## LEW A. CATES HITS IT RICH

### Former Escanaba Newspaper Man is Reported to Have Discovered an Extensive and Valuable Body of Cinnebar Ore at Cottage Grove, Oregon--The Story.

Lew A. Cates, formerly a newspaper man, where he conducted the *Iron Port* for a number of years, is reported to have "struck it rich" out in Oregon, in which state he has been located for some time.

According to a report published in a Portland (Ore.) paper, Mr. Cates the latter part of last December discovered a valuable body of cinnebar ore within the limits of the city in which he lives and as a result is likely to add considerable to his store of worldly wealth.

Mr. Cates is very well known in Escanaba and throughout the county, and this news relative to his good fortune will be of exceptional interest to his local friends and acquaintances. Mr. Cates is the father of Harry Cates, foreman of the Escanaba Journal office.

Following is the story of Mr. Cates' find as related in the Portland paper already referred to:

#### Story of the Discovery.

"An extensive body of cinnebar ore has been discovered at Gowdysville, almost within the city limits of Cottage Grove. Great bluffs of the ore are in sight of the public road south of the Odd Fellows' Cemetery. The big fissure veins runs diagonally across the southwestern portion of the burial place and on across the mountain where mammoth boulders are broken and slid down the mountain side.

"The discovery was made by Lew A. Cates, who accidentally stumbled over a piece of the rock, containing mercuric sulphides, visible to the naked eye, while he was in that vicinity December 24, to gather a Christmas tree for a child friend.

"Mr. Cates will call the property the Yuletide mine, and is planning to organize the Yuletide Mining, Milling & Reduction company, negotiations for options to the land being under way.

"Unlimited quantities of the treated ores can be used for filling low grounds and dyking Silk Creek and Coast Fork river, near the property and within the city limits. Whitman Gowdy, one of the pioneer residents of Cottage Grove, is, by government grant, owner of that portion of the claim nearest the city."

## KEPT HIS SALOON OPEN ON SUNDAY

### That is the Charge Brought Against John Magnuson, a Local Liquor Dealer—He is Arraigned, Waives Examination and is Bound Over for Trial in Circuit Court.

John Magnuson, who conducts a saloon at 1200 Ludington street, was arraigned in Justice Linden's court this forenoon on a charge of having had his place open for business last Sunday. Magnuson waived examination and was held for trial in circuit court under bonds of \$200, which he furnished himself.

Magnuson's arrest followed developments in the case of Frank Dromant, a bartender, who was arrested Monday upon complaint of one John Smith, who declared that Dromant had assaulted him with a chisel, the alleged assault being committed in Magnuson's saloon last Sunday.

Dromant was arraigned and had his hearing before Justice Linden Monday afternoon on a charge of assault with intent to do great bodily harm, but the justice has not yet rendered his decision in the matter. There appears to be no foundation for the charge that Smith was robbed of \$60 in connection with the alleged assault.

No public observance of the day has been arranged in Escanaba, but there will be a number of private celebrations in honor of the immortal Washington.

## BEVERIDGE GOES TO VITAL QUESTION

### Indiana Senator Makes a Vigorous Reply to the Speeches of Senator Bailey and Other Senators Who are Seeking to Defend Senator Lorimer's Election.

(By Associated Press.)  
Washington, Feb. 21.—Senator Beveridge of Indiana addressed the senate today on the Lorimer case. In the main Mr. Beveridge's speech was a reply to the recent addresses of Senator Bailey of Texas and other members of the committee on privileges and elections in defense of Senator Lorimer.

Going to the heart of the question, Senator Beveridge attacked the validity of the Illinois senator's election. He contended that a sufficient number of members of the Illinois Legislature had been tainted to render Lorimer's success the result of corruption, and he urged the adoption of his resolution vacating Lorimer's seat.

The speaker appealed to the senators to regard the case from the standpoint of justice and not to be influenced by their feelings or by the eloquence of other senators.

"It is the integrity of the election and not that of the member that must determine our votes," said Senator Beveridge, "and we must decide the question upon its merits."

Senator Beveridge discussed the testimony in the case and declared that "there's more proof of guilt here of every kind required than frequently happens in any case tried in the courts."

He contended that at least seven votes cast for Lorimer had been tainted. He was not able to understand, he said, how anybody could conclude no bribery had been proved, as the majority of the committee for its failure to give due consideration to the confessions of legislators who said they had been bribed.

Senator J. C. Burrows of Michigan, chairman of the committee on privileges and elections, announced today that if no other senator desired to speak, he would ask the senate to vote on Senator Lorimer's case tomorrow at the conclusion of Lorimer's speech of defense.

The services were largely attended and the remains were followed to St. Joseph's cemetery by a long cortege. Six cousins of the deceased acted as pall-bearers. These were: Paul Groos, Louis Groos, Michael and Jacob Bink, Henry Buchholz and John Lemmer. The honorary pall-bearers were: Miss Mary Bink, Miss Anna Abenstein, Miss Rose Welch, Miss Clara Lang, Miss Anna Seidl and Miss Rose Dupuis. There were many beautiful floral tributes.

## FIXES LAW OF THE COUNTRY

### U. S. Supreme Court Hands Down Decisions of Far-Reaching Importance and Establishes Vindicating Controverted Principles—Summary of Cases.

(By Associated Press.)  
Washington, Feb. 21.—Not for years have so many far-reaching principles relating to interstate commerce been approved by the United States supreme court as were established in its decisions yesterday as unquestioned law of the land. Decisions on a number of other difficult questions were announced. Among the questions of interstate commerce decided were these:

### That a passenger has no right to buy tickets with services, advertising, releases or property, nor can the railroad company buy services, advertising, releases or property, with transportation.

A contract between the so-called Monon route and the Frank A. Munsey company gave rise to the principal case. By the terms of the contract, the Monon route was to get one page of advertising in Munsey's magazine in exchange for \$500 worth of transportation. The government claimed that this was in violation of the Hepburn rate law enacted in 1906, and asked the court to enjoin the railroad from issuing transportation. The United States circuit court for the northern district of Illinois granted the relief asked by the government. The supreme court today affirmed this decision.

### Railroad Crew Law Sustained.

The court also decided that interstate railroads cannot issue passes for interstate transportation, even though they had contracts to do so before the passage of the Hepburn rate law.

The court further decided that the Arkansas state law regulating the size of crews on trains within the state is not an obstruction to interstate commerce, but is rather enacted in aid of interstate commerce and may be passed by a state for the public safety.

The court decided that it will review the validity of an order of the interstate commerce commission, even though the two-year limitation of the order has expired.

That the interstate commerce commission does not possess the power to reduce a rate "as unjust and unreasonable," merely because the rate is inequitable under some circumstances as in cases where railroads have induced shippers to enter a field by offering rates so low as to be unremunerative and later have increased the rates, was another decision.

### Famous Boycott Case Dismissed.

The constitutionality of the law of Iowa passed in 1898, enabling an employee of the operating departments of a railroad to sue a railroad for injury, notwithstanding the fact that he had received injury benefit from an aid department supported partially by the road was upheld.

The famous boycott case brought in the local court by the Buicks Store and Range company of St. Louis against the American Federation of Labor was formally dismissed.

The officials of the Naval Stores company were granted a review of their conviction of an alleged violation of the Sherman anti-trust law.

No decision was rendered in the supreme court either in the Standard Oil dissolution suit, the Tobacco corporation dissolution suit, the corporation tax cases or the American Federation of Labor contempt case.

In the evening the visitors were tendered a banquet at the Hotel Memominee. The principal speaker at this function was President Wojta of the Memominee County Agricultural school, who spoke on "The Upper Peninsula—What It Can Do for You."

Most of the editors remained in Memominee today to attend the meeting called for the organization of an Upper Peninsula Development Bureau.

NATURE TOO MUCH FOR THEM.

The consumers of this country are chuckling to themselves these days, over the plight in which the speculators in food-stuffs have found themselves.

Old Mother Nature has done the trick, and the food speculators have been put to rout. In the great agricultural regions there has been nothing much so far that has savored of winter weather.

The men who had speculated in these products had gone their limit. They couldn't take care of the new products that were coming in.

Cold storage is a great thing, an almost necessary thing in these days of complex civilization and complex trade.

George Griscom Jr. has come home to help find Miss Arnold. If she is like the average girl, a personal in the newspapers inviting her out for ice cream soda might be successful.

Count Apponyi, the Hungarian, addressed Congress a few days ago, but careful observers have not seen any betterment in his conduct since that time.

The ordinary lover is embarrassed when he has to haul his small brother out from under the sofa, but George S. Griscom must court Miss Arnold with 90,000,000 people looking on.

Senator Heyburn wants to popularize the Congressional record. The first step would be to add a column on beauty hints and card party etiquette.

FOUNDATION PERSIAN CLOTH.

Pillow Tops, Hat Crowns and Even Dress Trimmings Are Smart and Up to the Minute When Carried Out in the New Embroidery.

Canvas work has the advantage of being quickly wrought, and this is to many workers a very important quality. There are always new kinds of canvas cloths available for the novelty hunter, and many of the latest are sufficient to bring canvas embroidery into greater prominence than ever.

So far as threads go, either silk, cotton, embroidery flax or wool may be used on any of the regular types of foundation material and check can

work, while for a new effect a design worked in crevel wools on Persian canvas is to be recommended where richness in coloring is desired.

The second illustration shows a design on Persian canvas, which is also supplied to a variety of colors, including pale blue, pale green, olive and biscuit.

stitches from the centers of the flowers and also the French knots are worked in yellow. The canvas work may be finished off by buttonhole stitch and crocheted edging, according to the fancy of the embroiderer.

As tapestry effects all through the dress world nowadays are considered very smart, this work will come in conveniently to the home worker for adorning not only household belongings, but for dress trimmings to be used on her spring frocks and suits.

ROMANCE DISPELLED BY THE COLD FACTS

Marinette Man Says There is no "Lost Treasure" Near Hat Island--His Story.

There will be no hunting for "lost treasure" in the vicinity of Hat Island near Egg Harbor and Fish Creek. The main reason for it is that there is no "lost treasure" in the waters there.

The report of the organization of a searching party for the purpose of recovering the "treasure" came from Fish Creek. George Rathbun, sanitary inspector of Marinette, knows something about this matter for he was right on the spot during the time that the iron in the Carrington was recovered.

The schooner Carrington did founder in 1876 as stated on her way to Green Bay to Chicago with iron in her hold and a deck load of shingles. She went on the big reef of Hat Island where there is

so much bass fishing. The deck load of shingles floated away and most of them were picked up by the farmers. Many of the homes now standing in Fish Creek were shingled from the stock that went ashore from the boat. The schooner with the iron in her hold remained on the reef until the following winter when a party of men, including a diver came from Cleveland, Ohio, to recover the iron.

SAV OCEAN TRAVEL WILL BEAT RECORDS

New York, Feb. 21.—According to a representative of the trans-Atlantic lines the advance bookings for next season give every indication that travel to Europe will be greater than ever before.

Between Jan. 1 and Sept. 1 of last year 175,000 cabin and 210,000 steerage trans-Atlantic passengers sailed from this port. These figures are likely to be surpassed this year in the first and second classes, and there is reason to believe that the steerage travel also will be heavy.

Trick With Figures.—Ask some one to choose any number on the clock and add it to the number directly opposite. This is to be done to himself, not out loud. Then tell him to imagine these two numbers are joined by a line, and that another line is drawn at right angles to the first line, so that a cross is formed. Tell the person to add together the two numbers at the ends of this second line; then to find the difference between their sum and the sum of the first two numbers. Then announce that you can tell the result. No matter what figure on the clock face has been first chosen, if the addition is correct, the result will be six. Try it.

Sympathy.—"Poor little girl!" the ladies say. "See, she's dressed in the queerest way—No smooth feathers, no pretty things, And, oh, the dear, she has no wings!" "Yes," said the bunny, "how sad for her! She has no ears and no soft, warm fur, And the way she runs on her funny feet Even a baby of mine could beat."

Remember The Name.—Foley's Honey and Tar for all coughs and colds, for croup, bronchitis, hoarseness and for racking lagrippe coughs. No opiates. Refuse substitutes. Sold by all druggists.

RUNABOUT BANK IS LATEST THING OUT

Paterson, N. J., Feb. 21.—An automobile bank, said to be fireproof, bullet-proof, burglar-proof, and capable of fifty miles an hour, was shown in Paterson. It belongs to a trust company here.

The car is fitted with a desk and other office equipment, a steel safe built in, a small armory of firearms and a window strongly guarded with bars. The whole is painted steel color.

Officials of the trust company believe that this novel "bank" will greatly convenience country depositors, especially those who have no place for keeping cash and other valuables.

Attorney General Carmody of New York has inaugurated a crusade against sausage makers of the state who violate the pure food law. He has sent notices that they will be subjected to a fine of \$50 for each offense.

Danville, Ill., Feb. 21.—Thomas A. Hudson of this city, sent to the treasury department at Washington for redemption of a bill which was authorized by the continental congress and which was printed in 1779. TWO PRIMARIES THIS SPRING, IT IS SAID

According to advices from Lansing, it will be necessary to hold two primaries this spring without a doubt. The bill of Representative Flowers, which it was intended to push through in time to combine the judicial and general primaries, was claimed to have a joker attached by which unregistered women might vote and the Detroit delegation immediately got after it.

The result is the bill has been held up in the senate and with Representative Flowers ill for a whole week nothing was done. It is now a legal impossibility to hold the primary March 1, as intended and it is considered probable nothing can be done in time to affect this spring's elections at all.

MARSHALL KEEPS HIS TITLE Frank J. Marshall, Present Chess Champion, Wins Out in National Tourney by Half Point.

By half a point Frank J. Marshall, who was already champion of the United States, won the national chess masters' tournament, which had been in progress in New York for two weeks. His final game was drawn with Kreymborg, making his score 10 points

out of a possible 13, or 8 wins and 4 drawn games in the tournament. He did not lose a game.

The magnificent finish by the Cuban champion, Jose R. Capablanca, reduced Marshall's margin to half a point. By winning from Paul Johner on Friday the Cuban finished in second position.

**SPECIAL TRAIN SMASHES RECORD**  
(By Associated Press.)  
New York, Feb. 21.—A record fast long distance travel by train was made by the arrival here last night of Charles G. Gates, son of John W. Gates, the New York financier, who completed a dash of nearly 3,000 miles across the continent to obtain expert treatment for a case of blood poisoning.  
The reports given out upon the arrival of the train at the Grand Central station at 10:49 o'clock last night were that Mr. Gates was in a better condition than when he started on the hurried trip east.  
Mr. Gates was so alarmed over an infection of a bruise on his leg while traveling in the west last week that he offered \$5,000 for a special train to New York. He started at Yuma, Ariz.

In making note of this fact the Menominee Herald-Leader says:

He has chosen as his subject on that occasion, 'The Church and Its Critics.' He is a brilliant speaker, and is capable of handling his subject well. He has held the pastorate of the M. **GETS WOODMEN APPOINTMENTS**  
Director Charles J. Byrns of Ishpeming Lands Nice Positions For Five Michigan Men While Attending a Business Session of the Head Camp—Details.  
C. J. Byrns, director of the Modern Woodmen of America, has returned to his home in Ishpeming from Rock Island, Ill., where he attended a business session of the executive council. At this meeting the appointments for positions during the session of the head camp, which is to be held in Buffalo next June, were made, and Mr. Byrns succeeded in securing places for five members of the society in Michigan, among them being Stephen H. Collick of Ishpeming, who will hold the important position of chief of the postal service at the military encampment, which will be attended by from 10,000 to 15,000 uniformed men.  
The other appointees are Maj. Samuel Schultz of Grand Rapids, who will serve in the inspector general's department; Maj. George D. Laurium of Kalamazoo, who will also have work in the inspector general's department; Capt. Guy A. Crawford of Ionia, who will be a military clerk in the adjutant general's office, and Capt. Charles Clark of Lansing, who will also be on duty in the adjutant general's department.  
Mr. Byrns says that the forthcoming meeting will be by far the largest that the Woodmen have ever held. The order has had a most phenomenal growth in membership since the last head camp meeting three years ago next June and there will be a large increase in the number of delegates in attendance. It is expected that the Michigan delegation will be instructed by the state camp, meeting at Sault Ste. Marie in May, to stand solidly back of E. J. Bullard, the present state deputy, for the position of director, to succeed Mr. Byrns.

None of her equipment will be removed and all of her engines and guns will remain in place. The vessel probably will leave for the test about March 15.

**ORIGINALITY IN BEDROOM.**  
Suggestions For Bright Rooms and Those Without Sunlight.  
Every woman should have a pretty bedroom and should see that it is not the duplicate of many others, but has some touch of originality about its color schemes and decorations that set it apart as individual to herself.  
For a room which receives all the sunshine never choose a shiny paper, but a dull finished one. A gray bedroom may sound colorless at first hearing, but one of the prettiest rooms was carried out in this neutral shade.  
First of all, the walls were tinted a delicate pale gray with a warm tinge in it, and the ceiling, which was brought down to the picture molding, was white. A paneled effect was given on the wall by means of stenciling in soft shades of lilac and green with soft browns, thus taking away any suggestion of monotony.  
Gray enameled furniture further carried out the scheme, and the cushions, bedspread, curtains and table covers were all of gray linen stenciled in the same hues as the walls, while the rugs that covered the stained gray floor were gray green in color. The mirror that hung on the wall furnished a note of contrast in its framework of dull gold, and the pictures on the walls completed the harmony in their setting of gray stained wood and white enamel.  
Another excellent scheme for a bedroom may be carried out in the following way:  
Walls of soft cream color, stenciled design in soft pinky mauve shades.  
Hangings of ash or of rose. Bed and furniture of waterwork stained a soft brownish purple.  
Bands of cream colored linen with the stenciled designs may be applied on to all the hangings of the room, such as the curtains and table covers, and the rugs on the floor may be of soft oriental colors.

**PUT SODA FOUNTAINS UNDER HIS CONTROL**  
Food Commissioner Dame Proposes to Make Places Where Fountains are Operated Clean and Sanitary—Attendants Must Wear Clean Clothes—An Inspection.  
Lansing, Mich., Feb. 21.—Gilman M. Dame, state dairy and food commissioner, is to have introduced a bill sweeping in character and which it is intended will give him absolute control over soda fountains from a standpoint of sanitation. Mr. Dame does not like the practice of merely rinsing glasses at soda fountains in a tank of water which soon becomes foul. He appreciates fully that by this means disease may easily be communicated from the mouth of one person to that of another and proposes to have power to put an utter stop to this method of washing glasses.  
"I am also going to make attendants at fountains wear clean clothes," he adds. "They must be clean if they have to change their coats 40 times a day. They are serving the public and the public is entitled to cleanliness."  
Mr. Dame is now making a thorough inspection of all candy shops, bakeries, fountains and similar institutions and will make everybody clean up or close up. His attention is right now turned to the larger cities, but he proposes going through the state with his inspection.

**THE PETERSON**—Merely Mary Jane" was presented at the Peterson last night by the Flora DeVos company to a fair-sized and appreciative audience. The play is an old but interesting one and as presented by this company gives good entertainment. Between the acts some clever specialties were introduced. The company closes its engagement here this evening with a presentation of "The Bandit," which is said to be a stirring play of the west.

**THE PETERSON**—The Sault Ste. Marie Evening News of a recent date had the following notice of the Juvenile Bostonians, who are booked to appear at the Peterson tomorrow (Wednesday) evening:  
The Knights of Pythias are to be congratulated on the quality of the production which was given last night under their auspices at the Grand Opera house by the Juvenile Bostonians. The musical comedy "The Ransom" had not been under way for more than a few minutes when the crowded house placed the mark of approval on it by demanding repeated encores. Every girl engaged in the production is an artist, which makes it difficult to individualize, but Doris Canfield in the difficult character part of a sweet English tourist made a decided hit, as did Thom Hellen in the character of Pedro, the gypsy lover. Her singing of "Mona" was an artistic triumph. The show is brimful of fun, clever dancing, witticisms and song, the latter being one of the prominent portions of the show. All the songs are new, and for the most part were written especially for the Juvenile Bostonians.

**STAYS IN JAIL ONLY HALF OF EACH DAY**

"If that man's real desire is to support his family I will give him a chance," the judge said. "He may work in the daytime and serve his sentence in jail at night."

### ASQUITH OFFERS IMPORTANT BILL

(By Associated Press.)  
London, Feb. 21.—A government bill to abolish the veto power of the lords which, if passed as it stands, promises to accomplish a historic change in the parliamentary system of Great Britain, was introduced in the house of commons today by Premier Asquith.

Brother Jonathan.  
It seems strange to speak of the United States as "Brother Jonathan," and the wonder is how it ever began, but on inquiring into the matter we find that the custom arose from a remark made by General Washington at the beginning of the Revolutionary war. On going to Massachusetts to organize the army he found it scant of ammunition and all means of defense, and no one would suggest any way out of the difficulty. Something must be done at once for the public safety, and General Washington, who had great confidence in the judgment of Governor Jonathan Trumbull of Connecticut, said in this dilemma: "We must consult Brother Jonathan on the subject." Brother Jonathan was equal to the occasion and supplied many of the lacking necessities, and afterward during the war it became the custom in any emergency to say, "We must consult Brother Jonathan." In time the name became applied to the whole country, and it is pleasant to know that the great Washington himself was the originator of it.
