

DELTA COUNTY DAY AT NORTHERN FAIR; SPEECHES HEARD BY PROMINENT MEN OF UPPER PENINSULA; GREAT CROWD ATTENDS

"Publicity" is Theme of Address by Theodore E. Quinby at Afternoon Session

TOMORROW IS ESCANABA DAY AT FAIR.

Today, Delta County day at the Northern State Fair, now in progress here, met with a banner attendance. Regardless of the chilly atmosphere almost the entire population of the county, came to Escanaba in interurban cars, by railroad or drove in to attend.

Exclamations of wonder are heard at every side. The farmers are surprised at some of the exhibits of produce grown in this county and scores of grange members spend the days in an inspection of the vegetables and grains on display.

The gates were thrown open at one o'clock this afternoon and a large crowd of newcomers surged into the grounds, bent upon obtaining a first glance at the magnificent display.

Free Attractions Perform. Harrison's trained troupe gave an exhibition at 1:30 o'clock.

At 2:30 o'clock the speaking program was due to begin, but a slight delay was occasioned. Attorney T. E. Strom, secretary of the Delta County Agricultural society had charge of this portion of the program.

Theo E. Quinby Speaks. "Publicity" was the theme upon which Theodore E. Quinby, manager of the Upper Peninsula Development Bureau directed his talk.

He spoke of the wonderful resources of this part of Michigan and urged that they be carefully conserved and developed, leading on into prophecy of what would result in time, when the value of the land here was more fully known. He added that the Upper Peninsula Development bureau was organized for the purpose of telling people of the best part of Michigan and inspired his hearers with the "booster" spirit.

Congressman H. O. Young is expected to be heard. George McCormick superintendent of the Menominee River Sugar Co., one of the largest refiners of sugar beets in the country is scheduled for a speech.

At 4:30 two of the free vaudeville acts, Montambo and Bartelli and the Swain-Ostman trio will put on their feature "stunts". The Ishpeming band is due for a brief concert.

CITY BANKS WILL CLOSE FRIDAY P. M.

In response to the proclamation of Mayor John S. Lindsay, issued yesterday, declaring Friday a local holiday because of the Northern State Fair, which is now in progress, the banks of the city decided to close on the afternoon of that day. The First National, Escanaba National and the State Savings Bank will close their doors at 12 o'clock noon for the day to allow employes to attend the event. Other business houses are expected to follow.

SENATOR WILL BE THE FIRST WITNESS

Milwaukee, Sept. 28.—United States Senator Isaac Stephenson will be the first witness before the sub-committee of the senate committee on privileges and elections when the investigation into the manner and method of his last election is started on Monday next. Senator Heyburn of Idaho, the chairman of the investigation committee, made this announcement today. "Senator Stephenson is being investigated and naturally he should be the first witness," said Mr. Heyburn.

Whether Senator LaFollette will testify is as yet uncertain. Senator Heyburn stated that at this time he had no reason to believe that Senator LaFollette would testify, at least at the request of the investigating committee.

ATTACKED IN BED.

(By Associated Press.) Danville, Ill., Sept. 28.—John Hinton and wife were found unconscious in their bed this morning with skulls fractured. They were discovered by their five year old child, who says he saw two men running from the house.

If bad weather prevents the carrying out of the Fair program on any of the day, the Fair will be continued on Saturday Sept. 30.

MARQUETTE MAYOR TALKS IN CHICAGO

Chicago, Sept. 28.—The delegates to the National Good Roads congress adopted resolutions: yesterday, calling upon all church in the United States to join in observing an "annual good roads Sunday." President A. C. Jackson of the International Good Roads association introduced the resolution.

The speakers today included W. H. Whitenton, vice president and manager in Texas of the Chicago, Rock Island & Gulf railroad, and John H. Jacobs, mayor of Marquette, Mich. Mr. Whitenton said that the producers of the United States annually are losing \$250,000,000 because of poor roads. This sum, he explained, represented the extra cost of transporting products from farms and mines to railroad and water way stations.

COURT HOUSE WILL GET IMPROVEMENTS

Concrete steps and portico will be erected in front of the court house to replace the present stone porch. The old steps are now badly worn and a move was necessary to replace them. Therefore, the county board of supervisors will receive bids for the work up to October 4, when the contract will be let. Plans and specifications are now in the office of the county clerk.

ALL ROOM TAKEN AT INSANE HOSPITAL

There is no room at the Newberry hospital for the insane for any more patients. Albert Lindahl, who was taken from the Garfield House a few days ago because he thought to be of unsound mind was yesterday adjudged insane and ordered sent to Newberry. Now it develops that there is no room for Lindahl at the institution. He will be compelled to await an opening.

Mrs. John Berrigan is quite ill at her home, 430 Ludington street.

GRANGERS TO MEET IN COUNCIL ROOM

CHILLY ATMOSPHERE AT FAIR GROUNDS DEEMED TOO DIS-AGREEABLE FOR MEET.

The council chamber of the Escanaba city hall will be turned over to the members of the various Granges of Delta County this afternoon and evening, in accordance with permission granted by Mayor Lindsay. The grange will hold a gathering there this afternoon and evening in preference to the regularly scheduled event at the fair grounds. The cold weather necessitated the removal, and it is believed that better results can be obtained from the meeting by holding it indoors. Hundreds of members are in the city today, visiting the fair and inspecting everything on display.

FIGHTING FOREST FIRES AT GRAND

Manager Fred G. Barrett of the Grand will assist the Northern Forest Protective association by throwing on his curtain a number of lantern slides giving advice as to the prevention of the fires and other things relative to the work of the association. The slides are furnished by the association and will be sent to any of the houses that are willing to run them without charge. Mr. Barrett expressed his willingness at once to aid in the good work and this morning was the recipient of a very cordial letter from the secretary, thanking him for his promptness in offering his services and the services of his string of the streets in the work that the association is trying to accomplish.

IRONY OF FATE SEEN IN HYDE COLLISION

An instance of the irony of fate was given Tuesday night when Charles Graham, moving his family and household goods from Birch Creek to Perronville, had his outfit struck by an ore train at Hyde. Graham saw the train approaching and caused his wife and children to leap from the wagon. He jumped in front and unattached the double tree allowing the horses to escape from the resultant debris. The train crashed into the wagon and reduced the furniture to kindling.

FLAT ROCK WINS FROM HYDE 20 TO 2

The Flat Rock baseball team found little difficulty yesterday in running up a 20 to 2 score over the nine from Hyde at the fair grounds. Derouin did the flinging for the winners and struck out 20 of the opposing batters. He allowed but four hits and these at times when there was no danger of the Hyde boys getting started. Murray for Hyde was hit comparatively hard, 13 drives being taken from his slants, but defeat came from weak infield support and superior base running of the Flat Rock squad. The game was played in a high wind, the penetration of which was sufficient to make the players uncomfortable.

JOHNSON-WELLS FIGHT ABANDONED

(By Associated Press.) London, Sept. 28.—The Johnson-Wells championship boxing match, scheduled to take place here in a few days has been abandoned by the promoters. The great pressure brought on them from the church and British government was sufficient to discourage them and make the fight impracticable.

William Boufias of Watersmeet was spent yesterday in this city on business.

PRESIDENT AT FORT DODGE TODAY

NATION'S EXECUTIVE ENDS TOUR OF KANSAS AND OPENS SERIES OF TALKS IN IOWA.

Fort Dodge, Ia., Sept. 28.—President Taft was greeted by a great crowd here, the first city in the state that he has touched in his long western tour. Senator Kenyon introduced him, declaring that the anti-trust laws are now being enforced better than ever before. Taft, however, said that the better enforcement was because the laws were better understood now than before.

Leavenworth, Kan., Sept. 28.—President Taft ended his four days' visit to Kansas here and departed for Iowa, where he will spend two days before again heading for the West. Yesterday Mr. Taft visited Topeka, Atchison and Leavenworth, stopping enroute to appear on the back platform of his train in response to the cheers of the throngs gathered at various points.

In all, the president traveled 845 miles in Kansas and made twenty-two formal speeches. He wound up here Wednesday with a discussion of the tariff, during which he again explained his vetoes and reiterated his willingness to sign any tariff bills that might be based upon the forthcoming report of the tariff board. Mr. Taft expressed himself as delighted with his reception in Kansas.

At Topeka, the president faced a throng in the capital plaza that was estimated at between forty and fifty thousand. In order that all might see him the president mounted a table that a few moments before had contained a case of flowers and a water pitcher. The way was intensely hot and the sun beat down upon the crowd. Mr. Taft abandoned his silk hat and spoke bare-headed. When he appeared at Atchison, however, he had laid aside the silk hat and wore a broad-brimmed Panama.

ONE DELIVERY OF MAIL TOMORROW

POSTMASTER COBURN ANNOUNCES THAT NO DELIVERY WILL OCCUR IN THE AFTERNOON

Postmaster H. W. Coburn announced this afternoon that there would be but one mail delivery tomorrow. That delivery will be made in the morning. During the afternoon all carriers will be allowed to attend the Northern State Fair, now in session. The postoffice will be open throughout the day and the clerks will be on duty.

"RUBE" BAND MAKES HUMOROUS SHOW

Not the least interesting of the amusing features of the Northern State Fair is the "rube" band made up of young men from Flat Rock. At the grounds yesterday the group attracted singular attention with their peculiar attire and grotesque instruments. Yesterday the band paraded on the city street in a humorous satire of the efforts of the Ishpeming band.

"RUBBER NECK" AUTO EARLY PIONEER ON STREETS TODAY

The big "rubber neck" wagon that was built in this city and that has been in service in Milwaukee for several months arrived in this city yesterday afternoon and is in service today carrying people to and from the fair grounds. The big wagon gives a civilized appearance to the street and is doing a good business.

VANDEBOOM NOT TO COACH MARQUETTE

Vanderboom, the star left half of the Wisconsin University football team of some years ago, has returned to Marinette and it is not believed that he will assist in the coaching of the Marquette university eleven of Milwaukee. He left for that city a week ago to handle a part of the work, as assistant to Coach Juneau, but for some obscure reason has given it up.

BONNY IS FASTEST TROTTER IN RACES

SHAKLEFORD'S ANIMAL STEPS A LIVELY PACE AND TAKES FIRST IN THREE HEATS.

By winning the 2:10 trot on Wells avenue this morning, "Bonny," the pretty little animal owned by J. D. Shakleford of Schaffer, established its reputation. "Bonny" lost the first heat but won the three succeeding heats.

Crowds lined the street from ten o'clock until noon when the last event was run off. Interest in the races were intense and because of the closeness of some, the additional heats were necessary. The way the 2:10 trot finished with credit for heats given each horse is as follows:
Bonny—2-1-1-1.
Peter Piper—1-3-3-3.
Oh So—3-2-2-2.

Peter Piper is the property of Herman Deslett of this city and Oh So is owned by Charles Ehnert of Escanaba. The committee in charge of the races was composed of Dr. W. J. Firkus, Thomas Richer and Joseph Hirn. The classification committee was made up of the same men. Horsemen of repute in Delta county acted as judges of the affair.

LEAGUE LEADERS HERE FOR GAMES

NEGAUNEE TITLE HOLDERS ARRIVE IN CITY FOR TWO CONTESTS WITH LOCALS.

The Negaunee baseball team arrived in the city today, fresh from the winning of the bunting in the Marquette-Delta league to open a two game series with the Escanaba team, at one time runner-up for the title. Scanlon and Olmsted are scheduled to handle the series with the champs for the local team. As the league season is ended, the eventful period of triumph for Negaunee, who trimmed the local nine out of twelve times, it is thought that Escanaba will endeavor to draw out the title holders and spring a double win on them.

Negaunee has booked an extensive post-season series. Leaving here Saturday morning the team will go to Menominee and play the team there Saturday and Sunday. The Menominee team is now composed of numerous Wisconsin-Illinois leaguers and a warm contest is expected. Leaving Menominee, Negaunee will go to Green Bay to try out Jack Pickett's aggregation.

FEATURES ATTRACT AT FAIR GROUNDS

BARKING OF SPIELERS NOT LEAST INTERESTING PORTION OF THE EVENT.

Not the least entertaining for the visitors at the Northern Fair are the "barkings" of the "spielers." Coupled with their work are the many peculiar and odd attractions that they represent. One attraction that is laughable is the "dip" affair. Baseballs are sold as in the regular "doll" show and the buyer told to throw at a target. Hitting this target at a central point releases a spring that throws a man from above into a tank. The effect is humorous but most onlookers are willing to allow the victim to enjoy his position. Nobody else wants it, especially in this weather.

EARLY PIONEER NOW PASSED AWAY

Following a month's illness, John Boyle, a resident of Escanaba for the past 35 years died last night at his home, 405 Jennie street. He was in good health until a month ago when he was taken ill, so severely, that it was necessary to take to his bed. Because of his advanced age his recovery was doubted a week ago. Death came shortly before midnight.

He was 77 years of age and is survived by three sons and two daughters, who are: Thomas of Milwaukee; John of Marquette; Dominick of Escanaba; Mrs. Hugh Burke and Miss Mary Boyle of this city. The funeral will be held from St. Joseph's church Saturday morning at nine o'clock. In his many years of residence Mr. Boyle made numerous friends, to whom the announcement of his death will come as a shock. Interment will be at St. Joseph's cemetery.

Supervisor John Larson of Maple Ridge is in Escanaba to attend the fair.

Demands Refused; Hundreds Of Railway Men May Strike

LEO LOVE MAY NOT PLAY BALL AGAIN

LEAVES TO RESUME STUDY AT ARMOUR INSTITUTE—FIGURES ARE DISPUTED.

Leo Love, pitcher of the Escanaba baseball team, may not come back to this city next year. Love departed last evening for his home in Chicago and will resume his studies in the mechanical engineering department of the Armour Institute on Monday.

Love says that he may leave professional ball or join a team playing in organized ball. He will study at the school through this term and obtain his degree.

Love made an enviable record this year with the local team and at the opening of the season was invincible. The Marquette Mining Journal takes exception to the statement that Love won 11 and lost 4 games this year. It offers to prove this: a resume of the games in which he has pitched. According to the Journal, Love's work was:

Games won—May 28, Escanaba 5, Ishpeming 0; June 3, Escanaba 2, Negaunee 1; June 10, Escanaba 3, Marquette 2; June 17, Escanaba 4, Ishpeming 3; July 2, Escanaba 11, Marquette 4; August 13, Escanaba 6, Ishpeming 2; August 20, Escanaba 11, Ishpeming 7; Sept. 9, Escanaba 11, Ishpeming 4.

Games Lost—June 24, Negaunee 3, Escanaba 2; July 15, Negaunee 4, Escanaba 3; August 6, Negaunee 13, Escanaba 9; September 2, Marquette 3, Escanaba 2; September 24, Marquette 1, Escanaba 0. In the games on August 6 and September 2, Love was pulled out of the box because he was hit too hard.

BUSINESS MEN PLAY FLAT ROCK TEAM

TWO AGGREGATIONS LINED UP THIS AFTERNOON AT FAIR GROUNDS IN BALL GAME.

This afternoon at the Fair grounds the Business Men's Baseball team is having the first opportunity to get the kinks out of the arms of its members with a game between them and the Flat Rock team. The latter team earned the opportunity of clashing with the crack local team by its victory over the Hyde team yesterday.

The line-up of the business men's aggregation is as follows:

Hodson, catcher; Manthey, pitcher; Sawyer, pitcher; G. Stephenson, 1b; F. E. Levine, 2b; Claude Farrel, 3b; Dr. H. W. Long, short stop; Dr. J. O. Gross center field; W. W. Oliver right field and Benjamin Young left field. The substitutes on the bench for the business Men's team will be Victor Blomstrom, Dr. M. P. Fencilon, H. A. Paul, L. M. Beggs, A. H. Groesbeck and M. J. Ryan.

EDDIE M'GOORTY WINS OVER GOETZ

Fond du Lac, Wis., Sept. 28.—Eddie McGoorty of Oshkosh knocked out Harry Goetz of Chicago in a scheduled ten-round boxing bout here last night. In the semi-wind up, Johnnie Sekel of Minneapolis knocked out "Spider" Kelly of Detroit in the sixth round.

AUTO FACTORY MANAGER IS HERE

Mr. Frank J. Edwards, manager of the KisselKar company arrived in this city today in one of the new big 1912 KisselKars. Mr. Edwards is making a general inspection of the KisselKar Branches throughout the state and is receiving many automobile enthusiasts who are interested in the big KisselKar "Six." He states that the "Six" is one of the real things in high powered automobiles and there is nothing in the country that touches this model at the price. The KisselKar factory is humming day and night to keep up with the demand for KisselKars.

Mr. Edwards states that the demand for trucks is increasing very rapidly and to such an extent that a new factory will have to be built to take care of the truck business alone.

Supervisor J. D. Colburn of Cornell is in the city to attend the fair.

ANNOUNCEMENT IS MADE AT NEW YORK THAT GREAT ROADS ARE UNFAVORABLE.

U. P. AND S. P. REJECT REQUESTS

Strike on Harriman Lines Will Be Called as Soon as the Presidents of the Various Unions Fix a Time of Action—A Strike is Now Inevitable, Say Officials.

(By Associated Press.) New York, Sept. 28.—Announcement was made today by the officials of the Union and Southern Pacific railroads that they had rejected the demands made by the federation of railroad employes on their lines. That some action is imminent is conceded on all sides and it is thought that a strike order may be issued by the different unions.

Harriman Employees Strike. Chicago, Sept. 28.—A strike on all the Harriman lines will be called as soon as the presidents of the International Shoppers' Unions which are involved can fix upon a day and hour, which it is said will probably be some time next Saturday. President Kline says that a strike now is inevitable. As soon as the order for the strike is issued about 35,000 men will walk out.

Memphis, Tenn., Sept. 28.—There is little improvement in the conditions that are restricting the local movement of freight, resulting from the strike of the Illinois Central railroad clerks. The switchmen have refused to handle cars without routing orders and the clerks say that the warehouse tracks and the yards are blocked with all kinds of freight.

Chicago, Sept. 28.—No answer was received from Vice President Kruttschnitt of the Southern Pacific railroad by President Kline of the blacksmiths' and helpers' union, in reply to the demand made to the railroad official for the reopening of the negotiations with the federation of railway employes.

"I never had said that a strike might be called," said President Kline. "I don't want to talk about a strike or anything that will force the situation. I cannot say what we will decide to do in the event that Mr. Kruttschnitt does not answer our letter. That will have to be decided when it becomes known that he will not again meet with us."

Illinois Central Walkout Spreads. Louisville, Ky., Sept. 28.—Approximately two thousand clerks and shopmen of the Illinois Central employed south of the Ohio river are on strike, the number being augmented today by the walkout of 490 shopmen at New Orleans.

Memphis Tenn., Sept. 28.—A federal restraining order, granted on the petition of the railroad, stopping the strikers from interfering with workmen or traffic was the only feature of the strike of the shopmen and clerks of the Illinois Central here today.

DANCING PARTY ON NEXT TUESDAY

DELTA DANCING CLUB TO GIVE SECOND OF AUTUMN SERIES AT CLARK'S HALL.

The Delta Dancing club will give the second of its autumn series of parties Tuesday evening at Clark's hall. The hall will be decorated in autumn colors, consisting with the season. Brotherton's ideal orchestra has been secured for the event and will furnish a complete schedule of dancing numbers. These dances have been unusually popular in the past and promise to experience another successful season.

NO DEER TO BE SENT OUT OF MICHIGAN

Lansing, Mich., Sept. 28.—Attorney General Kuhn has handed down a number of opinions pertaining to game laws and hunters who are interested should read with care these opinions, else they may find themselves in trouble.

Particularly should hunters outside the state read the opinions, inasmuch as it is held that the Michigan law does not allow a non-resident hunter to ship a deer out of the state. Non-resident hunters will be issued licenses as it is held that the Michigan law in the north woods will either have to be eaten or left in the woods for the wolves.

faint gleam showed on the trunk of an unusually tall pine surrounded with bushes. Instantly I brought the Crow to a hover.

"Shall I send him a shell?" asked Ethan eagerly, swinging the gun to an aim.

"Not yet," I whispered. "We'll creep a little nearer. I want to be sure. I shouldn't care to kill innocent men, although I suppose there is not one chance in a thousand of any trappers or hunters being hereabouts."

Moving with extreme caution just above the tops of the brushwood, we silently drew nearer. Presently the fire began to show in gleams through the mass of twigs and foliage, and quite suddenly we came in line with an opening through which the whole camp was visible as through a window.

A birch log was burning brightly, and over it bent a man busy with cooking a piece of meat held on the point of a stick. The flames lent a ruddier tint to the dark countenance of Indian John.

A couple of yards back of the fire and so seated that his face was fully illuminated sat Alfonso Payton. The glare of the fire in his eyes would have prevented him from seeing us if he had looked up, but from our side we could make out his every feature.

Never in my life have I been so struck by a human countenance. It was a face in which beauty, manliness, dignity, intellectuality, impressiveness, self-mastery, courage, strength seemed equally blended. There was nothing repulsive or wicked about it.

"My God, what fears men's faces can be!" I thought.

Ethan, who was less impressionable, begged me in a whisper to let him blow him to pieces with a shell.

"No!" I returned emphatically. "I forbid it absolutely!"

In the energy of my refusal my voice rose too high and Payton heard the sound. Instantly he stood erect, and his eyes peered straight at the Crow. But the fire lit his face and he did not see us.

"Crouch!" I whispered in Ethan's ear, "and lie still!"

Payton stepped quickly round on one side of the fire. The Indian dropped his meat and also turned to look. Then both vanished.

"Skeedaddled by Jingo!" exclaimed Ethan.

Which way had they gone? Probably directly ahead, because only in that direction would they have the continued shelter of the brush. This extended away in a comparatively narrow belt as far as we could see, and it was unusually thick and tall. I ordered the steersman to skim close above it at a speed a little exceeding that of a good runner. But when we had advanced nearly as far as I thought that the fugitives could have gone we stopped and hovered, carefully watching and listening. But there was no movement and no sound.

The brush, intermingled with a few stunted trees, extended, as I have said, in a belt which was not more than ten rods broad, but apparently interminable toward the southwest. I made up my mind that it followed the course of a sluggish stream or a chain of swamps. On either side of it lay a stretch of bare country, and the moon, now rising, began to illumine this sufficiently to have enabled us to see any object as large as a man moving across it.

I determined to "beat" this belt thoroughly, keeping so close to the top of the bushes that the fugitives would not dare attempt to dodge back behind us.

It was slow, tedious, nerve-racking

work as we swept from side to side, but doggedly I kept at it, confident that the quarry would be driven on ahead.

I now longed for daylight, and at last it came. In a short time the sky became bright, and we could see the ground through the brush. Glancing ahead, I was delighted to perceive that within a short distance the belt ran out, ending in an open country.

Suddenly a shot rang from the bushes a little in advance, and the rifleman at my side fell dead without a groan. Another shot followed, and I felt a sting in my right shoulder. A third rattled on the muzzle of Ethan's gun. They were at bay and in ambush.

"Fire, Ethan—fire!" I shouted.

His gun belched its blue flame, and the shell exploded in a clump of brush directly ahead and so close to us that some of the fragments flew back and struck the aero. He had fired at the point from which he guessed that the shots had come, and evidently his judgment had been good, for we saw the bushes moving violently as if some one were running through them. In a minute we sailed directly over the spot where the shell had struck, and, looking

GRAY HAIR MAKES YOU LOOK OLD

Use Wyeth's Sage and Sulphur and Your Gray Hair Will Quickly Vanish.

Gray hair is a mark of age, and nothing that can be said as to its beauty will offset the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients, which makes a delightful dressing for the hair, and which not only removes every trace of dandruff but promotes the growth of the hair. It also stops the hair from falling out, and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

Don't neglect your hair and don't resort to old-time hair dyes. Get a bottle of Wyeth's Sage and Sulphur from your druggist today, and notice the difference in your hair after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

EXTREME BOTH WAYS.

While the consumers are complaining of the ever advancing price of meat, the cattle raisers are complaining of the amount they receive for their stock. The packers are telling it that there is a scarcity of cattle due to the drought on the ranges.

There are many contradictions in this price discussion, whether it be of meat or anything else. And the contradictions are followed with great regularity by advances. These conditions have grown steadily worse as the combinations of various kinds have grown in power.

It is the duty of the government to investigate this thing with a view single to getting at the truth and finding the combination or combinations or other causes at the bottom of it—not with a view of simply "getting" some one.

THE LAKE TRADE.

The navigation circles the season of 1911, so far, has been counted a dull one on the Great lakes. Still up to Aug. 1, the total of freight carried was 10,000,000 tons in excess of that carried during the first seven months of 1910.

The increase in the freight business of the lakes this season, at least prior to Aug. 1, was in "unclassified," that is package freight. And the passenger business is known to have exceeded all previous years.

That the package freight is the hope of the lakes is the opinion of many experts in lake freight. So long as the coal mines and the iron mines, the forests and the grain fields last there will be a large bulk cargo business for the boats built for handling these special commodities.

If Wall street would only drink the water that it feeds out to the lamba, it would not be so worried about the steel shares.

All that the extra session of congress amounted to was to afford heavy backing to the Washington ball team.

The trusts must realize that the business world is a public highway on which every one has a right to pass without molestation, and not a fenced in clover field, of which they possess the only gate.

Aviator Miller went up because the crowd jeered him and was burned in the air, but the management cannot guarantee the public a regular attraction of this kind.

Senator LaFollette, having begun his autobiography in a magazine, would it be bad taste to ask him if he came by his pompadour by birth or accident?

Mr. Taft admits he is a poor politician. Considering all the places still with a government building, he might as well admit his administration a failure.

Killing off aviators has ceased to be news. People that want the details may find that the local correspondent of the county paper has written a line or two about it.

A swarm of bees has been seen on Fifth Avenue, New York. They were probably presidential bees just from the governor's conference in Jersey.

Women's hats are to be smaller this year, but the milliners will have some convincing reasons to show that this makes them more expensive.

CARNEGIE PEACE PAPER.

International Organ for Suppression of War.

Working under the direction of Andrew Carnegie and supplied with funds by him a group of former diplomats of various European countries and a few trained journalists are busily engaged upon the preliminary plans for an international newspaper which has for its primal object the extinction of war.

Mr. Carnegie recognizes the fact that the press is the mightiest weapon he can command in his hobby for the creation of an epoch of world peace and to forward his ends has determined to subsidize a powerful publication which can learn the diplomatic secrets of the world and through this means circumvent secret plans calculated to incite nations to war.

His theory apparently seems to be that if harmful aggressions can be stopped in the beginning through an exposure of the plans of the aggressors there will be no need of blood being spilled in a war for revenge, defense or retaliation.

From the little that has been disclosed concerning Mr. Carnegie's plans the newspaper will be controlled by a committee residing in Paris. There will be a special correspondent thoroughly in touch with every phase of world politics in every important capital; also a secret "overcorrespondent," usually a former secretary of state. Secrecy is the basic principle of the whole undertaking, and Mr. Carnegie expects to be able to know in advance the innermost plottings of every cabinet in Europe.

A Budapest editor, said to have been highly recommended by a former minister of Hungary, is now in Paris working with editors from other countries who have been selected under similar circumstances.

Backache pains come from sick kidneys. 'Twould save much needless woe. Doan's Kidney Pills help sick kidneys.

Escanaba people endorse this: Mrs. E. Steinko, 615 Wells Avenue. What a Heap of Happiness It Would Bring to Escanaba Homes.

Hard to do housework with an aching back. Brings you hours of misery at leisure or at work.

If women only knew the cause—Escanaba, Mich., says: "I still recommend Doan's Kidney Pills and I am pleased to verify the testimonial I gave in 1905, publicly recommending this remedy. My back ached severely for some time and there were sharp pains across my loins. Dizzy spells and headaches were also common and at times my kidneys did not seem to act at all. I finally procured Doan's Kidney Pills at the Mead Drug Co. and they gave me almost instant relief. I continued taking the remedy and was soon in good health."

FARM WOMEN WILL MEET.

International Congress Will Discuss Problems of Agricultural Life.

The first international congress of farm women in this country opens at Colorado Springs on Oct. 17 and bids fair to be the most important convention of women ever held in this country.

The commission will discuss the equipment and beauties of the food values in rural homes; laws of physical life in relation to the family; conservation of time and strength, labor saving devices, hygiene, the economic value of women and children on the farm.

Among the speakers on the program are Professor W. M. Hays, assistant secretary of agriculture, an author on rural school work, and the Rev. Warren H. Wilson of New York, a worker in rural churches. Practical farm women from throughout the entire country are signifying their intention to take part in the proceedings.

Women's Aviation Club. The first women's aviation club in the world is being formed in Boston. It will include only wives, widows or near relatives of aviators who have made flights in great Boston. Mrs. Harry N. Atwood is mentioned for the presidency.

Jersey Courts Sustain Verdict in Boy's Favor.

AGAINST RAILROAD COMPANY.

Working Lad From Hungary Was Injured In Coal Car Accident—Valuations Placed by Juries on Injuries to Person Recalled.

JURY VALUATIONS OF INJURIES TO PERSON.

- Damage suit prices for human bodies and parts thereof have gone up a bit since a justice decided in New Jersey ten years or so ago that a child's life was worth but a dollar. Here are some recent verdicts: Heart—A boy's; damaged by an auto in Astoria, N. Y., \$5,000. Eye—A woman nurse's; in Portland, Ore., \$1,300. Throat—A man's; hit by a Brooklyn ambulance, \$3,000. Throat—A woman's; cut by a knife; in New York, \$2,500. Tooth—A man's; dropped in his lung by a California dentist, \$3,000. Voice—A woman's; spoiled by a train smash in Minnesota, \$1,500. Jaw—A New York cabman's; broken by a medical passenger, \$2,000. Finger—A machinist's; mashed in Nebraska, \$4,000. Elbow—A man's; broken by a Long Island railroad train, \$13,000. Nerve—A girl's; ruined by a slammed New York subway door, \$5,000. Heel—A baby's; torn off by a White Plains (N. Y.) car, \$3,000. Spleen—A brick mason's; broken by a fall in New York, \$6,000. Hair—A factory girl's; scared bald in Minnesota, \$2,000. Kidney—A carpenter's; broken in scaffold crash at Niagara Falls, \$14,000.

The New Jersey courts have sustained the \$20,000 verdict got by Frank Kovacs, a working boy from Hungary, who lost his hands in a coal car accident near Perth Amboy. The award was at the rate of \$10,000 a hand, or \$2,000 a finger.

This is said to be the highest price on record in Jersey for a boy's hands. Some years ago a justice of that state valued a babe's life at \$1. Since then juries have lifted the cost of accidents. In New York several months ago a jury awarded \$20,000 each to two bridge builders who lost their hands in an accident on the Queensboro bridge.

In June last in Brooklyn the court awarded \$10,000 for the loss of a baby burned to death in a bonfire. In the same month in Manhattan the wife of a workman got \$10,000 for the loss of her husband, a steamfitter, in a power plant of the Brooklyn Rapid Transit. In January, 1911, in White Plains, N. Y., a jury assessed at \$40,000 the value of the left arm and right leg of George L. Tullock, a Lackawanna railroad freight conductor, lost in a railroad accident.

Miss Addie M. Hunt, a trained nurse, got a verdict of \$28,000 for the loss of her legs at the Great Neck station of the Long Island railroad.

It was announced that the railroad will not fight any further the \$20,000 award to the Hungarian boy, but will pay the money.

Can't Stop Sheekard.

Referee Time is having a dreadful furry counting out Jimmy Sheekard of the Cubs. For three seasons expectant fans have been looking for the fatal toll to start, but each year James bobs up brighter, fresher and more capable than ever. Sheekard is still one of the best lead-off men in baseball.

Some time back in baseball history Chicago handed Brooklyn four or five players for this star. Sheekard is still shining more brightly than ever, while the men who went to Brooklyn have faded from sight for the most part.

Saved Storage Charges.
Young men with meager salaries evolve financial makeshifts abhorrent to the moral and physical sensibilities of their opulent elders. Said one young sprig of boarding house gentility to another who expected to seek new quarters upon his return from a two months' trip on the road:
"What are you going to do with all this personal truck that is cluttering up your room? It will cost you anyhow a dollar a month for storage."
"Not the way I am working things," said the man who was going away. "I have purposely refrained from paying board for four weeks, and the landlady will hold my stuff. Of course I shall square up when I come back and get it again, and in the meantime she will give it free storage."—New York Times.

Major League Notes

With the National league race safely sewed up, Manager McGraw of the Giants has packed Rube Marquard and Christy Mathewson off on a vacation, to rest up for the world's series. He won't work them any more unless he really has to, except just enough to keep on edge.

"I am anxious to win back the laurels the National league lost in the world's series last year, and will probably depend on Matty and Marquard to pitch all the games," said McGraw. "They will work enough to keep on edge. I have always believed that Hugh Jennings' Detroit team was outclassed by the Cubs in 1907-1908, because Donovan and Mullin, his star pitchers, were over-worked winning the American league pennant. I rather win the National league pennant by a single game and be strong for the world's series than pile up a big lead and weaken the team for the big fight."

With The Fighters

It is reported in London that Jack Johnson is broke. The heavyweight champion who, after he had whipped Jeffries, quit the ring at Reno a little more than a year ago with \$100,000 "to the good" and who has been making money nearly ever since, apparently could not stand prosperity and is now facing the problem of "financial straits." Johnson's trainer, Cutler, has told Tex Rickard and other that Johnson was forced to pawn his motor car and his diamonds recently before leaving Paris to come to London for the fight.

Having the utmost condescence now that he can come back to his good fighting form of several years ago, Kid McCoy has authorized his manager, Danny Morgan, to match him with any of the big fellows. Danny has already arranged another contest for McCoy, having completed all details for a ten-round bout between the kid and Jim Savage, the New Jersey heavy weight, to take place on October 6, at one of the local clubs.

Roger Bresnahan is following in the footsteps of McGraw in his scheme of having a substitute for every position on the team. Cardinal fans figure that Roger is developing Magee into a regular Fletcher. In Smith Roger has a capable substitute for Mowrey, the big fellow looming up as a better third sacker than a shortstop. With the newcomers picked in this season's dragnet, Bresnahan hopes to have a complete set of inner guardians.

New York fans are so upset with joy over the Giants' success that they're offering odds in their world's series bets. The receipts per game in New York probably will be between \$50,000 and \$65,000, while the Philadelphia fans will come across with \$35,000 to \$40,000 in each contest at Shibe park.

By defeating the Detroit Tigers yesterday at Philadelphia the Athletics may now lose all the remaining games on the schedule and Detroit, the next in line, win all of its, and the record at the finish of the season would then read: Athletics, 632; Detroit, 623.

President Thomas C. Noyes of the Washington league club admitted today that George Stovall, acting manager of the Cleveland club, is "being considered" with other candidates for the place of manager of the Washington club.

POSITIONS OF HARD HITTERS AT PLATE

Birdie Cree of New York Highlanders.

Many good batters keep their feet close together, but Birdie Cree, one of the best, keeps his wide apart. He faces the pitcher with body as well as head, his feet, one in front of the other, both pointing out toward the diamond. Apparently he carries the weight on the forward foot and bats off of one leg. He makes a flagpole out of the bat and waves it, grasping it at the end. He gets his whole weight in his blows, but without being a body swinger. Body, legs and arms all play their part effectively, though not gracefully, co-ordinated.

Wagner's "form" varies according to his mood. Usually the great Dutchman stands with his feet well apart, but he can hit from any position and sometimes changes. His body is in his swing and his arms more so. Sometimes he swings so hard he all but falls down if he doesn't land, and sometimes he takes a slow swing. He is a batting genius who can afford to disregard canons about the ball coming over the plate and occasionally of-

Another star hitter, Eddie Collins, is loose and shambling at the plate. His movements, however, are under perfect control. He hasn't the quiet poise of the more statuesque Lajoie, and his bat is held in various positions, though he doesn't wriggle it as do some batters. Wherever held, he brings it into use with the swiftest of motions when ready to hit. He is absolutely unconstrained at the bat, the picture of unconcern, but for all that alertly confident. Though comparatively small, he, like Byrne of the Pirates, hits the ball almighty hard.

Ponderous or agile, awkward or graceful, stolid and form are of as much variance among the best batters as there are batters. One thing they have in common, the discriminating eye.

1912 Kissel-Kar 60 H. P. "Six" arrives at Escanaba

One of the first new 1912 Kissel-Kar "Sixes" is on exhibition at the garage of C. J. Slater, 111 Dousman avenue.

The Kissel-Kar "Six" is one of the cars that has actually made automobile history. The makers are the first manufacturers to put the "Six" on the same basis as their "Fours" and fix its price according to the cost of production instead of on the ability of the purchasers to pay a big price.

The first announcement of this "Six" was a sensation of the industry. "The class of people who buy big Sixes," said the trade, "are perfectly able and accustomed to paying five or six thousand for a car. They will appreciate the remarkable value you are offering. They will think your reasonable price means some compromise of quality."

But the Kissel Motor Car Company foresighted. They saw that the car-buying public would soon see that the prices of "Sixes" were unreasonably high in comparison with the price of four cylinder models of the same make.

In the several seasons this model has been on the market, it has met with big sales everywhere in America. Buyers who might have spent \$2,500 for a high priced "Four," paid a little more and got the big 60 H. P. Kissel-Kar "Six." The man who had contemplated paying as much as five or six thousand dollars for a high powered six cylinder automobile could not very easily get by the Kissel-Kar "Six" at \$3,000. As a result, the sales record of the Kissel-Kar "Six" has been extraordinary.

The Kissel-Kar "Six" is a car of unsurpassed quality in every way. It is the most superb type of modern automobile. The touring body carries seven passengers; the semi-touring carries five, and the semi-racer runs four. They say that every model is commodious for its full capacity. The seats are wide and deep, beautifully upholstered and luxuriously comfortable. The liberal 132 in. wheel base and the big 38 in. wheels and 36x5 in. tires, combined with the continuous power impulse of the six cylinders secure an easy riding quality found in so few of even the most expensive cars that it belongs to the Kissel-Kar almost exclusively.

The body of the 1912 model conforms to the most progressive tendencies of design. The body sets low between the big wheels, the doorsteps align with the top of the hood in the rakish straight line effect, the graceful slope of the forward fenders emphasizes the general symmetry and individuality of the car. In finish and regard for small details, nothing is left to be desired. The price—\$3,000—includes complete equipment, which means everything essential to a perfectly equipped and trimmed car. Besides tools and other equipment, the Kissel-Kar "Six" is provided with shock absorbers, top, glass front, detachable rims, speedometer with clock, oil and electric lamps, storage batteries—there is nothing left to be bought separately.

The Kissel-Kar "Thirty"—"Forty" and "Fifty" models are as conspicuous in their class as the "Sixty." Each model stands for the maximum automobile value at the price—\$1,500—\$1,850 and \$2,350.

Even if you have been thinking of paying five or six thousand for a car, first see and ride in the Kissel-Kar 60 H. P. "Six." Mr. Frank Edwards, Manager of the Kissel-Kar company, who drove the 1912 "Six" from Milwaukee, is stopping here for a few days, when he will continue his tour of inspection of the Kissel-Kar Branches. In the meanwhile, the "Six" will be on exhibition at my salesrooms.

The Optimist's Corner

Daily Helps to Health
and Happiness

By GEORGE F. BUTLER, A. M., M. D.

Many people could be rendered perfectly happy with the happiness which is lost in the world. We lose happiness because we often despise calm, quiet pleasures, and take interest and delight in nothing but that which excites, or we make the fatal mistake of thinking that happiness lies only in sensational events, instead of in the small, trifling incidents of daily life. There is nothing which we waste more than happiness, and even those who are prudent and economical in other directions are prodigal in this respect. They pinch and stint to save a penny, but are often indifferent about the loss of days of happiness. We frequently fail to appreciate our friends until they die, or we lose them in some other way. We rush through a holiday trip and miss half the beauty of the scenery because we are in a hurry or anxious or troubled by worthless trifles. Nearly every old or middle-aged man who looks back honestly on his life will admit that, however wretched he may be now, opportunities for happiness were given to him which in some way or other he has neglected.

STONINGTON PEOPLE MARRIED AT HOME

MANY ATTEND CARLSTON-HAN-
SON NUPTIALS THERE—
OTHER ITEMS.

(Special Correspondence.)
Stonington, Mich., Sept. 28.—Rudolph Hansen and Jennie Jariston were married here at the home of the groom's parents last Saturday afternoon by Rev. Lund. After the ceremony followed an elaborate supper to which sixty guests were invited. Sunday the happy young pair left for their wedding trip to New York. They will be at home shortly after Thanksgiving Day.

Mr. Nels Engberg spent Saturday and Sunday here.

The Ladies Aid Society here will give a pie social at Jacobsen's hall Saturday, October 4.

Many of the farmers were greatly disappointed last Saturday at the non-appearance of the steamer Liberty at the Stonington dock and several who had driven many miles had to go back and make the trip on Monday.

Mrs. Berntson and children are visiting friends here.

WISCONSIN NOT IN STEPHENSON CASE

Milwaukee, Wis., Sept. 28.—"The state of Wisconsin will not have an attorney in the investigation of the election of U. S. Senator Isaac Stephenson by the United States senate committee," said Senator W. B. Heyburn, chairman of the committee today. "This hearing is under the jurisdiction of the senate which does not recognize the state at a party to the investigation. This is an investigation, not a trial. Senator Stephenson will be represented in all probability by personal counsel."

A PICNIC DAINTY.

Ham Served in Gelatin a Delicous Cold Dish.

A glorious dish for the picnic or other outdoor frolic is jellied ham. It looks just as nice as it tastes, and that is saying a good deal. Good House-keeping tells how to make it, and if you have a wish to try it here is the recipe:

Mince fine sufficient cold boiled ham to make a cupful. season well with

JELLED HAM.
Salt, pepper, paprika and a few drops of onion juice and moisten with one cupful of thick sauce to which have been added a little red coloring and a heaping teaspoonful of granulated gelatin dissolved in cold water. Have ready a number of small molds lined with aspic jelly, fill the molds with the ham mixture and set in a cold place to harden. Turn out and serve very cold with mayonnaise dressing.

AWAKENED BY JUICY TOMATO; FALLS 150 FEET

St. Paul, Sept. 28.—Rudely awakened by a tomato from a sound sleep on a plank sticking from the bluff near the West Publishing company's building, an unidentified man slid 150 feet down the embankment to the railroad tracks and disappeared behind a string of box cars.

Shortly after 12:30 P. M., an employe of the West Publishing company telephoned Police Lieutenant Call that a stranger was sleeping on the plank protruding from the bluff, thirty feet below the sidewalk level and 150 feet from the foot of the declivity. The plank, the informant said, was barely wide enough for the man to lie on at full length. If he rolled off he would be dashed to pieces.

Lieutenant Call immediately sent Jailer Edward Neuman to rescue the stranger. Neuman, unable to climb the 30 feet down to the plank, hurried to a vegetable stand nearby and purchased a juicy tomato. Standing directly above the stranger's head, Neuman dropped the tomato. The vegetable struck the sleeping man on the head and he suddenly awoke to his strange position. Silently, before the gaze of a crowd which had gathered, he slid from the plank and down the remaining 150 feet to the tracks and disappeared among the cars.

"Whew," said Jailer Neuman, "I've had to waken lots of people, but I never used a tomato before."

NO MORE "PILLS" FOR NOTRE DAME STUDENTS

Notre Dame, Ind., Sept. 28.—The cigarette smoking student of the university of Notre Dame yesterday came under the official ban of the faculty. The sole penalty provided for users on the campus, the streets or in the residence hall is suspension, according to notices posted today on the university bulletin, and signed by President Cavanaugh.

There was little protest against the new rule. The posting of the strict order had been preceded by rumors and the cigarette users among the students had prepared for it by buying pipes.

The non-smokers and athletic coaches greeted the order with joy. Members of the faculty are said to have been unanimous in voting against cigarettes.

POLICEMAN "FIRED", RESULT OF GAMBLING

Chicago, Ill., Sept. 28.—Charles J. McClellan, policeman, charged with having permitted open gambling in the streets near the American league ball park Labor day prior to the Gotch-Hackenschmidt wrestling match was discharged from the force yesterday, after having testified that he had refrained from visiting the side of the streets where the gambling was said to have been carried on.

The trial of the civil service commission of Lieut. Walsh, commanding the district where the open gambling was said to have taken place, will begin on the same charges tomorrow.

MINISTER'S MEETING DENOUNCES ASTOR

Boston, Mass., Sept. 28.—Rev. Dr. Arthur Little of Dorchester, dean of Boston Congregationalists, in opening a meeting of the Congregational Ministers' association, called to discuss the subject, "What is the Responsibility of Congregational Ministers in Performing the Marriage Ceremony?" denounced the recent wedding of John Jacob Astor and Miss Madeline Force, and urged a uniform divorce law for every state which would prevent a person divorced in one state from being married in another.

WILL SERVE "COLD STORAGE" LUNCHEON

Chicago, Sept. 28.—To prove that cold storage foods are wholesome and delicious, a luncheon, at which all foods will be guaranteed to be strictly cold storage, will be given by Chicago produce merchants on October 22.

Invitations will be sent to the commissioner of health, to members of the city council's health committee, and to the publishers of Chicago newspapers.

Members of the National Poultry, Butter and Egg association, who will have a convention in Chicago at that time, will attend.

Chicago broth made of cold storage salmon, December turkey, February capons, April eggs, and June cheese. The butter will be of June churning, held in cold storage; storage fruits will complete the luncheon.

Small Deposits Wanted

WE ENCOURAGE them because many large accounts began in a small way. The small depositor of today becomes the large one of the future. More people would be bank depositors if they realized how it would help in building their credit and their success.
