Brief Notes From Neighboring Cities

Three men were killed, two others and a woman injured and a score of passengers bruised when train No. 17, known as the Velvet Special on the Soo line, running between Chicago and Duluth, ran into an open switch at the south crossing at Fremont, Wis. at 1:25 o'clock yesterday. The dead are Aug. Knester, engineer and two tramps.

Three hundred farmers attended the summer institute for Marinette county held at Crivitz on Labor day. The institute was a success from every standpoint and both farmers and speakers were enthusiastic over the work accomplished. In the evening the business men of Crivitz gave a banquet at the Hotel Umberhaum, in honor of the visiting speakers. About fifty guests enjoyed a splendid repast, and listened to a number of entertaining addresses. Ex-senator H. P. Bird of Wausaukee was one of the prominent figures at the meeting.

Send for the KC COOK'S BOOK—its FREE.

Every Housewife Should Have a Copy

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

The Cook's Book has been prepared at a cost of many thousands of dollars, in the interest of better and healthier cooking. It shows the way to reduce the cost of living, containing as it does over 90 thoroughly tested, tried and proven recipes that will be successful every time, if the few simple directions are followed.

This is truly a wonderful book, showing as it does in hundreds of ways how to lighten the good housewife's burdens and solving bake-day problems successfully. It really must be seen to be appreciated, for the recipes are illustrated in natural colors. Those who have seen it, immediately say: "It's the best Cook Book I've ever seen"—and you will too.

You can secure a copy of this valuable book absolutely free by attaching the colored certificate packed in 25-cent cans of K C Baking Powder to this advertisement, sending both to the JAGURS Mfg. Co., Chicago, Ill. Write your name and address plainly. 37

SINK BATTLESHIP SEVEN MILES OFF

Claim Is Made For Uncle Sam's New Torpedo.

POWERFUL ENGINE INVENTED.

Has 50 Per Cent More Range Than Any Others - Super-Dreadnoughts More Completely Than Ever at Mercy of Submarines.

The range of torpedoes will be increased from 4,500 yards to 12,000 yards by two new types completed recently by the bureau of ordnance. Armor piercing torpedoes of this new type, it is claimed, can be fired from battleships, torpedo boats and submarine tubes at a range of nearly seven miles with the same accuracy that projectiles are hurled from large guns.

Some time ago it was learned by the naval authorities that foreign torpedo companies had developed torpedoes with a range of 8,000 yards and that some of the powers had placed orders for this class of projectiles. It became apparent that something must be done to meet this increase in the strength of other navies. A board of officers in the ordnance bureau was assigned to the task, and as a result the American navy now leads the world in this important feature of naval warfare.

At the bureau of ordnance it was stated that unless some new defense against torpedoes is developed the most powerful super-dreadnought would be helpless against the attack of submarine and torpedo boats. Especially does this new type of torpedo increase the destructiveness of submarines.

By the plan now being prepared submarines are to be equipped with twelve of these new projectiles. It is not thought it will be necessary for submarines to fire at a longer range than 2,000 yards. From that distance it will be impossible for officers on a battleship to locate a submarine, and there has not yet been devised any way to attack these boats.

Ordnance Bureau's Claim.
 Officers of the ordnance bureau declare that at a distance of 2,000 yards a submarine could drive its twelve

All the new torpedoes of this powerful type will be built by the navy at the torpedo testing stations. Their construction is a secret which will be jealously guarded by the ordnance bureau.

The new fighting machine is a complex and delicately constructed mechanism. It will require a highly trained crew of officers and men to fire these powerful engines of destruction with any degree of accuracy. It has been demonstrated at the torpedo testing stations that it can be done, but not without a thorough knowledge of the workings and peculiarities of the mechanism.

According to the report of Miss Hansen, secretary of the Calumet Associated Charities, for the past month of August the association gave assistance to 78 families in this community during the month, a slight increase over the number helped during August of 1910. Employment was found for several people who needed work.

EARLY TROUBLES OF LOBERT

Barney Dreyfuss Paid His Fare Home From St. Louis—Spent Last Nickel to Get Shoes Shined.

Hans Lobert delights in telling the boys about his first professional experience. Hans was canned from St. Louis City after he had been in the squad about ten days, and the German did not have the change to take him to his home in Pittsburg.

He managed to scrape together enough to take him to St. Louis. Hans says when he landed in the Mound City he had 15 cents and had not eaten for two days.

He proceeded to a three-cent hash-house and ate 10 cents' worth, and then, to show that he was a sport, he spent the other nickel to get his shoes shined.

Lobert met Barney Dreyfuss that very day, as the Pirates were playing the Cardinals. Dreyfuss had heard of Lobert, and knowing that he was a Pittsburg boy, gave him enough money to take him home.

Upon arriving home he got a letter from Mike Finn, Little Rock's manager, offering him more money

Major League Notes

Pitcher Coza of Henry set what probably is a world's record on Saturday when, in the baseball tournament at Henry, Ill., he pitched and won four games for Henry the latter team winning the tournament.

What a shock it was to baseball writers for gags about "the new American league manager," "an irremovable Athletic," "the new boss of the Athletics, and similar quips had to be tossed into the waste basket! Connie Mack's new baby is a girl.

After again winning the world's championship in October, the Athletics will challenge Mars, Saturn and Jupiter. They won't rest, will these ambitious youths, until they are the monarchs of the solar system.

Buzzards stopped trolley cars in Baltimore the other day. That's nothing; several chickens halted a Wells street pay-as-you-enter on Sunday.

Because there was too much crabbing on the bench the mikado of Japan has formed a new cabinet. They bar the sacrifice hit, but like the squeeze.

Says the New Yorker today to Rube Marquard: "All those names we called you two years ago, you ain't."

Treasure! Sedition! All the St. George's societies are looking for the marquis of Queensbury who wasn't in America a week before he pronounced cricket both dull and foolish and joined the ranks of the baseball fans.

President Lynch is dissatisfied with Hank O'Day's work. He hasn't pulled anything queer against the Phils.

Hints to the Hostess.

A finger bowl is the final service of a fruit course and usually terminates a dinner. The bowl should be half filled with water and set upon a plate holding a small dolly.

When the plate upon which the bowl is carried to the table is intended to receive the fruit, the bowl and dolly are placed at one side of the dish. Tips of fingers of each hand are dipped in turn into the water and rubbed together gently until all traces of the fruits are removed. They are dried on the napkin, which should remain on the knees and not be used as a towel after a hand bath.

If the water in the bowl is scented the odor should be very faint indeed. A better plan is to place a single fragrant blossom or leaf to float on the surface of the miniature lake. The host or hostess may set the example by taking the blossom from the bowl, drying it on the napkin, and pinning it on as a favor. Pansies are particularly pretty for this purpose, and nasturtiums make gay little crafts for sailing in the finger bowl.

Postage Stamp Lore.

If one writes a letter on business of an individual nature a stamp should be inclosed for the correspondent's reply. This rule is invariable. In writing to a business house where one's relations are constant one may not need to take this special care. For example, in sending an order for goods to a shop one need not inclose a postage stamp. In writing a letter requesting information the case is different, and a stamp should be sent with the letter. In other words, one should never cause expense, even in the small amount of 2 cents, to some one who is outside one's affairs. The bill for postage stamps where one's correspondence is large soon mounts to the region of dollars and gets itself quite beyond the province of trifles.

With The Fighters

Battling Nelson, former lightweight champion, who is in Milwaukee thinks Packey McFarland will give Ad Wollgast the battle of his life when the pair meet here on September 15. Bat saw Packey work in Chicago yesterday and says he will be strong at the weight. Packey is said to weigh 138 pounds now and has two weeks to take off 5 pounds.

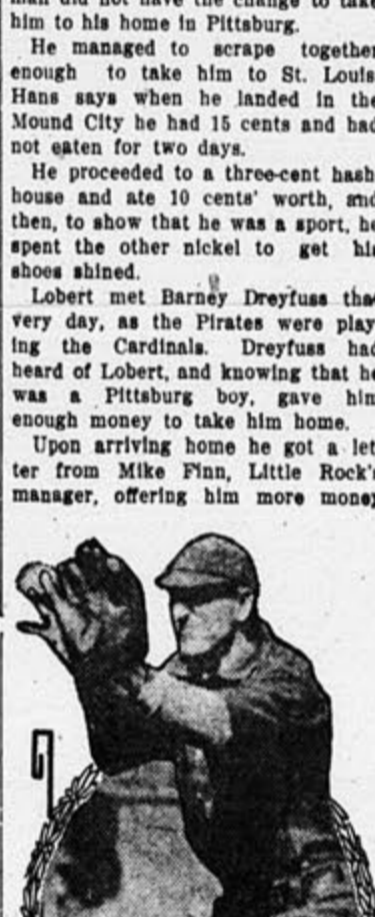

Those white hopes don't scare Mr. Jack Johnson one fragmentary atom, but that black hope, Mr. Sam Langford, O, me! O, my! how he does disturb the equanimity and poise of the bronzed champion.

Frank Laubner, one of the best guides in Alaska, left on a special train yesterday to follow the trail of James J. Jeffries, the pugilist, and his brother, John, who are hunting bear on Kona peninsula, and carry work to them of the serious illness of Mrs. Jeffries, who is at Los Angeles. The last heard of Jeffries' party was when they were hunting on Kelley river, near Kona village.

Tommy Dixon left Kansas City for New Orleans last night to complete training for his bout with Monte Atteil September 11 in that city. The fight is to be part of the elimination feather weight contest to decide which fighter is to meet Abe Attell. Besides Dixon and Monte Atteil, a brother of Abe, the others still in the race are Frankie Conley and John Kilbane.

In a conference last night after the Joe Rivers contest, Johnny Kilbane agreed to a change of dates and will meet Frankie Conley September 30. Kilbane said today he was willing to meet Rivers in a return match after the Conley contest and Manager McCarey of the Pacific athletic club announced he would arrange to stage the bout in October.

That name is a big handicap to "Knockout" Brown, who has been knocking out more colts than glove-men in the last year.

players to be traded, it is said, and the Washington club considers that it gives the equivalent of \$10,000 for the trio.

When days are slow, some men we know
 Are given to complaining
 But others, wise, are seen to rise
 Above the days of raining.
 And 'tis no joke, that some are broke,
 When pressed by business gads.
 The others, live, are known to thrive
 By using Mirror Ads.

Gunters sausages are free of cereals and all other dope. They are the best as well as the cheapest to use. For sale at The Provisioner's, Andrew Lindberg's, The Fair Savings Bank, Hubert Bubser's, Phil. She-dore's, S. W. Bernnan's and Gunter's.

The Optimist's Corner
 Daily Helps to Health and Happiness

By GEORGE F. BUTLER, A. M., M. D.

Many people could be rendered perfectly happy with the happiness which is lost in the world. We lose happiness because we often despise calm, quiet pleasures, and take interest and delight in nothing but that which excites, or we make the fatal mistake of thinking that happiness lies only in sensational events. Instead of in the small, trifling incidents of daily life. There is nothing which we waste more than happiness, and even those who are prudent and economical in other directions are prodigal in this respect. They pinch and stint to save a penny, but are often indifferent about the loss of days of happiness. We frequently fail to appreciate our friends until they die, or we lose them in some other way. We rush through a holiday trip and miss half the beauty of the scenery because we are in a hurry or anxious or troubled by worthless trifles. Nearly every old or middle-aged man who looks back honestly on his life will admit that, however wretched he may be now, opportunities for happiness were given to him which in some way or other he has neglected.
