MORE AMERICANS GET FRENCH WAR CROSS AT FRONT

Citation of Three American Soldiers in One Sector Is Announced by Army Headquarters.

OFFICERS ARE DECORATED

On Luneville Sector Six Officers and Eight Men Given Honor at Impressive Ceremony.

(BY ASSOCIATED PRESS) With the American Army in France, (Monday) Mar. 19.—The citation of three more American soldiers carrying with it the French War Cross, was announced at the American army headquarters today, while on the Luneville sector six officers, six sergeants and two privates were receiving the War Cross with impressive ceremony.

American artillery on the Toul front today bombarded towns within the enemy lines. On several occasions a considerable number of gas shells were used. Some of the large shells hit in the town of Essey and others fell in Mont Sec.

London, Mar. 19.—Eighteen German air machines were destroyed, eight were driven down out of control, and several observation balloons were shot down by the Allies yesterday. It was announced by the British admiralty today.

(Associated Press War Summary) Although raiding activity was not so marked today as during any time last week, the artillery on both sides of the western front was unusually active. German troops who tried to enter the Belgian lines were driven back with losses.

On the British front the artillery bombing has not been so intense. British airmen have accounted for 26 more German machines and have dropped bombs on ammunition dumps, airbases and other military objects.

COUNTY AGENT GOES TO VISIT FARMERS

B. P. Pattison Went Over to Stonington This Afternoon to Talk to the Farmers.

B. P. Pattison, county agent, went to Stonington this afternoon, where a meeting has been arranged at the grange hall by the farmers of that section. It is the plan of the county agent to suggest to the farmers the proper grains to plant for the best interests of the country and he is also going to talk to them on dairying.

Westerlund Funeral Largely Attended

The funeral of the late Christ Westerlund, which was held from the home this afternoon was one of the largest attended in the city. Hundreds of friends of the deceased, who were not able to find room in the home, remained upon the sidewalk during the services. Floral offerings in great quantity evidenced the love that a number of people had for the deceased.

Correspondents of Neutral Countries Invited to Go with German Army to Western Front.

(BY ASSOCIATED PRESS) Washington, March 19.—Germany is charged in official dispatches reaching here today from France with having attempted to force Sweden to become a participant in the Brest-Litovsk conference for the settlement of the question affecting the Baltic.

Falling with her diplomacy, the dispatch says, Germany resorted to force by occupying the Aland islands and landing troops under the pretext that the act was requested by the Finns.

London, March 19.—Heads of the German army have invited a number of neutral correspondents to be present at the German offensive on the western front, the Exchange Telegraph correspondent at Copenhagen reports. The correspondents will leave for the front on Wednesday.

EYES OF WORLD ARE TURNED UPON CLOVERLAND NOW

W. A. Stenger of Milwaukee Said So at a Luncheon in Menominee Yesterday.

GROW 2,000,000 SHEEP

The Northern Peninsula Ought to Be Growing That Amount Every Year, He Says.

"The eyes of the world are now turned towards Cloverland and upper Wisconsin, as one of the greatest spots in the world for the raising of sheep and cattle," said Wesley A. Stenger of Milwaukee, who delivered an address on the facilities and resources of upper Michigan and Wisconsin before the Commercial club at Menominee yesterday.

Mr. Stenger is the sales manager of a newly organized sheep company which has opened a demonstration ranch at Phillips, Wis., and which is planning opening another ranch in Florence county, Wis., and Dickinson county, Mich.

"The amount of wool needed for each person is eight pounds per year, and the amount of meat needed for each person is 75 pounds. To get this there is required one sheep for every person.

Short 2,000,000 Sheep.

"Statistics show that this country is behind this, having less than one sheep for every four persons. The upper peninsula and northern Wisconsin have some of the most resources for sheep raising of any in the country. The climate here is far superior to that of the west, and this district is nearer the great sheep market of the country than any other where sheep today are being raised.

"There would be less depreciation in shipping sheep either to the market for meat or the wool to the New England factories than any place in the west. The upper peninsula is two million sheep short of what it needs. Sheep would bring millions of dollars in manufacturing to this part of the country and would replace the lumbering industry which is about through (Continued On Page 8)

YOUNG MOTHER DIES AFTER LONG ILLNESS

The sad though not unexpected death of Mrs. Chester Schram occurred late yesterday afternoon. For some months it has been known that there were no hopes for her recovery, but nevertheless her death will be regretted by the friends of whom she had many.

She is survived by her husband, one child and three step-children.

Wisconsin Election Primary Watched by Nation in Big Test

(BY ASSOCIATED PRESS) Milwaukee, March 19.—The loyalty primaries were favored today by fine weather which brought out voters in large groups. In Milwaukee where there was also a municipal primary it was estimated that 20,000 votes had been cast up to 1 o'clock this afternoon. This is 3,000 more than were cast at the municipal primaries held two years ago.

Milwaukee, March 19.—Contest for the United States senator office and non-partisan city offices in Milwaukee started this morning with a fair sized vote cast during the first hour. The interest primarily is in the vote to fill the office left open by the death of Senator Paul O. Husting. This election is generally regarded as being a test of Wisconsin's loyalty to the nation. With paper ballots being used the returns tonight are bound to be received slowly.

Rockford, Ill., March 19.—No arrangements have been made for the Wisconsin soldiers to vote at the senatorial primaries today. It was announced at the headquarters of the 24th Infantry. There are 1,200 Wisconsin soldiers in the regiment.

HOLLAND WAITING ENTENTE'S REPLY TO HER CONDITION

Inability of German Government to Furnish 100,000 Tons of Wheat Is Reason for Pact.

CARRY NO WAR SUPPLIES

Dutch Officials Declare Stipulation Includes Vessels Must Not Be Used for Troops.

The Hague, March 19.—Holland has accepted with certain conditions the Anglo-American demands regarding Dutch ships in the danger zone.

This was announced today by Dr. Loudon, former minister, in his talk to the Chamber, who added that Holland could not go further and was awaiting the Anglo-American reply to its latest communication. The minister declared this will be discussed in the Chamber Tuesday.

"The German government having declared its inability to furnish 100,000 tons of what within a stated period," he said, "Dutch ships will proceed through the danger zone with the assurance of American and British delivery of 100,000 tons of wheat by April 15."

Dr. Loudon added, however, that the assent of the Dutch government was based on conditions. Included were the claims that the allied governments guarantee not to transport troops or war materials on the ships, and that the vessels destroyed be replaced by others.

50 PERSONS DEAD AT COBLENZ FROM RAIDS BY ENTENTE

Traveler Back From German War Zone Tells of Deathly Fear by Natives of Americans.

THOUGHT U. S. PLANES

(BY ASSOCIATED PRESS) London, Mar. 19.—Fifty persons were killed, great material damage was done at Coblenz, Germany, on March 12, when Allied airmen raided the town, according to a neutral traveler who arrived Monday at the Hague.

"The people believed the raiders were Americans," the traveler said. "I was in the neighborhood of Mulheim (north of Coblenz and also on the Rhine) at 10 minutes past noon when suddenly all factory whistles blew and sirens whistled to warn the people of an impending air raid. Passing street cars stopped as their crews and occupants bolted into houses. Four or five airplanes passed overhead.

"They are Americans," said some of the people when they thought the Americans were coming. A Dutchman I knew rushed up to me and said, 'Didn't I tell you Americans would come sooner or later?'

"I cannot say whether the machines were actually Americans but the striking thing was the evidence that there has been general skepticism as to whether the Americans would come, with an equal fear of them."

The neutral traveler also added that although the machines merely passed over Mulheim, it was not until nearly 4 o'clock in the afternoon that the "clear all" sign was sounded.

Pay Increases For Postal Men Likely

(BY ASSOCIATED PRESS) Washington, March 19.—Flat pay increases of 15 per cent for all employees in the postal service, whether on annual salary or day-pay basis, and including those of all grades and classes, were recommended today by the senate postal sub committee in revising the annual postal appropriations. It is expected the measure will be passed by both the house and senate.

GOOD-BYE, DOLLAR

Every dollar you send out of town away with a VALUE that rightfully belongs to YOUR COMMUNITY. Spend it at home, with your home-merchant, where its value stays with YOU and helps to build up YOUR interests. When you come to think of it, there are only two kinds of dollars—the "Dollar with Wings" and the "Development Dollar." The "Dollar with Wings" goes to build up the Far Distant City, the Big Metropolis, with its vice and crime and low wages and poverty. The "Development Dollar" goes to build up the Home Town. It helps build up a Nation of real men and women. Then, let us make the dollars we spend "Development Dollars" home-town builders, building for us and our neighbors and our children, making OUR community more prosperous, more happy, more contented.

BOLSHEVISM HERE WILL BE BATTLED

Priests and Members of Russians Here to Be Americanized Under Plan of Citizen Clergy.

(BY ASSOCIATED PRESS)
New York, March 19.—With a view to Americanizing the priests and members of the Russian church in this country and to counteract the effect of the Bolshevik doctrines, the Association of the Citizen Clergy of the Eastern Holy Orthodox church of America has been incorporated at Albany.

The purposes of this action, according to the Rev. Ingram N. W. Irvine, D. D., head of the English department of the Russian church, was, "to unite clergy and laity more closely, to further the interests of the church among the Russians and other various nationalities holding a similar doctrine in America; to encourage American citizenship among clergy and laity; to secure necessary financial assistance; to create high spiritual and social ideals among the laity; to stimulate interest in American schools and institutions; to protect the clergy and laity from unwarranted and libelous attacks; to hold the Episcopate as sacred and to take all means to prevent the appointment of unworthy persons to the clergy."

"As a result of the false hopes held out by the Trotsky-Lenine regime, the Russian Church in America has been depleted of many members and priests," said Dr. Irvine. "They went back to Russia in expectation of receiving free land and other privileges not available in the United States."

"There are not now, so far as I know, six Russian priests in the American Mission who were here when I was ordained in St. Nicholas Cathedral," he continued. "We have between 800 and 1,000 missions and parishes in America and during the regime of Emperor Nicholas II received annual grant of \$100,000 for the propagation of our faith in this country."

"Because of all these transitional conditions, the citizen clergy of the Eastern Holy Orthodox Church, met together in an informal way recently and decided to incorporate, so as to create stability and to stop, if possible, the migration of priests and people."

Dr. Irvine said that Tikhon, the Patriarch of the Russian church, elected in November last, during the Kerensky regime in Russia, is a man of liberal spirit who, as Archbishop of the Russian Church in North America had absorbed the spirit of democracy. Tikhon, he said, was the first Patriarch of the Russian church since Peter the Great in the 16th century abolished the Patriarchate, of Russia and set up, instead, the Holy Synod. He introduced into the Synod a Propa-

tor General. Dr. Irvine said, Peter had paved the way for the insinuation of Germanic influences in the life and aspirations of the Russian people and that this Teuton influence in church and state had been for centuries the curse of the Russian nation.

BOY SCOUTS ENLIST WAR SAVING ARMY

SEC'Y McADOO APPEALS TO THEM TO GO TO EVERY HOUSEHOLD IN LAND.

RED POST-CARD CAMPAIGN

President Wilson to Thank Leading Scout Salesmen for Distinguished Service.

Washington.—The 350,000 Boy Scouts of America have been asked by the Secretary of the Treasury to enlist an army of war savers throughout the country. The scouts have instructions from their national headquarters to ring every doorbell in the land, deliver a short talk on the necessity of saving, and take orders for Government war-saving securities—the 25-cent and \$5 thrift stamps.

President Wilson will write a personal letter of thanks to the scout in each State who has the highest record of sales during the year, and the wives of the Cabinet members have offered to give a victory flag in each State to the troop standing at the top at the end of the year.

Secretary McAdoo, in his appeal to the scouts, says:

Your splendid work in the Liberty Loan campaigns proved that the Government can count on you and your organization. Knowing that you are always ready to serve your country, and realizing how widely war-savings stamps may be sold through your efforts, I take pleasure in presenting you another opportunity.

Five million red post cards have been printed by the Government for the special use of the scouts. These are orders for the local postmaster to deliver savings stamps. The boys will take the orders for stamps from house to house, drop the signal cards in the mail box, and the post office will do the rest.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture. You can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

"BOY WANTED—TO EARN THRIFT STAMPS"

When you see the sign, "Boy Wanted—to Earn Thrift Stamps," or its companion sign, "Girl Wanted," hanging in the window of any Michigan home, you are to understand that the first schoolboy coming past is eligible for the job which awaits him inside. By simply knocking at the door and saying, "I've seen your sign and am ready to do your work," it means that the householder can use him with windows to scrub, ashes to empty, an errand to run, dusting to be done, something to fix, or any one of dozens of odd jobs which the schoolboy can do as well as the skilled laborer. The basis for payment has been fixed at 25 cents per hour, payable to the school-children, however, not in the form of money, but in Thrift Stamps, of which the householder will already have a supply, or can readily obtain at the nearest drug store, grocery store, or other authorized station, or from the postman.

In order to foster the success of this movement, house holders are being requested to reserve such odd jobs, to display the card calling for a Thrift Stamp boy prominently in the window, and in every case to pay for such service only in Thrift Stamps.

As Frank A. Vanderlip has so pointedly defined the work which the War Savings Certificates and the Thrift Stamps are intended to accomplish: "They are going to raise \$2,000,000,000. That is a big thing; the biggest financial transaction ever undertaken in this country, except the two Liberty Loans."

"But that is not the great thing about it. It is going to teach thrift to America. That is a great thing. We needed the lesson. We needed it desperately. We have not stood up very well under the hardest test of all—prosperity. We have become careless; we have become a spendthrift people. Our savings do not compare per capita with those of much poorer countries. Sweden has five times as much savings per capita as we have in this country. So has Switzerland. We have fifteen million depositors in savings banks. I believe we shall see thirty million holders of these certificates. That will be something. It will be thirty million stockholders in the United States."

Those Toothsome Apple Pies.
The origin of the toothsome variety of pastry known technically and practically as apple pie has long been shrouded in mystery. That it has had a long, if not eventful history, is evidenced by the distinct recollection of men now approaching the period of the serene and yellow leaf of the apple pie "mother used to make," and which formed such a prominent place in the dinner pail menu at the midday recess of the old-fashioned district school.

NEW DISEASE NOT POPULAR.

Discovery in New York of a new disease, labeled "knitting nerves," arouses only mildly curious comment throughout the country. The story from Gotham involved the breakdown of a considerable portion of the feminine population through an ailment superinduced by too close attention to knitting. Out West we have a homey phrase, on which much genuine success depends—that one should "attend to his-(or her, as the case may be) knitting." There is nothing in this to indicate that nervous depletion follows on its application. Quite the contrary, for it will insure safety as well as prosperity, says Omaha Bee. New York women may have peculiar susceptibility, and, if so, they are to be commiserated. Hereabouts needles will continue to fly and tons of khaki yarn will be turned into comforts for soldiers. The nerves of our women will sustain a much more severe test than comes from making garments so prized by the boys in camp and trench. If New York wants to get serious attention out this way it must come through with something better than "knitting nerves."

Important figures on the world's wheat crop for 1917 gathered by the United States food administration show that the combined production of all countries is about 32,000,000 bushels less than last year and about 400,000,000 bushels less than the pre-war average. This decrease from the pre-war average is more than 10 per cent. France shows the greatest decrease of all countries, her 1917 crop being 54.5 per cent less than her average crop before the war. The total world crop of wheat is estimated at 3,347,924,000 bushels, of which the United States produced 659,797,000 bushels, the greatest amount of any nation. Other principal wheat countries arranged according to size of crop, are Russia (in Europe), India, Canada, Argentina and Australia. Approximately two-thirds of the wheat crops for 1917 was grown in countries open to world commerce.

It pays to save food. The individual citizen may think that what he can accomplish amounts to little, but the reverse is true. If he and his neighbors each make such sacrifices as they should, the aggregate benefit will be very great. The amount of food saved by the new campaigns in hotels and restaurants is more impressive in a way, although it is less in fact as a whole, than the saving of individuals, says Providence Journal. In New York a fine showing has been made in this direction, and in Massachusetts, it is now announced, the hotels and restaurants saved 4,000 barrels of flour and 640 tons of meat in October. This is applied patriotism. Let us keep it up.

The skyscraper goes up stone by stone, brick by brick, foot by foot, day by day, slowly. There is no other way to build it. Europe's war food shortage must be made up by individual Americans through saving bit by bit, ounce by ounce, day by day, persistently. There is no other way to do it.

A clothes limit has been put on in Germany, and a man is not permitted to have more than three shirts, and everything must be purchased by card. In this country, the card system is not needed, so effective is the price-fixing plan.

Can't Do The Work

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

Mrs. Herman Nelson, 606 Wells avenue, Escanaba, says: "What caused my kidneys to get out of order, I don't know, but they bothered me a lot. It seemed as if my back would never stop aching, and housework which required stooping was impossible. My back was lame and pained most severely when I tried to bend over. Dizziness bothered me greatly and I always felt tired out and languid. Two boxes of Doan's Kidney Pills ended the trouble and I was soon about my housework feeling like a different woman."

Golden Rule Has A Place In Trade Here In Escanaba

(Continued From Page One)

Fortunately for business and for the world at large, however, these persons are few and far between. The great majority of people are honest.

It has been proven repeatedly that even in business it pays to practice the Golden Rule, just as it has been proven repeatedly that "honesty is the best policy." It not only makes a man feel better down in his heart when he employs the principle of the Golden Rule, but it finds that it is good business. This applies not only to the man who stands behind the counter and gives a full pound of sugar to the man who asks for a pound, but also to the man who stands on the other side of the counter and pays his money for the pound of sugar.

Does Consumer Do His Part?

The consumer expects the merchant to be honest and square and give him his money's worth for every penny that he spends with him, but how often does the consumer stop and ask himself the question, "Am I being as fair and honest with the merchant as he is being with me?" The consumer not only expects the merchant to give him honest weight and full measure at the lowest possible price, but he expects a world of other things at the same time. Nine times out of ten he expects the merchant to give him credit, and nine times out of ten the merchant does it. Many times he expects the merchant to "carry" him for three or four months before he pays for what he buys, and as many times the merchant does it. He expects the merchant to pay for advertising space in the church program which he is getting up, and the merchant does it. He expects the merchant to "kick in" most liberally when he is raising a fund for the benefit of the town band, and the merchant does it.

He expects the merchant to provide the bonus which is to be paid to obtain a new factory which will benefit the working man, the clerk and everybody else in the town, and the merchant does it. He expects the merchant to "come across" with a donation to help the poor family which otherwise would become a charge upon the common funds of the community, and the merchant does.

Another Side to Picture.

Now, look on the other side of the picture. Mr. Consumer decides that he needs a new suit of clothes, or Mrs. Consumer decides that she wants a new kitchen range, or some of the little Consumers express a desire for a train of cars or a bobbed. Mr. Consumer picks up the big mail-order catalogue which the mail-order house has printed with his money or that of others like him, and he looks it over until he finds a picture that strikes his eye. It's a picture of a "nifty" looking suit of clothes. Of course, he can't feel the picture to see whether the cloth is as good as it looks; he can't look the mail-order man in the eye and ask him whether he will guarantee it to wear for at least a month or six weeks; he can't tell the mail-order man that he will drop in the first of the month and settle for it; he can't tell the mail-order man that he would like to have a little of his business or a

chance to do a little carpenter work or painting or plumbing work for him, as long as he is buying his goods from him, for the mail-order man hasn't any business or any work to give him. But the picture is a pretty one, so Mr. Consumer digs out his hard-earned cash, goes down to the postoffice, buys a money-order and sends it to the mail-order man.

After a week or ten days, or possibly two weeks, the suit arrives. It may be nothing like the picture. The chances are that it doesn't fit at all. But there is nothing for Mr. Consumer to do but put the suit on and wear it. He can't get his money back. He might send the suit back and the mail-order man might send another in its place, but the chances are that it wouldn't be any better than the first and Mr. Consumer would only be out the additional express charges.

Found Golden Rule Pays.

Mr. Consumer found that it pays to remember the Golden Rule in business. If he had done unto the merchant as he would-like the merchant to do unto him, he would have got more for his money and he would have aided in making it possible for the merchant to help him and his town when they needed help.

The world has discovered that the Golden Rule is not for use only on Sundays, but that it is value on every day of the week.

THE THEATRES

AT THE DELFT.
Director Robert C. Vignola, who has been responsible for many of Pauline Frederick's recent Paramount productions, while at Lake George, New York, with Miss Frederick and the cast of "The Hungry Heart," which is her new picture, earned the name of "The Submarine" for his propensity for swimming along under and suddenly "torpedoing" some unlucky member of the party by seizing their rifles and sending them gasping and struggling to the bottom. Many of the out-door scenes of "The Hungry Heart" were filmed in the vicinity of Lake George and the photography is said to be exceptionally good. The picture at the Delft tonight. War picture also shown.

"A whirlwind of action and a riot of fun, and typically Fairbanks," is the way Manager Jacobs describes the new Douglas Fairbanks film, "Reaching for the Moon," produced for Artcraft, coming to the Delft Wednesday and Thursday. With New York and Italy as backgrounds, extraordinary "film punches" are presented, interspersed with flashes of real comedy. The story allowed spectacular treatment, and Artcraft has produced it on a lavish scale, making it a notable offering, and one of the most pretentious yet issued from the Artcraft studios.

The reproduction of the Venetian settings are well done, with picturesque canals and romantic gondolas. Magnificent settings and an extraordinary supporting cast including such well known players as Frank Campeau, Eileen Percy and Eugene Ormonde, make this film an exceptional attraction.

Australians "Fall" For Scotch Lassies At Rate 800 Month

Sydney, New South Wales, March 15.—The Agent-General of the New South Wales Government in London has telegraphed to the Premier that Australians are marrying English and Scottish girls at the rate of 800 monthly. He expects that the rate of marriages will continue or increase, and requests that the government grant free passages to these wives when they are ready to go to Australia with their husbands. The government will do this.

It is said that the Australian soldiers are peculiarly susceptible to the Scotch girls.

If we do not see the youth that has passed, middle age is a state of dignity. It has more of pleasure and less of pain than has blundering, suffering youth. The world moves more steadily for us. In youth it tumbled about to our discomfort. Age need not terrify us, for if we have prepared for it it will be life's holiday. Don't apologize for middle age. Exult in it. It can be a melancholy state or a triumphant one. Which it shall be depends upon us.—Chicago Examiner.

A Kidney Medicine That Is O. K.

Eighteen years ago I began to sell Dr. Kilmer's Swamp-Root and for the entire period of time that I have handled it I have never been called upon to answer to a complaint regarding the value of the preparation. It has given general satisfaction and I do not hesitate to recommend Swamp-Root for it gives good results in the ailments for which it is intended and my customers in many instances have O. K.'d the curative value.

Very truly yours, C. J. LOGSDON, Druggist, Sept. 19, 1916. Osborn, Ohio.

Mrs. Murray Will Sell Her Marquette Stores

Former Escanaba Woman Has Decided to Close Her Grocery Business at Marquette.

The Marquette Chronicle has the following article in reference to Mrs. Murray, who was formerly Miss Katherine Moran of this city:

"One of the business surprises of the day came with the announcement of Mrs. Frederick Murray that she had marked down the prices of her high grade groceries and would sell them out immediately with the hope that the old Murray store may close its doors on April 15.

The Murray store is one of the oldest merchandise places in the city, having been formed 54 years ago by David Murray and Byron Robbins. They went into business on Front street near Baraga avenue. Later they moved to the old building which occupied the space now taken by the Bacon block.

Mr. Robbins retired and Mr. Murray died so that in 1910 Frederick Murray, son of the founder, took charge. The fire came in 1912 and the Murray store was moved to the Warner block where it has remained ever since. Mr. Murray died in 1914 and Mrs. Murray took charge.

"I am tired. I have had a strenuous time and am going to rest. The only way to rest is to get my business cares down to the lowest notch," said Mrs. Murray. "I am going to sell out piece by piece unless someone comes along and wants to buy the business. It will be too bad to permit such a business as I have to expire but it seems to be the only way to get rid of it."

The Murray sale is now on. All of the goods have been cut in price and prices marked on each parcel. Besides groceries, Mrs. Murray will sell her horses, wagons, sleighs, store fixtures and all her other holdings connected with the store.

Great Annual Spring Sale of Pianos and Player-Pianos

Opened at Warehouse This Morning and will Continue for 10 Days

Note the Bargains Mentioned—Think of the Advantage of Having First Selection—Come Early

HERE ARE A FEW OF THE

Piano Bargains

Spring, at the House of Grinnell, means a sweeping readjustment of stock—a weeding out of all sample Pianos—the elimination of every discontinued style—an absolute clearance of all the vast accumulation of exchanged instruments which the Winter months have brought us—a reduction, just as far as possible of new stock through special buying advantages—the disposal of the many rental instruments on our floors.

It's a time of house cleaning—of going most carefully through our vast stock—of immediately moving every instrument not important in meeting the regular buying demands—and, at the same time, providing space necessary to care for new stock for Spring and Summer business.

The instruments and prices mentioned will give you some idea of what this great clearance means to the quick buyer.

Red Cross Notes

Announcements of Meetings of the Various Classes Working for the Red Cross and Other Notes of Interest.

By Mrs. I. G. English.
The Nahma branch of the Red Cross held a fine meeting Saturday on the return of the chairman, Mrs. F. G. Forbes, from Escanaba. Ten St. Jacques women, who are working with the Nahma branch, attended and the afternoon was spent making compresses and knitting. Ice cream and cake were served at the close of a pleasant afternoon. This group of women have been among the most active in the patriotic work of the Red Cross and are entitled to much credit.

Knit, knit, and keep on knitting. Knit all the warm socks that you possibly can. Maj. Grayson P. Murphy, former head of the Red Cross relief work in Paris, and now a member of Gen. Pershing's staff, has expressed the need of our men for comfortable footwear in the following letter to Miss Mary Davison, sister of Henry Davison of the Red Cross war council.

"Although I am on the eve of departure," he wrote, "I cannot help sending you a few lines in connection with our conversation this afternoon. You could not have taken up more useful or necessary work than that of supplying well made warm socks for the use of our troops abroad. The war has developed few diseases as painful, or as destructive of efficiency as those connected with the feet of the men in the trenches. A plentiful supply of well made socks will go very far towards preventing suffering and keeping men available for service. From my observations abroad and from my knowledge of what infantry soldiers have to face, I have no hesitation in saying that the work which you have undertaken is among the most necessary and the most useful of all those in which our people are engaged in connection with the prosecution of the war. I hope you will send over all of the socks that you can. Under no circumstances whatever can you send too many."

The Campfire Girls have donated an attractive afghan for the Belgian refugee shipment.

Owing to a temporary shortage of gauze, surgical dressings will be made only from 9:30 to 11:30 a. m. and 1:30 to 4:30 p. m.

It must be understood that this is only for a few days and announcement will be made when all day sessions are to be resumed.

Eyes Of World Are Turned Upon Cloverland Now

(Continued From Page One) in these parts.

Business Will Thrive.
"Of course, you may feel that you have your ore mines to keep the upper peninsula going industrially, but a community will progress better if there is a variety of industries.

"The government is urging everyone to raise sheep for wool, and the business promises to thrive even after the war. The upper peninsula would be doing a patriotic duty to take the proposition, and at the same time be starting a profitable business.

"We could get the woolen mills in these parts and industrial work would be greatly increased. Authorities on the sheep raising question say that the upper peninsula will overlook one of its greatest opportunities if it does not get into the sheep raising business."

War Material Prices To Be Fixed By U. S.

(BY ASSOCIATED PRESS)
Washington, March 15.—Creation of a price fixing committee under the war industries board which will pass on the prices for all raw materials purchased by the government, and establish price fixing from time to time to be approved by the president, was announced today by the Council of National Defense.

Men To Leave In Next Draft Call About March 29th

Delta County Will Have to Send 63 Men in Order to Complete County's Quota.

Formal announcement calling for the number of men Delta county must furnish in the next draft call was received by County Clerk Albert J. Pepin yesterday afternoon and while the date of departure may be on March 29, the local board will be notified later as to the exact time.

Under the new regulations, which make it possible to place in Class One men who are suffering from physical defects that can be remedied through operations, all of the men at the head of the Delta county list, who were at first given deferred classification because of defects, are to be called at once for examination before the county medical advisory board.

It is believed that six or eight men who may be made physically fit through needed operations will be forwarded to Camp Custer with the next contingent. The needed operation will be performed by some of the most noted surgeons of the country at the army hospitals and the men will be placed in military service as soon as they have recovered.

When the list of men that will be called to the colors from this county on the current call will not be available until the examinations ordered have been made, it was indicated yesterday that to supply 63 men, it will take all eligible Class One men, whose serial numbers are below 725.

Under the regulations the board can not call at this time any man who is engaged in farming either for himself or another, whether their claims for deferred classification have been granted or not. These men will not be called at least until the farm crops have been harvested this fall, provided that all to whom extensions are given remain assiduously at farm work. Should any of such men change their occupation they will be promptly inducted into military service.

The granting of extensions to farmers and farm laborers has made necessary the taking of men on the current call in other vocations with higher serial numbers than it was at first thought would be necessary.

Wear Gas Masks To Fight Houghton Fire

(BY ASSOCIATED PRESS)
Houghton, Mich., March 15.—Men wearing gas masks fought a mysterious fire in a 100,000 ton coal pile of the Calumet & Hecla company at Dollar Bay today. The strong odor of the gas rose from the burning coal pile and spread over an area of several miles.

Captain and Under Officer Among Dead

(BY ASSOCIATED PRESS)
Washington, March 15.—The casualty list issued today by the War Department contained thirty names. Capt. Phelps Collins was included among those killed in action. Lieut. George O. Middleditch died from injuries sustained in an accident.

CUBANS RETURN TO HOME; FLAG TORN

Havana, March 15.—Adolfo Tro and Antonio Lopez Rubio, the first two Cuban soldiers to go "over the top" in France, are on their way to rejoin their comrades of the Foreign Legion from an Atlantic port, after having brought, as a gift to President Menocal, on their furlough here, a tattered Cuban flag, which was raised in "No Man's Land" last April 7, when Cuba declared war on Germany.

While the measures which the Cuban Government contemplates taking to send an active fighting force to the French front are not completed, many Cubans like these two heroes have volunteered in the French Foreign Legion. Rubio and Tro left Havana September 23, 1914, to enlist in the French army as volunteers. They were accompanied by eight other Cubans, and all were incorporated in the Infantry of the Morocco division of the French army.

The shrapnel-torn Cuban flag, which is a prized souvenir of General Menocal, was hoisted by Tro and Rubio with two other Cubans, privates Ciruelo and Crespo, who were attached to the same division. The French military telephone had just brought to the sector where the Cubans were stationed, the news of Cuba's declaration of war against Germany, and the flag was hoisted on a small parapet amid the cheers of the French soldiers.

Its appearance was saluted by the Germans with a shower of shrapnel which killed Ciruelo and Crespo. Their companions regained the flag, and Rubio and Tro were commissioned to bring it back and hand it to General Menocal.

Moved by Powerful Motives.
Recklessness is no part of courage. When Cromwell and his men gave the sublime picture of heroic courage which illuminates English history, it was not that they undervalued the enormous strength of what they fought against; it was that they saw righteousness and freedom shining out beyond, and moved toward their fascinating presence irresistibly.—Phillips Brooks.

AT THE STRAND.

Some of the most elaborate battle scenes ever recorded by the motion picture camera with the possible exception of "shots" actually made at the front, are shown in the Triangle play, "The Gown of Destiny" starring Alma Rubens at the Strand theatre tonight. This play was adapted from Earl Der Biggers' Saturday Evening Post story, "Each According to His Gifts."

A French village was built at Hartsville, Triangle's 1800-acre ranch, in the Santa Monica mountains at a cost of approximately \$5,000.

Coming Thursday.
Henry B. Walthall, celebrated screen star, will appear at the Strand theatre for two days, commencing on Thursday, in his first Parlo Play, "His Robe of Honor." This production, which was adapted from a book by Ethel and James Dorrance, has a vital, fascinating story, and it is told most convincingly. The picture asks the question: "Can a disreputable lawyer be redeemed and become an upright judge?" It is answered with breathless intensity, thrilling situations, romantic moments and climaxes of smashing force.
