### PEACE DISCUSSION OVERSHADOWS ALL GREAT WAR TOPICS

Germany has Taken an Uncompromising Attitude of Not Listening to Any Peace Terms Other Than Own.

(Associated Press War Summary) Discussion of war or peace aims is claiming public attention almost exclusively of military affairs. Active operations, in fact, are progressing nowhere just at present with the exception of the never ceasing cannonading on the various fronts and the reconnoitering activities.

Echoes of the speeches delivered by Count von Hertling, the German chancellor, and Count Czernin, the Austrian foreign minister, are plentifully found in the comments of the press and there seems comparatively little diversion of opinion in the various allied capitals.

The prevailing view in London as reflected in the press is that the Germans have adopted an uncompromising attitude of desiring to listen to no peace terms other than their own, while Austria, more conciliatory, continues, nevertheless, unremittently faithful to the Germans.

### GOES TO MEET HIGH TREASURER OF C. O. F.

With Home Town Buying

You live here. You make use of the public benefits of this city. Then help pay for them—and make it possible to increase municipal improvements. You can't do it by sending your dollars out of town. Every cent you send away to mail order concerns represents so much dead loss to the community—and no gain whatever to you on goods purchased.

WAR SAVINGS STAMPS

WHAT THEY ARE and WHY YOU SHOULD BUY THEM

Lending Your Money to the Government. Q. What security is behind the War-Savings Stamp? A. The United States Government promises to pay \$5 for each Stamp on January 1, 1923. This promise is backed by the faith and honor of the United States and by the taxing power of this country, which is the richest Nation in the world. Q. Why does the United States borrow this money? A. To pay the expenses of the war. Q. When I lend my money to the Government, would it be safer to buy a Government bond, rather than these War-Savings Stamps? A. When a War-Savings Stamp is attached to a War-Savings Certificate it becomes a Government obligation with the same security as the Liberty bonds, now held by more than 10,000,000 Americans. Q. Is the 4 per cent interest, compounded quarterly, on War-Savings Certificates paid in the same way as the interest on Liberty bonds? A. No. The Liberty bond interest is paid every six months, but the interest on the War-Savings Certificate accumulates and is paid to you in one sum, on January 1, 1923. Q. Why isn't the interest paid in the same manner on both War-Savings Certificates and Liberty bonds? A. It would be very complicated and expensive to pay interest every six months on \$5 stamps and for that reason the United States Government retains the interest until January 1, 1923, at which time it pays you the compound interest and the principal, amounting to \$5, the face value of the War-Savings Stamp. Q. Shall I sell Liberty bonds to buy War-Savings Stamps? A. No. The security behind Liberty bonds and War-Savings Certificates is the same. Keep your Liberty bonds, but buy War-Savings Stamps also. Q. Is the money received from War-Savings Stamps and Thrift Stamps used for the same purpose as the money received from Liberty bonds? A. Yes. Q. Should I take money out of the bank to buy War-Savings Stamps? A. No. You should save as much as you can every day and buy Thrift Stamps and War-Savings Stamps with these savings. (CONTINUED MONDAY)
