THE WEATHER. Snow and warmer to night and Tuesday.

VOLUME XVII, NO. 9

ESCANABA, MICH., MONDAY, JANUARY 9, 1911.

12 CENTS PER WEEK.

WORST STORM OF THE WINTER

For More Than Twenty-Four Hours Escanaba is in the Midst of a Raging Snowstorm and Blizzard--Swamped With Snow--Railroads are Hard Hit--The Story.

Gasping for breath, figuratively speaking, the people of Escanaba arose this morning and proceeded to the arduous task of digging themselves out of the mountains of snow that fell and drifted everywhere during the severest storm of the winter late Saturday night, all day Sunday and a good part of Sunday night.

There was a considerable quantity of snow on the ground before the storm came, but now there is literally no end of it. There is snow everywhere and in some places it is piled up in drifts and mounds, from four to six feet deep, while of two and three feet drifts there are a great plenty.

Today nearly everybody who was able to wield a shovel was out digging a path on the sidewalks and on the walks leading to the doors of their houses. And with all their work the walks are far from being cleared yet. The roads are but little better, for in places they were so badly drifted that it was almost impossible for teams to break the way through.

Snow began falling some time Saturday night and for a number of hours fell steadily and without a let-up. While the snow fell there was comparatively little wind, but Sunday afternoon when the snow had practically ceased falling the wind came up and in time blew with the force of a blizzard.

Picking up the light and sugary snow the wind filled the air with it and blew it about in every direction. Where conditions were favorable drifts were former and before this morning some of these had assumed monumental proportions.

The streets were deserted and there was little or no travel, although the Escanaba Traction company made a brave attempt to keep its cars in motion. In this effort the company was successful most of the day, but during the night a large section of the track in North Escanaba and north was so blocked that it was impossible to get cars through until late this forenoon. This afternoon, however, the cars, city and interurban, are running on schedule time.

Following the storm the morning broke calm and lovely, but evidence of the severity of the disturbance were seen on every hand, not only in the snow drifts but in the broken branches of shade trees.

Railroads Hit the Hardest. Upon several occasions this winter (Continued on Page Six.)

CRUCE DEFENDS LAWS OF STATE

(By Associated Press.) Oklahoma City, Okla., Jan. 9.—Governor Cruce, assuming the duties of governor today, took occasion to defend the constitution of this state, which, he said, had been branded by its enemies as radical and even vicious.

He declared that the constitution is the condensation into a single instrument of the best and most vital provisions to be found in forty-five other state constitutions. He also pointed to the unexampled growth of the state under his constitution.

COME ON WITH YOUR ESCANABA SLOGAN

"Watch Escanaba Grow."
"Escanaba Enterprise Excels."
"Longfellow's 'Rushing Escanaba' Leads."

These three expressions were suggested to The Mirror today in reply to its article of Saturday relative to "A Better Escanaba" and the desirability of having a city slogan. They are all good, but perhaps somebody can suggest something better. Come out with it. The Mirror will publish every suggestion sent in and perhaps a popular vote can be taken to decide which is the best and most worthy of acceptance and adoption.

CHINESE FAMINE IS TERRIBLE

(By Associated Press.) Shanghai, China, Jan. 9.—Reports that have reached here confirm the early advice of floods and famine in the province of Anhui.

It is estimated that one million of people are dependent upon charity for existence until spring. The floods swept away hundreds of villages and thousands of people are drowned.

FORESTERS SEAT THEIR OFFICERS

Notwithstanding Fiercely Inclement Weather, Members of St. Joseph's Court Turned Out Well to Attend Installation—Program is Highly Interesting—Details.

Notwithstanding the fiercely inclement weather prevailing, members of St. Joseph's court No. 392, Catholic Order of Foresters, turned out well Sunday evening to attend the installation of their new officers in North Star hall. They were well repaid, for the program was highly interesting and enjoyable. Besides the installation it included short addresses by officers and members, high class singing by a quartette composed of Wilfred P. Belanger, Frank Hirm, William Kennedy and J. A. Allo, and the serving of refreshments.

The ceremonies of installation were conducted by Deputy High Chief Ranger D. E. Glavin of St. Patrick's court, assisted by Special Conductors Peter Lemmer and Peter Kleinhenz. Following are the officers installed:

Spiritual Director—Rev. Father Julius Past Chief Ranger—Alexander Buchanon. Chief Ranger—Matt Fillion. Vice Chief Ranger—C. F. Moore. Recording Secretary—Joseph Gleich. Financial Secretary—A. D. Dupuis. Treasurer—E. M. St. Jacques. Trustees—Adam J. Henry, Theodore Dugener and William Martens Sr. Senior Conductor—Joseph Brown. Junior Conductor—Henry Jublan. Inside Sentinel—John Antonneau. Outside Sentinel—Harry Moreau. Reports submitted at the meeting showed St. Joseph's court to be in a most prosperous condition and with bright prospects for the future. At the present time the court has 225 members in good standing and is equally strong financially, having more than \$700 in its treasury.

THREE MEN NAMED O. B. FULLER

Auditor General O. B. Fuller has received a New Year's greeting from O. B. Fuller of Joliet, Ill. The two are no relation and never saw each other, but some years ago the state officer, while engaged in the lumber business, saw the advertisement of a lumber dealer in Joliet with the same name. Correspondence followed, and this pair of "O. B. Fullers" located another in Los Angeles, Cal. Some day the trio proposes to get together somewhere. In the course of the correspondence the Joliet Fuller took up the matter of genealogy and wrote that one of his ancestors was a mariner on the Mayflower when that ship came across. To this the Michigan Fuller responded from Ford River that he understood that an ancestor of his was a mariner on Noah's ark but he hadn't the documents to prove it.

K. OF C. DANCE IS POSTPONED

Announcement is made that for several good reasons it has been decided to indefinitely postpone the dance which the members of Escanaba council of the Knights of Columbus had planned to give in Peterson's hall on Tuesday night, January 17. Brotherton's Ideal orchestra had been engaged to furnish music for the affair, attendance to which was to be limited to members of the order and their families. The party may be given on a later date than the one originally selected.

Ispsheim Iron Ore: William Embs of Escanaba, who travels for the I. Stephenson Lumber company, was in the city Thursday. Mr. Embs was one of the stars on the Michigan football team a few years ago.

LORIMER UNDER HOT FIRE

(By Associated Press.)

Washington, D. C., Jan. 9.—Senator Owen today introduced a resolution to declare the election of Senator Lorimer illegal, but he was not permitted to address the senate in its support. The senate held that the Owen resolution would have to go over until tomorrow.

Senator Beveridge then submitted his report from the minority of the committee on privileges and elections, which concludes "that this election was invalid under any possible view of law. If the senate so concludes, it is our duty so to declare. Therefore I submit the following: "Resolved, that Senator Lorimer was not duly and legally elected to a seat in the senate by the Illinois legislature."

Whole Election Foul. Senator Beveridge holds that if only one case of bribery is clearly established it "makes the whole election foul."

Following the filing of the report Senator Lorimer made a brief speech declaring his innocence of bribery and the innocence of his friends.

After the morning's business Senator Owen gained the floor and delivered a speech in which he made a scathing arraignment of the manner in which Senator Lorimer had been elected. Senator Owens declared that the testimony taken by the sub-committee which investigated the case showed that at least 10 votes of the 108 received by Mr. Lorimer should not have been counted. Other senators who are known to oppose the retention by Mr. Lorimer of his seat have not claimed that more than several votes were tainted.

Corruption and Bribery. At the close of his speech Mr. Owen said: "I believe that there was wholesale corruption and bribery used in procuring the election of Mr. Lorimer and that it has been abundantly proven, and that the effort to break down the corroborating mass to interwoven evidence above cited by rebuttal has failed.

"I believe if Mr. Lorimer should retain his seat under these painful circumstances it would lower the United States senate in the esteem of the American people. I believe the time has come when the American people will approve stern measures in dealing with bribery and with corrupt conduct in public affairs, and I think it better for all the people that there should be an end made to the election of senators by the sinister commercial forces of the republic."

FATHER LANGAN IS GRADUALLY FAILING

Rev. Father J. M. Langan, pastor of St. Patrick's church, is reported this afternoon to be in a critical condition and gradually growing weaker. He has been ill now for several weeks, but not until Saturday did his condition become such as to cause apprehension. On that day he was extremely low and Dr. J. R. Minnehan of Green Bay was called into consultation by the physicians in attendance. He was here Saturday evening and left a few hours later. Father Langan's mother and brother, H. J. Langan of Minneapolis, are expected here soon. The latter was in the city last week, but left Saturday night to bring his mother here. There is still hope that Father Langan may recover, but it is not very strong with those who are fully acquainted with his condition.

Mrs. Alfred Crebo and two daughters visited at Norway last week with Mr. and Mrs. John Willis.

JAMES BACON DIED QUITE SUDDENLY

The Crystal Falls Diamond Drill Gives Detailed Account of the Death of a Pioneer Resident of Escanaba—Remains are Brought to This City for Burial.

The Crystal Falls Diamond Drill of last Saturday gives the following account of the death of James Bacon, one of the pioneer citizens of Escanaba, note of whose passing away was given in The Mirror last Thursday.

James Bacon, father of Mrs. James Nolan, died at the home of Mrs. Nolan on Marquette avenue last Wednesday afternoon quite suddenly. Mr. Bacon was a comparative stranger here as his advanced age precluded his getting about much, even in the most favorable weather. He was 87 years of age at death and retained possession of his faculties quite well until the last. Only last week he came down town and got shaved, a trip that he made regularly since he had lived here, and he appeared quite well and cheerful at the time.

Mr. Bacon suffered a stroke of paralysis several years ago and never fully recovered from it. He was able to move about, but with difficulty, and his death was undoubtedly caused by that agency. He passed away peacefully and suddenly as he slept.

The deceased was born in Ireland in 1827, where he spent his early years, coming to America in 1857. He was a pioneer of Escanaba, settling in that place when the journey there had to be made by stage through hundreds of miles of wilderness. He decided to make that place his home and by industrious efforts built up a business and acquired considerable property there. He resided at Escanaba continuously until he came to Crystal Falls in 1902 to make his home with his daughter, Mrs. Nolan, who attended carefully to his in his last days.

He is survived by four daughters, Mrs. C. Jones of Highland Park, Chicago; Mrs. A. W. Sales and Mrs. M. Champ, both of Chicago, and Mrs. J. N. Nolan of this city, all of whom were present at the funeral yesterday.

The religious ceremony was held at Guardian Angel's church yesterday morning at seven o'clock, the remains being taken on the morning train over the Northwestern to Escanaba and interred beside the devoted wife, who had preceded him a number of years ago.

ORDERED SENT TO INSANE HOSPITAL

As the result of an examination conducted late Saturday afternoon by Dr. H. B. Reynolds and J. O. Groos, William Craig was adjudged to be insane and Probate Judge Yelland issued an order committing him to Northern Hospital for the Insane at Newberry. Undersheriff George Rowe was to have taken Craig to Newberry today, but decided to wait until tomorrow after learning that Sunday's storm had resulted in badly delayed all trains running in the upper peninsula.

HURRYING NOW TO PAY THEIR TAXES

City Treasurer Frank J. Hess was the busiest man in the city today. All day long his office in the city hall was thronged with citizens who desired to pay their taxes before an extra charge is levied. Under the law, tomorrow, January 10, is the last day upon which city taxes may be paid without additional charge. After tomorrow, or Wednesday at the latest, the city treasurer will be required to make an additional charge of four per cent on all collections of taxes. Those who have not already settled their taxes for this year should get a hustle on.

DETERMINATION IS GREAT FACTOR

Those Young Ladies Who Enter The Mirror's Contest With This Spirit, and Will Persist to the End, are the Ones More Likely to Succeed.

That a newspaper could and would offer such desirable trips planned on the order of the New York and Bermuda tour as a free gift to popular young women of Escanaba and vicinity was the occasion for much favorable comment from all sides when the conditions of The Daily Mirror's free offer were read and understood.

Details of the Offer. In brief, the offer of The Daily Mirror is this. Next spring this paper is going to send a party of three young ladies accompanied by a chaperon and an experienced tour conductor to New York city on a sightseeing tour and to include an ocean trip to the beautiful Bermuda Islands which are all that could be desired for the ideal resort. Semi-tropical climate with flowers and luxuriant vegetation in profusion all winter long.

"Tell me the principal qualification for winning" is the universal request from the young ladies. The answer is "Ambition." Enter with the proper spirit of determination, strive until the end of the race, and your efforts are very likely to be rewarded with success. It is all in your own hands. Here is one time when you control your own destiny. Confidence and application are the levers that will remove all obstacles.

The contest territory being divided into three districts gives general representation, and there is one candidate bound to win in each district. The contest is open to all alike, the only restrictions are as to age and respectability. A number who consulted their friends before enrolling, were advised to "go in and win." The Daily Mirror is a guarantee, but there are still some who are hesitating. Remember the old adage, "he who hesitates is lost"—the same applies to "she."

Each day those who have enrolled are deriving the advantages of early effort, working quietly and persistently preparatory to the initial vote announcement. These are young women of keen perception who have a thorough grasp of the opportunity presented and the innumerable advantages offered by the tour.

A Trip Worth an Effort. Cast a speculative eye over the account of the trip The Daily Mirror is offering. In imagination lean over the steamer rail of the promenade deck and watch the flashing surf of the sea sweep by the great bow in foam flecked masses of tumbling water; watch the coral isles of Bermuda rise out of the green sea and grow into

splashes of glistening white with a background of green, here and there squares of red, purple, pink and yellow where the acres of roses, lilies and luxuriant tropical flowers blend into a harmonious picture; remember New York city, with its lights and wonder beckoning and remember that no one's chance are one wait better than yours.

Heigh ho! What a leaving of sighs there will be among those who keep procrastinating when they discover they have been out-distanced by their more progressive sisters. Come now, throw off that lethargy. The application blank is on another page, fill it in and bring or send it to the tour department of The Daily Mirror. The tour manager will be glad to help you with any advice and assistance consistent with the rules of the contest.

INJURED YOUTH DIES AT HOSPITAL

Wilfred Mero, aged nineteen years and whose home was at Sturgeon Bay, died at the Delta County hospital about nine o'clock Sunday morning from the effects of injuries which he sustained through being struck on the head Saturday by a falling limb while he was working in one of the logging camps of the Van's Harbor Land and Lumber company. His remains were shipped Sunday night to Sturgeon Bay, where the funeral will be held tomorrow. As soon as possible after his injury Mero was brought to this city and taken to the hospital, where it was found that he was suffering from concussion of the brain and in addition had sustained a severe scalp wound. He was struck by a large limb of a tree which he was felling and it is considered remarkable that he was not instantly killed.

EASTERN BANK IS LOOTED

(By Associated Press.) Elm Grove, W. Va., Jan. 9.—The First National bank here was entered by robbers during the night and the vault dynamited. All the money, which amounted to between \$3,000 and \$4,000, was taken and there is no clue as to the identity of the robbers.

The World of Sport

ILLINOIS THUNDERBOLT IS DEFEATED

Billy Papke.

Billy Papke of Kewanee, Ill., who claimed the middle-weight championship after Stanley Ketchel's death, lost the title to Dave Smith, Australian champion, on a foul in ten rounds at Sydney, N. S. W. The battle was to have gone 20 rounds, but Papke fouled so often the referee was compelled to call a halt in the tenth session and award the match to the Australian. Papke was cautioned time and again, but he did not heed the warnings.

Had the contest gone the limit it was thought by spectators Smith would have won. Smith, up to the time Papke was disqualified, had a big shade in the fighting. He took the lead at the start and forced the American around the ring continually. Smith boxed cleverly and fast. Papke had all he could do to save himself from a knockout at one stage. Only his good blocking qualities kept him from going to the mat.

Papke's showing was a surprise. He did not possess the vim usually characteristic of him while in action.

dom did he force the fighting and most of his fouling was due to his wild swinging. He had no force behind his blows. Toward the tenth session he endeavored to mix fast and furiously but his efforts were weak. Smith was strong and at his best. He had no trouble in keeping Papke off when he rushed, and landed at will. The "Illinois Thunderbolt" took no interest in the fight and when the referee stopped the go and awarded the decision did not say a word.

The American's trainers declared he went into the fight out of condition. The climate did not agree with him. For several days before the fight he was sick and unable to do any training. After the match he asked for a return bout.

Australians are hailing Smith as the world's middle-weight champion. Papke went over there as the title holder and lost his right to the laurels. Smith is the first Australian to hold a championship since Bob Fitzsimmons, a middle-weight champion and later king of the heavies.

CHANGE BASKET-BALL RULES

Western Intercollegiate Committee Adds or Alters Nearly Dozen New Clauses in Code.

Nearly a dozen new clauses, either added to or altering the code of western basket-ball rules, were accepted and strongly indorsed by the Western Intercollegiate Basket-Ball association committee at its recent meeting in Chicago.

Primarily, it was demonstrated that previous regulations devised by western rules experts had made good because of their presence in the recent guides, but further changes were deemed necessary. Some of the most important follow:

Only four, instead of five, personal fouls will be allowed any player during a game, and no warning shall be given when the limit is reached—four disqualifies the athlete; any team may not leave the floor except at the end of a regular half; if a player does not again put the ball in play after it goes out of bounds, within three feet of the spot indicated by the referee, it shall go to the opposing side; time may be taken out by any captain but three times during the game for his players (last year three times were allowed for each half); a step backward may be taken in passing the ball as well as in trying for a goal; the home team shall be penalized if the crowd becomes unruly and interferes with play.

Various factors were responsible for these new and altered regulations and they were formulated after reports had been received from officials, players, coaches and even well-informed spectators. The fundamental aim was to eliminate roughness to the greatest possible degree, and a new departure was made in holding a home team responsible for the actions of its supporters.

In the election of officers Dr. J. E. Raycroft of the University of Chicago was re-elected president and Dr. L. J. Cooke of Minnesota chosen secretary-treasurer.

As one of the newest innovations of the game it was definitely decided to adopt a numbering system, similar to that in use in track athletics. Doctor Cooke was appointed a committee of one to draft a feasible scheme, whereby each athlete will be numbered and more easily distinguishable to spectators, players and officials alike.

Thus far only tentative schedules have been arranged by the various members of the "Big Eight" circle, but practically all the dates have been filled and final confirmation will not be far in the future.

Highlanders Secure Star.

"Toots" Schultz, one of the best college pitchers of the day and captain of the Pennsylvania baseball team, will probably be found with the New York Americans after he is graduated next June. He has decided to play professional baseball, according to an announcement, and has expressed a desire to go to New York.

May Become One of Minor Sports University of Chicago—Objections in Way.

Hockey may become one of minor sports at the University of Chicago. Interest has been aroused among a group of men who see the opportunity of the Midway for an excellent team.

Several objections have stood in the way of the success of the new sport. In the first place, the weather has been uncertain in the winter and skaters have never been assured a date or a time to practice, and there have never been many men before this year who have taken an interest in the sport.

"If there are a number of men who desire the sport," Coach Staggs said, "we could have a team. The ice palace is too far away to practice every day, but if this weather continues the skaters could use the rink that is located on the Midway near Ellis avenue. Coach Grant of Minnesota wants to organize the sport in the conference."

Ralph Doyle, who has played for a number of years on Chicago teams, is a strong advocate of hockey; Eberle Wilson, the football star, is a speed skater of note, and would be a valuable asset. Roy Daly is another who has ability on the ice.

SPORTING GOSSIP

Ad Wolgast is losing some of his friends by his dilatory tactics.

Three years ago Eddie Collins' playing salary was \$100 a month. Now it's \$6,000 a year.

Shortstop George McBride of the Washington team has missed but one game in three years.

The Athletics will tour Japan if they win in 1911. Seven clubs will work to prevent the trip.

President-elect Barrow of the Eastern league says his first reform will be to print the official averages every month.

Prize fighters are scarce in Mexico. The only fighters who flourish there are revolutionists and they don't last long.

Barney Oldfield is under the ban of the American Automobile association for a 12-month period beginning January 1, 1911.

Freddy Welsh, the English light weight ring champion, with his vegetarian diet, is expected to arrive in New York soon.

President Farrell of the New York Highlanders is said to have spent \$24, 140 for 15 new players to add to his New York team.

Prices: 50c to \$1.50

KEELER IS MAN OF SCIENCE

Player, Who for Years Was Popular in New York, Will Be with Toronto During Coming Year.

"Billy" Keeler is ticketed to play the outfield for Joe Kelley's Toronto team next year.

"Willie," the pride of Gotham, and considered by all critics to be one of the most scientific hitters baseball has ever produced, will attempt to add a few more links to his lengthy chain of years in the national game.

In company with Keeler at Toronto will be "Bill" Bradley, formerly with Cleveland, and "Tim" Jordan of the Brooklyn club.

The mere mention of Keeler's name always is sufficient to bring out some dope in regard to his hitting prowess. He is one of the four players in the history of baseball who batted in excess of 300 for 14 or more years. Pop Anson set the record in this respect with 15 years in the select circle. Dan Brubaker and Hans Wagner just equaled Keeler's record.

Glancing over the pages of history one can find only two men who had a higher batting average for his active terms in baseball than Keeler. Jesse Burkett heads the list with a grand average of .374 9-10 for ten years. Ed Delahanty, considered the mightiest slugger of them all, ranked second with a grand average of .367. Then came "Little Willie" with .360 5-7. Only ten men, since the first base-

Chief among them is one whereby it is proposed to standardize the weights in each class, so that a boxer will be a bantamweight or a heavy-weight, as the case may be, in all countries. This matter is at present the cause of a great deal of confusion.

The program also calls for the forming of an international set of rules for the conduct of professional, as well as amateur boxing, and for the creation of an international boxing union.

Other topics to be discussed are French boxing, English boxing, rules for regulation of boxing in France, the making of professional boxing matches, boxing from a medical standpoint, the history of the sport, refereeing and boxing as an educational sport.

PAL MOORE GETS NEW "DAD"

Youngster Is Adopted by Manager Jimmy De Forest, in Order to Circumvent Envious Ones.

Jimmy De Forest, manager of Pal Moore, the pugilist, legally adopted his protegee in order to circumvent ambitious fight managers.

Pal Moore.

who have been making all kinds of wild propositions to Pal. The lit fighter, who has been in the public eye lately as a real comer, is but 19 years old. The adoption was with the consent of Moore's mother. It means that De Forest will have absolute control of the youngster for at least two years, and while Pal and Jimmy may have a row and Pal may refuse to fight for his new "dad," the new "dad" is in a position to prevent Pal from fighting for any other person. In the last two years, before making a real fighter of the boy, Jimmy De Forest has spent several thousand dollars in teaching Pal the game.

It is said De Forest plunged into debt to give his protegee the chance at the big purses in the prize ring. Now that Pal may be a comer, Jimmy is taking no wild chances on another manager getting hold of him.

Pal was unnoticed when a preliminary performer in his native town, but when he became a star, a few of the managers tried the old game of stealing him from the man who "made him." Moore has been looked on as one of the most promising light-weights in the country. He made a great record until recently, when he stood for a number of beatings. Sport critics said the youngster was being crowded too hard and that he needed a long rest to get back into the condition he was a few months ago.

Willie Keeler.

ball game was played ages ago, have succeeded in hitting in excess of 300 for ten consecutive years. These men and the number of consecutive years they remained in the select circle are: Pop Anson, 15; Dan Brubaker, 14; Willie Keeler, 14; Hans Wagner, 14; Ed Delahanty, 12; "Billy" Hamilton, 11; Nap Lajoie, 11; Joe Kelley, 11; Hugh Duffy, 10, and Jesse Burkett, 10.

BOXING CONGRESS IN FRANCE

French National Federation Plans an International Affair in Paris March 10 to 15.

The first international boxing congress ever held will take place at Paris, beginning March 10, and ending March 15. The French National Federation of Boxing Clubs will conduct the event, and M. Capdeville, the manager of the congress, has just sent out invitations to the boxing club managers of America, France, England and other countries to attend the affair.

The congress will be held for the purpose of discussing many important questions and making several much-needed international agreements.

DECISION IN THE WELLS WILL CASE

Judge Ludwig Practically Affirms His Tentative Opinion on Questions Involving the Income of \$7,000,000 Estate—Senator Stephenson one of the Trustees.

Milwaukee, Jan. 9.—Judge John C. Ludwig has handed down a written decision in the case in which questions were raised regarding the income from the \$7,000,000 estate of Daniel Wells, Jr., which is practically an affirmation of his tentative opinion on December 20. The estate includes an interest in the Homestake gold mine, the largest in the world.

The Wells will first came into court on an action brought to secure a construction of the will itself. In the present case Daniel Wells' Norris, one of the life tenants, complained that the proper income was not forthcoming from the trustees created under the will. The trustees, Senator Isaac Stephenson, James K. Isley and H. A. J. Upton and J. A. Van Cleve, stood firm on their distinction as to what was the real income and what must be set aside as going to the body (corpus) of the state.

Questions in this case were those on the division of the income. No charge of illegality ever was made, the suit being based on the contention that the amount set aside as necessary to return to the estate was excessive, that is, for the purpose outlined.

Judge Ludwig holds that the trustees are amenable to the court and that their acts can be reviewed and that personal interests cannot interfere with their duties as trustees.

THE NEW GOVERNORS.
 New governors are beginning their terms in 29 states. Probably the most serious problem confronting them is the need of economy, a word that throws a coldness over the meeting of legislators anywhere. Public expenditures are rising much faster everywhere than either population or wealth. The trouble is not primarily due to higher salaries. Those are low for the grade of service required, compared with other business. The chief difficulty is in higher standards of the people. They demand better schools, more normal schools, expert supervision, better public health inspection, better equipped jails asylums and other public buildings. The question "Can we afford it?" is one that the individual daily asks concerning his private expenditure. It never occurs to many representatives when it comes to spending some one else's money. Furthermore, great savings could be made if the vim and hustle and enterprise of private undertakings could be put into public work.

MULTIPLEX TELEPHONY SOLVES PROBLEM.
 A most important discovery has been made by Chief Signal Officer Allen of the U. S. army which solves a great problem and will largely facilitate the work of his department as well as every other government department and of other public and private interests. General Allen has perfected a system whereby several independent conversations may be carried on simultaneously over a single wire circuit. One important feature of the discovery is that the multiplex system may be installed without change in the systems already established. To extensive users of the telephone the importance of this appliance will instantly appeal. It is another one of those practical means of advancement due to American inventive genius and gives added value to the products of the brains of others who have given to the world the communication without which vast business interests could not have been developed to their present magnitude.

OVERTHROWING CUSTOM.
 Champ Clark has a scheme. He wants to elect the president for six years (with no reelection possible) and congressmen for three with the general elections the last of August and the inauguration the first of October.

We are bound hand and foot by custom. It blocks progress and takes the pepper out of ambition. Conservatism is good in its place but its place is not the whole stage, declares the Aurora (Ill.) Beacon.

England is a slave of custom. The Britishers are following a worn out trail simply because it is the one their fathers tramped over. They think they have representative government because they can change the parliament whenever they wish to. It is human nature to want something else the minute you get what you wanted. That is all right, too, provided you have sucked all the juice out of the orange. Great Britain is continually rent with political strife and progress is interfered with. It will continue so until custom is overthrown.

We Americans, despite our boasted freedom, are chained to the stake of custom. Simply because a few men (grand fellows they were, too) got together and adopted a constitution 123 years ago we think we must not change it.

What would you think of a man who would stand up in a public place and advocate the abolition of railroad trains, steamship lines, electric lights, automobiles, matches and a thousand and one other useful contrivances?

You would say (and rightly) that he was crazy. No more so than the man who seeks to govern this hundred million people with the same laws that were adopted when we were less than four millions?

Champ Clark is suggesting nothing under the head of "new business." The same ideas have been advocated for many years. Nominating a president for six years, congressmen for three years and changing the date of elections and inaugurations is not half so important as getting outside the pall of custom.

"Who pays the taxes?" asks Wallace's Farmer. So far as we have been able to discover pretty nearly everybody pays. The tax collector is as relentless as death, and few are able to side-step him.

Senator Lorimer's election would have been thoroughly orthodox 10 years ago, but "the old home ain't what it used to be."

Now the government gets after the steamship trust. If any octopus has not yet been sued, let him rise and stand until counted.

Gallagher gets 12 years for shooting Commissioner Edwards. One man at least is taught the difference between guns and jackstraws.

THEATRICAL

THE PETERSON—At the Peterson Thursday, Jan. 12, laughter will reign, for the attraction is to be "Baby Mine," that very delightful farce which is now regaling those who enjoy hearty laughter in New York City at Daly's theater. The company that will be seen at the Peterson is composed of the farceurs who caused the latest Margaret Mayo stage creation to take like and remain the magnet for six months at the Princess and Garrick theaters in Chicago.

Imagine the complications that arise out of having a stout man hustling around to borrow babies for a childless wife, who cannot win back her husband until she has one, and then realize how much fun Miss Mayo turns when you when she has that same stout friends steal one of the babies from a home, and then renting a couple of twins from an adjacent laundress. But the situations in the play pile up upon one another so that all the spectator can do after the farce is started is to sit back and laugh as he never has before.

THE PETERSON—Madge Kennedy, a very pretty young lady who is the "Nell Graham" in Mort. H. Singer's offering, "The Genius," which will be presented at the Peterson on Friday evening, Jan. 13, with Henry Woodruff in the title role is a well known society girl of Buffalo, N. Y. Her father was Judge Kennedy, who sat on the bench of the criminal court for more than 15 years, and was one of the earliest settlers there. During the Pan-American exposition, Miss Kennedy was chosen as one of the reception committee of the Bid-week Club's rest room and she was one of the first young ladies whom President McKinley greeted upon his arrival at the club's room. She was also within a short distance of the president when the assassination took place. Miss Kennedy made her first appearance upon the stage in a little sketch entitled, "Hallowe'en Eve," which was written by Henry Woodruff. He didn't even know there was such a girl or that she had appeared in the sketch until he received a program and a criticism of the young lady's cleverness. Miss Kennedy learned that he was going to star in a new play this season; she sent him a night letter asking for an engagement and she was given a contract.

THE LABOR PRESS.
 President Gompers Urges It Receive Generous Support.
 Again I direct the attention of the trade unionists of the country to the excellent services on their behalf performed by the labor press. In the work of organizing, of giving correct information to union men during controversies with employers, of carrying on the discussions of questions arising in the course of the movement, a newspaper which is labor's own is indispensable in every large organization and in every considerable industrial community. The patronage extended by unions or individual unionists to the labor press is an investment in support of a principle. As such the amount contributed ought to be made at all times as great as possible. A full and truthful account of an incident during an emergency in the course of the struggles of an organization may turn the tide of affairs in its favor, and an intelligent defense of the justifiable actions of labor's representatives may at the opportune moment save the members from hurtful misunderstandings and even disastrous dissension.

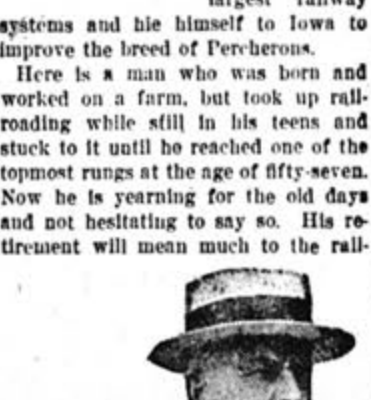

The average labor periodical of America affords to its readers an opportunity to keep up with the discussion of the important social problems of the day. Every union man, therefore, should bear in mind his obligations to the labor press and regard it as an imperative duty to give a liberal support to the periodicals which can be called on at any and all times to defend union principles and promote union projects. It may be said without invidious reflection upon the efforts of labor press managers and editors in the past that a steady advance is observable in the appearance and contents of labor newspapers, while the number is increasing. I urge labor's representatives to vote and work for the assistance of their printed messengers even when any immediate beneficial result may appear doubtful. A good labor paper, like a good tool, is a thing which it is well to have at hand.—President Gompers' Report.

Meager Pay For Working Girls.
 How young girls working in stores and shops can live on the wages paid them is a problem scarcely understood by the Minnesota labor bureau, according to W. E. McEwen, commissioner. Statistics which have just been compiled show that more than 35 per cent of them earn only from 50 to 83 cents a day, that more than 45 per cent earn from 84 to 99 cents that 1.51 per cent earn from \$2.50 to \$2.89 and that only seven-tenths of 1 per cent are paid as high as \$18 a week.

Rail Chieftain Yearns For Farming Life

THE life of the stock farm is calling William C. Brown, president of the New York Central lines, and from the tenor of an address he made at the Chicago live stock show it is apparent that he is preparing to cast off the cares of leading one of the country's largest railway systems and his himself to Iowa to improve the breed of Percherons.

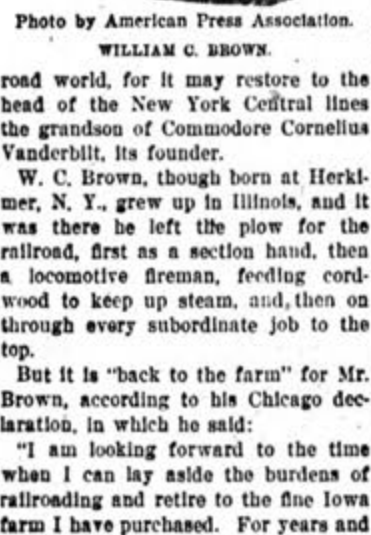

Here is a man who was born and worked on a farm, but took up rail-roading while still in his teens and stuck to it until he reached one of the topmost rungs at the age of fifty-seven. Now he is yearning for the old days and not hesitating to say so. His retirement will mean much to the rail-

road world, for it may restore to the head of the New York Central lines the grandson of Commodore Cornelius Vanderbilt, its founder.

W. C. Brown, though born at Herkimer, N. Y., grew up in Illinois, and it was there he left the plow for the railroad, first as a section hand, then a locomotive fireman, feeding cord-wood to keep up steam, and, then on through every subordinate job to the top.

But it is "back to the farm" for Mr. Brown, according to his Chicago declaration, in which he said: "I am looking forward to the time when I can lay aside the burdens of railroading and retire to the fine Iowa farm I have purchased. For years and

years I have had it in my mind that I would spend my declining years in the country, where I could indulge my fondness for horses and perhaps do something toward improving the breeds in America."

Meanwhile W. K. Vanderbilt, Jr., is assistant to Mr. Brown and learning the business that he will have charge of when his chief retires unless all Wall street predictions are worthless. A Vanderbilt is coming back into his own, say the prophets. This grandson of the old commodore has been noted chiefly for his activity in sports, but he has found time in the midst of his automobiling, yachting, motorboating, coaching and aeroplanning to absorb much railroad knowledge. He is said to have acquired in the last ten years good knowledge of everything connected with railroading, plus some experience in finance.

DATES AHEAD

Jan. 12—"Baby Mine," at Peterson's opera house.
 Jan. 13—Henry Woodruff, in "The Genius," at Peterson's opera house.
 Jan. 19-20—Kermis, under auspices of Ladies' Aid of First Presbyterian church, at the Peterson.
 Jan. 26—Concert under auspices of Escanaba Choral club at First Presbyterian church.
 Feb. 6—Special election on adoption of new city charter.

Jan. 8 in American History.
 1815—Battle of New Orleans, Jackson's extraordinary victory was gained with only a trifling loss. Over 2,000 Britons fell. Jackson's loss was 5 killed and 13 wounded. His triumph was enhanced by the fact that it was wholly unexpected and seemingly impossible and against enormous odds.
 1821—James Longstreet, distinguished soldier born in Edgerfield district, South Carolina; died Jan. 2, 1904.
 1910—General Newton Martin Curtis, "hero of Fort Fisher," died in New York city; born 1836.

ASTRONOMICAL EVENTS.
 (From noon today to noon tomorrow.)
 Sun sets 4:46, rises 7:29; moon sets 1:23 a. m.; 12:04 night, eastern time, moon in conjunction with Saturn, passing from west to east of the planet, 1 degree north thereof; see, as the phenomenon draws on through the evening.

Little Bits of City News

Menominee Herald-Leader? Arthur Hoffman of Escanaba, traveling representative of the Carpenter Cook company, left today for Chicago, where he will give an address at the Illinois Commercial Travelers' club banquet, to be held tomorrow evening. Mrs. Hoffman accompanied him.

Mrs. C. Stoick has returned to her home at Powers after a visit of several days with relatives in this city.

Got your sidewalk cleared of snow yet?

Miss Josephine Waich has gone to Big Rapids, where she is taking a course of study at the Ferris Institute.

St. Mary's court of the Women's Catholic Order of Foresters is arranging to give a card party in St. Joseph's hall next Wednesday evening. This party will be the first of a series planned for the winter and doubtless will be well attended.

We don't like to quote your prices on fresh meats in the paper. Call up Telephone No. 621 and we will satisfy you that this is the place to buy. The Cash Mercantile Co. if

Carl Lang left today for Chicago, where he has secured a position with the Postal Telegraph company.

Reserved seat tickets for "Baby Mine," which is to be presented at the Peterson opera house next Thursday evening, will go on sale at the store of the Mead Durg company tomorrow morning at nine o'clock.

Miss Vida Spaulding has returned to her home in this city after a short visit in Chicago.

Mrs. George Eastwood has gone to Hinsdale, Ill., in response to intelligence of the serious illness of her sister.

Dr. J. E. Minnehan of Green Bay was in the city Saturday night, having come here to attend a consultation of physicians over Rev. Father Langan's condition.

The dental office of Dr. G. A. Cottou are now located in the new First National bank building. Phone 129 if J. E. Smith of Powers, who has been quite ill with pneumonia, is reported to be improving. This will be pleasing news to Mr. Smith's many Escanaba friends.

Nels Ahlquist and Gunner Nygard have gone to Chicago for the purpose of purchasing a stock of goods for a store soon to be opened at 1214 Ludington street by the Escanaba Clothing company, a new firm here.

Julius Greenhoot is home from a two weeks' visit in Chicago.

Mr. and Mrs. John Kinnard are home from Negaunee where they spent the Christmas and New Year's holidays with friends.

Mrs. T. J. Smears is able to be about again after having been ill with pneumonia.

Mr. and Mrs. Hector Fish are home from Minneapolis, where they visited friends.

Martin Kimble, who was here to attend the funeral Thursday of the late James Bacon, has returned to his home at Highland Park.

The Misses Linsley, 519 Harrison avenue, will entertain St. Stephen's guild Wednesday afternoon of this week.

If you appreciate cash prices on fresh meats you should come to us. Cash Mercantile Company. If

Mr. and Mrs. E. M. Dougherty are home from a visit of several weeks at various points in Ohio.

S. Dufresne left Sunday night for his home in Chicago after a visit with friends in this city.

The county board of supervisors will meet tomorrow for its regular January session, which probably will not occupy more than two days. Several standing committees of the board met today for the purpose of auditing bills which are to be presented to the board.

STATE JUNKETS TO WORST STORM BE' THING OF PAST OF THE WINTER

(Continued From Page 1.)

Resolution introduced in the Senate Aiming to Save Money of Taxpayers—Expenses Must Be Cut to the Bone and No Luxuries Indulged in at Public Expense.

Lansing, Mich., Jan. 9.—No more will the state solons enjoy the pleasant jaunts through the state at the taxpayers' expense, under cover of business reasons.

It took the hardest sort of effort that Senator "Bill" Bradley of Greenville could summon together in the senate yesterday to put through the resolution that will hereafter do the business. Bradley has for some time objected strenuously to members of the senate riding in special trains and enjoying other unheard of luxuries while on trips to some of the state institutions. It was while harping the same old objections that Bradley introduced his resolution yesterday.

Hereafter only members of committees that are excused from the senate by the president will be allowed to make such trips. Even they will be forced to ride in common chair cars and cut their individual expenses to the bone before they will be paid by the state. What is more, there will be no dallying about the institutions that are visited, either. Each committee starting out will be warned by the president of the senate against taking more than the necessary amount of time for such trips.

BUT ONE SESSION OF SCHOOL TODAY

As the result of being forced to wade through monumental snow drifts in order to get to school this morning, many of the children reached their destination with damp shoes and stockings and clothing and were decidedly uncomfortable in consequence. Under these circumstances Superintendent King of the public schools decided that it was best to hold but one session today and so directed the principals of the several schools. The morning session therefore continued until one o'clock and the schools were then dismissed for the day. None of the regular school work was omitted or neglected, it is stated, and it is believed that Supt. King's action in saving the children hardship and discomfort will be generally commended.

DEBATING TEAMS ARE HARD AT WORK

The two Escanaba High school debating teams which are to meet the Menominee and Marinette High school teams in the first triangular debate next month are hard at work and expect to give a good account of themselves in the contest. Saturday the teams met at the High school and practiced diligently for some time in debating the subject which has been assigned. Before the regular triangular debate is held the Escanaba teams will give a public debate in this city. The date will be announced later.

MADE AN ENFORCED VISIT IN NEGAUNEE

Negaunee Herald: F. D. Davis of Escanaba, district representative of the New York Life Insurance company, was one of the passengers on the belated Northwestern afternoon train last Monday who made an enforced visit in Negaunee, having missed connections for the copper country. Mr. Davis readily admitted that there were worse misfortunes than having to spend an evening among friends in the old home town, but when one had missed an important business engagement in consequence it wasn't so easy to look on the bright side.

HOUSE DOORKEEPER BADLY INJURED

(By Associated Press.) Washington, D. C., Jan. 9.—Major George H. Morisey, of Manchester, Iowa, for many years a doorkeeper in the house, fell from a street car last night and was so badly injured that he has reached here confirm the story to amputate one of his feet, which was badly crushed, and he was injured otherwise.

The steam railroads have been hard hit by extremely cold weather and heavy snowfall, but Sunday's storm all but put them out of business. Only by the hardest kind of work were the tracks kept clear enough to permit the running of trains and it was quite impossible to maintain the schedules. Every train running into Escanaba was several hours late today and it may be another 24 hours before the schedule time can be maintained. Passengers and the public generally are greatly discommoded, but the conditions cannot be helped.

The storm that raged here was general all over the upper peninsula and Wisconsin and Escanaba did not fare any worse than other places. From all reports the storm was far and away the most severe of the winter up to date. Fortunately, however, the weather has not been severely cold, having moderated considerably from the low temperatures of several days ago.

C. A. COMSTOCK IS GIVEN PROMOTION

C. A. Comstock, manager of the Postal-Cable Telegraph Company at Milwaukee for the last five years, has been appointed superintendent of the company's lines in Wisconsin, Minnesota, South Dakota, Iowa and the upper peninsula of Michigan. He will establish his headquarters in Chicago. Mr. Comstock is well known in Escanaba and other cities of the upper peninsula, where he has often visited and inspected the offices of the company. His friends in this district are pleased to learn of his promotion.

And Reformed Him?
"Mabel always said she was born with a mission to reform something, and she was right."
"Indeed?"
"Yes; she married a minister's son."

Terms Cash.
Poet—How much are your furnished rooms, please?
Landlady—One dollar per night. Sulcide with gas 50 cents extra.—Puck.

The Professor's Dilemma.
Beneath the mistletoe she's fairly caught, And he perceives that she's a pretty miss.
His favorite theory all comes to naught, And he forgets the microbes in the kits.—Judge.

Stagg Gets New Honors.
Coach A. A. Stagg of the Maroons has received notice that he has been selected as a member of the American Olympic committee for the Olympic games to be held in Stockholm, Sweden, in 1912. Charles A. Dean another Chicagoan, also has been honored. Coach H. L. Williams of Minnetonka, Dr. G. K. Herman, First Regiment A. C., and Dr. A. H. Bayre are well-known westerners who received appointments.

HALVOR STEENERSON.
Minnesota Congressman Honorary Member Chippewa Tribe Indians.

GOLD MEDAL FLOUR

DIAMOND PIN GIVEN ROGER M. ANDREWS

As a parting remembrance from the employes of the Menominee Herald-Leader company, Roger M. Andrews, its former president, was presented Friday evening with a beautiful diamond pin. The presentation speech was made by W. F. Traves, managing editor of the paper, and a suitable reply was made by Mr. Andrews. All of the employes, individually, before permitting Mr. Andrews to depart, bade him Godspeed. Mr. Andrews and his family left Friday night, for Los Angeles, Cal., where they will make their future home. It is understood that Mr. Andrews retains considerable financial interest in the Herald-Leader, which has done so much to spread abroad the reputation Menominee enjoys as a good town.

COLDER PLACES THAN ESCANABA

Escanaba cannot be said to lie within the confines of the polar regions when its record of frigid weather is compared with other places within a radius of less than 100 miles. At Ishpeming last week there were several days when the temperature fell below 18 degrees and at Florence, Wis., it dropped to 28 on Friday. On Tuesday and Thursday previous it was 18 below there and on Wednesday at was 21. The coldest weather yet recorded here this winter by the local weather bureau was 12 below.

PUGILIST HELD ON LARCENY CHARGE

In Justice Linden's court this afternoon Patrick Ryan had his preliminary examination upon a charge of larceny from the person, with the result that he was held for trial in circuit court. Bail was fixed at \$500 and in default of furnishing this Ryan was committed to the county jail. Ryan, who formerly enjoyed some reputation as a local pugilist, was arrested Saturday night soon after he was alleged to have stolen \$45 from the person of Charles J. Johnson, taking the money by force. It is alleged.

B. A. CRAVER IS SUPERINTENDENT

Specials For Tuesday, Wednesday and Thursday
January 10, 11, 12.

Escanaba friends of B. A. Craver will be pleased to learn that he has been promoted to the position of superintendent of the Manistique & Lake Superior railroad. Mr. Craver has been in the employ of the road for more than 13 years. During that period he was train dispatcher and trainmaster, and in recognition of his faithfulness and efficiency he was promoted to the position of superintendent. Simultaneously with the appointment of Mr. Craver the abolition of the offices of manager and trainmaster were decided upon. This leaves Superintendent Craver in complete charge of the railroad and its responsible head.
