## GREAT INTEREST IN TOUR OFFER

The Daily Mirror's Contest for the New York City and Bermuda Islands Trips Hailed as a Grand Opportunity for the Ambitious Young Women.

Judging from the number of inquiries that have been made concerning The Daily Mirror's announced plan of sending a party of young ladies and their chaperone on a delightful trip to New York City and the Bermuda Islands, the proposition has created a vast amount of interest among the residents of the county.

And well it might, for the opportunities that Delta county women have had of this kind have been few and far between, but the fact remains that they now have a chance to demonstrate what they can accomplish through a little energy rightly applied.

Attention, Ambitious Women! We imagine there are a great many young women of Escanaba, Gladstone and the remaining portions of this county and vicinity who have been waiting for an opportunity of this kind, and all such are asked to carefully read the contest supplement in this issue of The Mirror, wherein is set forth in detail full information concerning the manner in which the competition for the trips is to be conducted.

But we don't expect the dear girls will be satisfied with the information given, and they are invited to exercise the feminine privilege of being allowed to ask just as many questions as they wish, for we are sure that the more they ascertain about the affair the better it will seem to them.

Finest Trip Ever. Just think, young ladies, The Daily Mirror is going to start you away from dear old Escanaba in the best manner possible, and if every one does not return from this delightful trip with the firm conviction that she has had the best time of her life, it won't be our fault. The contest manager has in his possession letters from young ladies in other towns who have made just such trips as these, and every one of the writers testifies to the amount of education that such experience brings to the participant.

We imagine that many of the questions being asked these days are directed toward the young student versed in geography, for the parents whose school days have long since passed will want to know where those Bermuda Islands are, anyway. Little Willie, who gets a standing of 100 per cent right along in his studies bearing on the different countries of the earth, will be on the job right quickly with the information that these North Atlantic possessions of Great Britain are straight out in the ocean from South (Continued on Page Six)

## HOLD UP MEN KILL OFFICER

Alleged Robbers at Duluth Rob Cash Register in Hotel and After Being Captured by Policeman Kill the Officer in Street Car—Make Their Escape.

(By Associated Press.) Duluth, Minn., Jan. 6.—William Muzzy and Alget Johnson early this morning, it is alleged, held up two men in the office of the Hotel McKay and after robbing the cash register, made their escape. They were later captured by Policeman Chesmore, who boarded a street car with the prisoners. While the officer's attention was diverted one of the men drew a revolver and shot him dead. Then they both jumped from the car and escaped.

## PEARY PROVES HE CAN WALK

(By Associated Press.) Washington, D. C., Jan. 6.—The official report of Captain Peary's recent walking test as prescribed by the navy has just been made public and shows that on the first day he walked 25 miles in six hours and 45 minutes; the second day 25 miles in seven hours and 26 minutes and the third day five miles were made in one hour and twenty-eight minutes. His friends say that this proves that fifty miles over the ice in an entire day would not have been an unreasonable distance for him to cover as in the recent tests he made 55 miles in 15 hours and 39 minutes.

## FIRE LOSS IN 1910 WAS HEAVY

(By Associated Press.) Chicago, Ill., Jan. 6.—Statistics made public here today show that the losses by fire in the United States and Canada amounted to \$244,370,650, or over thirty millions more than the losses in 1909.

## LET'S ALL HOLLER!

The Man that Hollers Down a Well About the goods he has to Sell Don't Get Those Gleaming Golden Dollars Like the Man That Climbs a Tree and Hollers.

This is not a very pretty poem and it was not written by Shakespeare nor any of the famous poets. On the contrary it was got up by no less a personage than John Wanamaker.

Every merchant—every person, in fact, knows who John Wanamaker is. For those that do not let us enlighten you. He is a Philadelphia merchant that started in business without much money and is now the Merchant Prince of the whole world.

If you ask him why he is called the merchant prince he will say that he has earned the title.

Ask him why he has so large a business and he will tell you that it was because he advertised.

ESCANABA HAS THE GOODS TO ADVERTISE.

LET'S ALL HOLLER.

Ask him why he advertised and he will tell you it was because he had the goods to advertise.

We are the Metropolis of the Upper Peninsula.

THERE IS A REASON FOR IT.

SHALL WE HIDE THE FACT OR WILL WE CLIMB A TREE AND HOLLER?

Detroit is—the largest city in the Lower Peninsula and Escanaba is the largest in the Northern Peninsula. The fact is not known to very many people.

LET'S HOLLER ABOUT IT.

Other cities near here grew smaller.

ESCANABA GREW LARGER!

Don't Hide It From the World. Tell Everyone You Know. Write It To Your Friends.

CLIMB A TREE AND HOLLER.

## TO GIVE CONCERT ON JANUARY 26

At the regular meeting of the Escanaba Choral club, held Thursday evening, it was definitely decided to give the club's first concert on Thursday evening, January 26, in the First Presbyterian church. It had previously been tentatively decided to hold the concert on the evening of January 19, but on account of the Kermis opening on that date and for other reasons it was found advisable to select a later date. There was a large attendance at the meeting and considerable enthusiasm and spirit shown in the rehearsals. The program for the concert has not been fully made up yet, but it will be one to appeal strongly to lovers of vocal music. It is expected that the first public appearance of the club in the entertainment line will be successful.

## HELD FOR TRIAL IN CIRCUIT COURT

Fritz Gruenert, who was arrested at Fort Yellowstone, Wyo., and brought back to Escanaba to answer to a charge of seduction preferred by Annie Neuman of Ford River, was arraigned before Justice Linden. He waived preliminary examination, however, and was thereupon bound over for trial in circuit court. Bail was fixed at \$1,000. Gruenert was unable to furnish the required surety and he was remanded to the county jail.

## MAYOR DECLINES TO SIGN ORDER

Payment of Bill of Water Company for Hydrant Rental and Allowed by Council is Held Up—Council May Reconsider Its Action in Allowing Bill—Situation.

Acting upon his own feeling in the matter and also at the request of a delegation of prominent citizens who waited upon him Thursday afternoon, Mayor Greenhoot has declined to sign the order for the payment to the Escanaba Water company of its bill against the city for hydrant rental from July to December 31. The amount of the bill, which was allowed by the common council Tuesday evening, is \$4,487.66.

Mayor Greenhoot was requested not to sign the order by the delegation, representing the citizens of the city who are incensed at the action of the Water company in proposing to raise the water rates in the face of the fact that the water now being supplied to consumers is impure and dangerous in quality.

It is claimed that the company has not right, anyway, to advance the rates under its existing contract with the city, under which contract it is opening in lieu of a franchise.

It is understood that at an adjourned meeting of the council to be held this evening a motion will be made and probably carried to reconsider the action of the council Tuesday evening in allowing the Water company's hydrant rental bill. If the bill is held up in this manner it is pretty sure to remain (Continued on Page Six.)

## A. O. H. WILL HOLD JOINT INSTALLATION

Announcement is made that the Ancient Order of Hibernians and the Ladies Auxiliary of that order will hold a joint installation of officers in St. Patrick's hall next Saturday evening, January 8. It is stated that a brilliant literary and musical program is being arranged for the occasion by the entertainment committee and refreshments will be served by the ladies. The fact that this is the one meeting of the year when brothers and sisters of these two great organizations meet should assure the attendance of every member of both in the city and county.

## MRS. GRABOWSKI IS GIVEN BURIAL

The funeral of the late Mrs. E. A. Grabowski, who died Tuesday night from the effects of ptomaine poisoning, was held this afternoon from themanuel German Lutheran church and was quite largely attended. Services over the remains were conducted by Rev. L. A. Witte of this city and Rev. F. R. Rutzen of Menominee and interment was made in Lakeview cemetery. The pall bearers were: Ira C. Jennings, A. E. Ellsworth, R. A. F. Snyder, M. N. Smith, C. M. Thatcher and Henry Abenstein.

Mrs. Louis Savard of Ralph is in the city for a few days' visit with relatives and friends.

## WELLESLEY GIRLS WEAK ON SPELLING

Examination Papers Disclose That Many Students at Famous Girls' College Are Poor Spellers—Must Take Special Course in Spelling—Escanaba Girl Among Them.

(Special to The Mirror.)

Boston, Mass., Jan. 6.—That many of the girls attending Wellesley college are weak on spelling was demonstrated yesterday, when they were notified that they would have to take a special course in spelling along with their other work if they want to remain in the college.

It seems that in recent examination papers handed in, the members of the faculty found so many errors in the spelling that it was thought best to take the poor spellers to task and force them to take a special course in spelling.

An Escanaba, Mich., girl is among the number that will have to take a special course in simple spelling.

## WILL BE BURIED AT CLEVELAND

Acting under instructions received from John M. Lambur, brother-in-law of the deceased, Undertaker J. A. Allo will tonight ship the remains of the late Milton Bartsche to Cleveland, Ohio, for burial. Mr. Allo received a telegram this morning from Mr. Lambur directing that this be done. Mr. Bartsche died at the Delta County hospital Tuesday evening from the effects of injuries sustained while he was standing near a skidway in John Duncan's logging camp. His home was at Cleveland.

The remains of the late James Bacon, a former resident of this city, who died at Crystal Falls Wednesday, arrived here this afternoon and were taken directly from the train to St. Joseph's cemetery, where they were given burial. The funeral services were held at Crystal Falls this morning.

Escanaba, the metropolis of the upper peninsula, is now being given the publicity and consideration which its size and importance entitle it to. One evidence of this pleasing fact is that the Chicago & Northwestern Railway company is now featuring Escanaba as one of the important cities of its class reached by the great Northwestern system.

Information to this effect has been received here by Secretary S. M. Matthews of the Escanaba Business Men's association in a letter from Passenger Traffic Manager A. C. Johnson, written in reply to a communication sent General Manager Cantillon, calling the latter's attention to the fact that according to the recent census Escanaba now stands first in population among the cities of the upper peninsula.

Mr. Johnson writes that not only will Escanaba be given prominence in the Northwestern railway's advertising, but that it also will appear and be given its full due on all the company's map plates. Following is the letter entire:

Mr. Johnson's Letter. Chicago, Ill., Dec. 29, 1910. Mr. S. M. Matthews, Secretary Escanaba Business Men's Association, Escanaba, Mich.

Dear Sir:—Your favor addressed to Mr. Cantillon, our general manager, and we are pleased to have this opportunity to rejoice with you in the prosperity and growth of your city.

The Chicago & Northwestern Railway feels its interests closely bound up in those of your community and it is our desire, as you know, to do everything possible to increase your growth and advancement.

You may rest assured that in our advertising matter Escanaba will receive most careful attention. I hand you a copy of one of our recent magazine advertisements in which we have given your city representation, and we will see to it that in our map plates Escanaba will always receive its full due that will place it on a parallel with cities of its class.

With kindest regards and best wishes for the New Year, believe me, Very truly yours, A. C. JOHNSON, P. T. M.

James Beland, who has been visiting here for some time, will leave tomorrow for Big Rapids to resume his studies at the Ferris Institute.

**FLANNIGAN STRONGLY ENDORSED.**  
 At the recent banquet of the Marquette County Bar association the members, by unanimous vote, pledged their support to the Hon. R. C. Flannigan, judge of the circuit made up of Marquette, Menominee, Delta, Dickinson and Iron counties, for re-nomination for his judicial office the coming spring, when the term he is now filling, the unexpired term of former Judge Stone, will close. Their vote was at one and the same time a vote of friendship for and of confidence in Judge Flannigan, who commands alike their personal esteem and wholehearted respect, and it is not presuming too much to say that it undoubtedly represents the sentiment of the entire bar of Judge Flannigan's circuit, says the Marquette Mining Journal in its editorial columns.

Judge Flannigan's brief experience on the bench has been of a nature to confirm the high impression of his character and ability which has been held throughout the territory in his circuit and which found remarkable expression in his unanimous selection to succeed Judge Stone. That he should have had the honor of such a selection in a circuit where are found so many able and experienced lawyers was in itself no small tribute to him and one in which he could well take pride.

The estimate of Judge Flannigan's character and ability which has been made as a result of the opportunity given by his work on the bench to study his capacity for the office. All the pleasant things that his friends have thought and said about him have been confirmed by putting him to the test, and the approach of the time when he will have to be again delegated with the powers of his office finds the confidence in him enhanced and general acceptance of the view that in selecting him to succeed Judge Stone the circuit chose well. This is a point on which laymen and attorneys alike are as nearly a unit as they ever are on a question of this kind.

Judge Flannigan, besides being a well equipped jurist on the side of law, is a strong man, one not afraid to strike out fearlessly on the side of what he believes to be right. This is shown in his vigorous handling of offenders against the liquor laws and all transgressors against the statutes written to hold public morals up to a high plane. In cases where these issues have been raised Judge Flannigan's influence has been thrown strongly and unhesitatingly for decent men, decent women, and decent living conditions. This is one of the explanations of the general approval with which his work has been received.

The Mirror acknowledges with great pleasure the receipt of several copies of the 1911 calendar issued by the Michigan Agricultural College at East Lansing. The calendar is beautiful and artistic, consisting of six pages of heavy white paper, upon each of which are printed in colors the calendar of two months and scenes showing the buildings and grounds of the college. These pages are enclosed within covers of dark green, the front cover bearing the name of the college and its seal, the figures 1911 and the words East Lansing, Mich.

**COAL PRODUCTION  
CLOSE TO RECORD**

Washington, Jan. 6.—The production of coal in the United States during 1910 was between 475,000,000 and 485,000,000 short tons, a considerable increase over the output of 459,715,704 short tons in 1909 and approximately within 1 per cent of the maximum previous record of 480,353,424 tons, produced in 1907. This estimate is made by Edward W. Parker from reports received by the United States geological survey. The coal mining industry of Illinois and the Southwestern states, including Kansas, Missouri, Arkansas and Oklahoma, was demoralized nearly six months in 1910 by a strike.

**FISHERMEN WANT  
SMALLER MESH NET**

Menominee, Mich., Jan. 6.—The fishermen of Menominee county waited on Representative Charles D. Symonds, just before his departure for Lansing, asking him to introduce a bill to permit the use of a 2-inch mesh net, for the reason that if the law is enforced next year they will be forced to discard about \$50,000 worth of twine. They claim that a 2 inch net is the rule in Wisconsin, and that it would be unfair to force them to use a 2 1/2 inch net.

**PROMINENT LUMBERMAN  
MAKES AN ASSIGNMENT**

Dessmer, Mich., Jan. 6.—Andrew Emerson, for years the leading lumberman of Gogebic county, operating sawmills, stores and camps at Dunham, twelve miles east of here, has made an assignment for his preferred creditors. The net total indebtedness is over \$100,000, of which \$50,000 is secured.

**POSTOFFICE BILL WILL BE  
THE LARGEST ON RECORD**

Washington, Jan. 6.—When the postoffice appropriation bill is reported to the house about Jan. 20, it will carry upwards of \$250,000,000, which breaks all records for postoffice appropriations. The appropriation for the current year is \$240,000,000.

**Points  
For  
Mothers**

The custom of taking children to funerals is being denounced by many preachers and persons who make a special study of children. They argue that the child mind is especially sensitive and it should not be subjected to thoughts of death and tragedy unless absolutely necessary, because the impressions the child receives give an undesired twist and turn to the development of the mind and have a lasting effect toward morbidness. The Rev. Gerald G. Fanshawe, vicar of Godalming, England, has taken up the subject with much energy. He writes: "The clergy have frequently noticed that young children, sometimes in considerable numbers, are to be seen at funeral services at the cemetery. They are not the children of the bereaved family, but those of neighbors and occasionally of persons who merely come and watch out of morbid curiosity. It cannot be a good thing that young lives should be thus early familiarized with all that is sad and somber. Joy and brightness should be associated with childhood, and as far as possible they should be shielded from anything which is gloomy and depressing."

**The Rainy Day.**  
 "Rain, rain, go away, little Willie wants to play; come back some other day," need not be the sorrowful dirge of the children on the wet days if the mother of the house be of tactful kind and knows how to make good use of the indoor weather.

In the first place, a rainy day is a good time to teach the children some of the old stories of the Bible or of the good pieces of literature which would find them restless when the sun demanded that they go outside. The mother will find that the children take more readily to little sewing lessons and to little instructions in housekeeping on wet days than on the other times when such lessons would be wasted. If a mother be wise she will save up her strength and her little talks on good behavior for the rainy days, and she will have the necessary results from patient children, who really appreciate the home's coziness of a rainy day.

**Tidiness and the Schoolgirl.**  
 Tidiness is one of the most attractive of feminine qualities. It is also one of the parent. Early and persistent must be the training which carries the girl into womanhood with her "bump of neatness" well developed. Unless inherently fastidious during school days she is liable to drift into careless habits which she never outgrows. One girl may have a trick of leaving shoes about her rooms. As a child she was permitted to do this, and as she grew older the untidy custom never was abandoned, for the simple reason that she did not notice anything unusual about it, and probably nobody else took the trouble to correct her. Another slovenly habit is leaving a bunch of combings in the comb or on the dressing table. Constant vigilance on a woman's part is necessary in these small matters if she would be thought really tidy.

**If You Care For Your Son.**  
 Do not give him plenty of spending money.  
 Do not permit him to choose his own companions without restraint or direction.  
 Do not give him a latchkey and allow him to return home at any hour without question.  
 Do not fail to make inquiries as to where and with whom he spends his leisure time.  
 Do not fail to have him understand that winners are not a substitute for morality.  
 Do not fail to teach him that he must not expect pay for every act of helpfulness to others.

**Judicious Petting.**  
 You can smooth out many a nervous, feverish headache and untangle many a snarled thread in a child's makeup by a little loving, judicious petting, for when you are petting him your advice counts for double what it does when you are chastising.  
 Count always, however, on his reciprocity and make him feel that, even though a child, he can make life easier and less tired for you by little acts of consideration in return for the care and tenderness lavished on him. And this will insure his not being spoiled.

**Nursery Window.**  
 Open the nursery window to its widest extent and the door also directly the children leave the nursery, so that a thorough draft may blow through it. Nothing so quickly purifies the room as this method. When the children are in the room the air can often be freshened if the door is opened and swung quickly backward and forward.

**Making of a Man.**  
 A tired mother who had been occupied all day with an active and very troublesome boy as he sat down in the evening and thought of the numberless details in which her strength had gone said, "After all, it is a day toward the making of a man."

# 18-DAY IDEAL SPRING TOURS

FOR

## 3-Young Women of Delta County and Vicinity-3

TO

## New York City and the Bermuda Islands

GIVEN BY

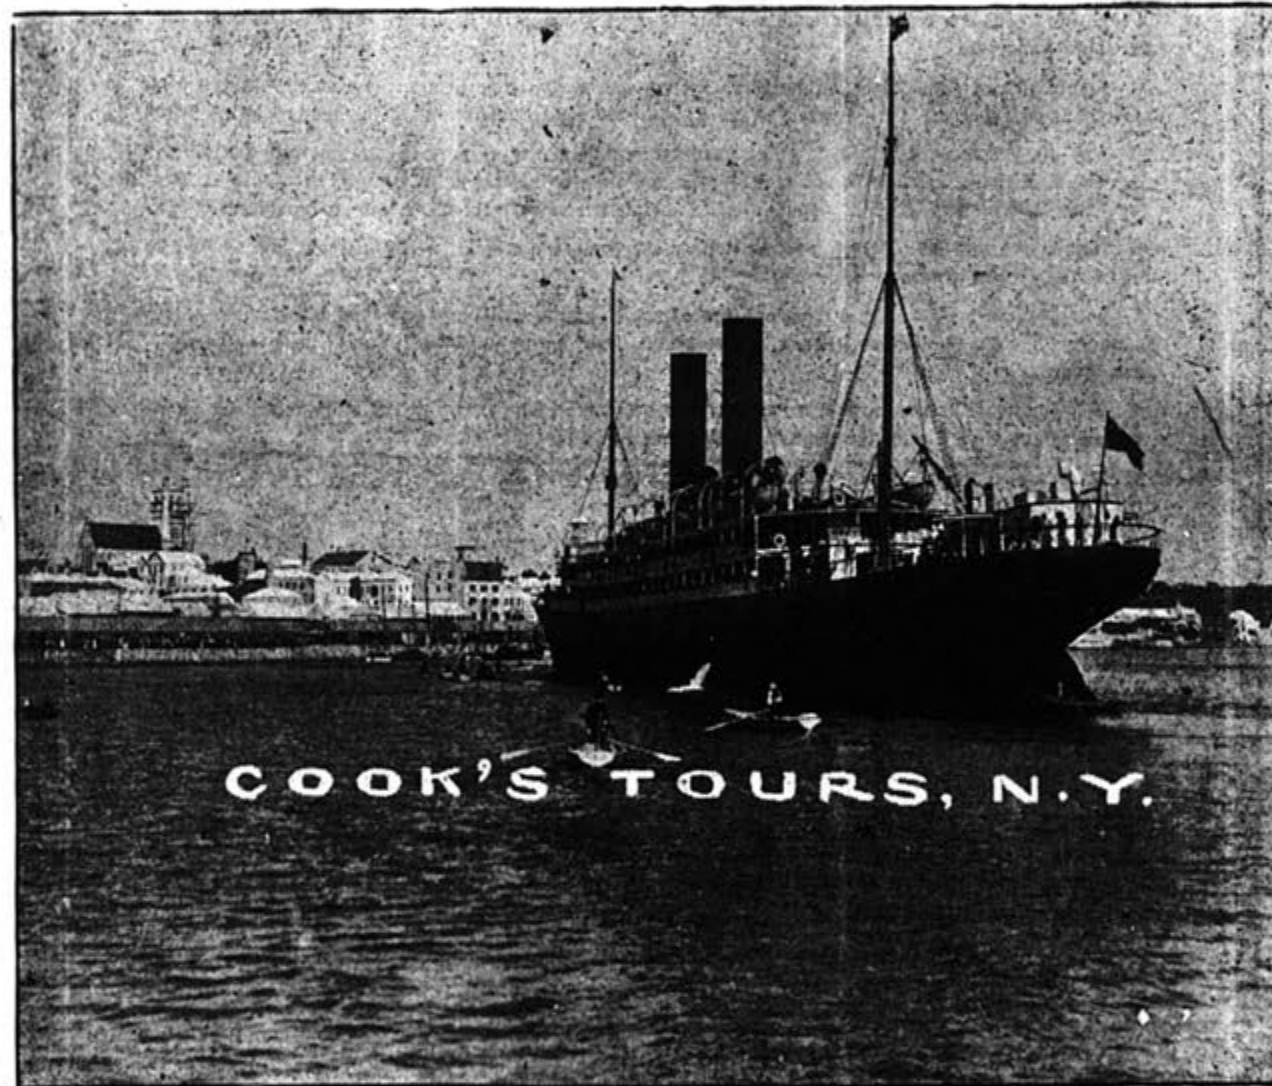

# ESCANABA DAILY MIRROR

### CONTEST PLAN

The territory comprising the city of Escanaba and vicinity has been set off into districts—three of them—as described below, and any eligible woman may enter her own name as a contestant from the district in which her residence is located, or the names of desirable young women may be submitted by friends.

In order that the party may be a congenial one, each contestant must be vouched for by two gentlemen of standing who know her. All approved candidates for the trip will be recorded as contestants under the proper district heads.

Everybody everywhere may vote for any candidate in any contest district, both by ballots clipped from the Daily Mirror, and through cash-in-advance subscriptions, as per schedule shown in this announcement.

Steamer in Port at Hamilton, Bermuda

### THREE WINNERS

The candidate in each district for whom the highest number of votes is cast during the contest will win the trip, and the three successful candidates will have a woman chaperone with them.

This party of four fair tourists will be accompanied by a conductor learned in the ways of travel, who will take entire charge of the details of the trip, and upon whose broad shoulders will fall the responsibilities incidental to following the itinerary that has been mapped out for their benefit.

All that the Daily Mirror asks is that each young lady should enter with the determination to win as her district representative on this delightful tour by land and sea to New York City and the Bermuda Islands.

Any person, whether subscriber or non-subscriber to the Daily Mirror, may submit the name of an eligible candidate by filling out and sending to the Daily Mirror office the following

# Come Take a Trip With Us

# METROPOLIS OF THE NEW WORLD

# THE LAND OF THE LILY AND THE ROSE

### Splendid Eighteen-Day Tour to America's Metropolis and Britain's Island Possessions

This tour has been planned for those who can induce Good Dame Fortune at knock at their doors. A trip free of expense, to the winning candidates, devoid of worry and bother, and devoted entirely to education and pleasure.

Every woman has, at some time in her life, dreamed of taking such a land and sea trip.

Maybe she didn't want to go alone. Perhaps she hasn't been able to save money enough for the trip. Possibly she has feared the inconveniences of strange customs and languages. Then again maybe she "never found the time." But without doubt she has often dreamed of such a trip and wished Fortune might arrange it for her.

Well, Fortune has arrived. Its other name is the Escanaba Daily Mirror. Next spring, when the country hereabout is just recovering from the long and dreary winter, the Daily Mirror is going to take four women on a personally conducted tour combining education with pleasure.

Now, just let that sink in—to New York City and the Bermuda Islands.

### A Talk with Those Who Desire to Travel But Have Lacked Opportunity

This Chance to Visit Spots Perpetuated in Song and Story is One of a Lifetime, and the Way Will be Smooth For Energetic Women.

Sit down, young lady, we want to have a straight little heart to heart talk with you. We know you like the song of the sea and you like the fields and woods and waters. You like new faces, new peoples and new customs. You have often longed for some time away from humdrum home surroundings, to get out into this broad, wonderful world of ours, out into the world of travel."

In the good old school days how often have you roamed in fancy through the sights and scenes of the different countries, or later in life, when more nature, read of the happenings in history in the states to the eastward of our own Michigan.

With what longing anticipation do we watch for the time which will mark the commencement of one's annual vacation—if we are so fortunate as to get one. How we plan and figure on the time that will be spent within a comparatively short distance of home. How eagerly we look forward to the short lake voyages of exploration among these new nearby places.

Now, The Daily Mirror has planned a splendid eighteen-day tour to the metropolises of the new world—New York, and to Bermuda—"The Land of the Lily and the Rose." The duration of each phase of this delightful trip on land and water will alternate in just the right proportion, and the joy of future anticipation will merge with the happiness of present realization.

### All Expenses Prepaid by Daily Mirror

The four women who will compose the Daily Mirror's tourist party that will leave Escanaba in mid-April next for New York City and the Bermuda Islands will without doubt be the happiest folks imaginable.

It is the intention of the Daily Mirror to spare no expense to give the young ladies the time of their lives, and they will be afforded every comfort and pleasure that such a trip, free from all annoyance and worry, can bring them. Every cent of expense from the time of leaving Escanaba until their return, will be borne by this newspaper.

The contract entered into with one of the best-known tourist agencies in the world makes sure that every detail of expense will have been foreseen and provided for previous to the date of departure; and, being in charge of a competent tourist guide throughout the trip, the young ladies will be enabled to enjoy themselves to their hearts' content.

### Rules, Regulations and Conditions

Rule No. 1—Any white woman between 16 and 45 years of age—married or single—living in Delta county, or vicinity, may enter the Daily Mirror's New York City and Bermuda Island contest upon agreeing to comply with the rules and being vouched for as to good character by two reputable men who know her.

Rule No. 2—No employe nor close relative of an employe of The Daily Mirror is eligible to enter this contest.

Rule No. 3—There are three districts from which to enter this contest, as described herein. A contestant must enter from the district in which her residence is located; and she must retain her membership in that district should she change her residence during the contest. The Contest Manager is to decide any question regarding proper districting of candidates.

Rule No. 4—Nomination of candidates may be made by any one at any time during the contest, without cost. The management of The Daily Mirror reserves the right to reject any nomination or application, at its discretion.

Rule No. 5—Any district that may have only one candidate running may be declared off and said district will be merged with the district nearest to it in voting strength; and the contestants in district so merged will compete for the trip from that merged district. Combining of districts is to be at the discretion of the Contest Manager.

Rule No. 6—Contestants will only compete against their sister contestants in the same district, but all will be allowed to secure their votes wherever they choose.

Rule No. 7—Votes cannot be transferred from one contestant to another, nor can one candidate's name be substituted for another. Should a candidate withdraw, her votes will also be withdrawn. Votes once withdrawn cannot be recovered.

Rule No. 8—All votes cast for the various candidates will be filed in The Daily Mirror office, and may be inspected and verified at any time during the contest by the candidates or their friends.

Rule No. 9—In case of a tie in any district, the two contestants for whom are cast the same number of votes for their trip will be sent.

Rule No. 10—Candidates may be voted for in two ways—by newspaper coupons and by ballots from cash-in-advance subscriptions to The Daily Mirror.

Newspaper coupons are known as "singles"—good for the number of votes specified thereon—and these must be neatly clipped from The Daily Mirror and endorsed with candidate's name if deposited in the ballot box at The Daily Mirror office, or may be given to the candidate herself. Votes may be sent in on once.

Votes obtained from subscriptions are known as "Specials," and the number allowed depends upon the length of time for which the subscription is paid, as per vote schedule printed herewith. No votes will be issued on subscriptions unless accompanied by cash and for no smaller amount than \$1.50.

Rule No. 11—Publication of names of candidates will be made at an early date, and publication of their vote-standing will follow shortly afterward.

Rule No. 12—A board of responsible business men will have exclusive control of the ballot box on the final day of the contest, and after a canvass of the vote then deposited will declare the winners. The decision of the board of judges is to be final and will admit of no appeal.

Rule No. 13—This contest will close on Saturday, March 4, 1911, at 10 p. m.

Rule No. 14—No statement of promise made by any solicitor, canvasser or agent varying from the rules as herein set forth will be recognized by The Daily Mirror.

### The Selection of the Fortunate Three will be Left Entirely to our Readers

All that the Daily Mirror will do will be to open its purse strings and pay first class Hotel and Traveling expenses on Land and Sea.

Now, listen! When we show you that you can take a trip lasting eighteen full glorious days, without neglecting your regular duties while striving for it, why not take advantage of the opportunity. Usually, folks strive long and tediously at their regular occupation for twelve long months before obtaining an expected vacation, and then must take it at their own expense.

Here, now, you can gratify that lifetime ambition of getting out into the world where the great men of affairs are carrying out projects that are constantly startling the world in financial, educational and industrial propositions. To see some of the great institutions and personalities that are read about daily will be an education in itself. All this will be done at the expense of the Daily Mirror, and done handsomely, too.

Your circle of acquaintances, realizing the educational and pleasurable facilities this trip will afford, will naturally be interested in seeing you win, and will give you the benefit of any votes that they may be able to secure. Interest all of these folks in your success, impress upon them the broad influence this trip will have on your life, and it will be the easiest thing in the world to work them up to such a pitch of enthusiasm that they will become your ardent supporters.

Do not let a sense of false pride interfere with your taking advantage of this opportunity.

 was to deliver the card in person,

 Detroit, Mich., Jan. 6.—The report in  
 the new year's statistics of Detroit that  
 in the old year there was one divorce  
 to five marriages has aroused the  
 church organizations of the city to at-  
 tempt to obtain legislative action  
 remedying conditions. They will pre-  
 pare bills affecting marriage rather  
 than divorce, acting on the theory that  
 if marriage laws are made more strict  
 there will be fewer incompatible  
 unions made and consequently less  
 cause for divorce. The regulation  
 of marriage licenses, including a law  
 forbidding the issuance of licenses to  
 persons with bad records, will be  
 sought.

**THE ELKS' TEMPLE**—Jess Pugh &  
 Company will entertain at the Elks'  
 temple this evening under the auspices  
 of the Escanaba lodge of Elks. There  
 are three members in the company.  
 The two distinguished artists who with  
 Mr. Pugh make up the trio, are both  
 ladies who are widely known in the  
 lyceum field, Miss Hazel Lathrop, as a  
 soprano and Miss Katherine Kellogg as  
 a violinist. Mr. Pugh, as a dramatic  
 reader has received praise from news-  
 papers in all parts of the country. He  
 has broad literary culture, a wonderful  
 voice and forensic ability of the high-  
 est type, while his remarkable intel-  
 lectual and interpretive gifts give his  
 readings a value far above those of the  
 average elocutionist.

This entertainment promises to be  
 the best one of its kind that has been  
 held in Escanaba this season. Follow-  
 ing the program a dance will be held.

**THE PETERSON**—"Baby Mine" is  
 not a baby mine at all. It is an adult  
 mine of real laughter," said the famous  
 Alan Dale after seeing the farce suc-  
 cess that has been booked for the  
 Peterson on Thursday, Jan. 12. He  
 came to that conclusion just as every-  
 one else comes to the same conclusion

**MISS CONSUELO BAILEY**  
 in "Baby Mine" Company.

after seeing the farce, which is by  
 far the cleverest that has been written  
 by an American playwright in the past  
 ten years. The author of the farce is  
 none other than Margaret Mayo, who  
 indicated her versatility when she  
 wrote "Polly of the Circus," after mak-  
 ing the adaptation of "Divorcions,"  
 which placed Grace George high  
 among American comediennees.

**THE PETERSON**—What is termed  
 a real event in the annals of the theat-  
 rical season will be the engagement  
 of the eminent actor, Henry Woodruff,  
 in the new song comedy, entitled "The  
 Genius," which Mort H. Singer will  
 present at the Peterson on Friday eve-  
 ning, Jan. 13. In this play Mr. Wood-  
 ruff will be seen in a more artistic  
 character than he interpreted in  
 "The Prince of Tonight" for the reason  
 that the role of "Jack Spencer" in  
 "The Genius" has not only been writ-  
 ten about his charming personality,  
 but it gives him unlimited occasion to  
 display his true qualification. While  
 Manager Singer has produced numer-  
 ous successes he considers that his  
 new song comedy will be the epoch-  
 making triumph of his career. Mr.  
 Woodruff is encircled by a specially  
 selected coterie of noted players, and  
 the chorus embraces real leaders in  
 the Beauty League. The production is  
 gorgeous and is transported in special  
 cars.

**THE GRAND**—The bill at The  
 Grand this week is continuing to please  
 its patrons. A change of program was  
 put on last night and the theater pa-  
 trons say that the new acts are an im-  
 provement on the opening numbers.  
 Bert Lennon offers a new impersona-  
 tion bill that is making a hit. Douglas  
 and Barclay, the comedy acrobats, con-  
 tinue to be favorites. The slack wire  
 work of Ray Dee is better every night.  
 Considering the season, the Grand is  
 having a fine run, which even the past  
 two or three days of cold weather has  
 not had a tendency to slacken. The  
 famous Sergeant Mears, the bugler, is  
 booked for next week at the Grand and  
 it is said that he has a most attractive  
 act, staged with his own settings and  
 scenery.

**KANSAS BANKS ARE  
 PREY OF ROBBERS**  
 Topeka, Kas., Jan. 6.—Bank Com-  
 missioner J. N. Dolley reported that  
 during the last three months thirty  
 banks have been robbed in Kansas, one  
 every third day, and that the safe  
 crackers have secured \$100,000. Dur-  
 ing this time not one robber has been  
 captured. Attention is called to the  
 fact that while the robbers have their  
 headquarters in Nebraska and Okla-  
 homa their operations are confined to  
 small towns in Kansas.

**GOOD CITY WATER  
 MUST BE SUPPLIED**  
 Supreme Court of Minnesota Holds  
 That Cities in That State Are Liable  
 if Death is Caused by Polluted Water  
 Supply—Decision Given in Two  
 Cases.

In view of the situation existing here  
 in the matter of impure and dangerous  
 water being supplied its patrons by the  
 Escanaba Water company, Escanaba  
 people will doubtless be considerably  
 interested in the announcement that  
 the supreme court of Minnesota has  
 just handed down a decision that  
 municipalities in that state are liable  
 in damage suits for the death of citi-  
 zens who contract disease through  
 drinking polluted city water. It is in-  
 ferred from this decision that private  
 companies furnishing polluted water  
 are equally liable under the same cir-  
 cumstances.

According to a dispatch from St.  
 Paul the decision noted was given in  
 two cases arising from the recent ty-  
 phoid epidemic in Mankato, Minn. The  
 court does not hold that the Mankato  
 residents who sued the city are en-  
 titled to verdicts, but it does hold that  
 suit can be maintained against the city  
 and that the city is liable if damages  
 can be proved.

Della McKeever and Kate Flannagan,  
 administratrixes of the estate of  
 their respective husbands, who had  
 died of the fever, were the appellants,  
 and the city of Mankato the respond-  
 ent. They alleged that the death of  
 their husbands was due to the neglig-  
 ence of the city in allowing its water  
 supply to become polluted causing an  
 epidemic of typhoid.

**FREE TO STARVE.**

That is About What the Workingman's  
 Liberty Amounts To.

The Rev. Percy Stickney Grant, rec-  
 tor of the Church of the Ascension,  
 New York, preached recently on "The  
 Workingman's Liberty to Starve." He  
 said that a man is seldom able to  
 choose his occupation and must do  
 what he can to keep himself in food  
 and clothing. In that event it is not  
 a question of liberty, but of necessity,  
 according to Dr. Grant.

"If we are free at all we are free  
 to be sick or injured," said Mr. Grant  
 "We are free to be subject to the  
 tyranny of our employers, free to walk  
 in the streets and be killed by an au-  
 tomobile."  
 "If you were to double the working  
 force, couldn't you divide the hours in  
 two? That means that the drones  
 should be set to work. Under a rat-  
 ional organization of industry a very  
 few hours would give mankind what  
 it enjoys today, and perhaps more.  
 If you wished to paint or write you  
 could have that pleasure; there would  
 be time to exercise the tempera-  
 mental gifts you possess."  
 "In the state of Wisconsin there is  
 said to be a map showing the ferti-  
 lity of every ten acres of land with-  
 in its borders. A prospective pur-  
 chaser may look at the map and see  
 what he is to get. This is considered  
 to be rationalization of agriculture.  
 But we need rationalization of human  
 industry. When that stage is reached  
 we will feel it as a blow in the face  
 to be told that the workingman is at  
 liberty to starve."

**LAST YEAR'S COAL  
 OUTPUT IN STATE**

The output of coal in Michigan in  
 1910 was about the same as in 1909,  
 with possibly a slight increase. The  
 mines working under an agreement  
 with the United Mine Workers were  
 shut down from April 1 to June 1,  
 but the increased activity prior to  
 and following the suspension brought  
 the total production up to normal.  
 The car supply was ample through-  
 out the year, sufficient equipment be-  
 ing furnished by the railroads to keep  
 the mines running to their full cap-  
 acity after June 1. At the close of  
 1910, the coal mining industry of  
 Michigan was in a more satisfactory  
 condition than was reported by most  
 of the other states.

**OUTPUT OF THE MINTS MORE  
 THAN \$111,500,000 LAST YEAR**

Washington, Jan. 6.—The mints of  
 the United States during 1910 sent out  
 more than \$111,500,000 in coin, of  
 which nearly \$105,000,000 was in gold.

**E. L. WHITTAKER  
 GETS PROMOTION**

Calumet, Mich., Jan. 6.—E. L. Whit-  
 taker, superintendent of the upper pen-  
 insula branch of the Prudential Insur-  
 ance Co., recently returned from the  
 east, having been ordered to report at  
 the home office of the company. While  
 there he was tendered the superin-  
 tendency of the Duluth branch, which  
 he has accepted.  
 Mr. Whittaker came to Calumet  
 from Duluth a little over two years  
 ago. He had a minor position with  
 the company at that time, and his ap-  
 pointment to Duluth is an acknowl-  
 edgement of his successful work here.  
 Mr. Whittaker will assume his new  
 duties on Jan. 7, and his family will  
 follow him to Duluth a week later.

**MOISANT LEAVES  
 WARNING TO SON**

New Orleans, La., Jan. 6.—The  
 schoolboy son of John B. Moisant will  
 never take up flying as a profession if  
 he heeds the advice given by his  
 father in a letter written apparently  
 shortly before Moisant met with his  
 tragic fate.

"Take the advice of your father, my  
 boy, and fight against the fascination  
 that attracts you to the life of a "bird-  
 man," it reads. It was never mailed,  
 and was found among the dead man's  
 effects.

**That Mighty Pen.**  
 The superiority of man to na-  
 ture is continually illustrated.  
 Nature needs an immense quan-  
 tity of quills to make a goose  
 with, but a man can make a  
 goose of himself with one.—  
 Christian Register.

**The Cause of Death.**  
 "You say your automobile didn't  
 touch this man, and yet he was dead  
 when you picked him up?" shouted  
 the prosecuting attorney.  
 "That's my claim," coolly retorted  
 the prisoner. "My machine didn't  
 touch him."  
 "And you were driving not over  
 twelve miles an hour."  
 "Not over twelve miles and"—  
 "And you saw this man start to  
 cross the street?"  
 "Yes."  
 "Did you blow your horn?"  
 "I did."  
 "What sort of a horn is it?"  
 "One of those newfangled clatter  
 boxes that create a sound that is a  
 cross between a shriek and a dying  
 wail."  
 "That explains it. You simply scared  
 the man to death."—Detroit Free Press.

 "I know, mawmsy. The man said  
 he didn't have what you sent for, and

 that you said queen-anna pills and a  
 vial of pneumonia."

 no effect. Foley Kidney Pills were

### GREAT INTEREST IN OUR OFFER

Carolina, distant seven hundred miles, and that they lie in a southeasterly direction from New York.

Famous Bermuda Steamer.

There is a line of fine new steamers constantly plying between that port and Hamilton, the capital of Bermuda, and it is on one of these that The Daily Mirror's party will depart in April next. It will be remembered that last summer the steamer Trent, of this line, was the vessel that happened along just at the opportune moment to save the lives of that hardy crew which had attempted to cross the ocean on the Wellman dirigible balloon, the America.

The two days' voyage either way on this trip is most enjoyable during the spring months, and the young ladies who will be so fortunate as to take the trips as guests of The Daily Mirror will have as fellow passengers folks from all over the United States, so popular have the Bermudas become as a resort for people who want to find something different in the way of climate than they had been experiencing in the States during the winter. Then, do not forget that this party will have a couple of days in New York City at the beginning as well as at the end of the Bermuda trip, and they will be quartered at one of the best hotels, too.

Now, think of it—all this at the expense of The Daily Mirror. So, get busy now, girls and send in your acceptances, and we will tell you how to go about it.

### AFTER FURNACE OR ROLLING MILL

Escanaba Business Men's Association Takes Steps in an Effort to Secure for the City a Most Desirable and Valuable Industry—Committee Appointed.

Escanaba, through its Business Men's association, will make strenuous efforts to secure the location in this city of either a furnace or a rolling mill, both if possible, which are to be established by the Jones Iron Furnace company of Iron Mountain.

As the first step in this direction the association directors have appointed a large committee, consisting of the most influential men in the city, to wait upon John P. Jones, head of the Furnace company, and other promoters of the enterprise and endeavor to induce them to locate either a furnace or a rolling mill here. The members of this committee are: J. C. Kirkpatrick, chairman; John M. Miller, M. N. Smith, S. M. Matthews, H. W. Reade, W. B. Linsley, J. E. Byrns, W. R. Smith, John J. Cleary, C. M. Thatcher, H. J. Robertson, R. E. MacLean, F. M. Shaw, O. P. Chatfield, A. R. Moore, C. W. Kates, Mayor Solomon Greenhoot, Leslie French, T. M. Judson, George M. Mashek and John P. McColl.

It is planned to have the members of the committee go to Iron Mountain and personally interview Mr. Jones and those interested with him and lay before them the advantages Escanaba possesses as a location for a plant of the character to be established by them. Mr. Jones is now in the east and it is not known when he will return.

It is said that the choice for the location of the Jones furnace, which has now thoroughly demonstrated its success in smelting iron out of lean ores with a large margin of profit, lies between Escanaba and Menominee. If such is really the case the chances of Escanaba's securing at least one of the furnaces appear to be excellent.

### INDIANS ON THE WARPATH

Over 50 Chippewa Indians stole noiselessly around the corner of Georgia street and Wells avenue Thursday afternoon and found their way to the wigwam of the big chief. There was much talking in undertone at the big pow-wow and blood seemed to be on the moon as the braves arrived at the council. At the last report no uprising had taken place and it was thought that they had put off their expected attack on the city of Escanaba until about the 19th and 20th of this month.

The facts are these: When the directors of the Kermis sent out word for the braves to assemble at the place of rehearsal, they had looked for about 20 to put in an appearance. Beside the chief and his council, who had previously been chosen, 42 little Indians appeared and all were happy when the directors said they would make a place for each one of them. This will be one of the unique features of the big undertaking—the Kermis—which will be held at Peterson's opera house January 19, 20 and 21.

### IN MEMORIAM OF A. H. STONER

By request, The Mirror publishes the following interesting memorial and biographical sketch of the late Almon H. Stoner, whose recent death brought genuine sorrow to a large number of people who were his earnest friends:

Almon Harrison Stoner, the son of John Stoner, and Eliza Ames Stoner, was born April 14, 1843, and died in the Delta County hospital, of paralysis, January 2, 1911, aged 67 years, eight months and 18 days. His father died when he was ten years of age. He entered the service of his country as a volunteer, August 2, 1862, as a member of Co. C, 101st O. V. I.; was wounded in the battles of Chicauga and Nashville; spent about a half year in Andersonville and other Confederate prisons and was honorably discharged, June 12, 1865.

He came to Michigan early in 1867 and to Escanaba 24 years ago. He was a marine engineer of unusual ability, but retired from active work about six years ago. He suffered a paralytic stroke last Easter, from which he partially recovered, but the second stroke coming Nov. 13 resulted fatally after about 50 days of suffering. He is survived by two brothers, John and Jacob Stoner, of Ashley, Mich., and three sisters, Mrs. Emma Caviness of Ashley, Mich., and Mrs. Amelia Wooley, and Mrs. Tilla S. McKee, of St. Louis, Mich.

Mr. Stoner was a man of great mental ability, whom no difficulties daunted, a true patriot and good citizen, a firm, faithful friend, an honorable, fearless, noble hearted man, who will long be mourned by those who knew and loved him.
