GRAND OFFICERS OF THE S. H. AND E. F. HERE TODAY

RIGHTS OF U. S. MUST BE OBSERVED ON SEA DEMAND OF WILSON

CHARACTERIZES GERMANY'S REPLY AS AN EVASIVE REPLY NOT AN ANSWER—FAILURE TO MEET DEMANDS MEANS SEVERANCE RELATIONS.

REFUSED TO DISCUSS THE REPLY

(By Associated Press.)

Washington, June 1.—President Wilson told callers today that it would not be wise for him to discuss the German note until he had talked it over with the cabinet.

He said that it would not be but a few days before he had considered it enough to make public his attitude. Wilson studied the official text of the German note thoroughly and is calm and showing none of the strain of the international problems before him.

The president revealed that he had not yet drafted the reply to the German note but it would probably be made after the cabinet meeting today. He will meet Count Bernstorff in an interview at the request of the German Ambassador. The German official is not in close touch with his government owing to the interruption and restrictions of communication.

Feels Weight of Press

The president was much impressed today by the practically unanimous opinion expressed in editorial statements of the American press yesterday that the German reply was not an answer but an evasive reply to the issues of humanity. His close advisors say this is a true reflection of the opinion of the nation. While the president would give out no information, many thought the American rejoinder will be brief and will demand an early reply. Severance of diplomatic relations may be brought about if the terms of the U. S. note are not given consideration. The pressure on this point is greater than at any time since the sinking of the Lusitania.

Begin Preparation Note

Washington, June 1 (5 p. m.)—After two hours discussion of the cabinet and President Wilson, the president prepared to begin the drafting of a second note to Germany and to warn the Mexican factions.

GERMAN ZEPPELINS IN RAID ON LONDON; FOUR DEAD; FEW KNEW OF IT

NINETY BOMBS ARE DROPPED ON METROPOLITAN DISTRICT OF BRITISH METROPOLIS, LAST NIGHT—CITY SLEPT PEACEFULLY.

AUSTRIAN AEROPLANES ARE ACTIVE

(By Associated Press.)

London, June 1.—The Zeppelin raid on London, long expected reached the city last night, but the people slept peacefully on and all they knew of the event was the announcement made by the admiralty today that the raiders flew over certain portions of the Metropolitan district. Mention was also made to numerous fires which may or may not have been connected with the air raid.

Ordinary business and life is being carried on as usual with the exception of small knots of people stopping on corners and discussing the rumors given circulation. A general lull prevails as far as is known here, but it is known that fighting is still going in the region of the Sann river. This is according to information from Vienna which says nothing in confirmation or denial of the reports of a Russian victory.

Four Killed by Bombs

London, June 1.—Ninety bombs were dropped on London last night and four persons killed and a few injured. No public buildings were damaged. A number of fires broke out, caused by the incendiary bombs. One infant, one boy and one man and woman were killed and another woman so badly injured she will probably die. Adequate police protection prevented outbreaks.

Anti-German Outbreaks

London, June 1.—The Zeppelin raid on the metropolitan district has brought a recrudescence of the anti-German riots and demonstrations of the mob. The feeling is acute and crowds have attacked German shops

TWO DEAD, ONE BADLY BURNED IN FLAMES AT GARDEN SUNDAY NIGHT

LUCIUS MERCIER AND JAMES BROADY ARE VICTIMS OF INCIDENTS CONNECTED WITH BIG FIRE ACROSS BAY—DAN SEAVEY BURNED.

LOST LIFE ATTEMPTING A RESCUE

Two men are dead and another badly burned as the result of a fierce conflagration at Garden Bay, Sunday night shortly before eleven o'clock.

The dead:

James Broady, 18 years.

Lucius Mercier, partner of Dan Seavey.

The injured:

Dan Seavey, owner of mill and house destroyed by fire.

Coroner Bartley of this city was called to the scene of the fire yesterday morning and impaneled a jury immediately upon his arrival at the location of the blaze which was five miles south west of Garden Bay. The jury deliberated but a short time then returned a verdict of "death by accident" in the case of both Broady and Mercier.

Went Into House

According to the statements of Dr. Bartley, Dan Seavey, a well known character in this section, the owner of a mill, house, dock and lumber barge at Garden where the above two men met their deaths, was asleep alone in the house at the time the fire occurred. Broady and a small brother were at the dock in a motor boat and noted the flames. Broady is

City Honors Memory of The "Boys In Blue"—Nation Abhors War, Said Speaker of The Day

"This nation abhors the thoughts of war", asserted Attorney Joseph F. Cuddy yesterday afternoon, speaking before a great mass of humanity gathered around the band stand in Ludington park to hear the program in memory of America's "Boys in Blue." His words were greeted by a tremendous burst of applause from the big crowd. Attorney Cuddy was the speaker of the day and his address well filled with truisms which found reflection in the sentiment of the audience.

The speaker touched upon the characteristics which make America, American. He told of the principles of liberty which blesses the commonwealth and paid glowing tributes to the few left of those who fought in the great civil strife of '61.

Serbia Again in Fight

It is several months since Serbia was engaged in important military movements.

Cruiser Dismanned

Athens, June 1.—Latest advices reaching here from the Dardanelles is that the cruiser Sultan Selim, formerly the German cruiser, Goeben has been virtually dismantled.

Recent developments in the Dardanelles are described as having cast a pall of gloom over the Turkish capital where there is a strong current of opinion for the opening of the straits and for the beginning of negotiations for peace.

During the recent Black Sea raids a panic was created among the people who ran about shouting, "The Russians are coming." Troops disbanded and ships were moved from the entrance into the sea of Marmora.

Italian and Greek troops continue to arrive at Dandaneche by rail. The result is that Constantinople has suffered by the raids. One result was the immediate despatching of all available troops to the Dardanelles.

Turk Loss Heavy

London, June 1.—A prisoner captured a fortnight ago says the Turks lost in the defense of the Dardanelles 40,000 men. This information was given out today.

A cargo of coal is being unloaded at the C. & N. W. coal dock from the steamer Hoyt of the Iairlake company. She will clear today.

TWO DEAD, ONE BADLY BURNED

said to have entered the house and dragged Seavey out to safety and then returned. He was never seen again alive. Yesterday his charred unrecognizable body was dug out of the ruins, the lower limbs entirely burned off and the head and arms mere pieces of charred bones.

Fell Into Water

Mercier met his death while attempting to push the motor boat away from the blazing docks, he fell into the water and drowned, his body was recovered. It was said the men had been drinking during the day.

The big lumber barge R. P. Mason lying at the dock was totally destroyed, as was the mill situated at the rear and connecting with the house in which Seavey was asleep. The house, mill, boat and dock property was valued at \$7,500, and is a total loss.

Sheriff Make Probe

Not satisfied with the matter as it stands, Sheriff Iverson and Prosecutor Rushton make a trip to location of the blaze, leaving before noon today and will spend the entire afternoon and longer if necessary in an investigation.

Seavey was badly burned and brought to St. Francis hospital today where he was interviewed by The Mirror. He stated he was not taken from the burning home by Broady. His statement is that:

"Broady came in and waked me up—told me the house was afire and to get out. I jumped up and ran to a window and jumped out, landing in such a manner as to injure my head. Seavey admitted he and others had been drinking during the day. He is burned severely.

The burned mill, house and docks were isolated from general habitation hence efforts to save the buildings were put at naught owing to lack of assistance and to the headway of the fire.

Rumors of murder, regarding the death of Broady were heard this morning and for which no confirmation can be had, but it is intimated this is the reason for the trip to Garden by officers today.

Seavey stated he was glad the officers were going over as he wanted to be cleared of the rumored charges.

ROOF AT ERICKSON STORE CAVES IN

Truss Supporting the Rear Addition Broke in Two Places—Fall of Ceiling Gradual

By the breaking of the truss that upheld the addition on the rear of the Erickson store building this afternoon the roof gave way creating great excitement among the clerks and customers. As soon as the first indication of trouble manifested itself, the clerks were called from the rear of the store and some of them were stationed to keep customers out.

The size of the addition is about 50x50 and one story high. The roof was supported by a truss of square timber covered with sheet iron and it is very probably that rain had leaked through the timber, rotting it until it could no longer bear the strain.

Up to the time of going to press the roof had not entirely fallen but unless some means can be devised to brace it up, it will fall and ruin hundreds of dollars worth of merchandise.

The rug department is in the rear of the building and in the way of the slowly sinking roof and ceiling.
