FARMERS' MARKET HERE

Farmers Do Not Get Good

(By MRS. A. E. ALEY)

Residents of towns and cities everywhere are beginning to realize more acutely the fact that, except under to go into the fields and improve their very unusual conditions, their communities will prosper and develop only in proportion to the prosperity and development that comes to the farming sections which surround them. Realizing this fact, commercial clubs and chambers of commerce have in recent years been devoting as much of their attention to developing the country districts as they have to securing new industries and attracting new residents. They know that as the country about the towns become more thickly settled and as the farmers become more propserous the more money will be spent in the towns and the faster these towns will grow. It is largely for this reason that the residents of the towns and cities have been doing more and more to aid the farmers in growing bigger crops and in improving marketing conditions. The towns and cities have contributed (Continued On Page Four)

Menominee Has A \$10,000 Fire In An Old Auto Factory

The old factory of the Menomines Motor Truck company was damaged to the extent of about \$10,000 yesterday afternoon by fire which was thought to have started in the paint shop in the rear of the building at 1 o'clock. The old plant while not used for the building of trucks is still used as a finishing plant. The loss was covered by insurance to the extent of \$5,000. Two new trucks that were in the plant at the time the fire started were removed without any damage to them. The company officials stated that the fire would not in any way hinder the progress of the work at the present plant.

Fire in Paint Shop. The fire which started about 1 o'clock in the rear of the building in the paint finishing shop gained considerable headway and wrecked the entire building. The flames traveled to the floor of the second story and destroyed the supporting frame. The west and east walls fell shortly after 2 o'clock. No one was injured when the huge brick walls crashed to the ground. The roof, which had been HUN OCCUPATION partly destroyed, crumbled in, causing the walls to fall.

Farmer And Local Merchant Should Work Fifty-Fifty

(Continued From Page One) more and more liberally toward the building of good roads in the country districts and have paid a large part of the expense of maintaining agricultural experts to assist the farmers in growing bigger crops and getting more money out of their crops when they are placed on the market.

Not One-Sided Proposition.

But this is not a one-sided proposithe country, so is the country dependent upon the city. What the farmer raises is worth absolutely nothing to attempt to gouge the public, the prac- | him unless he can sell it at a price that will pay him a fair return on the money and time invested in its production. The farmer, without markets, would be in the same fix as a storekeeper without customers. In almost every case the farmer is dependent upon the near-by town or city for a market for at least his perish-

In the language of the street, it is a fifty-fifty proposition. The town needs the country and the country needs the town. The farmer needs the assistance of the storekeepers of the town in securing a market for his products. He needs the assistance of the storekeepers of the town in getting good roads over which he may haul his products without losing more time than the products are worth. He often needs the assistance of the storekeep ers in helping him over a period of financial stringency.

ADAMS Pure Chewing Gum

Storekeeper Needs Farmer's Trade.

On the other hand the storekeeper needs the business of the farmer. He does not ask the farmer to sell him his products on credit even though at the time he may be hard pushed for cash and may need more credit badly. He does not ask the farmer to help him build a sidewalk in front of his store. He does not ask for the business of the farmer provided that he can sell the farmer the goods he needs at as low a price as he can secure them for

But does he always get the farmer's business? Ask the mail order man in the big city or ask the postmaster or the express agent in any town or city in the country. They could, if they would, tell of thousands of dollars sent away to the big cities to pay for goods that could be purchased just as cheaply and much more conveniently in the nearest town or city. These thousands of dollars, when sent to the mail order houses in the big cities, never come back. They do not help to build good roads past the farmers' houses. When the next crops are harvested, the mail order man won't buy any of the farmer's products. The potatoes, the tomatoes, the melons and other things that the farmer raises may lie and rot upon the ground so far as the mail order man is concerned.

No Credit From Mail Order Man. The mail order man won't sell the farmer 2 cents' worth of goods on one day's credit no matter how badly the farmer may need the goods or how little ready cash he has to pay for them. If the farmer's house burns the mail order man is not go ing to sell him any lumber on credit so that he may build another home. He will take what cash he can get the farmer to send him and there his interest in the farmer ends. If the farmer has no money to pay for what he needs, the mall order man will find others to help swell the stream of dollars which is building up his great fortune and helping build up the great city in which he lives. Let the home merchant help the farmer when he needs it. And the local merchant does help the farmer as long as he can, but there comes a time when he cannot. He cannot make money without customers. Without the legitimate profit that he makes from his sales he cannot "carry" the farmer over the rough spots, he cannot contribute to the good roads funds, he cannot pay the farmer cash for his products!

THE THEATRES

AT THE DELFT.

"Reaching for the Moon," Dougla Pairbanks' latest production for Artcraft, now at the Delft theatre, was written by Anita Loos and John Emerson, expressly for the noted star, who fairly revels in the part of Alexis, a youth occupying a humble position in a button factory until he discovered he was the missing heir to a European throne. Arteraft has been lavish with this production, which is crammed full of humorous situations and thrilling

The adventures of Alexis are ex tremely trying, and Fairbanks is af forded ample opportunity of display ing the extraordinary athletic skill for which he is noted. Alexis learns that the royal road is a rocky one. He is beset at every turn by assassins, who constantly hatch plots against him. Terrific encounters take place, and he escapes with his life only by virtue of his physical prowess,

While abounding in humorous situations, the play is philosophical in its theme, analyzing the psychology of happiness, and discussing in an able manner the serious question of what constitutes success.

Fairbanks is supported by a notable cast, including Frank Campeau, Eileen Percy and Eugene Ormonde.

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorit-Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked

lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gruy hair disappears, and after another application or two, your hair become beautifully dark, thick and glossy anyou look years younger. Women All Over the State Are Anxious to Put On Record Their Ability to Serve Their Country.

SCHOOLS BEING OPENED

Some Cities Are Now Holding Classes to Explain to the Women How to Fill Out Papers.

(Special to The Mirror)

Detroit, Mich., March 20 .- Rapidly increasing interest in registration of of women for war service is taxing the state headquarters of the Woman's Defense Committee to its capacity these days

Every mail is filled with requests for literature, for registration cards, and for speakers to address registration conferences and instructors to conduct registration classes.

The larger cities of the state have been working for weeks in preparation for registration. Thousands of registrars are trained for work in the larger centers. Now, however, the calls are coming from the smaller towns and villages, and from the rural communities, where women are eager to get in line, and register whatever war service they can give, when the census of Michigan's woman power is taken the week of April 6th.

A registration conference and school was conducted at Decatur Thursday afternoon under the auspices of the Decatur unit of the Woman's Defense Committee. Women from the village and the surrounding rural territory were in attendance. Miss Minnie Goodnow of the State Headquarters office gave the address and conducted the class.

One hundred Grayling women have volunteered to act as registrars the week of April 6 and are ready to take the instruction offered by the Woman's Defense Committee.

WHAT THE PATRIOTIC **FAMILY DID WITH \$1,000**

When the Solicitor approached this Household he was received enthusiastically as a Neighbor who was, asking the Householders to join him in the mutual effort to protect their Homes and Families from the cruelties and harsh exactions of Autocracy-and with the True Spirit of those who are saving and buying for Liberty. Mr. Head-of-the-Household signed a

On an investment of \$999.46-and they still have 54 cents left over from their \$1,000 with which to buy two Thrift Stamps toward another War Savings Stamp for Daughter, and 4 Cents be-

Now, let's see what the Percentage of Profit was to this Household:-

We'll assume that Adversity did not overtake the family and that it was not necessary that their money be withdrawn until the due date (although they would have done this if it had been necessary), in which case they would have received the value of the Stamps at the time of withdrawal, with what would be the equivalent of pratically 3 per cent in-

The length of time this Family had its money invested in War Savings Stamps was fifty-eight months,-so we will divide the Family profit of \$210.54 by 58, and we find the monthly profit to be \$3.63, or \$43.56 a year.

The Family invested practically \$1,000 and received interest of 4.356 per cent on the investment-free from all Taxes, county, state or federal.

This family subscribed for its Stamps in the True Spirit of Patriotism, and discovered that through purchasing them it had not only done its Duty to its Country, but that it had made a most excellent investment at a remunerative Rate of Interest-an Investment backed by all the wealth and earnings power of the nation.

The Family had done its Full Duty

in protecting its Home and that of its Neighbor from Autocratic Rule-and helped the Whole World to achieve Liberty, besides making a Fine Invest ment for the Family Funds, and lay-ing the Foundation for the Teaching of the Habits of Thrift to the Little
