## STRONG TICKET IS NOMINATED

**Citizens' Party Names John S. Lindsay for Mayor, M. J. Lyons for City Clerk and F. J. Hess for City Treasurer—Proceedings of the City Convention.**

For Mayor—John S. Lindsay.  
For City Clerk—M. J. Lyons.  
For City Treasurer—F. J. Hess.

With the nomination of the foregoing candidates the Citizens' party at its city convention in the city hall Tuesday evening completed the ticket which it will endeavor to have elected at the polls on April 3.

All of the nominations were made by acclamation, the tellers being instructed to cast the unanimous vote of the delegates for each candidate. The convention was marked by a spirit of enthusiasm and harmony and accomplished its work without a hitch.

Following the regular work of the convention the several candidates were brought before the convention and each expressed his thanks for the honor conferred upon him and promised if elected to discharge the duties of his office to the best of his ability. All of these speeches were short and to the point, especially that of City Treasurer Hess, who said: "Mr. Chairman and delegates of the convention: I thank you for the honor and if elected will do as well as I did last year, probably better. I thank you."

Stephenson Again Chairman.  
Mr. Lindsay expressed his thanks for the honor of his nomination, stated that he would do his best to get elected and that if successful he would try his best to serve the city and to be fair to everybody.

Mr. Lyons extended his thanks for the nomination and promised if elected that he would continue to discharge the duties of the city clerk's office the best he knew how, as he has done during the last two years.

Casper C. Stephenson was re-elected chairman of the Citizens' party committee for the ensuing year and H. J. Rushton was chosen secretary of that committee. Ward chairmen were appointed as follows:

First ward—George W. Shipman.  
Second ward—Matt Priester.  
Third ward—Paul Jaeger.  
Fourth ward—Frank Lefebvre.  
Fifth ward—P. N. Peterson.  
Sixth ward—Edward Smith.  
Seventh ward—John Strom.

Proceedings in Detail.  
Casper C. Stephenson, chairman of the city committee, called the convention to order and read the convention call. Mr. Stephenson was chosen temporary chairman and H. J. Rushton temporary secretary.

(Continued on page 6.)

## TWO OTHERS DIED AT THE SAME TIME

Henry McFall, Pioneer Resident of City, Gives Additional Particulars of Fatality in Which First Sheriff of Delta County Lost His Life in 1866.

Henry McFall, one of the oldest residents of Escanaba, states that two other men were drowned at the same time William E. Moulton, Delta County's first sheriff lost his life as related by The Mirror Tuesday in its account of the death of Mr. Moulton's widow at Iron River, Wis.

Mr. McFall states that the fatality occurred in 1866 and that besides Mr. Moulton another man named Sensiba and the captain in charge of the craft were drowned when the boat upset as it was coming about in the wind about a mile this side of Peninsula Point. A fourth man, named Stewart, saved himself by clinging to a piece of timber on which he was able to float to shore.

Mr. McFall says that the boat was not a skiff or rowboat, but a large sailboat, and that the party of four men were going to Garden Bay to purchase a team of horses. At the time they set out to go across the bay there was a storm brewing and they were warned not to undertake the trip, Mr. McFall says.

The bodies of Moulton and Sensiba were recovered later, but the remains of the boat captain were never found, Mr. McFall states. At least he never heard that they were.

MRS. THERESA SCHENK IS RELEASED UNDER \$10,000 BAIL.

(By Associated Press.)  
Chicago, March 22.—Mrs. Theresa Schenk, who shot and killed her husband, Charles Schenk, last Saturday in Park Ridge, was released under bonds of \$10,000 today.

Rev. and Mrs. William P. Peters are rejoicing over the birth to them Tuesday afternoon a fine son. Mr. Peters is pastor of St. Paul's German Lutheran church.

## NO CONTESTS IN ANY OF THE WARDS

The Taxpayers' Party at Ward Primaries Nominate Candidates for Aldermen, Supervisors and Constables and Select Delegates to the City Convention—The List.

There were no contests of any kind in the ward primaries of the Taxpayers' party held Tuesday afternoon and evening an dall of the candidates for aldermen, supervisors and constables were chosen without opposition. The same harmony prevailed with regard to the naming of delegates to the city convention, which was held at the city hall this afternoon.

In the second ward the Taxpayers' party had no candidates for alderman and supervisor, inasmuch as the Citizens' party candidates, John P. McCall for alderman and Frank E. Atkins for supervisor had been endorsed. Following, in brief form, are the results of the primaries, at which light voter were cast:

First ward—Alderman, James Power; supervisor, Henry R. Dotsch; constable, Peter Elike; delegates James Powers, Peter Blake.

Second ward—Delegates, John I. Millar, B. D. Wagner.

Third ward—Alderman, John I. Scaction; supervisor, George H. Cobb; constable, Oscar Sederlund; delegates, James Patton, George H. Cobb, Frank Aronson.

Fourth ward—Alderman, long term, Peter Hirn; alderman, short term C. G. Swan; supervisor, A. H. Rolph; delegates, R. E. Hodson, William Finnegan, Joseph Nolden.

Fifth ward—Alderman, Louis Follo; supervisor, Charles Lefebvre, Jr.; delegates, Patrick Connelly, George P. Southerland; Otto Loeffler, Con. Gallagher, Charles Ford.

Sixth ward—Alderman, Edward Gervais; supervisor, Charles Dady; constable, William Glavin; delegates, John McGraw, Arthur Mayou, Earnest Holtzgrebe, Charles Dady.

Seventh ward—Alderman, Carl J. Johnson; supervisor, James Utt; constable, John H. Backstrom; delegates, Thomas Reidy, Alex Pariseau, Sr.

## DISPLEASED WITH SENOR LIMANTOUR

(By Associated Press.)  
Washington, March 22.—President Taft and his cabinet met today and discussed the Mexican situation briefly. They are well satisfied with the situation, but are displeased that Minister Limantour of Mexico has seen fit to seek a peace agreement by making statements to the effect that the United States government is but waiting an opportunity to go into Mexico. Such a statement is entirely unwarranted, it is declared, and is regarded here as not calculated to bring about good feeling.

## GLAVIN HEADS TICKET

TAXPAYERS' PARTY HOLDS CITY CONVENTION AND NOMINATES CANDIDATES FOR MAYOR AND CLERK.

HESS ENDORSED FOR TREASURER.

Dennis E. Glavin Chosen as Party's Candidate for Mayor and Albert J. Peplin for City Clerk—Convention is Harmonious and Enthusiastic—Men Honored by Delegates Express Thanks—Further Details.

Dennis E. Glavin was regularly nominated for the office of mayor, and Albert J. Peplin for city clerk at the convention of the Taxpayers' party held this afternoon at the city hall by delegates elected in the primaries yesterday.

The convention passed off smoothly, confidence and enthusiasm in the results on April 3 being manifest.

Mr. Glavin, after being nominated, was called before the convention and made a short address which was in part as follows:

Will Try to Be Worthy.  
"Mr. Chairman and Gentlemen of the Convention: The honor I have had conferred upon me is one of which any citizen may be proud. I assure you I am proud of it and wish to thank you if the final result is that I am elected, I shall try to be worthy of this honor."

"I desire also to thank the press of the city for the kindly references to my candidacy. I have but one criticism to make and that relates to the statement that 'I am a good fellow, but with the wrong crowd, and if elected would be ruled to a large extent by a certain element.' If any of my fellow citizens have such an opinion of me, I ask that they put it aside, as I assure you, if elected I shall want the full support of the council, the assistance of the board of public works, the cooperation of the police force in the execution and (Continued on Page Six.)

## CITY TO ACQUIRE GOOD PROPERTY

By a vote of 10 to 2 the common council Tuesday evening decided to grant the request of the board of public works for the purchase of the west half of the Thatcher building on Ludington street for the use of the board and as an office of the municipal lighting plant. The resolution authorizing the purchase provided that the purchase price of the property should not exceed \$7,000 and authorized the mayor and clerk to enter into a contract with Charles M. Thatcher, the owner of the property for its purchase. Aldermen Jaeger and Schmit were not in favor of the purchase and voted against the resolution.

## ATTENDS A. O. H. BANQUET AT SOO

J. P. Kenneally has returned from Sault Ste Marie, where he went to attend a banquet given in that city Monday night by the Ancient Order of Hibernians. Mr. Kenneally says that there were nearly 500 people in attendance and that the affair was one of the best of its kind that he ever attended.

## H. E. GRIMES IS GIVEN PROMOTION

Manager of Escanaba Office of the Western Union Telegraph Company to Be Given Charge of Important Office in Minneapolis—C. J. Haviland His Successor.

H. E. Grimes, who has for the last three months been acting as manager of the Escanaba office of the Western Union Telegraph company, on Tuesday received the welcome information that he is slated for a substantial promotion in the service of the company. In other words, Mr. Grimes will be given the management of one of the company's important offices in Minneapolis and he expects to leave early next week to assume the duties of his new position in that city.

Mr. Grimes' successor as manager of the Escanaba office is C. J. Haviland, lately of Norfolk, Neb., who arrived in the city Tuesday and presented his letter of introduction and instructions to Mr. Grimes. In accordance with his instructions, Mr. Grimes will turn the local office and its affairs over to Mr. Haviland tomorrow. He will give the latter all the necessary information regarding the business of the office and the telegraph service situation in this city generally.

Although he has been here but three months, Mr. Grimes has in that short space of time considerably increased the Western Union's business and added to the efficiency of its service. He has made many friends who, while they will be pleased to learn of his promotion, will regret his departure from Escanaba. Upon his side, Mr. Grimes states that while his transfer to the Minneapolis office cannot help but gratify him, he will be reluctant to leave Escanaba and the friendship he has contracted here.

## ARMY MANEUVERS NOT AGAINST JAPAN

(By Associated Press.)  
Washington, March 22.—President Taft today invited Japanese Ambassador Uchida to a conference at the White house this afternoon. The object of the invitation is to personally set at rest the various irresponsible rumors published to the effect that the army maneuvers in Texas and California are in a vague way directed toward Japan.

## OLEOMARGARINE MEN SENTENCED

(By Associated Press.)  
Chicago, March 22.—Joseph F. Wirth, Tony Wirth and Patrick Ralphy, the oleomargarine "moonshiners," were sentenced today by Judge Landis to five years' imprisonment and to pay a fine of \$5,017 each.

## MARINETTE TEAM WILL PLAY HERE

Arrangements have been made for the playing of a basketball game in the Escanaba high school gymnasium next Friday evening between the Escanaba High school boys' team and the Marinette High school boys' team. The game promises to be close and hard fought, for the local team was never in better condition for fast play and the Marinette players have the reputation of being experts in basketball. It is announced that general admission to the game will be 25 cents and it is hoped that all the available space for spectators will be filled.

## FINDS \$47.07 OVERCHARGE

Common Council Investigating Committee Presents Report of its Inquiry Into Charges Made by City Clerk Lyons Against the Morning Press Company

## QUARTER CENTURY IN HOTEL BUSINESS

Twenty-five years Ago Today John Christie Opened the Ludington Hotel in This City—Will Celebrate Anniversary by Entertaining Old Settlers at Banquet.

Twenty-five years ago today John Christie threw open the doors of the New Ludington hotel and this evening a few old settlers who were in Escanaba at that time will attend a banquet to be given them by Mr. and Mrs. John Christie.

Twenty-five years is a long time to look forward to, but not so very long to look back upon. It does not seem that long ago that Mr. Christie came to Escanaba to open the hotel that has since proved so successful. The old Ludington house that was purchased by Mr. Christie was not much of a place, but after spending something like \$25,000 in making it over, he was able to open one of the best houses in Northern Michigan. A steam heating plant was put in and a system of call bells, things that were none to common in the hotels of a quarter of a century ago.

Many times during the twenty-five years Mr. Christie spent large sums of money in improving the property and now at the end of a quarter century of hard work he has in mind the erection of a new up-to-date hotel farther up town.

## BANKS TO DIVIDE THE CITY'S FUNDS

Through the adoption by the common council Tuesday evening of a resolution to that effect, the three banks of the city will during the coming year be depositaries of the city's funds, which are to be divided among them as equally as may be. The resolution provides that each bank shall before April 4 furnish a suitable bond in the sum of \$15,000, which bond must be first approved before the bank furnishing it will receive deposits of the city funds.

Following is the report of the committee in full:  
Escanaba, Mich., March 18, 1911.  
To the Honorable Mayor and Council of the City of Escanaba, Mich.:  
Your committee, to whom was referred the matter of the printing of (Continued from page 2.)

Tuesday evening the special committee appointed by the common council to investigate charges made by City Clerk Lyons against the Morning Press company, to the effect that the latter had overcharged the city for job printing and also reflecting in a measure upon the official integrity of the late Alderman E. M. St. Jacques, made an extended report, which was accepted and referred to the auditing committee.

Briefly summarized, the report stated that there had been an overcharge amounting to \$47.07 in the bills submitted by the Morning Press company for job printing, but that there was nothing to indicate anything improper in the actions of Alderman St. Jacques in connection with the allowance of the Morning Press bills. The committee recommended that the matter of the overcharges found be referred to the auditing committee and this was done.

Norton Makes Statement.

Before the report was adopted John P. Norton of the Morning Press made a statement before the council in which he declared that there had never been any overcharges intentionally made. He said that the bid for job printing which had been made to the council and accepted had been prepared by a former member of the firm and was rather indefinite. The prices quoted were only for the cheapest quality of stock procurable for the work and that when such stock was offered to the city officials at the contract prices they demanded something better. This was furnished, he stated, and charged for at the regular ruling rates for commercial printing. Mr. Norton also declared that the city had not lived up to its contract because some of the city departments had given work to other printing establishments. He asserted that notwithstanding this fact the Morning Press company had endeavored to live up to the terms of its bid and contract and that where better material was ordered only regular prices for such material and quality of work were charged.

### TUBERCULOSIS CLAIMS A VICTIM

After being in poor health for some time, Walter Thurston, aged 22 years, son of Mr. and Mrs. Arthur Thurston of Ford River, died at the Thurston home about 11:30 o'clock Tuesday night. Tuberculosis was the cause of death. Mr. Thurston was a laborer and unmarried. The funeral will be held from the Thurston home at two o'clock Friday afternoon. Rev. P. B. Ferris will conduct the services and interment will be made in Lakeview cemetery.

The thanks of the people of Escanaba are due and are hereby tendered to the members of the common council who voted Tuesday evening to give the city a public bath house.

### The Man Who Waits For "Better Times"

Before starting to save is making it hard for prosperity to reach him Prosperity does not come unbidden. It comes to those who determinedly seek it and are ready for it. Prosperity is the fruit of success, and success is the result of systematic, well directed effort. He, who drifts along from day to day, without any well formed plan will very likely die poor; while he who makes it a duty to save something every week, and puts his savings where they can work for him and help him, need have no fear about the future. Such a man is taking care of the present, and with the present taken care of, the future will take care of itself.

"Two bottles Cured My Rheumatism"

"I have been a sufferer from rheumatism for about two years, and have used many liniments and patent medicines which gave me no relief. A lady friend of mine told me she had used your Liniment and found relief at once. I got two bottles and they cured me. I think it is the best Liniment a person can have in the house. I shall always keep a bottle in my house as long as I can get it."—MRS. E. R. WALLACE, Morrisons, Va.

Another Letter.

MRS. JAMES MCGRAW, of 1216 Mandeville St., New Orleans, La., writes:—"I take pleasure in writing to you that I had a pain in my arm for five years, and I used

SLOAN'S LINIMENT

for one week and was completely cured. I recommend your Liniment very highly."

Sloan's Liniment instantly relieves stiffness of the Joints, Sore Throat, Hoarseness, Sprains, Neuralgia, Sciatica and Lumbago. Better and cheaper than porous plasters.

At All Druggists. Price 25c., 50c. and \$1.00 Sloan's Treatise on the Horse sent Free. Address DR. EARL S. SLOAN, BOSTON, MASS.

FIGURES OF EXPERT ARE UNDER-ESTIMATE

The Ore Reserves of the United States Will Not Be Exhausted in Thirty Years.

An associated Press dispatch from Philadelphia appearing in The Mirror Tuesday relative to Dr. Allerton S. Cushman's statement to the effect that the United States has ore enough for only thirty years has caused much comment here and in the iron regions of the upper peninsula. Those familiar with the iron ore conditions do not agree with Dr. Cushman, especially in the statement that the present ore supply now available in the United States is estimated at only 4,788,000,000 tons. The doctor stated in his Philadelphia address if the average rate of increase decades should be continued it would require a production in the next three decades of 6,088,000,000 tons.

Figures Do Not Agree. Dr. Cushman's figures do not agree with those presented to congress at its latest session by Congressman H. O. Young and others who worked for a tariff on iron ore. Their estimates of the amount of ore available in the United States was several times greater than Dr. Cushman's.

There are mining men on the Marquette range who believe that Dr. Cushman's estimate is even too low for the quantity that can be found in Marquette county alone. A few years ago George J. Mass, of Negaunee, who is regarded as one of the leading mine-ologists of the county, placed an estimate of several billions of tons on the Cascade range, to say nothing of the millions of tons that have been proven up in recent years in Negaunee and Ishpeming and in the district west of the latter city.

Good For Hundred Years. Many of the mining men in Marquette county believe that it will be impossible to exhaust the ore supply in the Marquette district anywhere inside of the next hundred years, and others estimate that it will be a much longer period before all of the ore will be cleaned out. As the quantity contained in the known deposits cannot be determined, experts admit that it would be impossible for them to place any estimate on the quantity of non-Bessemer ore that is available in this county, exclusive of the great deposits of ore of higher grades that exist.

With new deposits being found almost daily in other sections of the Lake Superior district, it is certain that some of the other ranges will

be producing for many years in the future, and from present indications none of the districts will exhaust their supply within the time specified by Dr. Cushman.

PRIZES TO GIRLS FOR COMMENCEMENT GOWNS

Hastings, Mich., March 22.—As there have been indictments of a desire on the part of the young women of the senior class of the Hastings High school to curb the custom of wearing elaborate and expensive gowns at commencement, the members of the local board of education have personally subscribed \$25 to be awarded to the graduates who make and wear the simplest gowns. The competitors must make their own gowns, the total cost of material not to exceed \$5. Simplicity of design, artistic lines and workmanship are the points which will count in awarding the prizes—\$10 in gold as first, a writing desk valued at \$10 for second and \$5 in gold for third.

"There's a Reason"

HOW UNCLE SAM FEEDS AND ARMS TROOPS IN TEXAS

Each Man Carries a Weight of Fifty-Four Pounds Regular Rations and Those For Emergencies. "Iron Ration" Khaki Being Supplanted by Cotton Olive Drab Uniform

ONE of the chief values of the present mobilization of one-fourth of the United States regular army along the Mexican border, to military men at least, is the opportunity offered to try out the more modern and lighter personal equipment for the individual soldier. Ever since military experts began a real study of conditions with the intention, if possible, of lightening the infantryman's burden the one foremost idea has been in lessening the number of pounds of accoutrement necessarily carried when under full field equipment.

While the officers had in mind the reduction of the actual weight of the outfit, it was figured that there must be no deviation in efficiency. Under the present United States army regulations the full field equipment for active service, including the rifle and ninety rounds of ammunition, weighs fifty-four pounds. It is the hope of the military experts to reduce this from fifteen to seventeen pounds, but the ever present idea remains in their mind—namely, that an equal efficiency must be obtained from the lighter articles. But it may be said also that it is hoped that greater work may be obtained from the lighter accouter-

ment per squad, three shovels per squad, three wire cutters per company and a two foot folding rule per company. These tools are in addition to the regular fifty-four pounds, and the soldiers take turns in carrying them.

Most of the troops in the Mexican border "war game" are equipped with the fifty-four pound outfit, but enough are using the lighter articles to insure a thorough tryout. Tin plates, meat cans, etc., instead of aluminum ones, are the staple mess equipment carried by the majority of the soldiers.

How Army Is Fed.

The different classification of rations given out to the regular army is another interesting point. In all there are some six specific rations, the principal ones being the haversack ration, the garrison ration, the travel ration and the emergency or iron ration. The haversack ration, such as dealt out to the troops in the field, consists of meat, coffee, hardtack, sugar, pepper and salt. The emergency ration is composed of compressed food having among its ingredients beef, sugar, salt, beans, potato and wheat. The soldiers are supposed to keep it in the sealed tins until express orders are given for its devouring. A small cake sufficient for a meal is broken into the regulation cup filled with boiling water, and

ried out. The old adage about prevention and cure has come to be greatly realized in army circles. The Spanish-American war brought about the change in sanitary regulations, for during that campaign a comparison of the percentage of men killed by bullets as against the number dying by disease was startling.

Olive Drab Uniforms.

The uniform worn by the soldiers during actual service in hot climates and the change to the practical is of considerable interest. Once more it was a case of the war with Spain showing the lack of up to date wearing apparel for the troops. To be sure, there were khaki trousers, canvas leggings and the sun felling wide brimmed campaign hats, but also there were the blue flannel shirts, an excellent target for the opposing marksmen. Under the present regulations the khaki uniforms have gone out entirely, while the cotton olive drab uniform is preferred. Olive drab shirts, too, are now worn, while the tan leggings and shoes to match make a body of men well nigh invisible at a reasonable distance. In the present mobilization in Texas thousands of troops will be seen wearing the khaki uniform, but the newest orders of the war department have done away with that dress and have placed the official O. K.

BATTERY IN ACTION

STACKED ARMS

IN MARCHING EQUIPMENT PHOTOGRAPHED BY AMERICAN PRESS ASSOCIATION

AMERICAN SOLDIERS ALONG MEXICAN BORDER.

ment, not only in strength saving, but also in actual wear and tear. The use of aluminum plates, knives, forks and spoons, together with haversacks, tent halves, ponchos, tent poles, etc., of lesser weight, it is thought will bring down the total number of pounds per man.

The Soldier's Kit.

At present a soldier carries, besides his piece, a Springfield magazine, which weighs nine and a half pounds, and ninety pounds of cartridges, which weigh four and a half pounds; a bayonet, bayonet scabbard, a rifle sling, cartridge belt, a pair of cartridge belt suspenders which tend to lessen the weight by help from the shoulders, a first aid packet, a canteen and strap, a set of blanket roll straps, a haversack, a meat can, one cup, one plate, one knife, one fork, one spoon, half a shelter tent, one tent pole and five tent pegs. Then, in addition to that, comes his field kit, the weight of which is included in the total fifty-four pounds, consisting of a blanket, a poncho and personal effects, such as a comb, toothbrush, towel, extra under-clothing, soap, etc.

But besides the soldier's individual load there are trenching tools which are given out and carried by company and squad. A full company is made up of 108 men and officers in time of war and sixty men and officers in time of peace. A squad, the second unit of a company, consists of eight men. The trenching tools are four hand-picks to be carried by a company, a pick-

in a short time there is a palatable mess ready. When the novice tries his first meal of the iron ration he thinks it is a pretty small matter, but very shortly he has the opinion that after all it was a square meal. The other ration which is of interest just now called the travel ration, is served out for troops traveling otherwise than marching and without cooking facilities.

When pack trains are possible portable stoves and ovens are used, but when a body of troops find themselves in actual service and perhaps pushing the campaign into the enemy's territory it is necessary to fall back on the severe haversack ration, sometimes with only water as a beverage, and then, again, in an extremity the iron ration comes into play.

The sanitary corps, practiced in the science of keeping fit and consequent disease out of the camps, is of the greatest importance in field work and has come to be one of the principal departments of the army. Attached to a regiment of 1,500 men and officers is a sanitary corps in command of a major, the usual head of a battalion. Under him the major has his staff of assistants, who inspect the disposal of refuse. Huge pits placed at far away from the camp as advisable are immediately dug and the strictest orders given to see that all waste is put in the proper place.

At certain times the pits are covered with cloth and thoroughly sprinkled with disinfectants, and whenever possible the process of incineration is car-

ried out. The absence of all possible ceremonies, such as parades and reviews, while in field service is noticeable to the veteran visiting a modern military camp.

The units of troops in order of magnitude with their commanding officers offer another subject of interest. Starting with the company, theoretically made up of 108 men and three officers, the next unit is the battalion, headed by a major. The organization of the battalion, however, is very elastic, it being composed of two, three or four companies. Following that division comes the regiment, which, having a full quota of men, numbers fifty-one officers, fifteen being mounted, and 1,500 enlisted men.

Theoretically three regiments, or 4,500 men, make a brigade of infantry. At the head of that organization is a brigadier general, who in turn has his staff.

The next organization is the division, composed of three infantry brigades, a regiment of cavalry, two regiments of artillery, a battalion of the signal corps, an ammunition train, supply train, four ambulance companies, a field hospital and reserve supplies. A major general commands and has under him approximately 20,000 men.

FINDS \$47.07 OVERCHARGE

(Continued From Page 1.)

The Morning Press, beg to report as follows:

That on June 1, 1909, the following itemized bid of the Morning Press was received and submitted to the Council of the City of Escanaba at its meeting of that date:

Table listing items and prices: Letterheads, per M. \$3.50; Noteheads, per M. .75; Envelopes, No. 10, per M. \$2.75; Envelopes, No. 6, per M. \$2.00; Full sheet poster, per M. .75; Bill Heads, per M. \$2.25; Receipts, per M. \$1.50; Poll Lists, per M. \$1.00; Placards, per M. or less. \$1.75; Election notices, per M. \$1.00.

Registration Notices, per M. \$1.00; Average per thousand, \$1.65; Publishing proceedings per col. \$2.00; Publishing ordinances, per line 4 c; Notices, per line, 4 cents. Respectfully submitted, LITTLE & NORTON, Publishers.

The following motion was made after a recess of 10 minutes for the purpose of examining the bids for printing.

Moved by Alderman Valentine that the Morning Press be awarded the job work, the Iron Port be awarded the publication of the council proceedings and that the Escanaba Journal be awarded the publication of gazettes.

Motion supported by Alderman Garity and carried by the following vote: Ayes: Unanimous.

At the meeting of the council held July 6, 1909, the following bills to the Morning Press were allowed:

Table with columns: Date, Description, Amt., Cont. All'd Price. Includes items like Dog Tax Receipts, Bro. Jno. Let. Hds., Bro. Jno. Env., etc., with amounts ranging from \$1.00 to \$4.00.

Average per M, \$5.75. \$83.00 \$40.93

"As the bid of the Morning Press is very indefinite, there being nothing in the bid to indicate the quality of the material to be furnished, we can only presume that the quality was intended to be such as the city was accustomed to requiring; we therefore find that in the items above set forth, there has been an overcharge amounting to \$47.07, and to which we think, the attention of the Morning Press should have been called, when undoubtedly, they would have either explained or corrected the overcharge.

"This all appears to have been unintentional oversight on the part of all the parties concerned, the auditing committee depending upon the approval of the officers of the city ordering the work, and the officers expecting the auditing committee to determine as to prices charged, and as the matter had been taken out of the hands of the printing committee, by the council, there was no approval required on the part of the committee.

"We further find that the charges in the foregoing bills are about the same as those charged by printing of fees generally. "We desire to especially state, that inasmuch as this matter was referred to us at the request of the late Alderman St. Jacques, we find upon inquiry that he was not a director of the Morning Press Co., until some time in November, 1909, and not even a stockholder until that time, he could not have been actuated by any personal interest in allowing these bills; and even if this did not appear, there is absolutely nothing to indicate any improper motive on the part of Mr. St. Jacques or any person in approving these bills. "We would recommend that the matter of these charges be referred again to the Auditing Committee, that they may take it up with the Morning Press Co. for adjustment. Respectfully submitted, Matt. Priestor, J. P. McCall, Paul Jaeger."

GOV. OSBORN
IS OPTIMISTIC

Expects Much Beneficial Legislation Before Ad-
journment of the Legislature--Threat of
Extra Session Haunts the Solons--
Some Matters of Interest

Lansing, March 22.—After lengthy
oratory in which the speakers sought
to outdo each other in their expressions
for practical economy, the house
passed the senate resolution fixing
April 19th as the day when business
in the legislature shall come to an
end, and making May 1st the day of
final adjournment.

Representative Dunn of Sanilac
started the ball rolling when, in a split-
ted speech, he urged the house mem-
bers to get down to work and pass the
necessary legislation so that the legis-
lature may be able to adjourn at an
early date. Speaker Baker also ad-
monished the members of their duty
and told them that by working hard-
er during the time when the body is
in session thousands of dollars can be
saved to the state. Representative
Haviland defended the legislature by
stating that up to the present time
more bills have been introduced than
during any other legislative period of
similar length. Representative Straight
warned the members that unless the
legislation desired by the governor is
passed, the legislature will be called
in extra session so that the legislative
program outlined in Governor Osborn's
message may be completed.

Although Governor Osborn acknowl-
edges that he has met considerable op-
position to his legislative program by
members of the legislature and from
other quarters, the governor is still
optimistic and believes that consider-
able will be accomplished before the
session ends in passing legislation
along progressive lines.

"We will live just as long if the
legislature fails to pass any law,"
said the governor in an address to the
editorial association, on Friday, in
this city. "I hope the workingmen's
compensation act will be passed and
other needed reforms will be brought
about. Sometimes the only way that
an executive can bring about legisla-
tion is to bring out the big stick."

New Bills Still Coming.
Bills are being drawn on every mag-
nitude subject within the scope of leg-
islation. Every session witnesses a
shower of bills, most of them destined
to be pigeon-holed in some committee
room. Many important bills bearing
on progressive legislation have been
introduced and are awaiting action
either by the committee or the house
and senate.

The new military bill drafted by
Representative Gansser and Stewart
was up in committee of the whole last
week and will be passed with some
minor amendments on third reading.
The bill does away with three brig-
adier generals and reorganizes the
staff of the brigade organization. No
changes are made in the rank and file
of the three regiments composing the
Michigan brigade.

Insurance Bill Will Pass.
The Ashley bill, modeled after the
plan outlined by the National Frat-
ernal congress, was reported out by
committee on insurance and acted
favorably on by the house in the com-
mittee of the whole. The bill is en-
dorsed by all the leading fraternal or-
ganizations in the country and was
championed before the committee by
Great Commander George Lovelace of
the Maccabees and a number of other
persons well known in fraternal life.
The object of the bill is to provide for
reasonable rates of fraternal insur-
ance, thus securing the stability of
such organizations. The bill is made
special order for Wednesday, March
22nd.

Jerome Bill Fails to Pass.
The bill introduced by Representa-
tive Jerome of Detroit, providing for
an appropriation of \$10,000 for the re-
lief of dependents of convicts, failed
to pass the house last week. Repre-
sentative Arthur Odell of Allegan ad-
vanced some very good reasons for
the defeat of the bill when he stated
that the bill attempts to put a
premium on crime and provides for
the family of the criminal, and yet
contains no provision to protect and
provide for the families of the victims
of the criminals. Representatives Pitt-
gibbon and Warner also spoke against
the bill, which was defeated by a vote
of 46 to 35. Representative Jerome
moved to reconsider the vote by which
the bill failed to pass and moved to
lay the bill on the table with a view
of resurrecting same at some future
time when, in his opinion, the house
is in a better disposition to pass it.

Sustain Soldiers Exemptions.
The battles of the civil war were
fought over again, and the chandeliers
of the house tingled with the burst of
oratory which buried the Holcomb
bill, which attempted to reduce the
exemptions from taxation on the
homesteads of old soldiers from \$1,200
to \$900. Holcomb introduced the bill
at the suggestion of the board of su-
pervisors of Montcalm county, and
while many members admitted that
the exemption of old soldiers' homesteads
from taxation was a hardship in

some communities the speaker of
Representative Warner and Gansser,
however, left little doubt in the minds
of the members as to the advisability
of exempting the veterans of the civil
war from the duties of taxation for
the few remaining years of their life.

Senator Murtha Muzzled.
After a brilliant parliamentary strug-
gle between Senators Murtha, Miller
and Fowle, the attempt of Senator
Murtha to defend his character on the
floor of the senate was blocked by the
strategy of Senator Fowle. The upper
peninsula senator contended that inas-
much as the actions of Senator Mur-
tha which were attacked by Governor
Osborn happened in New York several
years ago, and that the criticism of
the governor did not apply to the
official acts of Senator Murtha, the
senate as a body had no jurisdiction
over the matter. Senator Murtha pre-
sented a very carefully worded resolu-
tion to the senate in which the gov-
ernor was requested to state whether
or not he had acted in his official
capacity in his correspondence with
Mayor Gaynor of New York regarding
Senator Murtha's conduct while a
resident of that state. He also re-
quested that all information in the
hands of the governor be transmitted
to the senate so that he would be
given a chance to explain his situation
to that body. Senator Miller attempt-
ed to defend the senator from D. trot,
but was interrupted by Senator Fowle,
who raised a point of order. Senator
Laidlein also rushed to the defense
of his Democratic colleague. The res-
olution failed to pass by a tie vote of
16 to 16. In all probability the Mur-
tha matter is ended.

Zack Chandler Statue.
The senate passed the bill fostered
by Senator Manes for the appropri-
ation of \$15,000 for the erection of a
statue of former United States Sen-
ator Zachariah Chandler in a statue
hall in the national capitol at Wash-
ington. Senator Fowle, who last week

voted against the bill, prompted a
re-explanation by economic reasons,
withdrew his opposition after an at-
tack had been made upon the charac-
ter of the late senator by Senators Lee
and Laidlein.

After Loan Sharks.
Representative Copley introduced a
bill which is intended to put a crim-
inal into the exorbitant rates now charg-
ed by certain money lenders in the large
cities. The bill provides for a strict
regulation of the loan business and
also provides that in no cases the in-
terest shall exceed two per cent a
month. Representative Warner will
attempt to amend the bill, which now
includes incorporated cities, so that
villages will be included in its pro-
vision.

The state grange is making a de-
termined effort upon Senator King-
man, chairman of the committee on
taxation, to have that committee re-
port to the senate the tonnage tax
bill. Members of the committee, how-
ever, assert that they will not report
the bill unless directed by a vote of
the senate to do so. It is hardlv ex-
pected that the friends of the bill will
be able to muster sufficient strength
to take the bill from the committee.

Oppose Full Crew Bill.
Nearly every railroad was repre-
sented at a public hearing before the
house and senate committees on rail-
roads. The railway attorneys ap-
peared to oppose the full crew bill in-
troduced on behalf of the railway
trainmen by Representative Jensen.
The trainmen claimed that the meas-
ure was introduced to promote the
safety of the traveling public. The
railway operator claim that in case of
a strike or scarcity of men they would
be unable to operate their trains if
this bill becomes a law. The bill has
good chances to pass both houses.

The upper peninsula railroads are
still opposing the proposed reduction
in railroad fares in that section of the
state. Their contention is that the
operating expenses of the railroads are
much greater during the winter in the
upper peninsula than in the southern
portion of the state. Representa-
tives Symonds, Lucas and James, how-
ever, proved to the satisfaction of a major-
ity of the members of the joint com-
mittee that operating expenses are not
greater, and that three-cent fares in
the upper peninsula are an injustice
to the traveling public. All indica-
tions point towards the passage of a
two-cent fare bill.

Will Prune Appropriations.
Chairman Chambers of the commit-
tee on ways and means is preparing
for a careful consideration of all ap-
propriation bills. Mr. Chambers, as-
sisted by the other members of the
committee, will subject each item to
the closest scrutiny. The members
of the committee are determined to
apply the pruning shears quite freely
in order to reduce the total tax levy

to its lowest possible figure.
Disbursement of Primary Fund.
Representative Willoughby will in-
troduce a bill during the coming week
which, if passed, will make a radical
change in the disbursement of the pri-
mary school fund. The fund now is
apportioned on the per capita of chil-
dren between the ages of five and
twenty years. Under the Willoughby
plan, the fund will be apportioned on
a basis of valuation of the various
counties. This plan is said to equal-
ize and justly distribute the primary
school fund according to the wealth
and development of the different sec-
tions of the state.

Another bill which is being drawn
attempts to provide for the nomina-
tion of presidential electors by pri-
maries and also gives the voter a
chance to express himself as to his
choice of the nominee for president
of his party. MAX SOCHA.

WARNING

An injunction was granted in the
Circuit Court of Chicago on the com-
plaint of Foley & Company, restrain-
ing the Crane Medicine Company,
Henry B. Foley & Company, or Henry
B. Foley from selling, offering for
sale, or advertising Foley's Quinine
and Tar or Foley Kidney and Bladder
Pills under these names and in yellow
cartons.

Foley & Company will of course
prosecute any attempt at imitation of
the names or packages of their prod-
ucts. The original and genuine Fo-
ley's Honey and Tar and Foley Kid-
ney Pills, which do not and never
have contained any opiates or habit-
forming drugs, and are put up in a
yellow package, are being supplied as
formerly.

BLACK FOX FARM
REPORTED A SUCCESS

Washington, March 22.—The raising
of black foxes, the pelt of which is
the highest-priced fur on the market,
is proving a profitable business and
demonstrated the fact that black and
silver foxes can be bred in captivity,
according to consular reports.

Recently Carl W. Faulk of Carcross,
Yukon territory, captured a litter of
black fox puppies and decided to raise
them for breeding purposes. His en-
terprise not only has proved a suc-
cess financially, but as well has con-
tradicted the general belief that black
foxes, like black sheep, are merely
freaks. Offer as high as \$1,500 have
been made Mr. Faulk for the pelt of
one of the black males, and he has
sold pelts of silver foxes as high as
\$1,200 each.

**MAPLE SUGAR SEASON**  
**RAPIDLY APPROACHING**  
**Settlers in Delta County are Preparing for Drawing of Sap and Making of Sugar.**

Maple sugar time is approaching and settlers are preparing for the annual drawing of sap and manufacture of sugar. Although the industry is not as great in this vicinity as in some sections of the country a large amount of sugar is manufactured near Escanaba and the number of home steads who add to their income by engaging in the industry is increasing. An expert sugar maker makes some suggestions through writing which may be interesting to the consumers.

The weather governs the time to tap trees, but it is usually about the first of April in this section. Warm weather must draw the frost from the tree and start the sap up. A method often followed to determine the time, is the hacking of a white birch tree so that it can be seen when the sap begins to flow.

**Directions For Boiling.**

Maple trees should be tapped on the smooth part of the tree on the sunny side, three feet from the bottom. The hole should be bored through the white of the tree only one and a half inches and the spout should be driven tight. One spout should be provided to the bucket. A tree one foot in diameter will stand two buckets. When two buckets are hung, they should be on

opposite sides of the tree. The trees should be tapped in thrifty places, where there are no cuts or hacks above or below.

For boiling, a shallow pan should be used, as two inches of sap in a pan will steam off faster than six. The amount of sap running in will be governed by the amount evaporated. At all times, two inches should be carried in the pan for safety, as sap will burn very easily after it gets thick.

**Eleven Pounds to the Gallon.**

A pan can be made 2x6 being set edgewise and galvanized iron nailed to the bottom to make it water tight. A pan three feet wide and eight or ten feet long will boil the sap from 100 trees. A stone arch should be made, mortared upright and the pan set on that. A large store barrel can be set near the arch, with a faucet and hose to feed into the pan. The sap should be run into the front end of the pan or over the hot-test fire. When the sap is boiled, the product gets thick. It should weigh eleven pounds to the gallon. The sap when boiled should be run through a heavy, white flannel.

The boiling can be done in a kettle, but in a shallow pan the sap boils much better.

**BILL INTERESTS**  
**LIQUOR DEALERS**

Should It Pass the Legislature and Become an Amendment to the Warner-Cramton Liquor Law, Saloonists Will Not Have to Close on So Many Holidays.

The liquor dealers of Escanaba are interested in the passage of the Martz bill, which amends certain portions of the Warner-Cramton liquor law. This will permit them to do business on quite a number of holidays which under the old act are "dry."

Chairman Water of the house committee on liquor affairs, says that the committee will this week report favorably on the Martz bill. He asserts the bill will probably be amended by the committee so that it will authorize bars to do business only on primary election days, Washington, Lincoln and Columbus days and perhaps one or two others which are not observed by manufacturers or other industrial lines.

It will not attempt to make Christmas, Memorial day and Thanksgiving day legal days for doing business. Even those members who always vote with the "wets" agree that it would

create a large hostile sentiment against the business if bars were allowed to be open on semi-religious holidays.

**WARNED AGAINST**  
**BAD BOOK AGENT**

Lest he should come this way the people of Escanaba are warned to be on the lookout for a certain book agent who is soliciting for a Catholic publication, as his work in other nearby cities is looked upon with much suspicion. He calls at the house with a book, which he sells at \$5 in monthly payments, by paying \$1 down or \$3 if cash is paid. He leaves no receipt for the purchase nor does he deliver a book, but promises to have it delivered within a couple of weeks.

**A Special Medicine for Kidney Ailments.**

Many elderly people have found in Foley's Kidney Remedy a quick relief and permanent benefit from kidney and bladder ailments. Isaac N. Regan, Farmer, Mo., says: "Foley's Kidney Remedy effected a complete cure in my case and I want others to know of it." For sale by all druggists.

**DEPLORE DEATH OF**  
**E. M. ST. JACQUES**

The Common Council Adopts Resolutions Setting for its Sense of Loss in the Death of the Fourth Ward Alderman and its Condolence to His Family—The Resolutions.

**Milady's**  
**Mirror**

Tuesday evening the common council expressed its sense of loss in the death of the late Alderman E. M. St. Jacques of the Fourth ward, the loss the city at large sustained in his passing away and at the same time extending its condolences to the members of the family of the deceased by unanimously adopting the following resolutions, drafted by City Attorney I. C. Jennings and a special committee consisting of Aldermen Priestler, McGill and Jaeger:

Whereas, on the 14th day of March, 1911, Mr. Emanuel M. St. Jacques departed this life after a residence in the city of Escanaba of nearly forty years;

And whereas, he occupied many of the highest positions of honor and trust, notably treasurer of Delta county, treasurer of the city of Escanaba and alderman of the city of Escanaba, in all of which positions his services were conspicuous for high ability, strict integrity and faithfulness;

And whereas, for nearly thirty years he was a leading and successful merchant in the city of Escanaba and was prominent in the business, political, religious, social and fraternal affairs of the city and always identified himself with every movement for the upbuilding and improvement of the city, and for many years was recognized as one of the best citizens of Escanaba, distinguished for his ability, honesty, energy, fairness, public spirit, generosity and charity;

And whereas, at the time of his death Mr. St. Jacques was serving his third term as alderman for the Fourth ward of the city of Escanaba, and was recognized as one of the ablest and most conscientious members of the city council;

Therefore be it resolved by the common council of the city of Escanaba, in regular meeting assembled, that by the death of Emanuel M. St. Jacques, the city of Escanaba, and the county of Delta have lost an able and faithful public servant and a useful and distinguished citizen; and

That each member of this council deplores the sudden termination of Mr. St. Jacques' life of usefulness and sincerely regrets the loss of a true friend and an earnest, able and conscientious co-worker.

Resolved Further, that this council extends to the widow and son of the deceased their heartfelt sympathy at this, the time of their grief and sorrow.

Resolved Further, that the city clerk be and he is hereby instructed to send to the family of the deceased a certified copy of this resolution under the seal of the city.

Matt, Priestler,  
 John P. McGill,  
 Paul Jaeger,  
 Committee.

There are various preparations sold by manures to remove stains under the finger nails. With careful laws most of these can be relied upon, but if there is any doubt about a special preparation substitute lemon juice.

As a stain remover it is excellent, and the woman who keeps half a lemon on the stationary washstand where she washes her hands rarely will have to blush for the unsightliness of her nails.

Oxalic acid is also good, but is injurious to some skins. It should be applied with a bit of cotton on the end of an orangewood stick. In using the lemon the tips of the fingers can be rubbed into a section of it. Later rinse well with clear water.

Stains on the sides of the fingers are quickly removed with a moist pumice stone. This is invaluable to get off the first blotches after preserving, painting or doing any disfiguring work. In cases where the skin under the nails has roughened a little powdered pumice can be moistened with lemon juice and applied with an orangewood stick. Never scrape away a stain; it becomes both cuticle and nail and becomes a dirt catcher rather than dirt remover.

Soaking the tips of the fingers in olive oil will help to keep the skin about the nails in good condition.

**Sweet Cream Face Bath.**

When a woman's face is inclined to dryness in cold weather the less she uses water on it the better, for the water is drying and will aggravate the condition that other agents which are cleansing may soothe and even heal.

A person who is willing to take the trouble to use sweet cream daily on her face will give the best of treatment. A tablespoonful of cream is sufficient for this bath. To every tablespoonful of cream should be put ten drops of tincture of benzoin. This latter preserves the integrity of the cream and is an excellent application.

To use this mixture a small bit of old soft linen should be saturated and the face then thoroughly wet. The throat and the flesh behind the ears should also be bathed. Then with the finger tips the surface so anointed must be rubbed gently for five minutes. This will send the cream into the pores and loosen the dust. The face must then be wet with more cream. This last wash is to remove the soiled application.

Before retiring is the best time for this work. The last anointing must remain on all night. In the morning the face should be wiped with a lotion of one-eighth glycerin, the other seven parts being rosewater. The wash is intended to have just enough glycerin in it to prevent the astringent action of rosewater.

**Sunning the Hair.**

The reason that some women's hair is so thin is because they never give the hair a chance to get at the scalp, especially with the number of rats worn nowadays. But, even if you do not wear them, give your hair a sunning at least once a week and every day if it is possible. Your hair needs such a treatment, and so does your scalp, for

the cold dries the natural nourishment, and thus the hair is likely to become dry and brittle. Take all the hairpins out of the hair, remove all the tangles by running the fingers through it, then seat yourself in a comfortable seat by the window through which the sun is streaming. Toss the hair about from time to time and massage the scalp to get the glands working properly. Part the hair in different places so the sun will get all over the scalp. Do this for an hour if you can; but, if not, half an hour is better than none. You need not fear heads unless it is the hottest part of the summer.

**For Motorists.**  
 The woman who motors should take more care of her complexion in winter, for it is now that much havoc is wrought by biting east winds. Before starting on a long drive she should always rub cold cream into her face and on returning should wipe it off with equal parts of rosewater and glycerin. The tendency to wrinkles which is produced so often by frowning when motoring is prevented if the face is bathed with sour milk, the approaching wrinkles being gently rubbed in the opposite direction.

**Braid Invalid's Hair.**  
 "When caring for a patient with long, heavy hair I arrange it in two firm braids," writes an experienced nurse.  
 "Fastening two long, soft ribbons or strips of cloth at the top of the braid, I wind it closely to the end, again securing the strips carefully."  
 "In this sheath the hair lies smooth and untangled, only needing to be cared for once in several days and giving the sick one the least possible annoyance."

Michael Dooley was arraigned in Justice Glaser's court this morning on a charge of not supporting his wife and child. This afternoon he had his trial, was convicted and sentenced to serve a term of 30 days in the county jail. It was alleged that Dooley did not supply his wife and little boy with even the common necessities of life.

Interesting local and general news will be found on every page of this issue of The Mirror.

Mr. and Mrs. Fred Gareau of Flat Rock were in the city today on business.

A want ad. can lend a hand in your hunt for a servant.

George Tennant of Rapid River was in the city Tuesday, exchanging greetings with old friends.

The Mirror contains more news and more advertising than any other paper in Delta county.

Miss Mallina Papineau, Miss Lizzie Fish and Miss Anna Houle left this morning for a two weeks' visit with relatives and friends in Duluth and Minneapolis.

You can rent a room, sell a stove or buy a baby buggy through an ad in this paper.

Born, Tuesday, to Mr. and Mrs. Wallace Finch, 315 North Fannie street, a daughter.

James R. Andrews is transacting business in Chicago.

Henry Beauchamp has returned to his home in Green Bay after a visit of several days with relatives in this city.

At the meeting of the common council Tuesday evening L. I. Hetrick was appointed election inspector in the Fourth ward to take the place of A. D. Dupuis, who has become a candidate for aldermen in that ward.

Miss Ethel Wellsted of Brampton, who recently went to the hospital at Ann Arbor to undergo an operation of a serious character, has submitted to the ordeal and is reported to be making favorable progress toward recovery.

Green Bay Gazette: Mr. and Mrs. Henry Raymon of Seattle, Wash., are expected to arrive in the city today, where they will remain for a few days visiting relatives on the west side and then proceed on their journey to Escanaba, where they will visit Mrs. Raymon's sister, Mrs. George Kellner of that city.

## ESCANABA TO GET PUBLIC BATH HOUSE

By a Vote of Eleven to One, the Members of the Common Council Act Favorably on the Proposition and Authorize Contract for Erection of the Building.

Escanaba is to have a public bath house, after all. As forecasted by The Mirror, the members of the common council heretofore opposed to the proposition proved themselves amenable to reason and the pressure of public sentiment and on Tuesday evening favorable action was taken on the question and the bath house is assured.

Only one of the aldermen in opposition continued to hold out to the last. That was Alderman Kirkpatrick, who maintained that two-thirds of the business men with whom he had talked regarding the matter were opposed to the bath house because of its cost, \$1,715.

The board of park commissioners, in a communication to the council, suggested that \$75 of the cost might be thrown off by eliminating the shower bath. Alderman Garrity did not believe in eliminating the shower bath and said that if the bath house were to be built at all it should be according to the original plans and specifications. These were examined by the aldermen and were explained by Park Commissioners George M. Mashek and John M. Millar. Following this inspection, Alderman Valentine moved they be accepted. The motion was adopted and then Alderman Garrity moved that John S. Lindsay's bid of \$1,715 for building the house be accepted and the mayor and clerk be authorized to enter into a contract with Mr. Lindsay.

It was at this point Alderman Kirkpatrick interposed his objections and then Hon. John Power, at the invitation of Mayor Greenhoot, addressed the council on the question. Mr. Power made a strong plea for the establishment of the bath house. He said he could not understand why any man voted against it because of some mere detail. He was glad to see that some of those opposed to it at a previous meeting were now in its favor. He stated that he could conceive of nothing more beneficial to the public than a bath house and closed by saying: "I beg you, gentlemen, don't vote against it."

Alderman Kirkpatrick briefly reiterated his opposition and a vote on Alderman Garrity's motion was then taken, with the result that it was carried by a vote of 11 to 1 of the 12 aldermen present, Alderman Kirkpatrick casting the one dissenting vote. Mayor Greenhoot thanked Mr. Power for his remarks in support of the bath house proposition and expressed his pleasure over the final action of the council thereon.

## TO VOTE AGAIN ON GAS PLANT BONDS

Tuesday evening the common council adopted a resolution providing that the question of issuing \$30,000 bonds for the construction and equipment of a municipal fuel gas plant shall again be submitted to the electors of the city at the election to be held on April 3. There was not a dissenting vote on the passage of the resolution and it is hoped that the favorable sentiment of the council members toward the proposition will be reflected by at least two-thirds of the voters on election day. The resubmission of the question was pushed by the board of public works and the Escanaba Business Men's association.

## MOTOR JUMPS TRACK; EIGHT MEN KILLED

(By Associated Press.)  
Pittsburg, Pa., March 22.—Eight men were killed in the Hazel mine at East Cannonsburg today when the motor drawing the cars in which they were riding to rooms in the mine jumped the track and knocking down the supports let the roof fall upon them.

## PUSHING AHEAD ON PAVING OF STREETS

Common Council Authorizes Contract for Improvement of North Birch Street and Instructs Clerk to Advertise for Bids for the Paving of Three Other Streets.

Tuesday evening the common council took further steps toward the improvement of several streets. The bid of the Delta Contracting company for the paving of North Birch street from Sinclair street to Escanaba avenue was accepted and the mayor and city clerk authorized to enter into a contract with the company for doing the work.

This bid was the only one submitted, but it was deemed reasonable and satisfactory. Assessments to pay for the improvement are to be divided into five equal parts, payable on July 1 of each year.

The city clerk was instructed to advertise for bids on the following improvements, and resolutions relative to the assessments for each were adopted:

Paving South Georgia street from Wells avenue to Ayer street, paving North Mary street from Ludington street to Sinclair and paving North Charlotte street from Ludington to Langley.

The petition presented at a previous meeting asking for the construction of a sanitary sewer through block 62 of the Original plat was granted upon recommendation of the committee to which it was referred.

## STRONG TICKET IS NOMINATED

(Continued from Page 1.)

Committees on credentials and permanent organization and order of business. F. L. Baldwin and Frank Lefebvre were appointed; F. J. Hamacher, constituting the former, and Emanuel Olson, Edward Smith and Fred Krueger making up the latter.

A recess was taken in order to give the committees time in which to do their work. When the convention reassembled the report of the credentials committee was presented and adopted. It showed the following delegates entitled to seats in the convention:

List of the Delegates.  
First ward—George F. Shipman and Michael Harrington.  
Second ward—J. E. Byrns and C. C. Stephenson.

Third ward—E. J. Hamacher, Robert Murphy and Bonander Smith.  
Fourth ward—A. H. Ryall, Frank Lefebvre and Emanuel Olson.

Fifth ward—E. J. Kirkpatrick, Charles Groop, H. J. Rushton, Fred Krueger and Chris. Peterson.  
Sixth ward—Martin Peterson, Edward Smith, Francis L. Baldwin and Robert McMartin.

Seventh ward—T. J. Smears and Charles Eck.  
All Nominations by Acclamation.

The committee on permanent organization and order of business recommended that the temporary organization be made permanent and that the order of business be as follows: Nomination of candidates for mayor, city clerk and city treasurer, the election of city committee chairman and secretary and the appointment of ward chairmen. The recommendations were adopted.

E. J. Kirkpatrick and T. J. Smears were appointed tellers and all of the officers of the convention were sworn by Notary Public A. H. Ryall.

Upon motion of F. L. Baldwin, it was decided to make all nominations by acclamation. As candidate for mayor the name of John S. Lindsay was proposed by J. E. Byrns, that of M. J. Lyons for city clerk was offered by A. H. Ryall and that of Frank J. Hess for city treasurer by F. L. Baldwin. The nominating speeches were full of good words for the several subjects and vigorous applause followed the nomination of each.

Through in Half an Hour.  
Following the election of city committee chairman and secretary and the appointment of ward chairmen, Edward Smith, Robert Murphy and A. H. Ryall were appointed a committee of three to wait upon the candidates, notify them of their nomination and bring them before the convention. This was done, as already noted, and following the remarks of the several candidates the convention adjourned, having completed its work in just half an hour.

Marinette Eagle-Star: Otto Brandt arrived from Escanaba Monday to remain here permanently. For the present he will attend to the duties of night ticket clerk in the passenger office of the Chicago & Northwestern station.

## FUNERAL PROBABLY FRIDAY MORNING

Arrangements for the funeral of the late Frank Rousseau, who died at Marinette Monday night as the result of injuries received while making a couple between an engine and a freight car, have not positively been completed, but it is probable that it will be held from St. Joseph's church at nine o'clock Friday morning, with burial in St. Joseph's cemetery. The remains of the unfortunate young man were brought to the city on the 7:25 o'clock Chicago & Northwestern train Tuesday evening and taken to the home of his parents, Mr. and Mrs. Joseph Rousseau, 331 North Sarah street. They were accompanied here by two members of the Brotherhood of Railway Trainmen from this city, who went to Marinette Tuesday for that special purpose. Mr. Rousseau was a member of the B. R. T.

## ENJOY HEARING A PLAYER-PIANO

The recital on the Schaeffer player-piano held at the Grinnell Bros. store this afternoon was fairly well attended and proved to be a most delightful entertainment. Charles Duncan Allen of Chicago, representing the Schaeffer Player-Piano company, presided at one of the best instruments made by the firm and rendered a program that included selections of both classical and popular music. It is announced that another recital will be given this evening, with an entire change of program. All are welcome to attend.

## WOMAN'S CLUB IN WEEKLY SESSION

The Woman's club met Tuesday afternoon at the home of Mrs. O. W. Gustafson and participated in a delightful and instructive literary program. The Gustafson home at 210 Stephenson was decorated for the occasion and each one of the club members had some paper or talk on the subject under discussion. The club meets at the homes of the different members each week and take up subjects of interest to the members.

## Are You a Money Saver?

Most every one expects to be a money saver some time. Some expect to save when their income is larger, others plan to save when their expenses are less. People who wait to save until they can save without effort rarely begin to save; they wake up some day filled with regrets because of the opportunities they have missed.

The moral is: Begin regular SAVINGS at THIS bank NOW; whatever the income, make the outgo a little less and save the difference.

Its a simple matter to start a savings account here.

Solo and duo renditions will be given, and the Concert is one certain to be thoroughly enjoyed by all music lovers. MR. CHARLES DUNCAN ALLEN of Chicago, at the Player Piano. You are cordially invited.

## MEAT PACKERS GET A SEVERE JOLT

(By Associated Press.)  
Chicago, March 22.—The indicted Chicago meat packers today lost their fight against going to trial on the indictments secured by the government several months ago, when Judge Carpenter of the United States district court today overruled their demurrer to the charges and in connection held that the immunity granted by Judge Humphrey in the federal court in 1906 did not apply to the present charges, which he held were based on evidence not included in the Humphrey decision.

United States Attorney Sims and his aides maintained that the latest indictments were based on evidence of violations of the anti-trust law which have occurred within the last three years.

Judge Carpenter therefore denied the government's motion to strike the meat packers' abatement from the record and instructed the government to reply to the pleas. The packers were instructed to be in court on March 27 and report what action they will take. They were given twenty days to file exceptions, the order being given without appeal.

The Mirror's special correspondence letter from Lansing will be found on the third page of this issue and is well worth reading.
