J. S. LINDSAY UP FOR MAYOR

Well Known Citizen Probably Will Become the Citizens' Party Candidate for Chief Executive--Taxpayers' Party Looking for a Candidate--Situation.

Municipal politics is wide awake last and from now until the election early in April there will be something doing pretty much all the time, if indications count for anything. Interest, of course, centers upon the probable candidates for mayor. The taxpayers' party held a meeting Wednesday evening and appointed a committee to find a suitable candidate for the office, and the Citizens' party, although it has not yet held a meeting as nevertheless been busy. As a result of the activity of members of the Citizens' party it is now expected that John S. Lindsay, well known and leading building contractor, will be the standard bearer of that party for the office of mayor the coming year. A petition is now being circulated requesting Mr. Lindsay to accept the nomination, and it is said that he has artfully consented to do so. However, the circulation of the petition will be continued until there are a thousand names on it, if necessary, in order to get Mr. Lindsay's consent to become a candidate.

Received With Favor. It has been rumored about the city for the past two days that Mr. Lindsay probably would be the nominee of the Citizens' party for mayor and the report has been enthusiastically received by his friends and acquaintances. From all The Mirror can learn, the favorable comment upon his prospective candidacy is not confined to any one class of citizens, but the sentiment among all classes appears to be that Mr. Lindsay will come nearest to being the harmonizer of any in the city. Commenting upon the report that Mr. Lindsay would probably be a candidate for mayor, a prominent business man said: "Mr. Lindsay would make an ideal candidate. He is a man of strict honesty and integrity, and he is honored and respected as one of Escanaba's best and most substantial citizens. "He stands especially well with the labor unions connected with the building trades. He probably employs more union men than any other person in Escanaba, and his relations with the unions and with their members have always been the most

(Continued on Page Six.)

NEW STORE WILL BE ESTABLISHED HERE

Milton F. Freid of Chicago and Chester A. Schram of This City Form a Partnership and Will Engage in Business in Escanaba--To Open "The Bargain Store."

Escanaba is to have another business place established by young men who are ambitious of getting along in the world. Milton F. Freid of Chicago and his cousin, Chester A. Schram of this city, have formed a partnership and will within a few weeks open a place of business to be known as "The Bargain Store." They have already purchased a complete stock of goods and will install it in the store just adjoining the Kratz Bros. lower stores on the west, and which was recently vacated by Kratz Bros. They expect to have the store open for business the latter part of this month. Mr. Schram returned this morning from Chicago, where with Mr. Freid he has been for the past ten days being purchasing the stock that they will carry. This will include every kind of household goods and furnishings and everything usually to be found in a variety store. Mr. Schram, the junior member of the firm, is exceedingly well known in Escanaba and vicinity. He was born and brought up here and has for the last seven years held a responsible position with the Fair Savings Bank store. His friends will applaud his decision to go into business for himself and predict that he will make good. Mr. Freid has for a number of years been connected with some of the largest stores in Chicago and is thoroughly conversant with business affairs and how to conduct them in the line in which he is to engage with Mr. Schram.

SENATE IS AGAIN IN TANGLE

(By Associated Press.) Washington, March 2.--Within half an hour after convening today the senate decided by a vote of 55 to 23 to set aside the appropriation bills and take up the bill creating a permanent tariff board. The Democrats immediately entered upon a filibuster and announcing their intention to continue it indefinitely. Senator Bankhead's proposition that debate on the tariff board be set aside and the postoffice appropriation be taken up was lost. The Democrats proposed to vote on the tariff board bill at two o'clock and on reciprocity at three. The Republicans refused to consent. Senator Simmon's request for unanimous consent to take up appropriation bills was objected to by Senator Beveridge. Extra Session Almost Sure. Word of informal, but decidedly definite character, that nothing but approval by the senate of the Canadian reciprocity agreement could avert an extra session of congress, reached the capitol today. It was said on authority, more than creditable that falling such action by the senate, the call for the extra session will be given by President Taft before the adjournment of the present session.

SIDEWALKS OF CITY MENACE TO SAFETY

Their Condition is a Disgrace Not Only to the Citizens of Escanaba, but to the Municipal Authorities--Covered With Ice and Full of Danger to Pedestrians. Upon several occasions this winter The Mirror has called attention to the dangerous condition of ice-covered walks throughout the city and urged the people to do something to make them safer. Some citizens have had proper consideration and regard for the rights and safety of others and have either taken the pains to clear their sidewalks of ice or to sprinkle their slippery surfaces with sand and ashes, but most of them have not. The sidewalks of the city today are in a disgraceful condition and a menace to public safety. No persons walking upon them are safe from harm and it is small wonder that they are obliged to walk in the middle of the streets as a measure of protection from falling and possible bruises or broken bones. People who permit their walks to remain in the dangerous condition they are now are guilty of nothing less than criminal carelessness and the city officials who continue to allow such a condition to exist are no less guilty. (Continued on Page Six.)

PYTHIAN KNIGHTS ENJOY THEMSELVES

They Held a "Roll Call" Meeting and Incidentally Observe the Forty-third Anniversary of the Founding of Their Order--Program is Full of Features. Wednesday evening the members of Escanaba Lodge No. 98 of the Knights of Pythias enjoyed a notable and thoroughly delightful occasion. Besides holding their annual "roll call" meeting, at which responses were made by about 70 Knights, they partook of a fine banquet prepared and served by the Pythian Sisters and celebrated the forty-third anniversary of the founding of their order. The banquet was served at 6:30 o'clock and was followed by the regular work of the evening and the features of entertainment. With but two exceptions the program was carried out as previously arranged. Because of the absence of Prosecuting Attorney Torval E. Strom, who is at Saginaw attending the Republican state convention, the address on "The Past Year" was delivered by F. L. Baldwin and in place of an address by Stanley M. Matthews on "The Silent One," an impromptu talk was given by Mr. Peets of Hermansville. The other numbers on the program were addresses on "What Will We Do This Year?" H. J. Rushton; "Escanaba Lodge," Rev. Frederick Spence; "Past Chancellors," C. G. Swan; "Our Absent Brothers," I. C. Jennings; "Our Grand Lodge," Deputy Grand Chancellor A. E. Sharpe of Sault Ste Marie. Roll call followed the responses to toasts and then came the conferring of the Knight rank. All of the talks were particularly appropriate to the occasion and highly interesting. In the course of his remarks Deputy Grand Chancellor Sharpe complimented Escanaba lodge for the interest taken in its proceedings and for the excellence of its lodge work. Mr. Sharpe conducted the work in the third rank.

DEMOCRATS IN HARMONY MEET

State Convention at Muskegon Makes Nominations for State Offices by Unanimous Vote--National and State Administrations Scored in Platform.

Muskegon, Mich., March 2.--The Democratic state convention here yesterday nominated the following ticket: Two justices of the supreme court--John E. Kinnane of Bay City and H. A. Sanford of Mount Pleasant. Two regents of the university--John W. Anderson of Detroit and Dr. Henry S. Kremers of Holland. Two members of the state board of agriculture--John A. Weston of Lansing and A. F. Stevenson of Port Huron. Member of the state board of education--Dr. James A. King of Manistee. Superintendent of public instruction--Professor John B. Cleveland of Muskegon. The nominations were unanimous. The interest was chiefly upon the convention platform and especially upon the Canadian reciprocity plank, which was adopted unanimously after a heated debate. Federal Administration "Knocked." Upon the question of reciprocity, the platform as adopted says: "Having been repudiated by the people throughout the country at the last election, the national administration is now seeking to escape from its factually wrong position on the tariff by a movement to establish reciprocity with Canada. "We recognize the merits embodied in the true principle of reciprocity, properly applied, in connection with a concurrent downward revision of the tariff, and we commend the statesmanship of the Democratic representatives in congress who rose above partisanship in connection with the pending treaty. "We declare that we have full confidence that the Democratic house of representatives will promptly enact measures for the downward revision of the tariff on such commodities and products as will remove the discrimination and make the tariff equitable for all classes. The Legislature Grilled. The platform reaffirms the belief of the party in the initiative referendum and recall, and charges the Republican state legislature with "pitiable inactivity," declaring that the grand total of the legislative enactment thus far is an "immunity bill, which seems to be the variety of enactment just now appropriate to and popular with the Republican party."

JUST 81 VOTES CAST AT THE PRIMARY

Perhaps the lightest vote ever cast at an election in Escanaba since it became a city was that recorded at Wednesday's primary for the nomination of candidates for circuit judge. There were cast in the seven wards of the city just 81 votes and all of these were for Judge Richard C. Flannigan, who had no opposition. Republicans and Democrats alike voted for Judge Flannigan, who was unanimously chosen as the candidate in every county in this judicial circuit. The vote in the Gladstone and country precincts of the county was also exceedingly light. The vote cast in each ward of the city follows: First, 10; Second, 13; Third, 10; Fourth, 17; Fifth, 14; Sixth, 11; Seventh, 6.

SURPRISED BY FELLOW MEMBERS

Following the regular meeting of the Danish Brotherhood in North Star hall Wednesday evening the members of that organization gave a farewell surprise party to Mr. and Mrs. H. C. Sorby, who are to leave Friday evening for their new home in Minneapolis. Mr. and Mrs. Sorby are members of the local branch of the Danish Brotherhood and their coming departure is greatly regretted by their fellow members. There was a general good time, with music and dancing as part of the entertainment, and refreshments were served. Mrs. Sorby was further surprised by being presented with a set of silver forks and spoons from the members of the Brotherhood. YEGGS CRACK A BANK AND GET AWAY WITH BIG SUM. (By Associated Press.) Marion, Ind., March 2.--The safe in the Farmers' State bank at Matthews was blown open last night by robbers who escaped with from \$3,000 to \$5,000.

WHO KNOWS WHERE A. SCHOFIELD IS?

Chief of Police Iverson has received from William Schofield of Baraga a request for assistance in locating his brother, Anthony Schofield, better known as "Toney," whose whereabouts is unknown. His mother is critically ill and is continually calling for her son that she may see him again before she dies. Mr. Schofield writes that his brother was working at the time they last heard from him in a lumber camp near Wisconsin and that he was in the habit of frequently coming to Escanaba, where he stayed at a Ludington street boarding house. Chief Iverson will be pleased to receive any information that will reveal the whereabouts of Anthony Schofield or to have anybody inform Schofield that his mother is very ill and desires to see him.

ROBERT M'ALPINE DIES IN INDIANA

(By Associated Press.) Marinette, Wis., March 2.--Robert McAlpine, aged 76 years, a former resident of this city and the builder of several paper mills in this vicinity is dead at the home of his son, at South Bend, Indiana.

CATHOLIC COLLEGE BURNS; ALL ESCAPE

(By Associated Press.) Plainfield, N. J., March 2.--The main building of St. Mary's Roman Catholic college at Watchung burned today with a loss of \$200,000. At the time of the fire there were 250 students and sisters in the building, but all of them got out safely.

OSBORN CONDEMNS THE U. S. SENATE

(By Associated Press.) Saginaw, Mich., March 2.--Governor Osborn opened the state Republican convention here today with a speech condemning the United States senate for voting to allow Senator Lorimer to retain his seat and strongly endorsing President Taft's reciprocity policy.

BALFOUR IS BITTER; ASQUITH DEFENDS

(By Associated Press.) London, England, March 2.--The commons were crowded today on the occasion of the conclusion of the second reading stage of the veto bill. Balfour bitterly attacked the proposition and Premier Asquith spoke warmly in its defense.

STATE REPUBLICANS HOLD CONVENTION

(By Associated Press.) Saginaw, Mich., March 2.--The state Republican convention met here today to nominate a state ticket. Former Mayor Codd of Detroit is chairman of the convention, which probably will not complete its work until late this afternoon or tonight. Reciprocity is overshadowing all other questions relating to the platform. The farmer delegates were generally counted as opposed to the Canadian agreement and the city delegates in favor. Chester A. Schram returned this morning from a ten days' visit in Chicago.

STOCKHOLDERS OF OSCEOLA CAN MEET

(By Associated Press.) Boston, Mass., March 2.--When the text of the temporary injunction issued at Grand Rapids, Mich., yesterday restraining the Calumet & Hecla Mining company from absorbing the Osceola Mining company, was received here today it was found that it did not forbid the holding of a special meeting of the Osceola stockholders in this city on March 9th. At that time the question of accepting the offer of the Calumet & Hecla company, will be acted upon by the stockholders. During the two following days eight other companies which the Calumet & Hecla seeks to absorb will hold similar meetings.

CHURCH CONCERT GIVES PLEASURE

Several hundred people attended the piano-player and victrola concert given in the Swedish Mission church Wednesday evening and they were most excellently entertained, while at the same time the church building fund received a substantial addition through their patronage. Besides high class selections rendered by a piano-player and a victrola, furnished and operated by Manager F. E. LeVine of Grinnell Bros' store, the program included two splendid baritone solos by Rev. C. A. Hognander, two choruses sung by the Swedish Mission church choir and a declamation by Miss Mabel Rose. Every number on the program was thoroughly enjoyed by the large audience, and the remarks made by Rev. Mr. Hognander in reference to the concert and its purposes also constituted an interesting feature.

COLLEGE STUDENTS TO ENTERTAIN HERE

The students of the Michigan College of Mines at Houghton have in existence a clever musical and dramatic combination which every spring make a tour of cities in the northwest, not too far away to make traveling expenses eat up all the profits. The itinerary for the trip this spring has practically been arranged and it includes Escanaba. The date of the troupe's appearance here will be May 3. Marquette and Menominee will also be played.

UPPER PENINSULA HAS SPLENDID FUTURE

Deputy Master D. E. McClure of the State Grange Sees Great Industrial Progress.

D. E. McClure, deputy master of the state grange, who recently made a speaking tour through the upper peninsula, upon the conclusion of his trip said:

"I was in the upper peninsula two weeks speaking at grange, teachers' and businessmen's meetings and I am sure I learned more than I imparted. I had a good opportunity to study agricultural, commercial, educational and sociological conditions, and it requires all these to spell business, permanent business conditions.

"In general, people know as little about upper peninsula life as Columbus knew of the great discovery he made in 1492. They know by looking upon the map that the upper peninsula belongs to Michigan; that it is noted for its iron and copper mines, for its lumber and hardwood interests. They have been told and led to believe that outside of these interests snow, ice and half savage inhabitants abound up there.

Most Inviting Field.

"The facts are the upper peninsula of Michigan presents a most inviting field for the home seeker, men who wish to get a farm, build a home. This great section, well watered, with forests of hardwood, well stocked with game, the creeks and lakes abounding in fish, presents opportu-

nities nowhere else found to secure a home, to get a farm. Here you do not have to undergo the privations and hardships of pioneer life for you come into a country with the best market facilities, school advantages, transportation privileges. Its marketing facilities are due to the many lake harbors but a few hours' distance from Chicago, and, through Chicago, to the east and west.

Schools Out of School.

"The upper peninsula is renowned for its good educational advantages. In Menominee county is located the only county school of agriculture and domestic economy in the state. Last year 1,522 students took the short-term course in agriculture. Chippewa county is now engaged in building a similar institution. In addition to the splendid high schools in the many cities, the rural schools in the best in the land. In the upper peninsula are 100 granges, associations of the Patrons of Husbandry, and 4,000 grangers.

"These granges are the great schools out of school, are real social centers where the farmer and his family meet the teachers and businessmen; enjoy the social uplift, the privilege of cooperative buying and selling, have the cheapest and best fire insurance in the land. Why

should men go to the northwest for farms to make home when there is room for tens of thousands of good farms in the upper peninsula farms that can be had at reasonable prices, on reasonable terms for payment? In the upper peninsula I saw some of the best potatoes, other root crops. It is a great grass growing country, hence admirably adapted for the dairy business which is being rapidly developed; a good region for oats and wheat; a great region for strawberries and other small fruits.

Mentions Delta County People.

"The upper peninsula was discovered and is being developed by the farmers. There are 5,000 farms, real and timber farmers occupy them, the latter devoting about one-third of his time and energy to his farm. There is room for 100,000 farms. Why, then, should men go to new frontier countries and build up all the necessities of civilization when they can move into a country where they are already installed?

"We attended a grange, teachers' and businessmen's meeting at Rapid River, Delta county, where there were 400 as bright men and women, boys and girls as could be assembled in any county in Michigan.

The intellectual side of the upper peninsula folk was most strikingly illustrated by Pine Grove and Dafter granges, Chippewa county, in a contest for a prize loving cup. I have seen the grange work exemplified in many state granges, never so well as in this instance.

"My impressions of the upper peninsula most happy, and I believe time will demonstrate the correctness of my viewpoint."

CAPTAIN ENNIS IS GIVEN NEW COMMAND

C. M. Ennes, master of the ill-fated steamer W. C. Moreland which went on Saw-Tooth reef at Eagle River last season, is going to command the new boat that Jones & Laughlin firm is building.

Captain Ennes has many friends in every port on the Great Lakes, and all will be pleased to learn that he will have just as good a vessel this year as is afloat on the lakes. The name of the new craft will be the same as the one wrecked near Eagle River, but friends in Duluth have received word from the captain that it is arranged for him to command the vessel.

MARINETTE LABORER MODEL OF INDUSTRY

Marinette, Wis., March 2.—Purchasing eighty acres of wild land, clearing it, constructing the greater portion of the buildings and bringing up a family of eight children all upon a salary of \$1.50 per day earned by working on a night shift at a local paper mill is one of the most striking records brought out by census enumerators of this state. August Malkowski is the man with this record, and his neat, well kept farm near this city is evidence positive of his frugality and industriousness. He came to this country eight years ago, unable to speak a single word of English. Most of the work on the buildings was done by Malkowski personally during the hours his fellow workmen were sleeping. The farm now is all paid for and Malkowski has quit his position in the mill.

FUTURE TO SEE THE PASSING OF COAL BIN

New York, March 2.—At an electrical dinner at the Montauk club, Brooklyn, Charles W. Price, editor of the Electrical Review, one of the speakers, said:

"I dare make the prediction, based on knowledge of important experiments, that the day is not far distant when the coal pile in the cellar will be replaced by the electrical reservoir of box-like shape and moderate size, to furnish heat throughout the entire building and also to the kitchen in residences for cooking. And this will be done economically compared with coal, as this accumulated electricity will be stored at low cost and be on tap for use when needed. I am hopeful that this may be realized before we meet again one year from now, if we do meet. Then will the coal wagon in front of the house disappear, the furnace caretaker lose his vocation, and the ash man become a reminiscence."

This year is to be the ad-readers' year—every day of it. There is to be an endless procession of opportunities—but not one of them for the non-ad-reader.

FEEDS HIS CATTLE ON TWIGS—NEXT!

Marinette, Wis., March 2.—Cook, a millionaire dairyman and market gardener of this city, has just given out a process by which he makes food for stock of all kinds from the limbs, branches and twigs of trees and shrubs which accumulate during the clearing of lands. The wood is ground into a pulp.

After six months' feeding on wood pulp, Mr. Cook has a dairy herd of 300 cows in excellent condition. They have added flesh, and milk tests show greater returns than before the new method of feeding.

BILL GOES IN TO ABOLISH OIL OFFICE

Lansing, Mich., March 2.—Senator Moriarity has introduced the bill favored by Governor Osborn to abolish the office of state oil inspector and place this work under the direction of the state dairy and food department.

Already a bill has gone in to abolish the office of salt inspector; another to abolish all the board governing the several penal and corrective institutions and the placing of them under one commission of three men; another for the abolition of the several medical boards and the placing of

PRESS AGENT SAYS IT IS GOOD SHOW

Red Waggoner, press representative of "Miss Nobody from Starland," was in Escanaba recently completing arrangements for the appearance of that well-known and popular musical attraction at the Peterson next Sunday evening. Mr. Waggoner was until recently connected with the Detroit Journal. He wishes it understood that this is the only company playing "Miss Nobody from Starland," and it will be seen here precisely as pre-

all of them under the state board of health and still another the abolition of many such boards as the board of examiners of horsehoers.

FORMER WARDEN OF JACKSON FREE

Allan N. Armstrong, ex-warden of Jackson prison, was discharged Wednesday from the Detroit house of correction after having served almost a year and having paid a cash fine a year ago for accepting a bribe of \$100 from General Fred W. Green in relation to prison labor contracts. Armstrong refused to discuss his future plans.

CHAFING DISH

Cookery is no longer a fad. It is a necessity, and how easy to make delicious and appetizing dishes with the aid of Armour & Co's Extract of Beef. All this week, the lady in charge of Armour's exhibit at our store "main floor" will teach you how to use the chafar. She also serves a variety of dainty foods and drinks, free to all. After you have been served at our table we would be pleased to show our new Marquette Silks in plain and novelty effects also a pretty line of Cheney's figured Foulard Silks. ED. ERICKSON CO. 500-57.

TWO ENGLISH PAUPERS HEIRS TO \$1,000,000

Leicester, Eng., March 2.—It is reported that two men living at Blady, a short distance from Leicester, who are drawing a government old age pension of five shillings weekly on account of extreme poverty, have inherited \$1,000,000. The money, so the story goes, was bequeathed them by a brother, Henry Bownes, who died recently at Salt Lake City, Utah.

THE WESTERN CROP OUTLOOK IS GOOD

The weather throughout the West has been such as to insure seeding under most favorable auspices in the spring, according to Prof. Thomas Shaw, agricultural expert.

"The crop outlook in the West in the territory extending from the Red River valley is reasonably good," said Prof. Shaw. "The whole country has been covered with snow and now much depends on how it goes off."

GRANGERS TO HOLD MEETING AT POWERS

Subjects of various interests will be discussed at a meeting of the Charity Pomona Grange at Powers on Friday, March 31. The Upper Peninsula Development Bureau of Michigan will be one of the topics to come under consideration, G. W. McCormick of Menominee being billed for a speech on the subject.

Backache, Rheumatism, Nervousness.

Mean disordered kidneys, Foley Kidney Pills have helped your neighbors; they will also help you. Mrs. C. H. Hanover, Cadillac, Mich., says: "I have used Foley Kidney Pills with the very best of results for backache caused by kidney trouble. Had also nervous headaches especially during morning hours. A few weeks treatment of Foley Kidney Pills completely dispelled all my trouble, curing my backache and stopped those attacks of nervous headaches. Foley Kidney Pills have my highest recommendation." For sale by all druggists.

WIFE NEVER KISSED HIM IN TEN YEARS

Married ten years and never kissed. This is a story based on fact. Arthur T. Trower of South Boston, Mass., is the unlucky individual who has been married ten years and has never been kissed. And that isn't a for Trower has more hard luck start him in the face.

His wife, Emily, who is author for the statement that she has never once kissed her husband during the ten years of their married life, brought contempt of court proceedings against him for failure to pay \$15 week alimony as ordered by the court. She was granted a divorce last month on the ground of cruel and abusive treatment.

You can sell real estate if you are "lucky" by means of most any kind of advertising. But, whether you are lucky or not, you can sell real estate through adequate newspaper advertising.

Cheaper Than An Auto

Talking To Them All

When you want to go to Gladstone comfortably or quickly the best way to go is street car.

When you tell your business story to the thousands of people who read THE MIRROR every day, you are talking to one of the biggest audiences ever assembled in the upper peninsula.

ESCANABA TRACTION COMPANY.

Talk To Them All Use The Mirror

You should be on the list of Daily Mirror subscribers, if you are not already there.

Itching piles provoke profanity, but profanity won't cure them.

Advertise in a paper that people read—that means The Daily Mirror.

CHILDREN RUN RISK WHEN EATING SNOW

Although Apparently Clean, It Contains Quantities of Sand, Cinders, Hair and other Things—Diphtheria, Tonsillitis, Etc., May be Contracted.

Children should be taught that snow is unclean and, therefore, dangerous to eat.

A bit later, perhaps, the child "comes down" with diphtheria, tonsillitis or some other disease, although it has not been, apparently, exposed in any way to contagion.

Remember that the snow not only keeps down the dust but also brings it down from the air, where it has been floating during any period of fair weather.

Choose the whitest snow, then let it melt, closely covered, in a perfectly clean tumbler.

GOATS AS TRAIL MAKERS.

There may be some doubt of the truth of the oft-repeated story that a goat will thrive on a tin-can diet, but that it grows fat and risky on brush and small trees—hark and trunks—is being proved every day on the Lasser Forest Preserve in California.

The industrious animals have been divided into two bands, and are grazed under the care of herders within certain well defined areas.

CAN YOU DO IT?

Sit on the ground with your legs crossed under you, fold your arms, and get up without unfolding them.

Stand sideways close to the wall, with your arm raised flat against the wall, and the rest of your side touching the wall.

THE PENNY CURATE.

Many clergy guard against copper in the collection bags, and, of course people who can afford silver ought not to give pennies only; but here is nothing to be said against copper if there is plenty of it.

ENGLISH BOYS WANT EASY JOBS

Among English boys the long drudgery of learning a trade (even if the opportunity offers, which it seldom does) is shirked.

In spite of the cold, mosquitoes, fleas and are an intolerable nuisance in Alaska.

A year's fishing in this country amounts in value of product to about \$4,000,000.

STEPHEN DOYLE IS BURIED IN OSHKOSH

Remains of Late Brother of William Doyle and Mrs. Edward McDermott of This City, Who Died in Milwaukee, is Given Interment in Cemetery of His Old Home.

The remains of Stephen C. Doyle, a brother of William Doyle and Mrs. Edward McDermott of this city, who died in Milwaukee last Thursday, were given burial Tuesday in Oshkosh, where he formerly lived for many years.

"The remains of Stephen C. Doyle, formerly a resident of Oshkosh, who died in Milwaukee, were brought to this city yesterday at 1:35 o'clock over the Northwestern railroad.

"Besides the widow, the survivors are a brother, William Doyle of Escanaba, Mich., and three sisters, Mrs. McDermott of Escanaba, Mrs. B. Carter of Peoria, Ill., and Mrs. W. M. Bedward of Oshkosh.

Spikes & McDonald. Rev. M. H. Clifford conducted brief services at the family lot at Riverside cemetery."

DAY LETTERGRAM SERVICE STARTS

Beginning yesterday, the Western Union Telegraph company instituted a day lettergram service, similar to the night letter service, which has proven so popular among business men.

Stops earache in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hour; sore throat, twelve hours; Dr. Thomas' Eclectic Oil, monarch over pain.

No New Year is started right—or continued right—or ended right—unless you exhibit an increasing interest in the want ads.

The Peterson Sunday, March 5. WM. A. Singer presents Chicago's Big Musical Revue MISS NOBODY FROM STARLAND WITH OLIVE VAIL and fifty-four Singing Associates. Presented Exactly as Seen 300 Nights Princess Theatre, Chicago

GERMANY IS CURIOUS AS TO RECIPROCITY (By Associated Press.) Berlin, Germany, March 2.—It is reported here that Germany has inquired at Washington and Ottawa whether this country will be entitled to benefits by the American-Canada reciprocity agreement.

ON HOMESTRETCH NOW IN BERMUDA TOUR RACE Folks Who Have Promised Subscriptions to their Favorite Candidates Must Step Lively or They'll Be Left at the Finish.

They are now on the homestretch in that great race for the winning of the New York and Bermuda tour stakes, and when the contenders pass under the wire at 10 o'clock Saturday evening there will be a craning of necks to see who the winners are.

Every one of the contestants has before her visions of what will be revealed during the coming Bermuda and New York trip, and she is aware that these three days are the most vital ones in the whole affair.

PERSONAL BENEFIT RESULTS.

Many of the young ladies have informed the Contest Department that the experiences met with during their visits to the highways and byways in search of the paid-in-advance subscription orders have been of incalculable benefit to them.

So, the business that will be done Saturday night will be the culmination of weeks of effort on the part of the faithful ones, who mean to prevail until the last.

Standing of Candidates up Noon Thursday

Table with columns: District No., Former Vote, Last Vote, Total Vote. Lists candidates for Districts 1, 2, and 3.

You Will Be Proud
of the appearance of your stove
IF YOU USE
Black Silk Stove Polish

It makes old stoves look like new and lasts four times as long as any other shine. Don't imagine all brands of stove polish are alike. Black Silk is different. It's so much better than other stove polishes that there is absolutely no comparison. It's in a class all-by itself.

It makes a brilliant, glossy shine that anneals to the iron—don't rub or dust off. Give it a trial. Try it on your parlor stove—your cook stove or your gas range. If you do not find it the best stove polish you ever used, your dealer is authorized to refund your money.

Here is what some of the ladies write us:
"I like Black Silk Stove Polish better than any I have ever used. People say, 'where did you get your new stove,' and I tell them it's Black Silk Stove Polish that makes it look like new."
"I will not use any other kind when I can get Black Silk Stove Polish. It makes stoves look nicer and stay nice longer than any other polish."
"Black Silk Stove Polish is by far the best I ever used. I have tried many different kinds but find none as good."
"I like Black Silk Stove Polish better than any I ever used. Several parties in this neighborhood are anxious to get some of your polish since they saw my stove after using it."

Ask your hardware and stove dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the ordinary kind so why not have the best?

SPEAKS WELL FOR THE HEBREW RACE

Fond du Lac, Wis., March 2.—For the first time in the history of this city a Hebrew has been sentenced to jail for being drunk. Michael Rottman, who was found asleep and nearly frozen near a Sheboygan street residence the other night, was sentenced to ten days in jail. The justice said that this was his first experience in twelve years as police justice that a Hebrew had ever been arraigned before him for being drunk.

NEW ORE HANDLING PLANT IS WONDERFUL

The new ore handling plant of the Baltimore & Ohio at Lorain when completed will unload a 10,000-ton vessel in nine hours. The big plant will be one of the most complete ore handling plants on the Great Lakes and experts on the work say it will be the fastest. The unloading machinery is about two-thirds completed, but will be ready for operation this summer. Power will be furnished by two 650-horse power electric generators of the Westinghouse type, driven by cross-compound Buckeye engines at 10 revolutions on 175 pounds of steam. Later a turbine generator will be installed.

It Is Possible to Reduce Flesh Without Dieting or Exercise

It is not only possible but being done everywhere. Exercise, unless carefully superintended by a physician and expert Athletic Director, may easily do a deal of harm to the great overburdened flesh body. The untutored fat man and woman determined to get thin are only too likely to overstrain their fat encumbered muscles by their awkward, ill-advised gymnastics, and so cause nerve and muscle troubles that may develop into something far worse than a little too much flesh. Same way with dieting. Starvation is certainly effective if kept up long and faithfully enough, but it is almost certain to injure the nutritive process and so weaken the patient constitutionally, while it is abominable torture, of course, especially to a good-natured, high-living, fleshy man or woman.

Fortunately neither dieting nor exercising are required or desirable if one uses the right remedy for reducing fat, and strange to say, the remedy is a simple, wholesome home mixture, the ingredients of which are obtainable at any drug store for a few cents. This mixture is as follows: 1-2 oz. Marmola, 1-2 oz. Fluid Extract Cascara Aromatic, 3 1-2 ozs. Peppermint Water, and the proper amount to take is one teaspoonful after meals and at bedtime. This mixture takes the fat off rapidly but naturally, so that no wrinkles are formed and no harm is done to the stomach, as is so frequently the case with "Patent" or "secret" advertised remedies.

COVER 70 MILES IN DAY'S HUNT FOR FOX

Pinehurst, N. C., March 2.—"I notice a good deal of newspaper comment on a sixty-mile two days' fox hunt in Pennsylvania," remarked a fog hunter, "which reminds me that we covered over seventy miles here recently in a single day, and what is more, we got the fox."

"First of all, we rode not less than fifteen miles to the hunts of this famous old timer, and it was fifteen miles back, thirty miles. In the workout we covered not less than twelve miles, and in the four hour chase, red hot every minute, surely thirty miles more, a total of not less than seventy-two miles."

"Personally I believe it to be one of the most remarkable runs on record. Better tell them about it."

ONE BONE MENDS ANOTHER; THE CASE

Hot Springs, S. D., Ma. 2.—Mrs. A. C. Loveland of Long Prairie is recovering from a remarkable surgical operation performed here. The right collar bone had to be removed because of a tumor of the bone, and Dr. F. E. Walker filled the gap by chiseling off a section of the tibia, the large bone of the lower leg, fashioning it the proper shape and wiring it in place. This has fused to the adjoining parts and the woman will get well and be as strong as ever, by thus using identical bone material taken from the same body.

It you haven't the time to exercise regular, Doan's Regulents will prevent constipation. They induce a mild, easy, helpful action of the bowels without griping. Ask your druggist for them. 25 cents.

THEATRICAL

THE GRAND—For the last three days of the week a new bill has been arranged as is usual. Church & Church are a couple of pretty young girls who do a singing and dancing turn. Charles Schofield, the old time minstrel man, will remain the rest of the week and continue to entertain and please the patrons of The Grand. Manager Carl Tolan has just returned from a trip to Chicago and has a lot of new music that will be ready to serve about Saturday night.

THE PETERSON—The most remarkable sight New York's fashionable theatrical first-nighters have seen in many years greeted those present at the premiere of "Madame X" when it first appeared in the metropolis. The theatre was packed to the very doors with a gathering made up of men and women who have seen everything the world or the sage has to offer, persons whose emotions have come through long training and experience under perfect control. But as the action of "Madame X" reached that wonderful climax in the courtroom, where the mother in the prisoner's dock recognizes her boy in the lawyer who is defending her, a veritable snowstorm of handkerchiefs appeared. Tears were shed as they have never before been shed in any playhouse.

Mabel Montgomery, in the title role of "Madame X," the remarkable play which is to be presented at the Peterson opera house tomorrow night.

CURIOUS CONDITION IN U. S. TREASURY

Washington, March 2.—The disappearance of the large copper cent and the nickel cent from circulation has brought about a curious condition in the United States treasury. None of these pieces had been coined for years, but enough of them were returned to the treasury each year to give the government a good profit in recoining them into smaller copper cents and into nickel five-cent pieces.

CHICKEN SWALLOWS A \$200 DIAMOND

Chillicothe, O., March 2.—While Miss Ruth Vause, daughter of James I. Vause, a wealthy farmer, was feeding two-weeks-old chickens, one of the birds picked a \$200 diamond from a setting in a ring on one of her fingers. She brought the chickens to town and an X-ray machine was used in the effort to reveal which one swallowed it, but the experiment was in vain. Miss Vause refused to have the chickens killed.

MAKES SMALL FORTUNE WHILE SERVING TIME

Spokane, Wash., March 2.—Clinton Buchanan, who is in jail at Walla Walla, Wash., on conviction on the charge of passing worthless checks, can draw a good check now for \$12,000. He received that amount from J. P. Kirner of Spokane and B. C. Holt of Walla Walla for a patent attachment to a threshing machine which he perfected while in jail.

while the sobs of both men and women actually interrupted momentarily the performance, so tremendous were they in volume. "Madame X" will be offered here by Henry W. Savage tomorrow (Friday) evening. There will be a brilliant company and the production will be exactly as in New York.

THE PETERSON—Ralph Riggs, the leading comedian and dancer with William A. Singers' big musical revue, "Miss Nobody From Starland," which will be the attraction at the Peterson, March 5, is not only gaining much fame as a comedian, but he is considered quite a clever story teller, and is responsible for the following incident which he claims really happened in a one night stand very recently. The comedian was standing admiring some razors in a case when a nice old lady stepped up and told the clerk that she wished to buy a good razor for her husband.

"What kind of a razor do you wish Madam?" inquired the salesman as he prepared to show her his wares.

"I really don't know," replied the woman. "I suppose I'll have to ask your advice. Tell me what kinds you have please."

The salesman forthwith told his prospective buyer that he had razors suited to every shaver, whether his beard was downy or strong, and also that the blades were of various widths and weights. On receiving this information the old lady pondered the matter and then said: "Suppose you give me something for a man 62 years old, who weighs 210 pounds."

DUCK HUNTERS CAN NOW DO SHOOTING

Open Season for Spring Began March 1 and Will Last Until April 25.—Law Designates What King of Birds May Be Legally Killed During the Spring Season.

Spring duck hunting began Wednesday, March 1, and it is now lawful to hunt and kill blue bills, canvas backs, red heads, widgeons, pin tails, whistlers, spoon bills, butter balls and snipe until and including April 25. Some Escanaba hunters are planning to go out in an effort to get a few ducks for their Sunday dinner.

Section 13 of the act to amend the Michigan laws for the protection of game and birds says in part:

"No person or persons shall hunt, pursue, worry or kill any water fowl by any means whatever during such time as said persons are upon any floating device or contrivance propelled by or using any motive power, steam, gas, naphtha, oil, gasoline or electricity or when upon any sail boat nor shall any person or persons make use of any swivel, or punt gun for killing any of the wild water fowl or make use of any battery, sink boat or similar device whatever, save only a gun of no greater size than ten gauge, such gun to be held in the hand at the time of shooting, and it shall be unlawful for any person to kill in any one day more than 25 game fowls or birds, and it shall be unlawful for any person to have in his possession at any time more than 75 such game fowl or birds."

BORROWS WIFE'S BABY TO SHOW HIS FRIENDS

New York, March 2.—Albert Erickson caused a sensation in the Norwegian Hospital when he took his two-days-old daughter from the sleeping mother's side and, unobserved by the hospital staff, proudly walked about Brooklyn calling on friends to exhibit the infant. Erickson was found four hours later and the baby was returned to the hospital. The child's mother had been kept in ignorance of the baby's absence from the hospital.

MAY SHARE PROFITS WITH 30,000 WORKERS

Pittsburg, Pa., March 2.—According to reports, the Westinghouse interests, employing about 30,000 men, are preparing to take their workmen in as stockholders similar to a plan operated by the United States Steel corporation. It is said that the first move in the matter will be made at a meeting of the stockholders of the Union Switch and Signal company, to be held here on March 14.

MILLINERY STYLES SMACK OF KITCHEN

The kitchen still rules as the arbiter of millinery fashion. The spring styles are just coming in from Paris and although the knell of the bucket, the coal hod, dish and wash tub hails is sounded, there are found among the new models the flatiron poke, the fluffy oyster shell and the mushroom. The kippered herring has not yet been announced, and it is probably being held back for a future season.

The new hats are startling. The bow of the flatiron poke, for instance, rests on a point of the forehead just north of the nose. From there the hat slopes upward and flares outward, and instead of the concealment of the bucket model, pretty much all of millinery's coiffure is exposed to view. A couple of bright feathers complete this interesting creation.

BIG STEAM BARGE UNDERGOING REPAIRS

According to advices from Sturgeon Bay, the steam barge I. Watson Stephenson, undergoing a rebuild at the Sturgeon Bay yard, will be practically a new boat when she comes out this spring. The work is and has been under supervision of Capt. Louis Stram, and Chief Engineer Joseph Nold has arrived from Bay City, Mich., to fit out the craft and is being assisted by Patrick Curry, of Sturgeon Bay, who will go as second engineer.

BRYAN TURNS DOWN \$1,000,000 BRIBE?

Omaha, Neb., March 2.—William J. Bryan was offered a bribe of \$1,000,000 for his vote while a member of congress, according to a story in the Omaha World-Herald. The offer was made while Mr. Bryan was a member of congress during the Cleveland administration. At that time he was one of the committee on ways and means. The proposition was that Mr. Bryan should bring in a minority report on the bill to issue \$150,000,000 of bonds payable in gold, principal and interest.

The article gives no intimation as to whom the bribe offer came from. The article, which came second-hand to the World-Herald, is credited to a former banker of Lincoln, Neb., who has since died.

DEATH MASK OF NAPOLEON FOUND

Nashville, Tenn., March 2.—A death mask of Napoleon Bonaparte, taken twenty years after his death and presented to a friend in Nashville by Bertrand, most faithful of all of Na-

HAS NO SUBSTITUTE

THE medical profession is one that usually requires instant service. The doctor's time is never his own day or night. He must answer calls promptly or lose his practice. The horse and buggy used by the doctor to hasten his call is fast being pushed into the back-ground and supplanted by the motor car.

In design the Ford Torpedo Runabout is the ideal car for the doctor. It is speedy on the road and always reliable. The old saying that "Time is money" is more than true in the case of the professional man. In this light and powerful Ford car the doctor can cover double the ground and make twice the calls that would be possible with the horse and buggy. As to economy in upkeep it is impossible to find a superior to the Model T Ford. On account of its design, light weight and strong construction, gasoline, oil bills and general upkeep have been reduced to the minimum. The many hundreds of doctors who are today using Ford cars are getting from 25 to 30 miles from a single gallon of gasoline. It's this economy in all Model T cars that has made Ford the popular car for the busy practitioner.
