

AIM TO MAKE CLEAN CITY

Municipal House Cleaning Idea is Being Discussed by Public-Spirited Citizens—City Council and Business Men's Association May Become Interested.

How would Escanaba like to have a municipal house cleaning day? This is a question that is being discussed by a group of energetic and public spirited men, and it is believed that the common council and Business Men's association can be made interested in the same question.

The idea has been suggested by one of the citizens back of the movement as worthy of exploitation and the Mirror takes pleasure in helping it along. It is believed that a municipal house cleaning day would be a splendid thing for Escanaba, and it is desired to find out what is the public sentiment in the matter. In this connection The Mirror will gladly publish all communications, favorable or otherwise, relative to it.

Should the idea meet with general approval, it is quite probable that whatever steps may be necessary for a municipal house cleaning day will be taken by the common council, the Business Men's association and perhaps other civic bodies.

Plan Not Original Here. The plan is not an original one in Escanaba, for Milwaukee is establishing the municipal house cleaning day as an annual event. In the metropolises of Wisconsin three days are set aside, May 8, 9, and 10 and on those days the city and the citizens are expected to clean up houses, barns, stores, offices, yards—the whole city, in fact. Streets and alleys are taken care of by the city. It is the aim to get rid of rubbish, outworn articles of all kinds and to remove unsightly and unhealthy accumulations. The Milwaukee health department has given out this pertinent advice: "Sell what you can and burn the rest."

Take Ward at a Time. In Madison, Wis., an Escanaba man states there is municipal house cleaning time, but the plan is somewhat different from that in Milwaukee. In the Wisconsin capital they go at it a ward at a time, the idea being that better results can be obtained, through concentrating the efforts in limited territories rather than to scatter forces over the whole city. It is said that many of the best American cities are adopting the spring housecleaning plan, going about the matter as thoroughly as the housewives. European cities have been successful in such work for many years, it is said.

Why should not Escanaba adopt it to the extent of at least giving it a trial this spring? The social given Thursday night in the basement of the Swedish Lutheran church by the young men of that church was a complete success. There was a large attendance and a most enjoyable time. The young men covered themselves with glory by the manner in which they prepared and served the refreshments.

OBSERVANCE OF ARBOR DAY SURE

Directors of the Business Men's Association Will Take Up the Matter and Arrange a Suitable Program—Mayor Lindsay to Be Asked to Proclaim a Public Holiday.

It is understood that at a meeting of the officers and directors of the Escanaba Business Men's association, to be held next Monday evening, an effort will be made to arrange a program for the public observance of Arbor day, which by designation of Governor Osborn is May 2. It is stated that Mayor Lindsay will be requested to proclaim Arbor day a public holiday and that the public schools will be asked to join in whatever program may be arranged.

While the chief purpose of the day will be to have as many trees as possible set out in the city, it is probable that a public meeting will be held at the high school auditorium some time during the day or in the evening, at which speakers will present some ideas upon the esthetic, as well as the material, value to be derived from beautifying the streets of the city.

It is probable that the Business Men's association will arrange to make a large purchase of trees for planting, which will be supplied at actual cost. No effort will be spared to secure unity of action by people residing on the various streets to the end that there shall be a uniformity in the kind of trees set out.

The promoters of this plan are not intending to make it any close communion affair, but a committee will be appointed by President J. E. Byrns that will represent every nationality and creed and people in all walks of life. The hope is to inspire the present generation with some broader idea of a duty to future generations by handing to them a city which shall have been made beautiful because of the care and forethought of this generation.

COLLEGE STUDENTS INVADGE THE CITY

The members of the Lawrence College Glee club arrived in the city from the south this afternoon and will appear at the Peterson opera house this evening under the auspices of the First M. E. church. The club members are traveling in a special car, which formed a part of the Chicago & Northwestern train arriving here at two o'clock. They are a clean and lively bunch of young men and are said to give a first class entertainment. While they are in the city they will be the guests of various citizens.

JUMPS BOARD BILL; COMES TO GRIEF

At the request of the Gladstone authorities, Joseph Berlack was arrested in this city last night and this morning was brought into Justice Linden's court and arraigned on a charge of having attempted to defraud Mrs. Manning of Gladstone out of a board bill of \$5.40. He was convicted and in default of settling the board bill and costs, amounting to \$10.25, was compelled to take a term of 15 days in the county jail.

ESCANABANS MAY SEE THE ECLIPSE

There will be a total eclipse of the sun Friday April 28, visible as a partial eclipse throughout the greater part of the United States and down to Panama over the middle Pacific ocean and eastern Australia. The path of the totality lies wholly in the ocean, passing over some groups of islands. Escanaba will be close to the northern limit of visibility of the partial eclipse, and a little entering of the dark moon on the southern limit of the sun may be detected about three-quarters of an hour before sunset.

PURSUIT ENDS IN KILLING

D. K. HARDER IS SHOT AND KILLED WHILE ATTEMPTING TO ESCAPE IN BOAT FROM DEPUTY SHERIFFS.

STOOD OFF OFFICERS FOR HOURS.

He is Alleged to Have Shot and Seriously Wounded Deputy Sheriff John Matthews, Who Went to His Cabin on the Shore of Lake St. Clair to Serve a Search Warrant—Harder Escapes in Sailboat and is Pursued.

(By Associated Press.) Detroit, Mich., April 21.—D. K. Harder was shot and killed today while attempting to escape in a sail boat on Lake St. Clair by a posse of deputy sheriffs. Harder yesterday shot and seriously wounded Deputy Sheriff Matthews.

The Story in Detail. Mt. Clemens, Mich., April 21.—Deputy Sheriff John Matthews was taken in a critical condition, with a bullet wound through the head, yesterday to a hotel on the shore of Lake St. Clair, while brother officers in power launches set out in pursuit of the sailboat of D. K. Harder, who is alleged to have fired at Matthews. Harder is seventy-five years old and is a cripple, one hand being disabled.

Holds Officers at Bay. Matthews, with Sheriff Harris and Under Sheriff Culver, went to Harder's cabin on the shore of the lake with a search warrant, seeking evidence of thefts complained of by farmers along the lake front. The shooting is said to have occurred when Harder sailed up in his boat after the officers had arrived.

Harder last night coasted along the marshes of the Canadian shore in shallow water, holding at bay four motor boats containing over a dozen officers. After the shooting Harder, in his cat boat, outdistanced his pursuers in power launches, but was overtaken and slain today.

TRIED TO ENTER THE WRONG HOUSE

Jacob Chenovich last night took on so large a cargo of intoxicants that he didn't quite know what he was doing. At any rate he mistook somebody else's house for the one in which he lives and the result was a disturbance when he attempted to enter it. The police were notified and Chenovich was arrested. He passed the remainder of the night in a cell at the police station and this morning was brought before Justice Linden and arraigned on a charge of drunkenness. He did not say nay to the accusation and secured his release by paying a fine of \$5 and costs amounting to \$4.25.

RECOUNT NEEDED IN D. A. R. ELECTION

(By Associated Press.) Washington, April 21.—Clerical errors, it is said, has necessitated a recount of the ballots of the Daughters of the American Revolution election and the result will not be known until late tonight.

Rumors are persistent that Mrs. Matthew T. Scott will be elected president general to succeed herself. The managers of the campaign of Mrs. Scott claim that she will have about 200 votes majority, while the advocates of Mrs. William C. Story declare that she will win.

Ten vice president generals are to be chosen. Among the administration candidates nominated for these places is Mrs. James P. Brayton of Michigan.

Miss Grace McArthey has returned from a four days' visit with relatives and friends at Hermansville.

MICHIGAN WHITE HOPE KNOCKED OUT

Joseph Jeanette in the Ninth Round of a Scheduled Ten Round Bout Makes Al Kubiak Take the Count—Kubiak Severely Punished—Coulon Outboxes McGovern.

(By Associated Press.) New York, April 21.—Joe Jeanette, the colored local heavyweight, knocked out Al Kubiak, the Michigan giant, in the ninth round of the ten-round contest for which they met here last night. Kubiak had an advantage of nearly twenty pounds in weight, which gave him a temporary lead in the first two rounds, but he tired quickly and Jeanette had the fight all his own way. He wore Kubiak down by pounding his face with left jabs, while he punished his body with heavy right uppercuts. In the ninth, Jeanette rushed in with a volley of hard rights and lefts to the head and face and knocked the Michigan "white hope" on his back for the county. Coulon Beats McGovern.

Kenosha, Wis., April 21.—Johnny Coulon had a big shade over Phil McGovern in their ten-round bout here last night, but McGovern was a dangerous man for the champion in every round except the last. At times he had Coulon in trouble. McGovern had a great punch, but Coulon outboxed him all the way and his boxing made it impossible for McGovern to land. Coulon tried hard for a knockout in the last round. He landed a vicious uppercut and McGovern went down, but did not take the count. He hung on, with Coulon following up with a rain of blows. Coulon landed repeatedly. He could not put McGovern out, but forced him to the ropes repeatedly. Both boys were still on their feet when the gong sounded.

JACKSON DECLINES JOB OF MARSHAL

Alderman Harry W. Jackson of Neegaunee, who was elected city marshal by the new council of Neegaunee at its initial meeting a week ago last night, has decided not to accept the position, and he will retain his seat on the board as one of the representatives of the Fourth ward, Neegaunee. Mr. Jackson found after his election that it is illegal for any member of the council to vote for himself for any of the appointive offices. In view of this fact he decided not to qualify and to leave the position open to some one else. Marshal Rough will retain the position until his successor is named and qualified.

FORD HEADS THE LABOR COUNCIL

Thursday evening the Escanaba Trades and Labor council held its annual meeting and transacted considerable important business. One of the principal features of the meeting was the annual election of officers, which resulted in the selection of the following:

President—Charles Ford. Vice President—Charles Gustafson. Recording Secretary—Ferdinand Jergenson. Treasurer—Louis Follo. Sergeant-at-arms—N. F. Palley. Directors—Owen Gallagher, Michael Liedtke and Charles Gustafson.

MAY START CRUSADE AGAINST THE FLY

It is likely that in the near future some wideawake Escanaba civic organization will take up the crusade against the common house fly with the idea of waging a war on this unhealthy pest in this locality during the summer. At Chicago a great campaign has been undertaken and it is being echoed in smaller cities all over the country.

Verne Matthews came up from Appleton, where he is attending Lawrence college, to attend the entertainment to be given at the Peterson school this evening by the Lawrence College Glee club.

PREPARING TO GIVE WELCOME

Alumni of the University of Michigan Meet and Make Plans to Greet and Entertain President of that Institution When He Visits Escanaba Next Friday.

STEAMER BON AMI COMES INTO PORT

Staunch Craft of the Hart Transportation Company's Line Makes Her First Trip of Season to Escanaba and Gladstone—Lightship is Towed to its Station.

Almost to the minute of a temporarily arranged schedule, the steamer Bon Ami of the Hart Transportation company's line, arrived in the port of Escanaba at 4:30 Thursday afternoon and tied up at the Stephenson dock. After discharging a considerable quantity of freight consigned to local merchants the Bon Ami went to Gladstone, where she left four or five hundred bags of seed peas ordered for the farmers of Cook's mill and vicinity. She then returned here and laid up at the Stephenson dock until early this morning, when she left for Green Bay. This was the Bon Ami's first trip to Escanaba and Gladstone this season. She will make regular trips between Green Bay, Escanaba and Gladstone during the summer.

The steamer Sallor Boy of the Hart Transportation company's line arrived in port about 4:15 o'clock this afternoon and is now at the Stephenson dock. This is the Sallor Boy's first trip to Escanaba this year.

The Eleven-Foot Shoal Lightship has been taken out to her station on the reef. She was towed there this morning by Captain Shipman's tug WaWa.

ARMIES WAITING FOR BATTLE CALL

(By Associated Press.)

El Paso, April 21.—At nine o'clock this morning all was quiet in the camps of both federal and insurgent forces, who are within two miles of each other. The attack on Juarez was yesterday postponed for twenty-four hours.

Washington, April 21.—A modification of Mexico's reply to President Taft's protest against the recent border developments was reported to the state department today by Ambassador Wilson of Mexico City.

DISINHERITED SON ENDS HIS LIFE WITH BULLET

Los Angeles, April 21.—Charles England, said to be the disinherited son of a Cartersville, Illinois merchant, shot and killed himself yesterday. In his pocket was a card addressed to Miss Fay Owen, Cartersville, Ill.

DIAZ ORDERS TWO AMERICANS FREED

(By Associated Press.) Mexico City, Mex., April 21.—President Diaz today ordered a release of Edward Blatt and Lawrence F. Converse, the Americans imprisoned at Juarez. It was asserted that they were arrested on American soil.

Musical Addresses. In the evening a meeting of the alumni and all others interested will be held in the high school auditorium, where an informal program of speeches and music will be carried out. President Hutchins will, of course, be the principal speaker.

It is expected that the meeting will also be attended by the state university alumni of Schoolcraft county, who will arrive about nine o'clock via the Soo Line.

Following the entertainment session a business meeting will be held for the purpose of organizing a joint association of the graduates of the Michigan University now resident in Delta and Schoolcraft counties. The organization of this association is one of the chief objects of President Hutchins' visit to Escanaba.

In Charge of Committee. At the meeting of the alumni Thursday evening there was a fairly large attendance, but on account of the pressure of business a number were unable to attend. President Hutchins' coming visit and its object were thoroughly discussed, as were also the arrangements that should be made to welcome and entertain him while here.

As the result of the deliberations it was decided to leave the arrangements to a general committee, of which Attorney Thomas J. Riley was appointed chairman with the authority to choose his fellow members. Chairman Riley has appointed the other members of this committee, as follows: City Attorney Ira C. Jennings, Attorney A. H. Ryall, Superintendent of Schools F. E. King and Prosecuting Attorney Torval E. Strom.

VILLAGE PRESIDENT BEHEADED BY TRAIN

Sheboygan, Wis., April 21.—Peter J. Brill, president of the village of Oostburg, was instantly killed by a northbound Chicago & Northwestern train while he was walking along the tracks.
Mr. Brill evidently did not hear the approach of the train. He was knocked down and his body stretched across the rails, the wheels of the engine passing over his neck, severing the head.

TWO THOUSAND EGGS GIVEN RURAL CARRIERS

Coldwater, Mich., April 21.—Patrons of the nine rural mail routes attempted to outdo each other in providing Easter dinners for the carriers. Over two thousand eggs were given the carriers and some of the patrons made gifts of chickens. Will Cerron of route No. 5 received the greatest number of eggs, finishing up his delivery for the day with forty dozen eggs.

STEPPING ON COLLAR BUTTON MAY BE FATAL

Racine, Wis., April 21.—Dr. Gustave Bjorkman, one of the leading physicians and surgeons of Racine, lies at his home in a critical condition and attending physicians fear for his recovery. Gangrene in the right foot persists, despite three operations. Some days ago in his bedroom Dr. Bjorkman stepped on a collar button, causing a bruise, to which little attention was paid. Three days ago the limb became swollen and blackened. Surgeons found it necessary to amputate the great toe and later two other operations were necessary.

MICHIGAN "U" HEAD SPEAKS AT DULUTH

Duluth, April 21.—President Harry Burns Hutchins of the University of Michigan was the guest here Wednesday of Rev. A. W. Ryan, and in the evening addressed the Head of the Lakes Michigan Alumni association at a banquet at the Commercial club. He said the trend of education as well as general progress, is westward.

BLOCK AND TACKLE FOR ELEPHANT'S DOPE

(By Associated Press.)
New York, April 21.—Hattie Patrick Elephant whose antics have delighted thousands of visitors to Central park menagerie, nearly died of "clover colic" yesterday, but today she is better. She over-ate.
Hattie is a gentle little thing of some 10 summers and three tons, and when she has an ache the pain is proportional to her tonnage, and the remedy must be proportional to her pain. This is the dose prescribed for her by Keeper "Bill" Snyder: Laudanum, 2 ounces; linseed oil, 2 quarts; spiritus frumenti, 2 quarts. It took a wedge between her jaws and a block and tackle to get the dose into her, but when it reached the spot the change in her good nature was noticeable.

HIGH SCHOOL BOY IS THE WHOLE CLASS

Fond du Lac, Wis., April 21.—Harold Shidel, a student in the high school at North Fond du Lac, will be the recipient of unusual honors in June.
He is the only member of the senior class at the school and will therefore be the valedictorian, the salutatorian, class president and in fact will have all the honors that are usually awarded to seniors.

In spite of the fact that the class consists of but one lone member, the commencement exercises will be of an elaborate nature as they will be the first ever held by the school. It is planned to secure a prominent state educator to deliver the commencement address.

"There's a Reason"

CORPORATIONS AID DEVELOPMENT BUREAU

Nothing probably presages more surely the success of the movement to promote the agricultural and other resources of the upper peninsula than the support which is coming to this movement from the biggest and most powerful land-owning interests in the district. Through the efforts of President Green, ably seconded by his lieutenants in each of the counties, the financial support of the Calumet & Hecla Mining company, the Cleveland-Cliffs Mining company, the United States Steel corporation, the Keweenaw association, the J. M. Longyear interests, the Western Land Securities company, the Michigan Land company, the Michigan Pulpwood company has been enlisted, each of these concerns having indicated their willingness to contribute the one cent per acre assessment fixed at the Menominee meeting.
The support of these companies was almost vital to the success of the Upper Peninsula bureau and the assurance that this support will be cheerfully rendered makes complete success financing of the plan, almost, if not quite, a certainty.

STATE SEAL WAS CHANGED IN 1883

Lansing, Mich., April 1.—After considerable investigation Secretary of State Martindale has discovered that the change in the appearance of the state seal took place in April, 1883, while Harry Conant was secretary of state. A pardon from the executive office on file at the office of the secretary of state, bearing date of April 4, 1883, has the old seal upon it, but a document dated April 10, 1883, has a seal containing alteration from the original. Whether this was an accident now connected with the office at the present time is able to state.

GRAND RAPIDS MAN GETS NEW POSITION

Washington, D. C., April 21.—Herbert E. Johnson, of Grand Rapids, Mich., state banking examiner, who was directed to report to the treasury department his strong endorsement for national banking examiner by bankers and businessmen of Michigan, and by Senators William Alden Smith and Townsend, is reported to have passed his examinations with great credit and to have received notice that he will receive his commission forthwith.
Mr. Johnson has already left for his home prepared to take up his new position.

GOOD WILL FARM PLACES MANY CHILDREN

Houghton, Mich., April 21.—During the past month the Good Will Farm and Home Finding association has placed seven children in homes in various parts of the upper peninsula. Mrs. Walker, superintendent of the farm, said yesterday that there seems to be an unusual demand for children in good homes this year, which is fortunate for the little ones who are at Good Will Farm temporarily.

The children now at Good Will Farm number 26 but there are five awaiting admittance to the home. These latter are not homeless but are half orphans, whose surviving parents are unable to provide homes for them for the time being. Their board is paid for while they are at the home and they are adopted with the understanding that the parents will provide permanent homes as soon as possible.

THIS SOCIETY WOMAN WEARS GOLD ANKLET

Chicago, Ill., April 21.—Mrs. Harold F. McCormick, daughter of John D. Rockefeller, has set a style for society women of Chicago and other cities.

She possesses a gold anklet, especially made, worn so far only to the exceeding interest of a few intimate friends, who have been moved to a general discussion of this novelty in fashion.

Mrs. McCormick bears the reputation of leading Chicago in presenting new styles, but an attempt to lead the world is so far as known a new venture.

The anklet is not the sort commonly pictured, a heavy loop of metal resembling a handcuff. It is made of fifty tiny gold strands, loosely caught together and forming a sort of ribbon from which hang a number of gold bangles. There are no jewels set in it.

ROBBED OF DIAMONDS WHILE BEING SHAVED

Duluth, April 21.—G. W. Armstrong, a traveling salesman for a jewelry house, was robbed of \$2,000 worth of diamonds which he carried in his coat pocket while being shaved in a local barber shop, and the porter of the shop, Frank Smith, colored, is under arrest, charged with grand larceny. The case, with the jewels intact, was found in the adjoining room when the police, with Armstrong, searched the place. The porter took the coat containing the case when Armstrong got in the chair to be shaved, but Smith denies having stolen the property.

AMERICANS FORCED TO LODGE IN JAIL

Edmonton, Alta., April 21.—Unable to get lodgings in the city, fourteen American settlers, fully able to pay for hotel accommodation, spent last night in cells at the police station. According to custom, all who apply for such lodging are put under lock and key. They were indignant.

ALGER COUNTY MEN ARE REAL "BOOSTERS"

Alger county men showed their real interest in the success of the movement to promote the growth and development of the upper peninsula by successfully urging the passage of an appropriation by the board of supervisors of \$500 to be contributed to the \$50,000 fund being raised by the Upper Peninsula Development Bureau.

H. A. Holden, member of the executive committee of the bureau and his fellow directors in Alger county are taking a deep and earnest interest in seeing that Alger fully meets the requirements laid upon it by the bureau. The support of the large land owning interests in the county is assured and no difficulty is anticipated in meeting the situation successfully.

RICH FARMER PAYS HIS NEIGHBORS FOR SKIN

Fort Wayne, Ind., April 21.—At the rate of \$10 per square inch, Henry Prough, a wealthy farmer of In Grange, Ind., already has spent \$25 for a live skin from his fellow men to replace cuticle he lost in an accident by fire a few days ago. Two neighbors have spared a total of twenty-three square inches, and the surgeon, who is performing the skin grafting operation for Prough, says much more will be needed, for which the sufferer will pay the rate he has established.

DUTY ON CERTAIN WHISKIES REMOVED

Washington, D. C., April 21.—After several months of negotiation this government has decided to rescind the order imposing a countervailing duty on British spirits. The British government made urgent representations that distillers of English whiskies did not receive a bounty within the meaning of the provisions of the Payne-Adrich law. Imports of Scotch and Irish whiskies amounting to several million dollars a year are affected by the decision.

READ THE MIRROR WANT ADS.

OLDEST SURVIVOR OF SEMINOLE WAR DEAD

Oswego, N. Y., April 21.—John W. Roshe the oldest survivor of the Seminole war in Florida is dead here. He was born in Ireland in 1821 and had lived in Oswego since 1832. He enlisted at Sackett's Harbor in 1839. With 30 others he escorted President Van Buren from Santa Harbor to Niagara Falls. He helped bury 106 of the Bads massacre in 1839 and took part in the capture of Co-A-Coo-hoo, a famous warrior in Florida.

BUFFALO BOATS ON WAY TO GLADSTONE

C. B. Baker, general agent of the Mutual Transit company at St. Paul, has received a telegram from the company's headquarters at Buffalo announcing the clearance of some of the company's boats from Buffalo. The boats are bound for Duluth and Gladstone with full loads of merchandise for the Twin City and Northwest. These are the first boats to clear this spring. They will reach western lake ports in four or five days.

PLUMS AND CURRANTS PROVE PROFITABLE

H. A. Savage, supervisor at Ontonagon for the past two years, last fall harvested seven bushels of plums from two trees, one five and the other seven years old. He demonstrated also that the currant crop is a profitable one. He has 24 red and black current bushes. After using what he wanted for his own use he sold fourteen dollars' worth of fruit. As one can plant 27 hundred currant bushes per acre it is easy to estimate the big yield that is possible.

MORELAND'S CAPTAIN RETIRES FROM LAKES

Capt. Claude M. Ennes, who has been in the employ of W. H. Becker for a number of years, and who was slated to bring out the 600-foot steamer Ermas Walters, building at Lorain, has resigned to engage in business.

Captain Ennes was formerly in the employ of the Gilchrist Transportation company. He sailed boats for fifteen years and did not have an accident until last fall, when the steamer W. C. Moreland stranded off Eagle river.
Captain Ennes brought out the steamer B. F. Jones in 1906 and sailed her until last season when he took command of the steamer Moreland.

IOWA WILL HAVE FEWER SALOONS NOW

Des Moines, Ia., April 21.—Because of a decision handed down by the supreme court of Iowa, scores of saloons in the state will have to go out of business. The law in question is known as the Moon law, which prohibits more than one saloon for each one thousand of the population in each town or city.

"Provoked" the Indians.
When the late General Edward M. McCook lived in Pike's Peak he once presided at a dinner in honor of a famous Indian fighter, says the St. Louis Globe-Democrat.
Mr. Cook, as he then was, concluded his introduction of the Indian fighter with the words:
"I can find but one fault with the colonel's methods. I allude to his well-known custom of enlisting in his regiment only bad-headed men. To aggravate the Indians' feelings so cruelly as that is carrying war too far."

Your Tailored Suit Kept Like New

Ladies' tailor made suits soon lose their neat, trim, attractive appearance unless frequently dry cleaned and pressed. Our dry cleaning process will aid you wonderfully in keeping these garments looking new, and by doing so will lengthen to an appreciable degree, their life. Our service brightens the color, freshens the fabric, raises the nap, removes spots and stains and presses out the garment so it looks new.

UPPER PENINSULA O. K. FOR GROWING OF FRUIT

Many Thousands of Fruit Trees Bought by Farmers for Planting This Spring.

A recent brief investigation among the agents for the nursery concerns reveals the interesting fact that this spring many thousands of fruit trees have been purchased by upper peninsula farmers in all sections of the district and that this year will see the most extensive planting of orchards in the history of this region. One local nursery salesman reports sale of 3,000 trees and it is known that similar success has been achieved in all of the counties north of the straits this year.

The reason for this sudden spread of horticulture is found in the remarkable success which has attended the efforts of those upper peninsula farmers who six and eight years ago started orchards and carefully cared for them since. The returns are wonderful, the yield being phenomenal and the fruit of the highest quality and most delicious flavor. Chippewa county apples last year captured first honors at the state fair, thus showing the superiority of northern grown fruit.

Experience is interesting. Horticulturists who have given the subject study confidently expect to see the upper peninsula as famous for its apples as is western New York today.

In this connection the experience of Magnus Nelson, one of the pioneer fruit growers of the upper peninsula, is interesting.

In 1872 Mr. Nelson purchased 40 acres of land from the Chicago & Northwestern railroad and allowed himself to be talked into planting a few apple trees by a smooth tongued agent. The farmer felt sure that apple trees would not grow in this climate but the agent insisted that he had trees that were iron clad and that could not be killed with a sledge hammer. Mr. Nelson bought 50 trees, and although they failed to make good everything the agent claimed for them, they proved the point that apple trees would grow in the upper peninsula of Michigan.

When he planted his first trees Mr. Nelson knew nothing about apples. He was poor and watched his experiments with interest because on them depended his daily bread. He continued to plant apple trees each year with better success, and made a study of them and the conditions under which they thrived.

Selecting his trees with care and devoting the closest attention to the details of their cultivation, he reached the climax of his success as an apple grower one year, when he planted six hundred trees, out of which he lost only one.

From that time his position as a successful apple grower was assured and he is today not only the foremost apple expert in the upper peninsula, but one of the most prosperous farmers in the state.

Made Good His Boast. To Mr. Nelson belongs the distinction of opening the eyes of lower Michigan people to the splendid quality of apples grown above the straits. One year he was appointed a delegate to the Farmers' Institute at Grand Rapids. A display of apples had been advertised for this occasion and although he had not many to select from as it was in February, he picked out the best he had and carried about a peck with him.

When he arrived at the exhibition hall in Grand Rapids he found apples on display from the best fruit belts of lower Michigan. He asked those in charge of the exhibit if they considered the apples good and they said they would like to see anyone beat it.

"Well," Mr. Nelson replied, "these are all No. 2; now let me show you some No. 1 apples," and then he uncovered the fruit grown in the upper peninsula.

The apples made good his boast and were a surprise and a revelation to the people of lower Michigan. Mr. Nelson says that he was proud to prove that the upper peninsula could produce something besides politicians and to carry home premiums on his apples won in open competition with the far famed orchards of the "fruit belt."

April 21 in American History. 1836—Battle of San Jacinto, Tex., defeat and frightful slaughter of Mexicans by Texans under Sam Houston; Texan independence secured. General Santa Anna, the Mexican leader, was captured. 1870—General John Adams Dix, U. S. A., noted figure in the civil war, died; born 1798. 1808—United States Minister Stewart L. Woodford given his passports at Madrid. Date fixed as the beginning of the Spanish-American war. 1910—Samuel Langhorne Clemens (Mark Twain), author and lecturer, died at Redding, Conn.; born 1835.

ASTRONOMICAL EVENTS. (From noon today to noon tomorrow.) Sun sets 6:41, rises 5:00; moon rises 2:14 a. m.; 1:27 p. m., eastern time, moon at last quarter in constellation Capricornus; sun's declination 12 degrees north of celestial equator. This day 1900, Peary's farthest north thus far, 87 degrees 6 minutes; 1908, Dr. Frederick A. Cook claims to have reached north pole.

BERNHARDT TO PLAY IN COPPER COUNTRY

Sarah Bernhardt will appear at the Calumet theater on May 30, Memorial day, the first definite announcement to this effect being made yesterday by Manager John D. Cuddihy of the Calumet playhouse, who has just returned from Chicago. Mr. Cuddihy states that the contracts for the appearance of the "Divine Sarah" in the copper country have been signed and that a large guarantee was made to secure the appearance there of Bernhardt and her company, which is the original company, direct from the Bernhardt theater, Paris. It is anticipated that the Calumet theater will be completely sold out for the engagement there of the company. Bernhardt is also to play one night in Hancock. Bernhardt travels in a special train and has her own private car. There are two Pullman sleepers for members of the company and two special baggage cars. Bernhardt is appearing this week at Los Angeles, Calif. Every seat for the entire week was sold out as early as last Thursday.

MINSTREL MAGNATE OWNS BOOTH'S BED

John W. Vogel, whose minstrels bear his name, is the owner of one of the finest private cars used in the theatrical business. It is very large and fitted up with all the comforts and conveniences that are found in a most luxurious home.

One piece of furniture of which Mr. Vogel is particularly proud is a bed. This is of the folding style, made of solid cherry, and provided with the best and most expensive springs and mattress. This bed was used by Edwin Booth on his last tour throughout this country when he and Lawrence Barrett were starring jointly. The Booth-Barrett combination, of course, had its private car, and after the death of the eminent tragedian the car was taken back to its builders and sold, the company removing most of the expensive fittings. When Mr. Vogel was having his car built he noticed this bed, and not knowing its history made the remark that it would be a nice piece of furniture for his car. When the traveling home was delivered the minstrel owner was astonished to find the coveted bed in place and then the builders told him its history.

DENMARK IS STUDYING SUFFRAGE OF WOMEN

Washington, April 21.—Count Carl Moltke, minister from Denmark, is now engaged in making a thorough investigation of the workings of equal suffrage in the United States. The count has recently visited Colo-

rado and other western states where women are permitted to vote to make a personal inquiry into the results of their particular politics. The Danish government is considering the granting of full suffrage to women, including the right to be represented in parliament by their own sex, and Count Moltke and other diplomatic representatives have been asked to report on the subject to their home government. The women of Denmark already have the right to vote in municipal elections. READ THE MIRROR WANT ADS.

First Carload of Henderson Pianos for GRINNELL BROS.

These are the Pianos purchased by Grinnell Bros. from the Ann Arbor Piano and Organ Co., receivers, as announced in this paper as short time ago.

Hundreds of High Grade Pianos

Brand New and Fully Guaranteed, Thrown on the Market For Below the Manufactures Cost to Produce

The ANN ARBOR PIANO & ORGAN CO., manufacturers of the well-known HENDERSON PIANO, recently went into the hands of the receiver. Knowing our financial ability and our facility for handling Pianos in any quantity, we were urged to make an offer for this entire stock—the Receiver was insistent. We finally named a price, scarcely expecting it to be accepted—but it was, and we have purchased these hundreds of Beautiful, New Pianos at a figure.

FAR BELOW THE MANUFACTURER'S COST TO PRODUCE.

These Pianos are the latest production of the Ann Arbor Piano and Organ Co., whose factory is thoroughly modern and equipped with every facility for building high grade instruments. This concern has had many years' manufacturing experience, and their pianos show the result of skilled workmanship, and careful, conscientious, well directed effort.

Escanaba's branch is one of the stores chosen for distribution for these splendid instruments, and a limited amount has been assigned to Escanaba for sale. So come early—we are going to give buyers of this vicinity the benefit of the extraordinary savings we made in the purchase of the stock. This means that these Magnificent, Brand New, High Grade, Guaranteed Pianos will be sold at the LOWEST PRICES EVER KNOWN on instruments of equal quality. For instance, we will sell—

- \$550 NEW PIANOS AT ONLY \$325
- \$350 NEW PIANOS AT ONLY \$230
- \$300 NEW PIANOS AT ONLY \$178
- \$400 NEW PIANOS AT ONLY \$250
- \$325 NEW PIANOS AT ONLY \$215
- \$700 NEW PLAYER PIANOS \$425

Used Upright Pianos, fully repaired, \$127, \$133, Etc. Square, \$38 Up. New Organs, \$38 Up. Used Organs, \$9 Up.

EVERY PIANO ABSOLUTELY GUARANTEED—In offering these HENDERSON PIANOS and PLAYER PIANOS to the public, we do so with every confidence that they will give perfect and lasting satisfaction. We have fully investigated this Piano and its process of manufacture. It is a thoroughly well made instrument—constructed of high class materials, by expert workmen, in a most modern and well equipped factory. The Ann Arbor Piano and Organ Co. spared no expense to maintain a high standard of excellence in its product. The hundreds of beautiful pianos now in our possession bear eloquent testimony to the painstaking care and honest effort put forth in their production. We have no hesitancy in giving with each Henderson Piano OUR OWN GUARANTY, which, backed by our vast resources and long established GRINNELL reputation is a bond of absolute protection to every purchaser.

SPECIAL EASY PAYMENT TERMS.

As little as \$10 will send one of these brand new HENDERSON PIANOS to your home at once; on the balance you need pay only \$5, \$6, \$7, or \$8 monthly, according to price. Quarterly payments arranged if preferred. The square Pianos and Organs may be purchased on payments as low as 50c weekly. With each Piano we furnish FREE during this sale, latest style Stool and handsome Silk or Velour Drape; with Organs, Stool and instruction book. We pay delivery or freight to your depot. RAILWAY FARE ALLOWED EVERY OUT-OF-TOWN PURCHASER TAKING ADVANTAGE OF THIS SENSATIONAL-MONEY-SAVING EVENT.

BE SURE TO ATTEND THIS SALE.

This Stupendous Receiver's Sale is an event no intending purchaser can afford to miss. Every one of these instruments represents a bonifide saving of many dollars. Under ordinary conditions such prices as we are making would be absolutely impossible. If unable to call, write or phone us AT ONCE, and full information will be immediately furnished.

ABOUT THE GOSSIP.

Consider the gossip. She toils not, neither does she spin except yarns. She is not, (or, as posing is genderless, shall we say it is not?) creative, but destructive; it does not build up, but is ceaselessly tearing down, says the editor of the Hancock Copper Journal. The gossip deals in reputations, our dearest and most fragile possessions. Madame Grundy is ruthless, reckless, relentless. It matter not that the target of her poisoned darts is innocent of harm, nor that her shafts may bring lasting hurt to one who had never invited such wrong at her hands. A word over the tea cups; at the card table, in the privacy of the afternoon call and the seed is planted. If the ground be fertile, the seed thrives wonderfully, and soon the plant has grown to monstrous dimensions which the original sower regards aghast, but it is too late. The harm has been done.

Gossip needs nothing substantial upon which to build. The most most fragile material has been used as a base for the most magnitudinous tower of lies, and there are laborers ever ready to lend a hand. Gossip is not confined to women, contrary to the general belief. We have known many men among the panders to Madame Grundy's court, but with the sternest sex, when the victim is a man, there is always some recourse. With the weaker, and their victim is usually one of their sex, there is none. The object of their perhaps unthinking malice must "grin and bear it," and grinning does not always come easy under such circumstances.

If when we heard some choice bit of gossip we did but forget it and refuse to speed it on its way, embellished and garnished with such added bits as we regard fitting, there soon would be no market for Madame Grundy's wares. But, what's the use of baying at the moon or wishing for the millennium? It does not serve to abash the one or hasten the other. We all scorn the gossip publicly, and then when some particularly delicious morsel comes our way we devour it with all the more appetite because we have been for a time denied.

OVERDRESSING SCHOOL CHILDREN.

In a lecture at the First Baptist church Doctor Emma F. Drake occupied solid ground when she dissuaded well-to-do parents from sending their children to the public school in rich clothes, says the Milwaukee Evening Wisconsin. In the first place, the practice is likely to be injurious to the character of the children who are overdressed, causing them to bestow

thought upon their clothes that should be concentrated upon their studies. In some instances they may be foolish enough to assume themselves superior in taste or refinement to others less elegantly attired. Secondly it fills with heartburnings many whose parents cannot afford to furnish their children with fine clothes, and leads foolishly ambitious parents to enter into a competition in wasteful expenditure which they cannot afford.

The bad effect upon poor children of seeing some of their school fellows ostentatiously dressed often is evident even where the richly dressed children are free from snobbery. Where snobbery exists the situation becomes intolerable. School is a place for simplicity. There may be harmless competition in neatness, but not even at exhibition time should there be permitted rivalry in expensive clothes. The schools in which fine clothes for graduating exercises are discouraged deserve encouragement, for they are in the right.

Nothing should be tolerated in the public schools that tends to emphasize class distinctions. Class distinctions are odious, especially in a republic.

GAINS FOR WOMAN SUFFRAGE.

Favorable votes on woman suffrage propositions were reported the past month in one or both branches of the legislatures of Nevada, Wisconsin, Illinois, Nebraska and Maine.

Whatever one may think of the results to be gained by this revolutionary change, it is certain enough that women will get the ballot when they ask for it.

The equal partnership of woman in American life is now firmly established. The word "obey" occasionally is left in the marriage service, out of deference to tradition. This is perfectly safe on the part of the woman, as the number of men who issue any commands now-a-days is pretty near to zero. If they did issue them, they would not dare happen around to see if their orders were being obeyed.

So when woman knocks at the door of political activity, she will find that all she has to do is to open it, just as she has knocked at and opened all industrial doors that have interested her.

The great bulk of womankind remains indifferent to suffrage. The usual experiences of their husbands in being flattened under the political steam roller do not make this field of activity look very inviting.

Pennsylvania has passed a law against immoral shows, but it remains to be seen if the actresses can survive if they have to wear the same amount of clothes as other people.

Our ambassador to Germany resigns, and we have faith to believe that some patriot will be found to succeed him who has proved his fitness by capturing the requisite number of convention delegates.

The house has voted 296 to 16 for popular election of senators, but the noise made by small boys playing outside the windows never bothers our august solons.

The members of the new Girl Guides organization have to wear khaki, but if it is properly hobbled so that they can't do much guiding, they will put up with the ugly material.

Mrs. Fanny Bullock Workman is starting on her sixth annual climb up the Himalayas. This would seem a pleasant jaunt after some places we have had to lug a picnic basket to.

The Mexicans want a free ballot, but as the man once said when his daughters asked him for a chandelier, "they wouldn't play on it after they'd got it."

The French wine growers have smashed 250,000 champagne bottles. Are they after the China smashing records of some of our hired girls?

The president threw out the ball at Washington's opening game, but he'd find it easier to settle the Mexican trouble than go down and take the umpire's place.

A New York official says that criminals are driving cabs in that city. It takes a New Yorker longer to learn things about that town than it does a stranger.

Photographs of King George give him a most severe expression as if he were thinking about the serious poem Alfred Austin will write on the coronation.

The Italian Camorrists are suffering from brainstorm, but as they haven't got an American lawyer it won't do 'em any good.

SENSATION LOOKED FOR IN LAKE REBATES PROBE

Large Corporations and Prominent Financiers May be Indicted at Cleveland.

Chicago, April 21.—A profound sensation is expected within the next week or ten days by the indictment probably at Cleveland, of men prominent in commercial life and large corporations for violations of the interstate commerce law prohibiting the payment of rebates.

The government expects to prove Advantage Over Competitors. The government expects to prove the terminal charges complained of have been out of all proportion to the value of the services rendered and have been given those interested an undue advantage over competitors not similarly situated. The practice has continued for some years, but the government regards it of the highest importance that the courts should once for all finally decide just where the law prohibiting rebating becomes operative.

The Law involved.
The section of the law under which the indictments are asked reads that no carrier shall "charge or demand or collect or receive a greater or less or different compensation for the transportation of passengers or property or for any service in connection therewith between the points named in such tariffs than the rates, fares and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares and charges so specified."

A Reliable Medicine—NOT A NARCOTIC.

Foley Kidney Pills contain in concentrated form ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments and urinary irregularities. Foley Kidney Pills are antiseptic, tonic and restorative. Refuse substitutes. For sale by all druggists.

WISCONSIN INSANE INCREASE 8 PER CENT

Madison, Wis., April 21.—An increase of 8 per cent in two years in the number of insane persons incarcerated in the Wisconsin state and county asylums is shown in compilation of statistics announced by the state board of control.

Two years ago the total was 6,156, or one to every 359 of the population, and on March 31 of this year it was 6,687, an increase of 531. Of the latter total, 4,879 were in county asylums and 630 in the Milwaukee hospital for the insane at Wauwatosa, which institutions are not under the direct control of the state.

The census figures issued by the board of control show that in all of the state charitable and penal institutions there were on March 31, 4,035 inmates of whom 1,188 were insane and 2,847 in the other institutions.

DATES AHEAD

SPRING REFUSE IS MENACE TO HEALTH

"Special precautions should be taken at this time of the year to protect the public health," said a well known Escanaba physician this morning. "There is more or less miscellaneous refuse and filth, which each individual resident should collect and

WARNING

An injunction was granted in the Circuit Court of Chicago on the complaint of Foley & Company, restraining the Crane Medicine Company, Henry B. Foley & Company, or Henry B. Foley from selling, offering for sale, or advertising Foley's Quinine and Tar or Foley Kidney and Bladder Pills under these names and in yellow cartons.

Foley & Company will of course prosecute any attempt at imitation of the names or packages of their products. The original and genuine Foley's Honey and Tar and Foley Kidney Pills, which do not and never have contained any opiates or habit-forming drugs, and are put up in a yellow package, are being supplied as formerly. **FOLEY & CO., 319 W. Ohio, Chicago, Ill.**

have removed from his premises, this matter being a private rather than a public duty."

"Another disease breeder at this season of the year deserves mention. It is the filth that appears on the streets with the melting away of the snow.

"The greatest danger is when the streets begin to get dry in places so that the dust is blown about. This dust is reeking with disease germs of almost every kind and when inhaled, often results in pulmonary and other serious ailments, among those whose constitutions are not strong enough to throw off the poisonous germs inhaled."

Good health is a great asset in the spring, when there is really more opportunity for contracting diseases than at almost any other time of the year. It behooves everyone to use the greatest possible precautions and to keep his premises neat and clean, both for the sake of his own health and that of his neighbors.

Cures baby's croup. Willie's daily cuts and bruises, mamma's sore throat, grandma's lameness—Dr. Thomas' Eucletic Oil—the great household remedy.

NAVAL MILITIA THE SAME AS REGULARS

Members of Naval Board of Inspection Who Visited Hancock Recently are Recommending Changes that Will Bring Naval Militia Forces Nearer Regular Navy Standards.

Members of the Escanaba division of the Michigan Naval Reserves will be interested in the statement that Captain White, Naval Constructor Nutting and Paymaster McMillan, of the naval board of inspection, who visited Hancock recently for the purpose of inspecting the Hancock division and also the training ship Yantic are recommending such changes in the equipment of the various divisions along the Great Lakes, as to bring the naval militia forces near or the standards maintained in Uncle Sam's regular navy.

The greater liberality of the navy department in furnishing supplies to the naval militia, the more rigid inspection given the state forces and the application of the rules of the regular navy to the state sailors of late years, have shown the trend of sentiment in the navy department. The members of the board say that the government is coming to recognize more and more the fact that the civilian sailors are a potent force in the country's naval force, and would be very valuable in time of war, if kept up to a proper grade of efficiency in time of peace.

The standards of the regular navy are being applied to the naval militia all along the line where practical. On the annual cruise and the drill, naval discipline and naval etiquette prevail. Regular officers are stationed on each ship of the Great Lakes fleet during the summer maneuvers, and last year, for the first time in the history of the naval militia on the lakes, an admiral's inspection was given the fleet. The militia of the coast states is given cruises and maneuvers on the regular ships during the summer and the navy department is showing a disposition to do everything possible to encourage the militia and keep it up to a grade of efficiency, which should allow the state forces to keep step on regular ships and operate them if the occasion should require.

PRAYER CHAIN IS BOBBING UP AGAIN

A number of Escanaba people have received within the past few days copies of a letter which for a number of years has been mailed in a chain throughout the United States. It contains a prayer and the recipient is adjured, under pain of dire happenings, to mail nine copies to friends. They are told that evil will befall if they disregard the injunction.

The tenor of the prayer and letter indicates a Catholic origin but the Catholic church authorities repeatedly have warned their people that the letter chain has no ecclesiastical sanction. People receiving it should forget it because it is only a silly practice begun by some one suffering from an excess of mistaken devotion.

FREES 200 CANARIES AT EASTER SERVICES

Philadelphia, Pa., April 21. — Two hundred splendid singing canaries caused consternation for a few moments Easter Sunday among the worshippers at the Central Congregational church here. The little birds were released in the church at the morning services, just before the sermon and as the choir was singing during the offering. Getting their freedom the little singers flew in all directions, some alighting on the new Easter bonnets of the women worshippers, while others flew to the flowers which decorated the church.

Some of the women at first seemed to resent the use of their hats as roosting places and added to the fear of the little creatures by shaking them off and aiming what appeared to be rather unkind blows at the birds. Through all the excitement the choir continued the anthem, the members having been advised as to what was coming. The idea of releasing the canaries originated with Rev. C. L. Koss, pastor of the church. So good was the effect after the excitement had died down he declares he will try it on some future Easter Sunday.

Backache, Rheumatism, Nervousness.

Mean disordered kidneys. Foley Kidney Pills have helped your neighbors; they will also help you. Mrs. Louisa Williams, Flint, Mich., says: "My daughter suffered with rheumatism for three years. I procured a supply of Foley Kidney Pills and she took them according to directions. In a very short time the rheumatic pains all left her and she has been well ever since. I am very glad to recommend Foley Kidney Pills to anyone suffering with rheumatism or other kidney trouble." For sale by all druggists.

THEATRICAL.

THE PETERSON

What will perhaps be one of the best musical entertainments which the people of Escanaba have ever had the privilege to hear will be given at the Peterson opera house this evening by the Lawrence University Glee club of Appleton. The club recently returned from a tour of the southern states, and they delighted immense audiences everywhere they appeared. The club is composed of thirty young men, one of whom—Lester Armstrong—was a former resident of this city. The admission prices will be 50 and 75 cents tonight, which is very low considering the high character of the concert which will be given, and no one should miss it.

THE GARRICK

Thursday evening the Garrick Stock company made its weekly change of bill, "The Irish Detective" being followed by a play called "The Tie That Binds." This piece is in four acts and is quite interesting, although the story it tells is not the most pleasant in the world, for it abounds in situations of misery and villainy, which are relieved only here and there by the counterbalancing virtues of true love, honesty and devotion to the better elements of human nature. Speaking generally, the play was well presented, although some of the members of the cast did not appear at their best. First honors in this production may be accorded to Miss Beattie Fox in the double role of Barbara Dale and Mrs. Jeannine Blaggs, Z. Volney as Stephen Marler, Miss Ella Kramer as Ruth Hope and Miss Clara Duffaday as Juliana Blaggs. Miss Fox was particularly good in the comedy character of Mrs. Blaggs and quite surprised those who had not been particularly impressed by her work in plays previously presented. Jack Snyder as George Brand did not measure up to the requirements of his part, being altogether too stiff and automatic in his actions and expressions. Eugene Phelps as Josia Deane gave a good characterization of a kindly old man. Thomas E. DePew, the versatile comedian of the company, is playing a minor role in this production, but his work is excellently done. Victor Hubert and Raymond McSherry also have small parts, but do well with them. The play is attractively staged and

costumed. Between the acts good specialties and a moving picture exhibit are given. The audience last night was of large size and apparently very well pleased with the show.

THE PETERSON

Because every one all over the country is humming, singing or whistling some numbers of the score of the big sensational musical success, "Madame Sherry," the Impression is current in some quarters that the production's charm is in greater part musical. Report says that the mirth qualities of the play are no less engaging than its score. The love of a man for a maid under odd circumstances, love of the soulful, romantic sort, love that blossoms in the heart of youth and flourishes as true love ever does, when things do not go smoothly, is the reigning spell of the production, according to report, but this love, this courtship is so beset on so many sides, and attended by so many misadventures that while itself remaining an appealing interest, all its accessory situations arouse amusement. Some idea of the fun developed may perhaps be gleaned by a summary of the characters of the play which besides the lover include an Italian house janitor, his Irish wife, a lively fun-loving actress, a New York man about town, an excitable Venezuelan, an amusingly whimsical uncle of the maid in love, and others, including the pupils of a dancing school and the guests of a yachting party. "Madame Sherry" will be seen at the Peterson next Wednesday night, April 26.

THE PETERSON

John W. Vogel's Big Minstrels boasts of a silver cornet band of twenty-one pieces and a double symphony orchestra of fifteen, both under the able direction of the popular director, Prof. James L. Finning, and the Louisiana Glee club, under the direction of Harry Leighton, who has the reputation of being the foremost vocal director in the minstrel business, will supply the vocal numbers. John W. Vogel's Big City Minstrels will appear at the Peterson on the evening of May 4 and should be greeted by a crowded house.

"The Girl in the Taxi" comes to the Peterson on May 17. The play was adapted from the French by Stan-

islaus Stange, who has retained all the original French atmosphere and cleverness which made the piece such a sensation in Paris and Berlin where it ran for upwards of 1500 nights. The high lights of midnight life in the cafes and on the boulevards is depicted with all the mastery for which the foreign author, Anthony Mars, is famous.

We have just received a One Strap PUMP in dull and patent leather that we will guarantee to be the best value that we ever sold.

WEATHER IS TOO COLD FOR GROWING CROPS

Washington, April 21.—The weather bureau's weekly crop review shows that the weather generally was unfavorable over most of the agricultural and fruit growing districts. In the corn and winter wheat growing states from Iowa and Missouri eastward freezing temperatures occurred in the southern portions and it was generally so cloudy and wet over the southern portions.

Over the Atlantic coast districts from Virginia northward killing frosts occurred, although without material damage, vegetation being backward. In the fruit growing districts of the far Northwest, including Idaho, Western Colorado and Utah, much loss occurred to early fruits by severe cold. Spring wheat conditions are generally favorable.

WOMAN PELTS COPPER WITH BOILED EGGS

New York, April 21.—A woman, who describes herself as Mrs. Helen Grieser of 110 West Twelfth street, Manhattan amused herself at Graham avenue and Grand street, Brooklyn, by pelting Policeman Dwyer with boiled eggs. He arrested her after some of the eggs had left stains on his uniform. In court she told Magistrate O'Reilly that she came to Brooklyn to buy fresh eggs, but the dealer gave her boiled eggs instead. She was so angry, she said, that when she caught sight of the policeman she "determined to get revenge." She was fined \$1.

Out of every dozen people you see on the streets these days, two or three are on their ways to answer advertisements.

FAIR MONEY BILL NOT ACTED UPON

It is Not Reported From the Committee for Senate Action and Dies There—Senator Fowle Writes Agricultural Society Secretary About the Matter.

Delta county will get no financial aid from the state for its proposed upper peninsula agricultural fair. The legislature adjourned without the senate's having taken any action on the bill which had been passed by the house providing for an appropriation of \$1,500 a year for two years for such a fair. The bill was never reported out of committee and died there. In reference to the matter Secretary Torvald E. Strom of the Delta County Agricultural Society has received the following letter from State Senator Otto Fowle, who did his best to get senate action on the bill:

"Lansing, Mich., April 19, 1911.

"T. E. Strom, Esq., Delta County Agricultural Society, Escanaba, Mich.: "Dear Sir—We were unfortunate in attempting to secure any aid for an agricultural fair in the upper peninsula this season. The legislature has decided to make no appropriations for fairs and I am unable to get the bill out of the committee. Am very sorry, but we have to accept the inevitable. Very truly yours, Otto Fowle."

The efforts to secure an appropriation having failed, the Delta County Agricultural society will devise other ways and means for raising the money necessary for carrying the fair project through to success. It has been proposed to issue bonds and a meeting of the society's directors will be held soon to consider and act upon this proposition.

SHOWS NO MERCY TO BLACK HANDED

(By Associated Press.)
 Chicago, April 21.—Miana Alongi, charged with being a member of the "Black Hand" was sentenced today to five years imprisonment at Fort Leavenworth penitentiary and fined a thousand dollars by Judge Landis in the federal court. Alongi was convicted of sending threatening letters through the mails.

GLADSTONE CASE STILL ON TRIAL

Trial of the case of Abraham A. Rogers of Gladstone against Dr. David N. Kite of the same city, which was begun yesterday, is still in progress in circuit court. It is being hard fought by both sides and many interesting features have been developed by the testimony of witnesses and experts. Among the latter on the stand were a number of physicians of note from outside the city. Mr. Rogers is seeking to recover damages for alleged malpractice by the defendant. Martin & Martin of Green Bay represent the plaintiff, while Attorneys I. C. Jennings and S. M. Matthews are looking after the defendant's interests.

LONDON NEWSPAPER SOUNDS AN ALARM

(By Associated Press.)
 London, April 21.—The Morning Post, in an editorial today on the work of the coming imperial conference, suggests that the committee on imperial defense take the opportunity to discuss how to meet the American naval menace on the Great Lakes.

The Post declares that it does not matter that these vessels are called training ships; their presence is a violation of the Rush-Bagot treaty and a standing menace to Canadian independence. It would be better from the British standpoint, says the paper, to let the Americans denounce the treaty if they do not wish to abide by its terms.

Finally, the Post proposes the postponement of the lord mayor's meeting in support of the arbitration treaty until the American government has given an earnest of its good faith by dismantling its navy on the Great Lakes in accordance with the existing peace treaty.

JAMES T. BENNETT TAKES NEW PLACE

James T. Bennett of Detour, well known in Escanaba, has taken a position as general agent for the Western Securities company, controlling 712,000 acres in the upper peninsula, and will assume his duties May 1. Mr. Bennett will make Sault Ste. Marie his headquarters and next fall will move his family there from DeTour. Mr. Bennett is a former legislator and last year was supervisor of the census for the upper peninsula district.

DRILLING FOR ORE NEAR STONINGTON

Ore Yielding a Large Percentage of Iron Has Been Found and Arrangements are Now Being Made Preparatory to Sinking a Shaft—General News of Stonington.

(Special Correspondence.)
 Stonington, Mich., April 21.—Iron ore has been located near Stonington and the drill is being vigorously applied. The drillers are working day and night on the Wagner property and have found an ore yielding a large percentage of iron. Arrangements are being made preparatory to sinking the shaft.

Dr. Durrell was at A. Reynolds' on a sick call last Thursday.

Miss Ellen Reynolds has returned home after almost a year's absence.

Stonington's newly elected road overseer is already fulfilling the requirements of his office by making the roads more traversable.

George and Hans Lorenson rowed to Escanaba for the mail last Tuesday.

MILES OF CARPET TRAVELS BY RAIL

The Chicago and Northwestern Railway Company Makes an Unusual Shipment of New York—Solid Train of Fifteen Cars Containing 15,000 Yards of Carpet.

Charles R. Henderson, local agent of the Chicago & Northwestern Railway company, was yesterday advised by the management of the company that one of the most unique shipments of merchandise ever made over any railway system in this country left New York yesterday for San Francisco. It consisted of a solid train of sixteen cars, containing 15,000 yards of carpet. It was a special train over a half mile in length.

The management of the railway took the trouble to procure some interesting facts concerning the shipment. There were over 600 miles of carpet in the train, representing enough to lay a breadth the entire length of the Chicago & Northwestern railway from Chicago to Omaha. The carpet was consigned for Alexander Smith & Sons' carpet works of Yankers, N. Y.

To make this carpet required the labor of 7,800 workers for eight days, an equivalent of one day's work for 62,400 operators. If the carpets were piled up in rolls one on top of another on an area of 400 feet it would overtop the Singer building tower, in New York City. The weight of the carpet is 1,500,000 pounds and its total value is almost \$1,000,000.

SOCIALISTS WANT TROOPS WITHDRAWN

(By Associated Press.)
 Washington, April 21.—Representative Berger, Socialist of Wisconsin, today presented in the house a petition of ninety thousand citizens of the United States to withdraw the troops from the Mexican border. The petition declares that the presence of troops is aiding in the suppression of what the petitioners believe to be a just struggle for liberty.

VEToes ASYLUM APPROPRIATION

A telegram received from Lansing last night states that Governor Osborn has vetoed the special appropriation bill passed by the house for the Newberry asylum, excepting the appropriation for water mains, which is reduced from \$6,000 to \$2,500. As passed by the house, the asylum appropriation bill called for the expenditure of \$67,200, as follows: Cottage, \$55,000; cloister, \$1,400; furnishing cottage, \$4,000; heating and extension \$900; water mains, \$6,000. This action from the governor is taken by many to mean that numerous other appropriation bills passed by the house will be materially pared down by the state's chief executive.

REVOLUTIONARY PLOT IS UNEARTHED IN CHINA.

(By Associated Press.)

ROMAN PLAY GIVEN BY LATIN STUDENTS

Pupils of Third Year Latin Classes in the High School Give a Fine Dramatic Version of the First Four Orations Against Cataline—The Cast of Characters.

Following the regular session of school Thursday afternoon the pupils of the third year Latin classes in the High school gave a dramatized version of the first four orations against Cataline. It was given before a most appreciative audience of instructors and students from the other Latin classes and is said to have been one of the best things in its line ever attempted here.

The participants dramatized the classic themselves and, according to The Mirror's informant, were most successful in their interpretation of the spirit of the Roman legislators and the conspirators against the Roman republic. One of the instructors in the High school who witnessed the production said: "It is just such work as this that even mature people like and the students with their instructor, Miss Fenton, are to be highly commended for the success of their attempt to humanize the Latin classic."

Following was the dramatic personae of the dramatization and a synopsis of the three scenes:

Cicero, the Consul.... Myron Haring
 Catiline, leader of Conspirators..... Fred Hodson
 Caesar, a senator..... Carleton Reade
 Silanus, a senator..... Francis Klassel
 Marcus, a senator..... Lone Woolpert
 Volturcius, a conspirator..... Amy Anderson
 Lentulus, a conspirator..... F. Yockey
 Gabinius, a conspirator..... Bill Godley
 Officers..... Fred Hodson, Carleton Reade
 Ambassadors of the Allobroges..... Francis Klassel, Helen Moran
 Senators..... Members of Latin II.

Act I.—The senate house. Cicero, the consul, previously has discovered the plans of Catiline and charges him with treason. Catiline denies the charge, but finally confesses and vows vengeance. He escapes.

Scene II.—The senate house. The conspirators are captured and brought to trial. Through Volturcius, who turns state evidence, and the ambassadors of the Allobroges to whom the letters had been given, they are convicted. They deny the charges but finally confess. The senate decrees that they be taken into custody.

Scene III.—The senators debate on the life or death sentence. They are undecided. Silanus, Caesar and Cicero inflame their minds on either side. Cato finally persuades them to vote for the death penalty.

MORE CHANGES IN DIPLOMATIC POSTS

Herbert D. Peirce Resigns as Minister to Norway and is Succeeded by L. F. Swenson, Minister to Switzerland—Other Changes Result as a Consequence.

(By Associated Press.)
 Washington, April 21.—The diplomatic shake-up which was first evidenced by the resignation of David Jayne Hill as ambassador to Germany continued yesterday when it was announced that Herbert D. Peirce had resigned as minister to Norway and that in consequence several transfers would be made.

L. F. Swenson, minister to Switzerland, will succeed Mr. Peirce.

Former Representative Herman Boustell of Illinois, recently appointed minister to Portugal, will go to Switzerland.

Edwin Morgan, minister to Uruguay and Paraguay, will be transferred to Portugal.

While Mr. Taft has not decided definitely upon the successor to Dr. Hill at Berlin, one name that is expected to be considered is that of Representative Nicholas Longworth of Ohio. Mr. Longworth is understood to be willing to enter the diplomatic service. Both he and Mrs. Longworth, who was Alice Roosevelt, are intimate friends of the president.

ARRANGING FOR SCHOOL FIELD DAY

This afternoon the executive committee in charge of the arrangements for the first annual field day of Escanaba's public schools is holding a meeting to make preliminary plans for the events of the day. This committee is composed of Superintendent Kirk, several of the High school instructors, and a number of young men, including Dr. R. E. Hodson, Dr. George Bartley, Rintoul Whitney, Dr. Guild and Attorney Thomas Riley. Friday, June 9, has been selected as the date for the field day.

A lax liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulets (25 cents per box) correct the liver, tone the stomach, cure constipation.

BUSINESS MEN'S REQUIREMENTS

I. YOU require, first, that YOUR BANK shall be absolutely safe And that it be prompt, considerate and decisive in its dealings with you That it be progressive, and enter sympathetically into your business plans That it be conservative, as a safe balance to your enthusiasm That it be large enough to inspire confidence, but not too large to be interested in YOUR welfare.

This Bank Meets These Requirements fully, and invites the patronage of conservative business men.

MILLERS WILL FIGHT FREE FLOUR IMPORTATION.

(By Associated Press.)
 Chicago, April 21.—Members of the National Millers' Federation will oppose the free importation of flour from Canada as provided for in the proposed reciprocity agreement and will meet at Niagara Falls June 14 to devise means to defeat the agreement.
