BRITISH LEADER SAYS WAR WILL NOT BE OF LONG DURATION--RUSS PLACE GREAT IMPORTANCE ON THE FALL OF PRZEMYSL

BILLION DOLLARS DAMAGE DONE TO POLISH CITIES AND VILLAGES, SAYS BERLIN REPORT--DACIA NOW HELD TO FRENCH PRIZE COURT

GERMANY SAYS LATEST RUSS INVASION OF GERMAN TERRITORY RESULTED IN DEREFT FOR MUSCOVITES--ARMEN ACTIVE IN FRANCE AND BELGIUM--DARDENELLES AGAIN QUIET--TALE OF HORRORS RECEIVED FROM NORTHERN PERSIA--ATHENS PAPER SAYS BRITISH LOST FIVE SHIPS AND 2,000 MEN IN DARDENELLES.

The opinion is expressed by Commander-in-Chief, General French of the British forces in France, that the war will not be of long duration.

In an interview with the correspondent of a French paper, he said that the opening of spring promised well for the allies.

Italy is rapidly preparing for possible intervention, it is believed and it is said that negotiations have entered into with Austria.

A royal decree is to be established in Italy to suppress the evils of spying. It is the plan to put women to work in the commercial lines in the event that men are called to the colors.

An official Russian communication describes a battle that occurred previous to the fall of Przemyśl. It is said that troops left the fortress in an attempt to cut their way through the Russians on the east side of the city, but were hurled back with heavy losses.

Berlin newspapers do not believe that the Russian victory at Przemyśl will have much influence on the campaign in the east, although the fall of the city is declared to be a "fatal blow to the Austrian-Hungarian right wing."

Dardenelles Quiet
All is reported quiet at the Dardenelles and there have been no further attempt at attacking the forts by the allied fleet. The ships did not leave their anchorages.

The latest Russian invasion of Germany is said to have met with the same fate as its predecessor. Today's official German announcement says the Russian forces which captured Memel on the Baltic sea, have been driven back and that German troops pursuing them across the border have captured the city of Krottinge.

The Muscovites are on the offensive in northern Poland, but the German war office says they are being driven back at almost every turn.

The initiative in France and Belgium has been left to the airmen during the past few days. Allied aeroplanes have attacked Ostend while German airmen dropped bombs upon Rheims. A German statement says a French birdman was shot down near Verdun and that another was forced to descend at Firroberg.

POLAND SUFFERS HEAVILY
Berlin, March 23.—According to a report from Cracow, the damage done in Galicia will amount to 5,000,000,000 marks (\$1,250,000,000). Six thousand villages were damaged and 250 villages destroyed. Eight hundred thousand horses and 500,000 head of cattle have been taken away by the Russians.

In Poland 200 cities and 9,000 villages have been destroyed or damaged in varying degree.

Says American Ship Held
Berlin, March 23.—The following announcement was made today by the Overseas News Agency:

"Captain Hannsen and First Officer Janssen of an American steamer, the Ollson, enroute from Scotland to Bremen say they were boarded by a British officer and crew from the Celtic and who took possession. The British officers declared that it was their intention to ram a German submarine if the occasion presented and were going to use the American steamer for that purpose.

There are no American records of any steamer named Ollson, but there is a Swedish vessel of this name, the Consul Ollson, which sailed from Helsingborg March 1. The Consul was disabled at sea and was towed into Barbadoes and there is no record of her leaving that port.
(Continued on Page Six.)

STREET CLEANING DEPARTMENT BUSY

The street cleaning department of the city was out in force today, cleaning up the refuse left from the winter. But one side of Ludington street is in condition to clean, as the south side still has a foot of ice lying upon it, which the sun is unable to reach only in spots.

Considerable progress was made during the morning in the work and it is believed that with a few days work, the street will be placed in as decent a condition as it is possible at this time.

APPEAL IS MADE TO PUBLIC FOR SUPPORT OF THE CITY'S BAND

SUMMER IS CLOSE AT HAND, SAYS MEMBER OF BAND, IN COMMUNICATION--URGES THAT CITY HELP ORGANIZATION.

A communication has been received at this office, from a member of the Escanaba Military Band, setting forth the facts that summer is well on its way here, and that the city needs a band to keep up the reputation of years past. The communication states that the life of the Military Band is hanging in the balance at the present and urges the support of the citizens of Escanaba.

The letter follows:
EDITOR DAILY MIRROR
DEAR SIR:

Yesterday is dead, tomorrow doesn't exist, so today is the day to act.

Being mindful of the fact that the outdoor amusement season is rapidly approaching, there is no better time than the present to acquaint the public spirited people of the biggest and best city in the Upper Peninsula and the fact that without a good band, the coming summer will be an extremely dull and dreary one.

I am sure you'll agree with me, that if the people were canvassed as to whether or not they wanted a band, they would if possible, rise and in one voice unanimously vote emphatic yes.

Yet few if any realize that the very existence of a good band (which can be had right here in the city without sending outside for other musicians to assist us) rests with the people in the way they patronize our concerts, etc.

We are trying to make this a strictly local organization, and the few of us who are not really native sons can well be called old settlers now, since a traveling musician seldom remains in one place longer than six months, we few were imported for the North.
(Continued on Page Six.)

ARMY DESERTER TAKEN

William Beucher Alleged to be Deserter From U. S. Army

Yesterday afternoon police of Gladstone picked up William Beucher, alleged deserter from the United States army at a southern post. Beucher confessed, it is said, when arrested and admitted being a deserter from the post.

What disposition will be made of the man is hinged upon the reply received by officers from the authorities at the government post, at Fort Snelling, Minn., where it is said the man enlisted in the service.

THE WEATHER

Fair and warmer tonight; Wednesday unsettled, probably local snows.

FOREIGNER HELD ON A GROSS INDECENCY CHARGE; A BAD CASE

PARADED BEFORE RESIDENCES ON NORTH OAK STREET THIS MORNING--WOMEN INSULTED--MIXED WITH POLICE.

What is regarded as the worst case of indecency ever perpetrated upon the city and in connection with which the tales of insults and similar charges made against a trio of men yesterday, stand out as mere trifles, was revealed in a "4-11" call to police headquarters shortly after 9:30 o'clock this morning.

It developed, according to the police, that a huge foreigner, a regular giant of a man, was parading back and forth before a number of residences on North Oak street at that time. Partially unclothed, this creature, not a man, but a degraded bit of humanity, marched back and forth, making suggestive gestures to the occupants of the houses.

Apparently no one noticed the fellow for some time, and immediately upon his discovery a hurry call was sent to the police headquarters and the only officer on duty there at the time set out on a run for the scene.

Mixed With Police
The sight that met the gaze of the breathless officer as he rounded the corner and into full sight of the fellow, put added spurs to him and in a few seconds was upon him. Endeavoring to conceal his dirty, suggestive conduct, the foreigner, swung round and attempted to fight the officer off, but was felled with a stiff blow on the mouth. He was then rushed to the city jail where he will be held until such time as he can be given a hearing.

"This is the worst case that I have ever seen," stated Chief Tolan this afternoon, and it is the intention of the police department to give the fellow, whose name could not be learned as he was unable to speak a word of English, the limit under the statutes. He will be charged with gross indecency.

Mean Business say Police
That practices of this sort and the annoying of women on the streets will have to stop, irrespective of who is hit in the process, is the stand taken by the department. Woe betide the individual that falls afoul of the law in this particular, for he will be given
(Continued on Page Six.)

SUCCESSFUL SEASON JUST CLOSED BY THE STEPHENSON COMPANY

FOUR LOGGING TRAINS HAVE BEEN KEPT BUSY HAULING THE CUT OUT FROM THE WOODS TO THE WELLS PLANT.

The I. Stephenson company, which is one of the largest lumbering concerns in the United States and the largest in Michigan, has completed a successful season. Four logging trains, operated night and day, have been busy hauling the company's cut out of the woods to the mills at Wells. The company operates camps in the southern part of Marquette county.

A large part of the cut was taken from along the Austin branch of the Escanaba & Lake Superior railway. The country through which this branch passes is renowned for its timber reserves. The terminal of the branch is located a few miles south of Princeton and Gwinn. The company operated twelve camps on the Austin, Ralph and Kates branches of the E. & L. S. railway, and nearly 1,000 men were employed in the woods. During the hauling season the company's trainmen handled on an average of 200 cars a day. The company got out large quantities of mixed timber, including hardwood, pine, hemlock, Norway pine, balsam and cedar.

Gave Good Car Service
Owing to the light freight business logging jobs in the upper peninsula had unusually good car service the past winter. A Negaunee jobber says the service was the best ever given. In past years some of the smaller jobbers were often unable to secure cars for weeks at a time.

The Northwestern company recently added a number of large capacity cars to its equipment. The loads on these cars averaged from one to two thousand feet more than the average load in other seasons.

CELEBRATES BIRTHDAY.

Mrs. John Fezatte celebrated her thirty-ninth birthday anniversary on Wednesday, March 17. Mrs. Fezatte was very much surprised when the party came because it was so unexpected. The evening was spent with diverse amusements and at midnight refreshments were served. There were sixty-one people who attended the supper.

SECOND PLACE TAKEN BY LOCAL THREE MAN TEAM IN TOURNAMENT

FINAL GAME OF TOURNAMENT ROLLED SATURDAY--LAKE LINDEN GETS 1916 BOWLING CONGRESS OF UPPER PENINSULA.

Escanaba bowlers were given recognition in one event in the recent upper peninsula bowling congress held at Marquette last week. The three man team was Taylor, Vandewell and Boyer and were awarded second place in the three man events of the tournament.

The bowling tournament for 1915 was given to Lake Linden by a vote of 150 or more members of the Upper Peninsula Bowling Association at the annual meeting at the Clifton hotel Saturday at the close of what was declared to have been the most successful tournament in the seven years' existence of the association. The following officers were chosen:

President—A. A. Barbeau, Lake Linden.
Vice-President—Frank G. Jenks, of Marquette.

Secretary and Treasurer—A. A. Brockway, Lake Linden.
Mr. Barbeau is captain of the Big Lakes, the Lake Linden five-men team which took the first award in that event with 3,035 pins. Inquiry by officers of the bowling association disclosed that the Lake Linden score tied the world's record for a five-men event in tournament, which fact occasions both surprise and pleasure. Higher scores have been rolled by five-men teams, but not in tournaments.

The 1915 Awards.
At the meeting at the Clifton following the last game Saturday night the bowlers enjoyed a Dutch lunch, following which Dr. W. H. Van Iderstine, chairman of the tournament committee, awarded the prizes.

Keuhl, of Marquette who led in the singles until the last few days of the tournament landed the grand average award, with an average of 199.88 for his nine games in the singles, doubles and five-men events.

The Big Lakes of Lake Linden, received first prize for the five-men event, with 3,035 pins; the Crystal Falls five was second with 2,831, and the Empires, of Ishpeming, Jack Gray captain, was third with over 2,700 pins.

McCulloch, Talo and Saline of Diorite, won the three-men event, with 1,727 pins and an Escanaba team was second with 1,667 pins.

In addition to winning the grand average award, Marquette was also first in the doubles, Ora Manes and F. G. Jenks having rolled 1,258. Manistique was second, Kuller and Flood of Crystal Falls, third and Dover and Fisher of Hancock, fourth.

Dan Fisher of Hancock won the singles with 657 pins. Raley of Calumet was second with 618, Hennes, a member of the Big Lakes of Lake Linden, third with 616, Keuhl of Marquette fourth with 609 and Jenks of Marquette, fifth with 606.

The prizes amounted to \$143.

INSPECTOR IS IN CITY

The promised inspection of the business section of the city has been started and the inspector, from the branch office at Negaunee is now at work here.

But the one inspector is covering this field and will remain for a few days more to complete his investigations and to prepare his report on same.

DRIVER INJURED IN RUNAWAY THIS NOON

The driver of a beer wagon, whose name could not be learned this afternoon was badly bruised and injured when his team became frightened near the high school this noon. The man fell from his seat on the wagon and it is thought the wagon passed over his body. He was picked up by spectators who witnessed the accident. The horses were caught a block away.

MASONIC LODGE ROOMS THROWN OPEN TO THE FRATERNITY OF THE CITY

NEW TEMPLE OF ESCANABA LODGE IS FINEST NORTH OF CHICAGO, SAYS ARCHITECT BRUNS--WILL WIND UP FESTIVITIES THIS EVENING.

One of the mile posts in Masonic history of this section of the country was the opening of the new Masonic temple last evening. Pastmasters might being the event which marked the first function held in the most beautiful and most elaborate lodge rooms in the state.

About 250 of the Masonic fraternity assembled in the new dining room to partake of the supper served by the members of The Eastern Star. Considering the crowd and the fact that the kitchen was new to the women, the service was excellent and the Masons were loud in their praises of the excellent way in which the spread was handled.

Rev. C. L. Randall pronounced the invocation before the banquet.

Hear Splendid Toasts
J. B. Frechette, of Bark River, one of the most prominent members of the fraternity acted as toastmaster and in a pleasing manner, inherent with him, introduced the numbers on the program as well as several speakers who were present.

The first number was given by a quartette composed of Messrs. Price, Johnson, Lint and Frost. Their selections were so well received that they were obliged to respond to several encores.

"Our New Temple," was the subject of a talk that was given by W. R. Smith, the chairman of the building committee. Mr. Smith's talk was very interesting to the members of the order, for he told all there was to be told about the new building, its cost and the future prospects of the building committee.

Splendid Musical Numbers
Mr. Smith's talk showed him to be a shrewd business man with a keen and deep insight into financing.

A violin solo, by Miss Ethel Dewey, who was accompanied on the piano by her sister, Miss Clio was the pleasing number that following the address by Mr. Smith. The girls were heartily applauded by the listeners and presented with handsome flowers.

Rev. Guy V. Hoard of the First M. E. church had for his subject, "Temple Building," which was handled in the usual masterly way in which Mr. Hoard takes care of all the subjects he handles. The subject gave him the opportunity of saying much that was uplifting and eloquent and long before he had finished his talk there were whispered words of praise and appreciation around the tables which was followed by a great round of applause as he finished talking and took his seat.

George Tucker of Marquette, and W. B. Thomas of Manistique were also heard in short addresses, in which they expressed the sentiment of others who had said this is one of the finest Masonic temples north of Chicago.

Nemominee Man Speaks
W. F. Gregory of Nemominee, was next called upon for a few remarks and in response praised the local fraternity for their enterprise in building so fine a temple. Mr. Gregory is a prominent Mason in Nemominee and was one of the building committee when the temple was erected in that city.

Judge Lewis Fead, of Newberry, who is the Grand Junior Warden of
(Continued on Page Two.)

KNIGHTS TEMPLAR WILL ATTEND EASTER SERVICE AT ST. STEPHEN'S CHURCH

Members of Escanaba Commandery No. 47, Knight Templar, will attend Easter services at St. Stephen's church on the morning of Easter Sunday, April 4. Knights will be uniformed except for swords. Annual conclave and election of officers occurs on Thursday evening, April 1, according to announcements.

ELK'S MINSTRELS TO REHEARSE TOMORROW NIGHT AT THE HALL

Announcement is made this afternoon that members of the cast of the Elk's minstrels will meet tomorrow (Wednesday) evening at the Elk's hall at eight o'clock sharp for rehearsal and it is essential that every one be present.

MASONIC LODGE ROOMS THROAN OPEN

(Continued From Page One.)

The grand lodge of Michigan was the
next speaker called upon by the toast-
master and no better talk has ever
been given spontaneously in any local
lodge room.

Dedication Tonight

The imposing ceremonies of dedica-
tion will take place this evening,
when the officers of the grand lodge
will be present for that purpose.

The ceremonies will start at 7:30
and will probably last until a little
after 9:00. As soon as the dedication
is over a reception will be held to
residents of the city who are not
members of the fraternity. At 10:15
the Masons, their wives and the
guests of the lodge will dance at an
informal party. It has been particu-
larly stated by the entertainment com-
mittee that the dance and reception
as well, is strictly informal and even-
ing clothes are not necessary.

THE LODGE ROOMS

Much has been said of the new Ma-
sonic lodge rooms; the manner of its
building and the decorative schemes
used on its interiors and the splendid
impressiveness that is found there. A
resume of what has been done during
the past eight or nine months will
only be attempted here, for to do ade-
quate justice to the new quarters,
one must be there and see with their
own eyes.

It is a hard matter to say where
to begin, when describing the rooms
as revealed in the opening of yester-
day.

From the point of greatest interest
and the splendor of furnishings and
design, the whole motif leads to the
lodge room proper.

Ionic-Corinthian Style

The architectural design of this
huge chamber is described to the stu-
dent of art and history as the Ionic
and Corinthian orders of Greek archi-
tecture, a combination of both these
famous orders. This is shown in the
doorways, in the huge supporting
pillars that are found at the sides of
the walls, and in the central dome,
and, in general in all the subsidiary
effects. The pillars are done in Ivory
flint with the caps in Roman gold.
The general color scheme of this im-
pressive and solemn appearing room
is French Grey with a decorative
motif of laurel. The woodwork is of wa-
nut as is that of the furniture install-
ed there. Even this item has carried
out the intention of producing as so-
lemn an effect as possible.

Further enhancing the beauty and
massiveness of the room is the man-
ner in which the ceiling has been
treated. Four huge beams cross it,
with the large dome in the center,
from the top of which looks down be-
neath, a huge eye, symbolical of Ma-
sonry.

Complete Stage Provided

In the lodge room is provided a
large stage, fitted with all modern
appliances for the work. A proscenium
arch faces the room the relief

design of which is done in gold. A
magnificent curtain of valour in a
deep green tone conceals the stage
from view. This same material was
used in the upholstering of the chairs
and other furniture in the room. At
the opposite end of the large room is
the rostrum.

One of the most unique and exclu-
sive effects is found here in the man-
ner in which the "G", that most nec-
essary symbol of Masonry is reveal-
ed. Just above the Master's chair
the letter is located, but invisible un-
til an electric button is pressed when
it springs into sight, a blue letter in a
beautiful frame of colors. This is a
bit of work upon which H. H. Bruns,
the supervising architect and the de-
signer of the rooms worked upon for
a long time in order to perfect. One
of the largest Wilton rugs ever made
in a single piece covers the floor, be-
ing 34x42 feet in size.

Perfect Harmony Everywhere.

Around the entire lodge room runs
a corridor, decorated in harmony with
the rest of the rooms. The examina-
tion and preparation rooms are also
models of quiet and harmony, the
furniture and appointments being con-
ducive to a feeling of repose.

The ante-room, to the opposite side
of the front from which is located the
examination and preparation rooms
is likewise done in tones of quiet and
sober colors and furnished and de-
corated properly. At the rear of the
lodge room and opening off this mag-
nificent place is the armory in which
is built the lockers for members uni-
forms and equipment. This conclu-
des the rooms on the top floor.

On the lower floor is located the
men's smoking room, a delightful
room, treated in style appropriate for
the uses to which it will be put. The
walls are of mottled green blending
into red. The furniture is of walnut
and upholstered in red toned leather.
Two pictures hang upon the walls,
"The Arch of Titus" and "Reading
from Homer," the latter the famous
work of the great artist Alma-Tade-
ma. Just off the smoking room is the
pool room, equipped with a modern
table finished in the same tone as
the furniture. A billiard room is lo-
cated across the building from this
room and is similarly equipped and
decorated.

Ladies Parlor

At the front, and connected with
the smoking room, is the ladies par-
lor. This is one of the most delight-
ful rooms of the lodge, being done in
a tawny tint of walls, and furnished
in the Adams style, a decidedly for-
mal room. Hangings of grey and that
tone prevalent in the furnishings
makes a room unequalled. A picture
of Ruth and Naomi hangs on the
walls, typical of the Eastern Star or-
der.

Directly to the rear of these rooms
is the huge banquet hall, capable of
seating several hundred guests. Be-
cause of its many and peculiar open-
ings this was a most difficult room to
treat, but the result attained has been
wonderful. Walls are done in old rose
and grey and the additional decora-
tion lends to the air of beauty. A
niche is found at the intersection of
the passageways, providing a space
for piano and orchestra.

Well Appointed Kitchen

At the extreme rear of the building
and suitably connected with the din-
ing hall is the kitchen. This adjunct
is absolutely complete in all its de-
tails including a fine steam table.

The entrance to the rooms is by a
broad and light hallway, at the head
of which is hung a picture of Benja-
min Franklin, attired in the costume
and vestments of a Mason.

Lighting System

Throughout the entire lodge room
system, the indirect or semi-indirect
lighting system has been used to
splendid effect. Indirect in the lodge
room, proper, and semi-indirect in
the other rooms with the exception of
the pool and billiard rooms.

Reward for Committee

To the members of the building
committee, Messrs. W. R. Smith, W.
L. Bacon and A. H. Ryall goes the credit
for securing such a magnificent tem-
ple for the Escanaba lodge. Their work
has resulted in a splendid monument
to the order and of which Escanabans
will be extremely proud in the future
as at present.

H. H. Bruns, the architect who de-
signed, and supervised the construc-
tion of the temple, (that is the changes
made on the interior), stated to-
day that there is not a better and
more completely appointed Masonic
Temple north of Chicago.

Mr. Bruns personally selected the
furniture that is installed in the
temple, and designed the decorations.
He has aimed at producing the very
best results obtainable and his en-
semble is certainly a fitting tribute
to the time and effort he has put upon
it.

Studies American Methods.

A journey of 40,000 miles, at an
expense of \$5,000, for the purpose of
studying methods of agriculture, will
be the record of Professor S. Mel-
toosh, commissioner of irrigation for
South Australia, when he has returned
to his home. He has passed two weeks
in Chicago conferring with other ir-
rigation leaders, and incidentally buy-
ing \$100,000 worth of machinery.

**WARDEN SAYS DEER
ARE LEAVING YARDS**

Deputy Game Warden Herman Lel-
ner of This City, and Deputy
Rough of Negaunee, Have
Visited Three Deer Yards.

Deputy Game Warden Herman
Leisner of this city, and Deputy John
Rough of Negaunee, have just re-
turned from a trip through the lower
part of Marquette county, during
which time the wardens visited three
big deer yards.

Mr. Leisner states that the soft
weather is causing the deer to leave
the big yard and to work in towards
the settlements.

"The deer are looking finer this
spring than during any other spring
I have been in the service," Mr.
Rough asserts. "As far as we could
see, they are not being molested and
they are now moving towards the
settlements and towns. At this time
of the year they get out into the
open, and we have many reports of
them visiting farmers' yards. In some
instances they have gone into the
towns and villages. Numerous deer
have approached within a few yards
of men working in the woods, and,
after satisfying their curiosity, have
slowly walked away."

The wardens visited three large
yards, but failed to find a trace of a
deer.

Dogs Chased Deer.

A yearling deer was killed Satur-
day morning by Charles Okaire, a
farmer living two miles north of Ne-
gaunee, because it had been attacked
by three dogs and was badly used
up. The dogs drove it to within a
few yards of Okaire's house, where
it fell on the road and was unable to
get up. The dogs set upon it and
commenced tearing it to pieces, but
Okaire drove them away and cut the
deer's throat. He then came to town
and notified Warden Rough, who
went to the farm and investigated the
case.

**NEW MINE INVENTED
BY ENGLISH TO PUT
SWEEPERS AT NAUGHT**

(By Associated Press.)

Edinburgh, March 23.—The British
navy has developed a new type of
mine, which according to the Scots-
man, marks a new era in this branch
of warfare. The German and French
floating mines have presented such a
very difficult problem, because it has
been comparatively easy to sweep
them up, owing to their suspension
tackle. The new British mine has
no floats and no tackle. It can be
ejected from a torpedo tube or incon-
tinently thrown overboard. If desired,
it can be set to rest on the sea
floor until the minute chosen by those
placing it, when it will come up, not
to the surface, but to the proper
depth at which to meet the rushing
bows of a ship.

As soon as the mine, floating free,
reaches a certain depth, there is set
up a series of movements which put
into operation a tiny propeller and
this promptly kicks the mine up to
the proper level and then stops until
again called upon. It is not a mine
easily caught in sweeping operations,
as it progresses under water in a
series of slow "leaps," which never
reveal it, as it cannot leap beyond its
fixed limit of buoyancy.

AT LEAST SATISFIES HUNGER

Evening Meal Served on Japanese
Street Would Not, However, Ap-
peal to the Fastidious.

It was toward evening when a
slovenly looking fellow with a traveling
restaurant landed on the street cor-
ner, rang a little bell and announced
to all that the evening repast was now
in readiness, says a correspondent of
the Christian Herald. Many of the
poor people nowadays find it hard to
buy a morsel of rice or even barley,
and as a last resort turn to this "maca-
roni" restaurant, where they are able
to get a meal for one or two cents.
I wondered if this man got his supply
from the manufacturer whom I saw
kneading the dough on a straw mat
with his feet, not a great distance
away.

Dipping ball after ball of this "maca-
roni" into boiling water and again in
succession into separate bowls, the
vendor adds a sprinkling of cheap
soy and green onion cuttings and stick-
ing into them the crudest kind of
chopsticks, presents them to his mis-
cellaneous crowd of customers. Sturdy
coolies leave their cart shafts, haggard
women release loads of boxes and bun-
dles from their backs, precocious chil-
dren sorely in need of handkerchiefs
and staggering under the heavy load
of an often unwearied younger brother
or sister, aged from two weeks to
three or four years—all hollow-cheated
on account of excessive toll and their
constant stooping posture, with great
rapidity bolt down this seething mess.
The noisy gulping and much gurgling
and sucking in of the breath which so
distress a Westerner may be excused
by the fact that in their minds it only
shows a polite appreciation of their
food.

**UNITED STATES WILL
ORGANIZE RESERVE IN
PANAMA CANAL ZONE**

(By Associated Press.)

Panama, March 23.—Plans for the
organization of a large and well train-
ed reserve force from among the na-
tives of the Republic of Panama are
being considered by Brigadier General
Clarence R. Edwards, commander
of the Panama Canal troops. It is
proposed that these reserved should
form a part of the Panama Canal
defense forces and should be trained
by American officers for use in case
the canal or the republic were at-
tacked.

General Edwards has had a brief
conference with General Esteban Hu-
ertas, the liberator of Panama, who
declared the plan entirely feasible
and promised his aid in the event it
was decided to establish such a na-
tive reserve force.

It is said that practically all of the
natives in the interior are excellent
shoots and would be perfectly willing
to serve for a short time for little
pay in the various instruction camps
that would be established. General
Huertas believed that probably 20,000
to 30,000 such reservists could be ob-
tained.

The native troops would be officer-
ed by young Panamas, schooled by
the American officers. It would be in
the nature of a National Guard of
Panama but would not supplant the
present national police.

General Huertas probably would be
entrusted with the organization of
the reserve force under the direction
of General Edwards. He took part
in the bloodiest revolution that freed
Panama from Colombian domination
and made the present Republic of
Panama possible. He then was in
command of the Colombian troops
stationed in Panama with which he
joined the revolutionists. He is a
trained soldier and has seen much
military service in the various revolu-
tions that Colombia had to content
with before he became a Panamanian.

Child Research Work.

Miss Elizabeth Moore of St. Louis,
who is a member of the children's bu-
reau department of the government,
has returned to Saginaw, Mich., to
continue her investigations in regard
to the women of the lumber camps
and health of the children. Miss Julia
Lathrop, head of the children's bureau,
ordered Miss Moore to Indianapolis
shortly after the holidays to assist
in making preparations for a child
welfare exhibition to be given in that
city. Miss Moore was there ten days
before returning to her regular work.

**REPORTER TELLS OF
VISIT TO LODZ OF
THE GERMAN EMPEROR**

(By Associated Press.)

Berlin, March 23.—Interesting let-
ters are appearing in the German
newspapers describing a recent visit
of the German Emperor to Lodz. It
is the first time since 1856 that a
Hohenzollern has entered Russia as
an enemy.

The populace of Lodz was kept ab-
solutely in the dark regarding the
visit. The main street, the Petrikov-
ka, now called the Friedrich Strasse,
was closed to traffic, and residents
were not permitted to open their win-
dows or stand at their doors. The
long street swarmed with soldiers
and police. Orders were given for
the ringing of all the church bells.

The Emperor and his immediate
suite drove through the long street
to a Polish castle in the suburbs.
A German correspondent who was
present at the official dinner of wel-
come, states that the emperor was
in excellent health.

Looked Aged.

"At first sight," writes the reporter,
"I thought that the emperor had
aged terribly," but on closer inspec-
tion discovered that it was a grey

Spring Opening!

E. G. ROYCE, Notary Public, Delta County Michigan. My commission expires Jan. 30, 1917.

WORTHY OF SUPPORT

While there is considerable agitation going the rounds these days for the support of a coming concert, by a single individual, it brings to the mind the fact that Escanaba has a musical organization which is equally as deserving of that same support in a financial way—as is the individual referred to above.

To become interested in the better things in music is admittedly a step in the right direction, but it would seem that some consideration is due the Escanaba Military Band at the same time. Would these same persons who are supporting the concert give as much support to the band?

The organization is not asking a great deal in this way, but the small assistance it requires is needed now. The musicians will play during the summer in the city park or elsewhere, without pay. It is evident, however, that some finances must be provided, for a place to rehearse and for music and similar incidental expenses. It does not seem the right thing that the members of the band be asked to give their services free of charge and in addition to furnish the necessary money to keep the institution on its feet.

The dedication of Escanaba's new Masonic Temple has drawn a large number of state celebrities in the Masonic world to the city today. The city is proud to have these men here, and she will do all in her power to create an impression that will remain with these high lodgemen. In that same breath we are proud to express the greatest admiration for Escanaba Masons who have just taken possession of one of the finest quarters in the state.

The Upper Peninsula has lost one of the best known newspaper men in the section in the death of John S. Penrose of Houghton. Mr. Penrose has been a prominent figure in newspaper circles of the upper peninsula for many years and his loss will be keenly felt. "Thirty" has been written in his life, but the "copy" he provided in his business management of his paper will survive.

Preparedness to grasp opportunity when it comes is a big step toward business success.

Adequate telephone facilities constitute one of the most important factors of complete commercial preparedness.

gets a man for whom it was really intended and gives him his punishment. Such is the case of Diggs and Cammett, whose case attracted wide attention a year or so ago. These young men must now serve that long deferred sentence.

It is more than probable that the Central Delivery System of this city will be adopted in the very near future by Houghton and Hancock merchants if the statements and expressions of approbation heard from the delegation here yesterday, can be taken in all seriousness and sincerity.

Yes—they're off, as a contemporary says. But the question that is bothering us, is just how far will they go?

EDITORIAL NOTES.

In the eastern press a controversy is waging over the origin of the air known in this country as "America" and in Great Britain as "God Save the King." It is an old controversy that bobs up at long intervals. In many quarters the belief exists that the air is German in origin. Poultney Bigelow, in the New York Post, disputes this idea, and quotes the German authorities Silcher and Lehr as crediting it to an English source, "H. Carey, in 1743." The air was not heard in Berlin until 1793, a half century later, when it was used as a setting for "Hell dir im Stegskranz," a Prussian song that, according to Mr. Bigelow, was, in its turn, revamped from the words of a Dane named Harries.

The necessity of quiet around a hospital is greater than the average man realizes. More and more doctors are coming to believe that the importance of rest and silence, in medical and surgical treatment, has never been adequately realized in the past. The auditory ganglia are connected with the "sympathetic" nerves, running to the respiratory, digestive and other systems and to the brain as well. Constant agitation of the auditory nerves produces not merely mental strain, but a tax upon bodily energy, too.

There is little doubt that the farmers of this country will make unusual efforts this year to increase production. There will be a demand for everything that can be produced in the way of food products. Let us hope, too, that the yield of our fields may be abundant because of the great need that is sure to prevail. To assure an abundance, let us hope that nature may be generous in providing the rain and sunshine necessary to mature the crops.

Our idea of an optimist is the unlucky poker player who consoles himself at 5 a. m. with the thought that money doesn't bring happiness, anyhow.

Slogans of success would be more convincing were it not for the fact that the chap who writes 'em still works on a salary basis.

The horse in Europe doesn't have a chance to live long enough to catch the prevailing foot-and-mouth disease.

Lower radium is promised, but lower wheat would be more acceptable in the present world crisis.

Offers of a good job will always find some of the unemployed absolutely neutral.

This world is becoming too congested for such crude performances as

He Reached the Limit. The Green Bag tells of a police magistrate in a western city who is a native of Binghamton, N. Y. Once a culprit, haled into court for drunkenness, told his honor that he had played in a brass band in Binghamton. The judge discharged the prisoner.

Now this incident was published in the newspapers, and during the next six months at least five other prisoners brought before the judge explained that they had played in the aforesaid band. The judge telegraphed to an old friend back in Binghamton asking how many pieces were in the band. The reply came back: "Nine" Accordingly his honor announced himself as follows:

"Hereafter no prisoners will be discharged on account of former membership in the Binghamton band. The limit has been reached."

The Coward. "Has that young man given you any encouragement, daughter?" "Oh, yes, mother." "What did he say?" "He asked what sort of a disposition father had."

TENNIS STARS IN BIG TOURNEYS

Absence of Cup Matches Means Large Entry Lists.

M'LOUGHLIN AFTER HONORS.

National Champion Will Try Hard to Land Western Title and Several Cups on Which He Has Two Legs—Big Season in Store For Players.

The tennis world is confronted with two momentous facts this year which render predictions easy on one hand, while on the other there exists a doubt. The war has eliminated any possibility of the Davis cup matches, so it can be safely presumed that the foremost players in the country will participate in more tournaments than if they were forced to train for the international competitions. With this condition it is only necessary to glance over the country where the largest tournaments are held to discover which ones will attract the western players, Maurice E. McLoughlin, R. Lindley Murray, William Johnston, or such players of lesser ability as Ella Fottrell, Clarence Griffin and John Strachan.

When a player has won two legs on a challenge cup, valuable because of the many names engraved upon it, he is apt to consider pointing for the place where that tournament is held with the idea in mind of attempting to carry the prize away. At Lake Forest, just outside of Chicago, the western championships are held, usually late in July, and McLoughlin has won two legs on a challenge trophy there that the Onwentsia club donated to the Western Tennis association. The past two years he has been unable to participate in this tournament because of the international matches, but this year, on his way east to New York, it is fair to predict that he will stop off in Chicago and attempt to have his name placed for the third and last time on the time honored trophy.

Leaving Chicago, McLoughlin could arrive in good time to defend his title at Longwood, for the western championship and the Longwood tournament are generally held during successive weeks in July. After Longwood the New York state championship is held at Bay Ridge, but McLoughlin will likely rest that week and enter the Southampton tournament in preparation for the national championship in New York. McLoughlin is training at this present

Sam Robideau Looks Like a Real Champion

SAM ROBIDEAU, the Philadelphia lightweight, has been coming to the front rapidly, and his recent knockout of Gilbert Gallant of Boston has added materially to his fame. He has popular decisions against Freddy Walsh, Joe Shugrue and other topnotchers, and he is hopeful of gaining the lightweight title some day. He is a genuine lightweight and is at his best at 125 pounds, though he has fought at 128. Most of the so called lightweights today are overweight, and few of them could reduce to 125 pounds without losing their strength. In a real championship bout Robideau would have an advantage in not being too heavy at any time.

moment for the national title which he lost to R. N. Williams last year at Newport. No other tournaments will interfere with the "California Comet's" plans as concerns his physical and mental efficiency, which he knows full well must be at the highest standard during the progress of the national championship.

R. L. Murray will probably be the man selected by the Pacific Coast Tennis association to follow the same course laid down for McLoughlin. There is a likelihood that these men before many years may represent the country in doubles. At present McLoughlin, paired with T. C. Bundy, holds the national doubles title, but the latter player is hampered more each year by business engagements.

KAUFF WILL STICK TO FEDS.

Crack Outfielder Turns Down Offer From New York Giants.

Benny Kauff, outfielder of the champion Indianapolis Feds and king batsman of that league, will not desert the outlaws to cast his lot with Johnny McGraw's Giants, as has been intimated in reports from alleged reliable sources. It is unlikely that the Federal

Photo by American Press Association.

Benny Kauff, Indianapolis Crack Outfielder, would allow O. B. to outbid it for the services of so bright a star—the very brightest, in fact, in the out-law circuit. Benny is the Ty Cobb of the Federal league and recognized by his employers as such. Could the Federal league put up enough money to win over the great and only Ty? Perish the thought! ENCOURAGEMENT IS OFFERED WOMEN BACK OF KREISLER CONCERT

According to the statement of members of the Woman's and Escanaba Music clubs, who are back of the Kreisler concert, proposed for this city in the near future, the widest of interest is being taken in the coming of the great violinist and already a large number of names have been attached to the list of subscribers. The larger share of those subscribing for tickets are taking two or more of the reservations and it is not believed that more than a week will be needed to assure the concert.

Consistent efforts will be made by the ladies to secure the guarantee in as short a time as possible.

IRON AND STEEL TRADE IS SHOWING EXPANSION

Encouraging reports as to conditions in the iron and steel trade are received daily from the manufacturing centers. Operations are reported as better distributed in the various departments at the mills, and predictions are made that productions will be still further increased within two weeks.

New orders to the steel companies are running at between 25,000 and 30,000 tons a day, and quotations are being maintained at the higher basis in many lines set recently. Export business in barbed wire and round steel is in good volume. Shrapnel steel is said to be in special demand. In the latter connection, it is reported that the Russian government is negotiating with the New York Air Brake company and the Westinghouse Air Brake company for an order of 2,000,000 shrapnel on a basis of \$18 each, making the gross amount of this prospective contract \$36,000,000. Russia is also in the market in this country for an additional 2,000,000 shrapnel, but up to the present it has been unable to find a manufacturer with a plant adequate to make deliveries within the time specified.

Order From Europe.
 A great proportion of the improvement evidenced in the iron and steel industry is considered to be attributable to the placing of enormous orders for machine tools and the manufacture of materials required by the European belligerents.

It is averred in trade circles that the agricultural implement business is good and that there has been some improvement in the building outlook. A number of additional plants have gone into operation. At Youngstown, Ohio, the blast furnace of the Struthers Furnace company has resumed, and the Girard iron company will relight its furnace there this week.

The Empire and Thomas sheet iron mill of Brier Hill Steel company at Niles and DeForest and Trumbull mills at Warren have resumed operations under reduced wages rejected by referendum vote of Amalgamated Association of Iron and Steel Workers. Mills of the Youngstown Iron and Steel company will resume this week under the same conditions.

The first ore reservation for this season on the Mesaba range has been made by the Todd-Stambaugh interests, who have contracted for 300,000 tons from the Dean mine at Bunz. This ore will be shipped to Cleveland, the price to be agreed upon later.

SECTION THIRTEEN

Dave Turpin of LaBranche, was a caller at our town Saturday.

Miss Vangie Fezatte was a caller at Escanaba, Saturday and returned to her home here on Monday.

Frank Varnio went to Escanaba Friday night.

JOFFRE OF NOBLE DESCENT, WOUNDED SCIENTIST FINDS

Finds Name of Great French General Descended From Long Line

(By Associated Press.)

Paris, March 23.—An erudite genealogist, Monsieur Cosset, wounded on the field of battle, has occupied his convalescence in the temporary hospital at Tulle in historical researches into the family of General Joffre. He found it was of noble origin and that the branch from which the general-in-chief descends emigrated from France to Spain, to return later and settle at Roussillon.

In the archives of the abbey of Tulle and Uzerche were found traces of a Geoffre as early as 980, and the works on the nobility of Limousin mention a noble family, accorded by Louis XV, was "Everything for the Fatherland."

The family name of Joffre is still quite general throughout the region of Brive and there is a town in the vicinity that has at different periods gone by the names of Joffre, Geoffre or Peouffe. This spot was the place of origin of a bourgeois family certain branches of which were ennobled under the names of Geoffre de La-pradells, Geoffre-Comnene. Two members of this last family even

claimed the throne of Greece during the eighteenth century on the pretext that the family sprung from one of the ancient emperors of the Orient.

Karl Koenig, 18, Mt. Vernon, N. Y., fell two feet the other day. Broke his neck.

DIGGS AND CAMINETTI MUST SERVE SENTENCES

(By Associated Press.)

San Francisco—The convictions of F. Drew Caminetti, son of Anthony Caminetti, United States commissioner-general of immigration, and Maurice I. Diggs, former state architect, under the Mann white slave act, were affirmed today to the United States circuit court of appeals.

The opinion was delivered by Presiding Judge Gilbert and was concurred in by Judge Wolverton. Judge Erskine M. Ross dissented.

Convicted in 1913.

Diggs and Caminetti were tried and convicted before District Judge William G. Van Fleet in 1913 for the transportation of Lola Norris and Martha Warrington from Sacramento, Cal., to Reno, Nev., for immoral purposes. The case attracted wide attention.

Diggs was sentenced to imprisonment on McNeil island for two years and fined \$2,000.

Caminetti was sentenced to 18 months imprisonment and was fined \$1,500.

The case was taken to the higher court on a writ of error.

GO TO SPAIN FOR PLAYS

Spanish Situation Forces American Managers Into New Territory.

London.—American theatrical managers are beginning to feel the failure of France and Germany as fields for new plays. Miss Cecil Dorrans, looks after the European interests of Morisco and scouts for new plays, leaves London shortly for Spain, where she will go over the theatrical situation and get in touch with the Spanish dramatists. She said newspaper correspondent: "The plays are open in Berlin and Vienna a few in Paris, but they are, as London, chiefly staging revivals. One remembers how many forays are at least considered a year by American producers, it is clear that other channels must be found. The drama in Spain, I am told, is in a healthy state. People are going to with productions including plans for presenting 'Baby Mine.' Next to Vienna, where a new opera house near Strauss soon will be produced, seems to be doing the best."

At the Store Ahead
Easter Modes In Suits and Coats!

A Surprisingly Pretty Exhibit of the Styles and Wonderfully Low Priced Are The Magnificent Garments Shown.

Perhaps the most attractive feature in practically all of the new spring styles is that they lend a decidedly youthful appearance to the wearer. Our selection this season is by far the best in variedness of style and in priceworthiness we have ever displayed.

If the tailors could devise better or more attractive fashions we should have them—in other words, fashion's favorites are all here—none missing. Here are two special values

Women's and Misses' Suits

Equal to Most Store's \$22.50 to \$25.00 Values

\$20

The most attractive garments ever designed for so low a price; made up in the very latest of the new spring styles; fine quality Poptins and Serges; plain colors, mixtures and the highly popular Shepherdess checks; circular flare skirts, with yoke and patch pockets; coats lined with Peau de Cygne; plain and belted.

OTHER EXCEEDINGLY EFFECTIVE STYLES ARE SHOWN AT \$12.50, \$18.50, \$22.50, \$25.00, \$27.00 UP TO \$45.00.

Women's and Misses' Coats

Equal to Most Store's \$12.50 to \$18.00 Values

\$11.50

A splendid assortment of charming styles are shown at this extremely modest price; made up of high grade materials in plain colors and mixtures; plaited back, yoke and belted effects; plain and fancy collars; a breadth of choosing not equaled anywhere. Compare with usual.

OTHERS AS EQUALLY AS ATTRACTIVE ARE SHOWN AT \$12.50, \$16.50, \$18.00, \$20.00, \$22.50 UP TO \$40.00.

Silk Petticoats To Wear With Easter Gowns

The petticoat can make or unmake the gown, unless it fits properly.

McGILL SKIRTS

WILL PROSECUTE CASE TO THE LIMIT

(Continued From Page One.)
all the law allows, if caught, and officers have been instructed to maintain a steady vigil for offenders of this nature.
Late this afternoon it was decided to hold the hearing in the above case, some time tomorrow before Justice Glaser, at which time witnesses will be ready to appear against the fellow.

FIRST CARLOAD OF FORDS HAVE ARRIVED

Local Agent, L. K. Edwards Receives Two Runabouts and Four Touring Cars Today

The first carload of Fords of the new style arrived in the city today and have been unloaded by the local agent, L. K. Edwards. The cars are practically the same as last year with the exception of the cowl dash and wind shield. The improvement in these, however give the popular little car a much more pleasant appearance. All of the cars received this morning are sold. Next week Mr. Edwards expects to get a dozen more cars.

BILLION DOLLARS DAMAGE DONE

(Continued From Page One.)
Say British Loss Heavy
Berlin, March 23.—The Overseas News Agency says:
"According to a detailed description of the French-Anglo losses at the Dardanelles fight as given by an Athens newspaper, 2,000 men were killed and five British ships were sunk and four others badly damaged. The commander of the British ship Inflexible is said to have been killed and other members of the crew drowned by the inrush of water as the ship sank. The French battleship Suffren was also damaged seriously."

OPEN DOORS TO RUSS

London, March 23.—The fall of Przemysl is characterized as throwing down the bars of Austria to the Russian advance and that such a move as this is, is expected by London.

London praises the gallantry of the defenders of the garrison and expresses uneasiness at the result of the battle along the east battle front of the Teutonic allies.

The latest authentic information from the Dardanelles states that positively that only the secondary forts have been damaged and that the first defenses are intact. This finds confirmation in the diplomatic status in the east in that the Balkan states are no nearer intervention in the quarrel now than at the first appearance of the allied fleet.

The conditions in the east are taking on the aspects of the west apparently nothing new occurring in that section.

Allied airmen retaliated on the Germans for aerial raids by dropping bombs on Ostend. Interest centers today around the aeroplane attack on a fleet of Dutch ships and one carrying the flag of the Belgian Relief Commission. An investigation has been ordered by the Dutch government.

RELATES HORRORS OF WAR

New York, March 23.—The Persian relief commission with headquarters in this city received the following message from Tiflis:

"All villages were burned except three. The homes of Christians of Urumiah plundered and many killed and women taken captives. There are 15,000 refugees in the American mission and the danger is great. The French mission has been destroyed and 10,000 refugees have fled to Russia."

The message was received from a Russian correspondent at Tiflis. Urumiah is in northwest Persia.

TO HOLD DACIA

Paris, March 23.—The Dacia will be held to a French prize court so declared a commission on inquiry today. Will make decision in two months.

A HOME BANK FOR HOME PEOPLE

SPRING-TIME SERVICE

We particularly desire to remind the farmers of our community of the advantages of banking here.

With good prices for all farm products assured, with opportunity for greater production than ever before, 1915 gives promise of being a remarkably prosperous year for the farmers.

A strong, accommodating bank will give him even greater advantages in carrying out his plans, in marketing his crop to greater profit. We will be pleased to serve you.

Escanaba Granite & Marble Wks. 1802 Ludington St., Escanaba

Meridian, Miss., dope fiend compelled a doctor to supply him with narcotic by murder threats.
Chicago faces damage suits calling for a total of \$7,175,810, which the corporation counsel must handle.

APPEAL IS MADE TO THE PUBLIC

(Continued From Page One.)
ern Michigan State Fair season 1913, but to return to the point in question, I wish to say that in a recent issue of both Mirror and Press the Business Men's Association announced they had arrived at an agreement, whereby they would assist us, by paying ten dollars per month toward the rental of our quarters and allow us the use of the uniforms, a generous turn indeed, but we must make up the balance of the rental as well as provide for the running expense of said band rooms, as well as make some kind of a salary for a leader; right here is where the shoe pinches, and where relief is needed.

We have with us today, a thorough musician and disciplinarian Mr. Otto J. R. Hyna, whom I can vouch for as to his ability in directing a band, we both having served in U. S. Army bands at home and in foreign countries or to be more explicit, Alaska and Philippine Islands, and in order to retain his services and those of our solo cornetist, Mr. Rocco Peraltto who has several offers from nearby cities, we are giving a concert at Petersons Opera House Thursday evening March 25th, the financial results of this concert will assure us one way or the other, if we are to have a band and why should we suffer our band (so far from being par excellent,) to pass into oblivion, when it can gradually be improved and some day be one of the features (which Escanaba can point to with pride) that go to make this the Metropolis a place to enjoy living in.

Remember, summer is not far off and to allow the men and well appointed band pavillion in Ludington Park to remain closed, is terrible when it can be used to such great advantage in rendering band concerts of Sunday afternoon which surely ought to be a treat for the summer.
Not wishing to bore you or the subscribers of your valuable paper will conclude thus:
"To be or not to be," which all depends on the attendance at our concert, mentioned elsewhere in this letter.
Thanking you for allotted space,
Beg to Remain,
Yours Musically
Gene De Armond Brüllard
Trombonist, Escanaba Military Band
