FRENCH TAKE WOODS NEAR AVO COURT—GERMANS STORM THE VILLAGE OF HAU COURT

STEAMER TORPEDOED; 48 DROWNED

British Steamer Goes Down With Heavy Losses—Other Naval Activities

(By Associated Press)

Paris, April 6.—The war office this afternoon announced the capture by the French of a large portion of the position north of Avocourt known as Bois Carre, or "Square Wood."

Deflin, April 6.—German troops have stormed the village of Haucourt on the Avocourt front, northwest of Verdun, the war office announced today.

German U-Boat Sunk

Paris, April 6.—A German submarine was sunk today by a squadron of French and British warships, the ministry of marine announced tonight. The crew of the submarine was captured.

48 Are Drowned

Queenstown, April 6.—The British steamer Zent, 3900 tons, was torpedoed without warning and sunk west of Fastnet. Forty eight members of the crew are missing and it is supposed they were drowned. Two were killed by the explosion. Captain Martin and nine of the crew were landed here.

4 Norwegians Killed

Washington, April 6.—The American consul at Havre reported today that in the sinking of the Norwegian steamship Baus, presumably by a submarine, four persons perished, but that there were no Americans aboard.

Zeppelin Is Repelled

London, April 6.—The increasing effectiveness of the English anti-aircraft defenses was demonstrated last night when a single Zeppelin which attempted the fifth raid in six days was prevented from penetrating the northeast coast and was forced to flee after the briefest visit of this kind which has yet been made.

Air Raid Casualties

London, April 6.—One person was killed and eight injured in last night's Zeppelin raid, it was officially announced here today.

The Berlin Statement

Berlin, wireless to Salville, April 6.—The German admiralty announced today that German airships last night silenced a battery near Hull, England with bombs, and destroyed a large iron works near Whitby. The airships returned safely.

MISSISSIPPI ON TEAR

(By Associated Press)

La Crosse, April 6.—The Mississippi river at 10.00 o'clock today stood 24 feet above low water mark, the highest stage it has reached since June 12, 1905. It is now three miles wide from bank to bank, and only the tops of the trees on the islands appear above the water.

The spectacle of the great volume of water rushing at a pace so swift that rowboats cannot be used draws thousands of people to the high places on the banks.

CANVASS VOTE TONIGHT

The city council will meet tonight to canvass the vote at the municipal election on Monday.

Uncle Sam Invents Cottage For Season's June Brides

(By United Press)

Washington, April 6.—Uncle Sam and Dan Cupid today signed articles of incorporation as The Love in a Cottage and First Aid to Cupid Company, unlimited. Through their chief architect at the department of agriculture, Sam and Cupid today announced the invention of "a perfect love of a vine-clad cottage economically and scientifically made."

Any sweet June bride may receive a complete story of the "Dove Cote" plans by writing to Sam and Cupid, care of department of agriculture, Washington, D. C.

15,217 Live in Dry Territory

TWENTY EIGHT SALOONS WERE PUT OUT OF BUSINESS IN ELECTIONS HELD MONDAY

Through the wet and dry voting of Monday in which seven counties went wet and six went dry, none of the dry turned back into the damp column while two—Baraga and Clare—swung from the wets to the dries. This means that 15,217 persons will be cut off from the legitimate liquor supply and that 28 saloons have been put out of business.

Clare county—the "oasis" of a group of counties bordering on it—loses its four saloons and its population of 9,240 will be dry. In Baraga county 24 bar rooms will be closed and 6,127 persons affected.

Figures are Given

As near as can be estimated at this time the majorities of the counties are as follows:

County	Wet	Dry
Baraga, W.	74	319
Clare, W.	1,073	2,415
Delta, W.	89	840
Ingham, D.	80	1,409
Isosco, W.	217	112
Jackson, W.	95	55
Lake, W.	564	3,568
Manistee, W.	3,576	1,073
Mecosta, D.	112	95
Ogemaw, W.	55	564
Roscommon, D.	564	3,576
Schoolcraft, W.	3,576	1,073
Wexford, D.	1,073	2,415

Total majorities 3,568, 3,576. Letters after counties indicate status before Monday's election.

In the nine dry counties which voted on Monday there were 157,869 persons implicated and out of these 142,562 will continue to live in wet territory. And out of the 239 saloons in these counties but 28 are put out of business while 211 will continue. These are divided as follows: Delta 95; Isosco, 7; Jackson, 37; Lake, 2; Manistee 41; Ogemaw, 4, and Schoolcraft, 25.

Many Did Not Vote

There were thirty wet counties which did not vote but out of these there were attempts at elections by the dries in six. They failed through technical errors. The total wet population which did not vote was 1,504,185 while the population of those which did and which did not was 1,662,055. Out of that number 1,646,588 will continue to be wet. This is 498,366 more persons than live in dry territory.

Charged with Forgery

Edward LeMeire was arrested today, charged with forgery of a \$45 check. He was arrested upon complaint of William Kunz who cashed the alleged worthless check. LeMeire is charged with using the name of E. M. Beemer on the check.

WOMAN KILLED BY FLASK IN STOCKING

(By Associated Press)

Chicago, April 6.—Mrs. Anna Godfrey, aged 49, had no pockets, and consequently she carried a flask in her right stocking. While walking along a West Side street today she fell and the flask was broken, cutting an artery in her leg. She bled to death before help was secured.

ESCANABA IS OUT FOR BUREAU HEADQUARTERS

Men From This City Will Make Bid For Management and Offices of Organization

Among the Escanaba men who will attend the meeting of the Upper Peninsula Development Bureau at Ishpeming on April 19 will be G. T. Werline, P. D. Davis and H. W. Reade, treasurer of the bureau. It is probable that a number of others will attend also.

The meeting to be held there is probably one of the most important meetings of the bureau held for some time. A future course of action for the bureau will be discussed and a new manager will be named to succeed Col. C. W. Mott who will retire from active business.

Among the strongest candidates mentioned for the position are P. D. Davis of this city and John Race of Menominee. It is possible that the bureau headquarters will be changed from Menominee to some other city in the peninsula and Escanaba and Marquette will make the strongest bids for the offices. It has been pointed out that Escanaba is the logical point for the headquarters owing to its central location and railroad facilities making it easily acceptable to every point in the peninsula.

DOCTORS TO GREET U. OF M. PROFESSOR

Committee is Appointed to Entertain Dr. V. C. Caughn, Who Speaks Here

A committee composed of Dr. A. J. Carlson, Dr. J. J. Walsh and Dr. B. Baker have been named by the Medical Association of the city to make arrangements for the entertainment of Dr. V. C. Caughn of the University of Michigan who will be in the city next Thursday. The members of this committee are graduates of the Medical College of the university.

Dr. Vaughn who is dean of the medical college is one of the most forceful speakers on the university extension course program. He will deliver a lecture in the high school auditorium Thursday, April 13.

This is the second and last number of the course. Prof. Audrey Tealdi appeared here some time ago.

IRON MOUNTAIN WILL HAVE BASE BALL TEAM

Iron Mountain, April 5.—At a meeting held last evening by members of last year's baseball team it was decided to organize a team for the coming season. There will be some changes in the make-up of the team over that of last season. Nello Todeschi, who pitched for the local team a few years ago and who went from here to Minnesota where he twirled for the various aggregations, is now in the city, and it is said he will remain here and play with the City team.

As soon as the weather permits practice will be held.

KNIGHTS TEMPLAR TO HOLD MEET TONIGHT

The annual election of officers of the Knights Templar will be held tonight at the Masonic hall. A supper will be served at 6:30 o'clock and the business meeting will follow. The election of officers will take place at the close of the business meeting. Dr. G. A. Cotton is the present commander of the Templars.

TODAY'S ODDEST STORY

St. Paul, Minn., April 6.—A kodak album made of wasps' nests has been presented to Judge E. W. Bazille, of the probate court by Sister Serena, botanist, Academy of Our Lady, Longwood, Chicago. The judge's daughter-in-law is a graduate of the academy.

MILK STRIKE GROWS SERIOUS IN CHICAGO

(By Associated Press)

Chicago, April 6.—Reports from various parts of the city at noon stated that only one third the usual supply of milk was distributed.

Chicago, April 6.—With a continued shortage of milk in prospect unless the striking dairy farmers in the Chicago district settle soon, the milk war today assumed a more serious aspect.

Most distributors made full deliveries to private homes today but advised their customers to purchase a supply of condensed milk, as they feared the supply of fresh milk would be exhausted in a day or two if the strike was not settled.

Six hundred farmers went to Elgin today and prevented delivery of milk from that place.

LONG FIGHT AGAINST FOOT, MOUTH DISEASE IS OVER IN COUNTRY

SECRETARY OF AGRICULTURE ISSUES ORDER TO REMOVE ALL QUARANTINES ON CATTLE

CATTLE EMBARGOES TO BE RAISED

(By United Press)

Washington, D. C., April 6.—The long fight against the foot and mouth disease is over. The secretary of agriculture has issued an order which on March 31, removes all foot and mouth quarantines, restrictions against the shipment and movement of live stock. The order signed specifically removes the quarantine from a small territory in Christian county, Illinois, the last area which was under suspicion. Along with the removal of this local quarantine, the various Federal orders restricting shipment of cattle are rescinded, so that dealers can now ship their cattle as before the first quarantine was imposed.

Upon notification that the United States is free from the disease, all foreign governments which have placed embargoes on American cattle are expected to remove these embargoes, so that cattle raisers will then be able to resume shipments to those foreign countries.

The magnitude of the work of eradication and control carried on by farmers, shippers, and the state and federal governments is shown by the fact that before controlled, the disease had gained a temporary footing in 22 states and District of Columbia. The disease appeared and was controlled in 269 different counties.

The importance to the stock raising industry of eradicating foot and mouth disease may be judged from the results of this plague in Denmark, where the disease appeared at about the same time that it broke out in the United States. The area of Denmark is approximately equal to that of the three New England states, Massachusetts, Connecticut, Rhode Island. It is, however, a great dairy country, and it has been estimated that the losses in milk in one year caused by the foot and mouth disease

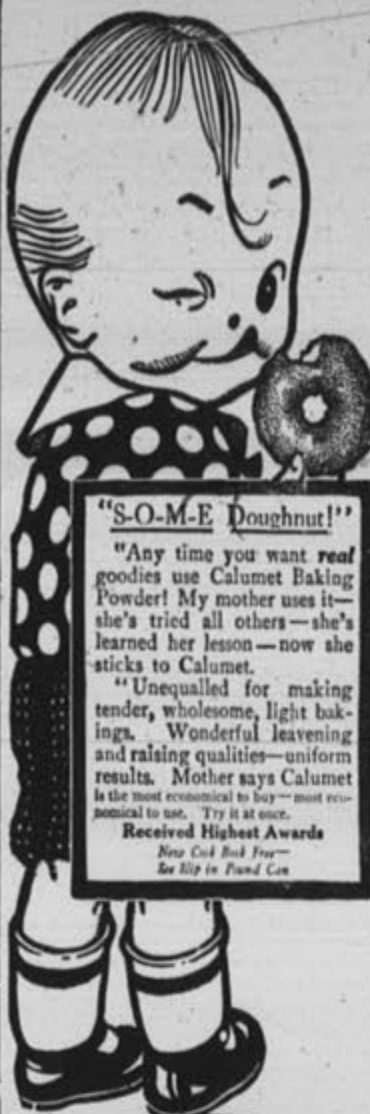

have amounted to approximately one-third of the total cost of eradicating the pestilence in 22 states in this country. The Danish authorities were unable to carry out their former policy of slaughter, and were compelled to resort to such measures of control as could be established by quarantines and other restrictions.

As a result of better understanding between the state and national governments, representatives of the department believe that many of the obstacles which confronted the authorities in the past outbreak would not be encountered in dealing with any future occurrence of the disease. The veterinarians, however, will not abate their watchfulness for some time. Examination of animals and animal products intended for import will continue to be unusually strict. The department, moreover, particularly urges all farmers and cattle handlers to notify their state veterinarians and the department of any suspicious cases of the mouth combined with lameness in their animals. Those in charge of the eradication work are confident that the disease is wiped out, but they wish to use every precaution to detect and control any sporadic cases that may develop in remote districts.

TWIN CITY TRACTION CO. HAS PATRIOTISM

Marinette, April 6.—The Menominee and Marinette Light & Traction Company recently issued a notice to its employees informing them that the company would "allow the difference between the amount paid per day by the state and the regular wages of such employes during their term of service." In either the Wisconsin National Guard or the Wisconsin Naval Brigade. This notice was in answer to an appeal recently made by Capt. Brearly of the W. N. G. of this city to the employes of Marinette to aid in recruiting.

In recognition of the patriotism of the local Traction Company, the Adjutant General of Wisconsin, has just issued to all commands in the W. N. G. a circular, containing a copy of the company's notice and a letter of commendation from the Adjutant General to the Traction Company. The letter of commendation to the Traction Company concludes as follows: "It is hoped that your fine and patriotic example will cause many other employes of labor to take the same patriotic and public spirited stand."

D. A. R. IS ASKED TO AID BELGIAN RELIEF

Belgian Flags Will be Placed on Sale Here—Saturday and Sunday Designated

The regret of the local chapter of the Daughters of the American Revolution has received a communication from Mrs. William C. Story, resident general of the D. A. R., advocating flag day for the relief of the poor in Belgium.

Small Belgian flags have been received here and the members of the chapter will have them for sale. They will also be placed in the drug stores in the city. The price of one flag is seven cents which represents the price of one day's food in Belgium for one person.

Saturday will be known as flag day, to be held on the anniversary of King Albert's birthday. Sunday will be known as Belgium day and everyone is requested to wear a flag.

It is through this means that the Commission for Relief in Belgium hopes to obtain food, clothing and aid for the destitute of their country. It is a great offering of charity and one that the liberal minded people of this country should promote.

WAVE OF COLD SENDS MERCURY DOWN TO 24

The advance of spring and the rapid disappearance of snow from the city was abruptly checked yesterday when a snow storm struck this vicinity, followed by a cold wave which took the thermometer down to 24 degrees last night, with strong breeze thrown in for good measure.

While the snow was falling the temperature was high enough to keep it melting as it fell on the streets, but on lawns and other open places it put a fresh blanket over the residue of the winter's snow.

No relief from the cold wave is promised for today, the prediction being continued cold for tonight. Tomorrow, however rising temperatures are promised by the weather man.

UNITED STATES DEPARTMENT OF AGRICULTURE

IF WOMEN GET VOTE IN ENGLAND THEY'LL RULE AFTER THE WAR

SUFFRAGETTES ABANDON MILITANT CAMPAIGN, BUT HAVE BEEN ACTIVE NEVERTHELESS

MILLION MORE WOMEN THAN MEN

By Charles P. Stewart
United Press Staff Correspondent

London, April 6.—Women will have a great deal to say about running England after the war. If they get the vote, they will rule England's electorate, as there were 1,000,000 more British women than men before the war. The suffragettes abandoned militant tactics when fighting began with the Germans, but they have been conducting an educational campaign ever since.

Its keynote has been the thorough advertisement of the extent to which women have taken the places of the men at the front. Since women can do men's work, the suffragists argue, why aren't they entitled to the franchise on the same footing with men?

The chief theory about this proposition is that it is practical. The women actually are doing work it used to be taken for granted only men satisfactorily could do. In a good many instances, it is conceded, they are doing it better than the men did. The country, too, is 'mighty glad to get them. It is begging for their help.

Munition making is largely in women's hands. Women are rapidly taking over the positions of the men street car and bus conductors. Women are running elevators. Women are a thing as ticket sellers and choppers.

A women's army is being recruited to do England's farming. Women clerks are behind the counters of the retail stores of all kinds.

Women chauffeurs are numerous. Women run delivery wagons.

Women are doing all sorts of clerical work in banks, wholesale houses, insurance offices and counting rooms generally.

This drafting of women has been far more general on the European continent than in England. On the continent, however, there has been no such corresponding effort on the women's part to get value received for their wartime help; in the form of subsequent political concessions.

After all, women have done during the war, it is hard to see how England can refuse what they demand later. At any rate, it is a safe conclusion that they will get a respectful hearing when they present their claims next time, instead of the contemptuous dismissal which their efforts met before the great European struggle.

Comment by the new women workers, too, shows that suffragette representations are making an impression on the rank and file.

The next demand, consequently, will be no mere dilettante movement. Instead, it will come from the women who have done as much as any man in the field to aid the country in an emergency, whose services and sacrifices already have been publicly recognized and who can speak, and act, with a genuine determination never hitherto characteristic of suffragetteism in England.

If they fail to get what they want, it will be surprising. Should they get it, England will be ruled, electorally, by women.

Census figures show that, before the war, there were about 1,000,000 more women than men in the British Isles.

After the war, between the losses of men in the field and the expected heavy emigration, which will be largely of young, unmarried men, the disproportion will be still larger—perhaps another 1,000,000.

This famous food-drink tastes much like mild Java coffee, but is entirely free from caffeine and other harmful elements ever present in coffee. It is made of whole wheat and a small portion of wholesome molasses, and permits Nature, unhampered, to carry on her work of daily re-building brain, nerves and muscle.

Postum comes in two forms: The original Postum Cereal must be boiled; Instant Postum requires no boiling—a level teaspoonful in a cup of hot water makes a delicious drink—instantly. Both forms are equally delicious and the cost per cup is about the same.

A DEPENDABLE LINIMENT

For many years Dr. Levi Minard prescribed and used Minard's liniment, the sale of which is now world wide. For Minard's is the one dependable liniment for removing pain of all kinds and can be had of any druggist. Minard's is a wonderfully soothing, creamy liniment that gives almost instant relief to sufferers from neuralgia, lumbago, sciatica, rheumatic pains, stiff joints, sore, strained or lame muscles and tired, aching, burning, itching feet. Minard's liniment is absolutely pure, stainless and very effective. It is economical and clean to use.

COL. DODD, AT FRONT, HAS SERVICE RECORD

Man at Head of Flying Column After Villa is Nearly Ready for Retirement

(By United Press)

Washington, April 6.—Rangy, rawboned and "hard looking" is the way friends of Col. George A. Dodd describe the man personally in charge of the flying cavalry column, forming the edge of the wedge driven into Mexico.

Col. Dodd is 64, but when he retires this year he will leave active service as physically fit as when he got his sheepskin at West Point. His hobby is physical training. He instituted the army's "monkey drill," or setting up exercises.

Dodd has seen much field service, most of it in the southwest Indian campaigns. His work there in the Aguinaldo campaign in the Philippines and northern Luzon was chiefly responsible for his getting his present job.

Colonel Dodd was commandant of the United States barracks at Columbus, Ohio, for four years. Last September he was transferred to Douglas, Arizona.

Colonel Dodd was wounded at Santiago, July 4, 1898. He is a recognized authority on cavalry and is author of a book on training and handling cavalry horses and men.

When the great flood came in 1913, Dodd acted promptly by having his men clean up and aid the stricken west side of Columbus. Colonel Dodd is a West Pointer from Pennsylvania. His first active service was in suppressing the Cheyenne uprising under Little Wolf in Nebraska in the 70's.

For 27 years Dodd was attached to the Third cavalry. While at Fort Riley, Kansas, he developed his command to such technical proficiency that the troop was in demand for exhibition purposes in the East. His troopers exhibited at Madison Square Garden, New York, and also in Boston and Washington.

In 1908 Dodd was commissioned as Colonel. Colonel Dodd comes from a military family. His father an officer, was killed in the Civil war. However, none of his three sons have entered the army. Of Dodd's three daughters two have married army officers.

Winter in Russia.

What winter can be like in Russia was described by Napoleon in 1812 and by Charles XII of Sweden a century earlier. Charles made a successful drive into Russia in 1709, but winter overtook him in October. The cold was so intense that wood could not be made to ignite in the open air. Wine and spirits froze. Hints told of the wine, saliva congealed on the men's lips. Says one who went through that terrible winter with the Swedish army: "You could see some with their hands, some without feet, some without ears and noses, unable to walk or fight, but crawling on all fours for food."—London Standard.

Driven to Desperation.

"I am so tired of being conventional and customary and correct," stated H. H. Harsh, "that one of these days I shall stop right in front of a church and in a firm voice ejaculate 'Drat!'"—Kansas City Star.

"Why Swear, Dear? Use 'Gets-It' for Corns!"

It's the New Plan. Simple. Sure as Fate. Applied in a Few Seconds.

"Why, John, I never knew you to use such language! I've told you several times it's no use to try those bandages, salves, tapes, plasters, and

"You Wouldn't Lose Your Temper, John, If You Used 'Gets-It' for Those Corns!"

contractions for corns. Here's some 'Gets-It'. It's just wonderful how easy, 'clear and clean' it makes any corn come right off. Takes but a few seconds to apply. It dries at once. Put your sock on right over it—there's nothing to stick or roll up. Form a bundle of your toe, or press on the corn. It's painless, simple as rolling off a log. Now put away those knives, razors and scissors, use 'Gets-It' and you'll have a sweeter disposition and no more corns and calluses.

'Gets-It' is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill. Sold in Escanaba and recommended as the world's best corn remedy by Ellsworth Drug Co., P. J. Groos, Hill Drug Store and the Mead Drug Co.

A TRAVESTY ON GOVERNMENT

Everything has been justified that has been said of late in Michigan about the farcical nature of the presidential primary law—and few public matters have caused so much derision. The state has never before held an election as generally ignored as this was. The few who took the trouble to go to the polls to express their presidential preferences seem to have had no thought of serious purpose in their exercise of the franchise, and to have regarded the occasion either as one for horseplay or for recording a generous admiration for a fellow-citizen but certainly not as one requiring from them earnest thought about the country's welfare, their party's needs or their own individual interests.

Here in Detroit there was nothing else at issue and the amazing meagerness of the primary's influence is perhaps best illustrated by the fact that the election cost the city fully a dollar for every vote cast. The city appropriated \$17,000 exclusively for the presidential primary. The total vote out was around 16,700; complete and official returns will apparently not bring it to the 17,000 point that would make the expense an even dollar a ballot. And another illustration is found by comparing the number of voters with previous contests, for the election which has become a proverbial joke hereabout because of its slowness in interest was the Breitmeyer-Owens primary of 1910, and then the Republicans cast almost 24,000 ballots, whereas this week their entire total is barely 10,000.

The utter futility of the presidential primary needs no further demonstration. It is a useless, expensive and undesired innovation in our political system. It should never have been imposed on the state.

Having been enacted in a time of hysteria, it should have been repealed at the first opportunity. Two legislatures having neglected their plain duty in that direction the convincing proof of practice leaves no room for further evasion by their successor.

The legislature of 1917 should wipe the absurd presidential primary off the books of the state.

The system has no friends left. Even those who most earnestly advocated it in 1912 have been leaders of the ridicule of what they once so fervently praised. What added proof is necessary? Abolish the travesty on self-government. Let our people no more be asked to make a joke of their vital right to select their presidents.—Detroit Free Press.

THE CITY TREASURERSHIP

That city treasurership seems to be a slippery job. The first election report gave it to W. H. Yockey. Later that night it went over to Mayou, and more careful canvass of the results the next day seemed to confirm his election. But The Mirror's report had a mistake in the Third ward which was big enough to shift the lead to Yockey, while The Press's table, while it had the Third ward correct, had a mistake in the Fourth ward which did the same thing. So it wasn't until Mr. Yockey himself made a careful survey of the poll books at the city clerk's office that it was straightened out.

Nearly 2,000 citizens of Berlin, Ontario, signed a petition asking the Ontario legislature to change the name of the city, but the petition was killed in committee. The zeal of the Canadian citizens ought to be directed into more profitable channels.

At an Iron Mountain council meeting this week, Mayor Cruse announced that the city has a working capital of \$46,000, a condition that has not been known there for 20 years.

In the wet and dry elections in the thirteen counties of the state, the latest totals make the wet vote 3,568 and the dry vote 3,675.

INVENTS COTTAGE

(Continued from page one.)

ing cabbage, the heat prostration danger from over-heated stoves, that tired feeling that results from too many steps between the kitchen and the dining room all have been attended to.

The house has four primary features: a cool, convenient kitchen and dining room; bedrooms and living rooms with the best exposure; facilities for outdoor sleeping, and an easily heated house, cool in summer and sunny in winter.

The kitchen's principal feature is the cooking room, just large enough to accommodate a stove. When the door of the room is closed, the cabbage may boil or the ham may burn and no odor will penetrate to the kitchen proper. The housewife need not stay in the room with the stove; in fact, she couldn't get in if she wanted to.

Windows are so arranged that there is always a breeze through the kitchen. The front porch is arranged so it can't exclude any sunlight. The sleeping porch is germ-proof and airy. The kitchen and dining room are so convenient that it is unnecessary to carry dishes between them—they can be pushed right through the wall. The china closet has doors in both rooms and dishes are laid in at one door and taken out of another in the next room.

In addition to the front and sleeping porches, there is a screened porch reached from the kitchen. A feature disclosed by an examination of the screened porch, by the way, is a fuel room. Fuel is poured into it from the back yard—it may be dumped right from a wagon into the room—and, like the trick china closet, permits being emptied from another entrance in the kitchen.

There are seven closets in the house, which is only one story. The nearest approach to a second story is where a window has been inserted. That window gives exit to the smoke and smells from the cooking room, with which it and an inside chimney connect.

DRIES WIN SUPERIOR; OTHER GAINS IN WIS.

One Town in Marinette County Goes Dry—Beloit and Stevens Point Wet

Marinette, April 5.—One town was added to the dry column in Marinette yesterday. Athelstane decided to dispense with its one saloon by a majority of eleven votes. Amberg, which went dry a year ago, evidently likes it for it remained in that column yesterday by a majority of thirteen votes.

In Wausaukee a rather spirited contest between the two forces resulted in a vote of 114 wet and ninety dry, a majority for the former of twenty-one. This cuts down the wet majority of a year ago about half. Wausaukee has nine saloons.

A report from Niagara states that the town remains wet by a large majority. The dries got only thirty-six votes out of 250. Although there was local option petition in Niagara there was very little work done by either side.

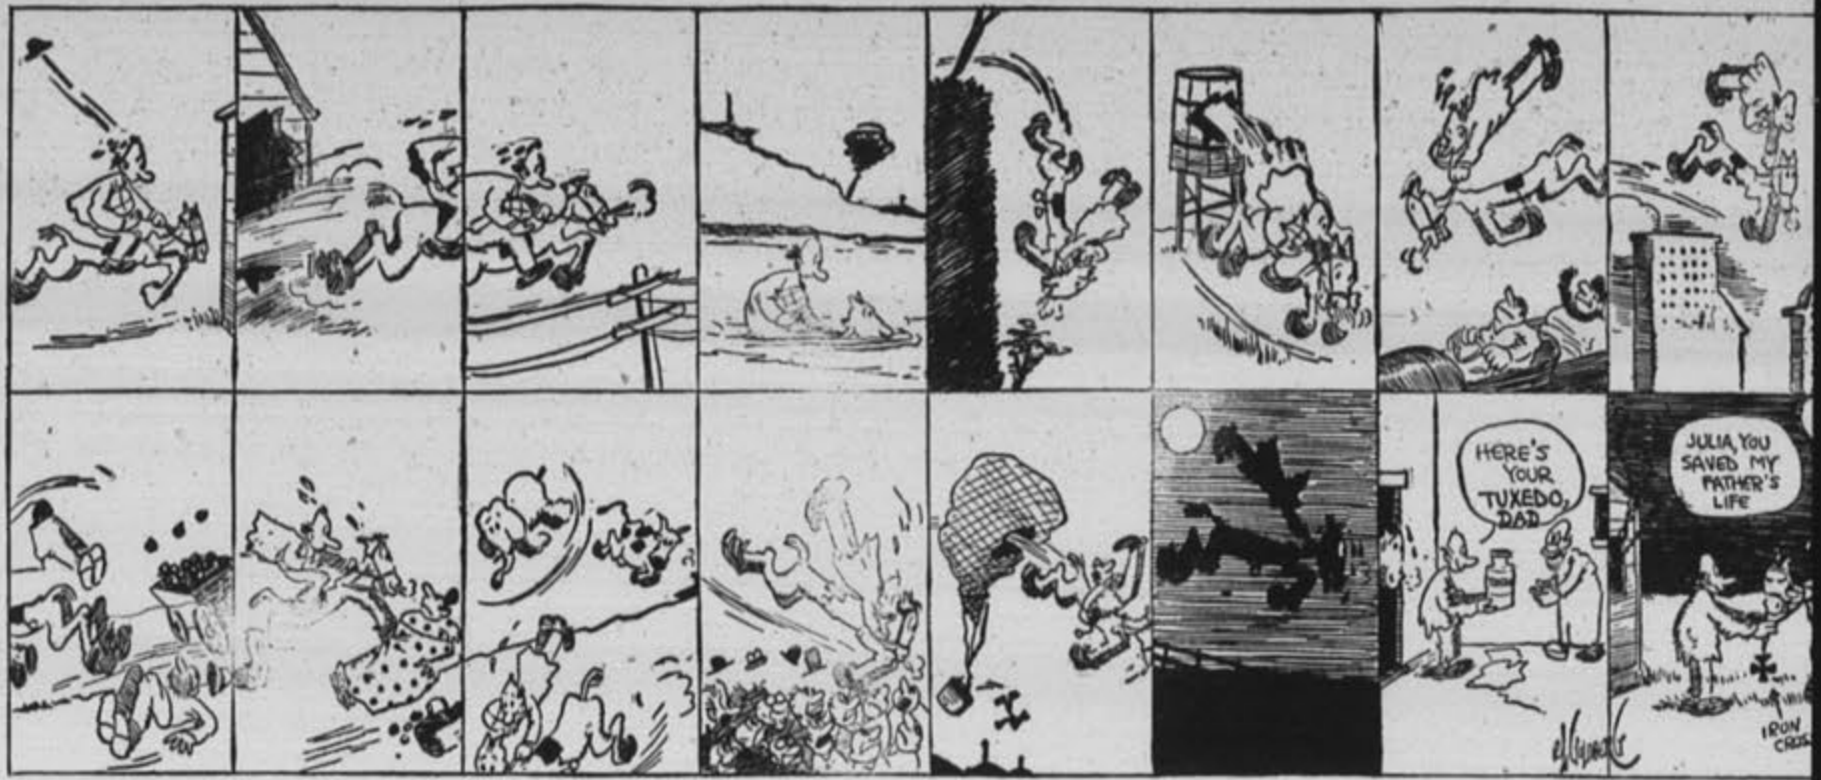

Vote Out 135 Saloons
Milwaukee, April 5.—Fairly complete returns from the state indicate substantial gains by the "dries" in Wisconsin.

The great blow handed the wets in Tuesday's election was at Superior, which went for no license by thirty-three votes, this action wiping out 135 saloons. This is the first time in the history of Superior it has voted against saloons.

While the dries are celebrating their victory in Superior, the wets were afforded some consolation by retaining Beloit and Stevens Point, and carrying a few smaller cities that formerly were dry. The majority of the cities which changed went from wet to dry, according to scattering returns.

Most of the changes in license were in the smaller cities. Augusta and Fairchild, in Eau Claire county, went from wet to dry. Mondovi, formerly dry, went wet.

YOUNG PAUL REVERE'S RIDE A "Movie" Melodrama in 16 Thrilling Scenes By GOLDBERG

A "movie" reel can't beat a tin of Tuxedo for real action. There's thrill in every pipeful—an emotion in every puff! "Tux" is packed so full of snap and vigor that you begin to register joy from the scratch of the match

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Maybe you think you "can't smoke a pipe." Listen:—Tuxedo has already converted into steady joyful pipe-smokers thousands of men who once thought the same way—until they tried Tuxedo and found the one tobacco that positive cannot bite or irritate the most sensitive throat and tongue.

REX BEACH
Famous Author, says:
"I have smoked Tuxedo in sub-Arctic Alaska, at Panama and everywhere—would not smoke another kind!"

Rex Beach.

The original, exclusive, secret "Tuxedo Process" is the reason. This Process was invented by a doctor for the express purpose of removing the last, lingering trace of bite and sting from the ripest, mildest tobacco, made rich and mellow by ageing from 3 to 5 years!

No other tobacco can be like Tuxedo. That's why all imitations of Tuxedo fall down when they reach your pipe. Put Tuxedo to the pipe-test today.

LIVING MODELS WILL SHOW SPRING STYLES

Spring, according to the Calendar of Fashion will be inaugurated today, and in honor of this occasion Kratze Bros. have arranged for tonight from 8 to 10 o'clock a review of the latest costumes shown on living models.

An elaborately prepared event featuring the handsomest and best developed styles created for the new season is promised. The new millinery, coats, suits and costumes are bewitchingly handsome. The store and windows have been appropriately decorated. A recital on the Edison Diamond Disc Phonograph has been arranged during which a number of the newer selections will be recreated by Mr. Edison's art.

Carnations will be given to each woman visitor during the style parade and a very pleasing and interesting evening is planned.

Marvelous Scales.

The weighing machine used in the laboratory of the bureau of standards in Washington is said to be the most accurate in the world. It will weigh the wing of a fly.

LATEST CERTIFIED NEW YORK STYLES

Prices No Higher Than the Common Ordinary Kind

You may take it from us as a fact that the new Women's, Misses' Suits, Coats, Dresses, Gowns, Blouses, Etc., we are showing right now, represent the greatest values to be found anywhere in U. S. A.

We buy our goods for less than smaller dealers. We show new goods two to four weeks ahead of other stores. Our New York buying connections assure us at all times of styles always ahead of stores that have no metropolitan connections or standing. Whenever a new style is out, it's expressed to us and shown here the same time as in the metropolitan style centers. Through our New York syndicate buying connection we are able to buy best and very latest style merchandise at prices much below what dealers who have to buy through jobbers have to pay—besides securing styles two to four weeks in advance shown by other dealers.

So it can easily be seen why we can always undersell all others, at the same time showing styles in advance of those displayed elsewhere.

"You Seem to Have So Many More New Garments Here."

—this remark came from a group of out of town visitors—who came to Escanaba to see the Birth of a Nation. That they were interested in more than the motion picture could easily be learned from their remarks—they had been through all principal stores. Unsolicited they freely expressed themselves—saying—here at our store they saw so many more attractive stylish suits, coats, dresses, etc. as well as other new spring things—and that everything seemed to be so much better and prices so much lower.

We are sure it wasn't idle flattery—the goods must be deserving of it—surely the way goods has been selling since our opening, prove it.
