BRITISH SURRENDER AT KUT EL AMARA

FORCE BESIEGED SINCE DEC. STARVED INTO SUBMISSION

Garrison Estimated at 10,000 Men, Penned in Kut El Amara Since December, Forced by Starvation to Give Up—Relief Forces Held Back 20 Miles from City DESTROYS GUNS BEFORE SURRENDERING

(By Associated Press)
London, April 29, 4:45 p. m.—Major General Charles Townshend, commander of the British forces besieged at Kut el Amara, Mesopotamia, by Turkish troops since December, has surrendered. This information was contained in a British official statement issued this afternoon. The British forces which surrendered at Kut el Amara are estimated at 10,000. The official statement added that General Townshend had destroyed his guns and munitions before surrendering.

General Townshend's troops were probably driven to surrender to avoid starvation. A recent official Turkish communication said that the position of the British at Kut el Amara was critical and that they expected to receive small supplies of food by aeroplane.

Last Effort Fails
An official statement from London yesterday showed that a last effort to send supplies to the garrison had failed. It was announced that a ship loaded with supplies which had been started up the Tigris river was grounded four miles east of the city.

Less than a score of miles away from the banks of the Tigris is a relief army which has been trying desperately for four months to reach the besieged forces.

Floods Aid Turks
A few weeks ago several victories were announced, and hopes ran high in England that the expedition would be successful in reaching the beleaguered garrison. Of late the Turkish resistance has increased, however, and aided by floods they have been able to hold the British in check. No official figures were ever given out on the number of the expedition which set out from the Persian Gulf in September and was penned in Kut el Amara in December. Unofficial estimates of the number ran as high as 100,000.

French Repel Assault
Paris, April 29.—After a violent bombardment of French stations near Avocourt and Hill 394 on the Verdun front west of the Meuse, German troops were massed for an assault. The war office report for this afternoon says that the attack was prevented by the French artillery, which dispersed the German troops.

A vigorous assault was made on the French trenches east of Thiaumont farm but the Germans were repulsed with heavy losses.

German Reply Finished.
London, April 29.—The Berliner Tageblatt says that the German reply to the latest American note has been completed, and that delivery will probably be made at the beginning of next week, according to a dispatch from Copenhagen to the Exchange Telegraph Co.

Examiners Find it Impossible to Complete Tests in the Two Days Allotted

The examinations for teachers' certificates for second and third grade work, which are being taken here by 37 applicants, held over until today, though originally scheduled to close yesterday. It was found impossible to complete the large amount of work to be done in the two days originally assigned.

The second days work, as mapped out by the state authorities, included examinations on grammar, physiology, reading, penmanship, agriculture, school law, and state course of study.

High Baseball Squad is Out

FIRST DIAMOND ACTIVITIES OF YEAR COMMENCE WHEN 30 CANDIDATES ANSWER CALL

Baseball training at the high school began Friday when Coach Dodge called for a practise at the Brewery diamond at 3:45. About 30 candidates responded to the call, and according to authentic reports some very good material is available.

Escanaba high has always had good baseball teams, and this year, the nine promises to be far above par. Escanaba fans will be given an opportunity to witness some fast amateur ball this season.

In view of the fact that most of the members of last year's aggregations are still in school, the team will not be handicapped by a necessity for developing new material. Germain and Dwyer will probably form the battery, while the two Perrins are expected to appear at first and short, with O'Brien, Whiston and Belanger in the outfield.

DELIVERY CO. DRIVERS GO ON STRIKE DURING SATURDAY RUSH HOURS

TWELVE MEN MAKE DEMAND FOR RAISE OF \$2 PER WEEK IN STRIKE AT NOON TODAY

EXPECT LITTLE DELAY IN DELIVERIES

Four of Strikers Return to Work, and Additional Help is Being Secured

With the Saturday rush of store deliveries in full swing, the 12 drivers of the Central Delivery Company which is owned in cooperation by the merchants of Escanaba, went on strike at noon today for higher wages.

The prevailing scale for delivery drivers has been \$10 a week, and the strikers today demanded \$12 a week, with the threat to tie up the Saturday deliveries.

Charles Ehnerd, the meat market proprietor, who is president of the Delivery system, met the drivers shortly after the strike was declared, and announced that no advance in wages would be granted. He said that those who wanted to continue work at the same scale of \$10 a week could go back to work, while the others could quit at once.

Four Return to Work.

Four of the drivers returned to work at the original scale, while eight held to their demands, and are no longer in the employ of the company. Mr. Ehnerd at once began efforts to secure men to take the place of those who left work, and this afternoon announced that while the Saturday delivery system would be handicapped for a short period, he expected that all deliveries will be made as usual before the end of the day.

"TWIN BEDS" PLEASURES GOOD SIZED AUDIENCE

Complications of Selwyn Farce Keep Audience in Roar, When Action is Started.

"Twin Beds," Selwyn and Co's well known farce, pleased a large crowd at the Delft theatre last night. It takes quite a while for the action to get under way in "Twin Beds," but when it did, the house was almost in a continuous roar.

The first act is taken up wholly with setting the scenes for the big laughs, which are evoked during the development of an unusually complicated man-in-his-room-by-mistake episode.

"Twin Beds" is full of snappy dialogue, Marion Lord as Signora Monti being provided with the best of the lines in this respect. And she got full value out of the lines. Juliette Day as Blanche Hawkins displays a "cutie" stuff somewhat after the manner of Elsie Janis, though without Elsie tomboyishness, and is inclined to overdo it a little. P. Paul Porca as Signor Monti, the temperamental Italian tenor, did adequate work, but J. Morrill Morrison could be improved on as Harry Hawkins.

Anyway, "Twin Beds" is a good farce, and it was presented here by a good cast.

Folk Crowd to View Elopers

MEMONIEE PEOPLE THROG TO STATION TO SEE BARBER AND GIRL BROUGHT BACK

Edward Legault, the Menominee barber, and Clara Johnson, the 17 year old girl with whom he is alleged to have eloped, were brought back to Menominee last night protesting their innocence of any wrong doing.

Legault admits that they boarded the same train at Marinette, and that they both went to Houghton. He says that the girl paid her own fare, however, and that both sought work in Houghton. Both Legault and the girl deny that there have been any improper relations between them.

The man was brought back on a charge of desertion, and so far no other charge has been laid against him. No charge has been made against the girl, pending further consideration by the authorities.

Menominee, April 28.—If curiosity were as fatal to a number of people as it was to the oft-cited cat which once lost all of its nine lives because of being curious, this story would be a plural obituary notice.

Since the news arrived in Menominee that Edward Legault and Clara Johnson, who are charged with eloping from Menominee, were under arrest at Houghton and would be brought back here scores of people have besieged the Northwestern station and the county jail seeking a glimpse of the prisoners.

Many of those in the crowds both at the jail and station are relatives or close friends of either or both of the arrested pair, but the greater proportion of them are merely frankly curious.

In the meantime it was still unknown today just when their curiosity to see Legault and the girl would be satisfied, for there was no word from Sheriff Charles Bauer to tell the exact time of his arrival from Houghton. It was known that the Sheriff had other business to transact on his trip north and it was thought possible that he would not arrive until tomorrow and possibly not until Sunday.

Crowd Disappointed.

The yard of the jail was literally crowded last night and people extended all along the streets between the jail and the Northwestern station with the arrival of the trains from the north last night. It was popularly supposed that the sheriff would arrive on the night train, but the crowd was forced to swallow its disappointment and go home when he failed to come. There was another crowd at the station to meet the morning train from Houghton.

Houghton authorities claim that the Menominee barber and the Johnson girl were living together in the city. Both had secured work since their arrival at Houghton a week ago. Legault was working under the name of Brown in a barber shop while the Johnson girl was working in a restaurant, according to advices from Houghton.

PRAIRIE DU CHIEN IS SWEEPED BY GREATEST FLOODS IN 19 YEARS

FOURTH WARD OF CITY IS CUT OFF WHEN BRIDGE IS CARRIED OUT—SHOPS CLOSE.

WAGON ROADS COVERED; CROPS RUINED

Roads Under From One to Five Feet of Water—Rye and Wheat is Washed Out.

(By Associated Press.)
LaCrosse, April 29.—Factories at Prairie du Chien have been obliged to close and one section of the city is cut off from communication by the floods which reached this ancient Wisconsin city last night. The river is higher at Prairie du Chien than for 10 years, and is still rising.

In the part of the city known as the Fourth ward, there is no communication with the mainland except by boats, and all the houses are several feet deep in water. The bridge connecting the Fourth ward with the town proper was washed away today. The Shaw lumber mill and the Iroquois pearl button factory are under water, and the summer's run of logs at the former mill are rapidly being washed away. In other parts of the city the water is also rising fast and occupants of homes along Main street are preparing to move out.

Wagon Roads Impassable.

Wagon roads out of the city are impassable, with from one to five feet of water running over them. Farm lands all about are under water and the rye and wheat crops started in the fall have been washed out and ruined.

Catch Fish in Streets

Menominee, April 29.—With the flood stage of the Menominee river still falling, no more damage is expected from the high water here. The place where the flood was pouring in to the streets of West Menominee has been dammed up, and the streets are now passable. Perch and pickerel are being caught by fishermen in the water dammed behind the higher streets of West Menominee.

BUSINESS MEN WILL HOLD ANNUAL MEET

Escanaba Association Will Elect Officers and Plan for Year's Activities

The Business Men's Association will meet next Thursday night, probably at the city hall, in the annual meeting for the election of officers for the coming fiscal year and the discussion of other matters of business.

A number of reports will be heard at the meeting, and it is expected that plans to be carried out during the coming year will be laid. A committee which went to Marquette in March to investigate the commission form of government there will report, and this matter will likely be an important factor of the meeting's program. The matter of whether the Chautauqua for the coming summer will be handled by the association or by individuals will also be taken up.

FIGHTING CONTINUES, THOUGH GOVERNMENT TROOPS ARE GAINING

CASUALTY LIST NEARS 100 AS ROYALISTS GRADUALLY CONTRACT THEIR CORDON

ARMS LANDED BY GERMAN SUBMARINES

Equipment of Rebels is Surprise—Wilson is Asked to Aid Sir Roger Casement

(By Associated Press)
London, April 28, 2:42 p. m.—Parts of the city of Dublin are in flames, an Evening News dispatch filed at Belfast last night says. Street fighting continues, and there is much looting, it is said, but the reinforced military is making steady progress. Most of the shops are closed, and telegraph communication is still cut off.

Upwards of 100 persons have been killed or injured thus far in Dublin, said the correspondent at Belfast of the Evening News in a dispatch last night. He says that the rioters, hidden in houses commanding important street junctions or covered by barricades erected in the streets, are keeping up a constant fusillade. The list of casualties continues to lengthen, including many civilians, who, the correspondent says, have been picked off by Sinn Fein snipers for no other reason than that they are believed to be loyal.

The cordon of troops is being drawn gradually but surely around the rebel stronghold. The authorities are carrying on their difficult task with the greatest forbearance. Every effort is made to avoid unnecessary bloodshed and damage to property.

Submarines Land Arms

"The thing that surprises me most about the uprising in Dublin is the supply of munitions in the hands of the rebels," said an Irishman who arrived in London this morning. He spent ten hours in Dublin on Tuesday, and departing that evening arrived in Kingstown that night. "There is little doubt in the popular mind that the Germans have been landing arms from submarines for months," he continued, "and it is even said, though I do not believe it, that a few Germans have also been landed and organized."

"I learned that the rebels made prisoners a large number of police and a few stray soldiers at the Royal Irish depots at Phoenix Park. My walk through the center of the city on Tuesday afternoon was very eventful, and I was glad finally to reach Kingstown. I was challenged many times by both rebel and loyal sentries. The rebels were threatening, but allowed me to pass after searching me for arms."

This informant, who is an engineer in the war department and a strong royalist says that the great majority of the people of Ireland are entirely without sympathy for the rebels, whom they regard as a small and irresponsible minority.

WILD SCENES IN "THE LOVE MASK"

'49 Gold Rush Days Vividly Portrayed in Film.

DISPUTE OVER MINING CLAIM

Cleo Ridgely, and Wallace Reid, Who Star in the Sensational Production, Have Been Fitted by Long Experience for the Exciting Parts They Play—Miss Ridgely Once Rode From Coast to Coast on Horseback.

Love and adventure in the rough pioneer days of the '49 Gold rush are the foundation of the stirring theme of the new Lasky photoplay, "The Love Mask," released by the Paramount Pictures Corporation. The story and scenario are by Cecil B. DeMille and Jennie MacPherson. Starring in the film are Wallace Reid as Dan Deering, the Sheriff, and Cleo Ridgely as Kate Kenner, miner and bandit.

The plot centers about Kate Kenner, one of the numberless women who attempted to operate their own gold mines in California in 1850. Near her cabin three unscrupulous miners, with a bold leader named Jim, are operating their mine without success. A landslide reveals a vein of virgin gold on Kate's claim and the girl takes one of the nuggets to the Sheriff of the neighboring village. In her absence her lawless neighbors discover her luck, jump her mine by destroying her claim stake and putting up their own, and send a man ahead to file their claim.

Sheriff Dan Deering falls in love with Kate and goes with her to see what the landslide has done. About this time the dare-devil road agent, Silver Spurs, who has been terrorizing the entire country, and for whom Dan has offered a reward, decides to hold up the Sheriff. The treachery of the miners is discovered by Kate and the Sheriff, and Dan engages in a fight with the interlopers. Silver Spurs comes to the Sheriff's rescue. Dan sternly thanks him for saving his life, but swears to hang him at their next meeting.

Kate is beside herself when she discovers that the miners have filed their claim first and she has no title to the land. The mine develops rapidly, and when Jim is ready to make the first shipment of gold Kate determines to impersonate Silver Spurs and hold up the stage on which the gold is carried. The bandit, too, who has also heard of the gold, prepares to rob the stage and meets Kate face to face. Kate is unsuccessful, and Silver Spurs is wounded protecting the girl from the Sheriff's posse. The girl hides him in her cabin, and Dan finds the spurs which Kate has used in her bandit impersonation, but, to protect her, sends the posse away.

Impersonating the road agent, Kate holds up the Red Dog Saloon to secure the gold from her mine. She is surprised by the Sheriff, and the crowd in the saloon demands that the girl be tried for the bandit's crimes. During the trial Silver Spurs himself gets away with the gold and leaves a note behind. The taunting message is found, and Dan takes Kate in his arms, rejoiced that she is innocent.

Lost in the Desert; Attacked by Wolf
While crossing the state of Nevada in her recent transcontinental trip Anita King lost her way. Her car became imbedded in the mire and in trying to dig it out her shovel broke. She was without food, and to increase her terror she was attacked by a wolf. She was able to kill the animal, but after the struggle fell exhausted in her car, where she was found in an unconscious condition the next morning by three prospectors.

Her entire trip was filled with thrilling incidents, many of which are incorporated in the picture and filmed at the exact locality in which they happened. During the photographing of the picture Miss King was injured several times.

The production was made under the direction of George H. Melford. It is said to be one of the most artistic pictures ever released on the Paramount program. "The Race" is a Lasky film.

Potted Plants.
When potted plants put a piece of coarse muslin over the hole in the pot before putting in the bits of stone and sod, which keeps the drainage good. The muslin prevents the earth from washing away.

To Cure a Cold.
To cure a cold, put one-half teaspoonful baking soda into a cup with one-half teaspoonful aromatic spirits of ammonia; add one-half cupful of hot water. Drink hot and cover up well in bed.

RAPID RIVER MENTIONS

(By L. G. MESSENGER)

CREAMERY ASSURED FOR RAPID RIVER

Butter Making in New Plant is Expected to be Started Early in June

All of the obstacles that have appeared to stand in the way of the completions of the plans for the operation of a creamery here have vanished and it is now assured that the process of butter making will start some time early in June.

One of the things that assures the success of the proposition is the fact that it is not to be run on the cooperative plan as is usually the case but instead all of the stock has been taken up by the men mentioned in these columns previously.

The machinery necessary has been ordered and will be on the ground by the time the building is remodeled and in shape to receive it.

In addition to the local patronage assured, Mr. Brown of Trenary has come forth with the information that he will have a hundred cows and pledges the institution all of the cream.

FARMER FILES CLAIM AGAINST SOO RAILWAY

Seeks to Recover Alleged Damages From Insufficient Drainage of Water

Ever since the Rapid River branch to the Soo Line was built a number of the farmers along the route have suffered more or less from the backing up of the water on account of the road bed and insufficient drainage.

Henry Jahnke has in the past been the principal loser on this account and every spring, more or less damage has been done to his land. He has borne his loss for a number of years without complaint worth mentioning, beyond requesting the company to put in more or larger culverts to carry the water off.

This spring he had a number of acres of fall wheat washed out in the usual manner and he has accordingly filed a claim against the company and promises to push it to the extent necessary in the hope that he will recover a part of his past losses and that the company will take the necessary steps to guard against the same losses in the future.

DRAMATIC CLUB AT WORK ON NEW PLAY

"The Hand of the Law" is the title of the next production presented here by the home dramatic club. The piece is somewhat of the western type and is a very interesting story told in three acts. It will be put on some time about the middle of May and bids fair at this time to prove even more interesting than either of the last two plays put on by the club.

The club also have their advertising out and will take the "Dust of the Earth" to Nahma May 11th.

J. MADDEN MILL HAS RESUMED OPERATION

The mill of the Jerry Madden Shingle company started on its season's cut the first of the week and with its start a marked improvement in local industrial conditions was noticeable.

With the operation of the Masonville mill on both a night and a day shift and the day running of the Madden mill there are now no idle men in town. In fact there is a scarcity of help in town at the present time and it was stated that operations at the Collins post yard were being delayed for the want of men. Everything points toward a prosperous season all around.

Alex LaBumbard Voluntarily Surrenders His License—Four Are Granted

At a meeting of the township board held last Monday evening nothing of importance transpired except the regular approving of the liquor bonds and granting the licenses.

One less saloon will exist in the township this year than heretofore, Alex LaBumbard having voluntarily surrendered. Andrew Barboo will also discontinue in the business and in his place a license was granted to Alpha Cole and Zeff Rushford. As it now stands there are four saloon licenses in existence in the township, as follows, Oliver Neveu at Masonville, Andrew Erickson; George Demit and Cole and Rushford in the Village of Rapid River. The Minneapolis Brewing Co. took out a wholesale license as usual.

Daily Thought.

Always remember that if the opportunity for great deeds never comes to you the opportunity for doing good deeds is renewed for day by day. The thing for us to live for is the goodness, not the glory.—Farrar.

Time is like a river made up of the events which happen, and a violent stream; for as soon as a thing has been seen, it is carried away, and another comes in its place, and this will be carried away, too.—Marcus Aurelius.

REFORMATION TO BE CELEBRATED IN 1917

LUTHERAN SOCIETY HEARS PLANS FOR WORLD-WIDE OBSERVANCE OF LUTHER'S WORK

(By Associated Press)

New York, April 29.—Four million Lutherans in America are laying broad plans for a commemoration next year of the Reformation, told the Rev. Howard R. Gold, executive secretary of the Joint Lutheran Committee on Celebration of the Quadri-Centennial of the Reformation, told the Lutheran Society at a dinner here last night. Mr. Gold outlined the committee's plans and discussed the leading features of the commemoration. The Lutherans in this country will be in communication with "the 6,000,000 Lutherans the world over" in carrying out the project, he said.

"On October 31, 1917, it will be 400 years since the Reformation took a definite beginning with the nailing of the now famous ninety-five theses upon the Wittenberg church door," Mr. Gold said. "Already active preparations are under way for an appropriate and constructive commemoration of the event. The Reformation is an established historic fact and Martin Luther's place as the leader among reformers is fixed. The observance of a religious leader is almost coincident with the tercentenary of a great genius in literature. Luther and Shakespeare are men worthy of chief places among those who have served their fellowmen well. Opinions may

differ in a degree about such leaders but on anniversary occasions all men are in a mood to appreciate.

HOBO NOW NUMBERED AMONG THOSE ABSENT

Frank was picked up by the police yesterday afternoon while engaged in "panhandling," which he cheerfully admitted was his usual method of collecting the debt owed to him by the world. He unhesitatingly furnished the above facts for the docket at the police station.
Frank was informed that Escanaba isn't a good place for professional beggars, and was told to pino the missing before noon or else do 30 days on the city rock pile. Frank joined the missing.

MENOMINEE TO HAVE 28 LIQUOR LICENSES

There will be twenty-eight saloons in Menominee during the fiscal year 1916-1917, two less than in the year that has just passed.
The decision fixing this number was reached by the city council Thursday night as the aldermen adopted the report of the police and license committee.

SHAKESPEARE PLAYS SHOWN AT ST. LOUIS

Presentations Are Given at National Convention of the Drama League

St. Louis, Mo., April 29.—Delegates to the national convention of the Drama League of America, of the St. Louis section of the league and of Washington university association, with many invited guests, today witnessed public performances in connection with the celebration of the Shakespeare Tercentenary.

While one audience viewed Poole's "Old Wives' Tale," another witnessed the "Hue and Cry after Cupid" and "Reverby Sword Play." After the first performance the audience changed places.

The Elizabethan stage, which was constructed on Washington university campus for the celebration and pageant, is considered one of the best examples of the stage of that day that has ever been built in this country. It follows specifications of a contract for the building of the Fortune theater in London in 1600.

Two hundred university students, garbed in the fashion of Elizabethans, took part in the production. The players sang old English folk songs, but of Shakespeare's time were but of the Shakespeare's time were replaced by the violins, trombone and clarinet of the university orchestra.

MUST GRADE LUMBER BETTER TO GET S. A.

More Even Quality Necessary if Lumbermen Are to Get Spiggoty Trade.

Chicago, April 29.—If the lumber dealers and manufacturers of the United States are to improve their business in South America they must eliminate irregular conditions as to the quality and measurements of the goods now shipped to that country, according to R. E. Simmons, who for two years has made a survey of the lumber market in South America for the bureau of foreign and domestic commerce.

"The buyers in South America complain of the quality and grade of material sent them and of short measurements, and their complaints are not unfounded," said Mr. Simmons, who is visiting the lumber associations to tell them of the conditions.

"Our trade with South America has amounted to nearly one million feet of lumber a year. Just now it is difficult to get lumber there because of the lack of ships, but if we are to continue to meet the competition of Austria, Sweden, Japan and Australia when ships can be obtained, we must remedy conditions.

"South America has to get her soft lumber from someone, for all her forests consist of hard woods, and the United States might as well have the market as anyone."

COUPLE FURNISH HOME, THEN ELOPE

Miss Driggs and Frederick W. De Martin Defeat Parental Opposition to Marriage.

Winsted, Conn.—Unknown to her parents Miss Edna B. Driggs, daughter of Mr. and Mrs. Frank Driggs, highly respected citizens of New Hartford, and Frederick W. De Martin, a drug clerk, also of New Hartford, furnished a cosy home in that village before they eloped by automobile to New Haven, where they were married by Rev. W. T. Hill, Methodist clergyman. Having returned from their wedding trip they are comfortably settled in their own home, although both have been forgiven by the bride's parents.

Because of family objections to the union the couple had promised to defer their marriage one month. At the end of that time the objections were seemingly as strong as ever, so they

Motored to New Haven.

concluded to furnish a home for themselves before running away and getting married. They took their land-lord into their confidence, also merchants of whom they bought household furnishings, and the villagers soon began to ask each other who was to occupy the newly furnished Thibault house, on the bank of the Farmington river.

Early in the week Miss Driggs, who is twenty-three years old, went to Unionville to visit relatives. De Martin met her by appointment with an automobile at Burlington when she was ostensibly returning to her home and together they motored to New Haven, where he had made all plans for the marriage.

Following the ceremony they telephoned the news to their respective homes and the New Hartford public soon learned who was to occupy the newly furnished Thibault house.

Mr. De Martin is about twenty-eight years old.

YOUTH GROWLS LIKE A DOG

Unusual Affliction of Young Man in Indiana is Puzzle to Local Doctors.

Lafayette, Ind.—Local physicians are confronted with one of the most puzzling cases that has ever developed in Tippecanoe county. Alfred Noble, age twenty-two, two weeks ago seemingly lost all human sense, and instead developed the instinct of a mad dog.

He fell to his hands and knees and growled and barked like a dog, and bit everything that he came in contact with.

He bit on the legs of tables, tore up paper with his teeth and did many other strange things.

After a battle the police succeeded in overpowering him and he is now in a strait-jacket at the county jail. Ten physicians have examined him, but none would say he was afflicted with hydrophobia. He has rational moments and talks.

NEEDLE BOTHERED HER SOME

Entire Palm of Woman's Hand and Works Way to Shoulder in Two Years.

Philadelphia.—After working its way along the arm of Mrs. A. Greenfield, a needle, which entered the palm of her hand two years ago, was extracted from her shoulder recently in the Children's Homeopathic hospital.

In August, 1913, Mrs. Greenfield was working her sewing machine, when the needle was thrust into her hand, becoming embedded in the flesh.

At the time her doctor advised her to have an X-ray used, so as to prevent the needle from working its way to her heart. She neglected it, however, and did not feel any pain until a few days ago, when her shoulder became sore. She went to the hospital and the doctors found the needle several inches under her skin, close to the shoulder joint.

DECALOGUE FOR THE LAW

Bavarians Are Urged to Avoid Meshes of the Courts During the War Time.

Berlin.—In the Bavarian courts a novel attempt is being made to suppress the national passion for going to law by display of the following "Ten Commandments" in the court-house:

1. Avoid lawsuits, especially in this grave time of war.
2. Thou knowest perhaps the beginning, but thou canst not divine the end.
3. Thou savest much money, time and anxiety.
4. Before starting litigation try to compromise amicably.
5. Let thy prospective opponent tell his side, and then perhaps thou wilt thyself see new light.
6. Listen to the judge when he proposes a settlement; he means it well.
7. Always draw up thy agreements in writing. Read them carefully before thou signest, then thou wilt avoid obscurity and possess thyself of proofs.
8. Remember that only that which thou canst prove counts in court.
9. Drive not thy opponent to extremes. Thou mayst some day need him.
10. Run not to the courts with thy petty squabbles.

SAYS SHE KEPT AX HANDY

Vermont Husband Asks Divorce, Saying Wife Slept with Weapon Under Her Pillow.

Rutland, Vt.—Because his wife had a habit of going to bed with an ax under her pillow Theodore Beaudry has sued for divorce. He declared that the realization of the presence of the ax had made him pass many sleepless nights.

In his petition Beaudry says that his wife threw dishes on many occasions, and once hurled a butcher knife at him so that it cut his leg. Mrs. Beaudry's eccentricities, according to her husband, are due to jealousy.

"I'm afraid of her," Beaudry said, "and will go to jail rather than live with her."

Mrs. Beaudry has complained to the overseer of the poor that her husband does not support her.

Walter Johnson left this afternoon for a short visit with friends and relatives.

HUGE TIMBER HOLDINGS PURCHASED AT L'ANSE

Mill and 30,000 Acres of Timber Land Are Taken Over by Stearns Lumber Co.

One of the most important deals that has been closed in the upper peninsula of late years was brought to a conclusion yesterday, when the Stearns Lumber company, extensive operators in many parts of the country, acquired title to the Marshall-Butters mill at L'Anse and 30,000 acres of timber lands in the adjacent country, which are penetrated in part by a six-mile railroad that also passed in the sale.

The Marshall-Butters mill was erected some four years ago, says the Marquette Mining Journal but was only operated for, three months when financial difficulties led to a suspension that has continued ever since. The stockholding interests in the company were wiped out by subsequent proceedings, and the property has been owned since by the bond holders, mostly country banks in Illinois, which were represented in the dealings with the Stearns Lumber company by the DeVitt, Trimble Bond company, of Chicago. In the mill, timber lands and railroad an investment of over \$1,200,000 was made by the Marshall-Butters interests.

The mill is a two band and resaw plant, and it has been kept in first class condition. The equipment of the railroad is without much value, but the land holding is said to be one of great importance. Without the acquisition of any more timber, it assures the mill from fifteen to twenty years operation. The plant will be put into commission at once, it is stated.

MOTHER DROPS FORK; PIERCES BABY'S EYE

(By Associated Press)
 Sheboygan, April 20.—Irvin, the three year old son of Carl Kernan, will probably lose the sight of his right eye as the result of a most peculiar accident last night. The baby was playing on the floor while his mother was preparing supper, and has evidently started to climb up to the table when Mrs. Kernan dropped a fork, which pierced the child's eyeball.

Prominent Bankers, Diplomats and Educators Appeal for Funds in the Name of the Suffering Soldiers of France

The National Allied Relief Committee, co-operating with the War Relief Clearing House for France and her Allies, is sending out what perhaps will be the most broadcast appeal yet issued on behalf of the war sufferers of Europe.

This appeal is for funds for the relief of the soldiers of France wounded in the fighting around Verdun. What lends additional interest to this appeal is the fact that it is signed by six of the most prominent men in America. Those who signed it are: August Belmont of the banking firm bearing his name; Hon. Jos. H. Choate, Ex-Ambassador to England; Dr. Charles W. Eliot, President Emeritus of Harvard University; A. Barton Hepburn, Chairman of the Board of Directors of the Chase National Bank; Edwin G. Merrill, President of the Union Trust Company, and Henry L. Higginson of the banking firm of Lee, Higginson & Company, Boston.

It is anticipated that the contributions received from this wide-spread appeal will be devoted also to relief work among a large number of wounded resulting from the greatly increased activities of the contending armies.

The appeal is reproduced herewith.
