ELEVEN SHIPS VICTIMS GERMAN SUBMARINES IN TWENTY-FOUR HOURS

WEEK END ACTIVITY OF GERMAN UNDERWATER CRAFT BEARS HEAVY HARVEST AMONG VESSELS

AMERICANS WARNED TO LEAVE ENG?

BRITONS CLAIM HAVE CAPTURED ANOTHER GERMAN SPY AS HE WAS LEAVING THE COUNTRY

ZEPPELINS AGAIN RAID COAST TOWNS

Coalition Government For Hungary is Announced in News Despatches to London Agency Today

(By Associated Press.) London, June 5.—Another air raid on English coast towns made by German Zeppelins last night, coupled with the usual week end activity of the German submarines, the developments of the past twenty-four hours holds the discussion away from the fall of Przemysl.

The fall of the Galician city has been laid aside for the time being owing to more interesting things at home. The air raid is declared to have been unproductive in amount of damage done or in casualties.

German submarines have been busy in the North Sea and in Bristol channel. Of the vessels which have been attacked all have escaped with but one exception, without loss of lives.

The biggest of the German prizes was the 5,000 ton steamer Inkum. Another important victim was the Cairn Lear Iona, erroneously reported at first as the steamer of the Wilson line with same name. The other ships include four neutrals, two Danish, one Swedish and two Norwegian ships.

The Austrian forces have pushed their salient up as far as Tuharn and notwithstanding the evacuation of some forts near Lemberg, they have maintained an unbroken fighting front clear to Lemberg. Apparently the Austro-German forces have been fighting steadily all along the long front.

British and French reports indicate that hard fighting on the west still continues without material progress to either army. The Belgian frontier is again closed to traffic. This confirms reports that the Germans are moving up heavy reinforcements to the Yser and to other points.

Drops Bombs on Towns London, June 5.—Hostile airships dropped bombs on the east and southeast coasts of England last night. The damage done by the missiles was small and the casualties few, according to official announcements.

Three British Ships Sunk Kirkwall, Orkney Islands, June 5.—Three more British ships have been sunk by German submarines. The steamers Kathlene of Peterhead, the Evening Star and Cortes of Aberdeen were sent to the bottom yesterday.

Crews Escape Watery Graves Leith, Scotland, June 5.—The Steamer (Continued on page six)

GRECIAN RULER MUST UNDERGO OPERATION; TAKE OUT TWO RIBS

KING CONSTANTINE OF GREECE REPORTED IN SERIOUS CONDITION—FEVER REACHED HIGH POINT LAST NIGHT.

SUFFERING FROM ACUTE PLEURISY

(By Associated Press.) Athens, June 5.—Announcement is made here that King Constantine of Greece has grown worse during the past twenty-four hours and his physicians have determined that they must operate to relieve him. It is said that the operation will necessitate the removal of probably two ribs. His pulse last night was 99.6 and his temperature 102 and respiration 20. The king has been suffering from an aggravated case of pleurisy and underwent an operation the latter part of May in an effort to relieve his condition. Reports of his condition during the past week or so have been rather variant and it was said that he has suffered a relapse. His wife is a sister of Emperor William of Germany.

Final Touches Put to German Note by Wilson

STATEMENTS OF NOTE BE MADE PUBLIC AS SOON AS IS DISPATCHED TO BERLIN

(By Associated Press.) Washington, June 5.—President Wilson today put the final touches to his second note to Germany. The president had not yet completed, however, the exact phraseology, and Secretary Bryan said that as soon as the note is despatched to Germany its contents will be made public, but when the exact statement of the message will be given out he said he did not know, probably not before the note is received in Berlin.

President Wilson has agreed with Secretary Daniels that it would be unwise to send the American fleet through the Panama canal as had been announced some time ago. The fact that the condition at one of the recent slides is not fully cleared up, according to Col. Goethals is one reason and its complete clearance indefinite.

500 ELKS GET STATE CONVENTION FOR 1916

Grand Rapids, Mich., June 5.—Sault Ste. Marie will entertain the Michigan Elks at their twelfth annual reunion in 1916.

By a vote of 88 to 35, the delegates to the state convention awarded the Soo the honor after Jackson had put up a hard but losing fight. The northern delegates carried the convention by storm. They were prepared to carry home the bacon with a band that outclassed any other and delegates garbed in typical Indian attire. Their winning fight for the 1916 reunion is easily the feature of the convention to date.

FOREIGN EDITORS PROTEST SCHOOL STORY OF KAISER

Sinking of Lusitania Has Cast Blot on Wilhelm's Character, Say Newspaper Men.

Chicago, June 5.—In a resolution presented to the school management committee of the board of education yesterday editors of foreign newspapers in Chicago protest against a story in school spellers eulogizing the emperor of Germany. The resolution was presented by Vladimir A. Geringer, editor of the Bohemian Daily Svornost.

The story is called "The Kaiser in the Making." The resolution says in part:

"The story is offensive to all men who believe in absolute freedom and independence, especially to those whose forefathers fought, bled and died for the inalienable rights of mankind—life, liberty and pursuit of happiness.

"Among the pupils of the Chicago public schools there are many thousands whose parents under the rule of the German kaiser suffered intolerable injuries, abuses, tyrannies, outrages and cruelties, to escape which they come to America.

"The kaiser because of his violation of the recognized rules of international law and the sinking of the Lusitania and neutral ships with his submarines, has become the bloodiest murderer in the entire history of the world."

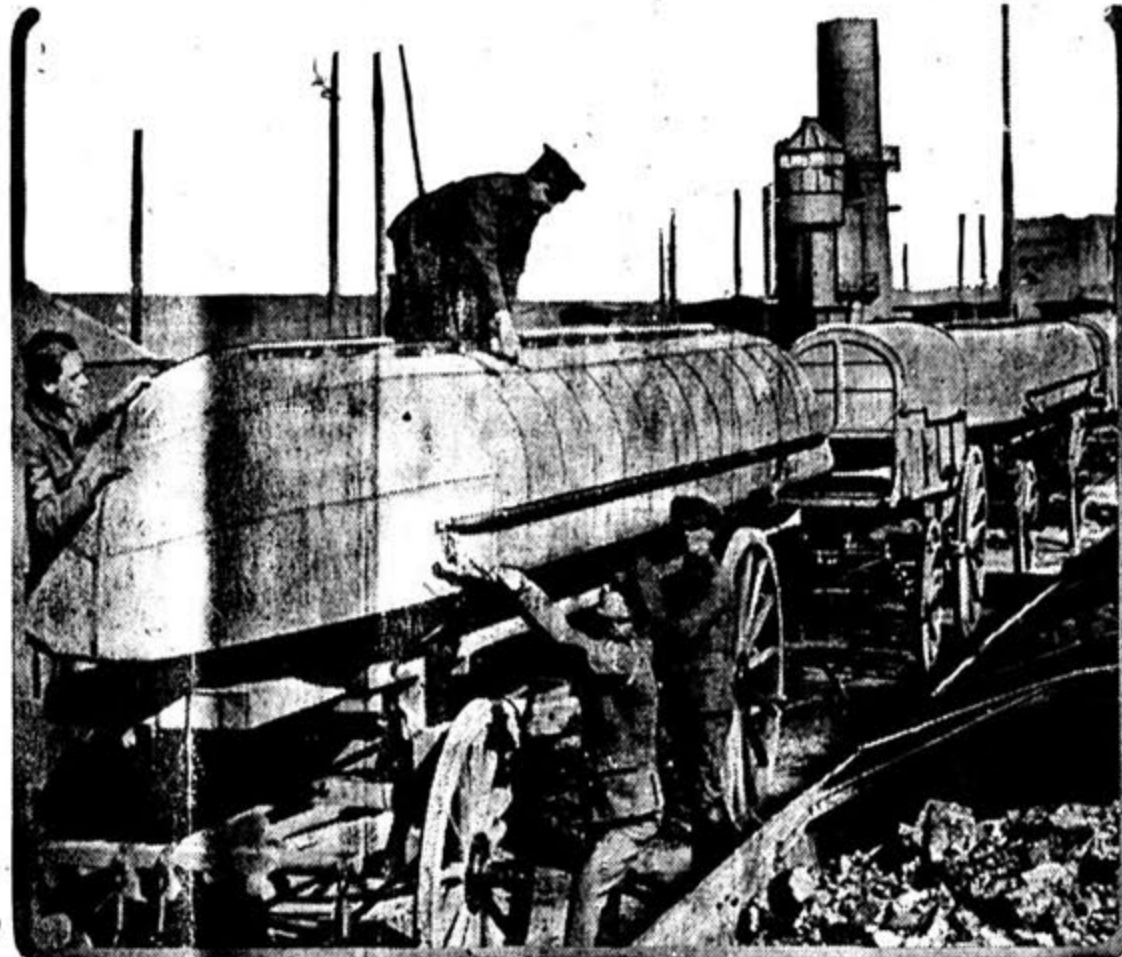

FROST FUNERAL HELD YESTERDAY AFTERNOON

Funeral services for the late Mrs. Amelia Frost were held from the Frost residence at 421 Ogden avenue yesterday afternoon at four o'clock with Rev. W. J. Datson of St. Stephen's church officiating. Burial was at Lake view cemetery. Many Escanabans and persons from out of the city were present at the services. Mrs. Frost succumbed following an attack of illness, at her home in Marinette.

ISSUE LICENSE TO GLADSTONE COUPLE

County Clerk Pepin today issued a license to Miss Hazel B. Cassidy of Gladstone and Floyd R. Glass of Kerrobert, Saskatchewan, Canada.

STEEL PONTOONS FOR THE YSER REGION

Men of the British engineer corps loading on railway cars the specially constructed steel pontoons designed for use in crossing the Yser and the canals of that region.

TRAIN STRIKES AUTO; MUSICIAN KNOWN HERE LOSES LIFE IN WRECK

HOMER SECHRIST AND MRS. EDITH MORRISON KILLED INSTANTLY AT RAILROAD CROSSING IN WARSAW, IND., LAST NIGHT.

HAS VISITED HERE NUMBER OF TIMES

Word received last night in the city related the shocking death of two young people, well known to many Escanabans, in the killing of Homer Sechrist and Mrs. Vernon Morrison, his sister. The terrible tragedy occurred just outside of Warsaw, Ind. A Pennsylvania line flyer struck the automobile in which the two were returning from Winona Lake, the seat of the world famous chautauquas, completely wrecking the machine and killing the young people instantly.

Accomplished Musician

Mr. Sechrist is well known to Escanaba people, being an accomplished musician and having at various times been a guest at the home of Mr. and Mrs. T. M. Judson, 528 south Campbell street. His sister, Mrs. Morrison, known to her friends here as Edith, has also been a guest at the Judson home in recent times. The young man was studying music at Winona, preparing himself for teaching. It was the custom of Mrs. Morrison to drive her Overland car out to the lake and bring Sechrist back with her. This she had done last night and it was on the return trip to Warsaw that the fatal accident occurred. Escanaba friends of the young people are saddened and shocked at the violent end to two such attractive young lives.

Leave For Warsaw

Mr. and Mrs. T. M. Judson left for Warsaw and the home of the family there, at 11:40 o'clock this morning. Mrs. Judson had just returned from that place where she made a visit and had not as yet unpacked her grip when the sad news came.

TODAY'S ODDEST STORY

Pueblo, Colo., June 5.—Every city has some claim to distinction. Pueblo among other things has the oddest nail factory in the world, making the largest and smallest nails in creation.

The "microscopic" 3-16 brads require 30,500 of them to weigh a pound and half a million are cut in a minute at the Rockefeller's steel plant here.

The biggest nails in the world the 12 by 3-8 inch spike, used in bridge building, weigh three to a pound. And they are hammered out at one blow of the machine, 200 each minute. It takes five hundred of the little brads to make the head of the spike.

The nails made here in a year could circle the globe if placed end to end.

IRON MOUNTAIN SQUAD HERE FOR TWO GAMES

MANAGER SCHRAM ANNOUNCES LINEUP FOR OPENER TODAY—EXPECT BIG ATTENDANCE SUNDAY

FIRST HOME GAME OF SEASON TODAY

Garland, Leaf and Carrol Slated For Mound Duty With "Red" Murray and Boyle on the Receiving End

Escanaba's home baseball season was officially given impetus this afternoon when a big crowd of fans put the levers to the lid and pried her off with a bang at south park. The East Iron Mountain aggregation of pastime is furnishing the opposition and from reports are making the Escanaba squad of pill chasers go some.

Helmer Leaf, Negaunee lad and hill top artist of SOME reputation in this section of the woods, was selected to start the cannoning against the invaders with Murray Boyle in the backstop's togs. Carrol and Garland are also slated for duty this afternoon and it is probable that "Red" Murray will also step into the arena as backstop.

"Oldtimers" in Lineup

Escanaba's lineup today comprises some of the old time stars who in past years have cavorted to the delight of local fans on an Escanaba diamond.

"Buck" Nolden, "Freddie" Olmsted, "Cully" Lantz, "Steiny" Aronsen, Bourke, Hoffman and other stars will do the honors in today and tomorrow's scraps. Garland, Leaf and Carrol are on the firing line for mound duty and Manager Schram believes this combination is capable of beating his visitors from the west.

The invaders arrived in Escanaba last night and are primed for today and Sunday's scraps and believe that they can take the measure of Schram's proteges. Sunday's game is slated to get away promptly at 2:30 o'clock and promises to be a hotly fought contest.

ITALY WILL BE A BIG HORSE PURCHASER

Lincoln, Neb., June 5.—Information received by Nebraska horse buyers indicate that Italy will be a heavy purchaser of horses throughout the middle western states in the near future.

Orders are said already to have been received for tested and inspected animals for such consignment. The recent reported order of 80,000 mules to be purchased throughout this section and assembled in Nebraska for assignment to European ports, is apparently being filled, as shipments are being made just as soon as several carloads are on hand.

THE WEATHER

Probably showers tonight and Sunday; warmer tonight; moderate south east shifting to southwest winds probably increasing.

AUTOS COME TOGETHER AT CORNER WELLS AND SARAH; NO ONE INJURED

BIG CAR AND LIGHT MACHINE MEET HEAD ON—SMALL CAR BADLY DAMAGED IN COLLISION—CONFUSION AT TURN.

DOG WAS HURLED OVER WINDSHIELD

The drivers of two automobiles, becoming confused while attempting to make a turn at the corner of Wells and Sarah streets shortly after half past one o'clock this afternoon precipitated an accident which resulted in the smaller of the two machines sustaining a badly damaged front portion, its front wheels being torn off and the fenders badly bent. The larger car sustained a badly bent front fender and a little scratched up paint. The big car struck the smaller.

The cars were being driven from opposite directions, according to eye-witnesses, and as both drivers neared the corner neither knew which way the other was going to turn. It is said that owing to the fact that neither car was traveling at more than a moderate rate of speed, serious injuries were averted. The impact of the shock hurled the light car over onto the curb after smashing the front wheels.

Dog Thrown Clear of Car

A Boston bull, sitting on the seat beside the driver of the light car was hurled clear over the windshield and clear of the car, alighting unhurt on the ground. Witnesses vouch for the statement that the pup did not wait for anything, but streaked it for home as fast as its bandy legs could carry it. However it is also said he was pulled from beneath the wreckage. The damaged car was taken to a garage where repairs will be made.

FISHING GOOD AT PIER

Local anglers are taking advantage of the unusual run of perch that is apparent in the bay at this time. Every day sees a large number of the anglers after the finny tribes at the Stephenson dock, and many large catches are reported. Last evening, after a few hours sport three young men each returned with a big string of big, fat perch. The fish are of an unusual size and are more plentiful than in many years.

ESCANABA LEADS AT CLOSE OF SEVENTH

At four-thirty o'clock this afternoon Escanaba's baseball team was leading the Iron Mountain squad, 9-4. Escanaba scored five in the first inning. The seventh just closed. Batteries—Garland and Boyle, Sandercrook and Ferzacca.

Summary:	R.	H.	E.
Escanaba	9	10	5
Iron Mountain	4	8	8

Opens Safe In One Minute; Is Held as Robber

TELLS OFFICERS CAN OPEN ANY SAFE IN FIVE MINUTES—TRY HIM OUT ON OFFICE SAFES IN ATTORNEY'S OFFICE

(By Associated Press.)

New York, June 5.—A young man who admitted to the police today that the name of W. F. Smith that he gave when arrested was not his own was arrested charged with the robbery of a safe in Pennsylvania of jewels valued at \$11,500 is said to have confessed, according to the police.

In his confession he said that he could open any safe in five minutes time. After hearing this story, officers gave him permission to demonstrate his ability on safes in the district attorney's office and in another office.

By listening to the falling tumbiers of the locks, he deftly whirled the dial and had each safe open inside of less than a minute in each case.

LADS DESTROY FLOWERS AND RUIN LILAC BUSHES

Complaint has been made that schoolboys, coming and going to their homes and to school during the day, are disregarding the rights of property owners in that lilac bushes have at several places on Wells avenue, been practically ruined by having branches and limbs torn off and broken down. Flowers and flower beds have been desecrated by the youngsters and the owners of the plots declare that something should be done to stop the practice.

BRITISH TURN DOWN AMERICAN OFFER TO MAKE SHRAPNEL SHELLS

(By Associated Press.)

London, June 5.—That the British government recently refused an American offer to supply five million shells at lower prices than are now being paid, was admitted by the war office in the house of commons this week. "The offer was refused for reasons unconnected with the price," said the war office representative, adding "it would not be in the public interest to disclose the reasons."

WILL ORGANIZE A CLUB

Young Men of Episcopal Church to Effect Organization Monday

Announcement is made of a meeting, called for Monday evening at the Episcopal rectory by the pastor, Rev. Datson, at which time the organization of a Young Men's Club will be made. The session will commence at 7:30 o'clock. Much enthusiasm has been evinced in the plan by the young men of the church and its success is said to be practically assured.

APPRECIATIVE OF THE SUPPORT OF CITIZENS

Members of the Business Men's Auto Committee, for yesterday and today's entertainment of the visiting M. & M. men have expressed their appreciation of the splendid support tendered them by Escanaba auto owners. They feel very grateful for the use of the cars and take this occasion to thank those who assisted.

DRUGGIST KUEHN BOUND OVER TO CIRCUIT COURT

Waiving examination on the charge preferred against him of violation of the liquor laws, Roy Kuehn, Garden druggist who is alleged to have furnished liquor to the participants in last Sunday's holocaust at Gouley's Bay, was bound over to the circuit court yesterday afternoon under bonds of \$200 furnished by A. S. Putnam of Manistique. He was released to await trial at the July term of court.

CARRANZA FAVORABLE TO WILSON'S ATTITUDE; DISTRIBUTING SUPPLIES

MEXICAN LEADER SAYS AMERICAN WARNING "SMILES UP ON HIM"—REPLY TO BE FRIENDLY

HOPES RAISED FOR MEXICAN PEACE

FURTHER APPEALS FOR HELP MADE TO AMERICAN CITIZENS—DISTRIBUTION OF SUPPLIES CONTINUES

CARRANZA LOOKS TO U. S. FOR RECOGNITION

Will Deliver Reply to American Note, Probably on Monday or Tuesday of Next Week, by Way Counsel Silliman

(By Associated Press.)

Washington, June 5.—Unofficial advices from Vera Cruz says that General Carranza will reply favorably to Wilson's note, that the factions in Mexico cease their disturbances and that he was impressed that the factions would unite and make peace. These reports give added hopes to the belief that there will soon be a solution to the Mexican problem.

Supplies are being distributed as fast as they arrive and 7,000 were given corn at the American hospital yesterday. Several of the Mexican generals have expressed to Consul Hannah their thanks for the assistance of the American Red Cross and to the United States people.

Another appeal will be made for corn, beans and rice to relieve the ways of those people who not even the barest of necessities at present.

Pleased With Note

It is intimated that General Carranza is pleased with the tenor of Wilson's note from the expression, "Appreciative, friendly and serene"—such will be the reply to Wilson's note. After careful consideration of the message Carranza concludes it contains nothing other than hopefulness for the Mexican people and the Constitutionalist cause, and it was officially announced yesterday that his reply would be handed to Consul Stillman either Monday or Tuesday of next week.

Looks For Recognition

A distinct feeling exists that a more definite attitude towards Mexico at Washington will result in hastening a solution of the Mexican problem without foreign aid.

General Carranza expresses the opinion that the reoccupation of Mexico City will place the constitutionalists in a better position to be recognized by the Washington government.

CREAM CITY SPECIAL GETS AWAY ON TIME; PLEASED WITH TRIP

MILWAUKEE MERCHANTS AND MANUFACTURERS LEAVE CITY AT ELEVEN O'CLOCK TODAY ON LAST LAP OF THREE DAY JAUNT.

MAYOR PRESENTS KEY TO THE CITY

With a rousing send off at the C. & N. W. depot at eleven o'clock this morning, members of the Milwaukee Merchant's & Manufacturer's association got away on schedule for the last lap of their six day trip in the Upper Peninsula, which started May 1 and closed today. Escanabans who had "toted" the visitors around the city during the morning in their cars were there and cheered the special as it pulled out of the depot, homeward bound for Milwaukee.

Bright and early this morning twenty-five or thirty cars were gathered at the special train, and after loading up took their passengers around the city and vicinity on a tour of inspection. However, many of the visitors took occasion of the opportunity to call upon their trade here, and to renew old friendships which had become "kinda" rusty with the years. Following out the program they (Continued on page five)

FRENCH BOURSE CLOSED TODAY UNTIL OCTOBER

Paris, June 5.—The Bourse was closed today and will remain unopened until the first of October.

Church Notices

Presbyterian Church
 Divine worship at 10:30, and Sabbath School at 12:00. There will be no evening service. The Prayer and Bible Study service will be held as usual Wednesday evening at 7:30. We study this week, the character of Joseph, Gen. 37-50. In the midst of outside attractions, may God help every Christian to guard well this evening hour that should be consecrated to him.
 Special attention is called to the Men's Bible class. We enjoyed a good beginning last Sabbath and hope to see many more in line this week. We propose to complete the organization of the class this week and hope that every man who wants to be a part of the class will be present. We believe that there are greater possibilities for this class than any other branch of the churches work. We hope every Christian will do his best in helping some fellow to find his way into the class for men. "Come thou with us and we will do thee good" We shall meet promptly after the morning service.
 All friends and members of the church are invited to be present at the installation service for the Pastor next Monday evening at 7:30, in the church. There will be special music, the charge to the people will be given by the Rev. Mr. McCarroll of Gladstone, the charge to the Pastor by the Rev. Mr. Amstutz of Marquette, and a sermon will be preached by the Rev. Mr. Kuder of Menominee. Every member who can, should be present at this service.

RACE FOLLOWERS DISREGARD PLEAS FOR FIELD GLASSES
 (By Associated Press.)
 London, June 5.—While hundreds of appeals for field glasses appear in the personal columns of the London papers in behalf of young officers at the front, the followers of the races still have plenty of binoculars with which to view the horses. A picture of the grounds at Newmarket, showing the crowd with glasses to eyes following the race, appears in one of the London newspapers, while below appears the appeal for these instruments made by Lady Roberts. Commissioned officers must largely furnish their own kit in the British

army, and their pay is only nominal. Glasses are naturally out of the reach of the noncommissioned officers. One of the last acts of Lord Roberts was an appeal to sportsmen for glasses for the front, and before leaving on his trip to France, he wrote a second appeal, which was found after his death.
BUILDS HOUSE IN 13 DAYS; LOCAL RECORD
 Escanaba Building Contractor Completes Structure in Two Weeks Time, Exclusive of Foundations
 The completion of an eight room, modern house, ready for plaster, in the space of thirteen days is a record which is believed to have anything in this locality "skinned," taking into consideration the facts of the case. Contractor Charles Jaeger started work on a structure at 1610 Third Street, May 25. Two carpenters were put to work on the building and have rushed things along until the house was ready for plaster this noon. The building occupies a ground over space of 30x20 feet and is a four gabled type of dwelling, story and half in height. Max Liedtke is the owner.
NOTICE TO WATER TAKERS
 The attention of water takers is directed to the rule adopted by the North Michigan Water Company, governing Sprinkling Hours, which reads: "The hours for sprinkling lawns are as follows from 6:00 a. m. to 10:00 a. m. and from 5 p. m. to 9 p. m. Sprinkling lawns during the heat of the day is poor practice and the result is harmful to vegetation rather than otherwise. So that to a great extent this practice constitutes an unnecessary waste. The hours as above specified are ample for any ordinary lawn service, therefore, the Water Company can expect and will insist upon a reasonable observance of such sprinkling hours. Insistent violation of this rule will result in an interrupted service and a payment of \$1.00 will be required before the water is again turned on. In case of a second offense the supply will be stopped until a meter has been installed and such service established upon a measurement basis and at the regular rates.
 Robt. P. Roberts, Supt.

In the Matter of the Estate of Samuel Atkins, deceased.

Notice is hereby given that four months from the twenty-fourth day of May, A. D. 1915, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Escanaba, in said County, on or before the twenty-fourth day of September, A. D. 1915, and that said claims will be heard by said court on Monday, the twenty-seventh day of September, A. D. 1915, at ten o'clock in the forenoon.

Dated, May 24, A. D. 1915.
JUDD YELLAND,
Judge of Probate.

June 5, 1915. June 19, 1915.
NOTICE OF HEARING CLAIMS BEFORE COURT.

STATE OF MICHIGAN, The Probate Court for the County of Delta.
In the Matter of the Estate of Knute Peterson, deceased.

Notice is hereby given that four months from the fourth day of June, A. D. 1915, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Escanaba, in said County, on or before the fourth day of October, A. D. 1915, and that said claims will be heard by said court on Monday, the eleventh day of October, A. D. 1915, at ten o'clock in the forenoon.

Dated, June 4, A. D. 1915.
JUDD YELLAND,
Judge of Probate.

June 5, 1915. June 19, 1915.
NOTICE OF HEARING CLAIMS BEFORE COURT.

STATE OF MICHIGAN, The Probate Court for the County of Delta.
In the Matter of the Estate of John Sampson, deceased.

Notice is hereby given that four months from the first day of June, A. D. 1915, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment, and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Escanaba, in said County, on or before the first day of October, A. D. 1915, and that said claims will be heard by said court on Monday, the fourth day of October, A. D. 1915, at ten o'clock in the forenoon.

Dated, June 1, A. D. 1915.
JUDD YELLAND,
Judge of Probate.

June 5, 1915. June 19, 1915.
ORDER FOR PUBLICATION—
Final Administration Account.
STATE OF MICHIGAN, The Probate Court for the County of Delta.

At a session of said Court, held at the Probate Office in the city of Escanaba, in said County, on the twenty-ninth day of May, A. D. 1915.

Present: Hon. Judd Yelland, Judge of Probate.
In the Matter of the Estate of Jean Hjanke, deceased.
Mirko Skaradzki, executor of said estate, having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, That the twenty-eighth day of June, A. D. 1915, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered; That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in The Escanaba Daily Mirror, a newspaper printed and circulated in said county.

JUDD YELLAND,
Judge of Probate.
A true copy. JUDGE OF PROBATE.
ELLA FRECHETTE,
Register of Probate.

May 29, 1915. June 12, 1915.
ORDER FOR PUBLICATION—
Probate of Will.

STATE OF MICHIGAN, The Probate Court for the County of Delta.
At a session of said Court, held at the Probate Office in the city of Escanaba, in said County, on the twenty-fifth day of May, A. D. 1915.

Present: Hon. Judd Yelland, Judge of Probate.
In the Matter of the Estate of Frank J. Kraus, deceased.

Frank Kraus, son and heir at law, having filed in said court his petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court, be admitted to probate, and the administration of said estate be granted to Louisa Kraus, or to some other suitable person.

It is Ordered, That the twenty-first day of June, A. D. 1915, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks, previous to said day of hearing, in The Escanaba Daily Mirror, a newspaper printed and circulated in said county.

JUDD YELLAND,
Judge of Probate.
ELLA FRECHETTE,

My car begins to lag when about half way up a hill. Does the slanting position of the car interfere with a proper supply of gasoline to the carburetor?

It is not likely that your trouble is due to the position of the tank, but it is probably caused by dirt in the feed pipe. The dirt does not prevent the flow entirely, but reduces it so that not enough gasoline is supplied to the float chamber to satisfy the extra demand put upon the car when it is climbing a hill. Disconnect the feed pipe at the carburetor and note whether the flow is free; if not, remove the pipe and clean it with a wire. If the trouble still persists adjust the carburetor to give a richer mixture. The gasoline flow, due to the low position of the tank, should not be affected except on a steep hill. If you feel, however, that the flow is not sufficient you might install a tank holding about a pint directly in front and slightly above the carburetor. This tank is merely connected in the line, has no valves and is only a reservoir, but with sufficient capacity to carry the car over the longest hills, even though the supply of fuel were cut off.

Can you give some good and simple ways of lining up a transmission?

One good way of lining up the transmission is to take a scriber or stiff wire with a point on one end and clamp the other end to the main gear-set shaft. Bring the point of the scriber to the rear face of the flywheel and then adjust the gearcase until the point barely touches the flywheel in every position of rotation. Then place the point of the scriber in contact with the cone face of the flywheel and adjust the case so that the point just touches at every point. This determines circularity. When this is done, rest the rear face of the flywheel again and so on, until the alignment is perfect. While doing this, do not lose sight of the necessity for also keeping the shifting mechanism in line.

Can you tell me the proper way to tin a new soldering iron and other general information in connection with the work of soldering?

The iron perfectly smooth and heat it just enough to melt solder easily. Then dip it into a strong solution of ammoniac for an instant. Finally rub it into a stick of solder and then distribute the solder adhering to the iron by rubbing with a piece of cotton waste. When this is done the iron is ready for service and will not require retinning unless it is burned.

The rear wheels on my car when jacked up can be lifted 25 inch. Should this play be there; if not, how can it be eliminated?

No play should exist, either perpendicular or sideways. All lost motion in a car is defective and should be remedied. In your case the thing to do is to install a new bearing in place of the old one, which is probably so worn as to cause the trouble, or if an adjustable bearing have it set up.

How may one tell when the storage battery is worn out?

A battery may be said to be worn out through service when the active material of the plates has fallen to the sediment trap at the bottom of the jar. A battery in such a condition will not take a charge and cannot possibly give service. A battery may be worn out prematurely by improper care and undercharging, causing the plates to lose the active material, to buckle, etc.

Will you please give your opinion as to the advisability of braking my car by closing the throttle?

Using the motor as an auxiliary by closing the throttle is a very good scheme, as it saves wear and, in some cases, heating of the brake shoes. Some people object to the use of the motor in this way because it imposes a small strain on the driving mechanism, but this is negligible. A more powerful braking effect can be obtained by switching off the ignition and this is probably more popular than merely closing the throttle.

What are the advantages and disadvantages of the two, three and five bearing crank shafts? Is a two bearing crank shaft sufficiently strong to take care of the strain it is subjected to for any length of time?

The five bearing crank shaft is not necessarily better in every respect than either the three or two bearing shaft in a four cylinder motor, although it will be less liable to whip, due to its rigid mounting. You will find that the four cylinder, five bearing motor usually, if not always, has its cylinders cast separately, thus making a comparatively long shaft and motor. With a long shaft the points of support must naturally be many to obtain rigidity and it would not do for a very long motor to have a two bearing shaft, although some have three large supports. The motor design then plays a big part in the number of bearings to support the crank shaft. The small block motor with a two bearing crank shaft shows good results and the block and pair cast motors with three bearing shafts are also showing up well. Taking the small block motor, any increase in the number of bearings adds to the frictional loss and to the cost and detracts from its simplicity. The bearings usually used in this type are made long to give good service. However, in two motors exactly the same in every respect but crank shaft support and one with two and the other with five bearings, the latter will in most cases show longer life than the former.

Can you give me some information as to automobile valve timing?

The timing of a motor depends on whether the greatest torque or twisting effort is wanted at low or high speeds and whether it is desirable to have a silent motor. For instance, if a motor with a particularly good torque at low speed is wanted, then the exhaust opening should be delayed more than usual so that the expansive force of the gas will be exerted to the utmost. On the other hand, if the motor is to develop a maximum torque at a high speed it is better to open the exhaust valve earlier so as to give the gas plenty of time to flow out. The reduction in back pressure due to this more than compensates for the small amount of expansive energy that is thus thrown away.

Exhaust closure should occur at dead center or slightly after. On a slow speed motor it would be all right to close the exhaust valve right on dead center, but if this were done on a motor that had a maximum speed of say 2000 revolutions or more the scavenging of the cylinder would not be as complete as if the closing were delayed a few degrees. The reason for this is simple. When the gas is flowing out through the exhaust valve at the high speed that is obtained when the motor is running at this rate it has a perceptible amount of momentum, although its actual mass is very small. Therefore the tendency is for the column of gas to keep on flowing when the piston reaches upper dead center. This action naturally helps to suck out a little gas after the piston has ceased to force it out.

The opening of the inlet valve should take place shortly after the exhaust valve closes. Its exact point of opening depending on whether the designer considers it best to begin to fill the cylinder with a rush. In the former case the valve is made to open at about top dead center, and in the latter case the opening is delayed possibly as much as twenty degrees. If the opening is delayed a partial vacuum is formed in the cylinder, due to the fact that the piston moves out and expands the gas below atmosphere. Then when the inlet valve is finally opened the charge rushes in to fill this vacuum. This action is believed to give better carburetion by a great many designers. The closing of the intake valve, just as in the case of the exhaust, depends on the speed of the motor. If the momentum of the column of rushing gas is to be considered then the opening is delayed so that the gas, instead of instantly stopping its flow when the piston reaches bottom center, keeps on flowing, due to its inertia, and in this way crowds in a bigger charge. If a good power output at high speed is to be obtained then the closure of the intake must be delayed a few degrees.

Can you give me an idea of the chemical equation which takes place when exploding a proper mixture of gasoline and air? In what way do the end products differ from those of a mixture of kerosene with air and water?

If the gasoline in an explosion in an internal combustion engine is burned completely the resulting gases would be water and carbon dioxide. However, this condition rarely exists, as there are always some unburned gases in the exhaust of an engine. The end products from a gasoline engine do not differ from those of a kerosene engine when complete combustion takes place.

What are the advantages and disadvantages of the low tension and the high tension magnetos in regard to both starting and service on car?

The average high tension magneto will give a spark of higher heat value than the low tension—that is, one using an outside coil. Both types show up equally well in starting and in service.

Please tell me how rusty rims can be cleaned, and have you a simple recipe for the prevention of rust to apply to the rims?

Scrape the rims with a sharp tool. Then pound with a hammer until all the rust has been battered off. Sandpaper vigorously, and finally apply a heavy coat of paint. Do not replace your tires until you are certain that the paint is dry, or you will have great cause to complain later.

My car vibrates greatly at speeds above twenty miles per hour. Is there any way of reducing it?

This is largely a question of bringing the reciprocating parts to the same weight. Remove the pistons and the connecting rods, weigh all the pistons with the wristpins and remove metal from the heavier ones until they are all the same weight.

What is the cause of motors failing to pick up, misfire, etc., after slowing down for a short distance?

Quite often loading up of fuel in the inlet passages causes this condition, but more frequently poor carburetor adjustment. A carburetor, especially one with two jets, can be adjusted for quick pick up.

I have a four cylinder motor in which the crank shaft is slightly out of alignment. Is it practical to use this shaft as it is?

If the crankshaft is out of alignment so that it is noticeable in engine operation, it will pay to have the shaft repaired. If that is possible, or have a new shaft installed. You can overcome the difficulty for awhile by taking up the misalignment in the bearings, but with the crank shaft itself sprung, the trouble will return.

WANTED—A cook at the Laing Hospital.

Wanted—Young man who understands Bicycle repairing, good proposition. Everything to gain and nothing to lose. Also man to wash automobiles. Inquire Northern Vulcanizing Plant.

WANTED—Work cleaning offices. Apply at 519 Ludington street.

The immense falling off in ocean travel is shown in a comparison of the figures for the period from January 1 to April 17 of last year with those for the same period in this year. In 1914 the number of passengers setting sail for Europe in the three months and a half was 27,727, and in 1915 only 4,198; that is to say, the traffic across the Atlantic from these shores is less than one-sixth of what it was last year. It is estimated visitors from the United States spent \$300,000,000 in Europe in 1914. An easy calculation indicates that about \$250,000,000 of this amount will stay at home this year, much of it to be spent with our railroads, lake steamship lines and summer resorts. Probably the Panama-Pacific show will draw a goodly share.

Men and women bird protectors of New York city have caused the seizure of algettes, alias bird feathers, to the value of \$10,000 from dealers having them contrary to both state and United States law. Women who dote on algettes for their hats would therefore do well to look for "something equally as good," and twice as pretty, and thus contribute to less bird-killing while there is so much of man-killing.

Two colleges at Oxford have barred alcoholic drinks. This is doing a vastly better service to the country than the practice in other lands of college students' rioting in times of public excitement. Oxford students have pointed the way to a safe and sane patriotism which it is to be hoped other students will notice and follow, although the hope may be too strenuous for the fulfillment.

A New York doctor says a dill pickle will do as much good as sulphur and molasses in spring. And he dares to say that, too, right in the face of thousands of us who took sulphur and molasses every spring and are here as living evidence that we recovered from whatever ailed us.

"Bar dances in schools," said the headlines in a newspaper. Does it mean that dances are barred, or that dances such as might be expected in a barroom are permitted, or can it be that the editor meant to say "bar dance," and his words were bungled by a printer?

It is said that an automatic train stop and control has been perfected to such an extent that it will absolutely prevent wrecks even when the block system fails to work. Travel is rapidly becoming so safe that timid persons will soon be afraid to stay at home.

None of the aviators of any of the nations has cause to be proud of the result of his exploits, as the victims everywhere have been mainly women and children. When the glory of the war is being distributed for its exploits, these will be in the background.

As a matter of course, only the most angelic of children become inmates of a home for dependent children.

If you make your clean-up thorough and keep things clean, life will be easier and healthier thereafter.

A dollar in the pocket is good company.

The sun shines alike on the pessimist and the optimist.

Sporting World

GOLFERS' EYES ON BALTUSROL

Championship Meet Will Bring Stars Together.

QUIMET AND HAGEN CLASH.

This Pair Will Make Open Title Competition One of Year's Features. Great Golfers of Different Styles. They Measure Close Together.

Regardless of any others entered and the field will be a great one—the coming battle between two of America's greatest golfers at Baltusrol June 15, 16, 17 and 18 will be one of the greatest features of the year.

We refer here to Walter C. Hagen of Rochester and Francis Ouimet of Boston. These two will be the gallery col-

Photo by American Press Association.
FRANCIS OUIMET, CHAMPION AMATEUR GOLFER OF THE WORLD.

lectors, and it would be a super attraction if the could be paired together for a match round.

At Brookline in 1913 Ouimet led Hagen by several strokes, but, while Ouimet won out, Hagen played fine golf. At Milltholien last summer Hagen won out, but Ouimet finished fifth, so in their two competitive clashes honors are about all even, fairly well halved.

Since that last meeting both have moved forward at top speed. Ouimet has finished first in four tournaments since the Milltholien affair, including the amateur championship, and Hagen by his brilliant play on the coast and later at Greenwich has shown that he, too, is at the crest of his game.

A comparison of these two young American stars furnishes some interesting gossip. Both are twenty-two years old. Both are close to six feet in height, broad shouldered and well built. Neither absorbs the essence of alcohol in any form, and Hagen doesn't even smoke. Both won open American championships before they were twenty-two. Both have great power, both play their irons well, and both are fine putters. Both have a sureness and a confidence minus any unpopular aggression. In other words, both have wonderful temperaments for play.

Off the tee Ouimet is the steadier—and about as long. He has the easiest form, but no more power. Ouimet plays the ball well away from him, with the normal swing of the first class golfer. Hagen, on the other hand, or foot, bends his right knee decidedly in as he takes his stance and then swings back from and then into the ball, very much in the manner of Ted Ray. This helps give him fine distance, but, owing to a little inaccuracy, although he is by no means uncertain.

Off the tee Ouimet has a slight tendency to hook. Hagen to slice. In their iron play both have a firm, crisp stroke, but if anything Hagen is a little more businesslike in his methods. He is one of the few who can play a certain club easily for a certain distance—that is, can play an easy mid-iron rather than use a full shot with the driver.

pressure on the green at the speed. If any had to name the most spectacular feature possible in American golf it would be a 36-hole match between these two young stars, who are fairly sure to be close to the top in June, with a good chance that one of them will be first.

"VOTES FOR WOMEN" VEIL

Considerable attention was attracted by a pretty young lady who invaded one of the fashionable streets wearing a veil on which was woven in fine material "Votes for Women." "Old fogies" who had firmly resolved not to be awayed from their determined stand to refuse to women the right to vote, followed the young lady with twinkling eyes and said to themselves after all there ought to be no objection to women voting. Staid old maids, among whom was one who evidently was enrolled in the "anti" ranks, turned up their noses and called out "Cat! Cat!" The "votes for Women" veil promises to set a new fashion.

Pearl in Mussel.
Bedford, Ind.—While digging mussel shells near his home in Hoon township George McClintock found a pearl that weighed 16 grams in a mussel taken from White river. The pearl is valued at \$350.

Hans Lobert and His Everlasting Smile Keep Up Hopes of Giants

Photo by American Press Association.
In this picture Hans Lobert, former Phillie and now third sacker of the New York Giants, is shown wearing a smile. The picture is an excellent likeness, but it is not an exceptional one. Hans is always smiling. His cheery disposition, coupled with the fact that he always plays the game for all it is worth, has endeared him to the hearts of the fans and fannies of New York, and they smile with him. He tried for years to get with McGraw, and now that he has achieved his ambition he is as happy as a schoolboy; also he is playing better ball than he ever did in his career; hence his "everlasting" smile.

Lord Fisher Believes in Speed.

Although Lord Fisher is four years older than the regulation age at which a naval officer may normally hope to be employed, his methods at the admiralty give little indication of the advance of years. A short time ago he pounced upon a department at Whitehall with the intimation that a certain number of new vessels were required. The number, it may be mentioned, was about six or seven times as many as it is customary to order in any one year. The whole of the contracts for these vessels were placed in three days, and when the first sea lord went to inquire what had happened, and was told, he spared nothing in his exclamation of what he called the waste of time. In the ordinary way, three months is quite an average time for considering such a feeder.—London Globe.

FARM POULTRY

WORK IN THE POULTRY YARD

Young Chicks Often Die of Indigestion When Fed Too Early After Hatching—Corn Makes Fat.

Water fountains for the young chicks are all right if they are kept perfectly clean. Too many people neglect them and they become foul and cause disease.

For very small youngsters a good drinking fountain can be made by filling a teacup with water, placing a saucer over it and then turning it upside down. Stick a thin piece of wood under one side of the cup and the water will run out and fill the saucer. Do not let the old hen run with the chicks all summer. Take her away

Healthy, Vigorous Chick.

as soon as they are old enough to rustle for themselves.

The spring chick should have a special place to roost and the cockerels as soon as they can be distinguished should be separated from the pullets.

Did your young chicks die of indigestion during the first few days? You probably fed them too early after hatching. Next time feed them nothing for thirty-six hours.

Wet feeding is going out of favor and why shouldn't it? Natural food for young chicks is dry.

Rolled oats make an ideal food for the baby chicks.

Do not feed much corn in the summer time. It makes fat.

With large flocks hopper feeding is doubtless a labor saver, but the small flock will do better from the hand.

Give the chicks all the range possible in summer. A light fence run around a portion of the orchard makes an ideal place for them.

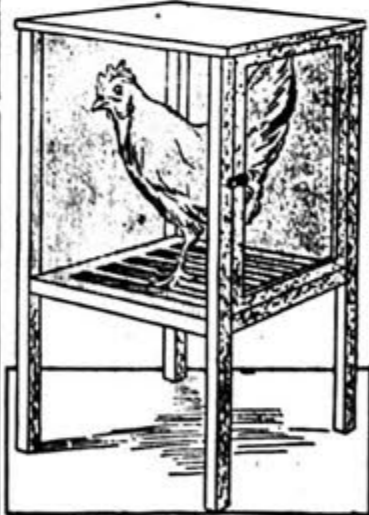

The hot sun will kill very young chickens. They should always have plenty of shade.

It is just as important to spray the interior of the brooder with kerosene as it is to spray the poultry house later on.

TO DISCOURAGE SITTING HEN

Screened Coop With Bottom Made of Narrow Slats, Widely Separated, is Quite Satisfactory.

A device which has been used with some degree of success in discouraging hens from sitting, consists of a screened coop provided with a bottom made of narrow slats which are quite widely separated. When placed inside of this, a hen finds standing the

Discourages Sitting Hen.

most comfortable position it can assume. If it attempts to sit, the position is difficult to maintain, and the sensation of feeling air currents instead of eggs, disconcerting. After having been kept in this box for two or three days a hen usually returns to laying eggs.

PRINCE OF WALES A FARMER

Takes Up Farming Enterprise in Cornwall on the Suggestion of the King.

London.—The prince of Wales, on the initiative of the king, has entered upon an interesting farming enterprise on the Duchy estate in Cornwall.

The opportunity was presented for the project in March, 1913, when two of the oldest tenants of the duchy retired after long and successful farming careers.

The farms together extend to about four hundred acres and form the Whiteford Home farm, Stoke Climsland, Callington. The holding is of convenient size for the system of mixed husbandry that has been adopted, giving suitable scope for the breeding of live stock, particularly cattle.

Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

NOW IT IS THE EMPIRE MIDDY.

A blouse that may be changed into several different models by the manipulation of its trimmings or rearrangement of the waist-line. As an Empire middy it is unusually effective.

This new version of the middy blouse will find many advocates, because it is thoroughly original, while meeting the demands of a smart cutting garment. The design can be as quickly converted into a Russian blouse by dropping the waist-line, or into a semi-dressy waist.

Pictorial Review Blouse No. 6237. Sizes 14, 16, 18 and 20 years. Price, 25 cents. Skirt No. 6278. Sizes 14, 16, 18 and 20 years. Price, 15 cents.

ARM BLOWN OFF; MEN HOLD ARTERY UNTIL HELP IS AT HAND
(By Associated Press.)
London, June 2.—Lieutenant Hellyer of the 4th East Yorks territorial, who is now in a hospital at Boulogne, owes his life to the devotion of his men in the ranks, who kept him from bleeding to death by taking turns in holding an artery. The officer's left arm was blown off by a shell and his right arm badly injured. The main artery of the severed arm was exposed. But one of his men pinched it with his fingers. When the man's hand tired, another took his place in holding the artery. No surgical aid was available, and for three days Lieut. Hellyer lay in the bottom of the trench, with only this primitive aid from his soldiers between him and death.

NEW SHOP IN OPERATION
Vassaw Establishment to Get Under Way Next Week
T. G. Vassaw announces that he will open his new print shop on Ludington street for business, Monday morning. Machinery has been installed and will be put in operation at that time.

LOCAL BREVITIES
Marriage licenses were yesterday granted to William Oak of Gladstone and Maria Larson of Masonville and James Peacon of Detroit and Stella Bressler of Gladstone.
V. I. Hixon of Manistique is in the city on business.
A. S. Putnam of Manistique is in the city on business.
J. E. Sullivan of Fond du Lac arrived in the city yesterday on business.
W. J. DeGooyer of Calumet is in the city on business.
O. V. Thatcher who has been seriously ill at the home of his parents on Michigan avenue, was out for the first time yesterday.
Miss Earlene Devet, a graduate of Gordon's Business College, has accepted a position as stenographer and assistant bookkeeper with the Garden Bay Railway company at Garden.
Miss Emma Anderson has returned to her home at Bark River after having attended Gordon's Business College here for the past few months.
B. R. Chapman of the Maxwell Motor Car Company is in the city on business.
Jacob Lausen of Stonington was in the city yesterday on business.
Frank X. Fountaine of Green Bay is in the city on business and to spend Sunday with friends and relatives.
Miss Ruth Tuxford, who has been a student at Greenville College during the past year, has returned to her home here to spend the summer. Miss Tuxford is a daughter of Mr. and Mrs. Charles Tuxford.
William Bartella of Stonington was in the city yesterday.
J. Wade Weston, who has spent the week at Marquette and Sidaw, will arrive in the city this afternoon to spend Sunday in this city.
Louis Kaufman left for Two Rivers Wis., last night, called away by the serious illness of a daughter residing in that city.

BRITAIN FORMS A COMMERCE MINISTRY
(By Associated Press.)
London, June 5.—At the annual meeting of the Association of Trade Protection societies a resolution was passed urging the establishment of a ministry of commerce and expressing the belief that such a ministry would have prevented many of the difficulties which have arisen during the recent months.
The matter has been taken up by several newspapers and although the question of cost is considerable, it is argued that the work now being done partly by the foreign office, the board of trade and the Colonial office would be coordinated and consolidated in a single branch, greatly assist in the extension of British trade and at the same time smooth the contraband difficulties which traders in almost every branch of commerce are suffering from at the present time.

Mysterious Night Signalling Rouses Whole East Coast of England; Are Spies Is Belief
London, May 25.—(By Mail to New York).—England's newest war mystery is the "will-o'-the-wisp" of the British east coast.
Cleverest sleuths of the nation are today searching for a mysterious grey motor car "D-4832"—that nightly races along peaceful East Anglia highways intermittently piercing the upper darkness with flashes of light that tell military secrets to enemy submarines hovering off the coast.
The mystery rivals the most thrilling of war time dramas with the climax yet to come.
Occupants of peaceful farmhouses and villagers of the quaint old English seacoast towns are waiting for the government to solve the mystery that is the talk of the countryside. Nightly they have seen the powerful car dash madly past, a huddled figure bent low over the wheel. Some say he wears the uniform of a British military officer while others are not so sure. All of them have seen the piercing rays of the motor's searchlights perform strange arcs on the sky. A dozen times they have spread the alarm by phone in the direction the mysterious visitor was traveling but as many times he has eluded them.
It is only at night that the "phantom" thunders along the east coast roads. At daybreak he disappears seemingly into air until another night. On the night of the last Zeppelin raid over Suffolk and Essex, the "phantom" was out. Carrying a blind-

The "Peerless Peach" is only Four Hundred Hitter in Any of The Three Baseball Divisions

(By Associated Press.)
Chicago, June 5.—Ty Cobb is the only "four hundred hitter" left in the three big leagues, according to averages published here today, which include batters who have taken part in ten or more games up to Thursday last. The percentage of the Detroit star fell away during the week from 427 to 403, but he ran his stolen base total up to 25 and his runs scored to 47 in 45 games, leading all rivals. The "three hundred hitters" of the American league, following Cobb, with the number of games they have played in, are: Daly, Chicago, 16, 364; Thompson, Philadelphia, 13, 357; Fournier, Chicago, 38, 355; Jackson, Cleveland, 37, 354; Russell, Chicago, 11, 348; Kavanaugh, Detroit, 41, 326; Lajoie, Philadelphia, 36, 316; Maisel, New York, 36, 316; Connelly, Washington, 10, 313; Crawford, Detroit, 45, 312; Strunk, Philadelphia, 31, 305; McInnis, Philadelphia, 25, 305; Chapman, Cleveland, 38, 303; Veach, Detroit, 43, 300; Cobb also leads in total bases with 80, his long hits including six doubles, five triples and one home run. Chicago with .263 and Cleveland with .260 are ahead in team batting.
American league pitchers who have won seventy percent of their games or more are: Faber, Chicago, won 19 and lost 1; Fisher, New York, 7 and 1; Benz, Chicago, 5 and 1; Daus, Detroit, 8 and 3; Foster, Boston, 5 and 2; Morton, Cleveland, 7 and 3.
Fred Luderus of Philadelphia, continues in front among the National league batsmen with .386 for 26 games. Then come Clarke, Cincinnati, .382; Good, Chicago, .27, 364; W. Zimmerman, Brooklyn, 14, 354; Daubert, Brooklyn, 35, 352; Connelly, Boston, 30, 337; Groh, Cincinnati, 33, 336; J. Smith, Boston, 39, 328; Merkle, New York, 35, 321; Sailer, Chicago, 40, 319; Doyle, New York, 34, 313; Hinchman, Pittsburg, 40, 304; J. Miller, St. Louis, 42, 302; Wade Killifer, Cincinnati, 36, 301. The batting streak which has brought four New Yorkers among the 300 men has raised the Giants to second place in club batting with .201, Cincinnati leading with .266. Sailer leads in stolen bases with twelve; in runs scored, 32; and in total bases with 93. His long hits include fifteen doubles, eight triples and five home runs. In homers however, he is behind Cravath, Philadelphia, who is credited with nine.
Pitchers in the national league's .700 percent division are: Pierce, Chicago, won 5 and lost nine; Meadows, St. Louis, 4 and 0; Strandridge, Chicago, 2 and 0; Ritter, New York, 1 and 0; Mamaux, Pittsburg, 6 and 1; Mayer, 8 and 2; Coombs, Brooklyn, 4 and 1; Ragan, Boston; Schneider, Cincinnati, and Smith, Brooklyn, 3 and 1 each; Alexander, Philadelphia, 8 and 3; Dell, Brooklyn, 7 and 3.

BRITISH UNIVERSITY THANKS U. S. MEN FOR ASSISTANCE AND AID
(By Associated Press.)
Cambridge, England, June 5.—The vice chancellor of Cambridge University has sent the following letter to Cambridge graduates in the United States who have contributed to the assistance of Belgian professors and students now resident at the university:
"It falls to me, as vice chancellor of this university, and president of the Belgian committee, to send you an official acknowledgement of the contribution to our university Belgian fund which has been made by American citizens who hold Cambridge degrees.
"I should like, however, to make this something more than an official acknowledgement. It has been so peculiarly gratifying to us here to receive this evidence of the strength of the bond which subsists between yourselves and us—to realize that you think of us and that you sympathize with what we are trying to do for our sorely injured colleagues—that I cannot let slip the opportunity of sending, together with our cordial thanks, an assurance of brotherly affection to each and all of those who bear witness in so moving and so welcome a fashion, that they hold Cambridge in kind remembrance. Let them not doubt that their feeling is reciprocated to the full."

WOMEN'S CLUBS HAVE BECOME POPULAR IN ENGLAND; WAR CAUSE

(By Associated Press.)
London, June 5.—War has led to a noticeable increase in social comradeship among English women and has broken down the former prejudice against what are popularly and contemptuously known as "hen parties." Numerous clubs have sprung up, such as the Lady Workers' club for lonely women earning moderate salaries. This club keeps open from 4 to 9 p. m. on work days and from 2 to 9 p. m. on Saturdays and Sundays. Its objects are purely the cultivation of friendship, without bridge or any kind of propaganda.

ORGANIZE AID ASSN. TO HELP PROPERTY OWNERS, MADE PAUPERS
(By Associated Press.)
Paris, June 5.—Inhabitants of each of the invaded departments of France have organized associations for the protection of the interests of those whose property has been taken, damaged or destroyed. These associations have formed a federation whose president, Louis Nicolis of the department of the Nord, has issued an address to the commission appointed by the government to assess war damages. The associations propose that the basis of the estimates be the sums required to fully restore to its original condition all property damaged or destroyed.

SPECIAL GETS AWAY ON TIME
(Continued from page One)
have adopted in every place visited, citizens and children not wearing one of the tiny flags was halted this morning and one placed on his coat.
Big Reception Tendered
One of the biggest receptions ever tendered any aggregation of visitors to this city was revealed last night in the greeting given the visiting Merchants and Manufacturers' Assn. of Milwaukee. Nearly a hundred auto were at the depot when the special rolled in with the junketeers aboard and into them the Cream City outfit was bundled and the trip to the Elk's Temple started. A special car of the Escanaba Traction Co. was pressed into service for the use of the Harvester band and with it in the lead, playing lively snappy airs the procession wound its way up Ludington street flanked on both sides of the street by big crowds of local people.
When the autos swung into the long business street, the glare of head lights reminded one of Michigan boulevard, Chicago on a warm, summer's night. The entire street was filled from curb to curb with the cars, practically forcing all other traffic to the side streets for the time being. As the cars deposited their passengers at the Elk's Temple another curious crowd of Escanabans gathered, later to enter the hall and hear the addresses of the evening. While the

"EVERYWOMAN' COMING TO DELFT NEAR FUTURE
Escanabans will have an opportunity of witnessing one of the most interesting of modern plays in the announced coming of the great London success, "Everywoman." This play will be shown at the Delft some time during the coming month.
Stephen Phillips, regarded as the world's greatest living dramatic and lyric poet, author of "Herod," "Francesca" and "Ulysses," was chosen to localize the fourth act of the dramatic spectacle, "Everywoman," for the production at Theatre Royal, Drury Lane, London. The fourth act in the original manuscript of the play occurs on Broadway, New York, the time being New Year's Eve. In the English production Broadway became Piccadilly. "Everywoman" will be seen here with Mr. Savage's only company and it contains several of the creators of the leading roles. Besides there is a symphony orchestra and a small army of supernumeraries.
P. A. Lint, Phillip Beath and W. L. Davidson will leave this morning on a fishing trip to Northland.

crowd stood around outside, a number of the Milwaukee men were busy pinning tiny American flags on the lapels of citizens, with a legend suitable to the event on one side.
Presents Key of City
Mayor MacKillican, in behalf of the Business Men's Association and the citizens of the city presented a golden key to Vice-President John Klingler of the Cream City crowd, emblematic of the freedom of the city during their stay here. The mayor welcomed the visitors in a short talk following which a response was heard from Mr. Klingler.
"When I say that we have not been tendered a more royal reception and one filled with more sincerity, on this trip, I say it with all truth," said Mr. Klingler. He spoke in glowing terms of Escanaba's brilliantly lighted streets and the possibilities of a closer relation between Milwaukee and this city, in business lines.
"Are Going Ahead"—Werline
"We are going ahead steadily," said G. T. Werline, president of the local Business Men's Association. He added that the possibilities that are here are bound to keep this city in the front ranks of communities in the section.
One note of real importance, and which reflects an idea that has grown rapidly during the past year or so, was expressed by Mr. Werline when he asserted that the production of raw iron into the finished products was one thing this city was going to get in the not far distant future. His prophecy on this point is said to be very pertinent. He believed that the shipping should be increased from what he characterized as "a bay big enough to hold the world navies." He touched upon the rather obvious fact that this section of the state is perhaps in closer touch with Milwaukee than with the metropolitan centers of Michigan and should rightly belong to Wisconsin.
Bading Talks
Mayor Bading, of Milwaukee, in a short but eloquent speech told of the relations of Milwaukee with its upper peninsula neighbors and sounded the sentiment that Wisconsin is after settlers of the kind that this section is after, and these mutual desires should draw the communities closer in business and social relations. In what members of the Milwaukee party describe as the only man who can get away with the kind of "stuff" which he dispenses, Frank P. Blumenfeld, former president of the Association related some of the incidents on former trips. In his inimitable manner he told of the progress Escanaba has made since his last visit here. His remarks was the signal for an outburst of merriment.
A serious talk on the possibilities of the city and the need of co-operation between the merchants here was heard from William G. Bruce, secretary of the Cream City outfit.
Following the program at the temple, the entire crowd marched up the street to the Delft theatre where they witnessed a program of pictures, including the Escanaba City pictures taken last fall.

ELEVEN SHIPS VICTIMS OF GERMANS

(Continued From Page One.)
 mer Summehead was torpedoed yesterday and the crew ordered into their boats. They were landed at Berwick today.

Take Alleged Spy
 London, June 5.—Another German spy, Robert Rosenthal has been taken and has confessed. He said he had been sent to England to get information on naval matters. He was arrested as he was leaving the country.

New Gov't. for Hungary
 London, June 5.—The Exchange Telegraph company publishes a despatch today from Vienna that it is now practically certain that a coalition government will be established in Hungary.

Americans Warned?
 London, June 5.—Several Americans in London have informed Consul Skinner that last night they were warned by anonymous telephone calls warning them to take their families and get out of London within twenty-four hours.

For several days, it has been rumored that all American women have been warned to leave by June 5. According to Berlin there has been no in-

formation and the American Ambassador had received no report of this nature.

An Embassy Order
 Washington, June 5.—Ambassador Gerard at Berlin cabled that a report of the Americans in Berlin having been warned to leave were attributed to a standing embassy order that the war zone is not a desirable place for Americans to be in. The warning to which references was made has been and in force since the war started.

Tells of Struggle
 Paris, June 5.—The capture of the sugar refinery at Souchez is described as follows by the "Eyewitness": "Violent attacks were made by the French on the south and west and were met by the Germans with machine gun fire. The German resisted for some time but became demoralized by the artillery fire of the French and withdrew."

"The basement of the refinery was filled with German dead but the French losses were slight. Fearful of having lost a station that would serve as a base for operations on the Aisne, the Germans made a desperate effort to regain the position. Amidst holes and crater dig by shells, the Germans began their attack at

midnight. The French major was unprepared for the attack and the French company which yielded again pushed forward and under a heavy fire from guns in the rear gained their points. Three thousand Germans were found dead and were buried in three days."

Are in Full Possession
 Berlin, June 5.—Reports from the Gallician front indicate that the Austro-German troops are in complete possession of Przemysl. The Russian contested stubbornly every advance but were driven from the east and south east sections of the city, these being the last to fall. It is admitted that the larger part of the Russians retreated safely to the east by protecting the south of the city, preventing for a time the complete taking of the stronghold.

Germans Doubled Forces
 Petrograd, June 5.—Further discussion of the fall of Przemysl has brought out the fact that the Germans had doubled their forces on the east and that fresh troops and artillery are being brought up constantly. The Germans have moved directly towards the Russ in the Dniester region. This having become the center of the German attack.

EXCURSION UP THE BAY

Saugatuck Will Make Two Trips Sunday Afternoon and Evening

It is believed that many Escanabans will take advantage of the announced excursions to Little Bay points, to be run tomorrow by the steamer Saugatuck. The steamer will make two trips, one leaving the Stephenson dock at 2:30 o'clock in the afternoon, bound for upper bay points and going as far as Masonville, the other leaving at eight o'clock for a run down to the lighthouse.

FORMER ESCANABAN IS MARRIED IN ILLINOIS

Announcements have been received here of the marriage, June first of Walter Carey Allan, a former member of the Mirror force. Mr. Allan married Miss Edna Lottie Richards of Rockford, Ill. The young couple will be at home after July first at Pierre, S. D.

BEAUTS PLAY AT GARDEN

Fast Amateur Squad Meets Speedy Aggregation From 'Across The Bay

Members of the Northern Beauty squad of pastimers are slated to cross war clubs with the scrappy bunch at Garden, tomorrow afternoon. The Escanaba team will leave the city at 7:30 o'clock tomorrow morning on a boat for the scene of battle. A number of local fans will accompany the Beauts on their tour of invasion.

U. OF M. STUDENT IN FRENCH AID CORPS

Ann Arbor, Mich., June 5.—A. C. Maurier, freshman dental student from Calpamarca, Peru, left the University of Michigan yesterday for New York, where he will sail for Lyons, France, Monday, to join the French aerial and scouting corps.

PARKE-DAVIES STORE BURGLARIZED TODAY

(By Associated Press.)
 Chicago, June 5.—Burglars entered the store of Parke-Davies last night and robbed the safe of several thousands of dollars.

DUTCH BATTLESHIP IN FOR REPAIRS

Newport, June 5.—The Dutch battleship Jacob van Henker arrived in port today from Curacao, West Indies for repairs.

"KIDS" GO SWIMMING; WATER STILL CHILLY

On several occasions during the present week a number of lads have donned their bathing suits at the municipal bath house and taken a dip in the waters of the bay. However, a plunge and a few minutes splashing around sufficed them for the water is still too cold for the sport. Twice during the week has a young woman, rather several of them, gone as far as appearing in the beach suits, but a touch of the chilly fluid on one "tootsie" evidently caused a change of mind for after a short time the bathing outfits were discarded for street wear. A few more days or a week of warm weather will take the chill off the water and make it suitable for swimming. The talk of erecting a diving platform has met with practically unanimous approval from the swimmers of the city who say that it can be built on the big raft and anchored in the deep water between the bars.

SENIOR CLASS TO MEET MONDAY NIGHT

Announcement is made of a meeting of the senior class members of the high school, which will be held Monday afternoon at the high school at 3:45 o'clock. It is important that every member be present at that time.

CARD OF THANKS

We desire to express our appreciation and heartfelt thanks for the kindness and the sympathy of the many friends of the family during our recent bereavement.

WELCOME A BABY GIRL

The household of Mr. and Mrs. A. B. Willerton was increased yesterday by the arrival of a fine baby daughter. Mother and daughter are doing fine, and "daddy" is the proudest man imaginable. Mr. Willerton is professor of mathematics at the high school.

Mrs. Geo. Ramspeck is ill at her home on Ludington St.

What's Doing in Theatre World

The Bijou

Miss Pauline Bush is appearing at this house today in "The Grind" a three part drama that is especially emotional and impressive. The story tells the pitiful story of the existence of the extra girl in a large theater.

Little Mary Pickford, the highest salaried movie actress in the world is appearing in the leading role here today in "The Tale of a Dress Shirt."

For Sunday Manager Hines has secured Bob Leonard and Ella Hall for the leading roles.

At The Delft

In spite of other big attractions in the city last night "Tillie's Punctured Romance" at the Delft drew at both afternoon and evening shows. This isn't just an ordinary picture but rather than that is one that is attracting nation wide attention. Charles Chaplin, the highest salaried movie actor in the world is appearing in the leading and the funniest role ever arranged for any living man. Marie Dressler, the funniest of actresses is appearing in another of the leading roles.

The feature is shown only at the afternoon shows.

Saturday night there is a complete change of program with "Rated at \$10,000,000" the featured picture. A other drama is "His Jungle Sweetheart" and "The Bouquet."

AUTO THIEVES STEAL AUTOMOBILE IN NIGHT

Martin Machine Stolen From Garage Last Night—Officers Making Efforts to Locate Car

Some bold thief, not content with an ordinary "job," entered the garage at the Ed. McMartin home some time between midnight and one o'clock and backed the touring car owned by Mr. McMartin out of its shed, into the street and made away with it. Where the car has been taken and who took it is declared to be a mystery. Discovery of the loss was made this morning and reported to the police and sheriff who are working on the case now, in hopes of rounding up the person or persons who took the car. The car is a five passenger Hudson.

BRAMPTON NOTES

Miss Belle Hannigan returned to her home in Kipling.

Miss Hannigan will not teach here next year. She will attend the University at Minneapolis.

School closed last Friday and the day being a rainy one, the picnic was postponed until the following Monday.

Monday was a grand day and everyone turned out, taking a holiday in the woods. Base ball and other games were played and every one had a good time.

O. L. Sheffer will leave for Illinois this week and return with a car of stock.

Mr. and Mrs. Andy Marshall and family spent Sunday with J. L. Sheffer and family.

Mrs. Tyrell is on the sick list.

The young people of Brampton had a marshmallow roast on the banks of Day's River, Wednesday night, the event being given as a farewell party for Miss Hannigan.

Mr. and Mrs. A. J. Volker spent Saturday and Sunday in Trombly.

O. L. Sheffer and sons, Allen and Ray, spent three or four days in Escanaba last week.

Miss Rose LaZaurti spent Tuesday with Mrs. A. J. Volker.

OSBORNS BUY PAPER

(By Associated Press.)
 Fresno, Calif., June 5.—The Evening Herald announces the purchase of that paper by George and Chase Osborn, sons of former Governor Chase S. Osborn of Michigan.

"LUTHER BURBANK DAY"

San Francisco, June 5.—"Luther Burbank Day" attracted thousands to the Panama Pacific exposition today. Every visitor was given, as a souvenir, samples of seeds guaranteed to produce several varieties of Burbank's famous freak plants. Giant cherries, plumpnuts and thornless berries are among the marvels Burbank's seeds are expected to sprout.

LOST—An old fashion bar pin, lost between Sarah St. and this office. Will finder kindly return to this office and receive reward.

Iron Mountain Girl is Near Bride in Ohio City

Akron, O., June 5.—Thomas H. Oliver, 21 years old, Plymouth, O., came so close to marrying Miss Minnie E. Thomas, Iron Mountain, Mich., that he procured a marriage license here last Friday, but the marriage did not occur. Today probate officials received a letter from Oliver. He returned the license and asked that his \$1 be refunded.

June 5, 1915. June 19, 1915

ORDER FOR PUBLICATION—
 Probate of Will
 State of Michigan, the Probate Court for the County of Delta.
 At a session of said Court, held at the Probate Office in the city of Escanaba, in said County, on the fifth day of June, A. D. 1915.
 Present: Hon. Judd Yelland, Judge of Probate.

In the Matter of the Estate of Alexander Monette, deceased.
 Elodie Monette, executrix named in the will, having filed in said court her petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate, and that the administration granted to that the administration of said estate be granted to herself or to some other suitable person.

It is Ordered, That the twenty-eighth day of June, A. D. 1915, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day on hearing, in The Escanaba Daily Mirror, a newspaper printed and circulated in said county.

JUDD YELLAND,
 A true copy. Judge of Probate.
 ELLA FROCHETTE,
 Register of Probate.
