

DEAD KING'S BODY NEARER THE GRAVE

Remains of the Late King Edward Taken From Buckingham Palace to Westminster Hall, Where They Are Now Lying in State— Kings in the Procession.

(By Associated Press.)
London, England, May 17.—The body of the late King Edward VII. was taken with stately pomp today on the first stage of its journey from Buckingham palace to the grave and is now lying in state in Westminster hall.

ESCANABA TAKES SECOND FROM RAPID

Although Outhit and Making as Many Errors as the Visitors, the Sandy City Players Manage to Corral Monday's Game by a Score of 3 to 2— The Story.

As briefly announced in last evening's Mirror, the Escanaba team defeated the Rapid River team at South park yesterday afternoon by a score of 3 to 2. It was a curious game—at least the result was, for the home team was outhit by the visitors and made just as many errors. In fact, Monte Olmsted, who started to pitch for Escanaba, was practically knocked out of the box, being bombarded for six hits in four innings. And yet all those hits netted the Rapids but one run, which was scored in the fourth inning. At the beginning of the fifth inning Nelson was sent to the mound and pitched gilt edged ball, allowing but one hit in the five innings he worked. That was in the ninth, when the visitors made their run through an error, a sacrifice hit and a single.

FORMER ESCANABAN WEDS IN CALIFORNIA

Cards have been received in this city announcing the marriage of Miss Eva Wilhelmina Hessel and Leo Antoine Maynard, which was solemnized in St. Joseph's church at Los Angeles, Cal., on Wednesday, May 11. This wedding announcement is of local interest from the fact that the bridegroom is a son of Mr. and Mrs. Joseph A. Maynard, former well known residents of this city, and his bride is a niece of Mr. and Mrs. Q. R. Hessel of this city, her father and Q. R. Hessel being brothers. The Maynards left this city several years ago and have since been living in Los Angeles. The wedding announcements state that Mr. and Mrs. Leo Antoine Maynard will be "at home" after June 22 at 1474 Twenty-eighth street, Los Angeles, Cal.

Miss Gertrude Bagley of Wilson is in the city, the guest of Miss May Brotherton for a few days.

New York State Bribery Case.

EVERYBODY REJOICES OVER FALL OF RAIN

The blessed rain has fallen at last and all nature rejoices. It was high time the rain should fall, for it was sorely needed. Growing things are just more than laughing with glee today as they revel in the welcome and sufficient moisture. It is expected, also, that if the rain has extended over a wide territory, it will go a long way toward extinguishing the forest fires that have during the last two weeks caused considerable damage and a great deal more anxiety. It will also serve to make new fires difficult to start and gain headway. Taken all around, the heavy rainfall of last night and today is a blessing, indeed, and everybody is rejoicing over it.

ALL IS IN READINESS FOR BARBERS' DANCE

At Clark's hall this evening the members of the Barbers' union will give another of their famous dancing parties. All of the parties heretofore given by the barbers have been largely attended and enjoyable affairs and the indications are that the one of tonight will be in the same class. Good music has been engaged for the dance program and all of the other preliminary details have been attended to, so that nothing now remains but to just have a good time.

Mr. and Mrs. O. F. Graves, formerly of this city, have taken up their residence at Rockford, Ill. Mr. Graves was formerly agent here for the American Express company. Some time ago he was promoted to the depot agency of the company in Milwaukee and a few weeks later was again promoted, this time to the position of traveling auditor.

WALKS MANY MILES TO FACE A CHARGE

Gustave LeDuc, Accused of Maliciously Starting Bush Fires, Voluntarily Comes into Court After Being Served With Warrant of Arrest—He Pleads Not Guilty.

Octave LeDuc, formerly a resident of this city, was served with a warrant of arrest late yesterday afternoon while engaged in fishing near his home, a few miles north of Cornwell, and today appeared in Justice Linden's court to answer to a charge of having maliciously started bush fires which endangered the property of other people.

LeDuc pleaded not guilty when arraigned this afternoon and because of the absence of witnesses for the state, the case was adjourned until next Tuesday afternoon or evening. LeDuc was released upon his own recognizance and will be a liberty pending that time.

The warrant was served upon him by Under Sheriff Curran, who did not, however, bring LeDuc to town, taking the latter's word for it that he would come himself today. LeDuc kept his promise and in order to do it was obliged to walk seventeen miles. The warrant was issued upon complaint of Deputy State Forestry and Game Warden A. B. BeDell of Menominee.

SYDNEY BUXTON.
England's New Secretary of
State For Home Affairs.

WORK BEGUN ON NEW CREAMERY AT GARDEN

Ground for the new creamery which is to be built at Garden was broken yesterday and the work of construction will be pushed to completion as rapidly as possible. The creamery is owned by a stock company, composed of many of the farmers and business men in Garden and Van's Harbor, and will be constructed at a cost of about \$5,000.

Garden had a creamery some years ago, but at that time there was not enough interest taken in it and the venture did not pay. It is said by some that it was not run on a large enough scale and that when the new creamery is in running order it will be a good paying venture from the start.

AIR TO BE FULL OF GOOD BAND MUSIC

The Escanaba City band has been engaged to aid in furnishing the music at the great St. John's day celebration, which is to be held in Escanaba on Saturday, June 25, by the French societies of the upper peninsula. The regular membership of the band will be augmented for the occasion by a number of expert musicians from other cities. The band was organized by the local French society, L'Institut Jacques Cartier. It is expected that nearly all of the visiting societies coming here to attend the celebration will each be accompanied by a band of its own, so that the air on that day will be literally full of music.

The weather man promises more rain and cooler weather tonight and has also issued a storm warning. The storm flag is out and the indications are for severe high winds from the southwest.

EARTH WILL FEEL THE COMET'S TAIL

Well Known Astronomer Says Earth Will Surely Pass Through Tail of the Celestial Wanderer Tomorrow Night—Another Says There's No Danger.

(By Associated Press.)
Taunton, Mass., May 17.—The tail of Halley's comet now extends considerably beyond the earth's orbit and the earth will certainly pass through it tomorrow night. Such is the conclusion of Rev. Mr. Metcalf, a well known astronomer of this city, whose observations have been accepted by officials of the Harvard observatory.

No Danger, Says Campbell.

Son Jose, Cal., May 17.—Director Campbell, of Lick observatory, has given out a statement concerning Halley's comet, saying that it will take probably seven hours for the earth to pass through the comet's tail Wednesday. He said that the tail is a most perfect vacuum and there is no cause for anxiety as to the effect upon terrestrial life, animal or vegetable.

May Affect Wires.

Because of the probable lagging of the tail, there is a chance that the

earth may still be in the tail the latter part of Wednesday night, and some evidence of its presence may be seen in short intervals between moonset and dawn. He says he would not be surprised if telegraph transmission is interfered with, as in case when strong auroras are present in the sky. There may even be an aurora of considerable intensity, he says.

Negroes Eat "Comet Pills."

New York, May 17.—Whatever the comet may or may not do to this old earth of ours when its tail sweeps it Wednesday, the negroes at Port au Prince, Hayti, are prepared. They are taking "comet pills" to safeguard themselves against disaster.

Word was received here today that all classes of blacks are rushing pell-mell to the hut of an old voodoo doctor just outside of the city, who is selling "comet pills" faster than he can make them. The doctor is growing rich fast.

The prescription is one pill for every hour up to the time the comet begins to recede from the earth, but many patients are making safety doubly sure by taking a pill every half hour.

EZRA VALENTINE CROSSES DARK RIVER

Resident of Escanaba for Thirty-Seven Years Passes Away at the Age of Nearly Four Score Years—Had Been in Ill Health for Several Years— Details.

Ezra Valentine, for thirty-seven years a well known and esteemed resident of Escanaba, passed away early this morning at the family home, 329 North Charlotte street. Death was the result primarily of the infirmities of old age. Mr. Valentine having attained the advanced age of seventy-nine years and five months. For several years Mr. Valentine had not been in good health and lived in retirement. He was a carpenter by trade and was in the employ of the Chicago & Northwestern Railway company here for a number of years.

Mr. Valentine was born at Rouse's Point, Clinton county, New York, and came to Escanaba with his family thirty-seven years ago, making his home here ever since. Besides working for the Northwestern, Mr. Valentine was employed by the city in official capacities at various times.

He is survived by his widow, four daughters, two sons, two brothers and one sister. The children living in Escanaba are Mrs. Emma V. Cotterill, Mrs. R. F. Armstrong, Mrs. Minnie Wasson and Ezra Valentine Jr. Those residing out of town are Mrs. John Fleming of Gladstone and Mervel Valentine of Wichita, Kansas. One of the decedent's brothers, James Valentine, lives in Grand Rapids, Mich., and the other is George Valentine of this city.

DEATH PAYS VISIT TO THE POOR FARM

Alexander Chamberlain, for several months an inmate of the Delta County almshouse, died about five o'clock this morning. Death was caused by tuberculosis, from which the deceased had been a sufferer for two years or more. He was about thirty-five years old and so far as known here was unmarried and without relatives. His remains were brought to J. A. Allo's undertaking establishment, where they will be kept until arrangements are made for their burial.

BOILERS EXPLODE; THIRTY KILLED

(By Associated Press.)
Canton, Ohio, May 17.—It is reported that seven boilers in the plant of the American Sheet and Tin Plate company exploded this afternoon and that as a result thirty men were killed and fifty injured.

KERBY EXPECTED TO EXPLODE FIREWORKS

Stenographer Summarily "Fired" by Secretary Ballinger Takes the Stand to Testify at the Ballinger-Pinchot Hearing--Gives Some Hot Testimony Right on the Start.

(By Associated Press.)
Washington, D. C., May 17.—Frederick M. Kerby, the discharged stenographer of the interior department, took the witness stand today in the Ballinger-Pinchot hearing and it is expected that before his examination is concluded his testimony will cause not a little excitement on account of his recent summary dismissal from the service by Secretary Ballinger.

Kerby, testifying before the committee, said he first told the story he made public Saturday to former Secretary of the Interior Garfield and Attorney Brandeis at Gifford Pinchot's home last February, and admitted that he gave the story to a Cleveland newspaper man after being assured of a position on the Cleveland man's newspaper should he be dismissed by Ballinger, which he said he expected in view of what happened to Glavis.

Kerby said he read Ballinger's testimony upon which President Taft's letter exonerating Ballinger and dismissing Glavis was based, and then decided to make public his story. He said he knew Ballinger had read at least a part of Lawler's memorandum. Kerby insisted that to his mind he had done nothing wrong in making public Lawler's dictation of the memorandum.

At this afternoon's session of the hearing Kerby read before the committee letters of Secretary Ballinger to R. H. (Thompson), city engineer of Seattle, Wash., suggesting that he (Thompson) accompany George W. Perkins of J. P. Morgan & Co. to inspect Alaskan mineral lands. Kerby said he believed Thompson was slated by Ballinger to become head of the reclamation service.

SCREEN THE FRUIT.

An unscreened house is a constant source of danger. The presence of flies is direct evidence of careless housekeeping.

The Escanaba city council would do well to pass an ordinance compelling all fruit dealers to keep their wares well screened. Such a law is in effect in many large cities of the union. Flies crawl over fruit exposed for sale, unguarded by screens, and many people do not wash the common source of human infection, particularly if a case of typhoid fever exists nearby.

According to statistics prepared by the state health board of New York between 4,000 and 5,000 deaths in New York city were caused by flies. As many as 6,600,000 bacteria have been found on one fly alone. Screen your houses. It is the only safety against flies.

"KISS NOT"

And now some of the women are joining in a great crusade against kissing and it is said that the following is rounding up into a good sized army. Well, if it is the desire of some good people to go through life "unkissed" they are at liberty to do it, but there will always be a few left who

belong in the class to which "You can't teach an old dog new tricks" belongs.

Kissing is a queer habit, when you get right down to it, but like most habits it has become quite fixed, and while promiscuous kissing is not just exactly the right thing, it would be mighty hard to leave your wife for a month's trip without kissing her at least once or twice before making your "get away."

Of course there is all kinds of kissing, but the "Society of Kiss-nots" does not allow any kind, whether it be the kind that you hand out to your baby, the kind you deliver to your wife, the one imprinted on the brow of your grandmother or the latest type of "soul kissing" that is becoming universally adored by many.

All of them must go. When you part from your sweetheart, you may touch the tips of her fingers and in a few words make your escape. No longer will you be allowed to get a strange hold about her waist and kiss her in a manner that would make a "gallery god" lollier "break away." "Stop kissing." If you can't quit altogether, confine it to just a few people as possible and then if anything happens to you, you will know just about whose microbe has bitten you.

OLEO MAKER IS SENT TO PRISON

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

SCHEDULE OF DETROIT INVADERS IS FIXED

Party Will Leave Detroit on Steamer Octorara May 26 and Be Gone Just One Week.

Detroit, Mich., May 17.—The schedule for the trip of the Wholesalers' and Manufacturers' association to the upper peninsula the last of the present month has been definitely fixed. The party, which will number about 250, will leave Detroit on the steamer Octorara on Thursday, May 26, at 2 p. m., and will arrive back here on Thursday, June 2, at 2 p. m., giving the excursionists just one week on the water.

The Octorara, on which the trip is to be made, is the new Anchor line steamer which is just being completed at the yards of the Detroit Shipbuilding Co. She is a sister ship to the Tionesta and the Juanita, is fitted out like an ocean liner and has 96 staterooms and 16 parlors. The dining room has accommodations for 144 at one time and is situated on the main deck, where it has an abundance of light and air.

An Innovation This Year. Steward Thomas, who had charge of the Juanita when the bankers had

their excursion three years ago, is to be in charge of the new boat.

Although the arrangements for the boat were only completed today, more than 40 per cent of the space has already been taken on the boat. The association tries an innovation this year in that the wives and families of the members will be taken along instead of the excursion being a stag affair.

The schedule which has been arranged will give the members every opportunity to become acquainted with the business men of the upper peninsula as well as to fully enjoy the magnificent scenery of the north country. Both trips through the St. Mary's river and the Soo locks will be made by daylight and the portage and Picture Rocks will also be seen by daylight. Two days will be spent in the copper country, the steamer lying at Houghton, but the party will visit in Houghton, Hancock, Calumet, Red Jacket and Laurium. An entire day will also be spent at Marquette.

FRED STEPHENSON HOME FROM AFRICA

Menominee, Mich., May 17.—Bronzed to a dark hue and with face lined from exposure, Fred Stephenson, who has but recently returned from his famous African hunting trip with John T. McCutcheon, the Chicago cartoonist, arrived in Menominee Monday. Mr. Stephenson's stay on this trip was a short one. He left last evening to attend a banquet to be given by the Indiana club in Chicago tonight in honor of Messrs. Stephenson and McCutcheon, the latter being a member of the famous body. Ex-Vice President Fairbanks will be speaker of the evening.

Mr. Stephenson tells many thrilling tales of his experiences while hunting on the "dark continent." He met Theodore Roosevelt while there and was on an elephant hunt with him. In this connection he tells of the intrepid bravery of the former president. The hunting party had taken positions behind an ant hill and were firing on a herd of elephants. In the midst of the excitement the elephant herd charged. Mr. Roosevelt left the shelter of the ant hill and advanced directly on the charging herd, firing as he walked. When the two leaders of the herd were only a few yards away they dropped dead. The balance of the herd then divided and passed on other side of the expedition.

Mr. Stephenson enjoyed his hunt and the trip at all stages and came back with rugged health despite the many perils which are supposed to be dangerous to white travelers in the African jungles.

THE BROTHERHOOD OF ENGINEERS IS UNIQUE

The Brotherhood of Locomotive Engineers, which is now holding its national convention in Detroit and which is being attended by a number of Escanaba members of the order, is one of the most unique labor unions in the country. It deprecates strikes, either on its account or in sympathy with other unions, yet it has worked miracles in behalf of its members. Today the brotherhood enjoys the confidence of every big railroad in the country and absolute harmony exists between the heads of the railroads and the engineers.

When differences arise the committee and officers of the brotherhood meet with the railroad officials, the ground is threshed over, an equitable adjustment of the differences is arranged and the best of feeling prevails. The men never ask for a thing unless it has been definitely decided that they have a basis for their claim and the company almost invariably recognizes the justice of the demand. Differences may exist as to how conditions shall be remedied, but they are always adjusted on a compromise basis. The policy of the brotherhood was laid down by the late P. M. Arthur, who ruled over its destinies for a great many years, and his policy has been carried on by Warren S. Stone, present head of the brotherhood.

MAKES WORK EASY.

Escanaba People Are Pleased to Learn How It Is Done. It's pretty hard to attend to duties. With a constantly aching back; With annoying urinary disorders. Doan's Kidney Pills make work easier.

They cure backache. They cure every kidney ill. M. Brown, 406 S. Jennie St., Escanaba, Mich., says: "About two years ago I began to suffer from pains in the lower part of my back and after a hard day's work, I was so lame that I could scarcely straighten up. In the morning upon arising, I felt lame and sore and the kidney secretions were often scant. A friend advised me to try Doan's Kidney Pills and I accordingly procured a box at the Mead Drug Co. My kidneys were soon strengthened through their use and the pains in my back were disposed of. Recently when I had a return of pain, I again used Doan's Kidney Pills and

For sale by all dealers. Price 50 cents. "Great benefit I derived from this medicine. I gladly tell of the relief afforded me. I am glad to say that they greatly benefited me. Foster-McMillan Co., Buffalo, New York, sole agents for the United States."

SCHOOLS MAY LOSE THEIR PRIMARY CASH

Lansing, Mich., May 17.—Auditor General Fuller in an interview says that the proceedings started by seven telephone companies to prevent collection of their taxes is important to the school districts of the state, as the suits will undoubtedly prevent the usual fall apportionment of primary school money. It had been expected that about \$1 per capita would be available for distribution next November.

Out of \$391,622.61 in uncollected ad valorem taxes \$303,005.06 is at stake in these suits. The auditor general was served Friday night with the motion for a restraining order which has been filed in the United States district court. The question whether an injunction will be issued to stop collection will be taken up on May 19. If the injunction is issued the consequent legal proceedings are expected to tie up the tax for an interminable length of time.

A TOUGH ONE.

Guest—Say, waiter, is there a tunnel under this place?
Waiter—No, sah; dey's only touchin' up dat steak yo' 'st ordered.

Could Not Foresee Anesthetics. In 1839 Velpeau, one of the greatest surgeons of his time, wrote as follows: "The escape from pain in surgical operations is a chimera which it is idle to follow up today."
