ESCANABA IS TO HAVE SPLENDID NEW HOTEL

Syndicate Headed by John Christie Plans to Erect Modern Four Story Hostelry on North-east Corner of Wells Avenue and Campbell Street—Details.

Escanaba is to have a splendid new hotel, something of which the city has long been in need.

It will be erected upon a site that has just been secured by a syndicate headed by John Christie, proprietor of the Ludington hotel, at the north-east corner of Wells avenue and Campbell street, will be a four story structure built according to the most modern standards and as nearly fire-proof as it can be made. There will be from 100 to 125 rooms in the house and all will be furnished in proper style.

Mr. Christie and the men associated with him have been working on this hotel project for a long time, but up to now they have been unwilling, for reasons based on policy, to divulge their plans to the public. No further incentive for secrecy exists, however, for late Friday afternoon the last papers placing the syndicate in possession of the site at the corner noted were signed and passed, through L. M. Beggs, and from now on the enterprise will move with all the speed and promptitude possible.

Location Considered Excellent.

The site secured has a frontage of 160 feet on Campbell street and 150 feet on Wells avenue and it is considered an almost ideal location for an hotel. Some piece of property having a frontage on Ludington street might be considered better, but it is stated that the high price of realty along the city's principal thoroughfare precluded its purchase by the hotel promoters.

At the present time the land secured for the hotel site is covered by six old houses, which will be sold and removed before the work of building the hotel is begun. One of the houses, that occupied by the Stolk family, will be moved to another portion of the property, all of which will not be required for the hotel building, according to the tentative plans now in the minds of its promoters.

Chubb to Draw Plans.

Plans and specifications for the structure have not yet been prepared, but the work of drafting them will soon be undertaken by Architect J. D. Chubb of Milwaukee and Chicago, who designed and prepared the plans for Escanaba's magnificent new High school building.

Although this matter has not positively been decided, it is stated that the work of building the structure will be started early during the com-

ing summer or as soon as the site can be cleared of the buildings now occupying it. In any event, it is expected that within a year or so the hotel will be completed and ready for business. No estimate of its cost has been given out, but it probably will not fall short of \$75,000 or \$100,000.

\$109,655 IN CITY TAXES COLLECTED

Out of a Total Tax Levy of \$133,963.82 City Treasurer Hess Has Already Collected that Amount, Leaving Balance of \$24,308 Yet to Be Collected.

Out of a total tax of \$133,963.82 levied in Escanaba this year City Treasurer Frank J. Hess has up to date collected \$109,655.58, leaving a balance of \$24,308.24 to be collected before he closes his books and makes his final returns to County Treasurer Mallmann, which will be on March 1, at the latest.

Since January 10 the city treasurer has been charging a fee of four per cent on all taxes not paid prior to that date. This procedure is fixed by state law, which also provides that after the delinquent taxes have been returned to the county treasurer an additional fee of one per cent a month shall be charged upon all delinquent taxes paid.

There are still three weeks remaining before the city treasurer closes his books and ceases to collect and it is believed that when he makes his final returns to the county treasurer the amount of the delinquent tax will be comparatively small. If the taxes continue to be paid as well as they have up to date this is sure to be the case for \$109,000 collected out of \$133,000 with three weeks yet to run is doing pretty well, it is considered.

The feast of Candlemas was observed Thursday in all the Catholic churches of the city. This ecclesiastical festival was instituted by Pope Gelasius I. in the year 492 in commemoration of the presentation of Christ in the temple and of the purification of the Virgin Mary.

SENTIMENT IS FAVORABLE TO ESCANABA TEAM

MARQUETTE BASEBALL MEN ARE ANXIOUS TO HAVE THIS CITY JOIN WITH THEM IN A FOUR TEAM LEAGUE.

As a Result of Harmonious and Satisfactory Meeting at Ishpeming, They Will Communicate With Management of Escanaba Team—Details.

According to the Marquette Mining Journal of today, a harmonious and satisfactory meeting of representatives of the baseball organizations in Ishpeming, Marquette, Negaunee and Gwinn was held yesterday afternoon, as a result of which the management of the Escanaba team will be communicated with at once, to ascertain whether this city will consider entering into a four team league with Ishpeming, Marquette and Negaunee.

The Marquette men at the outset declared that Marquette favored the admission of Escanaba, if it would accept a berth in the league. They said that the sentiment in their town was against further experiments with teams from small places, as experience had shown it was a losing game. They said that if Ishpeming Marquette would fall in line, but that no attempt would be made to get to and Negaunee stuck out for Gwinn, gether as strong a team as was maintained last year.

There was some disposition on the part of the Ishpeming and Negaunee representatives to favor Gwinn, largely as a matter of sentiment, but they conceded that sentiment is not a satisfactory asset when it comes to keeping up with a baseball payroll, and they said they were willing to open up negotiations with Escanaba. They had the idea that Escanaba would not hear of a proposal from the Marquette county teams this year, but a Marquette man showed them a letter he had received from Secretary Beggs of the Escanaba club. In which Mr. Beggs stated that the Escanaba management would be pleased to hear from the Marquette county teams. This put a different face on the matter for the Ishpeming and Negaunee men, and they voted favorably on a resolution to authorize one of the Marquette men present to correspond with Mr. Beggs, and to hold another meeting not later than February 17, next.

All the men present at the meeting yesterday conceded that a league composed of Ishpeming, Negaunee, Marquette and Escanaba would present one of the strongest lineups of teams that has ever been had in the upper (Continued on page six.)

ARCHBISHOP STILL ALIVE

(By Associated Press.) Philadelphia, Pa., Feb. 4.—After a very bad night Archbishop Ryan showed a little improvement this morning. The physicians attribute this to the iron constitution and wonderful vitality of the distinguished patient. The archbishop's heart is still very weak.

JUDGE MACK TAKES OATH

(By Associated Press.) Chicago, Feb. 4.—Judge Julian W. Mack was sworn in as a member of the new commerce court today by Judge Grosscup of the United States circuit court.

DEBATING TEAMS TO CONTEST

ESCANABA HIGH SCHOOL TEAM MEET THOSE OF MENOMINEE AND MARINETTE FEBRUARY 17.

PLENTY OF DEBATES HERE ALSO

Local Team Will Debate Menominee Team Here and Another a Marinette Team at the Latter City—These Debates Will Be First of Triangular League—Escanaba Has Other Teams.

According to plans formulated some time ago, the Escanaba High school debating teams of the Triangular league, consisting of the High schools of Escanaba, Menominee and Marinette, will meet a Menominee High school team here and a Marinette team in the latter city Friday evening, February 17. These debates will be the first of a series in the Triangular league and are expected to attract a great deal of interest.

That the work of debating is not to be confined to these teams, however, is shown by a bulletin issued by the English department of the local school. Miss Griffith and her assistants expect the inspiration of the inter-city contest will stimulate interest in the important exercise of debating and the work they have planned will be splendid preparation and development for future debating teams. Parents and friends are invited to these debates as they are to any and all of the school exercises.

Following is the schedule of debates arranged for teams of the English Debating class and of the Debating club.

The English Debating Class.

Feb. 9.—Resolved, Escanaba shall purchase and use five snow plows. Affirmative leaders, Frank Compher. (Continued on page six.)

BIG EXPLOSION MAKES TROUBLE FOR MANY MEN

CAPTAIN OF WRECKED DYNAMITE BOAT AND POWDER COMPANY OFFICIALS ARRAIGNED ON SERIOUS CHARGE.

Wednesday's Explosion in Which Many Lives Were Lost Will Be Investigated by the Authorities in New York—Men All Give Bonds.

(By Associated Press.) New York, Feb. 4.—Seven officials of the Central Railroad of New Jersey, and the Dupont Powder company were arraigned this morning on charges of manslaughter in connection with the dynamite explosion last Wednesday.

Captain James Healing of the Katherine W., the boat that was blown up, was also arraigned on the same charge. They all gave bonds to appear before the grand jury.

KENOSHA LOSES PROMINENT MAN

(By Associated Press.) Kenosha, Wis., Feb. 4.—Judge Frank Slosson, aged 66 years and a manufacturer as well as a director in many concerns died today.

AMERICAN CONSUL RECEIVES NOTICE OF COMING ATTACK

GENERAL OROZCO SENT WORD LAST NIGHT AT 10:30 O'CLOCK THAT HE WOULD BRING HIS ARMY INTO JUAREZ TODAY.

Declares That He Will Make Juarez, the Capital of Mexico, and Will March On Chihuahua and Mexico City From There—Federalists Expect Help.

(By Associated Press.)

El Paso, Tex., Feb. 4.—Last night at 10:30 o'clock the American consul at Juarez received notice from General Orozco that an attack would be made on Juarez within 24 hours.

Couriers from the headquarters of the insurrecto leader, who is in camp ten miles from the city, came into Juarez today with the news that an attack would not be made upon the town until reinforcements had arrived and that the situation would be thoroughly reconnoitered before the strike was made.

Yesterday Orozco informed a number of his friends that he intended to make Juarez the capital of Mexico and would rally all his followers there to start a march south against Chihuahua and ultimately against Mexico City itself.

At daybreak this morning the streets of Juarez were lined with police guards, federal and state rurales and soldiers who were expecting the attack at any moment.

MINISTER LOSES HIS SON BY DEATH

Pneumonia and an Affection of the Heart Cause the Demise of the Twelve Year Old Son of Rev. and Mrs. Olof Hanson of North Escanaba—The Details.

Following a short illness with pneumonia, coupled with an ailment of the heart, Carl Johan David Hanson, the twelve year old son of Rev. and Mrs. Olof Hanson, died about 5:30 o'clock Friday afternoon at the family home, 1223 Stephenson avenue.

The funeral will be held from the Swedish Lutheran chapel in North Escanaba Monday afternoon at 2:30 o'clock. Rev. C. A. Lund will conduct the services and interment will be made in Lakeview cemetery.

The parents of the dead boy have been residents of Escanaba a comparatively short time. They came here last August from Sweden, where Mr. Hanson was a lay preacher in the Swedish mission field.

In the absence from the city of Rev. Carl Hognander, he was to have occupied the pulpit of the Swedish mission church tomorrow, but the death of his little son will necessitate his cancelling that engagement.

SALOONKEEPER IS HALED INTO COURT

Nick Thinnas, who conducts a saloon at 1000 Ludington street, was arrested by Sheriff Curran and brought this morning into Justice Linden's court, where he was arraigned upon a charge of having on February 2 kept his saloon open for business after 11 p. m., in violation of the state law. Thinnas pleaded not guilty and demanded an examination. The case was thereupon adjourned until 10 o'clock in the forenoon of February 14 and Thinnas was released upon furnishing a bond of \$200. The complaint against Thinnas was sworn to by Rev. C. H. Rutledge, upper peninsula representative of the Anti-Saloon league, who was in the city this week.

WILL BE BIG THING FOR THE UPPER PENINSULA

What Recent Purchase of 712,000 Acres of Land by the St. Paul Capitalists Means—Authoritative Information is Obtained by The Mirror.

BONDHOLDERS NOT WELL SECURED

That is One of the Contentions Made by the Plaintiff in Action Started Against Escanaba Water Company For Foreclosure of Mortgage—Some Details.

Several days ago The Mirror made note of the fact that an action petitioning for foreclosure of mortgage has been started in United States circuit court against the Escanaba Water company, the suit being brought by the Farmers' Loan & Trust company of New York, which presumably represents the bondholders. Since then some additional details relative to the matter have come to hand.

The plaintiff sets up in this suit that it represents the holders of \$69,500 in mortgage bonds secured by the property of the defendant water company, which are long overdue. It is further asserted that the assets of the water company are covered by other mortgages to such an extent that the plaintiff believes that the bondholders it represents are insufficiently secured. For these reasons, the United States court is asked to foreclose the mortgage and have the Escanaba water works placed at public sale.

Commenting upon the steps of this suit, the Marquette Mirror Journal has the following:

"The Escanaba Water Works company has been much in the limelight in that city of late. It has been accused of furnishing the city with impure water and with not having carried out its agreement with the city by one faction, while another faction has been disposed to uphold the company in its manifold troubles. The company recently announced its intention to raise rates, which has probably been the cause of the controversy. The filing of the suit at least indicates that the company's stockholders have not found the Escanaba investment especially profitable."

Rhineland New North: T. D. McGuire of Escanaba and J. F. Rice of Gladstone purchased a logging outfit in this city last Saturday which they shipped to Armstrong Creek. They will cut a small tract of timber near that village.

Following out its special dispatch from Chicago several days ago, announcing the closing of a deal for the sale by W. G. Mather of Cleveland Ohio, to H. H. Hamilton and others of St. Paul, Minn., 712,000 acres of land in the upper peninsula, The Mirror wrote Mr. Hamilton a request for further and more detailed information relative to the purchase and the plans of the purchasers for its settlement and development. In reply The Mirror today received the following comprehensive and interesting article from T. T. Bacheller, advertising manager of the Western Land Securities company, of which Mr. Hamilton is the responsible head:

Unrivaled Inducements. "The most important land transaction reported in recent years is the purchase of 712,000 acres in the upper peninsula of Michigan, in Chippewa, Mackinaw, Luce, Schoolcraft and Alger counties. The purchase, for which negotiations have been pending for more than a year, was effected by H. H. Hamilton, president of the Western Land Securities company of St. Paul, widely known as one of the most successful colonizers in the west.

"The soil in this tract is remarkably rich and everywhere well watered (Continued on Page 2.)

YOUNG FARMER COMMITS CRIME

(By Associated Press.) Mt. Clemens, Mich., Feb. 4.—August Wiers, a farmer 27 years of age, committed suicide by taking poison today after shooting Miss Hattie Uplinger and most brutally beating her mother, Mrs. Augusta Uplinger, with a hammer. Both women are in a critical condition. It is said that jealousy was the cause for the young farmer's act.

PERSIAN MINISTER IS ASSASSINATED

(By Associated Press.) Teheran, Persia, Feb. 4.—Sani Ed. Dowleh, the Persian minister of finance, was shot dead this morning in the street. The murders were two Armenians.

WILL BE BIG THING FOR UPPER PENINSULA

(Continued From Page 1.)

with lakes and streams. The rainfall every year is abundant for agricultural purposes, and every portion of this extensive purchase will yield abundant crops of all products naturally grown in temperate latitudes.

The plans of the new owners include extensive drainage and reclamation schemes, the sale of farms to actual settlers, and a system of improvements and developments which will aid the farmer in the profitable manipulation of his land to an extent never possible under home-steading conditions.

"Never before has it been possible to attain any of this land for farm purposes, and while thousands of homeseekers have gone west and north, even into the Canadian provinces, the state nearest to this Great Lakes region have grown in popula-

tion to a wonderful extent, affording near-by markets for every agricultural product that can be produced in generations to come. With splendid railroad service and a close proximity to water traffic in every direction, the northern peninsula of Michigan can certainly offer unrivaled inducements to settlers who can procure lands at present prices.

Ideal for Dairying.

"As an ideal dairy section this locality is certainly most inviting. Native grasses of the most nutritious types flourish everywhere as soon as the land is cleared. Crops of hay and grain can always be assured with the least trouble. Every variety of roots, including sugar beets, find here their natural condition of soil and climate. Milk and cream can be forwarded in refrigerator cars daily to the best markets in the country. As a part of the farm development of this extensive tract, the proprietors are doing everything in their power to encourage and assist those wishing to engage in dairying as a special line. It is expected that in a short time creameries will be built and operated wherever sufficient dairy herds are found.

An Experiment Station.

"As another important feature of this enterprise, and one which will be of immense benefit to early settlers, arrangements have been completed to open up an extensive demonstration farm and experiment station, which will investigate local soils, conditions and possibilities, will make systematic tests of varieties of seeds, grains, fruits and general crops adapted to this belt, and will offer to all in the entire section, the most valuable information on agricultural matters possible. This farm, which will be centrally located, will be under the charge of Prof. F. W. Bouska, a man of eminent scientific attainments in agricultural lines, and who held a professorship in the State Agricultural College at Ames, Iowa, for years. A great many mistakes, common to farmers, may be avoided, and much time lost through experimenting, will be saved through efficient work done at this experimental farm.

Moderate Prices For Lands.

"This land will be handled for the highest agricultural developments of the section. In many cases, farms as small as forty acres can be made to yield very handsome returns when devoted to special crops. In this connection we note that the large seed growers of the country arrange every year to have their seed peas grown in this section to the extent of thousands of bushels, which are sold over the entire country.

"The prices placed upon these lands to early applicants will be moderate, and the best terms of payment will be given. Farmers wishing to dispose of their holdings in other states, where lands are very high, or their sons wishing to identify themselves with this newer section with its larger prospects, need not find themselves through this change cut off from the conveniences of modern life. The hardships, discomforts and privations of early pioneering need never be thought of here, and it may easily be seen that the coming season will record an influx of enterprising people to this section, and that this inter-lake strip will soon become one of the most prosperous farming districts in the United States."

Speedy Relief From Kidney Trouble.

"I had an acute attack of Bright's disease with inflammation of the kidneys and bladder," says Mrs. Cora Thorp, Jackson, Mich. "A bottle of Foley's Kidney Remedy overcame the attack, reduced the inflammation, took away the pain and made the bladder action normal." For sale by all druggists.

This year is to be the ad-readers' year—every day of it. There is to be an endless procession of opportunities—but not one of them for the non-ad-reader.

REFORMED BREAD TOO MUCH OF A SUCCESS

Good Old English Squire is Deluged With Orders for Loaves—Cancels His Offer.

Sir Oswald Mosley, master of Rolleston Hall, Burton-on-Trent, England, has found himself suddenly bereft of his wonted peace and his large estate overwhelmed with the clamorous importunities of the world.

Sir Oswald recently announced his intention to start a national bread reform. The newfangled methods of milling and the artificial non-nutritious white bread, according to the Rolleston squire, were ruining the teeth of people and undermining their health. He purposed, therefore, with his little stone mill and the aid of the baker of Rolleston village to produce a whole meal loaf of the saving perfection of English bread in the days prior to false teeth, indigestion and appendicitis.

Stream of Messenger Boys.

For the first day Sir Oswald confined his purpose to supplying sample loaves to the villagers about Rolleston Hall. Then, urged by outsiders, he consented to forward a sample loaf to anybody in the country who sent threepence (6 cents). Scarcely had the announcement been made when telegraph boys began to stream to Rolleston Hall, and the next post brought the biggest mail ever seen on the estate.

Sir Oswald had a shooting party at his house and wished to go out a little, but this became impossible, and the guests were compelled to shoot alone, while the astounded squire was bottled up with a flood of telegrams and letters asking for whole meal bread baked in the old way.

Compelled to Cancel Offer.

After a few hours' struggle, during every moment of which they say the squire became more perplexed and distracted, he dispatched telegrams to the newspapers withdrawing his offer, saying that the little stone mill and the village baker already had more than they could do in five years.

Sir Oswald and a clerical staff are busy returning money to the great landowners who wished to start similar enterprises on their own estates and to health societies, millers, bakers, doctors and all sorts and conditions of men.

However, the master of Rolleston, who is one of the few really typical John Bulls left in the country, with sawed off top hat, mutton chop whiskers, broad face, short, thick body, knickers and top boots, hopes eventually to help others carry bread reform to success.

STORK COMES THREE TIMES ON THE SAME DAY

THE BIRTHDAYS OF THREE CHILDREN OF DIFFERENT AGES IN ONE FAMILY FALL ON FEBRUARY 24.

Others Born in the same Month—Coincidence in Family of the Town of Pound is the Strangest Ever Heard of in That Locality—The Story.

February 24 is a day that never passes in the family of Charles Willis of Pound but what Willis is slightly expectant. The reason is that three children of different ages in the Willis family were all born on February 24. In 1903 February 24 past uneventfully, but on February 25, the stork paid a visit to the family. This popular bird said he had celebrated Washington's birthday on February 22 and had been slightly delayed in arrival that year. Another year the stork paid his visit two days prior to Washington's birthday.

The interesting facts were elicited today when Willis made application for citizenship papers. He gave the dates of the birth of his children as follows:

- John, February 24, 1896.
William, February 20, 1897.
Emil, November 14, 1898.
Minnie, February 24, 1901.
Fred, February 25, 1903.
Paul, June 4, 1905.
Edna, February 24, 1907.
It will be seen that besides the four children born on February 24

and 25, that William was born on February 20. The father spoke of the coincidence today and said it is a matter of great interest in his family and to all of his neighbors. The week of February 20, in the Willis family, is given over almost exclusively to birthday observances. Minnie, born in 1901, is now deceased.

OSBORN NOT AFTER SMITH'S PLACE.

Ever since Governor Osborn declared that he would not be a candidate for reelection to the governorship at the expiration of his present term there has been more or less talk to the effect that in taking this step it was Mr. Osborn's intention to stand as a candidate to succeed William Alden Smith as United States senator two years hence. That this talk had no basis in fact is effectually demonstrated by Governor Osborn himself, who in an interview said:

"I shall not be a candidate for United States senator, for governor, nor for anything else two years hence. I mean just what I said that after I occupied the governor's chair for two years, I shall be glad to return to my home and to the occupations I love. I am for William Alden Smith to succeed himself. You may say this just as strongly as you know how. I have known him intimately for many years. I love him and I admire him. I am for him and I shall be for him two years hence. I shall not be a candidate myself. I look upon Senator Smith as one of the big men of Washington. I believe he is not only a mighty good fellow, but a mighty capable one. During his public life he has been honest and square in his public dealings and has won not only friends but a wide range of usefulness. He is one of the powers of the senate and the state should return him without question."

To this tribute paid by Governor Osborn to Senator Smith may be added the following from the Marquette Chronicle:

"In the Chronicle's opinion, judging from the exceptional ability displayed by United States Senator William Alden Smith since assuming the duties of his position, Michigan is to be congratulated on having on guard at the national capital, a broad-gauged, well balanced, eloquent, forceful statesman whose education, culture and refinement are a credit to his constituency. He is a tireless, careful, painstaking worker and can be depended upon at all times to look solicitously after legislation affecting the diversified interests of our commonwealth. The prediction of the Chronicle is that Senator Smith will sit in the councils of the wise ones at Washington for many years to come."

THE FIELD OF THE NEWSPAPER.

In Washington recently Frederick J. Haskin, vice president of the club, in introducing Thomas Nelson Page as master of ceremonies, outlined the character and purpose of the National Press club and described "Bobby Night," an annual event in the club's entertainment program.

"Some idea of the magnitude of the newspaper business in the United States," said Mr. Haskin, "may be had from the statement that the total daily circulation of all the dailies in this country is now 22,000,000 copies—one for every four persons in our population. Making allowances for duplication and for infants and illiterates, it is estimated that three out of every four persons in our population read some newspaper every day. Newspapers are now printed in 35 languages in the United States. In the amount of capital invested, the publishing business for some time has stood seventh among all American industries and it is probable that the new census will show a gain to fifth or even fourth place. From these facts it will be seen that 'the power of the press' is no misnomer."

The Japanese are going to lay down a 40,000 ton battleship, and if our jockies don't lay down when they see her, we don't care.

The Texas and Pacific road is being sued for late trains. Some people will persist in regarding railroad time tables as serious literature.

Although Oklahoma has put the lid on the fight pictures, it is not yet prudent for the tenderfoot to pull Alkali Ike's coat tails.

As soon as the congressmen had to shovel off one or two snow storms from their front walk, they felt less inclined to dispute Peary's claim.

If some one of the Suffragettes should knock the king's crown off at the coronation, he would be justified in reaching for any rats or puffs that she might be wearing.

WHAT OTHERS SAY OF THE TRIP TO BERMUDA

Miss Martha Wickemeyer of Michigan City, Ind., Writes Most Entertainingly of Her Trip to New York and Bermuda at Expense of Michigan City News.

The following summary of the trip to New York and Bermuda made by a party of young ladies at the expense of the Michigan, Ind., News, is taken from notes prepared by the chaperon of the party, Miss Martha Wickemeyer, and will doubtless be read with great interest by all readers of The Daily Mirror and friends of those who are now engaged in The Mirror contest for a similar trip. It gives some idea of what the young ladies from Michigan City enjoyed and of what is in store for the winners of The Mirror's contest in Delta county in what will be the event of a lifetime for them. Miss Wickemeyer says:

The News party left Michigan City, Thursday, Dec. 29. Relatives and friends were at the depot to see us start. Mr. Mercer, Michigan Central representative escorted us as far as Windsor, Canada, explaining points of interest along the line. At Niles we were greeted as "The News Party," and given extra favors. Mr. Mercer also explained the building of the tunnel under the Detroit River, and saw that he had every attention shown us.

Nothing Too Good For Us.
Friday morning the head waiter of the Michigan Central dining car called "The News Girls," saying it was rather early to serve breakfast, but they would be glad to serve the News party earlier than others, giving us a chance to view the beautiful scenery along the Hudson river, as we sped along toward New York City. We accepted the invitation and enjoyed the river immensely. Our waiter explained and pointed out all the many points of interest.

Arriving at New York we had no more than stepped off the train when we were again greeted: "The News Party" and "I am a Michigan Central representative at your service." He took charge of our baggage and saw that we got a cab to take us to our hotel, the Navarre. After introducing ourselves at the hotel as "The News Party," there wasn't a thing too good for us, every attention being shown us. Our rooms were bright, airy, and elegant. Mr. Smith, proprietor of the Navarre hotel, told us how and where to find New York's most interesting parts and gave us every attention possible.

Pleasant Evening at Theater.
Friday evening a touring guide called and made definite arrangements about our sailing on the morrow.

Through the kindness of the News publishers, who had made previous arrangements, we spent a most pleasant evening at the Astor Theater, seeing Wallace Eddinger and Christine Norman in "The Aviator," which we all enjoyed very much. This is one of New York's finest theaters; always high class and leading attractions. Visitors should not fail to see this

splendid theater.
Saturday morning bright and early round the News party at the docks (easy to go aboard the steamer Trent for the islands. We did feel rather lonesome, we must confess, leaving for a trip across the ocean and nobody there to bid us goodbye. This however, was soon forgotten when our guide, the genial guide, took charge of us, telling us of the many interesting features of the New York harbor. It being very foggy, we had to strain our eyes to get a view of the Goddess of Liberty and Ellis Island, where all immigration steamers land.

As we sailed out of the great harbor our boat soon began to roll—although the ocean was what the steamer officers called very calm. The News party stood the trip well. We received the best of treatment on board the steamer. Breakfast was served at 9 a. m.; 11 o'clock hot bouillon and wafers; 1 o'clock luncheon; 4 o'clock tea and fancy cookies; 7 o'clock dinner; whereas fruit of all kinds could be had at any hour of the day. Sunday services on board the steamer were very impressive; seeing all the officers in Sunday uniform and the tolling of the bell was sure to remind you what day of the week it was.

Many Amusing Incidents.
Monday morning found us all out on deck, anxiously watching the horizon for some sign of land. Upon leaving New York, while on deck, we would pack all the steamer rugs around us leaving only our face exposed to the cold air. Sunday found it still necessary to keep pretty well packed in among blankets. Sunday evening we weren't quite as particular about having our hands under cover, and by Monday our blankets were thrown loosely across our feet, no tucking in (as it was called) being necessary. Our guide, explained parts of interest about the island we passed on our way up the bay.

The steamer Trent anchored five miles out of Hamilton Harbor, at the entrance to the bay, and we were transferred onto a smaller boat which brought us to the pier. As was stated in a previous letter, Carriages were waiting to take us to our hotel, which is a beautiful large place. Immediately after luncheon we strolled through the hotel grounds, where there are palms and flowers in profusion, and into the small narrow streets; it was all so new and interesting, we were on the go every minute of our seven days' on the island, always finding something new. One of the first things we noticed was that everybody passed to the left instead of the right and upon inquiry found this to be their custom. This custom was the cause of many amusing incidents.
(To Be Continued.)

DATES AHEAD

Feb. 6.—Special election on adoption of new city charter.
Dates ahead
Feb. 9, 10.—The Alpha Dramatic club in two plays, at the Peterson.
Feb. 15.—"The Burgomaster," at the Peterson.

THOUGHTS ON BUSINESS
BY **WALDO PONDRAY WARREN**
MISSIONARIES OF REFINEMENT
A MAN took charge of an office in which he had been working as an assistant. The force was composed of six or eight men. The first move of the new manager was to put a young woman in the office. In speaking of the matter he said:
"The presence of a woman in an office has a refining influence on the men. Our men have grown careless in their actions and conversation, and have given the office a spirit of coarseness that would not be shown if a woman were present. I want to purify the general atmosphere of the office, and I know no better way than to have a refined young woman there."
The experiment was immediately successful. The character of the conversation of the office was greatly improved, a tendency to mild profanity was checked, and coarse jesting was felt to be out of place. The young woman sat quietly at her desk, entirely unconscious of the transformation her presence was causing. Her ladylike reserve commanded respect, and constantly reminded each man of the necessity of being a gentleman.
In thousands of offices the same refining influence is going on. More is due to the presence of women in the business world than is commonly realized. They are missionaries of refinement, and deserve credit in proportion as they perform that function well.

COMMENDS SELECTION OF ALLEN F. REES

The Houghton Daily Mining Gazette Speaks in Flattering Terms of the New Commander of the Naval Reserve Training Ship Yantic—Capable and Efficient.

Houghton Daily Mining Gazette: In the selection of Allen F. Rees as commander for the Yantic the disappointment felt at the retirement of H. S. Goodell from that position is neutralized, for it is recognized that Mr. Rees has many of the same characteristics that went to make Mr. Goodell's command such a success in every way. The state of Michigan is fortunate to be able to convince such men of the qualities of good citizenship that are demanded to make the sacrifices necessary to acceptance of such a position and the proper attention that must be given the work in the office. We congratulate the naval reserve service of the state that it is able to secure the services of so capable and efficient an officer as Mr. Rees to take the place of a man who has made such a good record as H. S. Goodell for Mr. Goodell has been heart and soul in this naval reserve project ever since it was first suggested. He was prominent in securing the Yantic for our local waters and has devoted time and attention to the good of the cause.

MOTOR CAR INSURANCE RATES ARE REVISED

Companies Nowadays are Willing to Take Risks on Almost Any Contingency.

Automobile owners as a rule carry liability insurance, a policy indemnifying the insured against loss on account of personal injuries caused by reason of the maintenance, ownership or use of automobiles.

In an interview with a representative of Peter White & Co., the Marquette Mining Journal was informed that the rates for 1911 will be practically the same as last year on cars having not to exceed thirty insurable horsepower. On the more powerful type of cars there will be quite a substantial reduction in rate.

The property clause (covering liability for damage to property of others caused by the automobile insured) will cost about the same as last year.

The collision sustained clause, covering damage to the automobile by being in collision with any other automobile, vehicle or object, shows a considerable increase in rate. This clause will be issued in two forms this season, one covering damage sustained in excess of \$25 (deductible), and the other covering without deduction (full coverage).

It may be news to some persons that insurance companies issue a policy guaranteeing the owner of an automobile indemnity against any suit for damages or other loss that might befall him by reason of an accident. However, it is only one of the many kinds of insurance that the general public hears little about, though it is carried by a large majority of automobile owners. As already suggested, there are several different kinds of automobile insurance policies, one insuring against loss because of personal injury to another, one insuring the automobile against damages to

the property of others, one insuring the automobile itself against injury, and many others.

Queer Risks Often Taken. Automobile insurance is only one of many unique risks that one can be protected against through the insurance companies. In foreign countries, property values and profits in business often to some extent depend upon the life of the ruling sovereign, and policies are frequently sold, protecting the holder against any loss that might be incurred in the event of the king's or queen's death. Some of these risks are nothing but gambling in the last analysis, as for instance, issuing a policy guaranteeing to pay a stated amount if the unborn heir to the throne is not a son or not a daughter, as the case may be. In marine centers it is a common practice to issue an insurance policy on the probability of an overdue vessel eventually arriving in port or never arriving, the company being willing to take either end of the proposition at specified rates, as the purchaser desires.

Most Unusual Request. One of the most unusual requests for insurance ever made to the Peter White Insurance Company came from the Menominee County Fair association last year. They asked for rates of insurance guaranteeing their receipts against any shrinkage that might be incurred because of rain and unfavorable weather. The request was turned over to one of the central offices of a large insurance company, and it is not known here what was done with it there. In this age, however, it is possible to insure against almost anything, possibility excepting a decline in the stocks and securities market.

COMPANIONS WILL HELP SCALPED GIRL

Washington, Feb. 4.—Volunteers are appearing among young women employes of the census bureau willing to surrender generous pieces of cuticle for the relief of their co-worker, Miss Alice V. Houghton, who was scalped by the shafting of her tabulating machine at the bureau. Should it be found that the operation by which her scalp has been replaced is not successful, they will be called upon to contribute.

Miss Houghton dropped a census card. She stooped to pick it from the floor, lost her balance and fell, her hair becoming entangled in the shafting.

JOY GIVES 500,000 TO PRESBYTERIANS

The Detroit News says that by the will of the late James Joy of Detroit nearly \$500,000 is to pass eventually under the control of the Detroit presbytery and the Fort Street Presbyterian church of Detroit. The widow gets a life interest in the estate, which is valued at \$530,000, and at her death certain bequests of about \$130,000 are to be paid before the residue goes into the hands of the two religious bodies mentioned. Among the bequests mentioned is \$10,000 to the board of foreign missions of the Presbyterian church in the United States.
