MEANS FIGHT

ANOTHER LONG STEP TAKEN TOWARD FORMATION OF ESCANABA ANTI-TUBERCULOSIS SOCIETY

IRA C. JENNINGS IS PRESIDENT

Other Officers Are Also Elected and a Committee on By-Laws Appointed at Meeting of Directors of What is to Become a Permanent and Powerful Organization to Give Battle to the White Plague—Details of the Meeting.

President—Ira C. Jennings. Vice President—Mrs. N. C. Spencer. Secretary—Dr. H. W. Long. Treasurer—M. K. Bissell.

These are the officers elected at a meeting of the directors of the rejuvenated and reorganized Escanaba Anti-Tuberculosis society, which was held in the city hall last evening, and who will serve during the ensuing term. The personnel of the officers gives assurance that the society will have a permanent existence and that it will succeed in accomplishing much good in the fight which it will wage against the great white plague and evil health conditions in Escanaba generally.

With the election of the officers and the appointment of a committee to draw up a set of by-laws and a constitution a long step was made toward the thorough reorganization of the Escanaba Anti-Tuberculosis society, which until recently had been in a comatose condition. Its becoming galvanized into life dates from the two mass meetings held some weeks ago.

Strong Board of Directors.

At the meeting held in the High school auditorium on Sunday afternoon, May 1, a committee was appointed with power to secure a complete board of directors for the society. This the committee succeeded in doing and there are now twenty-five pledged directors of the organization and all but five or six were present at the meeting last evening. These directors are among the leading men and women of Escanaba and are as follows:

Mrs. N. C. Spencer, Mrs. H. W. Coburn, Mrs. Peter Groos, Mrs. C. C. Flint, Mrs. Peter Olson, Mrs. Albert Olson, Mrs. Matt Fillion, Miss Anna Carroll, William L. Bacon, W. W. Oliver, Frank Krause Sr., Mayor Solomon Greenhoof, Rev. C. A. Lund, J. W. Hoot, M. K. Bissell, Dr. A. F. Snyder, J. A. Stromberg, Dr. C. L. Girard, Charles White, Charles Ford, Ira C. Jennings, A. J. Young, A. E. Ellsworth, Jr., Dr. A. J. Carlson and Dr. H. W. Long.

The last five men named constituted the committee appointed at the mass meeting to secure the directorate. Mr. Ellsworth was chairman of the committee and acted as presiding officer at the meeting last evening until Mr. Jennings was elected and assumed his place as president.

Election of Officers. Mr. Ellsworth, after calling the meeting to order, briefly explained its (Continued on page six.)

MAIL SERVICE MAY YET BE IMPROVED

The matter of improving the mail service between Chicago and Escanaba and other upper peninsula points has been taken up by officials of the Chicago & Northwestern railway company. It is said that they will ask the business men of Chicago having mail coming north to try to get it to the postoffice earlier, and the postoffice officials will be asked to aid as much as possible in improving the service.

The train coming north and arriving at Escanaba at 3:50 a. m. leaves Chicago at exactly the same time as the mail trains leave on the Chicago, Milwaukee & St. Paul and Chicago & Northwestern systems for Minneapolis, St. Paul and Duluth. It is said that there are no complaints on the mail service between Chicago and the Minnesota cities. It is thought that by calling the attention of the Chicago business men and postoffice officials to the matter it will not be long before there is an improvement.

THE STEAMER MAJOR MEETS WITH MISHAP

The steamer Major of Buffalo was disabled twelve miles north of Plum Island yesterday morning while on her way to Escanaba after a cargo of ore. The Major lost its wheel, broke the rudder and split the stern post. She was in tow of the barge Santiago, which is now at No. 6 dock here, taking on an ore cargo. The Santiago was towed here by the tug WaWa. It is understood that the Major will be taken to Manitowoc for repairs. The Major is owned by W. H. Gratwick, has a gross tonnage of 1,864 and is 283 feet long.

DR. GEORGE BARTLEY GETS HIS DIPLOMA

Eighty-seven graduates, representing Wisconsin, Michigan, Illinois and Minnesota, received sheepskins on Monday afternoon in the annual exercises of the medical, dental and pharmacy departments of Marquette University, Milwaukee, held in the Davidson theater. There were forty-five graduates from the medical department and among these was Dr. George C. Bartley, son of Capt. and Mrs. Casper Bartley of Escanaba. Captain and Mrs. Bartley were in attendance at the graduation exercises, which were replete with brilliant features. Dr. George Bartley has not yet decided where he will locate for the practice of his profession.

DR. CLEMINSON IS DENIED A NEW TRIAL

(By Associated Press.) Chicago, Ill., May 25.—The motion for a new trial for Dr. Cleminson, convicted of the murder of his wife, was overruled today. A motion in arrest of judgment was granted and sentence deferred to allow the taking of an appeal.

FISHERMEN FINED; SOLD SMALL FISH

Fish of Immature Size are Found in Possession of Nahma Township Fishermen and Seized by Deputy Game Warden—Law Violators are Brought into Court.

Upon complaint of Deputy Game Warden Charles E. Pettit, who came here from Cheboygan to act as inspector of fish shipments made at Escanaba during the summer, five fishermen of Nahma township were last evening arraigned before Justice O. V. Linden upon a charge of having in their possession and selling undersized fish, in violation of the state law. All of the five pleaded guilty and they were each fined ten dollars and costs. They paid and were dismissed with a warning that a repetition of their offense would be punished with a heavier penalty. The offenders were: Joseph Groleau, Charles Peterson, R. Mercier, William Ross and Mose Macabee.

Their arrest followed an investigation of the fish shipments which they had prepared to make and the finding therein of big quantities of immature fish. The entire amount of fish under legal size was in the neighborhood of 1,300 pounds and it was all confiscated by Game Warden Pettit and Special Deputy J. B. Eddy of Sault Ste. Marie, who assisted him in the investigation.

GOOD NEWS FOR STOCKHOLDERS

A letter received this morning by T. J. Martin and Carl A. Johnson from the Queen's Consolidated Mines company says that everything is very satisfactory at the mine and that the shaft is down about fifty-four feet and making three feet a day with two shifts. This is considered very good work and the company will issue a full financial report in a few days. The report will show that the company is in very able condition financially, though the stock is still selling at only fifteen cents a share.

CAPTAIN NORTON'S OBSEQUIES TOMORROW

Final arrangements for the funeral of the late Capt. Daniel J. Norton, whose death occurred at his home on Third street early yesterday morning, have been made. Services over the remains will be conducted in St. Patrick's church tomorrow morning at nine o'clock, Rev. Father J. M. Lang officiating, and the remains will be given interment in St. Joseph's cemetery. It is expected that there will be a large attendance at the funeral.

TRAINING COLTS AT RACE TRACK

Some time ago Charles Ehnerd leased the old fair grounds and race track from the owners and is using it for a training school for his colts. At the present time Mr. Ehnerd has four colts and two of them are exceedingly promising youngsters. Permanent quarters have not been established at the track yet, but as soon as the weather gets a little warmer Mr. Ehnerd's son will remain there at all times and the colts will be trained each afternoon by Mr. Ehnerd himself. The track is in poor condition after the heavy winter weather and would not be of any use for regular racing, but will do very well as a training track for the colts.

ATTORNEY WORKING HARD IN THE LORIMER CASE

(By Associated Press.) Chicago, Ill., May 25.—William S. Forrest, counsel for Lee O'Neill Browne, who is on trial on a charge of bribing Representative White to vote for William Lorimer for United States senator, continued his argument today in favor of quashing the indictment.

BASEBALL TODAY'S GAMES:

At Pittsburgh—R. H. E. New York 4 14 2 Pittsburgh 3 6 0 Batteries—Ames and Myers; Moore, Lever and Gibson.

AMERICAN LEAGUE

Cleveland-Boston game postponed on account of rain. At Philadelphia—R. H. E. St. Louis 1 7 1 Philadelphia 3 8 1 Batteries—Powell and Stephens; Coombs, Peltz, Thomas and Killifer. At Washington—R. H. E. Detroit 0 4 0 Washington 2 6 0 Batteries—Summers, Stange and Schmidt; Groom and Street. At New York—R. H. E. Chicago 0 5 3 New York 5 10 0 Batteries—Olmstead and Block; Ford and Sweeney.

LIQUOR MEN HEAR OF MODEL LICENSE

(By Associated Press.) Cincinnati, Ohio, May 25.—Expositions of model license systems and reviews of the conditions in various states were heard today by the convention of the National Wholesale Liquor Dealers' association. Several strong addresses were delivered and reports of committees heard.

BOARD OF HEALTH ON THE WAR PATH

Yesterday afternoon the board of health at its regular meeting held a conference with City Attorney Ira C. Jennings for the purpose of formulating plans for the prosecution of those who continue to violate the health laws of the city and disregard the instructions of the board along sanitary lines. It is the intention of the board, it is stated, to enforce the health ordinances hereafter and the city attorney will lend his aid in any prosecutions that may become necessary. The members of the board are Chief of Police Iverson, Poor Commissioner Blanchette and Health Officer H. W. Long.

"RUBBER-NECK" TO BE LIGHTED

The owners of Escanaba's only "rubber-neck" wagon have installed an electric lighting system in the big car and now when parties are taken out after dark, they will not be obliged to fumble around in the black atmosphere to sort out the amount of fare required to satisfy the demands of the conductor. Of course some parties that go out are not at all anxious for a brilliantly lighted car and all that will be necessary when the lights are not required is to notify the owners that the car will be used for a handholding excursion and the lights will be conspicuous by their absence.

HAS LEG CRUSHED BETWEEN LOGS

Joseph Dessero, who was employed in the construction work of the new ore dock at North Escanaba, was injured this morning by having one of his legs accidentally caught between two logs. At the time the accident happened he was standing with one foot on each side of a large log. Another log rolled down upon him and before he could get clear one leg was badly crushed. The company physician was called and cared for the injured member. Mr. Dessero was then taken to his home at 1704 Ludington street. He will be unable to resume work for several weeks.

MANY SECTION CREWS AT WORK

The Chicago & Northwestern Railway Company is Making Extensive Improvement to its Main Line Between Escanaba and Negaunee—Heavier Ore Trains Being Pulled.

By the close of the coming summer the main line of the Chicago & Northwestern Railway system between Negaunee and Escanaba will be in better condition than it has been for years past, as many section crews are now employed putting in new ties and rails. This work was started a year ago, and since then nearly fifty per cent of the old ties have been replaced. New rails have been laid between Negaunee and Ishpeming and improvements have also been made in the yards of the two cities.

The ore trains being pulled over the system are now so much heavier than were the trains that were hauled a few years ago that the ties do not last long. The life of the average tie on this end of the system is shorter than at many other points, due principally to the heavy trains pulled over it.

The Northwestern company is not pulling more trains over the line between Negaunee and Escanaba than it did a few years ago, but each train load of ore now hauled contains a tonnage from fifty to 100 per cent greater than was the case five years ago. The ore cars have almost double the capacity they had at that time. The largest locomotives in use have a hard time pulling fifteen or eighteen loaded cars over the grade coming out of Ishpeming, and occasionally three engines are necessary to give the trains a start. After they get over the hill near the Union park grade practically the entire distance to Escanaba is in the trains' favor and one locomotive will pull down from forty to fifty cars without difficulty.

It is said that the Chicago & Northwestern company has purchased a greater number of ties this year than for some years past. The repair work was neglected somewhat for a few years, and, as a result, new ties are now badly needed in many places. The company has six or seven section crews now employed in the yards in Negaunee and at Ishpeming on the main line make their headquarters in boarding cars at Ishpeming.

BOAT LANDING TO BE ADDED TO PARK

The park on the south shore, which is the pride of every citizen of this city, is to be further improved by the addition of a permanent dock for the use of small boats whose owners would like to land. A dock will be a great convenience and there are enough owners of small boats in the city to warrant the members of the park board in the expenditure of enough money to give the lovers of the water a decent place to land. Steps may be taken later to erect some kind of a public boat house, but the dock will be the first thing to demand attention.

Nothing of an elaborate nature will be built, only a good serviceable landing place that will be convenient and which will not be carried out by the ice each spring.

PRESBYTERIANS MISTRUST CANNON

(By Associated Press.) Atlantic City, N. J., May 25.—Commissioners of the Presbyterian General assembly objected today to Speaker Cannon having the power of appointing the proposed federal commission for investigation of the liquor traffic. The assembly, however, approved the bill providing for the proposed commission.

VALIDITY OF PACKERS' INDICTMENTS ATTACKED

Chicago, Ill., May 25.—In United States court here today attorneys for the alleged meat packing trust attacked the validity of the indictments against the packers.

START CEMENT WORK ON NEW ADDITION

The cement work for the new addition to the Delta Hardware company's big addition was started this morning, but it will probably be at least two weeks before the brick masons will be able to start their operations. The entire basement will be finished with a concrete floor and will be well lighted by windows placed at frequent intervals.

ORE SHIPPING IS NOT AT ALL HEAVY

Expectations of Heavy Shipments From This Port at Beginning of Season are Not Being Realized—Crew of Dock Workers Laid Off—But Few Boats Being Loaded.

Because there seems to be no way to get rid of the ore that is being shipped to points down the lakes, the ore trade in this port is less than half what was expected of it early in the season.

A few days ago about thirty of the dock workers were laid off by the Chicago & Northwestern railroad and it was rumored today that it may not be long before another crew will be given a short vacation. Only three boats were loaded out today and only a few others are booked for cargoes. The prospect for a big season in shipping seems to be fading away and unless the demand at the lower end of the lakes increases very shortly, Escanaba will not have much to boast of in the way of ore shipments at the end of the season.

LAFOLLETTE IN RAIL RATE TALK

(By Associated Press.) Washington, D. C., May 25.—Senator Robert M. La Follette of Wisconsin made a speech in the senate today in support of Senator Cummins' amendment to the railroad bill, requiring the approval of the interstate commerce commission before increased rates can become effective. He declared that not a line in the statute gives the people reasonable rates and presented figures to prove his assertion that rates have been unreasonably increased.

RESOLUTION IS LAID ON TABLE

(By Associated Press.) Freeport, Ill., May 25.—The Grand Army encampment today laid on the table as "ill advised" Colonel Darling's resolution calling upon President Taft to take the necessary steps to remove the statue of Gen. Robert E. Lee from the Hall of Fame in the capitol at Washington.

James H. Connolly of Springfield was elected department commander today.

The women of St. Anne's church will serve a supper in St. Anne's hall this evening.

VISIT TAFT

ESCANABA PEOPLE HAVE THE PLEASURE OF CHATTING WITH CHIEF EXECUTIVE OF NATION.

DINE WITH A U. S. SENATOR

Senator Stephenson is Their Host at Dinner and Procures Them a Visit With President—Visited Many Big Cities of the East on Three Weeks' Trip—Several Members of Party Return to Escanaba—Others Still Visiting.

Mr. and Mrs. J. J. Cororan and Mr. and Mrs. J. H. Kennedy returned this morning from a three weeks' trip throughout the east, where they went in company with Mr. and Mrs. J. J. Cox, Mr. and Mrs. P. H. Connell and Miss Winifred Harvey.

The party of nine left Escanaba and went to Chicago, where a day was spent in sight-seeing and then a trip was made to Detroit, Cleveland and Buffalo, Niagara Falls coming in for a good share of the attention of the tourists.

From Cleveland, Albany was the next stop and after visiting the capital of the Empire state, New York city offered attractions that the Escanabans would not miss and several days were spent there, taking in all the points of interest.

Visit With President.

From New York, Philadelphia and Baltimore were visited and then Washington, which always proves an interesting point for all travelers. The Escanaba party were exceedingly fortunate while in Washington and through the courtesy of Senator Isaac Stephenson, who was their host at a dinner, they were given the privilege of a visit with President Taft, who spent some time with them, inquiring about the northern country and about the trip that was being made by the party.

From Washington a night train was taken for Pittsburg and from that city Chicago was the destination. All of the traveling was done at night in order that the days could be devoted to sight-seeing.

Entire Trip Agreeable.

The entire trip was agreeable and not even the faintest hint of bad weather marred the pleasure of the party.

Mr. and Mrs. P. H. Connell did not return to Escanaba this morning, but went to Bessemer for a few days' visit and Mr. and Mrs. J. J. Cox and Miss Harvey left Chicago for a short visit in Iowa.

GETTING STORE IN IMPROVED SHAPE

Young & Fillion are making some extensive improvements in the interior of their clothing store and when they are completed, the firm will be in much better shape to carry on the ever increasing trade. The latest style clothes are being installed, and for the display of package goods, such as shirts, collars, socks and underwear, new oak shelving is being built on the east side of the store.

CENSUS AND THE WITNESS.

What percentage of the census statistics will be valueless because of the great American proneness to boast? We wish someone would figure this out and give us a formula which, when applied to the government reports, will permit the student to arrive at exact facts, says Toledo Blade. Consider some of these questions: How old are you? It is the custom to joke about the objection of women to stating their age. If the truth were known it would probably be found that most men will subtract a few years, particularly if they themselves are shifting into that period known as middle-aged. Are you single or married? Old maids who have not ceased to struggle, to the Georgians express it, may let imagination rule them if the enumerators are strangers, and there are men who will "decline to answer on the advice of attorney." What is your occupation? The temptation to let fancy sweep skyward will be great, indeed, to Americans. Are you employed or employer? That weakness for boasting will get the better of thousands at this point. Do you own or rent your home? Desire may give the answer. Any mortgage? It is unpleasant to talk about things of this sort. How easy to say no, lest the next question be, how much?

The importance of the *arm in the life and industry of the nation is being again fully recognized. It is the one industry that is not struck down by panic or financial stringency, says New Orleans Times-Democrat. Mills may close and factories suspend, mines may cease to operate when the money market is demoralized and the demand for their output declines; but through good times and bad the farmer is at work, for we always need his products. These facts are perhaps better recognized to day than ever before, as we now see that it was through its farm products through the surplus of the crops sold in Europe, and which fed and clothed the people of that continent, that the United States was able to recover from the depression of 1907 in so short a time. It is, therefore, specially gratifying on this occasion to see the tribute paid the south as the agricultural center and hope of the country, its protection against demoralization and business depression.

Throughout the country men convicted of "black hand" crimes are receiving exemplary punishment. Which is quite as it should be. The offense is most cowardly, cruel and detestable. It is evident that the authorities and the courts perceive the necessity of dealing sternly with the perpetrators, and in this they are backed by public opinion. By using the law effectively the "black hand" business, which is a very undesirable importation, can be suppressed and those who come to this country to better themselves may learn that it can not be done by such abhorrent methods.

The Optimist's Corner Daily Helps to Health and Happiness

By GEORGE F. BUTLER, A. M., M. D.

As you grow old you need to know that you will keep the heart young, and this you can do by mingling with the young. People of advancing years who try to look young in the social world retain their youth by so doing. Let grandma wear bright ribbons and gaudy gowns, if the colors become her, and grandpa be as drollish as he pleases, with flashy neckties and cheerful gab; both will be younger for it, and, besides, it is in harmony with nature. The trees take on their brightest colors as the winter of their life draws near. The older one becomes the more one should avoid dark and sombre hues, and this includes the heads of both sexes. Gray hair is honorable; that which has been dyed is an abomination before the Lord. Cultivate thankfulness and cheerfulness. An ounce of good cheer is worth a ton of melancholy. Cultivate to the last the ability to love; realize to the fullest that the greatest thing in the world is love. Without love there is no joy in life. As you grow older you will feel the need not only of work, a proper physical and mental occupation, but of play, recreation and study. Let the work be as far as may be in the direction of helping others to help themselves. Nothing keeps one young like thinking of and having a sympathy for others.

SAVAGE CAT ADOPTS FIVE YOUNG MICE

Richmond, Va., May 25.—Naturalists as a rule have classed the cat and the mouse as instinctive enemies, but there are occasions when the calculations of naturalists, as well as those of ordinary mortals, are turned topsy turvy.
In the Virginia bonded warehouse here there has arisen a case that is said to be without parallel. Jenny Crow, a huge and heretofore ferocious mouser, has adopted as her own a family of five young mice, and she fondles and guards them with great care.
Jenny adopted the mice about a month ago, after a litter of kittens had been taken from her.

FAITHFUL HORSE IS PENSIONED FOR LIFE

Chicago, May 25.—Porter, a 26-year-old horse, has been given the highest recognition ever awarded any animal in Lincoln park, when the commissioners yesterday formally passed resolutions congratulating him on his sixteen years of faithful service and retiring him, pensioned for life, to spend the remainder of his days in ease and luxury. The resolutions say:
"Resolved, That the board do hereby emancipate forever Porter from heavy labor; he shall never be sold, but shall always have the place of honor and the most comfortable stall; shall be well cared for, watered and fed, and remain the property of Lincoln Park until his death, and his photograph, history and description together with these resolutions, shall be framed and hung in the most conspicuous place in the Lincoln Park stables."
Dyspepsia is America's curse. Burdock Blood Bitters conquers dyspepsia every time. It drives out impurities, tones the stomach, restores perfect digestion, normal weight, and good health.

MANY STATE SCHOOL GIRLS "MAKE GOOD"

Teacher Talks Interestingly of the Work at Girls' Industrial School at Adrian.

Traverse City, Mich., May 25.—Miss Johnson, one of the teachers at the Girls' Industrial school at Adrian, is spending a month's vacation with her mother and to a reporter yesterday afternoon talked very interestingly of the work done at the girls in the school, and stated that at least seventy-five per cent of them went out into the world and make good, many of them marrying and making good wives and mothers.

Miss Johnson stated that the girls are taught to do all kinds of household work, the girls doing the entire work of the institution, each one having certain duties at certain periods, so that all are taught all branches of the care of a home.

"They rise at five o'clock in the morning," she stated, "and after breakfast, they go to the study room for half an hour while the women are at breakfast. Then each detail goes on duty, and at 10:45 the first dinner bell is rung. Dinner is served at eleven o'clock, thus giving the girls time to do up all the work before school, which they attend in the afternoon.

Read Good Books.
"After returning from the school room, the girls are permitted to sit on the lawn, if it is pleasant, or remain in the study room, until supper is ready, which is served early. After supper they gather again in the study room, where they visit or one of them reads to the others from some good book. We have read several good books this year. At eight o'clock the girls are ready for bed.

Each girl has a little room all to herself."
Miss Johnson told of the work of the art school, and exhibited several pieces of drawn work which the girls have made, among them being exquisite pieces of drawn work, hand made lace, and embroidery. The girls have the privilege of making these pieces to sell and the money is placed in the bank in their names to be drawn out by them when they are through with the school.

It is Worth While.
The girls although placed in the school until twenty years old, do not always remain in the institution until that time, she stated. If they are good girls, and try to do what is right, they are placed in homes on probation, the family having the girl making a report each month to the superintendent. They may be discharged by the state a few months previous to their coming of age, if they warrant it.

There are eight families, Miss Johnson stated, each family occupying a cottage by itself. In the largest cottage containing sixty girls. In Miss Johnson's cottage there are forty girls.
"At times the work is discouraging," said Miss Johnson, "but think of what would become of those girls if there were no such place for them as the Industrial home. Our manager says that at times she feels very much discouraged, but when a letter comes to her from some girl she has helped to make good, she thinks that after all, it is worth while."

MENOMINEE "FLOATER" FULLY IDENTIFIED

Menominee, Mich., May 25.—The "floater" found on Sunday in the Menominee Boom company's sorting gap, was identified by Judge of Probate Martin McDonough, of Iron River, as James Cavenaugh, a client of McDonough's. Cavenaugh was a homesteader near Iron River and owned several parcels of land which he recently sold. Several months ago he came to Judge McDonough for legal advice. At the time Cavenaugh had about \$800 which he deposited in a bank at Iron River. Shortly afterwards he went to a hospital at Green Bay, where he remained for several weeks and then came to St. Joseph's hospital in this city.

A sister of the deceased, whom it is said resides in the east, is now being looked up by the authorities. She is the only known heir to the money left by the dead man.
Judge McDonough is of the opinion that the man did not commit suicide but came to his death as the result of accidentally falling into the water. He had worked as a riverman for many years and, attracted by the scenes of younger days, undoubtedly wandered too close to the water's edge and was drowned.

DELL OBORN MUST REMAIN IN PRISON

Marinette, Wis., May 25.—As the result of a decision handed down Tuesday in the supreme court at Madison, Wis., Dell Oborn will have to serve a sentence of twenty-one years at the Waupun penitentiary for the murder of Louis Toboltz, the higher court sustaining the state in both points. It is claimed that there are no precedents covering the circumstances in the Oborn case and the decision will not be a new supreme court law.

Attorneys Quinlan and Grady, who defended Oborn, were confident that the prisoner would be discharged or granted a new trial. They contended in their arguments that Oborn had been placed in jeopardy when he was taken to Oshkosh for trial in another circuit, that the state had no right to change the jurisdiction of the prisoner and case to Winnebago county. They also claimed that Mrs. Oborn had no right to go on the stand against her husband.
Attorney John Miller, who was district attorney at the time of the murder trial in Marinette, made the argument for the state at Madison.

THE COUNTY JAILS MUST BE IMPROVED

Lansing, Mich., May 25.—A new rule has been adopted by the state board of corrections and charities relative to county jails under which all new buildings must provide for classification of prisoners. More stringent approval of plans has been adopted which was brought about by the annual inspection conducted by Secretary Murray which developed some

deplorable conditions in some sections of the state.

It seems that all jails are lacking in certain facilities in that they lack facilities to separate hoboes, drunks, convicted men and men waiting trial from each other. Under the new rule the new jails must provide quarters for men awaiting trial separate from those of the other classes.

The first plan submitted was from Montcalm county and showed two blocks of cells facing on a common alley way and the board has requested that the plans be changed to conform to the new rule adopted.

Doan's Regulets cure constipation, without griping, nausea, nor any weakening effect. Ask your druggist for them. 25 cents per box.

CHARGE AGED WOMAN WITH BEING FLIRT

Chicago, Ill., May 25.—Mrs. Catherine Calbeck Harley, said to be sixty-three years old, and charged by her daughters with being a flirt, spending large sums for dresses and lavishing money on her young husband, was temporarily restrained by a court order today from continuing the alleged dissipation of the fortune of \$65,000 left by her late husband, Capt. James C. Calbeck, father of the plaintiffs.

The daughters, Mrs. Tatty Clara Wood and Mrs. Patricia Stebel, alleged in their petition that their mother considered herself a "heart breaker" despite her age and in her attempts at rejuvenation lade fair to deprive the daughters of the inheritance.

STEPHENSON'S FINE HORSE IS STOLEN

Kenosha, Wis., May 25.—Police in all parts of southern Wisconsin and northern Illinois are scouring the country in an effort to secure some trace of Prince, the favorite driving horse of United States Senator Isaac Stephenson, which was stolen from the farm of Senator Stephenson in the western part of this county Sunday morning. The horse is valued at \$600, and Senator Stephenson had repeatedly refused to sell him at any price.

Get Men Who Can Deliver Is Griffith's Plan to Win

Manager of the Cincinnati Reds Says Team Must Go After the Enemy and Go Hard

CLARK GRIFFITH

no wear a uniform that looks like yours, and go after him hard. Hand every opposing player anything that will make him weaken or show the yellow. Any time I can convince my men that they are going to win, and the other fellows that they are going to lose, I'll win a pennant.

Ninety-nine and fifteen-sixteenths of baseball is courage and nerve. It is more than that—it is what ball players call "guts"—which is courage with aggressive confidence behind it, and any player who has that sort of confident courage is a good ball player and a winning one, even if he boots half a dozen balls a day.

The best system of winning games is to tell the other fellow that you are going to beat him. Tell it to him before the game starts and tell him in a way that will convince him. You cannot convince him unless you believe it yourself. I keep telling them all the time, and I believe it myself until the game is over and sometimes even then.

Go after the game with intelligence and force every point as hard as possible. Run after every ball at top speed and slide to every base as hard as possible. Take chances; any

chance to gain an inch of ground or a base. The player who takes chances of hurting himself seldom hurts either himself or his opponent and he will make a weak opponent run away. More players get hurt stopping up on their feet and giving up before they are touched than are damaged in sliding to bases.

Then claim every point and claim it quick. Holler "No, No" real quick and beat the umpires to it on every close play a la Evers. The umpire may be perfectly honest and square but on a close play the fellow who yells quickest is much more likely to get the decision. I do not believe in fighting umpires or nagging at them. I believe in yelling quickly. Yelling quickly beats yelling loud all to pieces. It is not cheating a bit, but simply protecting yourself on close plays not so much to get the decision yourself as to keep the other fellow from getting it.

These things, together with a little good pitching and perhaps one star pitcher, will win any pennant if carried out correctly and persistently, regardless almost of the mechanical ability of the players on a team.

"Ump's" Joke on Himself.

Umpire Guthrie of the American association tells a good story on himself. "When I was a youngster I thought I could fight," said the ump. "I had whipped a few of the town boys and the promoter of fights wanted me to enter the professional ranks, which suited me exactly. One day he asked me to meet him and fix up the match. We talked the matter over and I sized up my opponent pretty well. Then the weight question came up. The other fellow said he wanted to fight at catch weights. 'How can I make catch weights?' said I. 'I work every day and cannot afford to quit.'"

Ebbets Answers His Critics.

"The purse strings do not need to be loosened if they are stretched wider than most people know," said President Ebbets of the Brooklyn club, in reply to published criticism of his management. "The Brooklyn players are not only well paid, but they have been promised a liberal bonus in the event of their finishing in the first division at the end of the season. They will receive an increase of from 5 to 20 per cent. of their salaries, according to the amount of hustling done by each individual."

How About This, Johnny?

"Don't believe all this bunk you read about the Cubs' inside ball," says "Doc" Casey, the former Chicago player. "Evers and Tinker have just one sign, and that tips off which one will cover second on a possible hit-and-run. This stuff about working with the pitcher is pure bunk."

PIRATE F. ELDER WHO HAS FEW SUPERIORS

TOMMY LEACH.

You often hear the "bugs" talking about the greatest baseball player that ever swung a bat. Some say it's Wagner, others say Cobb. In Chicago they'll tell you that Johnny Evers or Frank Chance has 'em all beat. In New York they think Christy Mathewson is it. But while you are thinking of these great ones don't forget that there is a fellow in Pittsburg named Leach. Everybody calls him "Tommy." He is modest and retiring and

doesn't boast himself, but when it comes to playing baseball he's there with both feet and both hands. In making a bluff to bunt, thus drawing the third baseman in and smashing the ball over that player's head Leach has no equal. Leach can bat, he can run bases, he can field and knows the inside game. It is doubtful if Pittsburg could have won a world's championship without Tommy.

BAD MEMORY IS BAR TO A BIG FORTUNE

Mother Can't Recall Uncle's First Name Though It Means Half Million Dollars to Her Daughter—Story is an Unusual One, to Say the Least—Details.

Millbury, Mass., May 25.—Because her mother cannot remember the Christian name of her uncle Minard, Dora Renault, a 19-year-old girl of this town believes she is barred from a fortune of half a million dollars.

Ten years ago the uncle left Ludlow to seek his fortune in the west, and before he left he told Dora's mother, who was Miss Julia Minard before her marriage, that he was going to make good for the sake of the little grand-niece.

In the last letter Minard said that he was prospering, but made no mention of the amount of his fortune. He concluded his letter by saying: "And remember, Julie, I intend to keep my promise made years ago, and leave all that I have to little Dora."

Mrs. Renault has received news of his death, and also a communication from his lawyer that if she could prove that she is the woman in question, and that Minard was her uncle, her daughter would receive the legacy, which amounted to half a million dollars.

Mrs. Renault cannot remember the Christian name of her uncle, cannot remember where he was born, nor when, nor any of the details of his life. Her father's family was very large, and they were continually moving about through the different mill towns in Massachusetts. All the members of the family were hazy about their exact ages and even the parents were not sure. Instead of calling the uncle Jean, or Leon, or Gaston, or whatever the name might be, he was always called by the French diminutive of his surname Minard Minnie. He signed all his letters by this name, and that is the only one by which he was known to his friends.

POSTER PRINTERS BAR TIGHTS FROM BOARDS

Cincinnati, Ohio, May 25.—The abbreviated skirts and tights must go from the bill-boards. We'll go further than that—we will not print anything that reputable newspaper or magazine would reject.

This was the declaration here of Clarence E. Roney, secretary of the International Poster Printers' association of the United States and Canada. He made it just before the delegates to the fourth annual convention of the association gathered in their first session and several of them corroborated Mr. Roney's statement of the main purpose of the meeting.

Besides "cleaning up" the show and medical posters, the convention will endeavor to classify the credit of shows and showmen in this country and Canada. The object is to eliminate from the credit lists the "fly-by-nights" who frequently leave the printer sighing for the money due him for "three sheets" or "dodgers."

MACHINE WILL SAVE \$1,000,000 A YEAR

Washington, D. C., May 25.—Secretary MacVeagh has given an order for the purchase of a machine to launder United States notes, which it is estimated, when put into general use at all the sub-treasuries, will save the government \$1,000,000 a year. Experiments in washing and ironing notes have been conducted for some time at the bureau of engraving and printing. These convinced the officials that the method

Our Daily Short Story

WHAT THEY NEEDED

By HARRY VAN AMBERG

Copyright, 1910, by American Press Association.

Having occasion to see Gunter after office hours on a matter of business, I went to his room. It was 9 o'clock, a time when young people are supposed to be enjoying themselves in their evening amusements and married people are sitting around the hearstoves or the big lamp on the center table reading, dozing or listening to the chatter of the children going to bed.

But Gunter—never before in my life have I lighted upon a more desolate situation for a man in good health, prosperous and without any skeleton in his closet. He was sitting in an easy chair, looking at the wall. When I entered something of a change came over his face. He seemed pleased that any one should break the stillness.

"Great heavens, Gunter!" I exclaimed. "What are you sitting here alone for?"

"Because I have no one to sit with me."

"Then why not go out?"

"I've been going out for years, and I'm tired of it."

I stayed with Gunter all the evening. The upshot of our talk other than business was this: I agreed to pilot him into something better than a room with no one but himself in it. My cousin, Margaret Tucker, twenty-eight years old—Gunter was forty—was just as useful of something better than a single room as was Gunter. I told Gunter that he couldn't afford any longer to wait to fall in love. If he did he would likely pass the rest of his life in loneliness. If he married he couldn't be any worse off than he was, and he might be a great deal better off. I used the same argument with Margaret. I vouched for her to Gunter as being an excellent person and for Gunter to her to the same effect. I introduced them. Gunter made an expected proposal. It was accepted, and they were married.

I was shocked at what I had done. Suppose they didn't get on together. How would I feel at having tied them up in a knot they couldn't unloose without a lot of trouble? One day I saw Gunter coming toward me on the street. He looked glum. There was no side street between me and him for me to turn down, so I was obliged to face him. I nerved myself for the meeting and, assuming a lot of heartiness, ran up to him and, grabbing him by the hand, shook it warmly and said:

"How are you, old man? Happy as a clam, eh?"

There was no fervor in his affirmative response.

was a practical one, the estimate being made that eighty per cent of the issues could be retained and the life of a bill doubled. All germs have been destroyed by antiseptic solutions. The first machine will cost \$1,000 and will be installed in the treasury department building.

SPRINKLING DUSTY ROADS WITH SYRUP

Billings, Mont., May 25.—A scheme for improving the roads of the state by sprinkling them with a syrup which is a refuse in the manufacture of granulated sugar from sugar beets, will be submitted to the good roads convention and is being generally discussed in this section. In other states the experiment of combining refuse syrup with quicklime has been successfully tried. This mixture properly distributed over the roads after grading sets into a dense sticky cement which has given most satisfactory results.

BABY BOY WAS NOT SUFFOCATED BY CAT

Chicago, May 25.—Although it was believed that Andrew Blakeley, nine months old, had been suffocated by a cat here today, the coroner's investigation revealed that the infant died from pneumonia. Just before the child died the house cat was found lying across the baby's neck.

"Come, I went on; tell me how you and Mag are getting on."

"Oh, we'd get on well enough, but there are certain things about women that rub a man the wrong way."

"Such as?"

"Well, Mag gives way to me in certain things I don't care anything about, but if anything of importance comes up between us she must have her own way."

"Well?"

"I wouldn't have you breathe it. I say it in the strictest confidence. I'm thinking of a separation."

"Good gracious!"

I saw he was being ruffled and tried to soothe him, but it was of no avail. He declared that his wife had an ideal of a husband in her mind, and she was trying to make him over to conform to that ideal. I left him, feeling that I had not succeeded in comforting him and cursing my folly at having led him into matrimony.

Desiring to see Mag alone and expecting that her husband would not go home at that time of day, I called on her.

"Well, Mag," I said, "how goes matrimony?"

"Oh, matrimony's well enough! It's the man one marries that's the trouble."

"What's the matter?"

"My husband is unreasonable."

"About what?"

"Well, he gives way to me in things that I don't care anything about, but if anything of importance comes up he's a perfect tyrant."

In thinking that Gunter wouldn't go home at that time of day I had made a mistake. While I was talking with Mag he came in. I was irritated at the way my plans for those I had wished to benefit had turned out and was in no mood to meet the two together.

"If you two people," I said, "insist on quarreling instead of enjoying the happiness that has come to you I can't help it. I did the best I knew how for both of you, but—"

"Our affairs are none of your business," said Mag fiercely.

"Right you are," said her husband.

"What right have you to come here and meddle?"

"I meddle?"

Seeing that if I remained where I was a minute longer there would be an explosion, I crammed my hat down on my head and rushed out of the room, slamming the door behind me.

I went to my office in a fever. I couldn't work. I couldn't sit still. I walked the floor. Presently there came a ring at the telephone bell.

"Who is it?" I asked.

"Mag. Come over to dinner."

"What for?" I inquired.

"I wish to thank you for something."

"All right. I'll come. But thank me now."

"We needed some one to turn against instead of each other. We're having a delightful makeup."

Yes; the Merchant Who Advertises Can AFFORD to Sell It For LESS.

No matter what the article is, unless it should be something whose selling price is as fixed as that of a postage stamp, the merchant who is an enterprise advertiser is sure to sell it for less than the merchant who does not advertise.

For, in spite of his advantages in buying—buying in large quantities, for cash or short credit, taking instant advantage of buying OPPORTUNITIES—his selling-advantage is the decisive factor. For he is enabled to count his profits on a large aggregate of sales—not compelled to secure them from a FEW SALES, for he would then be taxing a small number of customers with the entire support of his business.

A store that makes a net profit of \$100 in a day from sales to three hundred customers, is sure to sell to each of those customers on a closer margin of profit than is the non-advertising store that is COMPELLED to make enough to cover a daily expense of \$50 out of sales made to fifty customers.

If you are one of the 300 daily customers of the merchant who advertises, you are paying but one three hundredth part of his store-profits on the days you buy. If you are one of the fifty daily customers of the non-advertising merchant, you are paying one fiftieth of his profits.

If you are fairly "good at figures" you will quickly convince yourself that you ought to buy advertised things!

RECEPTION WILL BE NATIONAL IN SCOPE

Everybody is invited to be in New York on June 18 to join in the welcome to be accorded to former President Roosevelt on his return to America.

New York, May 25.—The reception to be given Col. Theodore Roosevelt upon his return to this country, June 18, will, it has been decided, be national in scope as well as non-political. Cornelius Vanderbilt, chairman of the committee, therefore announces to the country at large that any organization in good standing will be given a position along the line of march. Applications should be made immediately to Capt. A. F. Cosby, secretary of the committee, and addressed to No. 146 Broadway, New York.

Colonel Roosevelt will arrive on the steamship Kaiserin Auguste Victoria and will reach quarantine on the upper bay at nine o'clock and will leave the steamship for a revenue cutter which will lead the welcoming flotilla to the battery. Here there will be brief exercises and an official welcome by Mayor Gaynor.

The procession will then proceed up Broadway to Washington square, through the square to Fifth avenue and up Fifth avenue to 59th street. The entire route will be decorated with the national colors and lined with thousands upon thousands of admirers of Colonel Roosevelt.

As the hotels are already booked many guests, the committee advises that reservations be engaged without delay.

WOMAN IS LICENSED TO OPERATE FERRY

Spokane, Wash., May 25.—Eva L. Canfield of Grangeville, Idaho, has received a license from the commissioners of Idaho county to operate a toll ferry on Salmon river below the mouth of Whitebird creek, thus giving her the distinction of being the only ferrywoman in the northwest.

Miss Canfield is thoroughly familiar with the stream, is an accomplished oarswoman and is popular with the residents of the district, which means much for the success of her venture. She will establish a fully equipped ferry line to handle passengers and freight and hopes in this way to earn her living. She will be pilot of the craft until it is put upon a basis where it will bring sufficient revenue to warrant the hiring of additional help, in which event her assistant will be a woman. The work

of loading and unloading will be done by men, one or more being stationed on each side of the river.

UNION LABOR MEN TO ENGAGE IN POLITICS

Spokane, Wash., May 25.—Union labor promises to be a factor in politics in the state of Washington this year and in the future. A convention has been called by the State Federation of Labor to meet in Spokane on July 4 for the purpose of organizing a new party, separate and distinct from the Republican and Democratic parties and, as it is stated in the resolutions adopted by a recent referendum vote, without fusion or trading with them.

It is given out officially by D. C. Coates of Spokane, ex-lieutenant governor of Colorado, that candidates for congressional, state, district and county offices will be put in the field next fall. A. W. Swenson, a member of the Spokane Typographical union, who is credited with originating the plan at the annual meeting of the state federation at Hoquiam last January, said in an interview that the break between the wage-earners and the old parties has been impending for the last two or three years, and it is now up to the workers themselves to nominate their candidates and elect them.

MAKES WORK EASY.

Escanaba People Are Pleased to Learn How It Is Done.

It's pretty hard to attend to duties. With a constantly aching back; With annoying urinary disorders. Doan's Kidney Pills make work easier.

They cure backache. They cure every kidney ail.

M. Brown, 406 S. Jennie St., Escanaba, Mich., says: "About two years ago I began to suffer from pains in the lower part of my back and after a hard day's work, I was so lame that I could scarcely straighten. In the morning upon arising, I felt lame and sore and the kidney secretions were often scant. A friend advised me to try Doan's Kidney Pills and I accordingly procured a box at the Mead Drug Co. My kidneys were soon strengthened through their use and the pains in my back were disposed of. Recently when I had a return of pain, I again used Doan's Kidney Pills and for sale by all dealers. Price 50 cents. For benefit I derived from this great benefit I gladly tell of to the world. I am glad to say that they promptly relieved me. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other."

WILL NOT SERVE 40 YEARS' SENTENCE

Charles Rondo, Convicted of Murder Through Being Victim of Remarkable Circumstances, is Granted Pardon from Washington State Penitentiary—Story.

Spokane, Wash., May 25.—Charles Rondo, who was convicted under the name of Charles Rollins of the murder of M. Vincent of Wallace, Idaho, and sentenced to forty years in the penitentiary, is a free man, being given his liberty by the state pardon board after a thorough investigation, when it was brought out he was the victim of a series of remarkable circumstances.

Rondo refused to divulge his identity when arrested, saying that to do so would probably result in the death of his aged mother, neither would he give testimony in his own behalf. When arrested two weeks after the death of Vincent, in August, 1908, Rondo was recovering from a bruised eye. He was identified by Vincent's companions, although he bore no resemblance to the two men arrested and positively identified earlier as Vincent's assailants.

The two suspects, however, established alibi and were released. Witnesses testified at the hearing that their identification of Rondo was made more certain because of his injured eye. Rondo persistently maintained his innocence and this and the conflicting testimony was brought to the attention of the pardon board with the result already noted.

YELLOWSTONE PARK, COLORADO, UTAH AND CALIFORNIA AND NORTH PACIFIC COAST

Special low round trip rates during the summer months via Chicago, Union Pacific and North Western line to Denver, Colorado Springs, Pueblo, Glenwood Springs and other points in Colorado; the Yellowstone Park, and to Salt Lake City, San Francisco, Los Angeles, San Diego, Portland, Tacoma, Seattle, Vancouver, and other points on the Pacific Coast, also to Wyoming and the Black Hills.

Luxuriously equipped fast trains. Choice of routes. Liberal stop-overs and return limits. Rates, dates and descriptive matter on application to ticket agents, The North Western Line 151.

A Hard-Luck Story.

"Politeness always pays." "I don't know about that," replied Mr. Huntling Work. "I had a pretty good position as a bill collector. But I made myself so agreeable that people held out on payments for fear I'd stop calling on them."

For Our Boys and Girls

Too Much Love

By OSCAR COX

Copyright, 1910, by American Press Association.

While serving with my regiment as surgeon at Manila I received a letter from my old friend Dick Thurston at Batavia, Java, asking me if it would be possible for me to come down and see him. He was ill, and despite the fact that he was taking the best care of himself he didn't get any better. Couldn't I obtain a leave even for a few days?

I succeeded in getting a leave, and I found Dick Thurston on a coffee plantation, where he had gone some months before in the interest of an American grocery concern. He was living with a Javanese family, consisting of a mother, a daughter some twenty-five years old and several children. The young woman was attending to the patient's wants. Indeed, she had the whole care of him.

Dick was suffering from malignant dysentery. I put him under treatment, but got no response. A couple of days after I began he was as bad as ever. What puzzled me was that his trouble was intermittent. At one time he would appear so well that I couldn't believe there was anything the matter with him. Then, when I was congratulating myself that he was going to come out of it, down he would go again. As for the drugs I gave him, they appeared to have no effect whatever.

I hadn't been attending him long before I discovered that the Javanese girl who nursed him was in love with him. This set me to thinking. I had seen an extract somewhere—I think it was in a newspaper—from an old Dutch report stating that when a Javanese woman takes a fancy to an European she will either have him or poison him if she gets the chance. Might not this be a case in point? Without saying anything to Dick I resolved to watch her. She was very regular in bringing in his meals, and on several occasions when she did so I concealed myself in a closet, keeping my eye to a nail hole. But if she was poisoning his food she didn't do it when she gave it to him.

"Dick," I said to my patient, "your nurse loves you."

"You don't mean it!" he exclaimed, astonished.

"Have you been making love to her?"

"I have never thought of such a thing."

"Have you any objection to doing so?"

Dick demurred, but as I told him I had a theory connected with his illness he finally consented. The next time she was with him he called her

to him, took her hand in his and told her that her kindness was winning his heart. She did not object to a caress and went away looking very happy.

The next day Dick was better.

I told him to keep up his love-making for a few days, and he did so, with the result that his improvement was remarkable. I didn't care enough for further experimenting to ask him to cease his devotional attitude and grow worse, so I resolved to eat some of his food myself. But to get the food that I was sure was poisoned I was obliged to have him do this very thing. He turned away from her, but did not eat the next meal she brought him. I smuggled in some food for him, ate a little of that the girl brought him and made away with the rest surreptitiously. The test fulfilled the conditions. The whole length of my alimentary canal became irritated. This was the same symptom as Thurston's. I didn't care to repeat the experiment.

There was now nothing to do but get the patient from out the clutches of this too much loving nurse, but my curiosity was aroused as to what poison she was using. I thought of watching her as she prepared the food, but to do this was impracticable. I would have tested the food chemically, but had no materials for the purpose. I was puzzled.

I had, among other instruments I had brought with me, a pocket microscope. It was by no means so powerful as the regular instrument, but excellent for its grade. For the want of something better I one day took up this microscope and brought it to bear on some of the food I had eaten. Immediately the cause of the trouble was revealed to me. The substance was filled with fine hairs—not animal, but vegetable—hollow tubes spiked like bayonets.

And these things had been passing through Dick's digestive organs. No wonder that he was ill. A comparatively few of them had made me feel as if I had eaten hot lead.

I took some of the food to a Javanese man from whom Dick had been buying coffee, showed him the hairs with the microscope and asked him what they were.

"Those," he said, "are bamboo poison hairs, so called from the fact that they are used by our people who wish to put some one out of the way."

After a consultation Dick and I decided that we didn't care to have anything to do with Javanese justice, so I advised him to keep on good terms with his "sweetheart" for a few days that he might get no more spikes in his stomach and get well. Nevertheless, before he ate any of the food she gave him I examined it with my glass.

Then one fine morning we walked away, leaving the maiden glaring at Dick from the door where he had said goodby to her.

Only Seven Fords Left of the Twenty-Five Ordered Last Fall

Many mixtures are offered as substitutes for Royal. None of them is the same in composition or effectiveness, so wholesome and economical, nor will make such fine food.

ROYAL Baking Powder

Absolutely Pure

Royal is the only Baking Powder made from Royal Grape Cream of Tartar

Let the Baking Board Become your BOARD of EDUCATION

The principle of all baking powder is simply this: Certain elements are combined which, when they come in contact with moisture and heat, undergo a chemical change or reaction.

This reaction causes a gas which makes the baking puff up or rise. Now the very small part of the baking powder which remains in the food is entirely different from the original substance. And it is this remaining part that you eat, and not the original contents of the can.

For instance: In a Cream of Tartar Baking Powder—the Trust Brand—you do not eat Cream of Tartar in the baking, because the chemical reaction turns it into Rochelle Salts—an innoxious drug.

So what concerns you most is what you really eat and not what you get in the can. In Calumet Baking Powder the elements are such that the chemical change leaves no impurities in the food—it is chemically correct. Baking leavened with it contains no Tartaric Acid, Rochelle Salts, Alum, Lime or Ammonia.

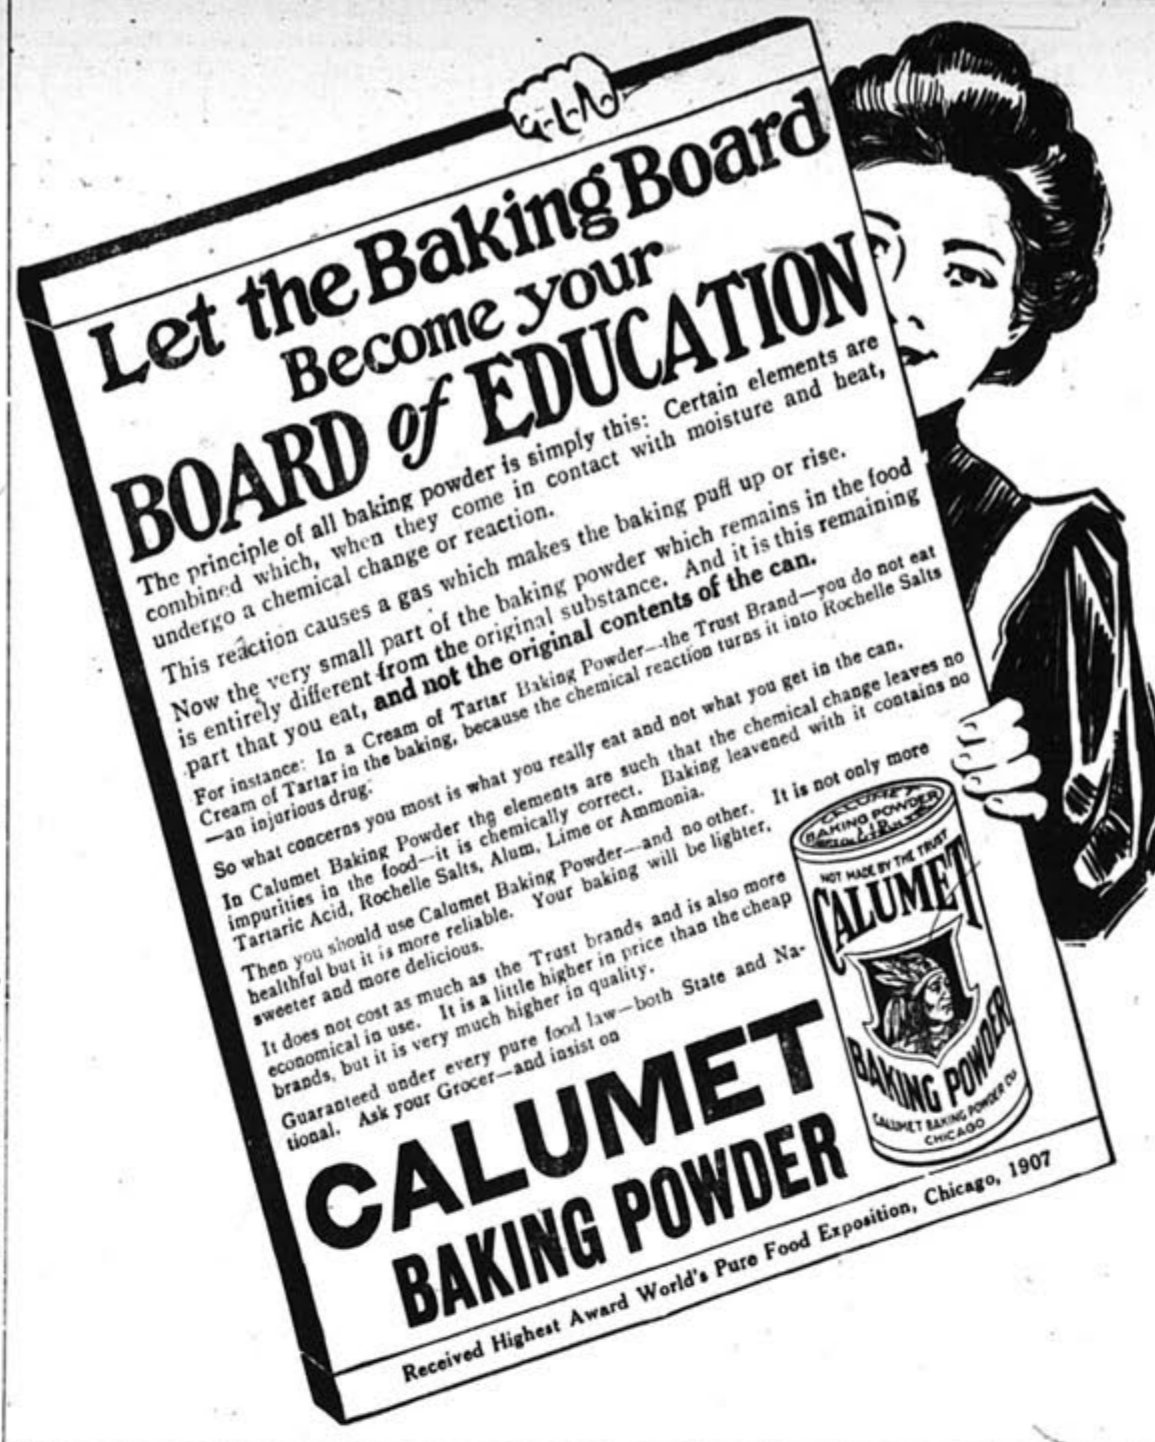

Then you should use Calumet Baking Powder—and no other. It is not only more healthful but it is more delicious. Your baking will be lighter.

It does not cost as much as the Trust brand and is also more economical in use. It is a little higher in price than the cheap brands, but it is very much higher in quality.

Guaranteed under every pure food law—both State and National. Ask your Grocer—and insist on

FOREIGN DRAIN ON AMERICAN GOLD HEAVY

European Countries Absorb a Billion Dollars Each Year From the United States.

New York, May 25.—That Europe is now absorbing the wealth of this country at a rate approximating a billion dollars annually is the astonishing fact just brought to light here by figures collected for private purposes. For many years there has been outspoken criticism of the manner in which foreign countries were acquiring great American fortunes by the simple means of exchanging titles for them in the matrimonial market.

Now, however, the situation has become much more serious, for instead of marrying American millions, foreigners are taking money out of this country through commercial investments at a rate twenty-fold greater than that afforded by means of international alliances, which, while they caused much more comment, were really far less serious than the present situation. Indeed, the extent to which American money is going abroad at present is being discussed as a factor which may prove

dangerous to a continuance of this country's favorable balance.

Some Heavy Items.
So strong is the eastward flow of American dollars, and so many the outgoing channels of this wealth, that steps are now being considered by which it may be checked.

The greatest single amount in the expense account, which takes out of the country annually a greater sum of money than that required for the expenses of the Federal government, comes in the shape of dividends on American securities which are held abroad. This item alone amounts to over \$450,000,000, much of which goes to France, since that country has in the last few years absorbed hundreds of millions in stock and bond issues.

More than \$350,000,000 is spent each year in European shops, according to the figures just compiled, while upwards of \$250,000,000 goes each twelve months from American pockets to those of foreign hotel keepers, amusement owners, and in other similar ways.

MASKED ROBBERS LOOT POKER GAME

Salt Lake City, Utah, May 25.—Two masked robbers early today held up sixteen men in an alleged gambling house and robbed them of \$1,500 in cash and diamonds worth \$1,100. Although, Salt Lake City is supposed to be "closed" the police declare the victims of the holdup were engaged in a poker game.

FALLS IN FRONT OF TRAIN TO HIS DEATH

Marinette, Wis., May 25.—William Blazier, aged sixty years, was fatally injured Monday night. He is supposed to have been intoxicated and had just alighted from a train at the station and was seen to reel and fall right in front of the locomotive, just as the train had started. He died before he reached the hospital, having been disemboweled.

Old Ocean Scuttlings.
The island of Aldabra, to the northwest of Madagascar, is becoming smaller through the action of the manures that grow along the foot of the cliffs. They eat their way into the rock in all directions, and into the gaps thus formed the waves force their way. In time they will probably reduce the island to pieces.

Courted Responsibility.
Labor Exchange Clerk—"What are you?" Seedy Applicant—"I used to be a steam roller flagger, but am open to take up any post that promises an equal amount of responsibility and danger."

PROBLEM OF HATS, HATPINS AND BALLOTS

Chicago has passed an ordinance limiting the length, sharpness and use of the hatpin. Indianapolis has declared the long stickers deadly weapons. San Francisco is considering, St. Louis pondering and Pittsburg has it on the list.

Shall women be allowed to carry deadly weapons about in their hats? That is the question statesmen are debating. But the family provider is wrestling with another phase of the problem. He considers the \$48 hat much more deadly than the hatpin.

As an ultimate consumer he wonders why the law allows fashion makers to put a seventy-five cent rooster on thirty cents' worth of straw, call it a "Chantecler" and charge his wife \$19 for it. He hopes that Senator Lodge and his committee will investigate the subject and find if it is a rooster hat that has raised the price

of chickens and taken eggs out of his reach. The ramifications of the subject are almost endless.

If a husband refuses to pay for a three-foot hat, has his wife the right to stab him with a fourteen inch hatpin? If a man refuses to provide for the support of a fifty dollar hat in the style to which it is accustomed, is it a ground for divorce?

These are questions that a man must have settled before he will consent to woman being given the ballot. He must feel that he is not to be deprived of life, liberty or the pursuit of happiness. He must be assured that he is not to be chased with a hatpin nor dogged by the milliner. He wants room left him to walk on earth unmenaced and unblissed.—Baltimore (Md.) Sun.

The Judge's Interruptions.
Sir John Bigham complained to Lord Watson that he interrupted counsel too much; and the reply was: "Eh! man, you should never complain of that, for I never interrupt a fool."—Saturday Review.

Josh Billings Says:
The study of human nature is like the study of the dissecting room; both have disgusting scenes in them.—New York Weekly.

WISCONSIN MONUMENT IS DEDICATED TODAY

Veterans of Blue and Gray Clasp Friendly Hands at Vicksburg National Park.

(Special to The Mirror.)
Vicksburg, Miss., May 25.—In the presence of hundreds of veterans both Union and Confederate, state officials of Wisconsin and Mississippi and representatives of the army and various patriotic organizations, the \$100,000 monument to Wisconsin soldiers was dedicated today at the Vicksburg National Military Park.

At the same time the "bloody shirt," so long waved by partisans of the North and South, was buried for all time. Never before did gray meet blue or Union veteran greet Confederate with such whole-souled cordiality, and this was largely due to the influence of one of Mississippi's sons, Col. James Gordon, the ex-Confederate whose farewell speech in the United States Senate sounded the keynote of the final reunion between the North and the South.

In addition to the handsome Wisconsin state memorial, for which \$100,000 was authorized by the legislature of that state in 1907, seventeen smaller monuments were dedicated to the soldiers of the seven Wisconsin regiments which had a part in the Vicksburg campaign.

Played Important Part.
Wisconsin has played an important

part in the building of the Vicksburg National Military Park.

Two of Wisconsin's former governors, Gov. Lucius Fairchild and Sergeant W. Hoard attended the first general meeting held at Vicksburg for the purpose of inaugurating the movement for a great national park, congress already having voted to lend a hand. General Fairchild, though not in the campaign under Grant, was chosen president and served as such until his death.

Wisconsin's first state commission consisted of three soldiers who were through the battles and siege, one for the right of the line, one for the center and one for the left. Col. A. G. Weissert of the Eighth regiment, was for the right, the late Col. W. F. Vilas of the Twenty-third, for the center, and the late Gen. George E. Bryant of the Twelfth, for the left.

It was under this commission that all of the plans for the monuments for the seventeenth different commands were made. Senator Bjrd and Judge Burnham succeeded Colonel Vilas and General Bryant, and they, with Colonel Weissert, have had charge in making and carrying out the plans called for by the appropriation for the \$100,000 monument.

WOMAN A CANDIDATE FOR U. S. CONGRESS

Los Angeles, Cal., May 25.—Mrs. J. Sutton, mother of Lieut. James N. Sutton, whose tragic death at Annapolis two years ago threatened to develop into a Dreyfus case in America. Tuesday announced that she would run for congress as a means of influencing legislation toward reopening the investigation into the cause of her son's death.

In a few weeks she will be in Los Angeles on her way to Portland, Ore., where she intends to open her campaign. S. Creed Cross, according to Miss Sutton, will take the stump in behalf of Mrs. Sutton, and will make addresses not only in Oregon, but in every state on the Pacific coast.

"My mother is more than ever convinced," said Miss Sutton, "that Jim met his death at the hands of his ene-

my and she will not rest until his name is cleared.

"The battle is so uneven, the array of power against my mother is so formidable, that it seems hopeless. But my mother is sanguine and hopeful she will live to clear the memory of her son."

TWO CHARGED WITH MURDER OF MINER

Houghton, Mich., May 25.—Charles Lehto and Alex Karmlinen have been arrested charged with the murder of Erick Wutla, whose body was found 300 feet below the surface in the Quincy mine, Monday. Wutla, an employe of the mine, was not on duty, the body was in his street clothes. The only explanation is that he was thrown into the mine during a fight. Lehto and Karmlinen were the last persons seen with him.

EIGHTEEN PERISHED IN THE COLLISION

All Hope is Abandoned for the Safety of Those Who Went Down With the Steamer Frank H. Goodyear After Being Rammied by the Steamer Good—Names of the Victims.

Port Huron, Mich., May 5.—The families and friends of the missing eighteen members of the crew of the ill-fated steamer Frank H. Goodyear, which sank off Point aux Barques, after being rammed amidship by the steamer James B. Wood, today practically gave up all hope of any of the missing party being rescued.

The steamer Sir William Siemens which was said to have picked up some of the missing crew, passed Detroit yesterday and made no report of having any survivors aboard. The four rescued members of the crew have gone to the Goodyear's headquarters in Cleveland. Mrs. Emma Bassett, the only other survivor, is still in Port Huron.

The names of those who are believed to have perished as a result of the collision are as follows: August Zaetsch, mate, Algonac, Mich.

Archie Fuller, second mate, Algonac, Mich.

Jacob Piergis, wheelsman, South Chicago.

John Papp, wheelsman, Cleveland.

William Pitt, watchman, Midland, Ont.

William Schleuter, passenger, Milwaukee.

Louis Kramer, deck hand, Kenosha, Wis.

Iver Carter, deck hand, Kenosha, Wis.

Fred Herman, deck hand, Sheboygan, Wis.

Frank Jankovits, deck hand, Chicago.

John Gibson, engineer, Wayne, Mich.

William Rowert, oiler, Carsonville, Mich.

Howard Shook, oiler, Ausable, Mich.

Vanderslaw Klubozesewski, fireman, South Chicago.

Ernest Streek, fireman, Kenosha, Wis.

F. H. Bassett, steward, Algonac, Mich.

Mrs. F. H. Bassett, waitress, Algonac, Mich.

James Bassett, age three years, Algonac, Mich.

EAT WITH KING'S SONS SATURDAY

Don't overlook the breakfast that is to be given next Saturday morning at the First Presbyterian church by the King's Sons. The boys have planned an elaborate menu and like all of their events the breakfast is sure to be a winner. The price for the breakfast this year is twenty-five cents and everyone is invited to attend. Breakfast will be served from 5:30 to nine o'clock.

SONG SERVICE IN CHURCH TONIGHT

Prof. C. O. Larson of Chicago arrived in the city this morning and will conduct a song service at the Swedish Baptist church this evening at eight o'clock sharp. Several numbers will be rendered in the English language and it is hoped that a good crowd will be in attendance. No admission will be charged and everyone is invited to attend the services.

AND THE CONTINENTAL IS THE GREATEST OF THEM ALL.

The fact that the casualty branch is developing at a very strong rate may be termed a matter of common knowledge in the insurance business; but it is to be doubted that many insurance men realize the rate of premium growth achieved by the companies in the aggregate during the year 1909.

During 1907 the business enlarged its premium income by about six millions of dollars, and during 1908 by perhaps four or five millions. These developments were the cause of remark; but they did not compare with the growth shown last year which was about sixteen millions of dollars.—The Surveyor.

MEANS FIGHT

(Continued from Page One.)

purpose and then stated that the election of officers would be the first thing in order.

For president, Mr. Jennings, Mrs. Spencer and Dr. Long were nominated. They all expressed their inclination to stand as candidates for the office, but they were all voted for just the same. The first ballot resulted in no choice and on the second ballot Mr. Jennings was elected.

Mrs. Spencer and Dr. Long were unanimously elected vice president and secretary, respectively.

For treasurer, M. K. Bissell and A. J. Young were nominated and the former was elected by a majority of two votes.

Upon motion of Mr. Ellsworth, the president appointed a committee on by-laws. Members of this committee are Miss Mary Atkins, Mrs. C. C. Flint, J. W. Hoot, with President Jennings and Secretary Long as ex-officio members. The committee will meet on call at the office of President Jennings to do its work.

Earnest Spirit in Evidence.
Secretary Long read a communication from the secretary of the Michigan Association for the Prevention and Relief of Tuberculosis, which offered a large number of suggestions for organizing the society and the lines of work that would be best to follow after it is fully organized.

There was some discussion as to the advisability of adopting the constitution of the state association as the constitution of the society, but the matter was left open, being referred to the committee on by-laws for investigation. The meeting was an enthusiastic one and the earnest purpose of the society to "do something" along lines for which it exists was strongly expressed by those who spoke. When the meeting was adjourned it was with the understanding that the next meeting would be held after the committee on by-laws shall have completed its work and be subject to the call of the president and secretary.

HOUSE MEMBERS WILL CAUCUS ON POSTAL BILL

(By Associated Press.)

Washington, D. C., May 25.—A caucus of Republican members of the house on the postal savings bank bill will be held tonight. Less than a dozen members of the house, all insurgents, so far as known, have declined to sign the caucus call.

We Now
Have a Complete Line of the Genuine
Everwear
TRADE MARK
HOSIERY
For Women and Children

It will pay the ladies and children to wear this famous brand of hosiery just as it has the men—and every man who has worn Everwear knows what this means.

The same guarantee goes with the women's and children's hosiery, which is—six pairs must wear six months without a hole, rip or tear or new hose will be given free. The children's stockings are especially durable—the knee being reinforced as well as the heel and toe. The stocking is made of extra long staple cotton and the leg has double the stitching, so that it may stretch freely when needed.

Ladies, come in and examine them—then try six pairs for yourself and children.

1.50-2.00 & 3.00 for box of 6 pairs.

NOTICE.
Members of Valentine Camp No. 21, U. S. W. V., will meet at their hall, corner Hale and Georgia streets, at ten o'clock sharp Sunday morning, to attend Memorial services to be held at St. Stephen's Episcopal church, and at one o'clock sharp Monday afternoon, May 30, to take part in the services to be held at Lakeview cemetery. All soldiers or sailors of the Spanish-American war, not members of the U. S. W. V., are invited to join with us in honoring the dead.
ANTON EMBES, Commander.
A. G. GERDEL, Adjutant. 141.
Itching, bleeding, protruding or blind piles yield to Doan's Ointment. Chronic cases soon relieved. Finest cured. Druggists all sell it.

Silverware

MAY IS THE MONTH THAT MOST PEOPLE DEVOTE TO THE CHOOSING OF THE GIFT FOR THE JUNE BRIDE—AND MANY THERE ARE THIS YEAR, WHO HAVE SEVERAL WEDDING GIFT PROBLEMS TO DECIDE. THERE IS NO GIFT MORE SATISFACTORY AND MORE CERTAIN OF APPROVAL THAN SILVERWARE. FOR WHERE IS THERE A JUNE BRIDE WHO HASN'T PLANNED, FOR THE SOMETIME FUTURE, A FINE DISPLAY OF SILVERWARE FOR HER SIDEBOARD?
