Cut down your lead—Get your bird with the center of the lead

**IN** the making of shotshells, the greatest forward step since the invention of smokeless powder is the steel lining to grip the powder and concentrate all the drive of the explosion back of the shot.

It's a Remington special invention—that steel lining. You find it in Remington-UMC Arrow and Nitro Clubs. These steel lined shells get their shot to the target quicker than any other shells known to the shooting fraternity. They cut down the guess-work about lead and angles. They put the center of the lead right on your bird.

The steel lining is moisture-proof—no dampness can get through. It is good—no powder can get out. Waste-proof—no energy is lost. Shoot Remington-UMC Arrow and Nitro Club Steel Lined Eastern Factory Loaded Shells for Speed Plus Pattern in any make of shotgun.

**DEER COMPLAINED OF BY FARMERS**

Owners of Farms at Palmer Claim Crops are Being Damaged and Ask Protection

A petition is being circulated for signatures by the farmers living in the vicinity of Palmer, which is to be sent to Governor Ferris, asking the right on the part of farmers to shoot the deer they find on their land doing damage.

The farmers claim that the growing crops are suffering damage as a result of the invasions of deer in the fields. The animals trample down the grain while eating to their hearts content. All kinds of products are being damaged in this way including oats, hay and other light staples and potatoes turnips and other vegetable.

The farmers are complaining vigorously of the nuisance and strongly want the privilege to take measures to protect themselves from the ravages of the deer. They assert the only way that can be done is to kill the animals when they come on their land and this will tend to have the effect and discouraging the deer from the keeping up of the destructive practice. Many of the soil tillers are highly indignant because of the losses they sustain declaring that there should be a law giving farmers the right to protect themselves in such cases, and not have the game laws applied to all classes as they do at present. They will present their grievances to the governor in strong terms, asking if it is not more essential to protect the farmers at the expense of the deer than visa versa. It is thought by some of the farmers that the petition will be favorably considered by the state executive, as they believe there is no question as to the justice of their demands.

Those owning farms near Palmer, which is located about six miles east of Negaunee, are mostly Finnish. They are making a good living, nearly all of them having large, thriving farms. The crops are always bountiful and are of a good variety. Many of the farmers, in the operation of their tracts, use the latest and most modern machinery with splendid results.

**FINE VICTORY WON, SAYS THE PRESIDENT**

Mr. Wilson Extols Passage of Tariff—Hopes Now for Success of Currency Bill

(By Associated Press.)  
Washington, Sept. 11.—President Wilson tonight issued a statement, regarding the tariff bill, in which he said:

"A light for the people and for free business, which has lasted a generation, has at last been won, handsomely and completely. A leadership and a steadfastness in counsel have been shown in both houses of which the Democratic party has reason to be proud. I am happy to have been connected with the government at a time when such a thing should happen, and to have worked in association with men who could do it. There is every reason to believe that currency reform will be carried through with equal energy, directness and loyalty to the general interest. When that is done, the first session of the Sixty-third congress will have passed into history with an unrivaled distinction.

When the president was asked to comment on the votes of Senators LaFollette and Poindexter, he expressed warm admiration for their "conscientious independence and courage." The president has been hoping for the votes of progressive Republicans. He told some of his friends tonight that aid of this kind outside of party ranks was one of the concrete evidences that the Democratic party was progressive.

The president hopes to share the vacation which members of the senate are about to take by going to Cornish, N. H., for a few days. Unless the Mexi can situation develops an unexpected turn, he will leave here Thursday.

nal, showed his contempt for the popular view by remaining in the line of the dog's progress to speak kindly to it. The dog bit him, but he paid no attention to the wound. Three months later hydrophobia developed, and ran its course to a fatal ending. Dogs should be looked after at all times, and especially in hot weather, and provided with access to water as well as sufficient food. It is unnecessary, and extremely brutal, to assume that every dog that is sick or out of sorts is "mad," and treat it accordingly. But it is unwise to court contact with a snapping suspect in order to show that your belief as to hydrophobia is at variance with the popular view. That form of argument may prove costly, as well as unconvincing.

A Cornell professor advises needy students not to attempt to work their way through college, but to borrow the money for the purpose. If they endeavor to support themselves while studying, he says, they both run the risk of breaking down and lose the social advantages of going to college. The plan involves a departure from the old order of things under which poor students, though sometimes grubstaked by friends or self-sacrificing relatives, worked their way through college and asked only to have the opportunity. But it is applying to a college education the approved methods of corporation financing and would help further to relieve colleges of the reproach that they are not in touch with modern development. Yet debts of this kind are hard to pay, and most difficult to collect, says the New York World. And curiously enough, in refutation of the argument for subsidizing undergraduates, Cornell students themselves earned \$184,900 last year, without, so far as is known, essentially "impairing the value" of their college course. Moreover, at no previous time have American colleges been so well equipped with funds for the aid of deserving students.

### SPAGHETTI TOO MUCH FOR HONUS WAGNER.

Honus Wagner, Howard Camnitz, Max Carey and Fred Clarke of the Pittsburgh Pirates accompanied a detective who "knows the ropes" on a tour of the lower east side in New York recently. After he had shown his guests the sights the detective decided to give them a treat at the midnight supper hour—spaghetti in a real Italian restaurant. Carey, Camnitz and Clarke all enjoyed the dish immensely, but Wagner could not make the stringy stuff behave. The others finished their meal while he was still struggling to get his first bite. He then gave up the task in disgust, went around the corner to a lunch room alone and ate six ham sandwiches.

### PLANS POLO COMPETITION.

Seven Countries May Participate in Event at 1915 Exposition. John B. Miller, chairman of the Pacific coast section of the American Polo association, plans to stage a worldwide competition during the 1915 exposition in San Francisco. He hopes to construct a magnificent turf polo field within the grounds of the exposition and invite England, India, Hawaii, Argentine Republic, Brazil and Australia, in addition to the American poloists.

### KRAENZLEIN GREAT ATHLETE.

Man Wanted to Train Germans For Olympiad Has Envious Record. A. C. Kraenzlein, the former University of Pennsylvania athlete and coach of the University of Michigan track teams, whom the German athletic authorities will endeavor to secure as instructor to train their athletes for the 1916 Olympic games, which will be held in Berlin, has been one of the greatest athletes the world has known. He could sprint, broad jump and high jump, as well as hurdle, all in championship form, and do well with the weights besides. His preceptor was the late Mike Murphy, and experience has added to his knowledge of the game.

### FALKENBERG'S GREAT CURVE.

Baker of Athletics Says It's Best of All—Is Better Than Matty's.

"Fred Falkenberg, Cleveland's lanky pitcher, has a better fadeaway ball than Christy Mathewson. Left handed batters can hit Mathewson, but find it almost impossible to get even a single off Falkenberg." Such is the declaration made by Frank Baker of the Philadelphia Athletics, home run hitter extraordinary and hero of the world's series of 1911. Baker made baseball history when he hit Mathewson for four bases in one of the games between the Athletics and Giants for the world's championship. He batted against Mathewson in three games of that memorable series. He has made the work of opposing pitchers a study.

"McInnis and I were talking about Falkenberg following his 2 to 0 victory over us," Baker continued. "Stuffy said he believed a right hander could hit Falkenberg easier than a left hander, and I believe he is right. To tell the truth, I would like to see how many hits a team composed entirely of left handed batters could make off Fred. I'll bet he would come mighty close to pitching a no hit game."

Ira Thomas, member of Connie Mack's famous strategy board, is another admirer of Falkenberg.

"I have not batted against Fred this year," says Thomas, "but from observation I would say Fred has the best fadeaway delivery ever pitched. Matty's fadeaway comes up to the batter rather slow. He works it as a change of pace. Falkenberg throws his fast ball and fadeaway with the same motion. The batter does not know which it is until he swings and misses. The fadeaway comes up much faster than Matty's fadeaway and for that reason is harder to hit. Fred is also the owner of more speed than Matty has now. I would rate Fred as one of the five best pitchers in the country."

Laughlin declares he is willing to race Directomer under exactly the same conditions as were arranged for the race which fell through owing to the illness of Sara Ann Patch, except that he prefers the match to be for \$1,000 a side.

These two pacers were matched to meet over the Belmont track, near Philadelphia, on Aug. 6, but Sara Ann Patch was unable to race owing to illness. The mare was taken to Dover, N. H., where she was supposed to be taken in charge by Walter Cox, the grand circuit trainer and driver, who gave her her present record, but Cox was never given charge of her, and later, when the mare was shipped to Cleveland, she was slightly injured on the cars and was taken ill. McLaughlin saw her and learned that Cox had never looked after her. After being joggled a mile over the Cleveland track she was shipped back home.

Sara Ann Patch is now in the hands of Dan Leary at West Chester, Pa., who is getting her into condition for a race. On Aug. 6 Bell had Directomer at the Belmont track and stepped him a mile. According to the conditions of the agreement, he claimed the \$500 posted by McLaughlin, and it was paid over by the stakeholder.

McLaughlin was perfectly willing to adhere to all conditions of the match, but now claims that in justice to himself he is entitled to another race. He is willing to allow Bell to select any date, which will give plenty of time to condition Directomer for the race.

**Boston First to Make 1,000 Hits**  
Boston was the first American league team to make 1,000 hits this year.

**ALLOWS ONLY ONE HIT IN EIGHTEEN INNINGS**

At Petersburg, Va., Pitcher Hedgepeth recently established a world's record when he pitched both games of a double header against Richmond and was hit safely only once in the eighteen consecutive innings.

He was not scored against only gave three bases on balls one in the first game and two in the second—and did not hit batsman.

Hedgepeth was sold to the Washington Americans seven weeks ago.

Is guaranteed to be heavily silver-plated on a German silver base. It is the same tasteful conceit in late silver service so much advertised in the magazines, and displayed in jewelers' windows. Every housewife in the land has admired it. The pictures do not begin to do it justice. It has to be owned and used, for one to fully appreciate its exquisite daintiness and excellent wearing qualities. Call and take a look at the spoons.

Here's the plan. Cut out six of the coupons shown below, bring or send them to the office of The Escanaba Daily Mirror accompanied by ten cents, and you will be given one of these dainty spoons. The coupons will appear daily. Another way: Save the cash sales slips given you by local merchants (no matter what the amounts are) and we will give you a spoon for each ten slips and ten cents.

## STROKE OF LIGHTNING DOES NO HARM TO GIRL

She Was Unconscious for Nearly Half an Hour, Lucile Moger Suffers Only a Badly Burned Knee.

On River, Mich., Sept. 10.—A bad burn on the knee is all that Miss Lucile Moger now suffers as the result of a stroke of lightning she experienced last week during an electrical storm. She was out with the family watching the gathering storm. Lightning flashed from the clouds but it seemed to be at great distance. She stepped one foot on a wire on a fence and her knee touched another wire beside it. There was a flash and a spark of fire ran along the wire hitting her knee. Miss Moger fell with a sharp cry and was unconscious nearly half an hour. A physician summoned but by the time he arrived Miss Moger had recovered consciousness and appeared to be none worse for the experience other than the severe shock and swollen knee. She was soon able to be around there have been no ill effects from the severe shock.

## HIGH SCHOOL FOR CONVICTS

This is Plan of Jackson Prison Warden.

Jackson, Sept. 11.—Beginning Sept. 15 a complete high school course will be started in Jackson prison for the inmates, Warden Simpson having found that nine out of ten prisoners never went beyond the eighth grade in school.

Competent instructors will be engaged to instruct the classes. The first eight grades will also be taught. There are dozens of young men in the prison, according to Warden Simpson who have had but a short period of schooling.

Fred L. Keeler, deputy state superintendent of public instruction in Lansing, has been investigating the need of a school in Jackson prison and has promised his support. The officials of the Michigan Agricultural college, it is said have also endorsed the school proposition.

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's a Simple Recipe That Anybody Can Apply With a Hair Brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.

## CHANGE OF BILL AT THE PETERSON

The bill that begins a four days engagement at the Peterson tonight is one of peculiar excellence. The acts comprising it have come direct from New York where they have played extended engagements on all the large vaudeville circuits. Byron and Nelson have an up to date singing and dancing turn with enough comedy intermingled to collect a large sized bunch of laughs.

Gertrude McGill and Co. have a meritorious sketch on the advanced woman question, that is filled with bright lines that provoke roars of laughter. Miss McGill is capably assisted by Mr. Dan Ryan. This act has been a success every where and no doubt will be well received here.

In the larger cities the name of Billy Barlow is a household word as he is one of those spontaneous fun makers who became an instantaneous favorite. His work will surely be an enjoyable feature of the show.

Miss Josephine Saxon and her troupe of pickanninies are a bunch of fun makers that will bring joy to the young and old singing, dancing and acrobatic stunts of the real Southern variety from the beginning, middle and end of this genuine comedy head line feature.

This show will undoubtedly give entire satisfaction for as a whole it is considered a real metropolitan vaudeville bill.

## DIVIDEND IS DECLARED

Ten Per Cent Dividend for the Hammel and Son Creditors

Referee in bankruptcy Looney yesterday declared a dividend of ten per cent to the creditors of the bankrupt banking establishment of D. Hammel and Son, formerly of Gladstone. Checks will be received by the creditors in a short time.

It is thought that a larger and final dividend will be declared in a short time.

## RECORD OF THE PAST

No Stronger Evidence Can Be Had in Escanaba

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney illa, should find comforting words in the following statement.

James Crawford, 318 Wells ave. n.e., Escanaba, Mich., says: "I have found Doan's Kidney Pills to be a remedy of great curative powers and therefore highly recommend them. My kidneys were weak and the kidney secretions contained sediment and were too frequent, scanty and painful in passage. Doan's Kidney Pills soon made me feel better in every way." (Statement given August 18, 1910.)

## CONFIRMED PROOF.

When Mr. Crawford was interviewed on November 9, 1911 he said: "I can still recommend Doan's Kidney Pills and confirm the public statement, given by me some years ago. The cure has been permanent."

## OCOONTO FALLS MAN IS MISSING

Leaves Town After Issuing Bogus Checks and Notes to Amount of \$1,000.

Sam Nahman of Oconto Falls, a butcher by trade, is the missing link in the loss of almost \$1,000 which he "stuck" Crivitz business men for.

Nahman obtained money from M. Chudacoff of Crivitz to the amount of \$800 on bogus checks and notes and several other men of that town are shy funds as the result of his work. Nahman was looked for at Oconto Falls, but had skipped town. What little property he had there was attached by his debtors.

The Y. M. C. A. is a high-grade, low-cost young men's club—Christian but not sectarian.  
It is an athletic organization that does not use men to promote athletics, but uses athletics to develop men.  
It is a night school for young men who work by day.  
It is a home for young men away from home.  
It helps young men not only to help themselves, but to help the other fellow.  
It is a place for a young man to find friends and to make himself a friend to the man that needs friends.  
It has no creed, but is controlled by representatives of churches. This keeps it a Christian organization, but prevents it from becoming another church.  
Its fellowship, club rooms, gymnasium, baths, classes and all other practical advantages are open to all young men, of all faiths or of no faith.  
It is not an experiment, but is the

Six each—beets, peppers, parsnips, turnips, rutabaga.  
Six stalks—rhubarb, spinach, cress, leek, garlic.  
Twelve each—Potatoes, onions, tomatoes, radishes.  
The above quantities are necessary to secure judgement.

### WONDERS ACCOMPLISHED IN ST. NICHOLAS COLONY

One Farmer Has Cleared and Will Reap Harvests From Twenty-Five Acres

George M. Maabek, E. C. Voght and C. M. Thatcher returned last night from the St. Nicholas colony in the Escanaba River valley near Beaver.  
The local men spent the entire day in the colony and were greatly enthused by the results that are being accomplished there.  
Although the colony has been in existence less than a year practically every one of the colonists will have a crop to harvest this fall. One had already cleared twenty-five acres of land and the remainder from five to twenty acres. A new church is in the course of construction and roads through the colony are rapidly being completed. The work accomplished looks more like the work of five years than one.  
What impressed the visitors most was the absolute contentment of the colonists. They are farmers born and bred and they are confident that they will be able to reap not a living but a fortune from Cloverland's soil.

All lectures will be given in the high school auditorium.  
Dr. A. S. Kitchen this morning received word from Dr. Fischer to the effect that the current at the high school was well adapted to stereopticon and that a better place to hold the lectures than the high school auditorium could not have been secured.  
The lecture Sunday afternoon is such as will not offend anyone. It is refined in every respect and girls over fourteen may attend.

### \$80,000 FOR A KISS

Eighty thousand dollars for a kiss! Such is the price, the largest in history, paid by a young, beautiful and tremendously wealthy Parisienne, a widow, for a salute impressed upon her lips by a banker. But she was blackmailed out of that great sum paying \$80,000 for silence to a trio of international swindlers. A good deal to pay for one kiss, but many people waste comparatively as much when golden grain belt beers are passed by, for other kinds.
