As for his house, it was but a hut and was plastered with mud.

But Van Wyk had not always lived thus. Time was when he had been well off, and the eldest daughter, Katherine, was educated.

Katherine was a comely Dutch girl, with blue eyes, fair complexion and hair almost white. Her mother did the best she could to keep her girl well dressed and, having fabrics that she had worn in better days, made them over so successfully that Kate, especially on Sundays, made a very good appearance.

Some distance from the Van Wyks lived a prosperous farmer named Greutner—that is, he was considered prosperous for that region, though his farm produced only a fair living for himself and his family. He had a number of daughters and but one son; therefore he was anxious that his children should marry with those who were well to do. He had saved a small dowry for each of his daughters, and, as for his son Hans, he proposed to leave him his farm. But he required from any girl his boy should marry a dowry equivalent to its value.

Unfortunately Hans met Katherine at a dance at one of the neighboring farmhouses, and one glance at her pink and milk face, her robin's egg eyes and the two deep colored cables that hung from the back of her head to her ankles put all ideas of his father's plans out of his head. He danced with her several times during the evening, and when the two separated things were one of those cases wherein two young hearts rush together like a couple of electric sparks.

When Farmer Greutner heard of his son's love affair he called the boy to him and said:

"Hans, I'm ashamed of you. What do you mean by making love to a girl who lives in a cabin plastered with mud? You certainly can't marry her, for if you do I will give this farm to your sisters, and you and your mud but wife will have nothing to live upon."

Hans only irritated his father by making no reply. People with whom we are angry cannot make us more angry than by listening to what we say

and giving us no word in return. Hans went away determined that nothing should separate him from the girl he loved, even to the surrendering of his inheritance, but he did not see how her father could be persuaded to give her to one who could not support her. So the matter went on, as such matters usually do, with hard feeling between Hans and his father and opposition enhancing the attachment of the young couple. Greutner never lost an opportunity to sneer at the mud cabin in which his son's beloved lived, and since the rest of the family considered Hans would demean himself by taking a wife out of such a home they were constantly taunting him about his mud haired girl who lived in a mud plastered house.

One day the little Van Wyk children prospected the mud plastering for playthings. From a part of it that had given way they pulled out some queer looking stones. Whether they wanted them for jackstones or for some other childish game, they certainly wanted them and did not stop the plastering. When their father came in and saw that they had made rents in the wall he rated them soundly and asked them why they had done so, whereupon they showed him the stones they had pulled out.

Farmer Van Wyk forgot the damage to the plastering in the stones. They were rough and did not possess either the appearance or weight of common stones. He studied over them a long while, then borrowed a magnifying glass and examined them with it carefully. Then he called his wife and told her that the plastering of their cabin was sprinkled with diamonds.

The next day before the dawn had hardly broken he went to the place on his farm where he had taken the clay to plaster his cabin and, digging up the earth, found that it was full of the same kind of stones. He could not believe his eyes. Taking one of the diamonds to an emery wheel, he ground one side of it and exposed a white surface. Then he ground different parts of it, leaving intersecting planes, and, holding the stone up to the rising sun, produced flashes like the rainbow.

Not long after that Farmer Greutner came over to Van Wyk to congratulate him on his good fortune and to say that, his son being bent on marrying Katherine, he would like to know what dowry her father had for her. Van Wyk had heard from Katherine the taunts her lover had been obliged to bear at loving a girl who lived in such a house, and his eyes kindled as he said sharply:

"This mud house."

Greutner made no reply, but went away to tell his son that he might marry Katherine, and Hans forced him to admit that her humble abode was a splendid dowry.

Van Wyk's saucer shaped farm is now the site of Kimberley, one of the great diamond mines of the world.

## 500 U. P. ELKS ARE GOING TO DETROIT

The upper peninsula will be represented by 500 Elks at Detroit in July, the occasion of the national convention of the order, judging from the estimates made at the upper peninsula meeting in Hancock Sunday night. The iron country delegates were as follows:

Marquette—Daniel Donovan, John Siegel and John Tobin.

Ishpeming—H. L. Randall, T. J. Heindell.

Negaunee—Charles Sporey, Louis Gribble.

James Maney, assistant general passenger agent of the South Shore, was also present and the upper peninsula lodge not represented by delegates forwarded letters agreeing to abide by the decision of the meeting. The Escanaba body was not represented by delegates.

It was decided to leave the morning of July 9 by special train for St. Ignace, where D. & C. boat will be taken for Detroit. The Elks will all dress in miners garb and will be accompanied by the Calumet & Hecla band, the greatest musical organization in Michigan.

## MAY HUG AND KISS IN CLEVELAND PARKS

Cleveland, O., May 4.—Chief J. E. Jones of the park police has drafted rules governing spooning in the parks. His rules are simple and are written with a view of making them easy for prospective spooners to learn.

"We will permit spooning in the parks," the chief said. "Who am I to blight love's young dream in the springtime? The lights will be kept going, but spooners need not fear the police if they stick to the following rules:

"Hugging with one arm is permitted.

"Hugging with both arms is permitted.

"Kissing in clinches will be allowed.

"Only plain kissing will be allowed.

"Patrolmen will observe couples with night glasses to enforce compliance with our rules."

## STATE GEOLOGIST IS COMING TO THE U. P.

Lansing, Mich., May 4.—State Geologist Allen will go to the Iron River district of the upper peninsula to direct the mapping out of that district by five skilled employes of the geological department. It is impossible to tell how much of an area is to be mapped out as climatic conditions and results have a great deal to do with the progress of the work. The mapping of the district will furnish a chart containing information regarding mineral and rock deposits on every acre of the district. Considerable mining already is being done, but it is thought that valuable deposits are still undiscovered.

## PRETTY SHOW GIRLS TO GREET PRESIDENT

New York, May 4.—Twelve of the handsomest show girls the theaters of the country can supply will strew flowers before President Taft, when on the afternoon of May 9th, he opens the third fair of the Actors' fund of America at the 71st Regiment armory. No other president of the United States has thus honored the

theatrical profession, and in recognition of President Taft's good will a gold medal will be given to him, by William H. Crane, oldest of the leading American actors.

## SITS DOWN ON SHARP HAT PINS

Los Angeles, Cal., May 4.—Percy Vandyke, a visitor from New York, entered a motion picture theater yesterday, pushed his way along a row of seats occupied mostly by women, sat down, and instantly leaped into the air, yelling. He had sat down on a phalanx of long, sharp hatpins.

His body shot into the darkness and he landed in the lap of a woman in front. This woman's escort immediately leaped upon Vandyke and there were signs of panic when the police were called.

Vandyke was found to be seriously injured and was taken to a receiving hospital.

## CHIPPEWA FARMER COMMITS SUICIDE

George Kerr, a farmer living about two miles south of Pickford, Chippewa county, while in a fit of despondency caused by ill health, committed suicide by blowing off the top of his head with a double-barreled shot gun, loaded with buckshot. Information received at the sheriff's office is that Kerr had been unable to work for a number of months on account of the state of his health and had become moody. He was a young man and leaves a wife.

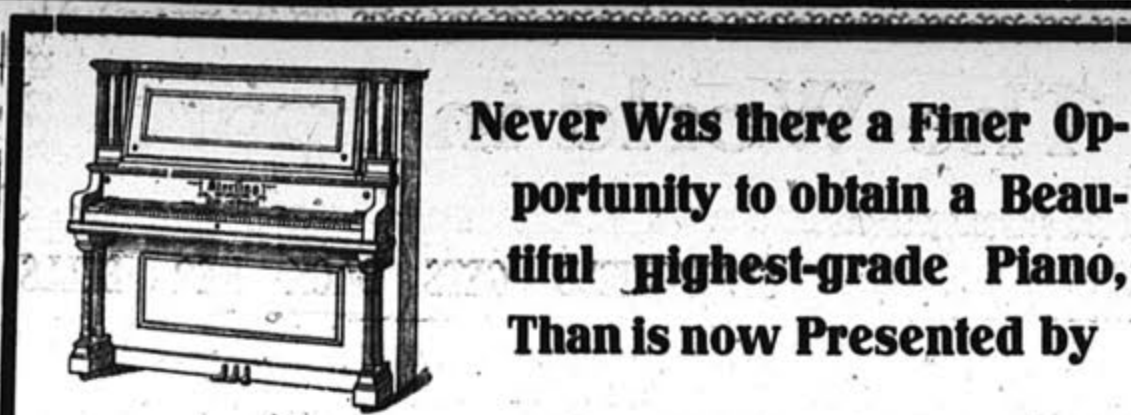

## A REPUTATION. How It Was Made and Retained in Escanaba.

A good reputation is not easily earned, and it was only by hard, consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Escanaba residents has rendered invaluable service to the community. Read what this citizen says:

Mrs. E. Steinke, 615 Wells Ave., Escanaba, Mich., says: "I have used Doan's Kidney Pills for a number of years and would not be without them in the house. The statement we gave for publication several years ago, was correct in every respect and I am perfectly willing to have my name used in the local papers as an endorser of this remedy. Doan's Kidney Pills can be procured at the Mead Drug Co. and will never fail to bring relief if given a fair trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens the stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

Never Was there a Finer Opportunity to obtain a Beautiful highest-grade Piano, Than is now Presented by

# GRINNELL BROS. Monstrous Clearing Sale

It is exceptional in the character of the instruments offered—the amazing discounts—the extreme liberality of terms. To every Piano purchaser, no matter where located, our sensational Clearing Sale affords a chance not likely to ever be duplicated. Immense spot cash purchases, and shipments reaching us when our warehouses were already filled, are the factors which make necessary this sale, and at the same time, make possible our unheard of prices. We cannot accommodate this surplus stock; it must be moved just as quickly as possible, and we have made prices which will accomplish this. Careful buyers of Escanaba and vicinity are finding in this sale just the opportunity they have been waiting for. The Pianos are being transferred rapidly to music-loving homes.

If you ever expect to own a beautiful, sweet-toned instrument you simply cannot afford to let this sale pass. See our Pianos; get our prices and terms, and you'll then realize the full truth of this statement. Come in today! We will be glad to show you the stock and you won't be urged to buy.

## GET BUSY ABATING HOUSEFLY NUISANCE

Now is the Time When Active Measures Should be Taken to Abolish the Pestiferous and Dangerous Spreaders of Disease and Filth—Let Everybody Help.

This is the time of year when active measures should be taken to abolish the housefly nuisance as far as possible. Owing to an early spring the flies are already in evidence, and prompt and vigorous measures are required to rid ourselves of the pest that has become a real menace.

One of the serious difficulties encountered is that of keeping the house free from flies. Window screen and door screens are purchased in abundance, but with all the care that may be taken in this respect there are still plenty of flies within to annoy and to threaten. Disease is spread so rapidly and so effectively by means of flies that no matter how cleanly a house may be maintained, nor how carefully the sanitary conditions may be looked after, there is still a constant menace by means of the present flies.

It must be realized that merely keeping flies out of a house is a rather ineffective means of protection. It is the treatment of the symptom while completely ignoring the cause of the disease. The only wise procedure and the only means of protecting ourselves against the foulness of the housefly is to obliterate it. To do this its creation must be provided against, and that accomplishment can only be brought about by a vigorous and insistent campaign on the part of the health board, with which there must be active co-operation on the part of the public generally. It is not such an involved process as might be imagined. There must be no filth of any kind in which the flies may breed. Every citizen must co-operate and do so eagerly, in a campaign looking to the absolute cleanliness of every person's premises. Of course this ought to be done anyway in the interest of health without respect to the fly. There should be no accumulation of filth or garbage or any waste matter. The garbage can should be kept tight-closed, so that no flies can get into it.

There are those who have studied the question from a scientific standpoint insist that there is no good excuse for the housefly and that there would be no such thing if the anti-fly campaign were to be properly prosecuted.

The danger is so great and the elimination of the pests so comparatively easy that every desirable means should be followed to provide the protection which is afforded by their absence.—Battle Creek Moon.

## SWEETHEARTS WED AT SEVENTY-FIVE

Braintree, Mass., May 4.—In the presence of a large number of their friends ex-Representative Fred Hanson, of Brockton, Mass., and Mrs. Emil J. Cole were married Monday at the home of the bride in this city by Rev. Daniel W. Waldron, chaplain of the Massachusetts house of representatives.

Both Mr. Hanson and his bride were born on May 2, 1835, and celebrated their birthday by becoming married. They had been schoolmates more than sixty years ago, when their families lived in Weymouth. Both are still healthy and vigorous.

The marriage is Mr. Hanson's fourth and his wife's third. Both are prominent in Grand Army circles, Mr. Hanson having served in the civil war and both of his bride's former husbands having been members of the Grand Army.

## WILL STAY JUST ONE DAY IN UNITED STATES

London, May 4.—Pauline Chase, the American actress who created the part of Peter Pan in London and later in Paris, sailed for New York today, where she will turn around and sail right back again. Miss Chase is making the 6,000 mile trip in order that she may appear for six hours at the Actors' Fund Fair in New York on Tuesday, May 10. She will spend less than a day in America, according to the plans outlined by her gentlemanly press agent who isn't overlooking any thing.

Miss Chase will carry numerous autographed photographs of English literary and dramatic celebrities, that she will sell at auction at the fair.

Mr. Frohman thinks that Miss Chase's trip of 6,000 miles in order to spend six hours at the fair will be a novel feature for the fair.

Yes—sometimes a placard placed in a window helps the advertiser to find the house that's advertised. But it does not usually help much more than that!

## Mrs. Housewife

Forget your prejudice for just one baking

Lay aside your favorite baking powder for just once. Forget for a day that it is "the kind mother used." Dispense with the idea that there is "nothing else just as good." It may have served you admirably for years. But just remember, other things have improved since grandmother's time. So why not baking powder?

Get from your grocer today a can of Calumet Baking Powder. Bake a batch of biscuits, a cake or your favorite pastry. If the baking does not come out just as good, or better, than usual. If it is not as light, sweet and delicious. If it does not prove up to your high standard in every respect, providing of course you have in every other way exercised your usual methods, take the can of Calumet back to the grocer and get your money. This is our first step in making friends for Calumet. The continued good results, the purity, the economy in both cost and use will hold them.

Received Highest Award World's Pure Food Exposition, Chicago, 1907

# CALUMET BAKING POWDER

## MICHIGAN MEN FORM BIG TIMBER COMBINE

Detroit, Mich., May 4.—Prominent Michigan and Detroit lumbermen are the principal incorporators of a new combine known as the Standard Timber company which, it was learned, has just been organized with a capital of \$4,000,000. The corporation takes over several big lumber concerns operating in various parts of the country. Its operations will be largely in the south, though the main offices will be in Detroit.

WHAT EVERYBODY WANTS Everybody desires good health which is impossible unless the kidneys are sound and healthy. Foley's Kidney Remedy should be taken at the first indication of any irregularity, and a serious illness may be averted.

IF YOU WANT TO GIVE A LITTLE DINNER or luncheon to your friends, notify us and we will reserve a table for your party. Get up a special menu for you too, if you say so. But you'll find our regular bill of fare will offer you such a wide choice of tempting things to eat that you are sure of a fine meal anyway. How many did you say were coming?

## SPRINGFIELD GETS BACK HER BELLS

### New York and St. Louis Return Players With the Jingle Name.

The Springfield club of the Three I league "will be there with Bells on" this season. Incidentally these Bells ought to be a big help to the capital city aggregation even if they were not regarded as quite ripe enough for the National league.

President Kinsella of the Springfield club gets Ralph Bell back from New York and Manager Bresnahan has returned Lynn Bell. It was understood that the Cardinals were to pay \$1,000 for Bell if he decided to keep him. Bresnahan came to the conclusion that he could get along without the jingle and McGraw, while letting go a bunch of eight included the ringing pitcher in the list.

The Springfield club has been a school for some of the present stars of the diamond. One who knows Dick Kinsella can readily understand that any baseball player who has anything in him at all will do his best, thus making his chances for big league company better. Kinsella is one of those "hale fellows well met." He knows baseball from A to Z and his lads always play to the game to win.

Ralph Bell was one of the most promising twirlers Kinsella had. McGraw lost nothing when he took Doyle from Springfield. He also got Merkle there. Fred forgot to touch second in a game that would have given the Giants the championship in 1908.

Ralph Bell.

Merkle has had a lot of unjust blame for that incident, for old players had been doing the same thing under similar circumstances, and nothing was said about it. It happened to be that Merkle was up against Johnny Evers, "the brainiest man in baseball," and he got caught. Since then Merkle has played well for the Giants. Consequently with Doyle and Merkle in mind, McGraw grabbed Bell from the Springfield club. Then he found he had enough pitchers, and, although Bell had been showing the proper caliber he decided to let him go back to Kinsella for more seasoning.

## Clean Aggressiveness Will Win Games, Says Evers

Cub's Second Baseman Declares Team Must Take Long Chances to Gain Victories

(Copyright, 1910, by Joseph B. Bowles.)

When I enter a game of baseball, no matter whether the pennant depends upon the result or whether it is an exhibition game, I do so with but one purpose in my mind. That is to win, and to do so without injuring any opponent physically or resorting to anything dishonorable. The desire to win was, I believe, born in me, and from the time I could crawl it was there.

From observation since my connection with baseball, I have learned that good, clean, aggressiveness of the right sort is more essential as an asset than any other particular gift in a player's make-up.

I always am on the lookout for some loophole through which a point may be gained for my team. It makes no difference how small the point is if it is to our advantage. There are some points, even big ones, which it pays to overlook purposely because overlooking them will tend to throw the opposing team off its guard and, thinking I am not paying attention to

one purpose—WIN. And when I read at times that the game is becoming a commercialized one, both from the owners' and the players' standpoint, it is galling. When playing a game I never think of financial benefits, no matter how large the players' part may be. I have played in three world's championship series, and I hold two winning emblems, which are to me the source of more pride and pleasure than I ever derived from the money received.

Play hard, play fair, never give up until it was over, then study your errors and correct them is the recipe for making a winning player, as I see it.

## CUBS' SLAB STAR TURNED MISFORTUNE INTO ASSET

Mordecai Brown, pitcher of the Cubs, and one of the most effective men who ever occupied the position of twirler, has overcome obstacles that would make most ball players hesitate before undertaking them. He started out to be a pitcher minus his forefinger of the right hand. It is this that gave him the name of "Three-Fingered" Brown. The most difficult thing he had to master was control.

Steady practice has made Brown an absolute wonder in the matter of control. It is now his long suit. Great catches like "Johnny" Kling, who have stood in front of Brown, say they know almost to a certainty just where the ball is coming. He throws the ball in a groove right where the backstop signals. It is this super-quality he possesses that makes the "Three-Fingered" star the terror of all batmen.

The absence of his finger enables Brown to throw a tremendous curve ball. It comes with a sweep and break that literally dazzles a batter who has never faced him. Because of the injury in his youth that deprived him of his finger, those which were spared him are stronger and more flexible than the digits of ordinary pitchers. In fact, he has made his misfortune an absolute asset.

## Central's Managers All Players.

Every manager in the Central league is in the game as a regular. Montgomery of Zanesville plays in middle field. Punch Knoll will follow suit as leader of the Vets. Cuppy Groeschow holds down the shortstop berth for Terre Haute. Joe Raidy occupies the same position on the Grand Rapids club. Eddie Wheeler of South Bend and Aggie Grant of Evansville both play second base, and further emphasize by acting as owner, manager and field captain. Jimmy Burke will be found at third base for Ft. Wayne. Bill Phillips is the only manager who is a pitcher. Not only are the managers players, but they are mighty good ones, and, by some critics, a few of them are considered the best in the league at their respective positions.

## No Captain for Naps.

There is not much chance that the Nap team will have a captain this season. Jim McGuire says he does not believe he will have a captain but instead will attend to those duties himself. It may be that some player will be selected to call plays when a ball is hit where two or even three men might field it. Jim is not strong for rowdiness and consequently does not want to pick any member of his team who may have a run-in with the umpires. If it looks as though the Naps are getting the short end of decisions, the Nap boss will do the diplomatic stunt himself.

## McCarthy May Join Cubs.

"Chink" McCarthy, the fast Notre Dame shortstop, may join the Chicago Cubs before the end of the season. It is reported that McCarthy already has agreed to report to President Murphy in August. He plans to play with the South Bend club the first half of the season.

JOHNNY EVERS.

the finer points of the game, they may be led into blundering.

A team must take long chances, and I believe my best asset as a baseball player has been this particular point. I believe in taking all chances to win. I mean good, sensible chances; not the ones that mean certain defeat, but the ones where there is at least one chance in ten of succeeding. In taking these chances be careful not to injure anyone. In rare cases players caught taking desperate chances will resort almost to anything, even to cutting down an opposing player to gain the point. That kind of playing does not win in the end.

I never admit that a game is lost until the last man is out (sometimes not then), and after a game is over I play it over again, lining after lining, a dozen times in my mind. The next day I read the papers and pick the points where we succeeded or failed, and try to remedy the mistake the next time the situation arises. I earned the title of "Crab" by being too close an observer and refusing at all times to give up until all hope had vanished. I like to win, and that some times makes me a hard loser. As I said, when I enter a game I do so with

## LAKE SHIPOWNERS TRY NEW SCHEME

Chicago, Ill., May 4.—The Seaman's Union has discovered a new scheme whereby the lake ship owners have been trying to import foreign seamen in violation of the law.

The foreigners were to be used by the Lake Carriers' association in an attempt to break the strike of sailors, firemen and marine cooks now in progress on the Great Lakes. Employment agents in New York city have been boarding incoming foreign ships for the purpose of inducing the foreign seamen to desert. Such men as could be enticed away from their vessels were to be sent to various lake ports.

Four dollars "a head" was the price which the employment agents claimed they were receiving from the shipowners for each man that could be brought to the lakes, besides transportation for the sailors.

The matter was at once reported to the immigration officials and steps have been taken to put a stop to the illegal practice.

The number of alien seamen actually secured by the lake carriers is small. When the few men they did get reached the lakes and found they were required to join a shipowners' "welfare plan," with its vicious discharge book system, the men at once recognized the notorious "British Federation" scheme and very promptly refused to sail.

During the past month a number of Canadian seamen and laborers have been deported by the United States immigration bureau because they were found to have been promised employment in violation of the alien labor law. All were on their way to American ports where they were to have been employed as strike-breakers by the Lake Carriers.

year next ensuing whether intoxicating liquors shall or shall not be sold in that county, the result of the election standing until it is changed by a subsequent vote. The conclusion reached is that the county unit may proceed with the proposed election, notwithstanding that the townships have already voted upon the proposition.

## GETS GOOD SEND OFF ON LEAVING HOME

The Hancock Evening Journal in its Torch Lake department gives the following kindly send-off to a young man who has just left Torch Lake to come to Escanaba with the expecta-

tion of making his home here: "Henry Laverne, who was in the employ of the E. F. Sutton company for the past two years, has tendered his resignation and will leave at once for Escanaba, where he has secured a better position. Henry is an ambitious young man and will some day be found at the top rung. He believes that a young man can better himself faster by getting among strangers, where he will learn to depend on himself and that his ability will be recognized for what he can do, not what he is, as is so often the case at home. His many friends are pleased to see him advance, although they are sorry to lose their friend."

Classification of your "to let" ad makes it meet the would-be reader of it more than half way.

**Mayer's Martha Washington Comfort Shoes**

MILWAUKEE, WIS.

## ADVANCE IN FREIGHT RATES CONSIDERABLE

Washington, May 4.—A checking of the tariffs filed with the commerce commission by the Western Trunk Line association indicates an increase in rates ranging from thirteen to fifty per cent.

On commodity shipments between Chicago and St. Paul the rate on agricultural implements has been increased 13 per cent; brick 16; furniture, 14; dry hides, 15; green salted hides, 24; pants, 15, and stone, 25. From St. Paul to points in Wisconsin the increase on sugar is 50 per cent.

The commodity rates between Chicago and Racine and Milwaukee, effective May 16, have been advanced from 15 to 25 per cent. On agricultural implements from Chicago to various points in the west and north-west, the advance is nearly 15 per cent.

On June 1 a general advance will be made on horses and mules between Kansas City and various points in Illinois, Iowa and Minnesota, amounting from \$5 to \$10 a car.

## PARALYZED WITHIN THE TOUCH OF RICHES

Spokane, Wash., May 4.—W. G. Stegner, a "Forty-niner," who has worked alone on a placer mine near Leonia for a decade, was stricken by paralysis when his hands were within the touch of riches, and he now lies unconscious on a cot at the hospital at Bonners Ferry, Idaho, while others developing the gold ground. Mrs. Stegner has come from California to be with the veteran gold hunter, whose mining prospects have made many men rich during the last half century.

The property, consisting of 680 acres, has been tested by panning at many points, the average being fifty cents the cubic yard. It is estimated that the cost of extraction will not be more than 2 1/2 cents and as low as eight cents. J. M. Schnatterly and his associates, who have taken over the group of claims, are constructing a flume of three and a half miles to bring water from Boulder Creek to operate four giant hydraulics to tear down the benches of from fifteen to 200 feet in depth.

## JUDGE HANDS IT TO WASHINGTON "WETS"

(Special to The Mirror.)

Spokane, Wash., May 4.—Judge William A. Huneke of the Spokane county superior court gave the liquor interests and the "wets" a stiff jolt in holding that the general local option law, enacted at the last session of the legislature of Washington, is operative and the township law must give way to it. This ruling was made in dissolving a restraining order issued to enjoin R. W. Butler, auditor of Spokane county from publishing the notice of a local option election.

The court held that as the township law already was in force when the general law became effective on June 10, 1909, the omission of townships from the provisions of the latter law must be held as exclusive. The general law permits a unit, not a township, to determine for a period of a

## COPPER COUNTRY TO SEE GOTCH WRESTLE

Houghton, Mich., May 4.—Frank Gotch, greatest wrestler of all time, undefeated champion of the world, will be the next big wrestling attraction in the copper country. He has been booked by Manager John T. McNamara of the Amphidrome, Houghton, to appear May 13 in a handicap affair with Chris Person of Duluth guaranteeing to throw that big grappler twice in an hour. The arrangements were made and contracts signed yesterday.

Mr. McNamara wants Houghton people and copper country people generally to see the greatest wrestler in the world. He also wants the copper country to see Person, Carl Lehto's rival, in action at his best. And he is going to make the card notable also by offering a purse of \$500 for a good preliminary. He would not say yesterday whom he had in mind for this opening bout, but Louis Krueger of Michigan City and Young Miller of St. Paul would make it an attractive session.

This is the greatest wrestling/entertainment ever offered the copper country or the upper peninsula. It comes at a time when wrestling is creating more interest than ever, at a time when the copper country is a veritable Mecca for mat workers.

## SOCIAL "SWELL" TO PLAY BASEBALL

Washington, May 4.—Social "swells" of the national capital will don uniforms tomorrow and go out on the diamond to go through the motions of a baseball game, while other men of prominence and fair fans applaud. The opposing nines are composed of members of the Metropolitan and Chevy Chase clubs. The game will be played at American League Park and the proceeds will go to Providence Hospital.

## DEAD MAN AS BROAD AS HE WAS LONG

New York, May 4.—William H. Burrett, a hotelkeeper of Locust Valley, L. I., famed for being considerably broader than he was long, died yesterday. His collars were size 22 1/2 and he was 6 feet 8 inches around the waist and weighed 568 pounds. He was 48 years of age.

**The Wars of Our Country.**

LIII.—Beginnings of the War With Spain.  
By Albert Payson Terhune

**W**HETHER the United States in making war on Spain in 1898 acted on lofty humane principles or in a spirit of hysterical and unwarranted interference, whether the war was a good or a decidedly bad thing for our country, whether it was justified or not—all these are questions our grandchildren will be better able to decide than can the present generation.

The inhabitants of Cuba were constantly on bad terms with their Spanish masters. From almost the first days of the nineteenth century trouble had been brewing. In 1895 Cuba openly rebelled because Spain refused to grant the island certain reforms. A ten year war followed. Spain conquered, but the islanders' discontent was not quelled. This resentment smoldered and in 1896 broke out into active, if largely guerrilla, warfare. Spain sent a large army under General Weyler to put down the revolt of the Cubans.

The United States in 1896 recognized the existence of the Spanish-Cuban war and declared a policy of absolute neutrality. But by 1898 affairs on the island had reached such a pitch of ruinous disorder that the press and people of this country clamored for intervention. Fitzhugh Lee, our consul general at Havana, reported that the 200,000 Spanish soldiers in Cuba could not succeed in crushing the insurgents and that the latter could not drive the Spaniards from their shores.

With an idea of showing the outwardly cordial relations between our nation and Spain the United States battleship Maine was dispatched on Jan. 25, 1898, on a friendly visit to Havana harbor. Spain met our government halfway by sending her battleship Vizcaya on a similar trip to New York. Neither visit did much to relieve the situation's ever increasing strain. In fact, the Maine's arrival at Havana was looked upon by many Spaniards there as an insult. It was also thought, whether rightly or not, that the Yankee battleship had come thither to look after local American interests that were supposed to have been endangered by recent street disturbances in the Cuban capital. Day by day the dissatisfaction grew. On Feb. 15 the climax came.

Late that night the Maine while lying at her anchorage in Havana harbor was blown to destruction by a floating mine. Of her sleeping crew no less than 260 were killed.

This incident lashed the people of the United States to a frenzy. Public opinion promptly placed the blame upon Spain. Few persons paused to consider that such a murderous, useless deed is the blowing up of the Maine would in no way serve Spain's purpose and that it would, in fact, do her far more harm than good. Havana harbor contained many mines. There were factories who would be far more benefited than Spain by an act which might precipitate war between that country and ours. But these details that were for the time largely overlooked. A war was swept the United States. Popular clamor deafened caution.

But the government at Washington received at once from Spain a prompt denial of the slightest share in the outrage and a courteous expression of regret that such a catastrophe should have occurred in Spanish waters. The official court of inquiry appointed by our government failed to find Spain in any way to blame and announced that there was "no evidence obtainable fixing the blame to destruction of the destruction of the Maine upon any person or persons." Thus the Spanish nation was thoroughly exonerated. But the mischief was done. The clamor for war would not be stilled.

On March 8 congress unanimously appropriated \$50,000,000 for national defense. The army was mobilized and preparations for the coming conflict were hurried on. Congress and the senate passed a resolution on April 19 declaring Cuba's right to freedom, ordering Spain to leave the island and authorizing President McKinley to use the whole United States army and navy to enforce the command. The Spanish minister, receiving this document, at once left Washington, and United States Minister Woodford, at Madrid, was on April 21 officially notified to get out of Spain. Woodford's expulsion marked the real beginning of hostilities. Congress declared on April 25 that war between the United States and Spain had existed ever since April 21. Next day the Spanish government formally announced that war was on. A blockade of Cuba was proclaimed by President McKinley on April 21, and two days later a call was issued for 125,000 volunteers.

For the first time since 1815 the United States was at war with a European nation.

**THEATRICAL**

The Peterson—Henry R. Harris will present at the Peterson tomorrow (Thursday) evening the latest comedy success, "The Traveling Salesman," by James Forbes, author of "The Chorus Lady." The fact that this play is the biggest laugh producer of the decade is a matter of universal knowledge.

For the first time in the history of the American stage, a play has been written which deals with the commercial traveler. It is of a character which breathes the clean wholesome life of a jovial American, who sees many things of a humorous nature, as he goes through this world, and still is always ready to respond to any call for aid and quick to succor the distressed. It is no wonder that "The Traveling Salesman" has been acclaimed such a tremendous success, because it conveys a message of mirth and merriment to the theatregoer. It embodies no serious discussion of sex or topics of the day. It is a play intended by the author to amuse and entertain. The New York American in speaking of it said: "It is worth traveling miles to see." In fact every newspaper in the city of New York was loud in its praise, and that it was most popular with the general public is evidenced by the fact that it ran in the metropolis for over nine months.

It will be interpreted in this city by the same identical company that was seen in New York and Chicago.

The Peterson—Probably the most sensational hit of the theatrical year has been scored by Miss Blanche Walsh in "The Test," which will be seen at the Peterson on Tuesday evening, May 10. Miss Walsh, who has long been a favorite in this city, considers her newest role the strongest, even better than those in the works of Sardou in which she has toured America with such phenomenal success. The play, the work of Jules Eckert, deals with conditions of today and despite the fact there is a simmering of the sex question through the interesting plot the dialogue does not contain a single word of suggestiveness.

**HEAR HEART'S BEATS HUNDRED MILES**

London, May 4.—A test that was carried out Sunday shows it is possible to diagnose heart troubles by telephone a distance of 100 miles. The experiment was conducted between Mr. Milne's house on the Isle of Wight, where the seismologist and four physicians, using a telephone, listened interestingly to the beating of a woman's heart in London. A stethoscope, held over her heart was attached to a telephone recently invented by Sydney Brown, by means which sounds are magnified.

**MORE WARNINGS ISSUED AGAINST BAD COMPOUNDS**

**The Government Believes Many Patent Medicines Are Injurious to Public Health.**

Washington, May 4.—In its effort to protect the innocent public against the insidious effects of preparations containing drugs injurious to health, the United States Department of Agriculture has issued another farmers' bulletin treating on the subject to nearly connected with public health. Farmers' Bulletin 377, "The Harmfulness of Headache Mixtures," was issued in September, 1909, and 70,000 copies have been distributed to those interested in the subject. Now Farmers' Bulletin No. 393, "Habit-forming Agents: Their Indiscriminate Sale and Use a Menace to the Public Welfare," giving the results of recent investigations by the department, has just been issued as a warning to mothers, invalids and users of medicated soft drinks, of the dangerous contents of many of the infant syrups, so-called remedies, and soft drinks

containing cocaine, caffeine, etc. Pernicious Mixtures. It is almost unbelievable that any one for the sake of a few dollars would concoct for infant use a pernicious mixture containing cocaine, but several such mixtures have been found and their names published together with a list of remedies intended for infants and containing morphine, codeine, opium, cannabis indica, heroin, which are widely advertised, and are accompanied by the assertion that they "contain nothing injurious to the youngest babe," and that "mothers need not fear giving them, as no bad effects come from their continued use," while as a matter of fact numerous instances are on record of babies being put to sleep never to wake up again, or, where they did not succumb, the more serious effect of infant drug addiction was produced.

**WATER IS WANTED FOR GLADSTONE CEMETERY**

Mayor Hammel of Gladstone has been circulating a subscription list during the past three weeks, among those interested in the improvement of Fernwood cemetery. It is planned to install a cistern and pump at the foot of the bluff, with a pipe line to the cemetery, utilizing electric power when needed. The cemetery board has been saving up for this for two or three years, but has not yet quite enough funds to turn the trick without drawing too heavily from the current expenditures. With the support he is receiving, the mayor believes it possible to install the outfit this summer. To date, \$157 has been subscribed, and there are yet some to be heard from.

**LANDS RESTORED TO THE PUBLIC DOMAIN**

Washington, May 4.—The unallotted lands in four great Indian reservations were opened to homestead entry Monday. The reservations are the Standing Rock, in North and South Dakota; the Cheyenne River, in South Dakota; the Flathead, in Montana, and the Coeur d'Alene, Idaho. The land thus restored to the public domain is estimated to aggregate 2,100,000 acres. The drawings were held last fall. All persons holding numbers below 8,900 for the Cheyenne River and Standing Rock lands will make their filings from now until June 30 at the rate of fifty to 100 a day. Those holding numbers above 8,900 will be permitted to make entries between September 1 and November 1. The estimated lands in this reservation aggregate 1,500,000 acres, to be distributed in 9,500 claims.

**STATE WON'T LOSE BY BANK FAILURE**

Lansing, Mich., May 4.—The time has come when the statement can be made that the state will not lose one dollar through the failure of the Chelsea Savings bank. When the bank failed the amount held belonging to the state was \$655,587.79. Of this amount \$497,680.55 has been paid, leaving a balance due of \$157,907.24. As security for this amount there remains due on bonds held by the state \$192,000 not including the bond given by the Metropolitan Surety company that failed recently. If this company or the receiver of the bank make no further payments the entire amount due would be collected from the bonding companies. It is expected that the bank creditors will receive seventy or eighty cents on the dollar.

**PRISON TWINE PLANT TO BE KEPT BUSY**

Lansing, Mich., May 4.—Next year promises to be the biggest in the history of the Jackson bindery twine plant. It is believed that nearly double the twine will be sold that was during the past year as contracts already made are better than anticipated and reach almost as much as was sold last year. Not only is Michigan buying the twine but several other states have fallen into line.

**BUREAU OF MINES TO BE CREATED**

Washington, May 4.—The senate has amended and passed the bill already passed by the house to create a bureau of mines in the interior department. In addition to carrying on the mining work heretofore done by the Geological survey, the bureau will investigate the causes of mine explosions. Senator Root thought that the meas-

**THE WOMAN** who promptly writes a want ad., when there's room for another in the boarding house, has learned one of the valuable lessons of practical life.

The Ladies' Aid society of the Norwegian Lutheran church will meet at the home of Rev. and Mrs. E. Bernsten, 1511 Wells avenue, tomorrow afternoon.

**JONES' STRAWBERRIES** are fine. Commence the season, if you haven't done so already, with a nice rich STRAWBERRY shortcake.

James McCarthy returned last night from a visit with friends in Gladstone.

**FOR THE GOOD OF YOUR HEALTH** and for the promotion of your appetite and incidentally to boom our business, we ask you to buy your fruits at our store. JONES.

Mrs. Kate Waterman, who has been visiting friends in Escanaba left last night for her home at Suring, Wis.

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest remedy ever devised. A household remedy in America for 25 years.

Mr. and Mrs. B. Wilson and son left last night for Mobesta, Cal., where they will make their home in the future.  
Call up PETERSON'S GARAGE 165J for any kind of an automobile by the day or hour. Reasonable rates.

## ROOSEVELTS IN NORWAY

(By Associated Press.)  
Christiana, Norway, May 4.—Col. Theodore Roosevelt and his party arrived here at 1:15 o'clock this afternoon and a large crowd welcomed the party. The party will remain in this city until Friday evening and will then proceed to Stockholm.  
This city has long looked forward to this visit and all public buildings as well as many of the private ones are draped with the Swedish and American colors. Military bands assisted in the welcome by rendering patriotic American airs.

## WRECK OF MAINE TO BE REMOVED

Washington, D. C., May 4.—After twelve years the ill-fated battleship Maine is to be removed from Havana harbor and the bodies which went down with the ship will be given burial in the National cemetery at Arlington. The bill providing for such removal and burial, which has already passed the house, was favorably acted upon by the senate today.

## SITUATION IN CHINA SERIOUS

(By Associated Press.)  
Hankow, China, May 4.—Reports that are coming in to this city tell of the movement of 2,000 Hunanese, who have crossed the border from Hunan province and have succeeded in making their way into the Province of Hapeh, reaching Tayeh. The situation is now declared to be very serious.

## SENSATION IN CITY COUNCIL

(Continued From Page 1.)  
to say something about it. He had been informed, he said, that at least three individuals on the council are opposed to the office and had said they would vote for all of the mayor's appointments except that of city chemist. He said there might be a hidden reason back of their stand and as a basis for thinking so he related a couple of incidents. One had to do with a certain poor man who bought a bottle of milk and expected that cream would rise from it which he might use in his coffee. No cream came and he took the milk to the city chemist, who upon examination found that it was not up to the standard. "That milk," declared Dr. Breitenbach, "was sold by a member of this council, Alderman Valentine of the Sixth ward, who made the motion to refer the ordinance under discussion."  
**Bad Water Incident.**  
Dr. Breitenbach also related that another man, not at that time a member of the council, brought to him a bottle of impure water which he claimed had been taken from the faucet of a pipe on the Northwestern dock. At this point Alderman Kirkpatrick, the man referred to, interjected, "Tell the truth while you are at it." Dr. Breitenbach paid no attention to the interruption and went on to say that the water had been taken from a "dead end."  
He closed his pointed remarks by saying: "Whether I am appointed city chemist or not, do your duty by your health officers; give them your utmost support in their efforts to preserve the public health. The time will come when the water company will pay the salary of the city chemist appointed by the mayor."

**Aldermen Strike Back.**  
Alderman Kirkpatrick denied Dr. Breitenbach's statement that the water he had brought him for examination was taken from a "dead end." He attacked the doctor's record while the latter was health officer and as a parting shot designated him as "an educated blow."

A sharp exchange between Breitenbach and Kirkpatrick followed and a little later Alderman Valentine made himself heard. He said that it appeared as if Breitenbach was "sore" about something he (Valentine) had done or had not done, and accused the doctor of attempting to make political capital through the speech he had just made. Mr. Valentine said he had sold milk for the last sixteen or seventeen years in this city and that among his patrons was Mayor Greenhoot himself. He said he had not noticed that anybody had died from the effects of using the milk sold by him.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

**Too Busy to Remember.**  
In our busy present we are apt to forget our past and those who helped to make it for us.

## TUBERCULAR COW ORDERED KILLED

As Result of Second Examination by City Veterinarian Firkus, Animal Owned by Escanaba Resident is Destroyed—Commissioners of State Commission Here.

After the second test had been made by Dr. William J. Firkus, a cow belonging to Peter Anderson, 1416 Wells avenue, was ordered killed by Commissioners Hines and Tyler of the Live Stock Sanitary commission of this state.

Two months ago Dr. Firkus made a test of the cow and found decided tubercular symptoms, though not as prominent as was shown in the second test, which was made yesterday.

The cow was ordered killed by the commissioners, who also allowed Mr. Anderson \$25 to recompense him for his loss. The commissioners estimate the value of all cattle ordered killed and the state settles the bill. In addition to the money received for his cow, Mr. Anderson will be allowed pay for taking her carcass out and burying it. In all he will get about \$30.

Several weeks ago a cow belonging to one of the local milk men was pronounced tubercular by Dr. Firkus and not waiting for state commissioners to arrive in the city and place a value upon the animal the milk dealer immediately took the cow into the woods and put her to death.

Had he but waited for a few days he would have been paid for the loss of the cow by the state. The state commissioners have been in Escanaba for two or three days, consulting with Dr. Firkus in regard to the general condition of the cattle in this city.

## COUNCIL HAS A NEW PRESIDENT PRO TEM

At the meeting of the common council last evening, Alderman Louis Folio was elected president pro tem of the council to succeed Alderman Matt Priestler, who held that post of honor last year. Mr. Folio's name was proposed by Alderman John Garrity and as no other candidate was nominated he was elected unanimously. It will be one of Alderman Folio's duties as president of the council to preside at council meetings in the absence of the mayor or whenever the latter desires to vacate the chair to speak from the floor, and he will also be acting mayor during the absence from the city of the actual chief executive of the city whenever that contingency shall arise.

## SALARIES OF CITY OFFICERS FIXED

By the adoption of ordinances the common council last evening fixed the salaries of city officers and employees for the ensuing year as follows: Chief of police, \$900 per annum; city clerk, \$1,200; city treasurer, \$800; city attorney, \$600; chief of fire department, \$900; city engineer, \$187.50 per month; city physician, \$25; health officer, \$41.66; street commissioner, \$65; poor commissioner, \$50; poundmaster, \$41.66; city detective, \$65; patrolmen, \$60. The salaries of the members of the fire department, excluding the chief, were not fixed, as the firemen will present a petition asking that their pay be increased to \$70 a month. In practically all cases the salaries fixed last evening are the same as those paid last year.

## WILL OPEN OFFICE FRIDAY EVENING

For the accommodation of the many men in Escanaba who are anxious to obtain their first or second naturalization papers, County Clerk John A. Semer, says that his office will be open next Friday evening from seven to nine o'clock and that any one that wants to do so can come to the office within those hours. Mr. Semer says that many of the applicants work through the day and the only way they can get to the clerk's office is to quit work for the day or have the office opened evenings. The county clerk has taken a great interest in helping these people and has made an enviable reputation for himself among the aliens.

## TWO STATE LEAGUE OPENS ITS SEASON

Racine, Wis., May 4.—The Wisconsin-Illinois Baseball league opened today with games at Oshkosh, Appleton, Racine and Aurora, Ill. Much interest is being manifested in this league and the parks were well filled this afternoon when "play ball" was pronounced by the umpires.

## COMMON COUNCIL HAS BUSY SESSION

For More Than Two Hours the City Fathers Consider Municipal Affairs and in That Time Transact a Large Amount of Business—Report of Proceedings.

One of the busiest and most important meetings of the city council held in a long time was that of Tuesday evening. For two hours the city fathers were in session and in that time a large amount of important business was disposed of. Some of the matters acted upon are treated elsewhere in this issue.

One of the first things to come up, following the usual preliminaries, was the introduction of an ordinance providing for the creation of the office of city chemist, which heretofore has been a special office. Upon motion of Alderman Valentine, the proposed measure was referred to the ordinance committee.

Ordinances fixing the salaries of city officers and employees were adopted, as noted in another column.

Appointments of city officers were made by the mayor and confirmed.

The city treasurer's monthly report was presented and ordered placed on file. According to the report, the city on May 1 had a cash balance of \$13,994.99 in the treasury.

Chief of Police Rowe's report showed that three arrests for violations of city ordinances during April. Justice O. V. Linden's report for March showed that he handled fourteen city cases in that month and collected \$20 in fines. Justice Linden reported that he had no city cases in April. After an animated discussion, during which protests were made by two men interested, the assessment roll of the proposed improvement of the Ford River Switch road, which has so long been hanging fire, was confirmed and the mayor and clerk were instructed to enter into a contract with the Northern Construction and Engineering company, whose bid was long ago accepted, to make the improvement. The assessment as confirmed stipulates that it shall be paid in five equal installments, the first on September 1, and bear interest at six per cent.

The annual report of Fire Chief Kamrath was read and ordered placed on file. In another column will be found a summary of this interesting report.

Similar action was taken with a report of the operations of the lighting plant covering a period of eleven months. The essential features of this report will also be found detailed elsewhere in this paper.

Bids for doing the city printing were opened and read and the council took a recess for the purpose of examining them and some liquor bonds and applications that had been presented.

Upon the recommendation of the printing committee, the contract for printing the official proceedings of the council was awarded to The Morning Press at a stipulated price of \$2.50 per column. The job printing contract was not awarded, the committee on printing being instructed and authorized to use its own discretion in the matter of the job printing. Neither The Escanaba Journal nor The Mirror had bids in for printing the proceedings or doing the job work. The Iron Port's bid for printing the proceedings was but \$1.95 a column.

A petition signed by a large number of property owners on Wells avenue asking the council not to permit the erection of barns, warehouses or other unsightly buildings on Wells avenue in the vicinity of their homes was read and referred to the committee on ordinances.

The saloon bonds of Louis Trotter, Soren Johnson and Michael Haskins and the druggist's bond of W. C. Ammermann were approved, as was also the application of George W. Kaufman for a liquor license. The application of Peter Dausey for a similar license was laid over until the next meeting.

Alderman Louis Folio was elected to succeed Alderman Matt Priestler as president pro tem of the council. City Engineer Brotherton brought to the council's attention the fact that the Chicago & Northwestern Railway company has dammed a creek on the Danforth road in such a manner that the water overflows, causing it to be almost impassable at times. The city engineer and the street committee were given authority to take what measures they deem necessary to abate the nuisance and remove the cause of complaint.

After disposing of a number of other matters, the council adjourned until next Tuesday evening, at which time will be taken upon liquor bonds and applications yet undisposed of.

## MICHIGAN UNIVERSITY LOSES PROF. PAXSON.

(By Associated Press.)  
Ann Arbor, Mich., May 3.—Prof. Frederick L. Paxson of the University of Michigan has been formally notified of his appointment to the chair of American History at the University of Wisconsin at Madison and has decided to accept.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

## WOMAN TO LECTURE IN ESCANABA SOON

Young Women of First Presbyterian Church Arrange to Give People of City Chance to Enjoy Rare Intellectual Treat on an Evening of Next Week—Details.

The young women of the First Presbyterian church are making arrangements to have a lecture delivered at that church either Thursday or Friday evening of next week. The title of the lecture is "Rome and Italian Life" and will be given by Elizabeth King Maurer, M. A., of Milwaukee, Wis.

The lecture will be illustrated by 100 stereopticon views of Ancient Rome, of the Middle Ages in Rome, Street Life in Rome and the Apian Way. Illustrations will be given of the great St. Peter's cathedral, the Marmartine prison, where St. Peter and St. Paul were imprisoned, the catacombs and the most interesting things in and about the Eternal city.

The story of the street life in Rome is bound to be fascinating, with its people in their picturesque dress, their vigorous language their petty bargaining. When we learn of them we know much of the problem of immigration, for they are the citizens of today and their children are the citizens of tomorrow.

Mrs. Maurer is a graduate of the University of Wisconsin and took her M. A. degree in the classical school at Rome, where she lived for two years. The views she presents were taken by her during her stay in that city.

The young women of the church are greatly pleased to be able to present this interesting and instructive lecture. It is certain that a large audience will be in attendance and everyone feels confident that it will be a success in every way.

Announcement will be made later through the local papers as to the exact time and date of the lecture.

## PASTOR AT CALUMET TO RESIGN CHARGE

Escanaba friends of Rev. J. N. Forsberg, pastor of the Calumet Swedish Lutheran church, will be interested in the announcement that he has practically decided to accept a call from the Rock Island, Ill., church of the same denomination. Mr. Forsberg was in Escanaba last week attending the Swedish Lutheran conference of the Ishpeming, Green Bay and Ogema districts and took an important part in the proceedings which resulted in the formation of a new conference.

Mr. Forsberg has not yet resigned his present pastorate at Calumet, but will do so in the near future. He plans to leave for his new field in September. At Rock Island there is a Swedish Lutheran college and school and a church is being established. This will be one of the strongest in the country and will be located at a very important point.

Mr. Forsberg has been the pastor at Calumet about seven years, during which time he has helped greatly to strengthen the church organization. He came from South Bend, Ind., where he spent six years in the ministry.

## AMATEUR PLAYERS REPEAT SUCCESS

The second presentation by St. Joseph's Dramatic club of "A Tramp's Revenge" and "The Troubled Lieutenant" at Peterson's opera house last evening was even more of a success than the first. The audience was larger and fully as well pleased and the

productions were unquestionably better put on. All of the nervousness on the part of the actors that might have been observed Monday evening had quite disappeared and both plays were better presented in consequence. The members of the club and Rev. Father Herbert, who assisted them in preparing for their work are highly gratified over the results of their efforts and their friends are no less pleased.

This evening the members of the club and others who assisted in the production of the plays will be tendered a banquet in the basement hall of St. Joseph's church. The club has received a request to produce the plays at Gladstone on some evening yet to be decided upon and probably will comply with it.

## CITY CLERK IS TO HAVE ASSISTANT

After considerable discussion the common council last evening adopted a resolution empowering the city clerk to engage a stenographer to assist him in his work at a salary not exceeding \$40 a month. Of late the duties of the city clerk have increased to such an extent that he has been overtaxed in keeping up with the work and it was felt by those who voted for the resolution that he should be given some assistance, more especially as he will have considerable more to do as the work of charter revision progresses.

## PRESIDENT TAFT BUSY IN ST. LOUIS

(By Associated Press.)  
St. Louis, Mo., May 4.—President Taft arrived in this city this morning at 8:30 o'clock and was met at the station by Secretary Wilson. The party was escorted to the St. Louis club by a committee representing the Business Men's association.

At eleven o'clock the president delivered an address before a farmers' convention and was then taken for a drive about the city. At noon a luncheon was tendered him by the St. Louis Business Men's League.

This afternoon a visit was made to the ball parks where games were being played between the Cincinnati and St. Louis teams of the National league and the Cleveland and St. Louis teams of the American league.

## A FAIR PROPOSITION

We have arranged with your druggist to sign a legal, binding contract with you agreeing to refund the money if ELECTROPODES fail to cure rheumatism, nervous ailments of all kinds, bad circulation or cold feet. You know your druggist's name to a contract makes you safe, then why not try a pair of ELECTROPODES. If they cure, they cost \$1.00; if they fail to cure, not one cent.

## NOTICE TO CONTRACTORS.

Sealed proposals for grading, draining and macadamizing that portion of the Bay Shore County road between the Mashek Chemical Works and the town line will be received by the County Road Commissioners of said county at the office of the county clerk at Escanaba until twelve o'clock noon, Monday, May 16th, 1910. The distance to be so improved being 7,796 feet. Plans and specifications are on file at the county clerk's office. A certified check for five per cent of the amount bid must accompany each bid, payable to the order of the county clerk. The right is reserved to reject any and all bids. Dated, Escanaba, Michigan, April 27, 1910.

JOHN A. SEMER,  
Clerk County Road Commissioners.
