

ANOTHER U-BOAT SUNK BY AMERICANS

Food Arrives in France for American Army

FRANCE PREPARES FOR COMING OF U. S. TROOPS

COLLIER JUPITER, NAVY DEPARTMENT ANNOUNCES, REACHES FRANCE WITH 10,500 TONS OF WHEAT.

CAMPS BEING ESTABLISHED FOR OUR ARMY

Food and Equipment Will Have Reached France in Advance of First Contingent.

(By Associated Press)

Paris, June 7.—A large American transport containing wheat for the American troops coming later, has crossed the Atlantic ocean under convoy of an American warship, the *Matin* announces. The transport is now being unloaded at a French port, the newspaper says.

Preparations are being made for the reception of the American troops, says the *Matin* further. A number of bases will be established similar to those established for the British troops.

Camps will be laid out for the infantry and artillery and aviation parks have been established for the American aviation corps. None of the American officers are bringing their families with them.

The *Matin* says that the arrival of provisions and equipment for the army will be well under way before the arrival of the troops and accordingly the American forces will make no call upon the French stocks of food.

Jupiter Carried Cargo.

Washington, June 7.—The American collier *Jupiter* has arrived at a French port. Secretary Daniels of the navy department announced today, laden with 10,500 tons of wheat and other supplies. The ship left from an American port without any intimation of her voyage having been given out and is now anchored at a French port.

The *Jupiter* is one of the largest colliers of the American navy. She was the first electrically propelled steamer ever built and her performance was so good that it led to the adoption of electric drive for all new battleships and battle cruisers in the American navy, being the only navy in the world adopting this type of propulsion.

The *Jupiter* is of high speed for an auxiliary vessel, which would enable her to escape a submarine attack under any but the most unusual circumstances.

Secretary Daniels did not specify what other cargo besides wheat the *Jupiter* carried on her first trip over the Atlantic.

U. S. Warship at France.

Paris, June 7.—The minister of marine has announced that an American warship is anchored off the French coast.

4 DEAD AS RESULT OF MICHIGAN STORM

Property Damage by Windstorm Which Hit Central Part of the State Late Yesterday.

(By Associated Press)

Detroit, Mich., June 7.—Damage amounting to \$750,000 was wrought and four lives were claimed by the windstorm which swept over Central Michigan late yesterday.

The district, which includes Battle Creek, Ann Arbor and Jackson, sustained the most damage. A score of persons were injured.

Mrs. Florence of Chicago, died of heart failure after the storm had passed Springport in Jackson county. Three persons were killed near Ann Arbor.

UNITED STATES DEPARTMENT OF AGRICULTURE

For Escanaba and Vicinity: Unsettled with probably showers tonight and Friday; fresh southwest and west winds.

For Upper Michigan: Unsettled weather with probably showers tonight and Friday.

Temperature at noon.....46 degrees
Lowest last night.....45 degrees

SCHAFFER BOY WILL ATTEND STATE FAIR FROM DELTA COUNTY

ISRAEL COTNOIR, AGE 15 YEARS, OBTAINED HIGHEST AVERAGE IN EIGHTH GRADE EXAMINATION.

Israel Cotnoir of Shaffer, age 15 years, an eighth grade pupil in the school of which James A. Kenney is teacher, will attend the Michigan State Fair at Detroit this fall as the guest of the state, and without expense to himself.

He attained this honor by being the highest in his examinations of any boy in Delta county and by so doing has been given a free trip to the fair. He made an average of 79% per cent in his eighth grade examination and in a list of 20 questions compiled by the state agricultural school.

Last year a student of the Alton school at Ensign in Masonville township won the high honor and had a great time at the fair at the expense of the state.

Richard Heric, age 16 years, of the Ensign school, of which Agnes Johnston is teacher, was the second highest in the state fair contest, having made an average of 77.1 per cent. Fred Mattson of the Soo Hill school, Victor Lemmer teacher, was third with an average of 75.45 per cent. He is 14 years of age.

There were many others who made higher averages than any of the above who did not write on the state fair questions.

Ethel Anderson of the Bark River township District No. 3 school had the highest standing in the county. Her average on all the common branches, ten in number, was 91.5 per cent. A. Theodore Sohlberg is teacher of the school.

One hundred and forty pupils wrote on the eighth grade examination, 39 of whom failed. Fifty seventh grade pupils wrote on physiology and geography. This has been allowed during the past two years, and if a passing grade is secured, seventh grade pupils are not obliged to take the two studies in the eighth grade.

The state fair examination is for boys only, and they must be above 14 years of age. One boy from each county in the state, the one having the highest average in the examination on common branches and the list of questions prepared by the state fair association, is the guest of the state at the fair.

County School Commissioner C. U. Woolpert has finished the grading of all examination papers and has about finished compiling his records. In grading the twenty questions furnished by the state fair association, he was assisted by L. A. Erickson, president of the Delta County Fair association and County Agent B. P. Pattison.

GIRLS LEAGUE GAVE DANCE FOR SCHOOL

The Girls' League of the Escanaba entire school at a dancing party in the gymnasium. This party marked the close of the league's active work for this year.

The society has been most successful in its undertakings the past year, with Miss Leta Shaw as president and Miss Doocy and Miss Walsh as advisors. Other officers are: First vice—Edith Dahlberg; second vice, Ruth Peterson; third vice; Madeline Burke; treasurer, Helen Curran; secretary, Clio Dewey.

CALUMET AND HECLA

WORKERS BUY BONDS

Calumet June 7.—The Calumet & Hecla Mining company has posted a notice to the effect that all employees will be helped to purchase Liberty Bonds on the installment plan of ten per cent down and ten per cent a month until paid for. The company and its subsidiaries has 17,000 employees.

BRITISH FORCES OPEN OFFENSIVE ON SHORT FRONT

NEW DRIVE IN ON SHORT SALIENT SOUTH OF YPRES WHERE FIGHTING HAS BEEN SLIGHT.

SUCCESS SCORED IN NEW ADVANCE

German Hold on Lille Is Seriously Menaced by Drive; 10,000 Italians Captured.

(By Associated Press)

British Headquarters in France, June 7.—(By a staff correspondent of the A. P.)—The British thrust on the Messines-Wytschaete ridge of the Belgian front took them well over the ridge where they are now entrenching.

The village of Messines was reported taken early in the fighting. It was also reported that Lenfer and Zerebba had fallen and that Wytschaete had been surrounded by the British storming troops.

The British also captured important trench positions on the line from the observation ridge southwest of Ypres to Armentiers. More than a million pounds of high explosives were blown up under the German forward positions. This is the most extensive mining operation in the history of the war and spread panic among the Germans.

The British in their attack probably used 20 per cent more guns, especially those of heavy calibre, than were employed in the battle of Arras. Tanks were in thick of the fighting. More than 1,000 Germans were taken prisoners early in the engagement.

The fighting continues under a mid-summer sun. The Germans have not rallied for their expected counter attack.

Advance Is Started.

London, June 7.—The British have opened an attack on a 9-mile front between Messines and Wytschaete, and have taken all of their first objectives. The official statement of the British headquarters says the advance still continues and that a number of prisoners have been taken.

The new British offensive is against a sharp German salient three miles south of Ypres. For several days the British have maintained a tremendous bombardment for almost 30 miles on this portion of the front. An effective advance in this sector would seriously menace the German's hold on Lille, which is five miles from the nearest British position.

Heavy Italian Loss.

London, June 7.—The capture of more than 10,000 Italians in three days is claimed in the Austrian official statement issued Wednesday.

German Attack Stopped.

Paris, June 7.—A strong force of Germans made an attack near St. Quentin at midnight last night. Today's official statement says that the attack was caught under a violent French fire and the attackers retired after heavy losses.

German Statement.

Berlin, June 7.—German troops yesterday captured French positions over an extent of one and a quarter miles along the Chemin-des-Dames front, south of Parney-Plain in the Aisne region, says today's official statement.

Early today, the German statement says, the battle in Flanders fully flared up after most violent explosions and violent drum fire.

ROYAL NEIGHBOR DANCE HAS BEEN POSTPONED

The Royal Neighbors' dance which was to have been held last evening at the Armory on Georgia street, was postponed on account of inclement weather and will be held Wednesday evening, June 20th.

REGISTRATION IN COUNTY GREATER THAN ESTIMATED

COMPLETE FIGURES SHOW THAT 2,770 MEN REGISTERED ON TUESDAY; ESTIMATE WAS 2,738 MEN.

FULL REPORT WILL BE MADE TONIGHT

Estimated That Near Sixty Per Cent of the Registered Persons Claim No Exemptions.

(By Associated Press)

Delta county enrolled a larger number of young men between the ages of 21 and 30 years than the government census estimate. The number of men registering in Delta county on Tuesday for the selective draft was 2,770, while the government census estimate was that 2,738 men of the county were eligible for registration. Thus it is estimated that 32 more men than the government estimated would register, did so in Delta county. The last returns were received this morning, being those of Brampton township. In this township 49 men registered. Cornell township reported last night the registration of 48 men between the ages of 21 and 30.

It is roughly estimated by County Clerk Pepin that 60 per cent of the men who registered Tuesday are eligible for service; that is made no claims of exemption on any grounds. About 20 per cent have dependent relatives. 10 per cent are claiming because of some physical disability, and another 10 per cent may be found to be exempt from service.

Using this estimate as a basis, although the percentages may be changed considerably by the final figures, Delta county has 1,662 men who are ready to serve without asking for any exemption.

By tonight it is expected that the entire information desired by the government will be available at the county clerk's office and that nothing will prevent the making of a full and complete report to the government late today.

WOMAN ARRESTED ON CHARGE OF ARSON

Kearsarge, June 7.—Mrs. Louis Yuhasz of this city, has been arrested upon complaint of C. N. Dewey, upper peninsula deputy state fire marshal, on the charge of having committed the crime of arson. It is charged that the woman set five fires to her house on May 21. There was no one home at the time the fires were discovered. The fires did not completely destroy the home.

Bert Bacon of North Dakota, is visiting relatives in this city.

WHAT YOUR \$50 WILL DO FOR THE UNITED STATES

The Liberty Loan Committee gives the following statement, showing what the United States could buy with the proceeds from each \$50 bond:

- Fifty dollars will buy—
 - 1,000 pounds of flour, or
 - 1,250 pounds of bread,
 - 700 pounds of sugar,
 - 800 pounds of potatoes,
 - 400 pounds of fresh beef,
 - 1,000 pounds of ammunition,
 - 3 standard rifles,
 - 8 pairs of blankets,
 - 26 coats,
 - 200 pairs of socks,
 - 21 khaki suits.
- Fifty dollars will equip one soldier for the front, and \$500 will keep him for one year.

KRONSTADT BEEN TURNED BACK TO RUSS OFFICIALS

SECESSIONISTS RECOGNIZE AUTHORITY OF PROVISIONAL GOVERNMENT AND FORTRESS IS RELEASED.

GREAT CRISIS HAS AGAIN BEEN AVERTED

Socialist Ministers Influence the Council of Soldiers and Workmen to Abandon Plan.

(By Associated Press)

Petrograd, June 7.—The Kronstadt incident is closed. The local committee of soldiers' and workmen's delegates has recognized the authority of the provisional government.

The local committee of soldiers' and workmen's delegates at Kronstadt decided on assuming control of the great fortress, guarding Petrograd, and refused to recognize the provisional government. The secessionists put forward the proposition of splitting Russia up into a great number of self-governing communities and sent out missionaries to neighboring towns to urge them to join the movement.

The socialist ministers in the provisional cabinet went to Kronstadt and endeavored to persuade the secessionists to abandon the plan. The present surrender is apparently the result of the argument of the ministers.

MR. HARRINGTON TO BE BURIED FRIDAY

Funeral services for the late Nelson C. Harrington, Escanaba pioneer who passed away yesterday afternoon at the family home, 210 Wolcott street, will be held tomorrow afternoon at the home at 2:30 o'clock, Rev. W. J. Datsun, rector of St. Stephen's Episcopal church, officiating. The body will be laid to rest in Lakeview cemetery. The services will be in charge of the Masonic order, of which the deceased was a member.

Mr. Harrington had been an invalid for about 15 years. He was an engineer on the Peninsula division of the North-Western prior to his retirement on account of his health. He was a veteran of the Civil war, having taken part in Sherman's march to the sea. He was a member of the Brotherhood of Locomotive Engineers and of Delta Chapter, Royal Arch Masons.

His son, Charles, of Racine, Wis., has arrived here for the funeral services.

BANK CHECKS AND DRAFTS BE TAXED

(By Associated Press)
Washington, June 7.—A new tax of 2 cents on all bank checks and drafts over \$5, expected to raise \$1,500,000, was today added to the war tax bill by the senate finance committee. The committee also struck out the house provision to tax all social, athletic and sporting club dues, expected to raise \$1,500,000.

WISCONSIN REGISTERS 245,758 YOUNG MEN

(By Associated Press)
Washington, June 7.—The governor of Wisconsin has reported that the state total of registration was 245,758, divided as follows: White, 210,897; colored, 564; aliens, 5,588; alien enemies, 28,709; indicated possible exemptions, 115,189. The census estimate was 229,897 for the state.

STEAMER SILVER SHELL DEFEATED SUB ATTACKS

MRS. MARY GOLDEN, AN EARLY PIONEER, IS CALLED BY DEATH

PIONEER RESIDENT OF CITY WHO WAS ABSENT FOR THREE YEARS, DIED WHILE ON VISIT HERE.

Mrs. Mary Golden, who was a resident of Escanaba for nearly 40 years, prior to moving to Washington state three years ago to make her home with her children, passed away this morning at 10:30 o'clock at St. Francis hospital of pneumonia, following an illness dating since Memorial day.

Her death will be a great shock to her many friends here, many of whom did not know that she had returned to the city to spend the summer with relatives. On Memorial day she visited the cemetery, where her husband, William Golden, a veteran of the Civil war, is buried, and caught cold. But little was thought of her illness at first, but Sunday evening, a physician was called and pronounced her ailment as that of pneumonia. She was taken to the hospital where she failed gradually until her death this morning.

Mrs. Golden was 68 years of age and numbered her Escanaba friends by the score. She had always lived here up to three years ago and was widely known. Three years ago she went west to make her home with her daughter, Mrs. Charles Lane, and her son, William Golden, at Sifton, Wash., and only returned to Escanaba a short time ago to visit with friends during the summer.

Word of her illness was sent to the daughter and son on Tuesday evening and they are expected to arrive Saturday. Pending their arrival no arrangements will be made for the funeral. Mrs. Golden is survived only by her daughter and son, and a grandson, Thomas Golden.

Deceased was a distant relative of Mrs. J. J. Corcoran, 629 South Elmore street, with whom she had been visiting part of the time since coming back for the summer. By her charitable and congenial disposition she made friends by the score during her long residence here and her death will cause a great deal of sorrow in the city.

2ND OFFICERS CAMP TO BE ENROLLED

August Training Squad at Ft. Sheridan to Be Notified Before Opening August 27.

W. J. Clark, local chairman of the officers' reserve training camp enrollment committee, has received a few instructions relative to the enrollment of men for the second series of officers' camps, which will open on August 27. It is probable that the second camp will be smaller than the one now operating, and it is also likely that a new system of registration will be used, which will do away with the necessity of the applicants being examined by examining boards.

Selections for the next camps will be made in advance of the opening date so that men who are called may have ample time to arrange their business affairs and leave their homes without seriously harming their personal affairs. The communication received by Mr. Clark from the Military Training Camps' association is as follows:

'The reports of branch chairmen were presented to the war department in Washington last week by officers of your association so that profit might be made of the experiences of the members of this association in improving the system of making examinations.

The plan now under consideration contemplates the use of a new application blank carrying several headings, such as "Military Experience," "Leadership," "Mental Training," etc., each of which will accord a certain number of points according to the qualifications of the candidate under

U-Boat Seen to Disappear After Running Fight and Exchange of Sixty Shots.

AMERICAN SQUADRON OFF FRENCH COAST

Minister of Marine of France Announces Arrival of Squadron in European Waters.

(By Associated Press)

Paris, June 7.—The American steamer *Silver Shell*, 5,600 tons, has had a battle with a German submarine in the Mediterranean Sea. After the exchange of 60 shots the submarine disappeared. Details of the fight were made public today by the minister of marine.

The *Silver Shell* in command of Captain Thariton, sighted the submarine on May 30. In a running fight which ensued, the American boat was speedier than the enemy craft and seemed also the master in gunfire. The disappearance of the submarine was sudden.

Rear Admiral LaCaze, minister of marine, said it was unknown whether the submarine was sunk by a shot from the *Silver Shell* or whether it submerged voluntarily.

News of this occurrence was received with satisfaction by the French public, coming after the announcement that an American squadron had arrived at a French port.

Admiral LaCaze referred to the value of this co-operation and laid emphasis on the multiplication of patrols together with the assistance of hydro-planes as the quickest method of disposing of the submarines.

Washington, June 7.—William J. Clark of New York, a warrant officer on the battleship *Arkansas*, commanded the gun crew which sunk a German submarine in the Mediterranean Sea.

"It was a splendid piece of work," Secretary Daniels said today, "and we are now considering promotion for Clark, who well deserves it."

MACCABEES MUSICAL PROGRAM ON FRIDAY

The Woman's Benefit association of the Maccabees, Delta Review, No. 90, will give a most excellent and pleasing musical program at the Moose hall on South Georgia street, Friday evening which will start at 8 o'clock.

Some of the best Escanaba talent in music circles have been secured, so it is sure to please all who appreciate music. Special awards will be given at the close of the program.

OSBORN TO DELIVER COMMENCEMENT TALK

Marquette, June 7.—Former Governor Chase S. Osborn of Sault Ste. Marie will make the commencement address at the Northern Normal in this city at the exercises on Tuesday, June 19. President James H. Kaye of the Normal, will deliver the baccalaureate sermon on Sunday, June 17.

Each heading. Only those candidates whose applications total a certain minimum number of points will be given examination by an army examining board. This method will automatically cut down the number of examinations, thereby enabling the examining boards to do their work in the most thorough and discriminating manner.

"In selecting candidates for admission to the first series of camps, haste was absolutely necessary and it was, therefore, impossible to employ a system of selection involving comparisons of the relative merits of all applicants. Some meritorious men were of necessity overlooked, but an examination of the history of the Civil war or of the Spanish-American war will make it clear that never before have candidates been selected with less political favoritism or better discrimination and that the candidates who are finally selected from the training camps will make excellent leaders for our army.

"The next camp will be smaller and the selection will be made well in advance of the opening date with the expectation that men of substantial business connections will have ample time to arrange their affairs and will come forward as candidates for commission."

The Daily Mirror, Escanaba, Mich., Escanaba, Mich., June 2, 1917.

Gentlemen:— We wish to state in your columns that while we were not the successful bidder for the space on the front page, we are very well satisfied that it is being used for so worthy a purpose. Both the Red Cross and the Y. M. C. A. fill an important place in the struggle now on and we feel that both are entitled to all the support the citizens of Escanaba can give.

Yours very truly,
THE RICHTER BREWING CO.
Per R. Hoyler.

OFFICIAL NEWSPAPER OF CITY

Orders for delivery of The Daily Mirror by mail or carrier, can be made by postal card, letter, telephone or in person.

Change of Address. In ordering change of address, both old and new address should be given.

Any irregularity in delivery of The Daily Mirror should be immediately reported to the business office.

Matter intended for news or editorial publication should be telephoned or addressed to the editor.

If your paper fails to reach you before eight o'clock, a call to Western Union office, phone 4321, will bring a paper to your door without cost.

HAVE YOU CONTRIBUTED?

Three worthy causes, each one of them as worthy as the other, have been explained at length in The Mirror as well as every newspaper in the United States, and all have to do with the success of the undertaking of the United States across the water. Money the nation needs in order to bring the war to a successful conclusion, to take care of its wounded and sick soldiers and to provide for the comfort of the men who will make up the first contingent to the front.

The Liberty Loan is the biggest undertaking of the government and through it the nation expects to raise the money to carry on the war. Liberty Loan bonds are on sale in Escanaba at all of the banks in denominations of \$50, \$100, \$500 and \$1,000. Subscriptions will close, however, on June 15 and those who have not subscribed should do so without delay.

The Red Cross is equally as worthy a cause as any of the others and has to do with the comfort of the wounded and sick soldiers. Funds must be raised for this purpose and Escanaba has taken action to form a chapter to affiliate with the National organization. Memberships are being solicited now and 1,000 memberships at \$1 each are needed. Applications for memberships should be left with the secretary of the organization or the treasurer.

Last, but not least, is the campaign to raise \$5,000 in Delta county for army Y. M. C. A. camps. Of this amount about \$4,000 has been raised, but subscriptions are wanted from every source. Any size of a subscription will be accepted for the army Y. M. C. A. work, and any of the banks will take the subscription.

If you cannot buy Liberty Bonds, you can at least subscribe to a membership in the Red Cross chapter and contribute \$1 to the army Y. M. C. A. It is your patriotic duty to do what you can. Will you do it?

REPATRIATE THEM.

Congressman John J. Rogers of Massachusetts, has presented a bill

Michigan needs You!

The Michigan National Guard needs 4,000 men. Each company wants 50 men. Enlistments in the Guard must be made before the draft.

Young men, answer this call and help your state bring the Michigan National Guard to war strength at once.

Active Training by July 15

The Michigan National Guard has been called by the U. S. Government. It will go into active training on or before July 15.

Enlist now and you will be a soldier, armed and equipped, in a thoroughly organized force, before the selective army is called.

And while you are drilling with your home company you can keep at work until sent to the training camp.

You'll find the Recruiting Officer at the Armory.

Michigan War Preparedness Board
Gov. Albert E. Sleeper, Chairman

to the House that will appeal to the justices of members, and very likely pass in the near future. It provides that if an American citizen has taken an oath of allegiance to one of the Allies since the beginning of the war in Europe, in order that he may enter the army of that country, he shall not be considered as having expatriated himself. There are thousands of such cases, and now that the United States is at war those men are fighting our battles as well as those of the country with which they are serving. Representative Rogers believes that the American people will not consent for a moment that a penalty shall be inflicted under such circumstances.

SIGHT CHECKS NOT TAXED.

It was largely due to the opposition of Representative Charles H. Sloan of Nebraska that the proposed tax on checks payable at sight was defeated in the House. Mr. Sloan comes from a district where a great deal of creamery business is done. Thousands of small checks are issued by those establishments each month to the farmers, and a 2 cent tax on each would prove a big expense and a greater annoyance. In an eloquent appeal to the House, Mr. Sloan succeeded in saving his constituents from the imposition of such an irritating form of taxation.

LITTLE LAKE HAS ANOTHER MYSTERY

Body of Man Who Enlisted Some Time Ago in Escanaba Has Been Found in Mud Hole.

The badly decomposed body of a man believed to be "Judge" Nichols, aged 23 years of Princeton, was found near Little Lake yesterday afternoon by a party of woodsmen. The body, excellently clothed, is believed to the authorities to have lain in the position in which it was found for at least a month. How it came is a mystery.

as it bears no marks of foul play. Nichols, if he is the man, enlisted in the regular army at Escanaba some time ago, leaving Princeton, where he is well known, to take his examinations. Having qualified as a recruit he was sent to Jefferson Barracks, Mo., and a short time later, an express package, containing civilian clothes and bearing the Jefferson Barracks post mark, was received by relatives at Princeton. Coroner Prin of Ishpeming has arrived at Little Lake and will hold an inquest. In the meantime the authorities are investigating the case.

CLOVERLAND CROPS AGAIN LEAD STATE

Crop Report of June 1 Shows the Upper Peninsula to Be in Lead on All Farm Crops.

The monthly crop report by Secretary of State Coleman C. Vaughan, issued June 1 as for the month of May shows that Cloverland crops again lead the entire state in condition and in most all cases show a decided lead over the counties of the lower peninsula.

The Wheat Crop.

The average condition of wheat is 72 in the state, 70 in the southern counties, 66 in the central counties, 82 in the northern counties and 91 in the upper peninsula. The condition on May 1st was 76 in the state, 73 in southern counties, 67 in the central counties, 88 in the northern counties and 96 in the upper peninsula. The condition one year ago was 97 in the upper peninsula. The ten years' average condition of wheat in the state on June 1st from 1907 to 1916, both inclusive, is 86.

The total number of bushels of wheat marketed by farmers in May at 98 flouring mills was 95,056 and at 94 elevators and to grain dealers, 108,616, or a total of 203,672 bushels. Of this amount 8,338 were marketed in the northern counties and upper peninsula. The estimated total number of bushels of wheat marketed and consumed by growers in the ten months, August-May is 11,000,000. Sixty-six mills, elevators and grain dealers report no wheat marketed in May.

The Corn Crop.

The acreage of corn planted or to be planted as compared with last year is 103 in the state, 108 in the southern counties, 115 in the central counties, 107 in the northern counties and 105 in the upper peninsula. The condition of corn as compared with an average is 82 in the state, 77 in the southern counties, 86 in the central counties, 87 in the northern counties and 92 in the upper peninsula.

The Potato Crop.

The acreage of potatoes planted or to be planted as compared with last year is 113 in the state, 105 in the southern counties, 122 in the central counties, 119 in the northern counties and 127 in the upper peninsula. The condition as compared with an average is 83 in the state, 77 in the southern counties, 87 in the central counties, 94 in the northern counties and 99 in the upper peninsula.

The Oats Crop.

The condition of oats as compared with an average is 86 in the state, 82 in the southern counties, 88 in the central counties, 91 in the northern counties and 97 in the upper peninsula. The condition one year ago was 87 in the state and southern counties, 78 in the central counties, 95 in the northern counties and 98 in the upper peninsula.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for System.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

"Talking about Non-Skid Tires"

It seems to us that some tire manufacturers just cut out the raised tread pattern on their tires with a jig-saw at random; while others figure out the tread formation as common sense directs.

The Diamond "Squeegee Tread" is surely a "reason why" tread. Look at the cross bars. When the weight of the car rests on them, they just naturally get a TOE HOLD on the pavement and stop forward slide.

Then look at the longitudinal bars. They are continually in contact with the pavement and not only stop side skid ALL THE TIME but roll along as smoothly as a plain tread tire.

So if you want a real non-skid tire, we'll sell you a Diamond at its "Fair-List" Price.

Diamond TIRES

PROTEST AGAINST THE FIREWORKS ORDINANCE

Several Escanaba merchants last night made a protest to the city council on the ordinance recently passed making it illegal to sell fireworks in the city this year. The merchants let it be known that they have already made their purchases and that it is

impossible to make cancellations, and that the ordinance will cause a hardship to them.

The council instructed Chief of Police Tolan to make an investigation as to the extent of stocks on hand and to ascertain if it is possible for the merchants to have their orders cancelled

or to dispose of their stocks in unrestricted territory.

The annual meeting for the election of officers will be held at the Episcopal parlour, Wednesday evening, June 6. All officers are desired to be present. 157

The Story of San Rey

Two months ago the San Rey cigar came into existence, at that time the Escanaba Cigar Co. employed three cigar makers and strippers, with a pay roll of \$75.00 per week. Today they are employing nine men, two boys and three girls, with a pay roll of \$200.00 per week.—There is a reason.

We want to double the pay roll within the next three months. How are we to do it? The answer is up to the cigar smokers.

PERSONAL PARAGRAPHS

Miss Maude Mennie of Milwaukee, is the guest of her sister, Mrs. Kickbush.

Miss Ella Christenson of Stonington is visited her sister, Mrs. Ole Thorson.

Miss Alma Gauffin has returned from Chicago where she submitted to an operation at St. Luke's hospital.

The wood yard office of the I. Stephenson Company Trustees has been discontinued, and the wood yard business will now be handled at the office of the lumber yard at the foot of Ludington street. Phone 315. 157-4f

J. P. Pfiffner, general sales manager and F. C. Brown, mechanical expert, both of Milwaukee, are in the city demonstrating the new Pathfinder twelve. They are here on a tour through northern Michigan and Wisconsin in the interests of the Pathfinder Automobile company.

Mrs. Wm. McGraw left this morning to visit in Appleton.

Miss Gertrude Sheahan, who is training at St. Joseph's hospital in Milwaukee, is spending her vacation in the city with friends.

The wood yard office of the I. Stephenson Company Trustees has been discontinued, and the wood yard business will now be handled at the office of the lumber yard at the foot of Ludington street. Phone 315. 157-4f

Miss Anna Doner left this morning to attend the graduation exercises at Milwaukee.

Gordon Dewar of Perronville, is visiting in the city.

Gus Fridden of Yalmer, Mich., was in the city yesterday. He left this morning for his camps at White Dale.

Louis Harmon of Cornell, left last night to attend the Short Horn Cattle sale at Chicago.

Born to Mr. and Mrs. Julius Seefeld of Bark River, a baby girl last Tuesday, June 5th, at the home of Mrs. Seefeld's parents, 221 South Oak street. Mrs. Seefeld was formerly Miss Anna M. Anderson of this city.

NATIONAL GUARDS BEING RECRUITED

All Companies Are Being Enlisted to Full Strength; Chance for Young Men.

The National Guard is now recruiting to war strength, in preparation to the call for active service. The 33rd Michigan Infantry is already in Federal service. Men desiring to join it can do so by getting in touch with the recruiting committees in the following home stations: Flint, Bay City, Port Huron, Alpena, Pontiac, Saginaw, Houghton, Owosso, East Jordan, Cheboygan, Sault Ste. Marie and Menominee. Transportation will be furnished any young man to join the companies from any of these cities to the present location of the company.

The 31st and 32nd Michigan Infantry, the Signal Corps, located at Ypsilanti, the artillery at Lansing, the cavalry at Detroit and South Haven, field hospital at Grand Rapids, ambulance companies at Detroit and Bay City, and the engineers, Calumet, also desire to fill their ranks. Infantry companies of the two regiments last named are stationed at Detroit, Ann Arbor, Monroe, Jackson, Coldwater, Adrian, Kalamazoo, Big Rapids, Ionia, Grand Haven, Grand Rapids and Muskegon.

Young men who desire to see service are advised, if they live in any of the above named towns, to join the home company. If they reside in neighboring towns they should go to the nearest company station and enlist. Thereafter they can stay at home, arranging their affairs and receiving training until the organizations are called to the colors, which will be about July 15.

"Oh Look!
I can eat 'em all—they won't hurt me! That's because they're made with Calumet—and that's why they're pure, tempting, tasty, wholesome—that's why they won't hurt any kid."

est company station and enlist. Thereafter they can stay at home, arranging their affairs and receiving training until the organizations are called to the colors, which will be about July 15.

RAPID PROGRESS ON NEW BUILDING

Work on the new manual training building which is being built west of the present high school building, is rapidly progressing. The windows for the first floor are now being placed. The same masons who did the work on the high school building are doing the work on the addition, and in joining the two buildings the work is so excellently done that they assume the appearance of being constructed at the same time.

COUNCIL TO BORROW SUM FOR 90 DAYS

The finance committee of the city council was authorized last night to borrow \$15,000 for a period of ninety days to pay off a loan of a similar amount due on June 10. A number of bills were passed by the council last evening and an adjournment taken until next Tuesday evening.

SOO GAME WILL BE AN EXCITING ONE

First Meeting Here Next Sunday of Two Rival Baseball Teams Expected to Draw Crowds.

Escanaba and the Soo baseball teams will clash in the first game of the season between the two teams at South park ball grounds this coming Sunday and it is expected that a full grandstand and bleachers will witness the initial contest between the two rivals. These two teams have been fighting each other in past years, in a friendly way, for honors and last year the honors were about even. What will happen this year is yet to be learned.

At any rate Blackhall and Laurence will be the battery at the park next Sunday and it is expected that the great mound artist, a find for Escanaba, will prove as effective as he has against other teams this year.

The Soo expects its hands full with the Escanaba team as is evidenced by the following from the Soo paper:

"The Soo City team is today working out at the Athletic park in preparation for next Sunday's contest at Escanaba. The locals expect that Escanaba will be one of the strongest teams it will meet this season. A week from Sunday the Escanaba team will play in the Soo.

"Escanaba has a stronger team than last season. Many old professionals are on the list including a number of men who have seen action in the majors."

WAR CAUSES RUSH IN NATURALIZATION WORK

Houghton, June 7.—Henry Block of St. Paul, United States naturalization examiner for the upper peninsula and northern Wisconsin, is authority for the statement that since the war started, applications for citizenship have increased 50 to 300 per cent in the upper peninsula. He cited Iron county as an example where many German residents are applying for their full citizenship papers.

STRAWBERRY SOCIAL.

The Ladies' Aid of the Presbyterian church will give a Strawberry Social in the church parlors at 7:30 Friday evening, June 22. A musical program will be enjoyed after which strawberry shortcake will be served.

HOW "TIZ" GLADDENS TIRED, ACHING FEET

No more sore, puffed-up, tender, aching feet—no corns or callouses.

"Tiz" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters, bunions and chilblains. "Tiz" draws out the acids and poisons that puff up your feet. No matter how hard you walk, how long you dance, how far you walk, or how long you remain on your feet, "Tiz" brings restful foot comfort. "Tiz" is magical, grand, wonderful for tired, aching, swollen, smarting feet. Ah! how comfortable, how happy you feel. Your feet just tingle for joy; shoes never hurt or seem tight. Get a 25 cent box of "Tiz" now from any druggist or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy. Just think! a whole year's foot comfort for only 25 cents.

ST. JOSEPH'S SCHOOL GRADUATION JUNE 12

"The Rainbow Kimona" is to Be the Title of Play Given as Part of the Program.

Everything is in readiness for the graduation program of St. Joseph's high school at St. Joseph's auditorium on Tuesday evening, June 12. Rehearsals for the play, "The Rainbow Kimona," are being held daily and promises to be a great success. The complete program, together with the dramatic personnel is as follows:

- Entrance March..... J. Mueller
- "Queen of Summer"..... High School Chorus
- "THE RAINBOW KIMONA"..... Comedies in Two Acts, Presented by Girls of Class of 1917.
- Cast of Characters—
- Nellie Van Tassel, President of the Rainbow Society..... Cecelia Hemes
- Ruth Ashton, Vice President..... Lillian Dolorier
- Beatrice Courtney, Class Poet..... Rose Kemmer
- Olive Mercer, President of the Basket Ball Team..... Eugenia Thomp
- Edith Jones, The New Senior..... Loretta O'Donnell
- Alice Marlon, the Treasurer..... Frances Loritz
- Isabel Sutro, the Secretary..... Rosella Gallagher
- Winifred Turner, Student..... Florence Russell
- Luella Brown, Student..... Marie Burke
- Rose Jackson, Miss Penelope's Colored Maid..... Theresa Bink
- Act II. La Traviata—Piano Solo..... Eugenia Thomp
- Presentation of Certificates to the Eighth Grade and to pupils of the Progressive Course of Music by Rev. Julius Henze.

AGITATORS ARE BOUND OVER TO HIGH COURT

Foreigners Arrested for Inciting Riot in Negaunee Must Face Charges in Federal Court.

Marquette, June 7.—Peter Pieri, an Italian, who is said to have gone to Negaunee from Virginia, Minn., and John Soekkel, a Finn, a resident of Negaunee, brought to Marquette, charged with inciting opposition to the registration for draft at a mass meeting in Negaunee, were bound over to the next session of the federal grand jury, after refusing a preliminary hearing before F. J. Schultheis, U. S. district court commissioner.

The men were brought before Commissioner Schultheis in the Marquette county jail, and there declared they would wait for the grand jury, which meets in the Soo, July 10. Asked if they wished the privilege of release on bonds of \$2,000 each, they both answered in the negative.

MENOMINEE MOOSE TO PLAY AT GLADSTONE

Menominee, June 7.—The Moose baseball team will journey to Gladstone on Sunday to play the fast Delta county aggregation, it was announced by Manager Knutsen of the Moose team.

Krause of Marquette, has been engaged to do the pitching for the Gladstoners in the game Sunday. Emil has made quite a reputation for himself this season, and Gladstone feels confident of a victory.

Mrs. A. S. Pearson is the guest of relatives and friends at Iron Mountain.

MANISTIQUE STARTS MOTORCYCLE RACING

All of the well known motorcycle riders, known to Escanaba fans, will be seen in action again this season the first race being at Manistique this coming Sunday. Prizes to the amount of \$125 have been provided for four races, a three-mile, a five-mile, a ten-mile and a fifteen-mile event.

Following are the riders who will enter Sunday: Carl Oaks, of Oshkosh, Wis., riding an Excelsior; Fred Burger of Menominee, on a Jefferson; H. Jarlow of Marquette, on a Harley-Davidson; Johnny Seymour of Escanaba, on an Indian.

MARINETTE EXPECTS TO GIVE A MILLION

But \$600,000 of the Amount Was Given in Two Amounts; "Uncle Ike" Gives \$200,000.

Marinette, Wis., June 7.—Marinette expects to subscribe for one million dollars' worth of Uncle Sam's Liberty Bonds.

Such a splendid showing will place the Queen City in the forefront of communities in the country anywhere near its size.

The largest subscription was that of Henry Swart, the well known Marinette lumberman, who put down his name for \$400,000 worth of Liberty Bonds through the First National bank.

Former Senator Jaac Stephenson followed with a subscription of \$200,000, and other smaller subscriptions are believed to be sufficient to bring the grand total up to the million mark or very nearly there.

NORTH ESCANABA WILL GET SANITARY SEWERS

The city council last evening instructed the board of public works to prepare plans, specifications and estimates of cost for the North Escanaba sanitary sewer system and to report the same to the council at once.

Included in the sewer plan are the Wells, Stephenson and Corcoran sewer districts all of which seemed to the council as greatly needed. Heretofore that part of the city has not had sewerage service, but the completion of the new trunk line makes it possible to connect up the northern part of the city now.

WILL NOT ASSUME ANY RISK FOR ACCIDENTS

In making a report on the claim for damages presented against the city by Albert Anderson in behalf of his son, who is alleged to have injured himself on the slides at Ludington park, City Attorney H. R. Dotson last evening reported to the council that the city is not liable for injuries sustained by the children at the playgrounds, and that Mr. Anderson had no claim of damages against the city.

Allen's Foot-Ease for Troops.

Many war zone hospitals have ordered Allen's Foot-Ease, the antiseptic powder, for use among the troops. Shaken into the shoes and sprinkled in the foot-bath, Allen's Foot-Ease gives rest and comfort, takes the friction from the shoe, and prevents the feet getting tired or foot-sore. Young men in every community are using Allen's Foot-Ease in their drills for Military Preparedness. Drug and Dep't Stores everywhere sell it, 25c. Don't accept any substitute. Try it today.

MARINETTE DEMANDS TWO MEN EACH CAR

City Councilman Says Accident at Menominee Was Result of Lack of Men on Street Car.

Marinette, Wis., June 7.—"Had there been two men on the street car which was struck by the North-Western passenger train recently at the Taylor avenue crossing in Menominee, the accident never would have happened," Alderman James Pederson informed members of the Marinette city council.

The words threw a cold chill over the councilmen and the large crowd present, as it again brought fresh memories of the terrible accident which occurred recently in Menominee.

"The new one-man system has been a decided failure, Alderman Pederson said, inasmuch as at least six accidents have occurred since the system was installed. "Several of these accidents have resulted seriously," Alderman Pederson said, "and it is about time that this should stop."

"I believe that the lives of our people should be protected," Alderman Pederson continued. "There are none of us safe when we ride on those cars, whether there are gatemen or not."

Use "Gets-It," Lift Corn Right Off

Shrivels, Loosens—and It's Gone!

"Just like taking the lid off—that's how easy you can lift a corn off your toe after it has been treated with the wonderful discovery, 'Gets-It.' Hunt the wide world over and you'll find nothing so magic, simple and easy as 'Gets-It.' You folks who

have wrapped your toes in bandages to look like bundles, who have used salves that turned your toes raw and sore, and used plasters that would shift from their place and never "get" the corn, and who have dug and picked at your corns with knives and scissors, and perhaps made them bleed—just quit these old and painful ways and try "Gets-It" just once. You put 2 or 3 drops on, and it dries at once. There's nothing to stick. You can put your shoe and stocking right on again. The pain is all gone. Then the corn dies a painless, shriveling death. It loosens from your toe, and off it comes. "Gets-It" is the biggest selling corn remedy in the world today. There's none other as good. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Escanaba and recommended as the world's best corn remedy by Hill Drug Co. and The Mead Drug Co.

AT THE THEATRES

AT THE DELFT TONIGHT.

"I like him because he's so darn natural" is Mae Tinee's criticism on Theodore Roberts, who plays the part of Abel Manning in "The American Consul," at the Delft tonight. Mr. Roberts is the most celebrated character on the stage or screen.

The country politician which he portrays in "The American Consul" is a lawyer in a small town in the middle west where Mr. Roberts chanced to spend several weeks one summer. According to Mr. Roberts, this lawyer always has his ear ready waiting for the nation to call him either as a senator, ambassador or president. He spoke at all the public meetings and was called "Councilman," owing to the fact that the only political office he ever held, in spite of all his struggles, was member of the town council.

"THE DANGER TRAIL."

How would you like to be imprisoned with fifty pounds of dynamite and with a sputtering fuse leading to the explosive? That was the situation to which John Howland, American engineer awakened. A fuse led to a box on which he was bound. A slow, creeping glow came toward him! The hour, the minute had come! It was a diabolical plot to take his life!

How John Howland's life was saved at the final moment; how a great love came to him with the heart and hand of the Canadian lassie; how the tangle of circumstances were finally unraveled, are incidents in "The Danger Trail," a heart throbbing romance of love and hate in the Canadian Northwest. "The Danger Trail" is the first Selig drama in which H. B. Warner appears. He is supported by a new leading lady, Miss Violet Heming, and by W. Lawson Butt, Arthur Donaldson and Richard Thornton. This Selig K. E. S. E. drama will be presented tonight at the Strand theatre.

GERMAN SUB FIRED ON CREW IN BOATS

(By Associated Press)
An American Port, June 7.—An American destroyer on patrol duty off an Irish port came upon a German submarine shelling a life boat from a ship sunk by it, killing two and wounding seven, according to survivors of the submarine vessel, who reached here aboard an American liner today.

The submarine disappeared before the destroyer could get a shot at it and the American war vessel then rescued 20 survivors of two ships sent down in sight of the American destroyer, taking them to a British port.

CAR SERVICE WILL BE IMPROVED TOMORROW

Announcement was made by the Escanaba Traction company today to the effect that the wind put the eastern end of the car line out of order but the western end is in working order. It is probable that everything will be fixed by tomorrow.

WHAT IS THE NATURE OF A LIBERTY LOAN BOND?

There are two kinds of Liberty Loan Bonds. Bearer Bonds are to be issued in denominations of \$50, \$100, \$500 and \$1,000. These Bearer Bonds, which are made payable to bearer, have interest coupons attached which are detached by the holder when the interest installments they represent are due, and can be cashed at any bank the same as a United States Treasury note.

Registered bonds are to be issued, which are registered as to both principal and interest, in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000; checks for the amount of interest due will be mailed out semi-annually to the holders of these registered bonds.

MAY LAKE COMMERCE LESS THAN IN 1916

Sault Ste. Marie, Mich., June 7.—The statistical report of lake commerce through the canals at Sault Ste. Marie and Ontario for the month of May, 1917, shows a large decrease over last year. This showing was due to the almost unprecedented ice conditions over the western Great Lakes.

The largest decrease is shown in iron ore, of which 6,436,467 tons were locked through, in comparison with 15,837,114 tons in May, 1916. Grain and wheat show a slight increase. Hard coal in May, 1916, reported 251,381 tons; last month, 244,510. Of soft coal in May, 1916, there were 2,675,552 tons while during May this year the report shows 1,204,117 tons, a decrease of \$71,435 tons.

There were 2,278 vessel passages this year, 649 of which were locked through the Canadian canal. Of the total freight locked through, 6,590,714 tons were handled through the American canals and 2,217,178 tons through Canada.

The most profitable—as well as the most interesting—"little journeys" are those made in answering classified ads.

NAVY RECRUITING IS BRISK AT ISHPEMING

Ishpeping, June 7.—Recruiting for the navy has taken a decided turn for the better within the last week in the upper peninsula, according to recruiting officer Thoms, in charge of the navy recruiting in the peninsula. The daily average for the last week has been thirty per cent better than before.

NOTICE TO PUBLIC.

For the past several days Hansen & Jensen have been unable to supply their customers with gasoline, but they wish to announce to the public that from now on they will be able to serve their customers as the tank car of gasoline they have been waiting for has arrived, and they now have two tank cars on hand instead of one as in the past.

AUTOMOBILE QUERIES

I have a considerable amount of lubricating oil that has been in the car but a short time. Owing to the oil getting past the piston rings, causing the motor to smoke, the remaining oil becomes dark and smells of smoke. Is there any way in which I could clean this and make it fit to use, as I have changed rings and expect no more smoke from the motor?

Probably this oil is not so bad but that it is still good for several hundred miles of running. Oil becomes dirty very shortly after it is put in the motor, and the fact that it is now black is no indication that it is not a good lubricant.

According to some engineers, it is possible to clean oil that has been used for some time so that the oil is practically as good as new, but there are others who question whether this really can be done, and furthermore it is a great deal of trouble to renovate the oil.

I would like to replace my five passenger body with a seven. Will the extra overhang on the rear axle hurt the motor?

The extra load will not harm the motor if the latter is not allowed to labor on high gear. When it is evident that the car cannot climb a certain hill on high gear rather than force it up a shift to second should be made. The same applies when running on second gear and low gear is required. There is more danger of hurting the springs or wearing out the tires. Possibly it will be necessary to substitute stiffer springs. Unless the tires are amply large for the weight they are now carrying overloads should be put on at least on the rear, where the greater load is.

My car has a pressure gauge system for oil. If the motor base gauge shows nearly full the oil pressure gauge needle registers the pressure. If half full this pressure gauge does not register. Does this mean that the oil does not circulate, or does it circulate insufficiently to register?

When the pressure indicator does not register the oil system is not operating. The gauge in the oil reservoir should never be allowed to show as low as one-half or one-quarter full. Oil should be kept up to between three-quarters and full at all times. It is advisable any time the pressure gauge does not register pressure when the motor is accelerated that the condition causing the same be corrected.

What per cent of the gasoline that goes into a cylinder is burned and what per cent is wasted? I have been told that 22 per cent is burned. Is this correct?

The percentage of the gasoline which is burned is far higher than you have been told, but it varies to such a degree, depending on the design of the motor, the carburetor adjustment and many other reasons, that a definite or even a fairly approximate figure cannot be given. Probably what the party tried to convey to you was that about 22 per cent of the energy in the fuel went to the rear wheels. This is true. The energy from gasoline is in the form of heat, and very close to 75 per

cent of the heat is lost through radiation, etc.

Is there any way of adjusting the generator after the battery is taken out of a car, as I have heard that if something is not done to the generator after the battery is disconnected it will burn out the generator?

There is no way of adjusting the generator, or, in fact, any of the electrical equipment, to give satisfactory operation with the battery removed. If your car has a distributor ignition system you cannot run it without a battery. If it has a magneto which is a separate unit from the starting and lighting system the only safe way to operate the car, if the battery is removed, is to disconnect the generator entirely so it will not operate.

If the generator is allowed to run without having a battery connected into which the current generated may be put the voltage will build up at high motor speeds, with the possible and very probable result that the armature windings will burn out.

What is the cause of gasoline running out of the bottom of my carburetor or just as soon as the motor stops?

The probable cause of the gasoline running out is that the heavy fuel which is in the manifold condenses after the car has stopped running and will run back into the carburetor and drip out. By putting a full hot air attachment on the motor so that all the air is heated by passing through a muff surrounding the exhaust manifold, the dripping will probably be stopped. It is not a serious trouble, however, and if your motor runs well the chance would not do other than perhaps give you a slightly greater fuel economy.

The center bolt in my rear spring breaks frequently. How can I prevent this?

The only explanation is that you allow this bolt to come loose or when you put in a new one you do not tighten it sufficiently. Use a lock washer to hold the nut from turning and in addition see that the spring clips are tight.

ACCEPTED FIFTEEN FOR ARMY TODAY

Today was the best day at the local recruiting station in several weeks, fifteen men being accepted and ready to be sent tonight to Jefferson Barracks. Of the enlistments today, five came from Sidway; two from Iron River; one each from Escanaba, Crystal Falls, Alpha, Sagola, Bergland, Marquette and Mohawk.

The Escanaba recruit was James Chakeres, a native of Greece, who took out his first papers today and then enlisted. He has been employed at the Candyland as a candy maker. The Gladstone recruit was Ivan W. Johnstone, a traveling salesman.

FOR SALE—A couch, gas stove and rug. Inquire 302 N. Norris St. 160

WANTED—A good girl for general housework. No housecleaning. Mrs. Ed. Erickson, 201 Harrison Ave. 160

"Price Fixing"

There are two kinds of "price-fixing," one is contrary to the better interests of the consumer and the other is decidedly in his favor.

Now, as always, this store is true to its pledge, keeping prices of staple food products at its lowest minimum resale price.

No one can accuse us of juggling prices in our own favor. To the contrary, we set the pace here in our city for lowest prices of the day. These days accusations are flying right and left, blaming this and that party for being the one guilty of taking unfair advantage of present market conditions—juggling prices for their own personal gain.

This May Be True in Some Instances

But here in Escanaba the trading public is protected against such overhanded methods. Escanaba's big store is the bulwark that has kept (that is if there are any) crooked operators in check, giving consumers the lowest prices possible, consistent with good fair merchandise methods.

Whenever we cannot offer Flour, Sugar and other Staple Products at prices as low as the next man we at least will be fair, surely cannot accuse anyone else for our own shortcomings and poor merchandise methods. If we are not farsighted enough to anticipate and buy when market is low, and buy in quantities big enough to secure us the lowest possible prices, who is to blame? What right have we to fix the blame on someone else? If we were caught napping, of course would have to take our own medicine and do the best we could under the circumstances, but by all means we would not admit that we were poor buyers; we at least would know enough to keep our mouth shut.

Good Reason Why We Undersell

We buy big quantities. Flour, for an instance, we always buy in big quantities direct from the mill and at times when market is low we contract for many car loads at a time for delivery as needed, thus protecting us against over-night fluctuations, securing low cost prices which cannot be secured by smaller dealers.

Then on top of these low purchase prices we only add our cost of doing business and our small legitimate profit we fix a low net resale price, which we at all times guarantee to be the lowest in Escanaba.

Low Prices On Flour

Compare These Prices With Those Advertised Elsewhere

- No. 1 Famous WINGOLD FLOUR, our price, per bbl. \$14.90
- No. 2 Well Known RADISON FLOUR, our price, per bbl. \$13.50

- Fresh Leaf Lettuce per bunch 7c
- Red Lettuce, per bunch 10c, 12c
- Green Peppars, large each 5c

HOW TO MAKE A GOOD FLY TRAP

One way to control the fly is to catch it in such a trap as is shown above. The trap may be placed near the garbage can, or any other place where the flies are sure to come. A simple and effective trap may be made from a grocery box by substituting wire netting for the top and two sides, cutting a round hole in the bottom and inserting in it a wire netting cone with an eighth-inch opening at the bottom and a half-inch opening at the top. Some article of food, preferably a fish head, should be placed inside for bait. The trap must be elevated several inches above the ground, so as to give the flies a chance to enter. When the trap is full, it may be emptied by shaking its contents through a small opening, ordinarily closed by a sliding door. The trap described and shown in the illustration is a particularly effective one, as it was planned with a view to the fly's habits. The odor of food leads the fly to enter the trap at the bottom. Once inside it is attracted to the top by the light. When it gets out of the wire cone it cannot escape. The trap has the additional virtue of being inexpensive. It may be made at a cost of about 20 cents and about a half hour's time.
