

FIERCE FIGHTING WINS FOR THE BRITISH

TOWN OF YPRES STILL IN HANDS OF THE BRITISH

Retirement of English to 1917 Battle Line Is Now in Progress, General Belief of Experts.

HAZEBROUCK OBJECTIVE

Railway Junction Now Sought by Slowly Advancing Foe; British Win Back Town of Meteren.

PARIS, April 17.—Heavy artillery fighting occurred last night between the Somme and Oise, the war office announces.

LONDON, April 17.—The Green and British troops which on Monday crossed the Struna on the eastern front, occupied seven towns, the war office announced.

With the Ypres salient in the southwestern Belgium menaced by the continued advance of the Germans on the Lys to withdraw from this advanced line. The withdrawal was carried out in perfect order without enemy interference.

Apparently the retrograde movement is pivoting on the Wytschaete where London today reported successful counter attacks against the Germans who yesterday captured the town near the highest point of the eastern Messines ridge. They are unofficially reported as having advanced to St. Elot, two miles west, and six miles directly south of Ypres. St. Elot is on the old battlefield before the offensive began last year, a continuation of the spur to the northwest.

This may be an indication that the British retirement is to the line of battle in 1917, which would include the abandonment of the entire Passchendaele position as well as Messines ridge, which from the greater part the Germans were driven out. It would leave the town of Ypres in British hands, however.

There seems no danger of retirement if a larger scale attack is started as a result of the recent German successes. The line as a whole in northern Belgium appears likely to hold as long as railway communications are intact.

Apparently the security of communications has been provided for by massing large forces in the northwestern sector of the Lys battle front. The German object is Hazebrouck, important railway junction about four miles beyond the foremost advance westward. A British counter attack last night indicated the strength of the British line in this vital sector. It resulted in their driving the Germans from Meteren, a mile and a half west of Bailleul which they had entered.

The Germans are still hammering the British line north Bailleul. The Britishers seemed able to cope with the situation, however, for they repulsed the Germans with terrific losses, it was reported.

The present attack in Flanders does not seem to have diverted materially. The British resistance from the Somme battlefield is ready for expected attacks, and such operations as are occurring to the southward from Arras reveal the British in strength on this, the battle front where the main German effort must be inevitably exerted.

The British last night counter attacked and drove out parties of Germans who entered the British trench yesterday at another point.

The Somme battlefield appears likely to break out furiously again in the near future, judging from the reports coming from both the French and British war offices. There is a marked increase in the firing south of the Somme.

TWO FIREMEN QUIT LOCAL DEPARTMENT

George Burnett and Charles Connelly Have Both Turned In Their Resignations to City.

George Burnett, driver at No. 1 fire station, has resigned his position and will devote his time to training race horses at the fair grounds. This morning Charles Connelly stepped into the office of the city clerk and presented his resignation. He has not given his reason for resigning, but probably has other plans.

EXTRA

(BY ASSOCIATED PRESS) BULLETIN, 4:30 P. M.

LONDON, April 17.—The greater part of Wytschaete and probably all of it is in the hands of the British, Major General Maurice, chief director of military operations, at the war office, announced today.

In counter attacking successfully at Meterin and south of that place the British have driven back the Germans half way to Bailleul. They have advanced and improved their lines in the direction of Neuveglise.

Third Loan Going High; Michigan Is Making a Showing

Washington, April 17.—Subscriptions to the Third Liberty loan as shown reported to the Treasury today total more than \$931,000,000. The first day's business for the Minneapolis district brought in approximately \$25,000,000.

Reports today told of a great flood of small subscriptions from people of moderate means.

The Chicago district reported 72,000 Michiganers had subscribed to small bonds.

CASKET OF YOUNG SOLDIER IS SEALED BEFORE SHIPMENT

Orders From War Department Made It Impossible to Open Even Case Containing It.

CARLSON DECIDES CASE

Health Department Was Called Upon and Advised Obeying Government Order in Matter

When the body of Walter Nelson arrived yesterday it was taken to the undertaking parlors of J. W. Wilkinson, with the intention of removing the casket in the case in which it was shipped. This plan had to be abandoned by order of the war department. On the top of the case a notice was printed to the effect that the case was not to be opened as the body enclosed was that of a soldier who had died of a contagious disease.

Mr. Wilkinson asked Dr. Carlson about the ruling and in company with the brothers and mother of the deceased it was thought best to not open the case.

After meeting at the high school last night Company F, under command of Capt. Hewitt, acted as a guard of honor and the case was removed to the family home on Charlotte street where it was draped in a large American flag.

Funeral Held at Slocum. Corporal Nelson D. Morehouse, who accompanied the body from Fort Slocum, stated last evening that a regular military funeral had been held at the fort before the body left there. The entire regiment turned out with band and the regular army chaplain read the services. After that the firing squad fired the salute. The burial case was given conduct to the train by a special escort.

Corporal Morehouse was given but four days to bring the body to this city and return to Fort Slocum, but as there were several delays he has already overrun his time and has wired for special permission to remain in the city for the funeral. He is a guest at the Nelson home.

The last instructions given to the officer when he was leaving was to the effect that he must not allow the case to be opened and he feels grateful that it was not necessary for him to enforce that order.

Albin Nelson, a brother of the deceased, arrived this morning on a short furlough from Camp Dodge to attend the funeral and will soon return to his post.

The funeral will be held from the home tomorrow afternoon at 3 o'clock and from the Swedish Lutheran church at 2:30. The pall bearers are young men selected from Company F, Michigan State Troops.

RAIN CLOUDS ARE ONLY CLOUDS FOR LOAN DRIVE TODAY

Armed With Umbrellas and Raincoats to Combat Threatening Shower, Committees Work On.

WORK BEING COMPLETED

There Will Be But Few Left to Be Seen After Work Stops This Evening; Will Finish.

The threatened rain did not dampen the ardor of any of the loan committees this morning and they were all out early to finish as much of their work as possible before night. There will be many who will have to be seen later and in some cases people will have to be called on who could not make up their minds what amount to buy, but the largest part of the work is expected to be finished by 6:00 o'clock tonight.

To tell the amount of bonds bought up to this noon, and which has only been estimated from a few of the reports turned in would give a false idea of what has been sold. Less than half of the committees have reported and many of those that have, will turn in several sales later in the day.

A long list of business houses are said to be 100 per cent on purchases, which means that every one connected with them bought a bond of some denomination.

Reports from the townships indicate that the drive has been a little slower than in the city but this was expected.

Baker Asserts The Americans All Get Praise Of Entente

Washington, April 17.—Secretary Baker, back from a seven weeks trip to Europe, today called on all American people to renew their support for the war. The secretary expected to see President Wilson some time today to report on his trip abroad.

"The American soldier has made good in France," Secretary Baker today assured newspapermen who interviewed him. "The French and British authorities are high in their praise for the courage and endurance of the Americans."

POLICE HAD RIGHT DOPE ON MEYERS

Chief Tolan Had Secured Evidence Which Indicated That Couple Were Going West.

That William Meyers, who was shot in North Dakota last week, would have been taken into custody is a foregone conclusion at the local police station. The police department had not been at work on the case a day before they found out that Meyers was headed west and that his ultimate destination was Arrow Creek. A letter from Arrow Creek received this morning by Chief Tolan, enclosed a clipping referring to the shooting and stating that it must be the man the chief was looking for.

THE WEATHER

For Escanaba and Vicinity: Probably showers and cooler tonight and Thursday.

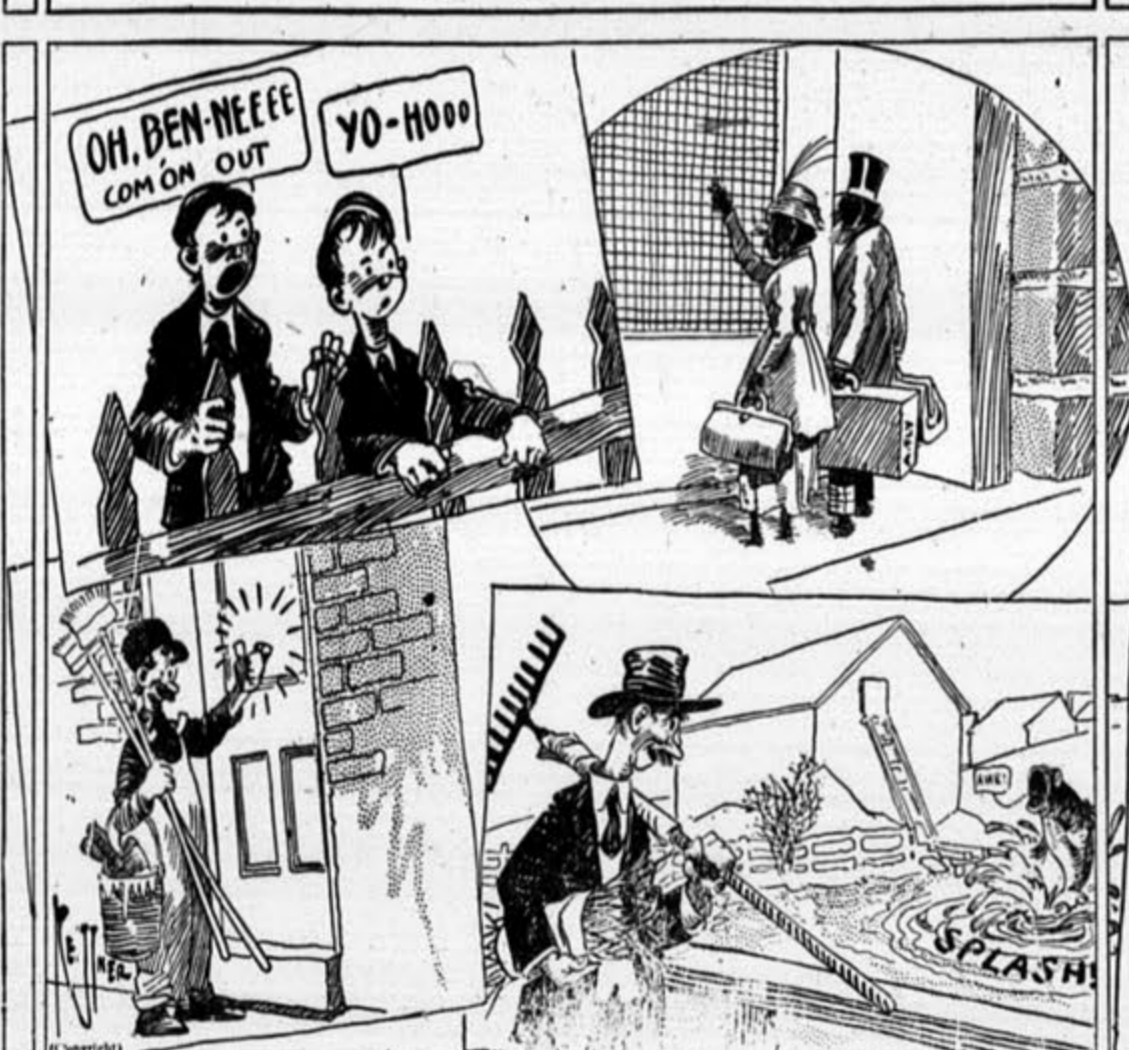

For Upper Michigan: Probably showers and cooler tonight and Thursday.

Weather Conditions. Pressure continues low in the Plains States and Mississippi Valley, with centers of depression in North Dakota and in southern Illinois and northern Missouri. High pressure predominates in the districts west of the Rocky Mountains. Within the last 24 hours rain fell quite generally in the central valleys and a west portion of the Lake region. In North Dakota and Minnesota, Kansas, and Oklahoma, and on the west Gulf and north Pacific coasts. Temperatures are lower in the Northwest and in the Southwest. Conditions are favorable for showers to continue in this locality tonight and Thursday. It will be cooler. Temperature at noon.....45 degrees Lowest last night.....35 degrees

Elizabeth, the little daughter of Mr. and Mrs. Ant one Meir, was operated on at the St. Francis hospital for appendicitis.

Mr. and Mrs. John Seymour, of Schaffer, were city visitors yesterday.

Spring Callers

CLOVERLAND GETS BIG RECOGNITION FAMOUS MAGAZINE

"Country Gentleman" in Last Week's Issue Tells of the Sheep Country Up Here.

WILL BRING SHEEPMEN

Hundreds of Ranchers and Sheep Men Will Read About the Wonderful Opportunities

In the issue of April 13, The Country Gentleman, which has the largest circulation of any magazine of that nature, the upper peninsula is given some great advertising as a sheep country in an article by George Frederic Stratton, entitled, "Sheep On Cut-Over Land."

It is illustrated by pictures taken in this section, the best one of which was furnished by G. M. Mashek, showing a bunch of his sheep. The following extracts are taken from the article:

For over half a century the lumbermen and miners of Michigan and Wisconsin have been making logged-off lands. The logging for lumber production and for the gigantic mass of mine timbers required in the excavated bowels of the earth has left, in the two states, over twenty million acres of stump land. In all that logging period scarcely the initial step has been taken to utilize the land for any purpose, farming or grazing, for both of which a large proportion of it is eminently adapted. It belongs to the great lumbering and mining companies, who have taken their crops of timber and ore and have been apparently utterly indifferent about any further exploitation of the land.

In September, of last year, Frank J. Hagenbarth, one of the greatest and most progressive sheepmen of the Intermediate Region, was called into the councils of the Food Administration for suggestions on developing and increasing the grazing facilities of his great range country; but, although he gave the Administration some points on the policies of the Interior Department in the management of range country, his mind went to the millions of acres of logged-off lands in the Great Lakes region of Michigan, Wisconsin and Minnesota, and he went in there and spent considerable time in comprehensive investigation.

DUMAS KOSKY WEDDING. Miss Mary Kosky and Francis Dumas were married at St. Patrick's church at 5:00 o'clock this morning. The bride was attended by Miss Kathryn Hoffman and George Dumas, of Iron River, a brother of the groom, was best man. After the ceremony a wedding breakfast was served at the home of the bride's sister, Mrs. Patrick Wade, at 407 South Fannie street. Mr. and Mrs. Dumas left on the morning train for Milwaukee.

Mr. and Mrs. John Seymour, of Schaffer, were city visitors yesterday.

Bolo Pasha Dies As Firing Squad Rings Out a Final Volley

Paris, April 17.—Standing before Vincennes as he faced a firing squad, Bolo Pasha completely lost his early attitude of indifference. With the shot of the guns as they rang out, Pasha crumpled up with several bullets in his head. Accompanied by guards, Bolo left the Sante prison 45 minutes before the execution. After leaving the auto he listened to the exultation of the prison chaplain. Then his eyes were blindfolded.

FIFTY NAMES ARE DRAWN FOR NEXT DRAFT CONTINGENT

Extra Name Drawn in Case One Man Is Exempted or Does Not Respond to His Call.

Following is the list of men who have been selected to go to Camp Custer on April 29th. Fifty names were selected to give the board a chance to send the full quota of men in case one of the number is ill or does not receive his notice.

- Erick F. Johnson, City. William J. Regan, Gladstone. Ostaff Desmet, Gladstone. William A. Michael, Canada. George W. Semer, Sault Ste. Marie. Eddie Rudenberg, Ensign. Antone Pukinski, Gladstone. Edwin Soderstrom, Perkins. Edwin R. Johnson, Gladstone. Nels Bjeldanes, City.

JOHN RICHARDSON WILL START SUIT AGAINST ACCUSER

Young Man Who Was Charged With Embezzlement Says He Is Going to Take Action.

BLACKMAIL IS CHARGED

Testimony of Witness Indicated That Attempt Was Made to Blackmail Friends.

John Richardson, who was cleared by the jury yesterday on the charge of embezzlement stated last evening that he would start suit against the A. & J. De Grande company and The Escanaba Journal for damages and slander.

It was claimed by the attorney, N. C. Spencer, that the loose methods adopted by De Grande in the conduct of his business made it possible for him to accuse Richardson of a crime that brought disgrace to himself and the members of his family.

(Continued On Page Two)

G. A. Strange Will Leave City Friday

Manual Training Instructor, Expects Papers Will Be Ready for Him at That Time.

G. A. Strange, who has enlisted in the mechanical department of the army, will try to leave Friday night if the papers can be made out by that time. Now that he has enlisted he is anxious to get in the service. No success has been named to take his place, but some arrangement will be made to carry on the work.

Railroad Wages To Be Reported Soon

(BY ASSOCIATED PRESS) Washington, April 17.—The railroad wage commission has completed its report which will be submitted to Director McAdoo on his return from a Liberty Loan speaking tour in the west. Nothing was made known as to the amount of increases to be given, although it was said employees now receiving the smallest pay will be given the largest advance.

FLANDERS BATTLE RAGES FAVORABLE TO ENTENTE MEN

Fierce Fighting There Since Tuesday at Last Reports Give Odds to the British Under Haig.

GERMANS SLAUGHTERED

One Account Tells of Germans Mowed Down in Waves at Close Range; Defeat Is Costly.

(BY ASSOCIATED PRESS) London, April 17.—The battle in Flanders is raging today with incredible intensity, telegraphed the correspondent of Reuter's Limited at British headquarters in France. As far as the latest reports indicate, the battle is going favorably to the British. The fierce fighting has been going on since Tuesday afternoon.

WITH THE BRITISH ARMY IN FRANCE (10 a. m.) April 17.—It was reported this morning that the British, fighting magnificently, regained Wytschaete although this had not been confirmed at the time of the filing of the present dispatch.

London, April 17.—The British at dusk Tuesday, says a Reuter dispatch, were advancing in the neighborhood of Wytschaete, south of Ypres, and again were reported to be holding ground that they lost there.

Among the numerous 'terrible' attacks in Northern Flanders the one at Lillebeke was disastrous for the Germans whose advancing waves were shot down at close range. They apparently were ordered to retire and then the British gunners got on their flank, slaughtering them in a manner that was appalling. At any rate, the desperate effort of the enemy yesterday afternoon and last night met with costly defeat.

The battle west of Bailleul has been a furious and sanguinary. Time after time the enemy forces launched themselves against the defenders in intense assaults, but on each occasion the British held out and threw the on-rushers back with tremendous losses to the Germans.

Throughout the night on the northern front thousands of guns of all calibers made the war zone hideous with its detonation that rocked places 40 and 50 miles away. There was no cessation of the battery work.

37 Lives Are Lost When Vessels Ram While Out At Sea

(BY ASSOCIATED PRESS) AN ATLANTIC PORT, April 17.—Thirty-seven lives were lost when the American steamship O. B. Jennings and the British steamer Warknight, both laden with naphtha and inflammable oil, collided off the British coast on March 24. The story was told by members of the Jennings' crew who arrived here today.

All who perished with one exception were on the British vessel. They were burned to death by the burning gas and oil.

Destroyers rescued the others in the nick of time, for soon after, while the blazing hull was being towed toward shallow water, she struck a mine and was blown up. Destroyers went to the rescue through a field of floating oil.

A number of the men on the American ship were badly burned and removed to a hospital after being landed.

FATHER GETS WORD OF SON'S DEATH

Albert J. Haas of Menominee, Received Word at Wells Last Night; Returns Home.

Albert J. Haas, who has been at Wells, where he was employed as a civil engineer by the Escanaba & Lake Superior railroad, was called to his home in Menominee last night by a telegram stating that his son Harold had been killed in action in France. The first news reached the mother at Menominee who was prostrated by the shock.

The young man was about 21 years of age and has been overseas for several months. He was a graduate of the Menominee high school and popular among his class mates.

**Someone Sent Him a pouch of Real GRAVELLY Chewing Plug**

Tobacco is about the only comfort the soldier has—and no chance to smoke on duty! But a satisfying chew of Real Gravelly Plug—he can enjoy that even in a shell hole in No Man's Land. Give any man a chew of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best! Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while. If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke. SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELLY. Dealers all around here carry it in 10c. pouches. A 3c. stamp will put it into his hands in any Training Camp or Seaport of the U. S. A. Even "over there" a 3c. stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it. P. B. GRAVELLY TOBACCO COMPANY, Danville, Va. The Patent Pouch keeps it Fresh and Clean and Good—it is not Real Gravelly without this Protection Seal. Established 1821.

**John Richardson Will Start Suit Against Accuser**

(Continued From Page One) from said investigations. In reply to detective that it was not possible for Richardson to be short any such amount. To this answer it is alleged the detective said that he had to be paid for his work and that Mr. Rushton would probably also have about \$500 coming and that it would be no more than right that Richardson should be made to pay all of it. "I will not be a party to any blackmailing scheme," is the way in which Mr. Rushton said he replied to that proposition. While Mr. Rushton was on the stand he was asked if the detective had told him of a party attended by Mr. Richardson and some of his friends. Mr. Rushton said that the detective did tell him of such a party. Mr. Rushton was then asked to tell the names of those present and what happened but the court stopped him from answering that question and declared testimony of that nature would not be permitted unless more of a reason appeared why it should be. Howard Russell, of the detective agency claimed the statements made by Mr. Rushton were not true. Mr. Richardson says that the sensational story printed about him in the Journal was the cause of much harm to himself and sorrow to his family and friends. He claims that no amount of money would repay him for the suffering caused by his false arrest and the sensational stories that went with it and that a damage suit will be the final means of clearing him before his friends. At the time of Mr. Richardson's ar-

**WELL KNOWN COUPLE MARRIED IN MARCH AT LA CROSSE, WIS.**

rest he did not deny that he was short, or rather that he might be in debt to the A. & J. De Grande company. It was customary for all the employees to draw money as they needed it and the day before he was arrested Mr. Richardson had drawn an unusual amount of money to help in the purchase of an automobile. He turned over about \$700 to Mr. De Grande when he was arrested saying that it would be more than enough to square his account and it was shown by the books that he now has something over \$300 coming from that firm. After he had paid over this money the case against him was dropped and he was not arrested again until after the detective had come up from Milwaukee and made the investigation. GERMANY WATCHES AMERICA AND ITS MANY INDUSTRIES. (BY ASSOCIATED PRESS) The Hague, April 17.—A series of articles on the "Chemical Industries of the United States" has been appearing in the "Smoker Zeitung." The series closes in the latest number of the review with an outline of measures which Germany should take to meet American competition after the war, particularly in the field of dyes and organic chemistry. INSTITUTE OF INVENTIONS IS FOUNDED FOR GERMANS Copenhagen, April 17.—A German Institute of Inventions has been founded at Giesse. It is intended to foster German creative technical work by the selection and promotion of persons endowed with inventive talent. Prizes are to be offered for the solution of important problems.

**Clarence Bourdiales and Mrs. Amelia Morton Were Wedded at Home of Bride's Brother.**

On March 29th, Clarence Bourdiales and Mrs. Amelia Morton, both of this city, were married at the home of Henry Saurbier, 1911 South 21st street, La Crosse, Wisconsin. While a few Escanaba people knew of the wedding, it will come as a surprise to many friends of the newly married couple. Mr. Bourdiales would have been among those to leave with the last draft contingent, but he was ill at the time and is still unable to leave his home at 203 North Birch street. He says he hopes to be able to leave with the next bunch of boys, but it will depend entirely upon the condition of his health as he does not want to go down to Custer and be returned. Both Mr. and Mrs. Bourdiales are well known to a number of local people who will now tender their congratulations. Ignorance, Oh, Bliss! A young clerk was called before the manager to explain why he was doing his work carelessly. "Mr. Jones," said the manager, "of late your work has been very perfunctory." Just as he was going to ask for an explanation the young clerk broke in: "Mr. Smith, I've been working here for three months now, and though I have tried my best, that's the first bit of praise I have received since I've been here. Thank you."—New York Sun.

**LIFE PRIMITIVE AND RUGGED**

Scenes on Bosom of Russia's Mighty River Cannot Be Duplicated Anywhere on Earth. The days on the Volga are as alike as the white towns strung on the Volga chain, and all laden with a sense of life, sluggish and primal and potential. The scent of pines, of new-mown hay, of drying nets, and the fragrance of lilies; brassy red-shirted sailors shouting and splashing each other with water as they scrub the decks; the whistling of grain steamers; the sound of hammers from barges building along the shore; anchor chains rattling as we drop into the wharf where fishermen are unloading their shining catch. It is a robust river life, not familiar, but transposed into strange keys and staged largely. The rafts seemed the most essentially Russian part of the Volga. We had seen them before. Gargantuan yellow logs, as delicious looking as taffy, dragged from a forest in Tver and bound together with saplings, each raft bearing a tiny hut for the families who make the journey with the rafts to the sea. Now we met them on the river, peopled with rollicking figures, who balanced themselves with long poles and laughed and shouted unintelligible cries to us as the surge of the steamer threatened their foothold. The trackers, borklakt, we never say; debased men of herculean strength, muscles knotting in their hairy throats, thews straining like horses against the dead weight of the barges as Riepin had painted them. They have passed with the sails. But the other figures—on the rafts, in the fishing boats—are their brothers. And never have I felt life emerging so freshly from the black mold.—Olive Gilbert in the Yale Review.

**WRIGLEYS**

The universal military service gum— A Soldier's offering to his sweetheart is naturally the sweetmeat that gave him most refreshment and greatest enjoyment when on duty.

**POOR DWELLING PLACE, THIS** British Naval Base of Wei-Wei-Wel Has Decidedly Few Attractions for European Residents. Wei-wei-wel is the bit of Chinese territory that the British hold under lease as a naval and commercial base. It is just across the breadth of the Shantung peninsula from Kiachow. Wei-wei-wel lies partly on the mainland, partly on an island, where the dockyard, the coaling station and the rest of the machinery for a naval base are located. Most of the civilian population live on the mainland, and patronize a little steam launch that piles across the intervening sea when they want to go shopping; for with an eye to getting the British jackies' trade when warships put in to coal, the shops of Wei-wei-wel are out with the docks and the coal yards. The island seen from the steam launch is a barren, sandy hill, ridged with gullies that the hurrying rain water has cut in its course to the sea. The sand of these hills is one of the omnipresent features of the colony; every wind that blows carries it about by pounds, and only the cheapness of Chinese servants makes it possible to keep a European household dusted. The main street on the island has the characteristic British colonial look, with a British post office, a British steamship booking office, and British shops. On the short side street are the Chinese shops, which are only opened at certain seasons when visitors are plenty, or when a warship puts in to the harbor.

**American Red Cross**

T. M. JUDSON, Chairman J. E. BYRNS, Secretary "NOT WHAT WE GIVE BUT WHAT WE SHARE." American soldiers are to "adopt" French war orphans and children of families made destitute by the war through a plan proposed by "The Star and Stripes," the soldiers' newspaper over there, and approved by the American Red Cross. While full details of the plan are not available, it is interesting as a sidelight on the fine spirit of our army and undoubtedly will have a most profound effect upon French public opinion. The men will find the money they put into his service the sweetest sacrifice of their military careers, for they are now where they can see the full measure of suffering France has borne. Generations hence some French man or woman eminent in art, literature, commerce, religion, politics or other lines will publicly testify that he or she was sustained back in 1918 as a child by the generous action of some American soldier. Thus the United States is welding indissoluble links of friendship, not only in France, but in Italy, Great Britain, Russia, Serbia, Greece, Roumania, Belgium and all other Allied countries. If our soldiers and sailors, already pledged to give their lives for their country, are willing also to share their small pay with the needy civilians of France, Belgium and Italy, the people safe at home will amply support the next Red Cross War Fund campaign for \$100,000,000 in May.

**MILLIONS WILL BE SPENT ON CENSUS**

Census Director is Making Plans for Work in 1920—Will Cost Twenty-two Millions. (BY ASSOCIATED PRESS) Washington, April 17.—Congress will soon be faced with the necessity of providing millions of dollars for the 1920 census. Just what figures will be made at every American home is the problem now being worked out, before determining upon the exact appropriation needed. Census Director Rogers estimates that the total cost of the census, including the annual and other inquiries occurring during the decennial census period, if done in accordance with plans the Census Bureau has formulated, will not exceed \$20,000,000, \$22,000,000. The estimated cost of taking the population census alone is \$10,440,000. Besides considering population, the bureau's plans contemplate the usual elaborated inquiries on manufactures, agriculture, mines and quarries, annual special inquiries and other work. This includes vital statistics, statistics of cities and states, tobacco, cotton and cottonseed products. Taken collectively, Director Rogers says that the estimated cost of various lines of work, would run, manufactures, mines and quarries, \$2,592,000; agriculture \$5,049,000; mostly for field work; population \$10,440,000. The expenditures for the census of 1910 were about \$15,500,000. Look for the Ad That Describes the Place You Would Like to Own.

**Make the World Safe for Your Children**

SEVEN score and two years ago, our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal. Now we are engaged in a great war, testing whether that nation or any nation so conceived and so dedicated, can longer endure. The German Emperor challenged our right to exist as a free nation when he said, "From childhood I have been under the influence of five men, Alexander, Julius Caesar, Theodor II, Frederick the Great, Napoleon. Each of these men dreamed a dream of World Empire—they failed. I am dreaming a dream of the German World Empire—and My Mailed Fist Shall Succeed." After nearly four years of war, the Ger-

man armies have subdued one hundred and eighty-seven millions of the human race. We have sent our boys to the battlefields in France to give their lives, if need be, to make the world safe for democracy. Our government is now calling on us for a loan that our boys may be properly equipped when they go out to face the German monster. If the "Mailed fist" should succeed, the world would no longer be safe for your children. As you love your children, subscribe to the Third Liberty Loan.

**BITTER FIGHTS OVER BEARDS**

Tartars and Persians Long in Conflict Because They Held Varying Opinions on the Matter. Before now the wearing of beards has caused a bitter war and made the executioner's ax cut through many a neck. The Tartars waged a long war with the Persians, declaring them infidels because they would not shave their beards (after the fashion of Tartary). The Greeks wore beards until the time of Alexander, who ordered the Macedonians to be shaved lest their beards should give handles to their enemies. The ancient Romans wore beards, but in England they were not fashionable after the conquest until the thirteenth century and were discontinued at the Restoration. Peter the Great kept a squad of officers whose duty it was to cut the beards of unwilling citizens by force. Before 1840 shaving was almost universal in the United States. There have been numerous instances of women with long masculine beards. Margaret of Savoy, daughter of Maximilian I, had a long stiff beard, and a woman was seen in Paris with a black bushy beard that reached to her waist. At the battle of Pultowa the Russians captured a bearded woman, whom they presented to the czar. She had a beard five and one-half feet long.

**LOST CORONATION MANTLE OF BOHEMIAN KING FOUND.**

London, April 17.—The coronation mantle of the King of Bohemia, which long ago mysteriously disappeared, has just been discovered in a little shop owned by an old woman who has been guarding and treasuring it devotedly, says a Central News dispatch from Prague.

**CRIME WAVE IN LONDON IS RAPIDLY INCREASING.**

London, April 17.—Crime in England is now showing an upward tendency, after a remarkable and continued fall since the beginning of the war. The annual report of the British Constabulary attributes this to restriction of street lighting and shortage of police.

**Buy A Ford Car on Time**

\$188.68 when the car is delivered and balance in monthly payments from 8 to 12 months. Congested transportation facilities will make it almost impossible to get cars a little later on. Buy now when you can be assured of getting a car.

# Lend Him a Hand — Buy

## 3<sup>RD</sup> Liberty Loan

**T**ODAY your boy is reaching out for your hand. He is in a trench in a foreign land 3,000 miles from home. He has said good-bye to all he holds dear and is staking his life for your happiness because he trusts you to stand back of him. He has no money, no food, no guns except as you supply him.

The Government needs more money at once. If this is not subscribed, your boy may be a helpless victim to the barbarous atrocities which the Huns have already inflicted on our brothers.

Your government is offering Bonds of the Third Liberty Loan that your boy may have the sinews of war to make the best fight when he goes out "Over the Top" into No Man's Land and matches his strength against cold steel.

You are not asked to **give** this money. You are asked to **loan** it to the United States of America.

In fact, you are asked to buy a mortgage on the United States, the richest government in the world. These Bonds are Uncle Sam's promises to pay just as the dollar in your pocket is Uncle Sam's promise to pay. The difference between a \$100 bill and a \$100 bond is that while the bill never is worth more than \$100, the bond—because it draws interest—earns an income for its owner.

No matter what you may have invested in the First and Second Liberty Loans, you have a duty in the Third.

Your boy is stretching out his hand. Will you wait for your neighbor to come and tell you of your duty or will you go now to the nearest bank or post office and subscribe your share of the Third Liberty Loan?

Those who buy these bonds wear this liberty bell button. There is honor in being the first to put it on.

Lend him a hand—quick.

without cost.

Remarkable Changes  
In Population Made  
By German Cities

Manufacturing Things Necessary to  
Carry on the War Has Worked a  
Great Change.

Amsterdam, April 17.—War has pro-  
duced some remarkable changes in the  
population and relative importance of  
big German cities. The five principal  
centers of the munition industries have  
suddenly mounted to places among the  
nine largest cities in Germany. Before the  
war Munich was the third largest city in  
Germany, ranking immediately after Berlin  
and Hamburg. Munich has now dropped  
into seventh place, and Bochum, in  
Westphalian Prussia, has risen to third  
place.  
Bochum is the seat of great coal,  
iron and steel industries. In 1900 it  
had a scant 65,000 inhabitants. Now it  
boasts of more than 764,000.  
Dresden and Breslau, which were  
formerly the fourth and fifth cities in  
Germany, have fallen well behind  
Dortmund and Essen.

Officers' Wives At  
Camp Custer Work  
With the Red Cross

Most of the Women Are Experienced  
in the Work and Have Had Active  
Training.

Battle Creek, Mich., April 17.—Wives  
of officers at Camp Custer cantonment  
are taking an active part in Red Cross  
work, as are many prominent Battle  
Creek women.

Mrs. Chase W. Kennedy, wife of the  
major general in command at Camp  
Custer, who came here recently, has  
had considerable experience in this  
work. She organized a unit at Camp  
Dix, was prominent in relief activities  
at Washington, and she completed  
three Red Cross courses at the Mason  
school.

Mrs. John W. Craig, wife of Col.  
Craig, of the 339th regiment, is one of  
the Red Cross leaders. Mrs. Craig  
and her two daughters were in the  
Philippines when war broke out. The  
Colonel and his family then came to  
Camp Custer.

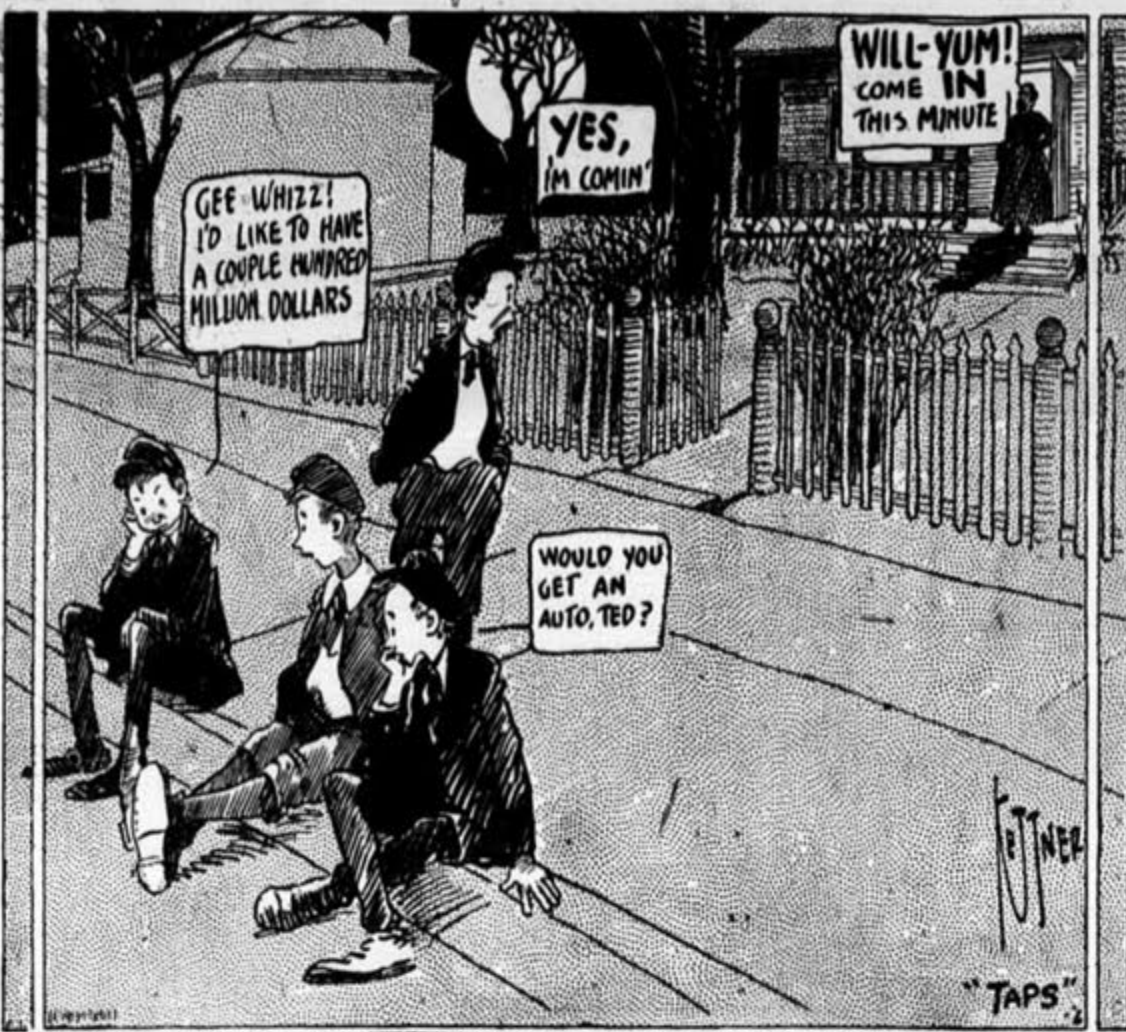

Camp Custer Receives  
Knitted Garments

Report Shows What the Red Cross  
Has Been Doing for the Comfort of  
Boys at Cantonment.

(BY ASSOCIATED PRESS)  
Battle Creek, Mich., April 17.—The  
latest report issued by Red Cross offi-  
cials at Camp Custer cantonment,  
shows that nearly 60,000 pairs of knitted  
socks have been distributed to Na-  
tional army soldiers at the cantonment.  
More than 5,000 sweaters were  
given out.

The report says that 26,358 helmets,  
24,748 wristlets, 18,997 mufflers, 3,763  
pairs of mittens and 16,000 special

Somewhere in the U. S. A.

Christmas packets were distributed.  
The Red Cross also has done relief  
work in 237 castles where government  
allotments failed to reach dependents  
of soldiers id time to relieve distress.

LAKE SHIPS READY  
FOR SERVICE UPON  
THE OCEAN MAY 1

Government Has Taken Over Nearly  
a Hundred New Ships for Ocean  
Going Service.

Detroit April 17.—Thirty-five new  
ocean-going steamships, from 3,000 to  
3,500 tons, are lying in great lake  
ports today waiting for the govern-  
ment's command to move to ocean  
ports. The government took over 99  
ships building in great lakes yards  
last August when all ships in Ameri-  
can yards were requisitioned. Twen-  
ty-seven were withdrawn for ocean  
service before navigation closed last  
December.

Of the remaining 72 marine authori-  
ties say 35 will be in trans-Atlantic  
trade by May 1.

F. A. Eustie, United States ship-  
ping board expert who surveyed the  
great lakes situation, has recom-  
mended that this fleet be among the first  
vessels to carry cargoes direct from  
the Great lakes to Europe.

RUDE AWAKENING FOR GUEST

Visiting Parson Got the "Dusting"  
Thatirate Father Intended to  
Bestow on Offspring.

A story of how a parson got the  
dusting instead of a youth is related  
by a newspaper man of Wenatchee,  
Wash.

"The boy in the plot was Oscar  
Woods," he says. "It happened in  
Nebraska. In our home it was the cus-  
tom for one of the boys to take his  
turn at starting the fire on cold morn-  
ings. It was 15 degrees below zero,  
and it was Oscar's turn. He lit the  
fire and then proceeded to the barn to  
feed the stock. But the fire went  
out.

"An hour later, perceiving that there  
was no fire, father sent another call,  
louder. Then several more. But no  
sound came. The 'governor' started  
upstairs.

"Without informing the head of the  
house, my brother had brought home a  
preacher the night before and put him  
in the same bed with Oscar.

"The parson had a thrilling awaken-  
ing. He was yanked out of bed. He  
resisted. This was too much for in-  
dignant dad.

"The conflict was exciting. The  
preacher fought like a wildcat.

"In the cold gray dawn dad found  
that he had made a mistake. It was  
tough, but the preacher survived."

ARMY DESERTERS ARE  
FEELING THE STRONG  
ARM OF ARMY COURTS

Several Men Who Thought They Could  
Get Away Have Been Caught and  
Taken Back.

Camp Custer, April 17.—Men who  
desert from the national army are be-  
ginning to feel the real strength of  
the military courts.

Early in life of the National army it  
was the policy of the military to be  
lenient with the men who were not  
familiar with army procedure and the  
seriousness of various military  
crimes.

Now that they have been in service  
long enough to know what is right  
from wrong, those who persist in tak-  
ing the wrong course are severely  
punished.

During the past week three Camp  
Custer soldiers have been given stiff  
sentences. Alex Lundell, who used  
every means possible to get out of  
service, was assigned to the 310th  
Engineers. He still refused to be a  
soldier and wrote authorities several  
times that he was a religious objector  
and would not have anything to do  
with the war. As the result he has  
been sentenced to spend ten years in  
Fort Leavenworth.

Private Joseph Ramsay, 310th Am-  
munition train, deserted last October.  
He was captured in Detroit February  
15. He was brought back to camp and  
court martialled and found guilty. His  
sentence was also for ten years in the  
federal prison.

Mustiff Selim, Turk, was drafted  
from Detroit, last fall. He came to  
camp and later deserted with the aid  
of his two brothers. These brothers  
came to camp in an automobile, brang  
along Selim's civilian clothes. He had  
no difficulty in making a clean  
getaway. He was also given ten years.  
The two brothers are now facing the  
grand jury in Detroit on the charge of  
aiding a soldier to desert.

Earthquake Statistics.

It has been calculated that there oc-  
cur about 30,000 earthquakes within a  
year, or 8,760 hours, hence, that there  
are on the average three and one-half  
earthquakes in an hour. Fortunately,  
not all earthquakes are of a violent na-  
ture, like that of A. D. 526, that killed  
from 120,000 to 200,000 persons in the  
region of the Mediterranean, or that  
of 1693, to which 60,000 persons fell  
victims in Sicily, or of Lisbon in 1755,  
and those that devastated Chile, Peru  
and Japan. Of great frequency are  
the minor earthquakes. In fact, our  
so-called firm earth can be said to be  
in a state of perpetual agitation. Our  
senses do not perceive the slight dis-  
turbances, but the seismograph, a very  
delicate and ingenious apparatus de-  
vised to keep track of them, furnishes  
all the information denied to us by our  
natural insensibility. They often fur-  
nish us too much of it in the excess  
of their zeal, recording sometimes as  
seismic phenomena vibrations that  
later proved to have been due to the  
ringing of church bells.

Privileges of the Poor.

Will you show me any other people  
outside of the fairy books who can  
put the most fearful calamity on like  
a cloak and doff it at will, who can  
augment their families to seven or  
eight children overnight, and reduce  
them as readily to five or six on the  
following day if it but seem to them  
advisable? Where outside their ranks  
is there anyone capable of persuading  
you that it is a privilege to sleep cold  
so that some Darius you never saw or  
care to see shall, he had his allegori-  
cal mule, go better warmed? Who  
else, being neither of your kith nor  
kin, has such power over you that,  
with a mere bloodshot eye and shiver  
of the shoulders, they can turn your  
automobile, your furs, your warmth  
and all your pleasant pleasures into  
Dead Sea apples of discomfort?—Laura  
Spencer Porter, in the Atlantic Maga-  
zine.

BAR WAY TO EVIL SPIRITS

Malaysians Believe Mountains Were  
Placed to Shut Out Strange  
Race of Yajuj.

In the dark bungalow at Kuala Kubu  
(in Malaysia) the Chinatoy chowki-  
dar, queue in pocket, shod in shoes of  
silent felt, served my breakfast. I was  
at last on the threshold of a strange  
expedition in a land to which no letter  
ever came correctly addressed, so un-  
known was it to the outside world. At  
this moment the strangest thing in  
sight was my breakfast. It consisted  
chiefly of tins of tiny Mongolian finches  
—humming birds in size, squabs in  
taste—canned a dozen in a tin.

As I devoured the pitiful little birds,  
bones and all, I looked up at the  
great Malay mountain range, the back-  
bone of the finger peninsula which  
stretches southward from Siam to  
within sight of the bund of Singapore  
itself. Mountains, so the Malays say,  
are the wall of the world, shutting out  
great winds and beasts of prey. And  
they believe that a strange race—the  
Yajuj—are forever striving to bore  
through, and when they succeed, then  
will come the end of all things.

The great limestone caves scattered  
throughout the mountains are places  
where the Yajuj have attempted and  
failed. There is nothing impossible or  
unbelievable in all this, when one  
comes to know Malay mountains in  
all their weirdness.—William Beebe, in  
the Atlantic Monthly.

COMB SAGE TEA IN  
FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens  
so Naturally Nobody  
can Tell.

Grandmother kept her hair beauti-  
fully darkened, glossy and attractive  
with a brew of Sage Tea and Sulphur.  
Whenever her hair took on that dull,  
dead or streaked appearance, this sim-  
ple mixture was applied with wonder-  
ful effect. By asking at any drug  
store for "Wyeth's Sage and Sulphur  
Compound," you will get a large bot-  
tle of this old-time recipe, improved  
by the addition of other ingredients, all  
ready to use, at very little cost. This  
simple mixture can be depended upon to  
restore natural color and beauty to  
gray hair.

A well-known downtown druggist  
everybody uses Wyeth's Sage and  
Sulphur Compound now because it  
darkens so naturally and evenly that  
nobody can tell it has been applied—  
it's so easy to use, too. You simply  
ampen a comb or soft brush and  
run it through your hair, taking one  
strand at a time. By morning the  
gray hair disappears; after another  
application or two, it is restored to its  
natural color and looks glossy, soft  
and beautiful. This preparation is a  
delightful toilet requisite. It is not in-  
tended for the cure, mitigation or pre-  
vention of disease.

HAVE COLOR IN CHEEKS

Be Better Looking—Take  
Olive Tablets

If your skin is yellow—complexion pallid—  
tongue coated—appetite poor—you have  
a bad taste in your mouth—a lazy, no-good  
feeling—you should take Olive Tablets.  
Dr. Edwards' Olive Tablets—a substitute  
for calomel—were prepared by Dr. Edward  
after 17 years of study with his patients.  
Dr. Edwards' Olive Tablets are a purely  
vegetable compound mixed with olive oil.  
You will know them by their olive color.  
To have a clear, pink skin, bright eyes,  
no pimples, a feeling of buoyancy like  
childhood days you must get the cause.  
Dr. Edwards' Olive Tablets act on the  
liver and bowels like calomel—yet have  
no dangerous after effects.  
They start the bile and overcome consti-  
pation. That's why millions of boxes are  
sold annually at 10c and 25c per box. All  
druggists. Take one or two nightly and  
note the pleasing results.

FOOD AND CLOTHING FORM  
BEST GIFTS IN GERMANY.

Amsterdam, April 17.—The most de-  
sirable gifts nowadays in Germany are  
things to eat and wear. The follow-  
ing is a list of the gifts presented by  
the people of Salzburg at a benefit  
recently to Herr Bratt, the leading  
tenor of the local opera company.  
Seven pair of boots, three suits of  
clothes, eleven pounds of coffee sub-  
stitute, fifty-one packages of food, one  
sausage four feet long, \$400 in cash.

YOUNG SON OF KING IS  
NOW IN THE AIR SERVICE.

London, April 17.—Prince Albert,  
one of the King's younger sons, who  
was formerly on a battleship, has now  
joined the Naval Air Service and is  
expected soon to become a certificated  
pilot.

## LIVERPOOL LEADS IN SOLVING FOOD SITUATION THERE

### Plans Adopted by English City Should Be Followed Wherever It Is Found Necessary.

### HOT WATER FURNISHED People Can Get Pail of Boiling Water for Less Than Gas Costs to Heat It.

Liverpool, April 17.—(Correspondence of The Associated Press)—Liverpool, the second largest city in England, is leading the whole country in solving the food shortage problem. It has municipal kitchens which are models and work more efficiently than those in any other part of the kingdom. It sets every other city in the country an example by maintaining a municipal potato peeling plant and cooking the potatoes for the bakers to mix with their flour.

Its latest enterprise is supplying householders with boiling water for cooking and washing purposes and thereby causing a great saving in fuel.

Liverpool's city fathers are very proud of their efforts to make their people the most comfortable in the country in these days of enforced economy. With a display of pride they gladly show visitors these new ways of meeting the food shortage.

They take them along the streets where butcher's shops are shut for want of meat. A sign on the meat market reads, "Why buy meat from the butcher when you can get it ready cooked at the food depot?" The argument is unanswerable particularly when there is no meat to buy at the butcher's.

There are eleven municipal cook-shops where a family of four might buy and take away a satisfying dinner for 25 cents. Stewed steaks, potatoes and puddings are the principal articles.

An enterprising city engineer has set up an engine which runs a machine that peels tons of potatoes in a few minutes, and also supplies steam to great cauldrons in which the potatoes are cooked. This enterprise supplies a clean and wholesome flour to the bakers which is mixed with wheat flour and helps to produce a delicious bread.

At the food depots a person can buy for a cent a great bucket of boiling water, and the population is being encouraged to come for this boiling water in order to save coal. Instead of buying coal to boil a kettle for cocoa or tea people can get as much water as they want for a cent.

Those responsible for Liverpool's enterprise declare that results have already shown that a workman's family can live much better and more economically by buying its meals at the food depots than by doing its own cooking.

## Report By The War Relief Of Delta County

Under the by-laws of the Association it is provided that any individual, firm or corporation in Delta county, who being able, refused to support the Association and cooperate with it shall be published. The following is a partial list: Standard Oil Co., Escanaba, refused; claimed are giving elsewhere.

A. Gillis, Soo Line trainman, able to give; absolutely refused.

Edward C. Kramer, North-Western engineer; offered subscription of \$1; because of remarks made and position taken toward committee, money refused and name ordered published.

Ole N. Logan, North-Western engineer; has regular work; can afford to pay; refused to make subscription of even ten cents a month. Nicholas Roeser, 1600 Ludington street; offered subscription of 15 cents a month. Subscription refused and name ordered published.

This list will be published from day to day and other names will be added as the investigation progresses. (Signed) DELTA COUNTY WAR RELIEF ASSN., Inc.

## Red Cross Notes

Announcements of Meetings of the Various Classes Working for the Red Cross and Other Notes of Interest.

Hereafter only the new names in the 32 hour class will be published. The list is getting so lengthy that space does not permit of its publication every day.

For 32 Hours' Service.  
Miss Margaret Kessler.  
Mrs. John Mol.  
Mrs. Goetschius.

Mrs. A. N. Merritt.  
Mrs. W. A. Cotton.  
Mrs. E. C. Voght.  
Mrs. S. W. Brennan.  
Mrs. F. D. Mead.  
Mrs. J. J. Cox.  
Mrs. W. W. Oliver.  
Mrs. H. W. Reade.

## Cloverland Gets Big Recognition Famous Magazine

(Continued From Page One)

"You have sixteen million acres suitable for grazing. You can never hope to really become a corn country and your success with wheat may be uncertain, but Nature has designed this upper country for livestock and favored it in that regard as it favored no other section of our country. If at the beginning you put in one and a half sheep to the acre on only one-half of your available land, with cattle in the long-lying tamarack swamps, which are ideal for the purpose, you can easily take care of eight million sheep and a million head of cattle. Let us see what these conservative figures would mean. It would create for you an asset of at least \$150,000,000 where there is nothing today. It would return an annual gross earning of \$25,000,000 of wool, \$40,000,000 of lamb and mutton, \$20,000,000 worth of baby beef, and the fertilizer value would add \$15,000,000 to this estimate.

"Consider the actual conditions under which you find yourselves today: First, the present condition of the cattle and sheep industry; second, the known qualities you have to deal with; third, the ways and means of doing what you might do.

"Sheep are better than cattle as an investment. The returns from sheep are two to one over cattle, on an area suitable for both. Sheep are more easily handled. They furnish two crops—meat and wool."

Mr. Mashek, a farmer and storekeeper in the upper peninsula, has had an experience with sheep which is worth looking into. In a talk about his methods and the results he said: "I'd been looking into those cut-over lands a good deal, and getting all the

**FRIDAY ONLY** **Geo. Beban** in **"One More American"**  
It's the Best He Has Ever Been Seen in.

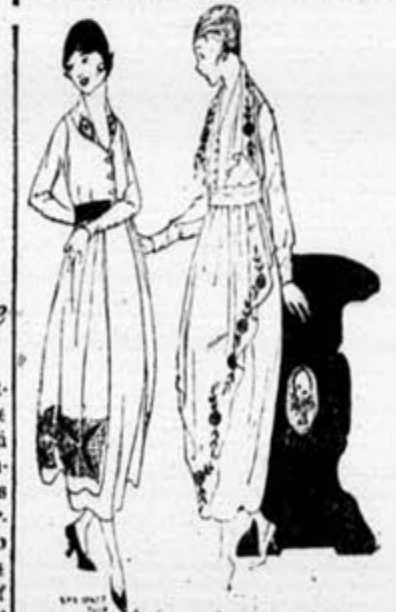

Information I could about range sheep, and in 1913 I decided to try them. I bought 200 Western range ewes, fenced in 100 acres of pretty wild land and put up cheap, rough sheds for winter shelter. I wintered those sheep on oat straw and some very poor clover hay, just to see how they'd come out on such feed. And I had a good lamb crop in the spring; at four and a half months old they averaged sixty-one pounds, and I sold at the market top at Chicago as killers.

"That settled it with me. I've saved every ewe lamb since and bought others, and I've learned enough about handling them to bring the wethers up to seventy-two pounds in four and a half months without grain and sell at top prices.

"I use Hampshire and Oxford rams and get my ewes lambing not before May first, so that they have green pasture before lambing. Under that plan they need no grain at any time through the year. In winter I feed the ewes three and a half pounds of clover hay and some oat straw daily.

Those successes and the opinion of Mr. Hagenborth, quoted at the commencement of this article, are of men who have ranged in the West and who are naturally very critical and wary of the conditions of entirely new country for ranging stock. For that reason their decisions carry much weight and there will undoubtedly be considerable personal investigation of those logged-off lands during the coming summer by Western men. At the Livestock Convention at Salt Lake City last winter I heard many discussions and exchange of opinions about those lands, always showing deep interest and, with many men, a determination to go deeper and see.

**Daily Fashion Hint**  
Prepared Especially For This Newspaper

COSTUMES IN NEW SHADES.

Bithely disregarding conservation measures in the matter of trimming, the little frock to the left boasts quantities of braid and embroidery as the distinguishing feature of a straight, gathered tunic. The background is of field mouse charmeuse, one of the most charming of the new spring tones. A bit of braid with an immense coin dot is all that the simple collar or a simple blouse needs in the way of embellishment. Five yards 40-inch material are required for the model.

The tunic declares itself to be the one feature of modern dress which will not be restricted by regulations, hence it asserts itself in a new way on the front of daffodil georgette for the purpose of exploiting a lovely border trimming in wool embroidery. The embroidery is repeated on the large revers cut in one with the front of the blouse. Medium size requires 5 yards 48-inch material. First Model: Pictorial Review Costume No. 7669. Sizes, 34 to 46 inches bust. Price, 25 cents. Embroidery No. 13427. Blue or yellow transfer. 15 cents. Second Model: Waist No. 7705. Sizes, 34 to 44 inches bust. Price, 20 cents. Skirt No. 7708. Sizes, 24 to 32 inches waist. Price, 20 cents. The Fair Savings Bank.

### MARTIN FINUCAN, ONCE FIREMAN IN ESCANABA, DIES AT EVELETH, MINN.

Word has reached this city of the death of Martin Finucan at his home at Eveleth, Minnesota, which occurred on Thursday of last week. Mr. Finucan was born in 1853 and is survived by his wife and a grown-up family of sons and daughters.

Older residents of Escanaba will remember Mr. Finucan, who at one time was chief of the local volunteer fire department. He made his home in this city from 1884 until 1896, when he removed to Eveleth, where he has made his home since.

Bert Lang, of Gladstone, was operated on by Dr. Boyce for the removal of tonsils and adenoids.

## MOTOR COP RUSHES TO BANK FOR BOND

Philip Bruce Said He Did Not Want to Run Risk of Not Having Some of Them.

Philip Bruce, of Bark River, the handsome motor cycle cop that stops you on the road and tells you not to drive too fast, did not worry about speed limits when he rushed into town early yesterday morning and bought a bond. He said he was not going to be without one if getting to the bank as soon as it opened would get him one. Bruce has been doing good work for the loan in the country and the sale of many bonds can be traced to his credit. He has boosted the Third Liberty Loan from the start.

### NOTICE

Escanaba Military Band  
All members of the band are urgently requested to be at the Band Hall, Thursday afternoon at 1:30 for the purpose of attending the funeral of Private Walter Nelson, U. S. A.  
H. O. BROTHERTON, Director.

## WORDS and DEEDS

By Walt Mason, Our Old Kansas Friend, Who Made Verse Pay.

I may use language till I make Demosthenes look like a fake. I may rear up some nine feet high, and tell how I would bleed and die, if I were not so old and gray and crippled up and full of hay. I may denounce the foreign foe and tell how gladly I would go to wield a shotgun in the scrap and shoot the Kaiser off the map; but if I think more of my wad than of my country and my God, the things I say won't cut much grass; my words are merely sounding brass. Our Uncle Sam is needing men; he's needing rhina by the ton; he can't conduct a high-class scrap without a lot of dough on tap. To raise the dust he asks all lads to lend him all their surplus scads, to buy his bonds—security the safest ever man will see. And if I do not gambol up, as gay and frisky as a pup, and buy the bonds till I go broke, my loyal spels are merely smoke. Oh, boys, most any tin-horn skate can work his jawbones and orate; most any hick can chew the rag and say nice things about the flag; but when we come right down to tacks, the patriot who's smooth as wax is he who comes, an ardent soul, for Liberty bonds to blow his roll.

## Personal Paragraphs

Omar Schultz, of Schaffer, was operated on for the removal of tonsils and adenoids yesterday, by Dr. Boyce.

Rev. N. F. Hoijer, who for about thirty years has been a missionary in Russia, will give a lecture on conditions in that country at the Mission church tomorrow (Thursday) night at 8:00 o'clock.

Miss Phoebe Blake returned from Guery after a week-end visit with friends. Miss Blake returned sooner than intended on account of the accident to her brother Joseph.

Word was received from Joseph Perron, son of Mr. and Mrs. Joseph Perron, that he arrived safely in France.

Edward Mayor of Marinette, was accepted for the United States Infantry. Mr. Mayo is 20 years of age. He leaves tonight for Chicago and then to St. Louis.

Joseph Blake, who was run down by an automobile about a week ago, was taken to his home this morning and is reported as getting along nicely.

### DELTA CHAPTER WILL CONFER DEGREES AND EXPECT SOME COMPANY

Delta Chapter, R. A. M., will confer the Royal Arch degree at the Masonic Temple this evening. It is expected that several members of the order will be present from the Soo to see the work. Light refreshments will be served after the lodge work closes.

### SLEPT WHILE GUNS ROARED

Charles Francis Adams Told of Taking a Nap on a Hillside During Pickett's Charge.

In the campaigns of both Antietam and Gettysburg I was an officer in a regiment of cavalry, a mere subordinate, responsible only for obedience to orders.

At Gettysburg July 3 the division to which we belonged occupied the high, partly wooded ground on the right of the line, covering the enemy's flank and rear. It was a bright July day, hot, and with white clouds slowly rolling across the sky. Neither our lines nor those of the enemy were visible to us; and the sounds of battle were hushed. Waiting for orders and for action, we dismounted, out of regard for our horses as well as for ourselves, and sat or lay on the turf.

Inured to danger by contact long and close and thoroughly tired in body and overwrought in mind we listened for the battle to begin; and shortly after noon the artillery opened. We did not know it, for we could see nothing in that direction, but it covered the famous advance of Pickett's Virginia division upon Meade's center—that wonderful feat of arms—and just then, lulled by the incessant roar of the cannon, while the fate of the army and the nation trembled in the balance, at the very crisis of the great conflict, I dropped quietly asleep. It was not heroic, but it was essentially war.—From the Autobiography of Charles Francis Adams.

### Morning Exercises.

Calisthenics taken in the early morning do much to keep up the general health. Standing, warmly but loosely clad, at an open window and inhaling deep breaths of fresh air will stimulate the blood quickly. This might be followed with two or three easy exercises. One might consist of doubling the fists, placing them at the shoulders, and then thrusting them out at arms' length swiftly. After that it would be best to bend, trying to touch the floor with the finger tips without bending the knees. These calisthenics might be concluded with a final one of kneeling and bending forward the floor from the waist. The whole performance need not take more than five minutes, and will do more to make circulation lively and muscles in good condition than any amount of medicine.

FOR SALE—Five hundred roller skate wheels at five cents each. We repair skates. Fit any roller skate. Inquire Coliseum. 109

## GOLD WEATHER SAVED FUR BEARING ANIMALS

Furry Tribes Remained in Their Dens Most of the Time and Saved Their Lives.

Charlotte, April 17.—Fur-bearing animals were saved in large numbers by the severe cold last winter, hunters declared here today. The biting temperature kept them in their dens and consequently few fell into hunters' hands.

Muskrats and skunks are particularly plentiful this spring, unusually large numbers were caught here this spring, and an occasional coon or "ringtail."

Muskrats sold at an average of 50 to 60 cents apiece last winter and good skunk skins brought \$2.50. Mink and coon sold for about \$7.

## Ed. Erickson Home From Visiting Son

Edward Erickson is home from a visit to Baltimore and Quantico, Maryland. At the former place he visited with his son Frederick Erickson and at Quantico spent six days in the big cantonment devoted to the marines to which his son Edward belongs. Mr. Erickson says that his son has gained nearly 40 pounds in weight since he joined the marines and is delighted with the life and more than anxious to see service overseas. All of the young men at the cantonment are becoming impatient with the calm life they have been leading and will welcome the day they are on board a big ship bound for "Over there."

I will be at my store, the Home Electric company, this evening to meet those people in my territory who I have not been able to find at home, and also will explain the Third Liberty Loan to any in my district who do not fully understand it. Come in and see me.  
JOHN KNUTSEN.

### TEACHERS' EXAMINATION.

The regular teachers' examination for Delta County will be held at the City Hall in Escanaba, commencing Thursday, April 25, 1918, at 8:30 a. m. This examination is open to applicants for first, second and third grade certificates. C. U. WOOLPERT, 114 Commissioner.

### Mr. and Mrs. B. J. McLoche of Schaffer were in the city yesterday visiting friends.

## Eat Less Meat If Back Hurts

Take a glass of Salts to flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe backaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.
