

AUSTRIANS BEING DRIVEN FROM FRONT

BUSINESS WOMEN OF COUNTRY TO MEET JULY 16-19

Special Survey Will Be Made to Classify Those Trained for Highly Technical Work.

ALL LINES REPRESENTED

Plan Is to Make Known Undiscovered Ability of Women of the United States at Present Time.

Mobilization of all the business women in the United States for National defense is the big self appointed task of the second National Convention of business women to be held in Cincinnati, July 16-19, 1918, at the call of the Woman's Association of Commerce of the U. S. A. of which Florence King of Chicago is President.

Respective of classification, every woman of business experience and executive ability will be asked to enroll herself so that she may be available for service at a moment's notice and a special survey is to be made in order to classify the women who are specially trained for technical work.

Last year the Woman's Association of Commerce began this big national movement on the part of business women, when they called their first Convention of professional women, women of factory and office experience, technically trained women, architects, doctors, dentists, electrical experts, women experts in telephone, telegraph and wireless, buyers, photographers, engineering experts, and many others whom the general public never knew existed.

That such persons as women engineering experts are actually doing business will probably be news to many people, yet there are many, and recent concrete examples come as big surprises every day.

At this convention women from New York to San Francisco will be present to discuss ways and means for bringing women's work more prominently before the public with a view to developing what these women consider to be the greatest American asset, viz: the undiscovered ability of its women. Women are realizing more than ever that the barriers that formerly restrained them had to be broken down by European nations now involved in the war, and they are rapidly being broken down in America.

"What women are doing to advance civilization" will be one of the interesting topics of discussion at the Convention led by Elizabeth Seiter, Efficiency expert from the Elgin Watch Company.

"Woman's View Point in Business Life" will be the subject of an address by Mrs. Able K. Wilkins of San Francisco, a well-known business woman who has figured prominently in business and politics in California for many years.

The Woman's Association of Commerce will surely go "over the top" with some of their ideas and place women in the front ranks of the business world. They have knocked precedent into a cocked hat in scores of instances and the meeting in Cincinnati will be full of vim and determination to do something to help win this war.

Florence King, Chicago's most famous woman lawyer, recently returned from Washington where she had a bill introduced in Congress asking that a national charter be granted to the Woman's Association of Commerce of the United States of America.

One of the many, interesting features of the Convention will be the effort made to encourage women to greater achievements. Valuable prizes will be given for the best ideas presented on business building and other subjects under discussion at the convention.

W.S.S. \$3 A MONTH EACH IS STAMP DRIVE QUOTA

Campaign Officer Estimates That This Amount Must Be Pledged if City Is to Pass \$300,000 Mark.

To counteract a spirit of optimism that the War Savings Stamp drive here is going so successfully that there has developed a spirit of "let the other fellow take them," an officer in the county drive today estimated that each man, woman and child in Delta county must pledge at least \$3 a month for the next six months in order to reach the \$300,000 quota set for this district.

The quota for the county is \$548,000 payable by the end of the year, and according to estimates on the population of Escanaba the per capita quota is \$20. By having the head of the family pledge that amount will not clear the total. Each member of the family should be put down for a similar amount if the city and county is to go over the top.

PIAVE FIGHTING DECREASED BUT ENEMY YIELDS

Austrian Offensive Enters Up on Second Week Without Accomplishing Plans Scheduled.

W.S.S. AUSTRIAN LOSSES HEAVY

Mountain Activity Reduced, But Struggle at Montebello Continues in Its Intensity.

(BY ASSOCIATED PRESS)

Washington, June 22.—Fighting on the Piave line apparently has decreased and the Austrian offensive enters upon its second week today.

In the mountains little activity is recorded for several days but the Austrians are concentrating large bodies of men for another attempt to push south and outward to the Venetian plains.

The Italian resistance and counter attacks aided by the rise of the Piave river have played havoc with the Austrian hopes of capturing Montebello and dominating the plain.

Slowly the enemy is being driven back by the Italians and their efforts on other points have been driven back or repulsed. The fighting at Montebello is intense.

A statement from the office of the Italian premier says there was no infantry fighting Friday and that the situation is unchanged.

The Austrian losses have been especially heavy, the Italian newspapers estimating them at 120,000.

Expect German Troops. More than 40 Austrian divisions are engaged on the line and 30 of them suffered heavily. Reports to London state that 12 German divisions are to be sent to Italy to take the place of the Austrians there, who, in turn, are to be transported to France.

There is much anti-German feeling in Vienna and in Hungary and the police are reported to have broken up an attack on the German embassy.

On the front in France and Flanders there is no break in the lull since the Germans were repulsed at Rheims.

Airmen Are Busy. Italian Army Headquarters, June 22. Cavalrymen artillery and airmen are giving effective aid to the Italian infantry in driving back the Austrians on the Piave.

One of the principal actions of the fliers, since the entry of American fliers in their service, is in preventing the delivery of bread and dry foods to Austrians on the west side of the Piave where the Austrians are still fighting tenaciously.

Positions Improved. Washington, June 22.—General Pershing's communique for yesterday, received here today, reported improvement of American positions northwest of Chatou Thierry. There was brisk artillery fire in the Woivre, Vosges and in the Chatou Thierry regions.

Cavalry on Guard. London June 22.—The Times correspondent at the Hague is informed through a Dutch source that wounded men sent to guard buildings in Vienna have been withdrawn and cavalry is now being used.

BACK TO TALLOW. Denmark has a lighting problem so serious that the Danish government recently purchased 400 tons of tallow from which to make candles. Commercial Agent Normal L. Anderson reports from Copenhagen.

"There is a scarcity of kerosene also and electricity is, of course, not available to the isolated farmhouse," says Mr. Anderson, who quotes from the "Tidskrift for Industri," which, in discussing the possibilities of acetylene and alcohol illumination, states: "Acetylene may now legally be used and may be included in fire-insurance risks. As a result the manufacture of acetylene lamps has flourished greatly and at the end of the year 180 types had been put on the market.

THE THEATRES

AT THE DELFT. Constance Talmadge in a delightful comedy called "Scandal" holds the screen at the Delft theatre today. Admirers of this charming leading woman—and there are many of them in Escanaba—say that they have never seen her in anything that suited her capabilities so well. The story is cleverly outlined and all of the characterizations are true to type. In addition, Max Sennett will show a comedy, "His Smothered Love."

AT THE STRAND. Once in a lustrum or a decade come a play fashioned according to the classic model of great character, straight forward unity of blot, terrific emotional power, truth to life and art. Such, say many who have seen it in New York, Chicago and Philadelphia is Triangle's civil war play, "The Coward" starring Frank Keenan. And it undoubtedly excited greater interest than any other recent offering, whether in the film or the regular stage world.

The scenes of "The Coward" are laid in the valley of Virginia, in 1861. The story is that of a proud father, a type like Coriolanus or Spartacus and a weak timid son of the Hamlet-like type.

Grace Darmond, conceded one of the smartest gowned stars in moving pictures, is seen to splendid advantage in "The Seal of Silence," the Vitagraph Blue Ribbon Feature which will be seen at the Strand theatre on Sunday.

Earle Williams has the leading male role in this fascinating story.

The local draft board has received the new questionnaires, which were described in The Mirror yesterday. The new papers require more detailed information than the first questionnaires. W. S. NAVY RECRUITING TO BE RESUMED HERE ON TUESDAY

James J. Colby, in Charge of Enlistments, Will Meet Men; Fine Record for This City. James J. Colby, navy recruiting officer, who conducted the recent campaigns for men for the Naval force in this city, will return to Escanaba on Tuesday to secure the enlistment of a number of young men from this community who have filed applications during the past week. It is expected that a dozen, or more, men will sign up for service in the "first line of defense" at this time. The recruiting officer visited Escanaba for a couple hours today in the course of an inspection trip. He stated that Gladstone and Escanaba sent more men to the Navy since June 1 than any other cities, and that the helping station has broken all records for recruiting this month. Since June 1 more than 200 men have been enlisted from Gladstone, while the previous high record for any one month was 108 men, which record was established in May. For two successive weeks, according to reports issued by the Milwaukee office, the helping office led every sub-station in the Milwaukee district. Mr. Colby will make his headquarters in the postoffice building on Tuesday, and during his stay will cooperate with postmaster John O'Meara. W. S. S.—

State Association Pledges Support of Move to Use One-third of License Fee on Roads. Detroit, June 22.—Hotel men in Michigan already have begun an active part in the campaign to assure the submission to the electorate next fall of a constitutional amendment to permit the sale of cider, light wines, beer, ale and porter, at present prohibited under the terms of the state dry law. At a recent meeting here of the Michigan State Hotel association resolutions were drawn up pledging the association to support the amendment. The resolutions point out that the proposed constitutional amendment provides that \$250 from each license fee of \$750 shall go to the construction and maintenance of good roads. This in turn it is declared will increase travel and thereby increase the hotel business and business in general. With the privilege of selling mild beverages the hotel men contend, hotel accommodations can be greatly improved. W. S. S.—NOTICE. Escanaba, Mich., June 15, 1918. 50,000 YOUNGSTERS, 80 CITIES, ENLISTED IN GARDENING DRIVE

Army of Hoe Almost 50 Per Cent Larger Than It Was a Year Ago, M. A. C. Declares. East Lansing, Mich., June 22.—Fifty thousand Michigan boys and girls whose homes are in 80 different towns and cities are plying their hoes and raising crops this summer to help whip the Hohenzollerns, declares a report on the progress of the gardening campaign thus far which has just been given out by the boys and girls club department of the Michigan Agricultural College. The youngsters are members of gardening clubs in 78 of Michigan's 83 counties. "Eighty Michigan cities are carrying on organized work for children," according to E. C. Lindemann, state leader of boys and girls clubs, "but there are probably many more cities where gardening work is being done. The 80 municipalities mentioned are simply those in which the work is organized under the boys and girls club department of M. A. C. and the U. S. department of agriculture. "There are also 74 state, district, county, township and city supervisors at work on a paid basis, while 1000 volunteer workers have also enlisted. "In addition to these gardening clubs there are approximately 50 corn clubs; 75 potato clubs; 10 calf clubs; 25 pig clubs; 75 poultry clubs; 10 sugar beet clubs; 30 bean clubs, 10 sheep clubs and 150 canning clubs. All the members of these clubs are boys and girls between the ages of 10 and 18 years. It is estimated that this army of young people will produce at least a half million dollars worth of food during the season. Last year it cost 63 cents per club member to pay for the work of organization and supervision. In return, each member of the clubs produced an average of \$22.70 worth of food products. With a fair season, this record should be exceeded this year. "But while these boys and girls were brought together primarily to assist in the work of producing food, the clubs are conducted on an organized and supervised plan to teach the children the value of cooperation and business methods, and to inculcate in them the ideals of good citizenship."
