FAREWELL DINNER IS GIVEN FOR COL. MOTT

Menominee Business Men Show Their Appreciation of His Work

The business men of Menominee on Tuesday night tendered to Col. C. W. Mott, former manager of the Upper Peninsula Development Bureau, a fare well dinner.

It was the object of the dinner to impress upon Mr. Mott the appreciation of the business men of Menominee of his worth and to thank him for his efforts in the upbuilding of Cloverland. The object was accomplished. A dozen or more of addresses, laudatory to the extreme, were made and in reply Col. Mott said:

"You ask me when I am going away" he said. "Well, it hurts me to even think of it. I have learned to love this country like none other. "My heart pains me at the thought of departing. I have broken the rule that no man makes friends after he is forty years old. I have. I have made many cherished friends here in Menominee and here in Cloverland. I carry away with me no ill-will. I have only the highest esteem for all and I am proud to leave with the feeling that I have made and kept so many friends. Good-bye."

Additional Snowfall Bring Total to 16 Inches in Three Days

An additional inch of snow fell during the day making the fall about 16 inches within the past three days. Although heavy snows are continuing to the north passenger schedules are getting down pretty close to normal again; although today's heavy winds are drifting the snow to a considerable extent.

DIAS HIDING IN CITY OF NEW ORLEANS

(By Associated Press) Washington, D. C. March 9.—Felix Diaz is reported to be hiding at New Orleans, La. Secret service agents, says he has not organized a revolutionary party with the aim of upsetting the Carranza government in Mexico.

Wheat of Upper Peninsula Yet In good Shape

Protected Throughout Month of February—Expect Excellent Showing

The farmers of the Upper Peninsula are apparently the only ones in the county who can agree as to whether or not the wheat suffered from any cause during the month of February. Throughout the state 240 correspondents answered the secretary of state's query by saying "Yes"; while 218 said "No." In the Upper Peninsula there was no such division of opinion. One answered "yes," while 25 uttered emphatic "Nos."

In the Upper Peninsula the wheat was protected by snow 29 days out of the month, or every day of the month. On the 28th of February the average depth of snow throughout the state was 3.92; that of the Upper Peninsula was 22.23.

The total number of bushels of wheat marketed by farmers in February at 65 flouring mills is 132,086, and at 82 elevators and to grain dealers 191,007, or a total of 323,093 bushels.

Of this amount 241,973 bushels were marketed in the southern four tiers of counties, 69,726 in the central counties and 11,394 in the northern counties and Upper Peninsula.

The estimated total number of bushels of wheat marketed in the seven months, August-February is 6,500,000.

CONDITION OF ICE

Report of Lake Marine Service Shows It To Be Heavier Than Usual

The summary of ice conditions along the great lakes just received from the Lake Marine service shows that on the date of issue the ice in the Escanaba harbor was 22 inches in thickness; while at Gladstone and in Upper Bay de Noc it was 28 inches in thickness.

In Lake Superior the ice is heavier than the average for the past 10 years in the harbor of Duluth the ice is 34.5 inches in thickness.

ABOUT THOSE VACANT BUILDINGS

THE Morning Press publishes a statement this morning from A. N. Merritt, manager of the Delta Hotel in which that gentleman is quoted with saying that he did not authorize The Mirror to say that the Delta Hotel would not be closed in case the county went dry. In fact Mr. Merritt agreed with the statement made by the Mirror that the hotel would run right along even if the small corner devoted to the sale of liquor was closed. There was no argument at all, even if the Morning Press did try to make it appear so.

It is going to be bad enough that those buildings entirely devoted to the sale of liquor be vacated in case the county goes dry without misrepresenting the facts and while we are on the subject we might add that the "wet" posters do not stop with the Hotel Delta, but show pictures of several buildings that they say will be "vacated" if the town goes dry.

The Ludington Hotel is shown as one of them. Now for a number of years the Ludington hotel had no bar and enjoyed a big business and made a lot of money. If the town goes dry that hotel will not be closed.

The Elks Temple is also shown. Will the lodge and the cafe go out of business if the town goes dry? Decidedly not. One store will be vacant.

The Salinsky building occupied by the Home Cafe and a saloon is shown as another building to be vacated. The upper stories are vacant now when the town is wet and the restaurant will continue to do business if the town goes dry.

The Jepson block is supposed to be another building to be "vacated" if the town goes dry. One side of the lower floor will be vacated by the saloon that now occupies it, but all the tenants in the other two upper stories and the furniture store on the other half of the lower floor will stay there and none will regret the removal of the saloon from the building.

Several other buildings are shown, but what is the use of keeping on trying to show up the inconsistent arguments that are being made by both sides in this campaign. The Mirror would like to see both parties stick to facts. The voters of the county are facing a serious situation and should base their votes on facts and not upon fiction.

It looks as though it would be mighty bad for the city to have any more vacant buildings, but it looks bad to compel a laboring man to remain quarantined in his home because one of the children has diphtheria, but he is quarantined for the benefit of the public at large.

For the past three months we have been trying to get the sentiment of the business men and in that length of time a number of them have changed their minds, one way or the other.

We are going to keep a close record of what the wisest business men in the city think about the question and will give it all to the readers of this paper in plenty of time for them to know how to vote. There is lots of time yet for everyone to decide what is best to do. It is a serious matter, far too serious to jump at a conclusion off hand.

It is a subject that you must decide without taking into consideration your friendships or dislikes. Look at it from the standpoint of what is best for everyone as a whole and not what is best for individual uals.

When the situation has been thoroughly canvassed by the Mirror and the final opinions gathered from the leading business men of the city and county, the result will be published in this paper and we will not take up all your time telling you a lot of things that you are not able to verify.

VILLAGE OF VAUX AND FORTIFICATIONS ARE STORMED BY GERMANS

ATTACK MADE AT NIGHT AND CLAIM TO HAVE MADE BIG ADVANCE

FRENCH SAY THEY WERE LATER REPULSED

Paris Official Statement Says No Chance Now That Verdun Will Fall

(By Associated Press)

Berlin, March 9.—The village and armored fort of Vaux have been captured by the Germans. The official announcement says that in addition to Vaux numerous adjoining fortified positions were captured. The attack on Vaux was made at night by the reserves.

Austro-Hungarian headquarters reports that on March 8 there were intermittent combats on the front of Archduke Ferdinand's army.

Paris.—The Germans have been repulsed between Houamont and the village of Vaux. They penetrated the village of Vaux but were driven back with heavy losses by intense artillery fire.

The official statement published by the war office has greatly relieved the tension caused by the expected great onslaught on the main French fortifications on the west bank of the Meuse. Public and press are now convinced that the Germans cannot hope to take Verdun.

HOME FROM MARQUETTE

Herman Leisner and K. E. Voght, deputy game and fish wardens returned yesterday from Marquette where they attended the annual meeting of the Northern Forest Protective association.

Mr. and Mrs. James M. Harper of Milwaukee, are spending several days in this city with friends.

NOTICE

If you are not a regular subscriber of this paper and get one occasionally or perhaps regularly, it is not being sent to you by either the "wet" or "dry" campaign officials. The publishers of The Mirror are paying the freight and we are sending you the paper so that you may be correctly informed upon matters of importance in connection with the local option campaign.

The Mirror is under no obligations to either side and we feel that it is our duty to give the voters of the county a fair and honest idea of the conditions maintaining in Delta county.

If there is any voter in this county who does not know just where he is at and will write The Mirror an effort will be made to answer any questions in an honest and unbiased manner.

CHANGE IN MICHIGAN STATE TELEPHONE CO.

A. Von Schlegel Elected Vice President of Hupp Motor Car Co

Arthur Von Schlegel, General Manager of the Michigan State Telephone Company, has been elected vice-president of the Hupp Motor Car Company, of Detroit, and will immediately assume the duties of assistant to J. Walter Drake, president of the Hupp Company, in the management of the affairs of that concern. Mr. Von Schlegel continues his connection with the Telephone Company in the capacity of vice-president.

G. M. Welch, who became Commercial Superintendent of the Telephone Company in 1912 when Mr. von Schlegel was advanced from that position to the general management, succeeds Mr. Von Schlegel as active head of the company. The change became effective March 5th.

BRING ICE CRUSHER HERE IN AN EFFORT TO OPEN UP NAVIGATION

IF EFFORTS ARE SUCCESSFUL, BOATS WILL BE IN TO LOAD ABOUT APRIL 1

START WILL BE MADE ABOUT MARCH 20

Dock Officials Not Too Sanguine of Success But Will Make Every Effort

Although ice conditions in the roadway of the Escanaba harbor are about the same as in years past, perhaps a little worse than usual, an effort will be made to start navigation earlier this year than ever before and an ice crusher will be called into service.

About March 20 an ice crusher will be brought to open water, about two and one half miles off Peninsula point and the big crusher will make an effort to break the ice through to the ore docks here. The ice at the present time is 22 inches in thickness and the crusher will have no easy task.

The condition of the steel market is such that warrants a strong effort to start the shipment of ore earlier than it has ever before been started. If the crusher is successful in opening up the roadway and keeping it open it is probable that the first boats will be in to load about April 1, which is considerably earlier than shipments have ever been made out of this port.

The crusher in question will probably be brought up from Toledo, Ohio. The dock officials here are not absolutely confident that the roadway can be opened and kept in a navigable condition but they believe that the booming condition of the steel market warrants every effort on their part.

16 AMERICANS MEET DEATH WHEN REBEL HORDE SWEEPS OVER THE U. S. BORDER LINE

Bandit Chieftain Leads His Forces in Raid of Pillage and Murder—U. S. Cavalry Brought into Action and for Two Hours Fierce Battle Raged—Bandits Driven Back Into Mexico With Cavalry in Pursuit—Washington Hears of Raid With Gravest Concern and New Agitation is Started in Congress—Secretary of War Baker Takes Hold.

(By Associated Press)

Columbus, New Mexico, March 9.—A band of bandits numbering from 800 to 1,000 under the personal command of Francisco Villa, crossed the American border early today and attacked the city. Every American who exposed himself was killed and many buildings were fired. For nearly two hours fighting continued in the streets. Colonel H. J. Slocum speedily brought the 13th Cavalry into action and after two hours' fighting drove the bandits back over the Mexican border line. Fourteen are dead, many wounded.

Eight civilians and six members of the 13th Cavalry are known to have been killed.

The dead soldiers:
Frank Kendvall, horseshoer, Troop A.
Serg't M. A. Dobbs, Machine Gun troop.
Corporal Paul Simmons.
Serg't John Nievergelt, musician.
Corporal Harry Wiswall, troop G.
The wounded:
James P. Taylor, troop K.
Fred A. Griffin, troop K.
Theodore Kizurke, troop L.
Michael Barnazel, machine gun troop.
John Yarborough, troop E.
James Vanner, troop M.
John Keogh, troop G.
Lieut. C. C. Benson, troop G.
Rancher Says Villa Led Party.

Information that Villa and his aide Lopez were in personal command of the raid was given Colonel Slocum by a rancher who was captured by the bandits and who escaped during the fighting. He told of the hanging of ranchers McKinney, Corbett and O'Neil and said a fourth rancher had been hanged at the same time. Villa attacked with from 800 to 1,000 men and a machine gun platoon.

Personal papers of Villa, contained in a portmanteau, were found by U. S. troopers after the fighting was over.

Cavalry in Pursuit.
Washington, March 9.—Unofficial reports reached the state department saying that the 13th cavalry had pursued the raiding bandits across the Mexican border and were still in pursuit.

The first reports of the Mexican raid were received at the White House while President Wilson was holding his first conference with his newly made Secretary of War, Mr. Baker.

Situation a Critical One.
The raid puts a serious aspect upon the Mexican situation. While the policy of the administration has been to allow Carranza to take care of the situation along the border line, it is now a grave question as to whether or not the raid is not sufficient for using American troops to chase down Villa and his bandit gang.

The raid has started a new agitation in Congress by the members who have long opposed the administration's Mexican policy. They declare that the Carranza government is not and never has been able to deal with the situation and that they predicted such an outrage at the time of the massacre of the 16 American ranchmen several months ago. The massacre at Columbus may be the cause of another outbreak in the Senate.

Grave Concern in White House
The news was received at the White House with grave concern. Officials familiar with the President's policy were silent.

Mr. Wilson and his new secretary of war discussed the situation at length and it was decided that Mr. Baker should assume his portfolio at once. He later submitted to the president detailed reports of the attack upon Columbus together with the information that he was taking steps looking toward the immediate punishment of the bandits.

It would be possible, some leading diplomats maintain, to send American troops over the border line to clean out the bandits by making the declaration that this government had no intention of occupation of territory and that it sought to give to American border residents the protection that the Carranza government is evidently not able to afford them.

Motion carried. Moved by Supervisor Atkins, supported by Supervisor Mason, that the invitation of the Michigan State Tax Association be placed on file.

Motion carried.

To the Honorable Chairman and Board of Supervisors of Delta County.

Your committee appointed by the chair together with the Prosecuting Attorney to investigate the claim of Bark River Township for a refund of the county road tax, respectfully begs leave to report

That all of the committee together with the Prosecuting Attorney, went to Bark River and interviewed the Supervisor and Clerk, and said Supervisor having been Township Clerk during the period of the issuing of said bonds, gave us the necessary figures and date from the books.

We found that the total amount of the bonds issued by the Township was Twelve Thousand (\$12,000.00) Three Hundred dollars. We also found that the Township had received from the State as reward money, Six Thousand, One Hundred and Six (\$6,106.00) dollars; that the County of Delta has refunded Three Thousand, Eight Hundred Forty-three and Seventy-three one-hundredths (\$3,843.73) dollars of the road tax of Bark River Township, and that adding the total amount refunded by the County to the amount received by Bark River Township from the State, was Nine Thousand, nine hundred and forty-nine and thirteen cents (\$9,949.13), leaving a balance of Two Thousand, three hundred and fifty dollars and twenty-seven cents (\$2,350.27) of bonds that should be outstanding and unpaid by Bark River Township.

We also found that when the money paid in by the State as reward money, that instead of said money being applied on the principal of said bonds, it was turned in to the general road fund, and several thousand dollars were used as we are informed by the officers of said Township, for building bridges and repairing roads, and that is the reason the Township Clerk in his report to the County Clerk stated there was now outstanding bonds unpaid of said issue amounting to Six Thousand three hundred dollars. (\$6,300.00).

Respectfully submitted, JOHN LARSON, Chairman, J. A. COOK, B. J. MacKILLICAN, H. J. RUSHTON.

Moved by Supervisor Mason, supported by Supervisor Bergman, that the special committee appointed to investigate the claim of Bark River Township be requested to submit recommendations advising the Board what action to take in the matter.

Motion carried. Supervisor Atkins read the report of the receipts and disbursements of the County Fair Ground Committee since the appointment of the committee to the present day.

Moved by Supervisor Mason, supported by Supervisor Peterson, that the report be accepted and filed and that said report be published as soon as the committee has completed its work.

Motion carried. Resolved by the Board of Supervisors of the County of Delta, that any person who shall render medical, hospital or professional services to any person for which they hold this county liable, shall forthwith notify the Secretary of the Superintendents of the Poor, that the responsibility of the same may be at once determined.

Resolved, Furthermore that notice of this resolution be given by publication and that the County will not hold itself liable to pay for such services otherwise rendered.

Moved by Supervisor Firkus, supported by Supervisor Fillion, that the resolution be adopted.

Motion carried by the following vote: All members present voting in the affirmative. Moved by Supervisor Larson, supported by Supervisor Fillion, that the matter of purchasing an adding machine for the office of the County Clerk be referred to the Finance Committee and they report at tomorrow morning's session.

Moved by Supervisor Smith, supported by Supervisor Young, that the meeting adjourn until tomorrow morning at ten o'clock.

Motion carried. ALBERT J. PEPIN, Clerk, R. E. MacLEAN, Chairman.

NO PLACE FOR PAIN

There is no place for rheumatic pains and misery, if you will only follow the advice of an old, experienced physician. Dr. Levi Minard prescribed and used Minard's liniment for soreness, stiffness, swelling and all rheumatic pains. There is no other remedy that can take its place. It has never failed and is perfectly harmless, economical, agreeable and clean to use, as it is absolutely stainless. Minard's liniment, obtained from any druggist, is wonderfully soothing, penetrating and effective in all cases of strains, lumbago, sore joints, stiffness, sciatica and rheumatism.

Edited By MISS IRENE G. MCGUIRE

WITH THE WOMEN OF TODAY... HATS AND COATS

It seemed a bit incongruous and out of the ordinary to step into any of the department stores today and see the straw hats and the spring suits and styles in women's clothes. It seemed as tho' one were being taken suddenly to another land and into another clime.

Everywhere in the woman's sections of the stores are being displayed the new hats and suits and gowns for summer wear. It seems that hats themselves are the most spring-like, for from the advanced styles it looks as tho' were to be a "flowery spring."

Flowers of all sizes and colors, piled high on the hats and draped around the crown, at the sides or in the back, are to be seen.

Hats are also of various sizes, large and small, tilted and straight brims, up in back and down in front, in fact almost any conceivable shape is considered good this year.

For the tailored girl, there are the smart sailors and they are being shown in severely tailor made styles, almost untrimmed. For the "clinging vine" there are dainty little pokes and some artistic dress hats with drooping brims and allover very much beribboned and laced trimmed.

Gray and rose are the most popular colors and "Galt Green" holds its place well along toward the front of "Popularity Row." The "Wilson Hat," with its rolled side and its shepherd's style are going to hold a place of their own. The standard colors, navy blue and black, are also being shown to good advantage.

And the suit department too! My dear, you'd ought to see the sport coats! Large checks and stripes and the gorgeous colors are very much in evidence. Someone has said that no woman's wardrobe was complete without a sport coat and this year it is being emphasized.

JAIL INMATES GO HUNTING

Pike County Prisoners Are Permitted to Enjoy Sport in Nearby Fields.

Petersburg, Ind.—Hunting has become a pleasant diversion for some of the inmates of the Pike county jail. Time hangs heavily on their hands, and twice during a recent week prisoners were permitted the freedom of the nearby fields, and the privilege was given to kill, maim or capture wild game. Thus far the boarders have returned and have not violated their parole. "The business of going to jail is not so bad," said a business man, "when one can enjoy himself like a sport at the expense of the county taxpayers."

CREAMERY COMPANY

CAPITALIZED AT \$3,500

work of repairing Cheese Factory property is to begin at Once

At a recent joint meeting between the stock holders of the cheese factory association and a number of local business men who will organize another stock company, plans were completed for the taking over of the cheese factory property by the new organization who will convert it into a creamery when they hope to have in operation by the last of July.

The terms of the contract between the two companies are such that the new company will take possession of the property at once on a conditional term lease with the option of buying over a certain period.

According to the present plans the new company will capitalize at \$3,500 the entire amount of stock being taken up by John Darrow, J. Buchanan, Andrew Baroo, James McNeilson, Geo. Bergman, Mr. Stenlund and Albert Peterson. The organization will be perfected as soon as the articles of incorporation have been accepted and immediately thereafter a meeting will be held and officers elected. As soon as this is done the work of repairing will be started and the machinery assembled, within a few days it is expected that they will start the building of an ice house, putting up the summer supply of ice and draining a well.

The plan for the operation of the creamery will be similar to that employed in other settled countries. Cream will be bought on the basis of the quantity of butter fat as determined by the Babcock test and it is presumed that Egin market prices will prevail.

The members of the company are not going into this matter with the sole object in view of any fancy dividends on the start as it is admitted that under present conditions little more can be looked for than running expenses. One of the principal objects of the association is the creating of an industry that will develop this and the tributary country. There is a large territory surrounding that has developed to a point where further development is seriously handicapped until there is some such incentive and inducement for the farmers to go into raising more and better stock. The advantages of a creamery to a country situated as this is, is too apparent for further discussion and a little patience on the part of all concerned during the early and unproductive period of the new industry, will without question beget results gratifying to all.

COMMITTED TO POOR HOUSE WEDNESDAY

Following a period of illness of considerable duration and probably aggravated to some extent from drinking and not taking proper care of himself, Ole Benson, an aged fisherman and for many years a bachelor living alone on Garth point, was Wednesday of this week taken to the poor house where it would be possible for him to receive better care.

For years Ole has been known as an honest old character whose worst enemy was himself and his fondness for drink. He has been growing more and more feeble for the past few months and his condition began to affect his mind to a point where it was feared that he would injure himself and the authorities felt that it was their duty to have him taken care of. He has a well to do brother in Sweden who for some years back has sent him sums of money at regular intervals.

FINE CONTEST STAGED ON DELFT CLUB ALLEYS

E. & L. S. Doctors and I. S. Company Teams Are Winners

There were some excellent bowling contests staged on the Delft club alleys last evening. The E. & L. S. team staged a comeback and won from the Bankers by a margin of 103 pins. The Business Men suffered defeat at the hands of the I. S. company five; while the physicians won from the lawyers with 107 pins to spare.

"Goodies! — goodies that just melt in your mouth — light, fluffy, tender cakes, biscuits and doughnuts that just keep you hanging 'round the pantry—all made with Calumet—the safest, purest, most economical baking powder. Try it—drive away bake-day failures."

A SPRING HARMONY.

King's blue georgette crape is stretched over a high model with almost no brim, an early spring fashion with no sharp differentiation from late winter styles. A heavy satin ribbon is banded about the tall crown, which is gracefully covered with a mass of pink moss roses. This hat in tan crape with yellow roses atop would give a beautiful bright color note to go with your new tan suit. Again, the simplicity and the good silhouette are what give the model distinction.

THE GORED SKIRT.

Every variation of the gored skirt is in vogue. One seen a short while ago was in four pieces, but the front and back were finished and lapped on to the sides to give the effect of panels or box plaits. The finish of the skirt could be made at either the raised waist line or at the natural waist line. In the model seen broadcloth was trimmed with braid, but the model was a good one for all seasonable materials and all seasonable trimmings.

AS TO BLOUSES.

Some of the newest lingerie ones designed for spring wearing are of sheer, fine voiles or soft batistes in snowy white. Most all have tucks, sometimes combined with beaming, sometimes with the frilly ruffles that are so feminine and pretty. These are not too expensive, have long sleeves and usually low collars. But for those who want them some have collars to be worn high or low.

Just Because You Have a Slender Figure

You should not neglect your corset. On it depends the success of your dress. You must not think that your gowns will look their best over any old corset.

It takes a particularly well designed model to give graceful lines to the slender figure, and among the Warner's Rust-Proof styles we have some that are just designed for this purpose.

Warner's Rust-Proof

Style E-118 is one of these with medium high bust, medium length skirt, four hose supporters, and is trimmed with lace and ribbon. Pair \$3.00

If you are slender, we can corset you correctly in a Warner's. If your figure is average or full, we can also fit you with the proper style—each one distinctive and individual for the figure intended.

stood before the big battery of milling machines in the Grape-Nuts factories at Battle Creek, Mich., and after inspecting both the wheat and flour said to the miller:

"That's selected wheat, and no 'patent flour' stunt, either. That wheat comes out of the rolls as honest and unrefined as it went in. Where did you ever make flour before that retained the true mineral content of the grain?"

And the wise miller replied: "I have worked in a good many mills, and I am no youngster, but let me tell you, I never made whole wheat flour like that until I came with this company."

The truth is, white flour is woefully lacking in certain essential mineral elements which are thrown out in the milling to make flour white and pretty, and its use frequently results in impaired health and activity.

The famous pure food,

Grape-Nuts

is made of honest whole wheat and malted barley; and supplies in splendid proportion all the brain-and nerve-making, bone, and muscle-building elements of the field grains, including their mineral elements.

Rich, nut-like flavour, ease of serving, and quick digestibility have made Grape-Nuts a household word the county over.

The lecture will be given Monday night at 8 o'clock in the Methodist church, and it is expected a large number of people will hear him.

UPPER PENINSULA TO GET BOOST IN CHICAGO

To Have Big Show at Bureau of Industrial and Natural Resources

A campaign to exploit the agricultural and industrial opportunities of the Upper Peninsula, which will undoubtedly prove the widest and most thorough, that has so far been undertaken, has been instituted by the Duluth South Shore & Atlantic Railroad, with the co-operation of several commercial organizations and a number of farmers of upper Michigan, through the medium of the Bureau of Industrial and Natural Resources, conducted by the Chicago Record Herald. The Marquette Commercial club has also taken a part membership in the bureau, and Secretary Mangum is collecting samples of potatoes, which will be a part of the initial exhibit in the bureau.

The bureau is located in the Ashland Building, corner of Randall and Clark streets, in Chicago, and will be conducted for 20 months. The formal opening will take place within the next two weeks, but the exact date has not been decided. Each subscriber to the bureau has a private booth, which will be open to visitors every day. Each subscriber may plan his exhibit in any way he wishes, to best advertise his particular territory.

Joseph A. Jeffery, land commissioner of the South Shore, is managing the exhibit for the road as well as for the other upper Michigan organizations taking part. The exhibit will consist largely of the best varieties of all the products of Cloverland, as well as pictures and scenes of every day life.

The dairy industry will be given wide prominence. Pictures of famous cows, with their records and pedigrees will be displayed. Among these will be a large painting of Eminent's Bess, the cow owned by Walter S. Prickett of Roycroft farm, that held the world's record in the production of milk and butter fat. The pictures of some of the splendid cows at Emburygaard, and the Newberry state hospital farm, will also be exhibited.

A lecture room has been set apart in the bureau, in which illustrated talks will be given daily. The South Shore will show scenes along its line barnyard and live stock scenes, and views of wild and cultivated lands of the Upper Peninsula. The towns which have taken part membership expect to show views of their buildings and industries. These pictures will not only be shown in Chicago, but also in about 1,000 towns throughout the United States, the management of the Bureau having made arrangements with that many boards of education to conduct entertainments at which the views shown will be called travelogues.

GREAT LAKES TONNAGE WILL BREAK RECORDS

Cleveland, Ohio, March 9.—The demand for men on the great lakes is tremendous, according to a statement issued here today by lake shipping interests. More tonnage has been lined up than ever before and it is now estimated that 55,000,000 tons of ore will be moved, the statement says. Added to this will be 30,000,000 tons of coal and about 14,000,000 tons of grain.

This volume of freight is so large that owners of vessels, it is announced, are contemplating breaking a channel through the ice, so as to reach the port of Escanaba on Lake Michigan, March 20, to put their ships in commission.

The wage schedule on the lakes, the statement asserts, is practically double what it is on the Atlantic seaboard.

CITY CANDIDATES OF G. O. P. IN SESSION

Officers Are Elected and C. C. Stephenson is Named President

A meeting of the candidates of the Republican party of the city was held last night at the city hall. Officers were elected.

C. C. Stephenson was chosen chairman, O. V. Linden secretary and P. N. Peterson treasurer. A Chairman for each ward was elected: First, George Shlpman; second, F. J. Defnet; third, R. Schwartz; fourth, William Firkus; fifth, E. J. Kirkpatrick; sixth, C. N. Wood; seventh, Alfred Halvorsen.

A resolution was also adopted that the official vignette of the National Republican party be affixed to all ballots in the city used by the Republican party.

ROOSEVELT WILL NOT TAKE PART IN PRIMARY

Says Country Would Make a Mistake in Choosing Him

(By Associated Press)

New York, March 9.—Colonel Roosevelt in a statement given out today through the mail declines to a candidate in the Massachusetts or any other primary for the presidential nomination.

"I will not enter into any fight for the Presidential nomination," he said, "and I will not permit any factional fight to be made in my behalf. I will go further and say that it would be a mistake to nominate me unless the country has in its mood something of the heroic; unless it feels like devoting itself to ideals and purposes measurably to realize those ideals in America."

Youngsters of City Entering Into Bird House Contest With Vim

Interest is being shown daily in the bird house building contest recently inaugurated by the Woman's club. The contests was designed primarily to enlist the activity of the young people of Escanaba in the conservation and protection of bird life in this region.

Many of the citizens of the city have expressed a willingness to encourage the children in this undertaking and the exhibition of the finished houses will give an opportunity to the youngsters to display their work to prospective buyers.

It is probable that an exhibition of the houses will be made early in April at the Public Library and later the houses will be displayed down town.

SMITH EXPECTS THE STATE ENDORSEMENT

Certain 30 Delegates Will Cast Ballots for Him at Chicago.

(By Associated Press)

Washington, March 9.—It is as plain as day to Republican members of the Michigan delegation in congress that the national Republican politics to be played at home during the next few weeks will center around the "Michigan second choice for presidential nomination."

All efforts to frighten Senator William Alden Smith out of the presidential primary have failed. Theodore Roosevelt was talked of; Senator Smith showed unmistakable signs of welcoming the contest; the colonel decided he'd better not risk it. Osborn was talked of; again Senator Smith showed plainly that he would very willingly put it up to the Republicans of Michigan whether they preferred him or Osborn—and he would welcome having the decision made now rather than later; but the former governor like the colonel, decided on other tactics.

The senator is now certain of Mich-

igan's Republican indorsement at the presidential preference primary in April. This means that the 30 delegates from Michigan will cast their votes for the nomination of the Michigan senator when the balloting begins at the Chicago convention.

Where Will 30 Votes Go.

Up to that point there has ceased to be any controversy; but what are the Michigan delegates going to do in case no landslide starts for the Michigan candidate? For whom will the 30 Wolverine delegates vote in case Senator Smith finds after two, four, six or eight ballots that he is gaining no strength from other states?

Insofar as Senator Smith is concerned and those who are interested in having him accorded the "favorite son" honor there are no efforts made to secure a hand-picked delegation for trading purposes.

Senator Smith has been accused of wanting to use the Michigan delegation for "trading purposes." The truth is the reverse; those who are accusing Senator Smith are the real ones who seek to use the delegation for trading purposes; and they seek to conceal their own political plottings by accusing the senator of doing the very thing which they themselves are doing.

Will Vote For Smith

In accordance with the already indicated result, Senator Smith will be voted for by the Michigan delegates—and if the job now being engineer-
