COLLECTED AUTOMOBILES BUT NEVER USED THEM

Rich Hermit With Mania for Musical Instrument and Automobiles is Dead
(By Associated Press.)
Decatur, Ill., Oct. 8.—John Bowman aged 62 died this morning. He was very wealthy and a hermit. A man of marked eccentricities, he had a mania for collecting musical instruments and automobiles, none of which he used. In a large warehouse on his property he had several of the leading makes of cars as well as numerous pianos and other musical instruments. When a new car was received by him it was taken to this warehouse and never seen again. Bowman very seldom left his home and never conversed with his servants excepting upon matters pertaining to his household. He was never seen to ride in an auto, though took great interest in them.

City Officials Deal With Case of Woman Suffering From Malignant Disease
A local woman, arrested yesterday on a disorderly conduct charge, who is suffering from a disease so malignant that her case was last night brought before the council, will probably be cared for at the county home. Sending her to some other city was discussed by the committee in charge of her case but they decided that forcing her upon an unsuspecting community might result in great harm. It is believed that with proper treatment she can be cured and she will be assigned to a special apartment at the home.

The laws about the city were strewn with the bodies of birds killed by the heavy hail stones.

THINKS CITY IS BURDENED

ATTORNEY RUSHTON RECOMMENDS LEGISLATION THAT WILL DO AWAY WITH REPEATED ARRESTS OF SAME DRUNKS

COSTS ARE TO BE INVESTIGATED
Believes Ordinance Should be Passed, Making Minimum Fine for Mashed \$25

Justices fees, the cost to the city of maintaining prisoners and the compensation of policemen were discussed at length by council last night and the city attorney was instructed to investigate and give as much information as possible to council at its next meeting. City Attorney Rushton took occasion to remark that the city was badly in need of legislation that would remove the burden of caring for the same old drunks, over and over again by the city. He recommended an ordinance so stringent in its provisions that no saloon keeper would dare sell a man of known intemperate habits, liquor. He stated that the same men were being arrested repeatedly for drunkenness and that as soon as they were released from jail they made straight for a saloon, accumulated another jag and were rearrested, the city meanwhile paying costs of trial and maintenance in the city jail. He also asked that a new ordinance governing mashers be passed on that would make the minimum fine about \$25, which he believed would be sufficient to quell the "heartsmashers" for all time.

WILSON WANTS DENIAL

Asks Washington Post to Deny Statement That He Would Class Democrats Opposing Currency Bill as "Rebels"
(By Associated Press.)
Washington, Oct. 8.—The reports that President Wilson was attempting to prod the democratic senators into quick action on the currency bill and that he had published a statement that he would class as a rebel any of the democrats who opposed it, brought an emphatic denial from the White House. President Wilson also demanded that the Washington Post deny the statement and put the denial in a prominent place in the paper.

SMILING SPEED DEMON OF THE AIR IN HIS MACHINE

Maurice Prevost, the French aviator, who won for his native country the International Aeroplane Cup, at the recent meeting at Rheims, France the competition for this cup, which is for the fastest time over a 200 kilometer (124.28 miles) course, is open to all nations, but this year only France and Belgium competed. Prevost covered the course in the remarkable time of 69 minutes 43.34 seconds, or 2 1/10 miles a minute. Prevost vanquished his two formidable French opponents, Emile Verdines, brother of Jules Verdines, who won the cup last year at Chicago, and Eugene Gilbert. Verdines flew over the course in 60 minutes 51.25 seconds and Gilbert's time was 62 minutes 55.25 seconds. Albert Grombes, the Angle Belgian entrant finished in 69 minutes 52 seconds. The machine used by Prevost in this extraordinary flight is a monoplane of the Deperdussin type, but its inventor Armand Deperdussin was not present at the meet, as he is now in detention awaiting trial on charges of obtaining money by illegal pretenses in order to develop his works. The Deperdussin fraud involves close on to a million dollars and was one of the sensational scandals of Paris.

MUST RENEW INJUNCTION

DEPUTY SHERIFF BEATEN WITH CLUBS AND SHOT IN BACK OF HEAD—DIES AN HOUR AFTER ATTACK

ONE MAN IS UNDER ARREST
Ten Men Set Upon James Pollack Who Recently Vanquished Six With Fists
(By Associated Press.)

Calumet, October 8.—James Pollack, a deputy sheriff, was killed by striking copper miners at the Isle Royale mine near Houghton early this morning. He was attacked by a party of ten men and beaten with clubs. He fell and a bullet sent into the back of his head. He died less than an hour later. One man has been arrested and other arrests are expected to follow. Great excitement followed the killing of Pollack and feeling runs so high that further trouble is anticipated. Pollack was recently set upon by six men and with his bare fists he vanquished his assailants. The police are confident that the men whom Pollack put to rout in the fist fight were implicated in his death and all will probably be arrested.

YOUNG WIFE IS A SUICIDE

ROODING OVER ILL HEALTH MRS JOHN CUMMINGS ENDS LIFE WITH BULLET

MARRIED WHEN SHE WAS FIFTEEN
Had Been Suffering From Tuberculosis for Several Years—Was But 26 Years of Age

That Mrs. Stella Cummings, wife of John Cummings, of near Flat Rock came to her death by her own hand, was the decision of the coroner's jury at the inquest held this morning in the undertaking parlors of J. A. Allo. Shortly after five o'clock last evening she had placed the muzzle of a revolver over her heart and pulled the trigger, dying almost instantly. Continued ill health, her body at times wracked by fearful pain, doubtless led the young wife to end her life. The story of his wife's deed, told by the husband at the inquest with truth in half the suicides. Married at the age of fifteen and never strong she began falling, soon after her marriage and for seven years had been suffering from an affliction of the lungs, finally determined to be tuberculosis. Each spring and fall her illness became acute. Her continued illness doubtless affected her mind and once previously she had threatened to end her life. Recently, her husband stated at the inquest, she had shown a slight peculiarity inasmuch that she would often stop suddenly in the midst of conversation and stare blankly as though she had forgotten what she had intended saying. Recently, however, she had shown no signs of mental aberration and was apparently happy, so that her deed came as a fearful shock to her husband. The husband works nights. Yesterday he arose shortly after four o'clock and packed his own bucket, his wife being at one of the neighbors. About five o'clock she came into the house and taking his dinner pail started to take off the lid, preparatory to packing it. He told her that he had fixed his lunch himself and would have to hurry. "All right," she said and Cummings left, starting off up the tracks. He had gone about a quarter of a mile when he was stopped by the cries of his nine year old son Richard. "Ma has shot herself!" screamed the boy and the husband, running back to the house found his wife lying across the bed, dead. The boy had been working on top of the woodshed and attracted by a loud slamming of the door went into the house, fearing that something was wrong. He found his mother, gasping her last. He says he did not hear the shot. The deceased was a former resident of Escanaba, having moved to near Flat Rock some time ago. She was but twenty-six years of age and is survived by her husband, one son, her mother, three brothers and three sisters. Her maiden name was Wood and she came to Escanaba from Lena, Wis., where her mother now resides. Funeral arrangements will not be made until the arrival of the mother. The jury consisted of Marc Peplin, Joseph Potvin, Frank Gunville, Joseph O'Hanley, Louis Grenier, Phil Dupont.

FRED PORTLANCE HAS NOT DROPPED CASE AGAINST MORNING PRESS AS ANNOUNCED BY THAT PAPER
THE PRESS WRONG AS USUAL
John J. Cleary Accepts Piano as Part Payment of Chattel Mortgage But Suit Continues

The Morning Press announced in this morning's issue that Fred Portlance had dropped the suit instituted by him against the Morning Press to recover a gum, alleged to be due him, as a contestant in the subscription contest. The suit has not been dropped and Attorney Ryall, who is taking care of Portlance's interests in the matter stated this afternoon that it would not be dropped. John J. Cleary held a \$500 chattel mortgage against Mr. Portlance. Mr. Cleary agreed to take the piano that had been awarded Mr. Portlance in the contest, and which he had previously refused to accept, as payment in the sum of \$400 and to take his note for \$100 for the balance. The suit against Mr. Portlance was then dismissed without cost to either party. Mr. Portlance giving Mr. Cleary an order for the piano. In the original agreement it was stipulated that for the settlement Mr. Cleary made with him, Portlance's suit against the Morning Press was to be dropped, but this stipulation was carefully crossed out before being signed by the attorneys and the suit stands as it did before. It will be tried at the coming term of court, according to Mr. Ryall.

COUNCIL HAS LONG SESSION

CONSIDERABLE BUSINESS TRANSACTED AT LAST NIGHT'S MEETING OF THE CITY FATHERS

SPECIAL ASSESSMENT COMPLAINTS
Mayor Defers Naming a City Scavenger—Will Repair Fannie Street

A three hours session of council last night enabled the aldermen to accomplish a wealth of business and to discuss fully the city's affairs. The Board of Public works through a communication advised that the city pay the expense of changing the sewer at the Laing hospital, the board feeling that the city was liable because of erroneous instructions given by the city engineer. Council decided to explain the matter fully. Meanwhile the present city engineer will change the city blue print. Mayor Chatfield asked that the appointment of a city scavenger be postponed until the qualifications of claimants were further considered. Council granted the request and empowered the Mayor to name a temporary official if the need arose. Two complaints were heard on the special assessment role. Mrs. Lyons complained of the charge for the removal of refuse and a special committee was named to investigate. Another resident complained of what he deemed an overcharge. There being no further complaints the special assessment roles were approved. A communication from City Attorney Rushton asking that works on taxation, public utilities and special assessment be purchased for the use of the city attorney, was referred to the purchasing committee. Chief Myers of the fire department was given permission to tear down the tower at No. 2 fire station. City Treasurer Conahan submitted his report for July, August and September. A balance of \$7,109.49, cash on hand, was reported. The report of Chief Iverson, Justice Glaser and McEwen showed thirty-one arrests made, \$30 collected in fines by Judge Glaser and \$105 by Judge McEwen. City Milk Inspector reported having inspected nineteen dairies and having found them in excellent condition. The board of public works submitted an estimated cost of \$399 for the construction of a sanitary sewer on Rose street in the Smith and Dunlap addition. Bills were submitted by the park board for \$333.60 and by the poor commissioner for \$487.80. The bill submitted by Engineer McDonald for compensation for assistants was held over for investigation. The street committee was empowered to make such repairs as it saw fit on the 600 block of Fannie street. Mayor Chatfield recommended the purchase of a pulmotor for the city, pointing out that it might be means of saving any persons from death Council act on the recommendation at the next meeting. Acting on a request from the police committee council instructed Mayor Chatfield to continue the services of Park Policeman Early as long as he deemed necessary.

The French war minister has received a petition from 900 young women who say that they desire to consecrate their lives to France, and ask permission to join the army. That they have considered to some extent the stern requirements of military service appears from the assurance that they are prepared to submit to military discipline. Why wouldn't it be a good thing to take them and detail them for service in the commissary department and the hospitals? Since the time of Florence Nightingale women have been recognized as worth as much to the army in the role of nurses. Undoubtedly the military kitchens would turn out more appetizing eating if women were placed in charge.

Cabaret veils, modeled after the Turkish style, covering all but the eyes, are said to be popular among eastern tango dancers. Is this a dawning admission that the dancers are at last becoming ashamed of their antics?

BRAN NEW METHOD OF
ADULTERATING MILK

Leave it Out all Night and the Dew Does the Work of the Pump

They have a heavy fall of dew at Wilson, according to three milk dealers arraigned yesterday for selling adulterated milk, so heavy in fact that if you should happen to leave the top off a milk can during the night, the following morning you will find the milk heavily adulterated with water. A rather unique defense, 'tis true, but no one can accuse these milk dealers of puffing from a lack of imagination.

Can you imagine a personage with such an imagination selling milk? It's a wasted time they ought to be selling stocks and bonds.

The men arraigned were Joseph Kosinski, Samuel Priestl and William Sora. They finally entered a plea of guilty and were fined \$10 and costs, or \$15 apiece. They were arraigned before Judge Phillips on charges preferred by Food Inspector John T. Rowe.

THE ESCANABA LIBRARY

Menominee Librarian is Pleased With System Used at Local Public Library

Miss Lois Spencer of Menominee in an article on the Upper Peninsula Library Association says of the Escanaba library:

Escanaba was at that time without a librarian. Since then Miss Lura Brubaker, Wisconsin Library School, 1913, has been elected to the position. The librarian who was there broke our entrance requirement. "All ye who enter here leave hope behind," that is, matrimonial hope, and got married. But the work went on under the experienced assistant's care. The building is well arranged and gives a most pleasing impression of space and comfort on entrance. The books in the children's room are arranged according to grade in school. It seemed a very practical plan since the children's reading is directed very particularly by the teachers. There being no librarian here nothing very definite was done about Escanaba's share in the new Association.

CLIFFORD IS BUSY ON
NEW JOB WITH ST. PAUL

Addressed Council at Iron Mountain Relative to Moving New Station

J. M. Clifford, recently promoted to the superintendency of the Superior Division of the St. Paul railroad, is getting right into the game. The following is from the Iron Mountain Tribune:

"J. M. Clifford, Supt. of the Superior Division of the St. Paul railroad, addressed the Council last evening in regard to the moving of the old St. Paul depot. Mr. Clifford wishes the Council to change the fire limits in order to permit his company to remove the old depot between C and D Streets. This will enable the company to use the old depot as a freight house. No official action was taken, but the Council agreed to change the limits, providing the St. Paul Co. would remove all the warehouses and sheds now standing east of the present depot, and also park the grounds. Mr. Clifford will make this agreement in writing and the limits will undoubtedly be changed at the next meeting.

"Mr. Clifford plainly showed that he has the interests of Iron Mountain at heart and that he is doing all in his power for his old home town. During the course of conversation, Mr. Clifford took the chair, just for old times sake, as he stated. He said that when he was mayor, the aldermen only had kitchen chairs, and he complimented the city on the fine Council Chamber."

NOTICE

The annual meeting of stockholders of the Escanaba, Iron Mountain and Western Railroad Company will be held at the office of the Company in Escanaba, Michigan, on Thursday, October 9, 1913, at 10 o'clock a. m. for the election of a board of directors and the transaction of such other business as may come before the meeting.

JOHN D. CALDWELL,

THEATRES

John C. Fisher will present at the Peterson opera house in the near future the most popular of all musical comedies of the present generation, "The Pink Lady," with many of the New York and London company and the original production.

"The Pink Lady," written by C. M. S. McLellan, with music by Ivan Caryll has taken its position as the greatest musical comedy produced in years. With a rattling good story, full of rapid fun, with music that is a delight an excellent cast, including scores of pretty girls, it is not to be wondered that its success has been so conspicuous. It is described as a happy medium between the better class of musical comedy and opera bouffe, with the fun evolved from the humorous complications of the story.

The delightful musical comedy will be seen here with many favorites, including Olga de Baugh, Georgia Harvey, James McElhern, Alfred Deery, Lucie Cartier, Jack Hall, Russell Lennon, Alice Moffat, Jack Ryan, Chas. J. Hines, Mortimer Meyers, Abbott Adams and the beauty chorus of fifty.

FOOTBALL GROWING

Form of Gridiron Sport Popular Among Colleges—Yale Will Continue to Use Foreign of Rowing Stroke—Penn's Runners.

By TOMMY CLARK. American tour of Harry Vardon and J. H. Taylor, the two noted British professionals, has turned out far from what they and their friends had anticipated owing to a total victory over them in the championship at Brookline, Francis Ouimet, the young American.

Fishermen will soon return home from the coast by the necessity of exposing a twenty-year-old strip-caddy boy, came to defeat the blue ribbon event of the western hemisphere. The only real answer is that confidence and enthusiasm, cool nerve and rare skill, allowed a chance to win a sport.

Called English stroke will be used by the Yale crews during the year, and W. Averill Harriman last season, again will in that capacity, assisted by others, a former head coach. He has returned to college to his course. Announcement is made for the fall and winter are expected in a few days, crew men are called out.

Belmont has refused \$200,000 for the year. This is the greatest ever offered for an American raised thoroughbred. It was made by W. Allison of Englewood is a breeder and a content. He probably was acting as one of the wealthy patrons of the turf. Allison asked to offer remain open until the year. The only condition of was this—that Tracery remain until the end of the year.

As by Rock Sand—Toplary, 2-year-old bay colt. He was by Belmont's Nursery stud in Kentucky. In his first start he finished third to Tagalle and Derby. Later he defeated the winner of the 2,000 Guineas, St. James' Palace stakes for the Doncaster St.

His first start he has never except in the Ascot Gold Cup he was pulled down by a jockey. At the time Tracery front by three lengths in the stretch. Behind him at the time Palatine.

Football is rapidly making among American colleges. It is officially made soccer part of the regular training in work, which is required of the freshmen and classes. The first work was done when the gymnasium on South field. At least 600 will be required to play the game a week, and from this vast university athletic authorities will be able to select a varsity team will be of championship.

Blakes, one-half of whom in, started training under the Orton for the varsity in cross country teams at the University of Pennsylvania. In the varsity men were interested in two mile and the Olympic medals, the star Miller, and Humphreys, the two mile runner of last year.

Miller of the Reds has no doubt that the Cuban must cut back in Havana during the winter for a cut in salary. Joe Miller with Marsans is that but by constant exertion in Havana all winter, club there and playing on the outfield. This is too much for a fast man, who had constantly, and Manfrotto informed him that he must leave Cuba or Cincinnati, but

Football Star Still Feels Old Injury. Miller, widely known as a water sculler, failed to come back as a varsity at Harvard. Gardiner, American tackle made his arm during the test of 1911 and was Princeton football.

TEAMS GOOD ON ATTACK.

But Weakness Appears in Defense of Football Eleven. Judging by the football games already played, it seems as though the attacking force of most of the impor-

tant teams is going to be stronger than the defense this year.

Most of the games played thus far have shown larger totals rolled up by both the winning and the losing team than were made in 1912. Of course this was not so in every case, particularly at Princeton and Ithaca. How-

ever, it was a noticeable fact in so many games that it is fair to reason defense. An organic plan can be laid that at the present time the attack is but for offensive football, and men can better developed than the defense at certain moments. While an organic defense is attempted it never reaches the game of football know that it is a same perfection as a well built up at great deal easier to build up a strong tack, and in the main defensive foot-

ball depends more upon the individual ability of the players than upon any system.

Old Red Sox Wipped Up. Of the 1912 Boston Red Sox, Stahl, Pope, O'Brien, Hall, Krug and Bradley are gone from the Hub.

The Yellow Peril.

A Jap ball team recently defeated the team of the University of Washington, now on tour, and in Tokyo. And Keiji Yamada, a Jap cue expert, has defeated James R. Donohue, a crack American player. The yellow peril, sure enough.

ABOUT MARRIAGE

Marriage is the result of a maiden's sort.

Generally, being in love means being out of pocket.

A diamond is often the corner stone of a castle in the air.

Some get a prize in the marriage lottery, some a surprise.

The girl with the elastic step won't necessarily spring at a proposal.

No matter how silly a girl is, her folks always expect her to marry well.

Unlike other bonds, the bonds of matrimony run for an indefinite period.

It is better to marry a real man than to cherish an ideal and die an old maid.

A woman's never reminds her husband of the best thing he said while she was young.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box.

Take one or two nightly and note the pleasing results. The Olive Tablet Company, Columbus, O.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's Recipe of Sage Tea and Sulphur Darkens So Naturally That Nobody Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of a famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another ap-

This Lung Remedy Known Fifteen Years

If everybody who suffers from or is threatened with Lung Trouble would investigate the many cases where recoveries were brought about through the use of Eckman's Alternative, a remedy which has stood the test for nearly fifteen years, a strong opinion in favor of it would be the result. What it has accomplished for others it may do for you. Read this—

"Gentlemen: Last December I took a sudden cold, which developed into Pneumonia. The doctor did all he possibly could for me, but could not clear my lungs. One day I saw a testimonial in one of the papers telling of the good results someone had from taking Eckman's Alternative for a trouble of the lungs. I began taking it and soon felt good results. My lungs began to clear up and I began to gain strength and was soon well enough to take up my work again. I am in better health now than I have been at any time. I am a missionary worker for the New York Home for Homeless and Friendless Boys." (Amherst) ERNEST P. WILCOX. (Above abbreviated; more on request.)

Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Strabismus, Colic and in up-building the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back Hurts or Bladder bothers you —Drink More Water

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush of the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so that no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Cleaning Chairs.

Leather chairs often become greasy looking where the arms and head rest on the leather. To remove these marks try linseed oil. Boil half a pint of oil, and let it stand until nearly cold; then pour in half a pint of vinegar. Stir till it is well mixed and bottle. When it is ready for use, put a few drops on a flannel and polish off with soft dusters. This will thoroughly renovate all leather.

HER LACK OF SYSTEM

By FRANK WINGET.

"Where's the ice pick?" inquired the ordinary man, coming upstairs from the basement and hunting languidly in the tool drawer.

"Isn't it in the drawer?" His wife came across the room to help him hunt. "Not there? Isn't that strange? I was sure it was there!"

"Strange!" The ordinary man's tone was scornful. "Strange!" He put the drawer with a bang. "If I've bought one ice pick, I've bought fifty! If I want to have a thing in this house where I can find it when I want it I've got to keep it chained in my pocket with my keys! I never heard of another house like it!"

He put his hands into his pockets and strode up and down the kitchen as he talked. "Here's the ice melting and nothing to chit it with—and hotter than fury! I suppose you never dreamed that we'd need ice drinks this weather. An ordinary man would have seen to it that that ice pick was somewhere where it would be handy! But your mind is wandering off somewhere."

"It's the same way with every tormented thing around this ranch!" bemoaned the ordinary man. "Last winter could I ever find the hatchet when I wanted it? No! Hatchet after hatchet I brought home, and yet as soon as I needed one there was not one to be found! You let the children play with them or sell them for brooms, I suppose! But as far as putting them away in any regular place and remembering the spot over night—why, I'd drop dead if you ever suggested such a marvel!"

"Could I find the garden rake this spring? No! I had to go down and buy out the hardware store after I'd laid in a whole new outfit last summer!"

"Why," interrupted his wife, "you know yourself that you lent your garden outfit to Mr. Daniels and he carried them away when he moved and—"

"Yes, and you expected me to come from the office and hang around when Daniels moved, to see that he didn't

carry off my property! Hang it! Why don't you watch out for a few things? Why can't you keep your eyes open!"

You seem to think I am solely responsible for things about this place! I don't know who is responsible if it isn't you! You ought to see the place father had at home. There was the tool shed and if—"

"Yes, a big tool shed—and who took care of it? I heard your father say that he passed all his leisure time in that shed. And your mother said she never had to think of repairs—your father was so good about remembering everything. He kept all her knives sharpened and—"

"I suppose you think I ought to hang around home sharpening knives, when I can get a man for half a dollar to sharpen all we ever owned! It shows how much you think of my business ability. You can't appreciate my work!"

"I never said I didn't appreciate anything. But you said your father—"

"Now, we'll leave my father quite out of the discussion," exclaimed the ordinary man, warmly. "He had nothing to do with the ice pick being gone. Here it is Sunday and no ice pick! I tell you it's the same with the hammer—and with the screw driver that I got last Christmas. I've never seen them—"

"Oh!" exclaimed his wife. "Don't you remember that you fixed up a bench in the attic with your new tools Christmas week and I'll bet your things are up there!"

"Jimmy! That's what I did!" He took the stairs two at a time. "Yup, here they all are! Lucky I had the good sense to put them away or they'd been all lost by this time. Shows what a good housekeeper you are not to know they're here!"—Chicago Daily News.
