## GIVE BATTLE TO RED FLAG

SAILORS AT SEATTLE ATTACK SOCIALISTS AND DO GREAT AMOUNT OF DAMAGE

MARCH UNDER AMERICAN FLAG  
Raid Headquarters of the Industrial Workers of the World—Hotel Burned

(By Associated Press.)  
Seattle, July 19.—The Mayor today assumed control of the police force and ordered the saloons closed and street meetings stopped. The Seattle Times was suppressed today and will be Sunday unless the proofs are submitted to the Mayor. The newspaper office is surrounded by the police.

Seattle, Wash., July 19.—A party of United States marines and sailors from the Pacific reserve fleet, most of the sailors wearing the name bands of the cruisers Colorado and California, started tonight to "clean up the town," as they expressed it, by attacking the socialist and Industrial Workers of the World headquarters.

Seattle, July 19.—The leaders of the Industrial Workers of the World and Socialist party said today that the damage done by the mob last evening will reach about \$3000. The leaders of the mob were not in an ugly frame of mind and none were seriously injured, though several were slightly hurt in fist fights.

Walter Thurber, an industrial worker was the only one that was arrested. He knocked down a fireman who laughed when he saw the wreckage.

The hall in which the furniture workers were holding a meeting caught fire and the flames mounted near a hotel from which the guests clamored in night attire. The sailors cheered and laughed thinking the place was a lodging house for the workers.

March Under Stars and Stripes  
About a dozen men of warships, all young, were in the first "wrecking party." They were aided by several members of the Washington naval militia and by a hundred young civilians who made most of the noise.

Raising United States flags, the storming party swooped down on the Park news stand of Millard Price, a socialist orator, at the intersection of Fourth avenue and Westlake boulevard, the busiest night corner of the city. The stand was broken to splinters in a moment and the big stock of socialist papers and magazines was tossed into the street and jumped upon.

The mob then rushed to a store-room occupied until recently by Industrial Workers at Fifth avenue near Stewart. The wreckers found the place deserted, the tenants having moved. They then proceeded to the socialist headquarters in Fifth avenue, near Stewart, smashed in the plate glass front and nailed American flags on the front of the window.

It is claimed that never before has a submarine been able to rise to the surface from so great a depth. The pressure at 200 feet is 8,400 pounds to the square foot.

## MENOMINEE GIRL FOUND

IRENE ARTHUR TAKEN INTO CUSTODY FOR THEFT OF DIAMOND RING AND CLOTHING

LOCATED ON STEAMER MAYWOOD  
Mrs. Joseph Wallersheim and Mrs. Flavian Joint Report

Irene Arthur, the seventeen year old Menominee girl who disappeared from her home on July 4 and for whom Chief Iverson has been searching the past five days was arrested this morning by the Chief as she stepped from the Steamer Maywood. She is charged with the theft of a diamond ring, several shirtwaists, a suit and other clothing. Mrs. Joseph Wallersheim of 410 South Prairie street and Mrs. Flavian Joint of Smith Court, Escanaba, being the complainants.

The theft of the diamond ring occurred yesterday morning and was reported to Chief Iverson early in the afternoon. This morning Mrs. Joint reported the loss of a suit and other clothes and the chief immediately connected the girl with the Wallersheim thefts. It was learned later that she had bought a ticket for Sturgeon Bay and had left on the Steamer Maywood. When the boat returned after its trip to Gladstone the girl was taken into custody.

The girl came to Escanaba on the evening of July 14 and went to the home of Rev. Ainslie. She gave her name there as Clara Fairworth and told a string of falsehoods concerning herself and her family. Rev. Ainslie believed the girl's story and secured her employment as a domestic at the Wallersheim home.

Meanwhile Chief Iverson was conducting a diligent hunt for the girl. He had secured a good description of her but the girl had wisely changed clothes and when on the streets wore a big hat that completely covered her. (Continued on page six)

Sheriff Answers Hurry Call to Wells and Arrests Two Fighting Austrians

Several have been incarcerated with in the last few days. Alvin Lindquist of Gladstone was brought to Escanaba yesterday to serve a thirty days sentence for fighting.

Mrs. Andrew Curtis a squaw from Stonington was picked up by the Sheriff yesterday and jailed over night. This morning she was sent home.

Matt Hror was taken into custody by Sheriff Curran this morning and on Monday afternoon will be examined as to his sanity. Hror was running about the woods in the vicinity of Wells endeavoring (in his fancy) to elude several persons who were trying to kill him. The man is evidently violently insane and will likely be sent to Newberry.

Sheriff Curran answered a hurry call to Wells this morning and arrested Frank Vrostall and John Smith. The men recently came in after an eleven month sojourn in the woods and after imbibing too freely went to the office of the I. Stephenson company and raised a rough house. The Sheriff was notified and he made a quick trip in his auto. They will be arraigned Monday before Judge McEwen. The two men had about \$400 on their persons.

Bert Sands, arrested Thursday, was arraigned before Judge Glaser last evening on a charge of being disorderly and was sentenced to spend twenty days in the county jail. He was committed this morning.

**Big Game and Disease.**  
It has been suggested that the big game of Africa should be systematically exterminated in order to abolish the "city fever" by destroying the principal means of nourishment of the tsetse. In regard to this suggestion, Sir David Bruce says that while it is true that the tsetse disappears when the big game is killed off, there are other African diseases similar to the fly disease, which are not spread by the tsetse. Although "civilization and big game cannot exist together," he thinks that the proposed wholesale destruction all over Africa would be quite unjustifiable. As the new country is divided off into farms, the big game must go, but the process should be a gradual one, applied only as the exigencies demand. For at least a thousand years to come there ought to be room in Africa for big game reserves.

**Illuminating Shells.**  
Experiments have recently been made at Toulon with shells intended to illuminate the sea at a distance from the land, thus disclosing the presence and movements of an enemy at night. The shells are made to explode at a great height, and to give light for a sufficient time to permit an examination of the surface of the sea for several miles from the shore. The officers in charge of the experiments regard the illuminating shells as more effective than search-lights in disclosing the position of hostile ships. Another form of shell has been proposed, which shall, in bursting over the sea, spread a cloud of thick smoke about the batteries on shore, thus preventing their seeing the approaching ships, and rendering the illuminating shells useless.

### 5,200 DOUGHNUTS IN 32 DAYS.

Mrs. Tarr of Brunswick, Me., Goes After a Record.

There is a woman in Brunswick, Me., Mrs. Lizzie Tarr, who has something of a local reputation as a butter maker. Recently she went after the doughnut record and in thirty-two days made a trifle more than 5,200 doughnuts. This was done in odd moments when she was not caring for and feeding and doing housework for her husband, herself and fifteen children.

Mrs. Tarr's recipe for molasses doughnuts, which she considers the best product of her kitchen, is as follows:

One cupful of sour milk, one-half cup New Orleans molasses, one even teaspoonful of ginger, one teaspoonful of salt, one teaspoonful of soda, one egg, four cups of flour and a dash of nutmeg.

She adds this information about the making:

"The frying is the most important. You must not get the lard too hot, or the doughnuts will brown on the outside before they are fully cooked through."

#### Woes of a Bashful Man.

A bashful young man in town was invited out to dinner. He was very much agitated. He sat opposite a mirror and discovered that he had forgotten to comb his hair. Then he dropped his fork on the floor and as he stooped to pick it up he upset his coffee. Matters went from bad to worse, until finally in despair the young man quit eating and put his hands under the table. The loose end of the tablecloth was lying in his lap. When he touched it he turned pale. He thought it was his shirt and that he had forgotten to put the garment in his trousers. He hurriedly stuffed the supposed shirt inside his trousers. Afterward, when the family arose from the table there was a crash. The dishes lay in a broken mass on the floor. The young man pulled three feet of tablecloth out of his pants and flew to the woods.

#### Ancient Iceland.

Iceland was founded A. D. 874, by men from Norway. In the words of John Fluke, "it was such a wholesale colonization of picked men as had not been seen since ancient Greek times, and was not to be seen again until Winthrop sailed into Massachusetts Bay. It was not long before the population of Iceland was 50,000. Their sheep and cattle flourished, hay crops were heavy, a lively trade with fish, oil, butter and skins, in exchange with meal and malt—was kept up with Norway, Denmark and the British Isles. Political freedom was unimpaired, justice was fairly well administered, naval superiority kept all foes at a distance, and under such conditions the growth of the new community in wealth and culture was surprisingly rapid."

#### Bacteria Affected by Glass.

From the investigations of a German scientist it appears that bacteria are affected favorably or otherwise by the character of the glass containing the water in which they are suspended, says the Detroit News Tribune. Marked differences in the behavior of the cholera germs were noted, according to the kind of glass composing the vessels used. The degree of alkalinity imparted by the glass to the water is believed to be an important factor in these experiments.

### JACKSON PRISON FARM IS SUCCESS

Of Great Benefit to Convicts and to the State—Will Yield Profit in Few Years.

Lansing, Mich., July 19.—The state prison at Jackson is a farming institution worthy of attention according to statements of Edward Frensdorf, of Hudson, member of the board of control. There has been acquired by purchase and lease practically 1,140 acres of land and on this big farm ninety convicts are given employment and when this number is announced to be about 9 per cent of the total population of the prison, it is apparent that the board and Warden Simpson are conducting an experiment which will have an important bearing on the future course of the state towards the men whom it restrains from liberty.

# The WOMAN

A Novel by **Albert Payson Terhune**  
Founded on **William C. de Mille's Play**  
Illustrated with Photos from the Play and Drawings by V.L. Barnes

### SYNOPSIS.

CHAPTER I—Congressman Standish and the woman, believing themselves in love, spend a trial week as man and wife in a hotel in northern New York under assumed names. The woman awakens to the fact that she does not love Standish and sails their engagement off. Standish protests undying devotion.

CHAPTER II—Wanda Kelly, telephone girl at the Hotel Keawick, Washington, is loved by Tom Blake, son of the political boss of the house. He proposes marriage and is refused.

CHAPTER III—She gives as one of the reasons her determination to get revenge on Jim Blake for ruining her father, Congressman Frank E. Kelly. Congressman Standish, turned insurgent, is fighting the Mullins bill, a measure in the interests of the railroads. The machine is seeking means to discredit Standish in the hope of pushing the bill through.

CHAPTER IV—Robertson, son-in-law of Jim Blake and the latter's candidate for speaker of the house, tries to win Standish over, and failing, threatens to dig into his past.

CHAPTER V—Jim Blake finds out about the episode of five years back at the northern New York hotel. He secures all the facts except the name of the woman and proposes to use the story as a club to force Standish to allow the Mullins bill to pass.

CHAPTER VI—Tom Blake and his father have a family row over the father's political theories. Jim Blake sends for Standish.

CHAPTER VII—He lays a trap to secure the name of the woman. He tells Miss Kelly that he is going to have a talk with Standish and that at its conclusion the latter will call up a number on the telephone to warn the woman. He offers Miss Kelly \$50 for that number.

CHAPTER VIII—At the conclusion of the interview with Blake Standish gets a New York wire and calls Plaza 100. A few minutes later Robertson tells Miss Kelly to call Plaza 100 and get his wife or one of the servants on the phone.

CHAPTER IX—Miss Kelly refuses to give Jim Blake the number called by Standish.

CHAPTER X—Blake has a story of the Standish episode prepared ready to send out as soon as the woman's name is learned. Tom Blake tells his father of his love for Wanda Kelly and a family row ensues. Blake's daughter, Grace, arrives with her husband, Governor Robertson.

CHAPTER XI—

Before the Storm.

"It's good to get a welcome at last," laughed Grace. "Mark's been as cross as a bear."

"I haven't declared Robertson."

"You have!" she insisted. "And just because the train was a few minutes late. Oh, well—a few hours, then. When I got in you were stamping up

you've noticed her. You wouldn't be likely to. She's Wanda Kelly."

"Not the phone girl?" asked Grace in dismay.

"You win. Real nice, ain't it? Makes an awful hit with me, after all I've done and planned for that boy, to have him tumble into an affair like this."

"Don't worry!" she reassured him. "There are other ways of convincing a man—especially a lover—than by storming at him. You know all about politics, dad, and you can whip voters and congressmen into line. But Tom needs a different line of attack. And he's going to get it. From me."

"Say!" ejaculated Blake. "You've taken a three-ton load off my mind: By the way, do you know anything about this Kelly girl?"

"I've spoken to her once or twice. What about her?"

"She isn't a fool. She's rather pretty, too. She's got a strange hold on Tom, with the idea that the same strange hold will choke some of my cash out of my pocket. It won't. Tell Tom so. So long! I've got to chase over to the Capitol. We'll all be back in a little while for our confab with Standish. You'll keep him here if he comes before we get back?"

"Yes," she replied a little wearily. "I'll keep him here."

CHAPTER XII.

The Forlorn Hope.

For a minute or so after her father had left her, Grace Robertson fastened herself in laying away her hat and furs and in putting a stray feminine touch here and there to various details of the room's disarranged appointments.

But another woman could have seen how very mechanical all Grace's movements were. At every step in the hall outside the suite, she paused and seemed to brace herself as for some ordeal. When at last the electric buzzer announced a caller, she moved with perfect calmness to the door, as though to admit a stranger. But at sight of the figure on the threshold of the opened door, her hard-won composure changed to a frigid stiffness. For the visitor was not Standish.

It was Wanda Kelly.

"May I come in, Mrs. Robertson?" asked the girl nervously, glancing behind her as she spoke.

A cold inclination of the head gave the desired permission. Wanda entered, looked about; then waited while Grace closed the door.

"You know me?" asked the girl.

"I think so," returned Grace, in no measure unbending. "You are Miss Kelly, aren't you? The phone girl 'downstairs'?"

"Yes. I got one of the boys to mind the switchboard while I came up. Is — is any one in there?" she continued, glancing toward the door that led to

Good-by."

"And so," said Grace slowly, "you came to me—just to help me? You didn't think for an instant that, out of gratitude, I might help you?"

"Help me? How?"

"By making it easy for you to carry out your idea of marrying my brother? Perhaps by using this scandal story as a threat to force me into helping you?"

Wanda looked at her for a full half-minute in blank silence. Then, turning to the door, she said:

"I guess I was a fool to butt in."

"One moment!" interposed Grace; adding, as Wanda paused: "You—you made certain insinuations about me, just now. You must prove them—you must give me your reasons for the absurd supposition that I might know anything about this Standish scandal!"

"Mrs. Robertson," replied Wanda, her hand still on the door-knob, "I'm not in your class. I don't know just how women in your station of life manage such things. But it seems rather tough that you can't find a way to defend yourself without insulting me. Let that go. You want to know how I found out? I'll tell you. Early this evening Mr. Standish learned of

this scheme to wreck him. He knows the story couldn't be used without the woman's name. And Blake bluffed him into believing the machine would have the name before midnight. Mr. Standish's first thought was to warn the woman. Just as Blake had known it would be. He called up your house in New York—"

"What of that? I was not at home this evening: I was on my way here to—"

"But Mr. Standish didn't know that."

"And," pursued Grace fiercely, "just because Mr. Standish chanced to call up my husband's New York home, you've evolved this insane theory. What proof is there—beyond your unbacked word—that he called up your house?"

"The time-card at central. A list of all calls is forwarded every evening to central and—"

"That proves nothing!" declared Grace. "Nothing at all—Oh, it's a pretty trick you're playing, Miss Kelly. A very pretty trick. But it will fail. You build it all on the statement that some one called up the house of Governor Robertson. Fifty people call up our house every day. And on the strength of that, his wife is to be involved in a story of low intrigue—Oh, it's outrageous!"

### EARLIEST RAILWAY TICKETS.

The Passengers' Waybills—How They Were Filled Out and Used.

The earliest railway tickets differed entirely from those now in use. The booking clerk was furnished with a volume, the pages of which were divided down the centre by a perforated line, the outside half of each page was again divided into slips about four inches long by an inch and three-quarters in width, on each of which was printed the name of the issuing station; spaces were provided in which the clerk had to write the destination, passenger's name, date of issue and the time the train was due to depart.

One of these slips, duly filled in, was detached from the book and handed over to each would-be passenger in exchange for his fare.

The traveller, having thus obtained his ticket, was passed on to the guard of the train by which he desired to travel. This official was provided with a kind of waybill on which he entered particulars of all his passengers in much the same way that a parcel is served nowadays.

### Titanium Steel.

Titanium steel rails for railroads were first made experimentally in 1907. The results that they showed led to their manufacture by several steel companies in 1908, and during 1909, according to the Engineering and Mining Journal, their manufacture entered upon the commercial scale. Experiments on the New York Central have confirmed these made elsewhere in showing that these rails wear several times as long as those made of ordinary Bessemer steel. Titanium has a great affinity for nitrogen, and remains as an impurity in ordinary steel, the good effects of an alloy of titanium are ascribed to its action as a flux, thereby removing impurities and increasing the solidity of the steel. The increased cost is put at \$2.50 per ton of rails.

### Physique of Young Japan.

Rumors have been rife that the constitution of Young Japan is degenerating year after year says the Elton Tsushinsaba, but they are firmly denied by the authorities, who are of the opinion that according to the reports of the physicians of conscripts both constitution and weight are showing an upward tendency on the whole, and there is not a bit of cause to justify the rumors.

This must be the boon of compulsory education, only the prevalence of several diseases and of trachoma is true and indeed alarming, and on this account every year a great many young men are disqualified for the service; but the authorities reassure us that the physique of Young Japan is never on the decline.

CARRIGAN MAKES RADICAL CHANGE

His First Act as Manager is to Take Harry Hooper Out of Lead-off Position and Substitute Engle, But His Team Wins.

The first thing Bill Carrigan did after becoming manager of the Red Sox was to take Harry Hooper out of top place in the batting order.

Engle was at bat five times. The first time up he tripled and scored a run but the next four times he did not do a thing, failing to reach first on three occasions and getting there the other time by forcing a man.

Carrigan lost no time in taking out Colling. He held the Tigers scoreless until the seventh. In that inning singles by Galner, McKee, High, Moriarty and a sacrifice fly by Willett scored a pair of runs.

Against Detroit's four runs the Red Sox made seven. In seven innings they scored three runs off Willett, two on clean hits and the other chiefly due to an error by Rush.

TWO LEADERS MAY LOSE THEIR JOBS

Birmingham and Stovall Likely to Be Deposed.

ARE IN BAD WITH JOHNSON.

Pair Aroused Displeasure of Big Ban Recently—If Men Are Let Out This Winter Cleveland and St. Louis Fans Will Put Up Big Howl.

That the heads of two managers in the American league are in jeopardy is one of the rumors that are spreading around the circuit. At any rate, the two leaders in the big league are not to the liking of Ban Johnson, and when the American league's president's displeasure is aroused something is to give way.

The two leaders mentioned are George Stovall of the St. Louis Browns and Joe Birmingham of the Cleveland Naps. Stovall's case some time ago aroused the displeasure of the big boss, who is said to have ticketed Stovall for retirement unless he achieves the unexpected.

His conclusion was reached when Stovall spat on Umpire Ferguson during a game some time ago. Birmingham's crime was that of countenancing a row during a Sunday game in Cleveland, and Sunday baseball is hanging on a thread in that city.

Ban Johnson in the past has generally been right, but he has made his mistakes. One of his recent ones was in connection with this same Cleveland club, the players of which engaged in a fist fight with those of the Red Sox some weeks ago.

As a result of that fracas Nunamaker of the Sox was fined when, as a matter of fact, he was assaulted, not the aggressor. Johnson had to come down from that position.

Johnson, too, was going to rule off Stovall for life, but he didn't. If he has a right to Birmingham because that manager's high spirited man, Jackson, got into trouble between innings there will certainly be a town called Cleveland to be heard from if Joe is ousted.

And it might also be mentioned that the fans in St. Louis will also be there with a big howl. Surely big Ban cannot ignore the kick and the growls of the fans of both cities.

and partially hid her face. Three days ago she was in Iverson on the street and asked where she might secure work. Although she did not answer the description given, he asked her if she was from Menominee. She answered that she was not and the Chief thought no more of the incident.

The theft at the Wallersheim home was discovered after she left there yesterday morning. Where she spent the day is not known, but last evening she went to the home of Flavian Joint on Smith Court and asked if she might stay all night. She told a pitiful story and Mrs. Joint finally consented to her remaining. This morning she arose at six o'clock before the rest of the family were awake. A short time later Mrs. Joint went to the room she had occupied and found the girl's old clothing piled in the center of the floor. A search showed that her own suit and other clothing were missing. The girl had doffed her own worn apparel and "dressed up" in Mrs. Joint's clothing.

Chief Iverson learned that the girl had purchased a ticket for Sturgeon Bay and that she had boarded the Steamer Maywood. After leaving the local dock the Maywood went to Gladstone to coal and Iverson telephoned to that port to the Chief of Police instructing him to see that the girl did not leave the boat and asking that the Captain take her in custody and return to this port. The steamer came in shortly before eleven o'clock and the girl was turned over to the police.

Whether the charges will be pressed is not known. Her mother arrived here this morning from Menominee to conduct a search for the girl but did not learn of her whereabouts until shortly before the arrival of the Maywood.

When the girl was taken to the police station here all the stolen property was found upon her person. She was not badly frightened by her arrest. Her mother stated this morning that the girl was hopeless and that she would try to have her confined in some state institution.

An article appearing in the Mirror led to the girl's arrest. Rev. Ainslie read the article and communicated

with Menominee by letter enclosing the article and telling of the girl for whom he had found employment. A sister telephoned to the effect that the girl described in the article and her sister were one and the same.

### WRESTLING BOUT HERE SATURDAY, JULY 26TH

Karl Lehto and Gunnar Gronlund Will Meet at the Peterson Hall

Escanaba wrestling fans have had but little entertainment along that line in a number of years and the announcement that a first class bout is to be staged here the night of July 26, will doubtless be hailed with delight.

Karl Lehto of the Copper country who has the wrestling championship at 190 pounds and Gunnar Gronlund of Detroit will meet in the Peterson hall on that date. Gronlund is now in the city completing the arrangements for the match.

Lento has established a reputation as a wrestler and has met some of the best men in the game. Gronlund has met and defeated the best men in lower Michigan and in the vicinity of Chicago. He is a powerful built man and if he has half the ability credited to him by exchanges, the match will be well worth seeing. Two preliminaries between local wrestlers will be staged.

### REMAIN IN SCHOOL

Passing the Eighth Grade Will No Longer Exempt Pupils.

Every child in the state of Michigan under the age of sixteen must be in school or regularly employed, without regard to whether or not he or she has passed the eighth grade, according to an amendment of the compulsory school law, which Governor W. N. Ferris has recently approved. Heretofore those children who had passed the eighth grade satisfactorily were exempt from the provisions of the law regardless of their age.

Beginning with August 15, any child claiming exemption on account of having passed the eighth grade must secure a work permit from the county commissioner of schools or from the graded school superintendent and must be regularly employed at some lawful work if physically able to do so. This law, it is expected, will have a decided tendency to keep boys and girls in school for a longer period and an increase in high school enrollment is assured.

### ASST SECRETARY OF COMMERCE CAN'T SERVE

Cannot Legally Take Part in Activities of the Mediation Board

(By Associated Press.)

Washington, July 19.—When the new federal board of mediation met today to organize, in order to begin the adjustment of the wage dispute between the eastern roads and the trainmen it was confronted by the discovery that one member, the assistant secretary of the department of labor was legally barred from serving.

The law requires that officials must be government officials appointed by the president and the appointment confirmed by the senate before they can serve on the mediation board. The assistant secretaryship needs no confirmation. The vacancy will not cause any delay or hinder the board from proceeding, so Messrs. Hanger, Chambers and Knapp went to New York to begin work Monday.

A suit case containing samples valued at about \$300 was reported stolen to the police last night. The report was made by a traveling man who came into the city last evening and went to the Oliver house. He left his suitcase in the office and when he returned a short time later it was gone.

A diligent search failed to bring the missing suit case to light and its disappearance promised to be a complete mystery. The mystery dissolved this morning when another traveling man returned the suit case to the office. It bore a close resemblance to his own and he had taken it to his room by mistake.

### ALL PIPE HAS BEEN LAID

F. Nebel & Sons, of Gladstone, Will Soon Complete Contract With Marquette.

F. Nebel & Sons, of Gladstone, will soon complete its contract with the city in the building of the Presque Isle avenue sewer, known as the North Marquette trunk sewer. All of the pipes have been laid, and all that remains to be done is the building of four manholes.

The sewer construction was started last September, and when cold weather came the work was stopped until spring. In April the work was resumed. The trunk sewer is 9,000 feet in length and the contractors have experienced much trouble in many parts of the building as the water interfered greatly.

### LOCAL MAN GETS BOOST

Charles Belstrom of the Northern Vulcanizing Works is much pleased as the result of a visit from a representative of the Goodrich Rubber company who is making a tour of cities where there are vulcanizing plants to inspect the work that is being done by them for the owners of Goodrich tires.

It so happened that at the time of the visit of the representative, Mr. Belstrom was finishing a big section that he had put in one of the large sized Goodrich tires. After examining the work carefully, the representative said that no better work could be done in the company's factory. This is quite a compliment for the inspector stated that he has found very few local plants in the state doing good work.

### WEATHER CONDITIONS.

An extensive high pressure area covers the west, and is slowly advancing eastward across the Mississippi Valley. Its most important effect has been to cause a lowering of temperature in its front, thereby giving relief over the heated sections of the central states. It is cooler this morning over Nebraska, Iowa, Kansas, Missouri, Illinois, Indiana and Kentucky. No general precipitation occurred in the country since yesterday morning, except over the New England states, but local showers fell at a number of places in the southwestern states, and over the extreme lower Missouri Valley. The influence of the high pressure area in the west will sustain fair weather in this vicinity during the following 36 hours and cause moderate southwest winds.

A lazy liver leads to chronic dyspepsia and constipation,—weakens the whole system. Doan's Regulators (25c per box) act mildly on the liver and bowels. At all drug stores.

### RUNAWAY BOY COMES TO HIS UNCLE IN ESCANABA

Willie Fren Leaves Home in Milwaukee Without Telling His Parents

Willie Fren, the thirteen year old nephew of Charlie Fren, proprietor of "The Palace of Sweets" in Escanaba, caused his father and mother, who reside in Milwaukee a bad twenty-four hours on Friday.

Two weeks ago the youngster came to Escanaba to visit his uncle and about a week ago returned to his home in Milwaukee. Thursday night he left home without telling his parents of his intention and the following day the police of Milwaukee were kept busy hunting for the missing youngster. He is an only child and the parents were fearful that he had met with an accident.

Early this morning the youngster appeared at the home of his uncle in this city and Mr. Fren immediately got into communication with the boy's father at Milwaukee telling him that the boy had arrived here.

The relief to the parents upon being informed of their boy's whereabouts was great and they asked that he be returned at once to Milwaukee. Since the youngster has shown such a liking for Escanaba Charlie has determined to keep him here a few days before sending him home.
