

U. S. AGENTS UNCOVER BIG IRISH PLOT

HUN SOLDIERS WERE TO HAVE LANDED ON IRISH SOIL TO HELP

Sinn Fein Sympathizers, Arrested in Dublin, Believed to Have Been Backed by German Money.

PLANNED TO SEND ARMS

Plan to Land Soldiers to Have Co-ordinated with Big Drive and to Have Disturbed England.

(BY ASSOCIATED PRESS) Washington, May 21.—The present uprising in Ireland, fostered by German and Irish agents, was uncovered by United States government agents, who are responsible for the recent arrest of the leaders of the British government.

Details may be made public soon of the part of the plot uncovered in this country. It is reported that Sinn Fein sympathizers have been in touch with German representatives who were to finance the rebellion and to send arms and munitions by submarines and blockade runners to Ireland.

It is believed German soldiers were to take part in the conflict by landing on Irish soil. The Germans had planned to have taken the Channel ports in their big drive by this time and that a rebellion would throw England into a state of confusion.

Escanabans Can Save Money, Official Says, by Using C., N. S. and M. Lines.

F. W. Shappert, traffic manager for the Chicago, North Shore and Milwaukee Railroad, was in Escanaba today, and announced important changes on that line. Trains that have been running on the hour schedule, he said, on Saturdays and Sundays will now operate on a half-hour schedule.

HUNS FIGHT, THEN RUN

Briton Attacks Pair, Putting One Out of Commission; Men Wore Signal Corps Uniform.

London, April 11.—(Correspondence of The Associated Press)—German spies have been a continual source of annoyance throughout the recent British retirements in France. Many of these spies have been detected in British uniforms, presumably stolen from bodies of the slain. A British officer in a letter to the Daily Express, tells of an encounter with two such spies.

"I had been ordered to take up a position with the two guns of my section as our infantry were being forced back," he says. "I was on a crest just in front of my guns ready and waiting to open fire and observe the rounds, but the specified time had not arrived.

"On the right of me was the road along which a few minutes before I had managed to get my guns. It was packed with infantry, transport, guns, prisoners, and stretcher bearers struggling along with wounded. Something or other called my attention to two signallers striving to lay out a wire from the road towards my observation post. Then some one else's guns to the left opened fire. In a few seconds I picked up the target, a blue-grey shadow advancing in apparent silence over the top of a crest two thousand yards away.

"I gave the order to join in the chorus of guns. The rounds were bursting beautifully, and I picked up the range quickly and well, but I noticed Boche shells beginning to fall on and about the road, bursting with marvellous precision.

"I glanced behind at my guns, just (Continued On Page Two)

GERMAN FIRING IS REPORTED VIOLENT ALONG ARRAS FRONT

Big Drive Is Still Delayed, Although British Are Harassing Enemy by Planes and Artillery Fire.

NO LET-UP IN AIR FIGHTS

Australians Reported to Have Captured Village; Airplane Engagements Are Reported On Italian Front.

(BY ASSOCIATED PRESS)

Washington, May 21.—Delay in launching the German attack gives the Allies but little concern as they improve their positions along the battle line. Whether the Germans are prepared to renew the fighting is not clear. Strangely, they do not react on the harassing tactics of the British.

Northwest of Ville-sur-Ancere on the Somme front a village was captured by the Australians in a gallant attack. Between the Somme and Arras the British have been harassing the enemy and attacking their outposts.

The German artillery fire is especially violent in the trenches south of the Somme and at Peuchne, northwest of Arras. The place is now a mass of ruins from the German bombardment.

There has been no let-up in the intense aerial activity on the Italian and Macedonian fronts, where conflicts are reported.

Official Statement. May 20.—The following official statement was issued by the American headquarters at 9 o'clock last night: "Except for activities by the artillery on both sides there is nothing to report."

"DEMOCRACY AND WAR" ISSUED BY THE STATE

Superintendent of Public Instruction Publishes Book for Guidance of American Pupils.

"Democracy and the War," a book of 200 pages giving the causes of the great war and the part the United States is playing in it, will be issued to school children in Michigan within the next few weeks.

The volume is issued by Fred L. Keeler, superintendent of public instruction, after compilation by Dr. George N. Fuller, Ph. D., secretary of the Michigan state historical commission. The superintendent in issuing the book asserts that the greatest thing Michigan teachers can do in the way of war work is to instill into the child brain the causes of the war. Lack of a comprehensive book has held them back, but, Mr. Keeler declares, a complete compendium is now being supplied. The volume is especially for work in the high schools.

SOCIOLOGIST SAYS MENACE OF FUTURE CONFRONTS NATION

Social Conservation and Social Service, He Warns, Must Be Keypnote of Future Reconstruction.

Kansas City, Mo., May 21.—Lack of international morality was the menace before the war while lack of humanitarian morality to prevent class exploitation, class aggression, and class war, is, even now, another menacing thing for our future, according to Charles A. Ellwood, Professor of Sociology, University of Missouri, who today addressed the National Conference of Social Work on "Social Problems of the War and Reconstruction."
"To kill a few germs in our backyards, to put in force a few model building ordinances, or even to carry through a practical program of child welfare, profits the world nothing if our civilization goes down," he said. He charged that social workers failed to see this development before the war and that many fail to see its counterpart even now.

"Many still cling," he said, "to the old hedonistic social ethics, which make individual pleasure and self-gratification their standard of judgment instead of social conservation and social service."

"Social workers need to become interested in the larger problems of our civilization, in the weightier, as well as in the minor matters of social law and order, else their efforts will prove vain. Social work must transform our religion, our morality, our education, our business and our politics before we can have a worthwhile civilization."

"We shall only have scientific social work when due respect is paid to social facts. A greater calamity than even this war, civil strife and degeneracy, will overwhelm this civilization in the period of reconstruction which lies ahead of us. Scientific social work then, is not a program of mere palliative social amelioration, it is a program of radical and rational social reconstruction, based upon an adequate knowledge of social facts,—and it is the only program which can build a humanitarian civilization that can guarantee an adequate life for all."

Mr. A. Hoffman motored to Nahma yesterday on business.

German Spies Are Found Disguised Along Front Line

(Continued From Page One)
as a shell burst one hundred yards in rear of them and another one hundred yards in front—a beautiful "bracket," positively uncanny, as the guns were in a splendid position and certainly could not be seen.

"I knew what that bracket meant, and longed to give the Take cover order to my gunners but only for one moment. Our job was to carry on. So we fired away as rapidly as we could, for, after all, we do not often have the luck to shoot at moving masses of Boches.

"A few minutes later I received the message: 'Both guns out of action, sir.' I gazed round with a jerk, and there below me, sure enough, both guns were knocked out.

"The Boches had begun another deliberate shoot at the other guns, and I could see at a glance he was something observing his rounds, and correcting them for line and range, and yet there were no Hun airplanes aloft to do it. A marvellous mystery! I determined to go to my guns and do my best to get them into action again, so off I moved, dodging around the ancient shell-holes of 1916, jumping across old German trenches.

"I had hardly gone twenty yards when I heard a buzz quite close, the buzz of a field telephone buzzer. I came up behind two men in khaki with the familiar blue and white band of the British signalling corps on their arms, evidently the men I had seen before, one gazing out towards the batteries on the left, the other buzzing. Quietly I approached. Then I grasped the situation.
"With a running jump I leaped plump on the instrument, yelled, and hit out with one fist under one jaw and another on the back of a square, hard head.

"Gott in Himmel!"—came from the hardheaded man and a guttural groan from the other whose jaw I had hit, who lay apparently stunned.

"Then in a moment I was kicked in the back, which sent me reeling. "I picked myself up, to find both Boches tearing away towards the road. They had some yards' start, but I gave chase. One stumbled and fell. I made a rush, and before he could rise kicked as I never had kicked before—a regular, proper punt. That settled him, and on I went.

"The other ran on when suddenly he disappeared in a cloud of smoke and a deafening roar. We had run in front of one of our batteries. Fate decreed the fate of one, but the other I had settled—with a hob-nailed boot."

Only About Half the Steer is Beef

Live Weight 1200 pounds

100%

Dressed Weight 672 pounds of Beef

56%

When Swift & Company buys a steer weighing 1200 pounds, only about 672 pounds goes to market as beef; the other 528 pounds consists of hide, fats, other by-products, and waste.

When the packer pays 15 cents a pound for a steer, he sells the meat to the retailer for about 24 cents. But the packer gets only about 6 cents a pound for the other 528 pounds.

This means that the packer gets about 16 cents a pound for all the products from a steer for which he pays 15 cents.

The difference of 1 cent per pound covers the cost of dressing, preparation of by-products, freight on beef to all parts of the United States, operation of distributing houses, and leaves a net profit of only about 1/4 of a cent per pound on all dressed beef sold.

Large volume of business and utilization of parts that were formerly wasted, make this achievement possible.

MRS. BAILEY SAYS

NUJOL LABORATORIES,
STANDARD OIL CO. (New Jersey),
BAYONNE, N. J.

Gentlemen:—
"Nujol has worked wonders with me. I have suffered from constipation practically all my life and the large amount of laxative pills taken caused a sore spot in my bowels. For more than thirty years this place has at intervals ulcerated and caused illness and no doctor seemed able to help it. Constipation also caused bloating, and last winter, after several months of semi-invaldism when I was unable to walk or exercise to any extent, the bloating became so bad that I could not breathe while lying down. It was just after the doctor relieved this acute condition that I began the use of Nujol, and the improvement in my health is more than I ever hoped to have, or the doctor thought possible. I only take occasional doses of Nujol now and my constipation is a thing of the past. The sore place in my bowels is apparently healed, since there is no irritation now. My health is better in every way, there is no bloating, and no distress from gas. I recommend Nujol to every one I hear complain of constipation and its train of attendant ills."

Yours truly,
Mrs. Mary G. Bailey,
Newbury, Vermont.

Women! Suffer no longer from constipation. Use Nujol, the remedy that relieves even the most stubborn cases. Mrs. Bailey's letter proves that! Never say to the druggist, "Give me something for constipation." Be sure to ask for Nujol, the effective, drugless remedy that aids the bowels to natural regularity without artificial stimulation, griping or dangerous reaction. Nujol is pleasant to take; pure, odorless, tasteless. Perfectly safe, even for infants, invalids, old folks. Thousands now take Nujol instead of harmful pills and salts. Be "regular as clockwork"—use Nujol.

ABSOLUTELY HARMLESS
There are no substitutes—there is only Nujol

Your kidneys are probably weakened. You should help them at their work. Let one who knows tell you how.

Mrs. Fred Harvey, 319 N. Mary St., Escanaba, says: "Several years ago I was feeling awfully had on account of my kidneys. They were weak and acted irregularly and I always felt tired out and listless. I had no ambition to go about my housework, and at times, nervous, dizzy spells came over me. Spots floated before my eyes and blurred my sight. Several boxes of Doan's Kidney Pills cured me of the trouble and put my kidneys in good shape."

PLACE OF VILLAGE IS CONFERENCE SUBJECT

Rural Worker Tells Delegates to Social Work Congress Village Is Center of Social Progress.

(BY ASSOCIATED PRESS)

Kansas City, Mo., May 21.—"No longer is the country village the center of cracker-box philosophy, nor the village store a hang-out for village idlers," said Dr. Paul L. Vogt, head of the department of rural work of the Board and Home Missions of the Methodist Episcopal church, speaking today before the division of the Local Community at the National Conference of Social Work here.

"The movement toward the elimination of the saloon has been largely a rural movement," said Dr. Vogt, "and the villages have had their share in influencing public opinion in the control and elimination of the liquor traffic."

The novel fact that village families are growing smaller and that increase in village population is coming from the large cities was vouched for by Dr. Vogt. The ancestry of our population in fifty years will be made up of those immigrants who have come in recent years from southern Europe, he said.

The social and religious life of the villagers is thus being vitally changed, in the opinion of Dr. Vogt.

"The village is becoming the center of agricultural social progress and this is the key to the advancement of social welfare of ever half the American population," he said.

"The co-operative movement in its recent rapid and solid development has been largely one of the farmers taking over as rapidly as standardization of business methods would permit, the activities formerly controlled by other groups. They have organized co-operative elevators, located in villages, livestock shipping associations, fruit marketing organizations and supply buying agencies, including warehouses, to enable them to control the sale of their own products, creameries and cheese factories, and in some places have demonstrated that they can operate continuously and successfully their own co-operative stores, banks, and other village industries.

"The movement has so far won its way that today instead of having to fight unaided the powerful organizations of urban business men, it has the encouragement of the United States government and of the more progressive state governments. All this indicates that the village of the future is going to have an economic unity under the control of the farmer that will curtail the retailers' counter and put the entire community into harmony in its economic life."

Former Principal Will Go Overseas

According to word received here, P. A. Lint, former principal of the Escanaba high school, now in the Y. M. C. A., for war service, expects to go overseas soon.

Mr. Lint was stationed at Camp Grant since he entered the service. Recently he was ordered to report in New York before taking a week's training at Princeton. From there he will go to France.

THE THEATRES

AT THE DELFT.

Mother love is the theme employed in the Select production, "The Secret of the Storm Country," in which Joseph M. Schenck is presenting Norma Talmadge. Miss Talmadge plays the role of a little squatter girl to whom love and marriage come in secret ways, and her interpretation of the character is a fine bit of emotional work. The picture is to be shown tomorrow at the Delft theatre.

Tessibel Skinner, daughter of Orn Skinner, who is serving life sentence in the penitentiary, is adored favorite of the squatter settlement on the shores of Lake Cayuga. She listens to the woes, fights their battles and binds up their wounds. Her cup of happiness is overfilled by the devotion of Frederick Graves, a young divinity student, who has persuaded the girl to marry him secretly. Graves is the son of a worldly, ambitious mother who has well laid plans for the future greatness of her offspring. From this point on the adventures of Tess unfold in a dramatic manner.

fold in a dramatic manner. AT THE STRAND.

Olive Tell, stunning Broadway star, who is appearing in the Empire all-star production of Frohman successes released through Mutual has a tremendously emotional and appealing role in her latest picture, "The Girl and the Judge." As a girl of refined and proud character brought face to face with the expose of her mother's kleptomania, Miss Tell's intensive dramatic powers are brought into play in a convincing manner.

Wednesday.

What would you do, if after a night at the cabarets you discovered a big bear in your bathroom and it dawned upon you that you had bought the animal for a "pet." This may happen to you—this is the age of surprises—so you are advised to see "Jack Spurlock-Prodigal" at the Strand tomorrow, where George Walsh the William Fox star, as young Spurlock, solves the problem of disposing of the 400-pound Alaska bruin. Mr. Bear makes it interesting for the Harvard faculty and his young owner before he is gotten rid of.

SCHOOL PRINCIPAL LEAVES TO ENTER TRAINING COURSE

Head of High School, Fifth of Faculty to Join Colors, Leaves for Training at Officers' School.

The fifth of the high school faculty to respond to the call to the colors, L. L. Principal Frimodig applied for entrance in the third officers' training camp but his application was not received in time to allow him to be called for that camp. His application was held, however, and on Sunday morning he received a call to report at once.

The call came most unexpectedly and he was forced to make hurried preparations for leaving the city and in the short notice given it will be difficult to fill immediately the position left vacant by him at the high school.

Mr. Frimodig predecessors in the service are P. A. Lint, Robert Selkirk, C. A. Strange and Sidney Fell.
