Mrs. M. J. Rice of Manistique and Mrs. Peter LeMire of Negaunee arrived in the city last evening for a visit at the home of Mr. and Mrs. George LeMire of South Harrison avenue.
Carl Norval of Stephenson was in the city Sunday.

ESCANABA A PRODUCER OF GENERALS—KEELER

During his address before the graduates of the high school, last night, Supt. Fred W. Keeler of Lansing prefaced that address with the statement that Escanaba is a producer of generals. "Your city has produced a mighty fine auditor general," he said "and it has produced another general. 'Tommy' Hughtitt of the football team of Michigan University," he added. The great audience applauded the remarks vigorously. Mr. Keeler also touched upon the great war during the course of his addresses. He praised the thoroughness of the German people and stated that it was that very thing which was causing the Teutons to put up such a stiff fight. "However," he said, "I think the Kaiser is wrong in his attitude."

COALITION GOVERNMENT FAILS TO MAKE PEACE

Political Squabbles Continue in England Despite Changes in Government—Ulster in Power.

(By Associated Press.)
London, June 22.—The coalition cabinet has apparently not arranged any political truce between the party organs, which are quite antagonistic as before the joint government was formed. Neither party seems satisfied with the selections of the other side.
No sooner was the appointment of Dr. Christopher Addison announced, as Parliamentary Secretary of Munitions, to take the most recent instance, than the Globe, a conservative organ, asks whether a man who had been professor of anatomy and medical lecturer and writer so many years before entering parliament is capable of bringing business methods to bear on the organization of war supplies under Lloyd George.
"We had hoped when the new government came into existence," comments the Globe, "that the era of criticism had been brought to an end, and that we should all be able to work together for the common good with complete confidence in one another. But such an appointment as that of Dr. Addison to an office of vital importance is like a douche of cold water upon these aspirations."
Liberal papers, which had not yet recovered from the shock of the high preferment given Sir Edward Carson and the others engaged in arming northern Ireland for revolution during the home rule crisis, raised an outcry over the appointment of the militant Ulsterman, J. H. M. Campbell, M. P., to the lord chancellorship of Ireland, which was announced concurrently with Dr. Addison's. The Manchester Guardian declares a grave political situation has arisen in Ireland because of it.

'MAKE MINE A MALTED MILK'

One hundred and forty-one thousand, two hundred times a year this order is repeated by students of the University of Wisconsin to Madison dealers, says the Madison Daily Cardinal.
These figures are not the result of guesswork, but are based on carefully compiled reports submitted by dealers in the University district.
Some idea of the vastness of the consumption of Horlick's Malted Milk by the students of this one University alone may be gained when it is considered that the straws used in serving would, if placed end to end, form a line thirteen miles long, while the total amount of Malted Milk would fill a reservoir of thirteen thousand gallons.

The investigation also developed the fact that the students do not order Malted Milk merely as a delicacy or a thirst quencher, but because they had discovered that its highly nourishing and sustaining qualities enable them to make a satisfying lunch on a "glass of Horlick's."
The total amount annually expended by the students in this manner is \$14,120 and it is estimated that the saving through the resultant economy on restaurant checks represents at least an equal amount, or enough to pay all expenses for fifty students for one year at the University, or to buy two hundred students a high-class library of one hundred books each.

NIGHTS MAY BE SHORT BUT BIG ON BROADWAY

New York, June 22.—As yesterday was the longest day in the year it naturally follows that last night was the shortest night. That didn't keep it from being a big one, however, for many folks along Broadway. The usual crowds were out and were still out early this morning.
The summer results have lured away many who spent their winter nights tangoing and trotting, but wherever there is a nice slick floor bounded on three sides by tables and on the fourth by an orchestra and kitchen, there can always be found a prespiring crowd of lively dancers. Some of the dancers are more lively than others for another essential is that the slick floor be located convenient to a good supply of plain and fancy, but all expensive, drinks. Food is of minor importance.
The big nights are no bigger than they ever were. So last night being the shortest of the year there was no more of a tendency to crowd things into it than any other night. The crowds stayed out just so long and now and then went home with the milkman this morning.
NOTICE
The annual meeting of Lake View cemetery association will be held at the office of Judge Glasier on Monday evening, June 28, at 7:30 o'clock. Theo. Farrell, President. 175

CITY NEEDS MANUAL TRAINING SCHOOL

(Continued from Page One)
manual training school, as an initial venture, was, considering Escanaba as the subject in question. "A place where boys can be taught to do and make something with their hands" was his response. "What sort of a teacher would you advise as instructor? he was questioned further.
"I would say that an expert carpenter would be the man to put in charge," he returned. "Boys like nothing better than to push a plane or drive nails and use a saw," he added. Supt. Keeler was of the opinion that the lads would not mind the occasional slip of grammar or the wrong use of English if the instructor was a man who could show them how to do things, and could do them himself.

NELSON'S DINNER SET PRESENTED TO THE NAVY LEAGUE

London, June 22.—The dinner set of 23 pieces used by Horatio Nelson on the victory up to the battle of Trafalgar has been given to the navy league by an anonymous donor to be sold for the benefits of the Red Cross and St. John's Ambulance societies, conditional on the purchaser's presenting the pieces to the messes of warships distinguishing themselves in action. The awards to the ships will be made by a special committee at the close of the war.
Invented in 1589.

MUST REGISTER OR GET FINED

(By Associated Press.)
London, June 22.—Hereafter any Belgians who fail to register their addresses will be liable to punishment by \$500 fine or six months' imprisonment. Persons with whom Belgians are lodging are subject to the same penalties if they fail to see that the order is carried out. This rule will bring a large number of Belgians to account who have managed to escape the call of King Albert for military service.

TO ERECT MONUMENT IN HONOR OF DEAD

Paris, June 22.—The governing committee of the Republican Alliance proposes that a single design be adopted for a monument to the French dead of the European war, to be selected, reproduced and erected, in different sizes, in all the cemeteries of France. Artists and sculptors have risen up against this proposition, horrified at the monotony of a uniform design of monument in every town and village.
Maryland was an early slave-holding colony, for in 1642 Governor Calvert bargained with a certain shipmaster for the delivery of 13 African "slaves."

AMERICAN MEDICAL ASSOCIATION MEET IN SAN FRANCISCO

(By Associated Press.)
San Francisco, June 22.—The second meeting of the House of Delegates of the American Medical Association held yesterday at the Exposition Memorial Auditorium, under Dr. Victor V. Vaughan, the president of the association, in the chair.

The report of the Committee on Nomenclature and Classification of Diseases was presented by Dr. Cressy L. Wilbur Albany, N. Y., registrar of bureau of vital statistics of the department of health of the state of New York. The preparation of the fourth decennial revision of the English classification of diseases has been interrupted by the European war, so that the expected co-operation of the committee of the Royal College of Physicians of London has not been forthcoming. The second revision of the international list of causes of death to be issued in 1919 will soon be undertaken.
The report of the committee on scientific research was presented by Dr. Ludvig Hektoen of Chicago, who reported that a grant of \$200 had been made to Dr. Gerald B. Webb of Colorado Springs for work on immunity in tuberculosis; \$250 to Dr. A. L. Prince of Yale University, New Haven, for work on the methods of determining the efficiency of the heart; \$200 to Dr. E. R. LeCount of Chicago, for work on meningitis; \$400 to Dr. William E. MacNider, Chapel Hill, N. C., for work on the dangers of anesthetics in cases of kidney diseases, and \$350 to Dr. C. B. Bass of New Orleans, for work on bacteriology.

Dr. George M. Koeber of Washington, presented the report of the committee on Red Cross medical work, the object of which is to stimulate in every county medical society, the creation of a committee on Red Cross work and to provide a body of physicians qualified to direct medical work carried on by the Red Cross in times of war or emergencies. The report showed that during the last year 296 county societies have created committees on Red Cross work, so that on May 1, 1915, there were 510 committees composed of 3,250 representative men in forty-eight states available for assisting the American Red Cross in its work.

CELEBRATE ANNIVERSARY OF THE WAR OF LIBERATION

Cleveland, O., June 22.—Germans of this city participated today in a big celebration of the one hundredth anniversary of the war of liberation, fought in 1813 against Napoleon the Great. It was the centenary celebration of Richard Wagner the composer. A combined chorus of the German societies of the city sang German and American patriotic songs as a part of the program.

SOLDIERS ASK FOR WOMEN DEFENDERS

Paris, June 22.—Many of the soldiers confined at the Cherche-Midi prison awaiting court martial for infringement of regulations, ask to be defended by women lawyers. On the contrary, the women at Saint Lazare awaiting trial generally ask the head of the order of advocates for a man to defend them.

A Supple Corset
The purpose of the modern corset is to shape, support and not to bind
In Redfern Models this idea is faithfully carried out. The Redfern designers are advanced students of what every woman dearly craves in dress—all that is modish, graceful and comfortable. Your Redfern Corset when properly fitted allows all the freedom of the uncorsetted figure with the advantage of proper support and modish appearance.
We have a choice selection of the new models and would take pleasure in proving their superiority for you by careful personal fittings.

FRENCH PRESSED HARD EMBALMING SCHOOL OPENS JULY SIXTH

(Continued from page one)
only limited by its ammunition supplies.
Defeat on Entire Front
Berlin, June 22.—Announcement made today by the Overseas News Agency says that the Russians before Lemberg have been defeated along their entire line and that they are now fighting only to gain time to save their artillery and other war material.
Dunkirk Again Bombarded
Paris, June 22.—The French war office reports:
"The seaport of Dunkirk was again bombarded by pieces of long range artillery. Fourteen shells were thrown and some of the civilian population was killed."
DECIDES TO DIE A REDHEAD
Life Looked Black to Blond Youth Who Became Auburn Through Dyeing Process.
Memphis, Tenn.—After dyeing his hair red in hopes of concealing his identity, Winford Dickerson, clerk of North Fifth street, wandered to Overton Park, crawled under a clump of bushes near the zoo and swallowed so much poison physicians at the City hospital say he cannot live.
The man was found by park policeman Ferguson. He was unconscious. Three notes written and inclosed in envelope were in his coat pockets. In one he declared his intention to "get some poison and end it all."
Britain in January imported \$5,146,780 worth of raw fruits.

J. A. Allo, local undertaker plans to open his school for embalming and other branches July 6, to continue through the succeeding five weeks. It is intended to teach Scientific embalming, general and morbid anatomy, histology, pathology, bacteriology and sanitary science. Students who enter the course will do so to prepare for the Wisconsin state examination at Green Bay, August 5. The local school is a branch of the Eckle's college of Philadelphia.

Canada last year imported \$391,000 worth of articles for smokers.

FOR THE MOURNING BONNET

French Styles of the Season in the Bonnet but Attractive Head-gear of Grief.

Mourning, of course, holds a sadly large place among the spring modes. One of the newest mourning veils was arranged for the wife of a French officer who was killed in a gallant charge near Soissons. This veil was laid crosswise across a small round hat and securely pinned to the brim in front, with the ends falling forward over the shoulders like a scarf. Another is closely pinned to the calotte and confined by a narrow band of crepe. In the back the crepe veil flares in the way of a wedding veil.
Another mourning bonnet is shaped somewhat like a peaked cap, with the peak formed of white crepe and the black veil falling in long straight folds in the back. Another—a small calotte—has a nunlike band of sheer white crepe drawn closely across the forehead, and a strap of white crepe under the chin, while the long veil falls from the sides and back—Vogue.
The wares—Tributes and Sanctified
pand herald the triumph of the
the light that its the may
and how conveniently it has
the below. How he secures the
line on the nose of the water, its root
deep enough. Consider the life rest
the current of life! Our feet is not
How easily we lose peace, sleep by
Lessons From the Lily.

And There Are Others.
The only actress who is willing to admit that she does not know all about acting is she who has been at it all her life—Margaret Nyblow.
