Buy a FORD NOW!

This advertisement is to notify the people of Delta county that I have the agency for the FORD automobile. I have taken the FORD agency for the reason that I am sure that the FORD is the car that is best suited to the average needs of local people.

Buy a FORD because it is cheaper

In the ten years of its successful development the FORD has acquired a reputation absolutely unmatched in automobiles—and the guarantee of a financial responsibility that scarcely has its equal in the manufacturing world.

The Making of the FORD

The FORD factory in Detroit is acknowledged to be the most complete, compact, economically efficient and thoroughly equipped automobile plant in the world.

Why You Should Buy Now

There is no better season of the year for automobiling than the fall months. The woods are beautiful and the roads are generally good.

Hundred People want FORDS

It is estimated that at least 100 people will want FORDS in this county in 1914. Some of them will have to be disappointed.

See and See Me

I will have by the end of the week three cars for delivery and may be able to get a few more this year. Let me explain to you why the FORD is the car you want.

EDWARDS

Holton saluted, paused a moment as the admiral seemed about to speak, and then as the commander, with his half-weary air, turned to a sheaf of correspondence, Holton left the cabin and was soon on his way to the Gnat.

Holton took a pipe from his pocket and dismissing the dingy, sat down to wait. The time was not long, for within half an hour the officer saw several four-oared gigs rounding the stern of the transport and making shoreward.

"All stood rigid as the white long-boat, with Admiral Sampson in his spottled duck uniform and Shafter with his garb of blue and gold, approached the shore.

He produced a bunch of credentials which had been handed him by the admiral's aide an hour or so before, and gave them to General Garcia.

Holton wound himself snugly in his blanket and was about to fall asleep when a sentence arrested his mind and brought him wide awake.

"I do not ask you, general, what your convictions are to the United States are. I tell you merely what circumstances may arise and ask you what you would do in that event."

"There is much yet before us all," murmured the officer. "Good night, general."

He acted upon impulse in rising from his blanket, and without any definite intention save that of accepting the man. But now the futility of doing this in the camp, with Garcia not yet asleep, and without any well-informed plan for dealing with him appealed to him forcibly.

the beach, crawling now, about seventy-five feet from where the man was standing, holding his horse by the bridle and gazing out over the bay, where could be made out the light of a dispatch boat.

As the officer watched him, the spy raised his hand, and a low but penetrating whistle broke the stillness of the night. A lantern waved from a craft in the bay, and in a few minutes the rattle of oars in their locks sounded.

"That is a copy of a letter which General Garcia wrote tonight to General Castillo and General Bell."

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water. Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority.

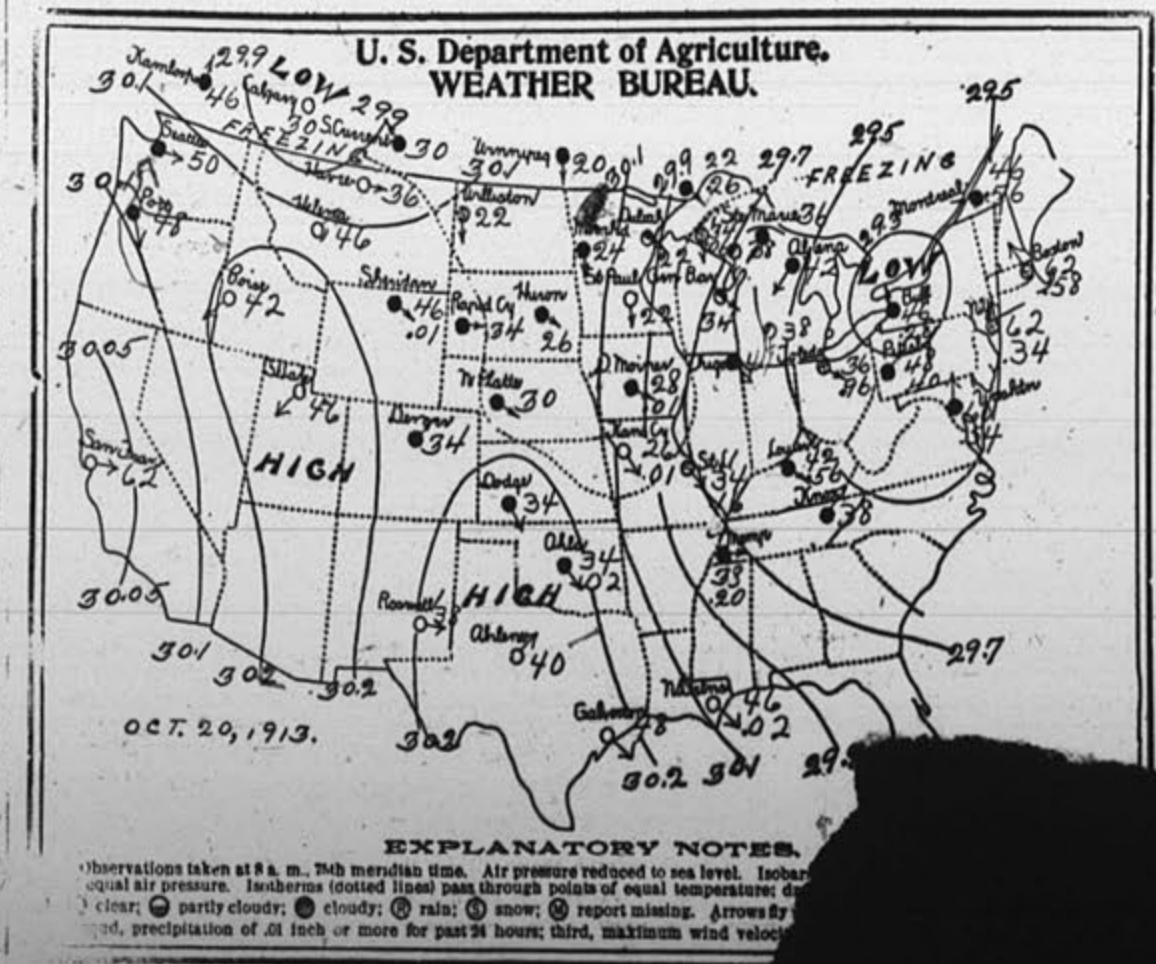

"Very well, I'll report to the commander-in-chief. What are your future intentions?"

"What is it?" he heard the officer say.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

CHAGRES RIVER FROM FORT SAN LORENZO

Panama, R. P.—It is not given to many men to destroy a city so utterly that it is never rebuilt. That is what Capt. John Morgan, the master buccaner, did in 1671, when he led his band of cutthroats down from the hills upon Panama. After he had finished with that big, flourishing city there was so little left of it that the Spaniards moved five miles west along the coast and there built a new Panama—the Panama we know today.

The story of Morgan's justly famous exploit, often told, never grows stale. It is a wonderful story of desperate, bravery, endurance, suffering and ruthless cruelty, and as John Esquemeling was the first to relate it in detail, so he has been the best. Howard Pyle has well said: "In the case of the Esquemeling history, it should be decidedly hands off. One touch of the modern brush would destroy the whole tone of dim colors of the past made misty by the lapse of time."

So I wish I had space to quote the entire story of Morgan and Panama as Esquemeling, who was one of the band, tells it. Some of it, at least, must be given in his quaint language, beginning with the capture by a part of Morgan's fleet of Fort San Lorenzo at the mouth of the Chagres river. Says Esquemeling:

"Captain Brodely being made commander, in three days after his departure (from St. Catherine's) arrived in sight of the said castle of Chagres, by the Spaniards called St. Lawrence. This castle is built on a high mountain at the entry of the river, surrounded by strong palisades, or wooden walls, filled with earth, which secures them as well as the best wall of stone or brick. The top of this mountain is, in a manner, divided into two parts, between which is a ditch thirty feet deep. The castle had but one entry, and that by a drawbridge over this ditch. To the land it has four bastions, and to the sea two more. The south part is totally inaccessible, through the craginess of the mountain. The north is surrounded by the river, which here is very broad. At the foot of the castle, or rather mountain, is a strong fort, with eight great guns, commanding the entry of the river. Not much lower are two other batteries, each of six pieces, to defend likewise the mouth of the river.

"No sooner had the Spaniards perceived the pirates, but they fired incessantly at them with the biggest of their guns. They came to an anchor in a small port about a league from the castle. Next morning, very early, they went ashore and marched through the woods to attack the castle on that side. This march lasted till two of the clock: in the afternoon, before they could reach the castle, by reason of the difficulties of the way, and its mire and dirt; and though their guides served them very exactly, yet they came so nigh the castle at first that they lost many of their men by its shot, they being in an open place without cover."

The pirates bravely assaulted the castle, sword in one hand and fireball in the other, but were repulsed with heavy loss. Renewing the attack under cover of darkness, there happened a very remarkable accident, which occasioned their victory. One

died of their comrades lay dead upon the field. Morgan at once attacked

"Morgan's Tower," Old Panama.

the city, and though the defense was desperate, many of the pirates being killed, Panama fell within three hours.

What Morgan did to the devoted inhabitants in the effort to find all their hidden treasure is too horrible to relate. Soon after the capture of the city fire broke out in many quarters, and Esquemeling says the conflagration was started by Morgan, though he laid the blame on the Spaniards. Anyway, as the houses were almost all built of cedar, the entire city was soon consumed by flames. Some three weeks later "Captain Morgan departed from Panama, or rather from the place where the city of Panama stood; of the spoils whereof he carried away with him 175 beasts of carriage laden with silver, gold and other precious things, besides about six hundred prisoners, men, women, children and slaves."

Of old Panama naught remains but the ruins of the cathedral, the tower of St. Stanislaus church and the fragments of a few other stone and brick structures. For more than two centuries they have been buried in the jungle, but are now being brought to view by the efforts of the Panama government, which is having the undergrowth cleared away from the ruins.

The visitor to the isthmus should not fail to make the trip down the Chagres from Gatun to the sea, reversing Morgan's route. The scenery along the river is beautiful, and the great stretch of ocean beach—clean, hard, green and purple sand over which immense breakers roll—is ideal for bathing.

The massive walls of Fort San Lorenzo still stand on the hill at the mouth of the Chagres, and the heaps of cannon balls left by the Spaniards are yet there. In the dungeons of the castle are piles of rusted iron—the fetters which they hoped to fasten on the bodies and limbs of Morgan and his buccaners.

HUGHITT STARRED IN GAME WITH FARMERS

Michigan Loses to Aggies for First Time in History—Local Boy The Shining Light

The University of Michigan football team went down to defeat Saturday before the M. A. C. eleven by the score of 12 to 7, the first defeat the Michiganders have ever suffered at the hands of the Farmers. The work of the Michigan eleven was heavily criticised and according to one sporting writer, every team member played like a school boy except Tommy Hughitt whose generalship and individualism and individual playing will keep Michigan adherents talking for years to come."

Hughitt, Escanaba's contribution to this year's eleven at the University of

Michigan, was the only consistent ground gainer for the defeated team.

GARDEN MAN SHOT IN BACK, INJURIES SLIGHT

Theodore Hazen Painfully Hurt When Shot Penetrated Back After Passing Through Door

Theodore Hazen of Garden township was painfully injured last week while duck hunting. With a companion Hazen sought to dislodge a shell from an automatic gun and in doing so it was discharged. The charge passed through the cabin door of the launch and struck Hazen in the back. The shot just penetrated the skin and his injuries are not serious.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur Recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dary, glossy, soft and luxuriant.
