FOUND—Pair of eyeglasses "A. C. Roulter, Quebec, Can." on case. Call police station, pay for this ad. 610-227

Iron and Steel Products. For every man, woman and child in this country there is produced each week three-quarters of a pound of rails, half a pound of structural shapes, three-quarters of a pound of plates, one-third of a pound of sheets, three-quarters of a square foot of tin-plate, 2 1/8 pounds of bars, hoops, etc., four pounds of iron castings. These and other finished iron and steel products make a total of 12 to 13 pounds each week per head.

Window Glass. It is certain that there were glass windows in Pompeii, as the proof is found in its ruins. In more modern times it is known that windows of some kind were glazed so early as the third century. If not before, though fashion was not fairly introduced until it was done by Benedict Biscop about 674. Windows of glass were used in private houses in Italy as early as 1177.

INSTRUMENTS OF INSECTS.

Musicians Perform With Their Wings. Only Birds Use the Throat.

Songs of birds and the trills of the toad and tree-frog fraternity are about the only musical sounds in nature that are throat utterances or true songs. The great host of insect musicians are performers upon instruments. Though they play upon fiddles and castanets that are a part of themselves, the sounds they produce are truly instrumental. The winged musicians are commonly of two kinds—those that use their wings as instruments and those that do not. Of the latter are the cicadas or harvest flies, incorrectly called locusts. These perform upon abdominal plates like castanets.

The true wing performers are the crickets and long-horned grasshoppers or true locusts, of which the katydid is a characteristic representative. These fellows—for it is always the males, the sports and lovers of the insect world—perform serenades by the hour on what might be called living fiddles. Most insects are devoid of hearing. The locusts and crickets possess acute hearing. Their courtship is carried on entirely through the medium of their serenades. The males remain in one spot playing upon their instruments. The females, undoubtedly attracted by these songs, seek the players with untiring energy.

Most remarkable is the character of the sounds produced in relation to the instruments played upon. These instruments seem much too flimsy to produce metallic and far-reaching sounds. The sound-producing portion of the wings is unlike the musical instruments of man. But the tightened, parchment-like sounding board and the manner in which the wings are scraped together correspond somewhat to a stringed instrument. With the crickets proper the wings are raised almost or quite vertically while stridulating. With the locusts the sound-producing organs are elevated, so as to permit a scraping motion.

Always the musical organs are attached to the fore wings. The hind wings are used only for flying. The fore wings of the cricket are for the most part taken up by the sound-producing, tightly-stretched portion. This part is strongly but openly veined and the toothed vein or bow extends entirely across this horizontal portion near its base. The roughened edge, where the toothed bow scrapes, is upon the inner margin. The right and left fore wings are precisely alike, so that either may be used for the bow or the fiddle.—Chicago News.

Pressing Trousers While You Wait.

"Trousers pressed while you wait" is a sign which no longer appeals. It went into the discard with the old year. The new thing is the electric trousers creaser, which not only creases trousers while you wait, but while they are on.

The new invention has a stirrup into which the toe is inserted, and a

handle by which the creaser is held steady. Between the two there is a vertical guide rod upon which the electrical pressing iron slides. The iron itself consists of two spring-pressed electrically heated plates, which are clamped to the trousers at the bottom and ironed up and down. The current for heating the iron is transmitted through a wire from a lamp socket.

It is intended that the trousers creaser shall be part of the equipment of the modern barber shop.—New York World.

Using Both Eyes.

"In choosing his men," said the Sabbath school superintendent, "Gideon did not select those who laid aside their arms and threw themselves down to drink; he took those who watched with one eye and drank with the other."

BASEBALL

STANDING OF THE TEAMS

Table showing the standing of baseball teams in the American League and National League, including Philadelphia, Cleveland, Washington, Chicago, Boston, Detroit, St. Louis, New York, and Pittsburgh.

SCHEDULE FOR TODAY.

American League: No games scheduled. National League: Chicago at Boston, St. Louis at New York, Cincinnati at Philadelphia, Pittsburgh at Brooklyn.

YESTERDAY'S GAMES

American League: Chicago, 4; Philadelphia, 2. Washington-Cleveland game postponed on account of wet grounds. Boston and Detroit not scheduled. St. Louis, 7; New York, 2. National League: Pittsburgh, 5; Cincinnati, 2. Boston, 7-9; Chicago, 3-3. New York, 6; Brooklyn, 5.

PUBLICITY, THE ISSUE

A Big Point in the MacDonald Young Contest

Washington, Aug. 13.—The big point in the Michigan case of MacDonald against Young will be the allegation that William J. MacDonald failed to comply with the law requiring publicity of campaign expenses. Minority Leader Mann has advised Congressman French, Republican member of the elections committee, to force the Democrats into a clear-cut expression about the publicity requirement. Once for all, it is proposed by the Republican organization to make a precedent as to whether failure to observe the law disqualifies a candidate from taking a seat in congress.

OGONTZ COUPLE MARRIED

Mrs. Stine Wickland Becomes the Wife of Her Deceased Husband's Brother

Mrs. Stine Wickland and Edward Wickland, both of Ogontz, were united in marriage yesterday afternoon at two o'clock at the parsonage of the Swedish Methodist church. Rev. Lundin, pastor of the church performed the ceremony. The bride was attended by Miss Iuz Norman and the bridegroom by Henry Norman.

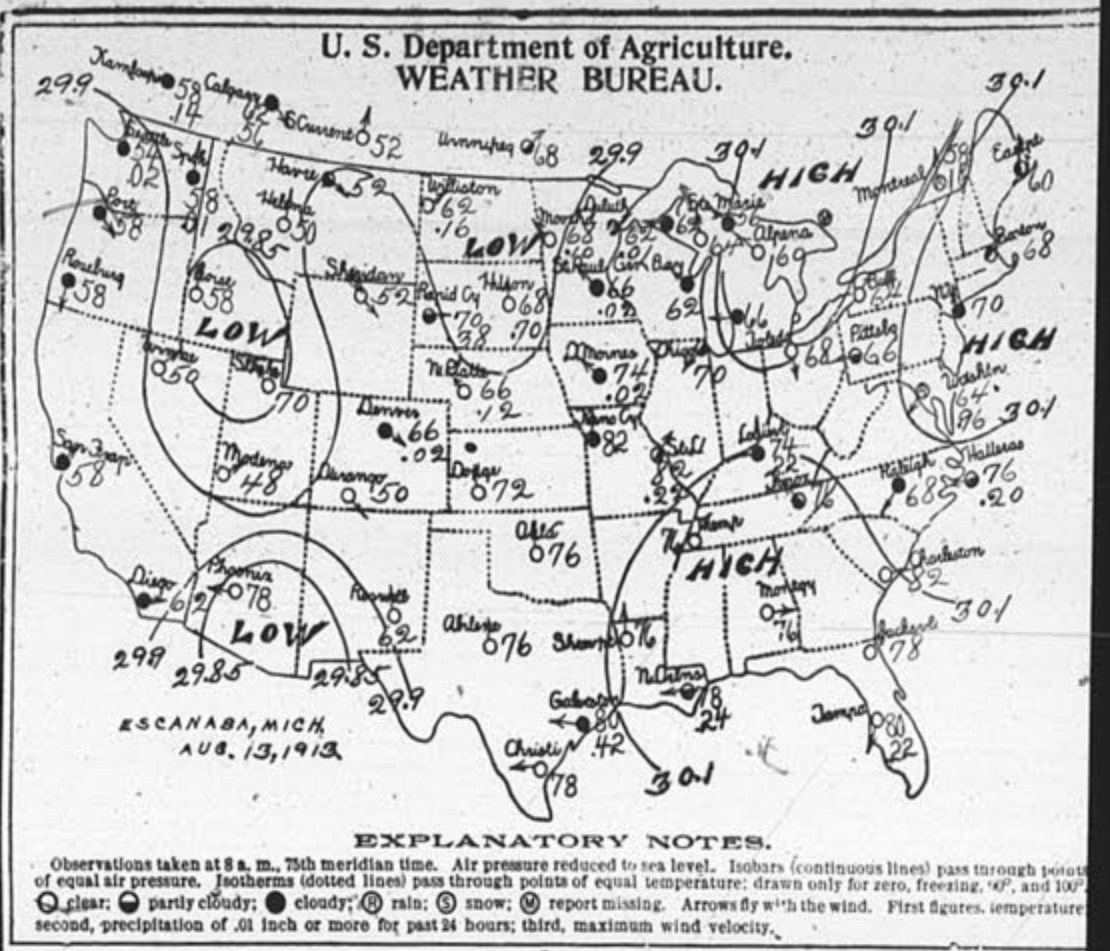

WIDOW IS GRATEFUL

Mrs. Mary Romaine Expresses Her Thanks to Those Who Have Assisted Her

Mrs. Mary Romaine, the widow of Oscar Romaine, who was killed recently when trampled by a horse, wishes to express to the many friends who have given their sympathy and aid in her hour of distress, her heartfelt thanks. She is especially grateful to Undertaker J. A. Allo, who cared for the body and to Coleman Nee, by whom her husband was employed at the time of his death. Both extended to the widow every aid in their power. The friends of Mrs. Romaine recently gave her a purse of nearly \$50.

OFFICIAL FORECAST

Escanaba, Aug. 13, 1913. For Escanaba and vicinity; Showers tonight or Thursday; light to moderate south east winds.

OUR GROWING APPETITE.

Not That We Eat More, but That There Are More of Us Eating.

In 1899 the American hen laid eggs in sufficient number during the calendar year to amount to seventeen dozen for each inhabitant of the United States. Omitting all thought of adding a single egg to the individual share of eggs, but merely to maintain the 1900 proportion of eggs to population the hens of the United States in 1911 must be laying annually 221,000,000 dozen more eggs than they laid in 1899.

The per capita product of milk in the year 1899 was 95.6 gallons per annum. To maintain this per capita for the benefit of our increment of population, says the "Atlantic," the milk supply in the year 1911 must exceed that of 1899 by 1,242,300,000 gallons.

To maintain butter, of which the per capita amount produced in 1899 was fourteen pounds, at the same per capita in 1911 the aggregate production must exceed the former figure by 182,000,000 pounds.

Of potatoes, that other staple of human consumption, the per capita product at the last census was about four bushels; hence in 1911 to maintain the potato supply for our newcomers but not to increase it for the rest of the community to the extent of even one potato each (one potato apiece means approximately 180,000 bushels), there must be raised 52,000,000 bushels more of this homely but useful vegetable than were reported in 1899.

What this produce means is best noted by observing that to supply it would consume the entire potato crop as reported at the last census of the States of California, Colorado, Illinois, Indiana, Kansas, Maine, Maryland and North Carolina.

Guard for Children's Eyesight.

"For the children to take back seats" at the picture show, is the advice of an English authority, who says that no child should be allowed to sit nearer than thirty feet away from the curtain.

COUNCIL PROCEEDINGS

(Official)

Escanaba, Mich., Aug. 5, 1913. Regular meeting of the Common Council of the City of Escanaba was held in the Council Chambers on the named date. Mayor Chatfield, Ald. Bittner, Cuthbert, Stratton, Swan, Wickert, Pryal, Follo, Garity, Strom and Buchholtz were present. Ald. Cantlin—1. Ald. Cantlin moved that the minutes of the meeting be approved with- out amendment.

carnival show from exhibiting in the City of Escanaba was read. Ald. Smith, supported by Ald. Garity, moved that the petition be granted. Motion carried. A communication from the Michigan Association of City Clerks requesting that the City of Escanaba send their Clerk to attend the annual meeting of the said Michigan Association of City Clerks to be held at Pontiac, Michigan, August 14 and 15, A. D., 1913, was read. Ald. Smith, supported by Ald. Cuthbert, moved that the communication be accepted, and that the City Clerk be directed to attend the said meeting. Motion carried by the following vote: Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Sheahan, Swan, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—13. The following communication was read: Escanaba, Mich., Aug. 5, 1913. To the Honorable the Mayor and Common Council, City, Gentlemen: We, the undersigned, your Fire Committee, respectfully recommend that the Chief of the Fire Department; William Meiers, be authorized to attend the International Association of Fire Engineers to be held in New York City, September 1 to the 6 inclusive. It has been customary for years for our Fire Chief to attend these conventions, and we feel that the knowledge he derives in the modern methods of fighting fires, is a benefit to the city. We would therefore request that he be allowed the sum of one hundred (\$100.00) dollars to defray his expenses. Respectfully yours, John Strom, John Garity, J. F. Pryal. Fire Committee. Ald. Sheahan, supported by Ald. Cuthbert, moved that the communication be accepted, and that the Chief of the Fire Department, William Meiers, be allowed one hundred (\$100.00) dollars for expenses to attend the International Association of Fire Engineers, to be held in New York City, Sept. 1 to 6 inclusive. Motion carried by the following

vote: Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Sheahan, Swan, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—13. The following communication was read: Escanaba, Mich., Aug. 4, 1913. To the Honorable Mayor and City Council, Escanaba, Mich. Gentlemen: Plans have been made for the celebration of Labor Day by the Trades and Labor Council. The committees are at work early and everything points to a successful celebration, and one of such character that the City at large may feel proud. As the expense for music and prizes for athletic events is considerable and as we have no other way of defraying this expense except through donations, we respectfully ask that you make such donation as you can to help in this cause. Very truly yours, Trades and Labor Council, By Charles Ford, E. J. Kirkpatrick, Charles Bowers, Louis Follo, George F. McEwen, Francis McCauley, Charles Carlson, Emil Johnson, Members of the Committee. Ald. Smith, supported by Ald. Stratton, moved that the communication be accepted, and that the City donate the sum of two hundred (\$200.00) dollars toward defraying the expenses to be held on Labor Day. Motion carried by the following vote: Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Sheahan, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—12. The following communication was read: Escanaba Mich., July 29, 1913. To the Honorable Mayor and Members of the City Council, Escanaba, Michigan, Gentlemen: Miss Lura E. Brubaker has been engaged as Librarian of the Carnegie Library. Yours very respectfully, J. J. Cox, President. Ald. Stratton, seconded by Ald. Sheahan, moved that the communica-

tion be accepted and placed on file. Ayes unanimous. The monthly reports of Justice Emil Glaser, Justice C. D. McEwen and Chief of Police, Andrew Iverson, were read. Ald. Smith, supported by Ald. Follo, moved that the reports be accepted and placed on file. Motion carried. City Veterinarian and Milk Inspector, Wm. J. Firkus, submitted the following report for the month of July, to-wit: Escanaba, Mich., Aug. 1, 1913. To the Honorable Mayor and Common Council, City, Gentlemen: The following is a report of the dairy inspections during July: 1. Carl Johnson, 1225 Stephenson Avenue. 2. Peter Nelson, 1227 Stephenson Avenue. 3. Oscar Hornblad, 1328 Stephenson Avenue. 4. Z. J. Jerome, 952 Stephenson Avenue. 5. Fred Sandbone, 421 Maple St. 6. James Campbell, 950 Stephenson Avenue. 7. Joseph Schles, 509 South Oak Street. 8. Matt Wolfe, 523 South Oak St. 9. Martin Erickson, 1218 Stephenson Avenue. 10. Gust Ulrlid, 1226 Stephenson Avenue. 11. Oscar Sedergren, 1228 Stephenson Avenue. 12. P. Sandmore, 216 South Oak St. 13. S. LeLone, 516 South Oak St. 14. Chas. Hoberg, 1219 Stephenson Avenue. 15. John Redmond, 1316 Stephenson Avenue. 16. Carl Carlson, 1025 Oliver Ave. 17. Otto Peterson, 216 Maple St. 18. Robert Jepsen, no address. All have been found satisfactory. Dr. Wm. Firkus, City Milk Inspector. Ald. Garity seconded by Ald. Smith moved that the report be accepted and placed on file. The following resolution was read: Whereas, there are certain bills against the Escanaba Municipal Lighting Plant, which if paid within ten (10) days will be allowed a discount from ten to fifteen per cent per annum; Therefore, be it Resolved, that the

Board of Public Works are hereby authorized to pay said bills from the cash account of the Escanaba Municipal Lighting Plant, and report the same to the Council at the first meeting of each month. Ald. Smith, supported by Ald. Cuthbert, moved that the resolution be adopted. Motion carried by the following vote. Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Sheahan, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—12. Ald. Sheahan was excused. The following resolution was read: Resolved, That the Finance Committee be, and are hereby authorized and directed to borrow the sum of Six thousand (\$6,000.00) dollars in anticipation of the taxes now due upon the real and personal property of the City; and the Mayor and Clerk are hereby authorized to sign such note or notes as may be necessary to secure said loan at the rate of interest not to exceed six (6) per cent per annum for a period not to exceed sixty (60) days; and they are hereby directed to sign such orders for the interest and principal at maturity. Ald. Cuthbert, seconded by Ald. Stratton, moved that the resolution be adopted. Motion carried by the following vote: Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—11. An Ordinance amending Section 2 of Ordinance No. 194, being an Ordinance entitled An Ordinance establishing a Police Department of the City of Escanaba, Prescribing the Different Offices of Said Policeman and Qualifications of Its Members, was read. Ald. Smith, supported by Ald. Pryal, moved that the ordinance be adopted. Motion was lost by the following vote: Ayes—Ald. O'Hanley, Bittner, Pryal Follo and Smith—5. Nays—Ald. Cuthbert, Stratton, Wickert, Garity, Strom and Buchholtz—6. The monthly report of City Treasurer, Chas. E. Connahan, showing a cash balance of Four thousand five hundred thirty-five and 96-100 (\$4,535.96) dollars was read.

Ald. Follo, supported by Ald. Smith, moved that the report be accepted and placed on file. Ayes unanimous. A City plat to be known as the Moore & Matthews Second Addition to the City of Escanaba, was presented to the Council. Ald. Cuthbert, supported by Ald. Smith, moved that the plat be referred to a special committee to be appointed by the Mayor. Ayes unanimous. The Mayor appointed on said committee Ald. Cuthbert, Swan and Garity—3. The following report was read: Escanaba, Mich., Aug. 5, 1913. To the Honorable, the Mayor and Members of the Common Council, City, Gentlemen: The following is a final estimate of work done by Charles E. Nebel & Sons on the Butcher Creek drain: Total No. yards excavated 15,905.36 at 16 cents.....\$2,544.86 Total amount paid out to date 1,364.49 Balance due Contractor.....1,180.37 Total.....\$5,089.72 All of which is respectfully submitted. W. E. McDonald, City Engineer. Ald. Smith, supported by Ald. Swan, moved that the report be referred to Ald. Stratton, chairman of the Sewer Committee for the year 1912, and the present Sewer and Street Committees. Motion carried. The following report was read, to-wit: Escanaba, Mich., Aug. 5, 1913. To the Honorable Mayor and Common Council of the City of Escanaba, Gentlemen: I herewith submit my report as Poor Director for the month of July for your consideration: Number of persons receiving assistance, 120. Supplies.....\$155.00 Rent.....177.50 Poor Farm.....40.35 Rx.....27.16 Hack.....1.50 Shoes.....44.30 Total.....\$405.81 Respectfully submitted,

Albert J. Pepin, Acting as Poor Commissioner. Ald. Follo, seconded by Ald. O'Hanley, moved that the report be accepted and the Mayor and Clerk authorized to issue orders for the payment of said amounts. Motion carried by the following vote. Ayes—Ald. O'Hanley, Bittner, Cuthbert, Stratton, Wickert, Pryal, Follo, Smith, Garity, Strom and Buchholtz—11. Street Commissioner, Carl E. Anderson, submitted the following report for the month of July, A. **DEADLY WORK OF COMMON FLY**

Startling Estimates Of Dr. Jackson: Before The New Jersey Sanitary Association

**170,000,000 YEARS SAVED**

4,000,000 Lives of Present Average Length Would Be Preserved if the Deadly Carriers of Disease Germs Could Be Annihilated.

If there were no house-flies, 170,000,000 years would be added to the lives of the people of the United States; or 4,000,000 lives of the present average length; and \$20,000,000,000 would be saved.

In the above startling figures Dr. Daniel D. Jackson, a member of the Merchants' Association Water Pollution Committee, told the New Jersey Sanitary Association his estimate done by the common household fly. It is almost incredible what damage is being done by the pest," Dr. Jackson said. "Figures help to convey it in a way, but no figures can tell the whole tale. However, when I tell you that, if the pestiferous household fly could, at one swoop, be annihilated, two years would be added to your life, my life, and that of every man, woman and child in the world. That means something. And when we go further and find that this means the saving of 4,000,000 lives of the present average length, or a total of 170,000,000 years of life, that means a great deal more."

Dr. Jackson is an authority second to none on the subject. For years he has investigated the fly in its bearing on disease, and he is convinced that in doing away with the pest we will also do away, in a very large degree, with typhoid fever and other contagious fevers.

In investigating the pollution of the waters of New York harbor, Dr. Jackson found flies were most numerous in the neighborhood of sewer outlets, and that in the same neighborhoods typhoid fever and other intestinal diseases were most prevalent. Thousands of flies were caught and examined, and upon them millions of disease germs were found.

In the paper delivered before the Jerseymen, Dr. Jackson told of one model tenement block in Manhattan where more than one hundred cases of typhoid fever developed in a recent epidemic. The health authorities were inclined to ascribe the fever to milk, but it was shown that other neighborhoods getting milk from the same source had little fever.

Investigation showed that two stables in unsanitary condition were immediately behind the model tenement and millions of flies swarmed from the two places, carrying on their legs and wings the filth from the stable refuse. So it was shown that the flies had caused the epidemic.

As to the possibility of exterminating the fly family, it is shown by statistics that the task is a monumental, if not impossible, one. A few months ago State Entomologist Bruner of Nebraska said a single housefly could be the progenitor of 192 quadrillions of flies in ten generations, which means in one year's time. One hundred and ninety-five quadrillions is about 195,000,000 bushels of flies!

**MANUAL OF THE UMBRELLA.**

Men Ostrichlike in This—Few Carry Them to Full Advantage.

"Curious about how some people carry umbrellas," said Mr. Stormellon, in the New York Sun. "We think the ostrich is a stupid bird because with its head buried in the sand it thinks its whole body is hidden from everybody; but plenty of men are quite as stupid as that in their manner of carrying an umbrella."

"They carry it in such a way as to protect the front of their body and appear to think they have themselves wholly protected while all the time the water is gaily dripping down their back. The fact is that not many men know how to carry an umbrella when it rains.

"If it rains and blows then instinctively they hold the umbrella toward the wind, to keep the umbrella from being blown inside out as well as to protect themselves from the rain. This is proper. But when the rain is coming down straight they carry their umbrellas in all sorts of ways, in which they reveal more or less of their personal characteristics.

"Here, for instance is a man who carries his umbrella held in his right hand with the hand straight in front of and in line with his elbow and upper arm, this being the easiest way to carry it. Held in this manner the umbrella really shelters completely only his head and the right side of his body; the rain drops from it on his left shoulder and down his left side. He is either lazy or thoughtless; he is probably both.

"Again, we may meet a man carrying an umbrella at the cost of considerable effort, around in front of the center line of his body, which is correct as to that position, but carrying it there too far forward, with the result that while he keeps perfectly dry on his face side yet more or less water drips down his back; a man finicky and particular about the front he presents, about appearances, but not so mindful of the substance.

"And then we meet the man who carries his umbrella with forearm straight in line with his elbow, for the greater ease of that position of the arm, but with the hand slightly turned so as to make the umbrella more completely cover him, or with that end in view, which end, however, it does not accomplish, for, with the umbrella top tilted it does not cover so large an area as it does when carried in a horizontal plane. This is a man who is lazy, but trying, by that twist of the hand, to get something for nothing, or without much effort.

"And then we may occasionally meet a man who is carrying his umbrella in the best possible position for the purpose, the best possible protection to be gained from it, this being square in front of him, with the umbrella handle all but touching the center of the front edge of the rim of his hat, carried so to protect him, as far as may be, both back and front, while he carries the umbrella as low down as can be without touching his hat on top, thus giving himself, also protection as far as possible down around toward his feet. And here we find a man who knows, intelligently, what can be done with the means at his command, and who is willing to put forth the effort required to bring those means to their utmost efficiency."

**AT THE PETERSON**

Is it possible for a musical play to be overburdened with girls? One reviewer has complained that there are too many pretty girls in the chorus of "The Prince of Tonight," and that in consequence his attention was alienated from the theme and the principals of the attraction. Certainly LeComte and Flesher, always contrive to enhance their offerings with unusually attractive choruses, for they realize that beauty is only skin deep and the girls in "The Prince of Tonight," have also fulfilled their qualifications in singing and dancing. Tom Arnold, heads the important cast of principals in this great musical success which will be seen here Sunday August 17.

The book and lyrics are by Adams and Hough and the music by Joseph E. Howard, among the many song hits introduced are "Her Eyes Are Blue For Yale," "You're a Dear Old World After All," "I Can't Be True So Far Away," "Can It Be Love?" and "Tonight Will Never Come Again." Much praise has been accorded the scenic production which has been built with a lavish disregard of expense.

**TEACHING CERTIFICATES**

Miss Elizabeth Leiper of Escanaba Receives Life Certificate From Northern State Normal School

Ninety-one students finished their courses at the Northern State Normal school on Friday last. Of that number thirty-five received life certificates, forty-five graded school certificates and eleven certificates to teach rural schools.

Among those who received life certificates were Miss Elizabeth Leiper of Escanaba and Miss Anna Barron of Gladstone. Miss Elsie Kruger, Miss Tillie Matson and Miss Cecil Robins of Escanaba were among those granted limited certificates.

**MR. AND MRS. E. R. BURNS** LEAVE FOR NASHVILLE

Mr. Burns is Succeeded by Archie Villemure, as Manager of Jewel Tea Company Here

Mr. and Mrs. E. R. Burns left this morning for Nashville, Tenn., where Mr. Burns has accepted the management of the Jewel Tea company's store. The many friends of Mr. and Mrs. Burns here greatly regret their departure for other fields.

Archie Villemure has succeeded Mr. Burns as the manager of the Jewel Tea company's establishment here. He is a young business man with sufficient vim and enthusiasm to continue the success that attended Mr. Burns' efforts here.

In parting Mr. Burns expressed his appreciation of the many courtesies shown him by the people of this home city.

**PARTY FOR VISITORS**

Mrs. Peter Monson Entertains, for The Misses Walgren of Pullman, Ill.

Mrs. Peter Monson entertained last evening at her home on North Sarah street in honor of the Misses Hazel and Vera Walgren, who are visiting friends in Escanaba.

A large number of young people enjoyed games, music and a delightful luncheon.

**SECURE MARRIAGE LICENSE**

Edward Peleisan of Escanaba to Wed Miss Emma Holst of Milwaukee

The Mirror is in receipt of a telegram from Waukegan, Ill., stating that Edward Peleisan, aged twenty-four of Escanaba, and Miss Emma Holst of Milwaukee had been granted a marriage license in that city.

**Stop Treating.**

The members of the Women's Christian Temperance Union in Wisconsin received congratulations from almost every country on the globe because of their success in getting the faculty and students of the State university to sign an agreement whereby they pledged themselves to stop treating to intoxicant liquors. There are said to have been nearly four thousand signatures.

**DELIGHTFUL MUSICAL**

Given Last Night by the Girls Club of St. Stephens Church

The musicale given last night by the Girls Club of St. Stephens church was enjoyed by an audience that completely filled the basement of the church.

The program was carried out in its entirety and every number delighted the big audience.

**WANT COLLEGE WOMEN NURSES**

Dean Arnold Says They Would Make More Happy Homes.

Boston, Mass.—The training of college women as nurses with a view of diminishing domestic infelicity was suggested in an address by Miss Sarah Louise Arnold, dean of Simmons College, before the American Society of the Superintendents of Training Schools for Nurses, which held its seventeenth annual meeting in the Park Street Church.

The speaker held that if more young women studied to become trained nurses there would be more beautiful and happy homes in the land. She advocated co-operation between colleges and nurses' training schools, that young women in the colleges and high schools might learn more of the duties of the nurse.

**DIVORCED COUPLE WED AGAIN**

Former Husband Courted Woman After Two Years Apart.

Springfield, N. J.—After being divorced for three years, William S. Johnson, electrical engineer of the Chicago Traction Company, and Miss Daisy Stiles, daughter of Mr. and Mrs. William S. Stiles, were married again. They were first married five years ago, when Miss Stiles, as she was then, was 20 years old and Johnson 21. After two years Mrs. Johnson got a divorce on the ground of incompatibility. She returned to the home of her parents, who are among the prominent residents of the town. A few weeks ago Johnson wrote to her, a second courtship followed and the marriage took place.

**Islelandic Wayside Poetry.**

Dr. N. P. Fenwick, Jr., notices a curious custom in Iceland of depositing written verses on a cairn, to be found by the next passerby. He tells us one so found by himself as follows: "I am sitting here late and early, hungry and cold I linger. Since friend, will you not warm the old one?" The reference is to an old drone supposed to inhabit the cairn.

**Ready Instantly**

Place a level teaspoonful of Instant Postum in an ordinary cup, pour on hot water, stir until dissolved; add sugar and cream to taste—

**and you have instantly a most delicious beverage**

This makes Instant Postum right for most people. Some like it stronger and use a heaping teaspoonful and plenty of cream. Experiment until you get it right for your taste and have it always made that way.

**INSTANT POSTUM**

is regular Postum reduced to powder form and soluble in hot water.

Postum comes in two forms.

**Regular Postum** must be boiled.

**Instant Postum** requires no boiling, but is made in the cup—**instantly**.

Postum is a pure food-drink made from whole wheat and a small percent of New Orleans molasses. It is entirely free from the coffee drug, caffeine, and is used by hundreds of thousands who appreciate the comfort and advantage of being well.

If coffee don't agree, try Instant Postum.

**"There's a Reason"**
