### OSTEND AND ZEEBRUGGE, GERMAN NAVAL BASES, IN WAY TO FALL SOON

Peace Feelers Sent Out By Key Will Not Be Considered Until They Bear the Force of Official Sanction.

#### ROULERS BEING RINGED

Belgian Forces Under King Albert are Rendered Splendid Account of Themselves in Fighting in Open Ground.

#### BULLETIN

London, Oct. 1.—“Feelers” have been put out by Turkey for an armistice, the Evening News says it understands. While the advances are said to be semi-official, no notice will be taken of them until official telegrams are received.

#### (BY ASSOCIATED PRESS)

French, British, American and Belgian troops continue their smashes against the German defenses, further increasing the peril to the German armies from Verdun to the North sea. The important bastions of Lille, Cambrai, St. Quentin and Laon more and more are becoming into the enemy line between Lille and the German submarine bases on the Belgian coast, is being widened rapidly. The Belgians are encircling Roulers on the railway from Lille to the submarine basis of Ostend and Zeebrugge. Further to the same railway. Forces under command of King Albert of Belgium, are now on open ground and have overcome a fierce counter thrust by the enemy.

It seems that the railways forming and within the triangle of Lille, Ghent and Brugge must soon be lost to the Germans, thereby bringing on the evacuation of Ostend and Zeebrugge.

In the last ten days the western front has seen great changes as the allies force their way through the Hindenburg line.

#### Bulgaria May Attack Turkey

London, Oct. 1.—The Bulgarians during the discussion over the armistice at Saloniki indicated that they were not averse to attacking Turkey, Reuter's states, Bulgaria explains that she can only act militarily in this connection, in cooperation with the allies.

#### Germans Repulsed.

British Headquarters in France, Oct. 1.—A heavy counter attack was delivered today by the Germans against the Canadians, Australians and Americans outside of Cambrai. The allies however, more than maintained their ground.

#### French Push Ahead.

Paris, Oct. 1.—French troops this morning pushed ahead on the front between the Vesle and the Aisne river, according to the official statement issued by the war office. French attacks in the Champagne are continuing with an important advance being scored in the Aisne valley. Birnerville and Conde-lez-Laudry had been captured. The French have taken

### Big Draft Lottery Completed at Early Hour This Morning

#### (BY ASSOCIATED PRESS)

Washington, D. C., Oct. 1.—The drawing of the order numbers for the 13,000,000 draft registrants, was completed at eight o'clock this morning hours ahead of the scheduled time. The last number drawn from the bowl was 12,734.

### DAVID GAUFIN IS A SOLDIER CLERK TO DRAFT BOARD

Local Boy Who Has Been Attending Lansing School Takes Up New Duties Here And Pleases Board Greatly.

David Gaufin, an Escanabe boy, formerly head bookkeeper for the National Grocer company, who joined the colors some time since and has been sent to the school at Lansing for military training along special lines, has been selected as soldier clerk for the local draft board and took up his duties yesterday.

Mr. Gaufin is particularly well qualified for his new position and after a day or two spent in familiarizing himself with the draft board work, will plunge into it full speed ahead. The selection of the local boy came as a most welcome addition to the forces of the local board who have the greatest confidence in him and his ability.

### TWO PRINTSHOPS ARE HIT BY LOTTERY IN CAPITAL YESTERDAY

William I. Jaeger and R. W. Coolman, In the List of The First Thirty Names Drawn From The Big Bowl.

The first thirty numbers drawn from the big bowl in Washington yesterday, in determining the order of call for the thirteen million men who registered for military service on Sept. 12, hit two Delta county printing shops. William I. Jaeger, publisher of the Gladstone Reporter and Robert W. Coolman, proprietor of the Delta Printing company, of this city, were both in the first thirty names drawn and if fully qualified and not exempted for cause, will be among the first men to be called to the colors from the new registration.

### LIBERTY LOAN HITS \$320,000 AT CLOSE OF BUSINESS MONDAY

Banks Did a Heavy Business in the Sale of The Best Securities in the World All Day Yesterday.

Chairman M. K. Bissell, of the city Liberty Loan committee, announced late this afternoon that up to the close of banking business last night, the city had subscribed \$302,000 of its quota of the \$400,000 in bonds. This means that approximately \$27,000 worth of bonds were purchased at the various banks during the day on Monday.

These figures, of course are not exactly accurate but it will not be under that figure.

Miss Ether Gauthier has left for Washburn, Wis., where she will spend the winter with relatives.

more than 13,000 prisoners on the front between Sulpice and Argonne, since Sept. 26 and have captured over 300 guns, many of them of large calibre.

Gen. Allenby's troops are now but two and one-half miles from Damascus and French cavalry is advancing on Beirut, according to Marcel Huntin, in the Echo de Paris.

### SOLICITORS TO TAKE FIELD IN LOAN CAMPAIGN

Squads of Both Men and Women Will Get Busy Tomorrow Morning Among Those Who Have Not Purchased.

### BIG FELLOWS ABOUT IN SALES FROM NOW ON, IT IS BELIEVED, WILL BE AMONG THOSE NOT ABLE TO PURCHASE SO HEAVILY OF FOURTH LOAN.

Many additional subscriptions to the fourth liberty loan were made at the various banks of this city yesterday. The cards have been turned over to the Chairman Bissell of the city committee and the amounts are being entered up. By tomorrow morning this work will have been completed and the committee can then tell the names of every person who has not subscribed up to that time.

Beginning Wednesday morning squads of solicitors will begin their work in the city. They, naturally, will find their field of operation among those who are able to take out the smaller denominations of bonds only and it is the purpose of the committee to call upon everyone who has not thus far subscribed.

Men Also Get Busy. A committee of men will also take the field tomorrow morning and canvass among the men who are believed to be able to raise subscriptions already made or to take large amounts than they might unless strong persuasion were used.

The fact that the loan has been subscribed already means only that the heavier purchasers of bonds have taken out their subscriptions and there are still numberless smaller purchasers who are expected to do their duty.

Yesterday was a busy day at the banks where a great many bonds were sold. As the figures were not available early today it is impossible to state accurately just where the loan really stands now.

Chairman M. N. Smith of the county committee expects to begin receiving reports from the outlying townships about tomorrow but advance information indicates that the townships will make a splendid showing.

### DR. H. B. REYNOLDS IS NEAR DEATH AFTER A PROLONGED ILLNESS

Old and Successful Physician Gradually Sinking and Bids Old Friends Good Bye While Still Conscious Yesterday.

Friends of Dr. H. B. Reynolds will learn with profound regret that he is regarded as being at death's door. For the past 24 hours he has been sinking rapidly and his death is believed to be only a matter of hours.

Dr. Reynolds is one of the oldest, probably the very oldest doctor in Escanaba in point of practice here and he is also regarded as one of the most skilled and successful of the medical fraternity here.

Several years ago he suffered stroke of paralysis from which he partially recovered but recently he has been compelled to forego his activities and has been gradually weakening until the end is now believed to be near.

Yesterday Dr. Reynolds was visited by many of the members of the fraternity here, who bid him good bye, as did a number of friends in other lines of work.

### Balfour Endorses Ideas Advanced In President's Speech

#### (BY ASSOCIATED PRESS)

London, Monday, Sept. 30.—“The wrongs of subjugated peoples must be righted and the territory occupied by the Germans since the beginning of the war must have commercial freedom before a league of nations can be possible and peace secured to the world,” declared Arthur J. Balfour, British Foreign Secretary in a speech here today. He explained President Wilson's speech in New York and gave his support to the ideas outlined in it.

### Demonstration For Peace In Germany Results in a Riot

#### (BY ASSOCIATED PRESS)

London, Oct. 1.—A great peace demonstration occurred in Berlin on Saturday. It is reported here. Cheering crowds are said to have gathered in front of the Bulgarian legation where police interference was strongly resisted. The rioters are said to have finally gained the upper hand of the authorities and a number of statues in Berlin squares are reported to have been destroyed.

### GERMAN PANIC IS RESULTING FROM BULGARIA'S ACT

Instant Demand That “Something Be Done” Grows Out Of News of Bulgars Signing Armistice With Allies.

#### STOCKS SLUMP QUICKLY

People Are Demanding That Someone in Whom They Have Confidence Jump Into The Saddle and Save the Situation.

London, Oct. 1.—There is the greatest excitement in Germany over the defection of Bulgaria, according to dispatches received here from Holland. On Saturday the excitement amounted to a panic. According to some reports, the panic affects the Berlin house, where war industries slumped violently. The panic also struck parliament, the newspapers and officials. The alert brought forth an instant demand that “something be done.”

A dispatch from the Hague to the Daily Mail says the demand is for someone having the confidence of the German people and their allies, to replace the present military oligarchy but opinion clashes as to just who this vague personality should be. All reports indicate a decided cleavage between the Junker and Conservative classes and the class represented by the Socialist Radicals, who have the support of the Centrists and even the National Liberals.

Emperor William's anxiety for the people to cooperate in the government is distasteful to the Junkers, whose official paper, the Kreuz Zeitung, says that a dictatorship is the only possible solution to the problem. On the other hand the demand for a popularly elected cabinet is increasing.

The effect of the resignations of Von Hertling, German Imperial Chancellor and Foreign Secretary Von Hintze, on the public agitation is not yet reported and nothing is known as to how the Bulgarian terms affected the people have been permitted to know of the terms.

### SOLDIER-MECHANICS BUILDING BARRACKS AT LANSING SCHOOL

Lansing, Oct. 1.—The Michigan Agricultural college's third army training detachment of auto-mechanics were formed into one company of the Students Army Training corps and drill as a part of the student battalion of the college. Those enrolling in the S. A. T. C. will start work today. Nine barracks are being built by the soldier-mechanics and the identity of the institution as an agricultural college is being lost in the war department changes. A detachment of Great Lakes Training Station men arrived at the college to organize a naval unit from among the older students of the engineering department.

### SENATE BEATS PLAN TO GIVE SUFFRAGE TO WHITE WOMEN ONLY

#### (BY ASSOCIATED PRESS)

Washington, Oct. 1.—Moving to a final vote on the woman's suffrage amendment, the senate rejected, by a vote of 61 to 22, the proposal of Senator Williams of Mississippi, to limit the franchise to white women. With the senate apparently about to vote on the woman's suffrage resolution, President Wilson supplemented his address of yesterday, by sending personal letters to Democratic senators believed to be opposed to the resolution, urging them to give it their vote.

### ESCANABA MAN DIES IN MILWAUKEE AND WILL BE BURIED HERE

Undertaker J. A. Allo received a message this afternoon asking him to meet the body of Otto B. Weisler, 915 Wells avenue at the North-western station Thursday morning at 4:40. The message came from Mrs. Weisler and also asked that Local 125 of the Locomotive Firemen be notified. Mr. Weisler died in Milwaukee but the particulars of his death are not known at this time.

#### Allied Success In France Reflected In Liberty Loan

#### (BY ASSOCIATED PRESS)

Washington, D. C., Oct. 1.—The success of the American and allied forces in France is reflected in the Fourth Liberty Loan. Reports show that many communities have far over-subscribed their allotments and purchased bonds far in excess of their quotas for the Third Liberty Loan.

### PREPARING FOR “BABY WEEK” IN CITY THOROUGHLY

Committee in Charge of the Enterprise Has Already Started Taking a Census of Babies in City of Escanaba.

#### WILL BE A BIG AFFAIR

Child Welfare Work to Be Pushed During the Week of Oct. 6-12 on Scale Hitherto Unknown Here.

Charles Malloch has returned from Grand Rapids where he attended the State-Republican Convention.

Preparing for baby week. The local committee in charge of the “Baby Week” enterprise scheduled for the week of October 6-12 in this city is busy arranging for that big event, which will be developed along more ambitious lines than at first indicated. It is expected to make it a child welfare week in all that the word implies. High school girls have already begun the taking of a baby census in the city and the committee will have a list of all the children in the city under six years of age.

These babies will be weighed and records made upon which to base the activities of the week in a week of helping mothers do more for the little tots.

### ESCANABA BOY TELLS OF STRANGE SIGHTS AND FRENCH CUSTOMS

Charles Groth Writes Mother that He Is Enjoying Life in the Army and is in Splendid Health.

Mrs. Charles Groth, 305 Hale St., is in receipt of an interesting letter from her son Victor, who is with the U. S. Signal Corps in France. He says his trip across was without incident, as he did not get sick and enjoyed every minute of the voyage.

He relates that the payday of the Americans always looks big to the French soldiers, as they get only about seven cents a day. He also relates with just pride a statement made by the doctors at Camp Upton, before they left the United States, to the effect that in his 20 years in the army he had never seen a more soldierly looking lot of boys.

The young man states that Kenneth McKenzie went all the way to France with them, but the company he was in went in some other direction when the troops landed. His letter is filled with descriptions of the scenery and customs of France and indicates that he is keenly alive to what is going on about him.

### 25 Foe Airplanes Are Destroyed By Allied Aviators

#### (BY ASSOCIATED PRESS)

Paris, Oct. 1.—Twenty-five German airplanes were destroyed by allied air forces yesterday. Twenty-five tons of bombs were dropped on convoys and concentration points behind the enemy front.

British Continue Advance and Capture Several Towns South of the Burning Objective of the Allied Drive.

#### BELGIANS VERY ACTIVE

Serbian Severely Defeat Bulgarians and Cut Their Army Into Two Parts East of Veles On Sunday.

#### (BY ASSOCIATED PRESS)

London, Oct. 1.—Under the threat of its speedy capture by the British, the city of Cambrai has been set on fire by the Germans according to the official report of Field Marshal Haig received today. Further south on the front between Cambrai and St. Quentin, the town of Veles, the British wedge has been thrust still further into German-held territory and the town of Nierngies has been captured. British troops last night captured Priville to the west of Cambrai and Tilloy on the northwest of Cambrai.

Continued progress along the whole front in Belgium yesterday, is recorded in the official Belgian statement issued this morning. The statement says Amersweld and Oostmieuwerke have been carried and Belgian troops have crossed the Tzarin-Roulers and the Roulers-Menin road at several points.

In the region east of Veles Serbian troops Sunday severely defeated the Bulgarians near Charevo, six miles from the Bulgarian frontier. The Serbian official statement of Monday says the Bulgarian army has been cut into two parts. Inhabitants of Serbia say that Bulgarian soldiers killed their officers and attempted to check their flight. Uskup was occupied by French cavalry on Sunday, according to the statement.

#### Beligians Are Active.

Havre, France, Oct. 1.—The British, and Belgians under King Albert, continue their progress and have reached the environs of Roulers, according to the official statement of the Belgian war office. The British have reached the River Lys on the front from Warnton to Werwick. The number of prisoners has been further increased to such an extent that it has been impossible to count them.

### PERSHING COMMENTS WORK OF HALBORD IN SUPPLY DEPARTMENT

#### (BY ASSOCIATED PRESS)

Paris, Oct. 1.—Gen. Pershing, on the part of the First American army has congratulated James G. Harbord, commander of the American supply service, for the manner in which the necessary supplies were transported to the front in recent operations.

**MANY NEW BOOKS  
NOW AT LIBRARY  
FOR CIRCULATION**

List Runs the Entire Gamut of Human Experience, Dealing With Subjects From Religion to War.

The Librarian of the public Library has a long list of interesting new books ready for circulation. Following is a list of some of them:

The Soul of Democracy, by Griggs. The philosophy of the world war in relation to human liberty.

The All Highest Goes to Jerusalem. This little satire convulsed France twenty years ago when it was published in "Le Rire," a magazine which corresponds to "Life" and "Punch." It purports to be the diary of the German Emperor's journey to the Holy Land.  
The Religious Education of an American Citizen, by Peabody. "An ideal work, the cream of long and rich experiences."

Over There and Back, by Lieut. Joseph S. Smith. The experiences of an American boy in the Canadian, British and American armies at the Front and through No Man's Land.  
The Battle of Somme, by John Buchan. A most lucid and instructive account with not a few points, and marked by admirable balance which is usually lacking in war historians.  
Household Management, by Florence Nesbitt. The value of this work lies in the fact that it is written from intimate knowledge of the drawbacks and inconveniences of housekeeping in cramped quarters with cramped means. Very practical.

Out There, by Whitehair. Ranks with the best of the recent war books.  
How to Face Life, by Stephen Wise. "A tiny volume that arouses one's interest and stimulates one of ideas."  
Successful Canning and Preserving, by Ruth Ola Powell. The most complete manual to date, for canning on a large as well as a small scale.  
Trapped in "Black Russia" by Ruth Pierce. The unique experience of an American woman in Russia, told in intimate letters to her parents.

Defence of Idealism, by May Sinclair. "Not always sound, but always keen, vigorous, lively, readable."  
A Nation at Bay, by Ruth Farnum. What an American woman saw and did in suffering Serbia.  
Caroline King's Cook Book. A book which will enable the housewife of little experience to learn the rudiments of cookery, and to build upon a solid and comprehensive foundation a firm understanding of the entire subject.

"Ladies from Hell," by Pinkerton. "A grim, dramatic, yet very reasonable."

"Hearts of the World" was eighteen months in the making.  
The production is not in any sense a war play, but a love story of the great war, with the conflict serving as the grim background.  
The battle scenes were taken on the

battlefields of France by permission and with the assistance of the British and French governments.

Mr. Griffith and many of his principal players, including Lillian and Dorothy Gish and Mrs. Gish, mother of the two girls; Robert Harron and George A. Slegman, were under actual bombardment three times, on one occasion for a period covering four hours.

Mr. Griffith had to wear a steel helmet to protect him from shrapnel and a gas mask to protect his lungs during the taking of many of the stirring scenes. Many of the most striking scenes in the film owe their effects to the remarkable courage of Mr. Griffith and his intrepid cameraman, "Billy" Bitzer, who was with him under fire hundreds of times. Neither Mr. Griffith nor any of his company received injuries other than a slight wound in Mr. Griffith's arm from flying shrapnel. More than 120,000 feet of film were taken, although only 12,000 feet are used in the production.

Lumber Mills Will Get Cars to Ship Their Product Now

Local lumber concerns are already beginning to benefit from the recent lifting of the embargo on the use of cars for shipping lumber products. An order from the railway agent at the point to which their lumber is to be shipped, will release the necessary cars for handling the finished product from the mills to the point of destination.

**NECESSITY FOR TEACHING CHILD METHOD OF PLAY**

Theory That Play Need Not Be Supervised to Get the Best Results Is Exploded by Evidence on Every Hand.

With the rapid growth of the playground movement many people have asked "Why should we teach children to play?" "Can play be lead?"

Some say "You might as well try to teach fishes to swim as to teach children to play." Many object on the ground that leadership takes from the child his initiative, and encroaches "the sacred domain of childhood."

The theory that the play instinct, innate in every child, and the desire and volition to play, make it necessary for a child to be taught how to play, is an exploded one. George E. Johnson, formerly of Pittsburgh, says "Did a boy ever play baseball who was not taught by someone? A boy no more inherits the game of baseball than he inherits the Lord's Prayer. What a boy does inherit is an instinct for throwing just as a bird inherits the instinct for singing, but not the song. When this instinct is not supervised, what happens? Some Pittsburgh boys were arrested and brought to the juvenile court. They had thrown stones at moving passenger trains in the ravine below them. In common with other boys they had the instinct for throwing but it was not guided. If it had been, these boys would have been in a baseball field and throwing a ball would have taken the place of stone throwing."

The records of the juvenile courts throughout the country furnish numberless records of misdirected instincts and energies—misdirected because there has been no leadership to show boys and girls how their energies may be made to count for "team work," for honor, for life and efficiency.

The leisure time of boys and girls needs to be turned into an asset rather than a liability, and to accomplish this we must provide playgrounds. But rather no playground at all than one without a leader, for an unsupervised playground may be a real menace to child life. It is not space that counts; it is not equipment, for as far as any moral effect upon youth is concerned, bars, posts, and swings are neutral. First of all the real essential is trained, competent, sympathetic leadership. The play leader is the soul of the playground.

**AT THE STRAND**

The latest Arthur H. Jacobs production, Jane Grey in "Her Fighting Chance," will be shown at the Strand today.

This powerful Jane Grey vehicle is a picturization of "The Fiddling Man" by James Oliver Curwood, who belongs to that small group of well known writers of high class fiction whose works are readily adopted to the screen. His characters are of real red blooded sort—beautiful women and virile men who do interesting things and his work abounds in the action so necessary to successful picture drama. "The Fiddling Man" has caused wide discussion because of the unusual predicament in which the heroine is placed during her fight to save her husband from death, and the exceptional popularity enjoyed by the novel promises much for "Her Fighting Chance," especially with such a powerful emotional actress as Jane Grey as the wife.

Ernest Luecke Explains that He has Not Had a Letter from Here For The Last Six Months.

E. A. Grabowski is in receipt of a rather unusual letter from Ernest Luecke, of this city, who is now with the American forces in France. The young man writes to thank Mr. Grabowski for a handkerchief which he received and puts his letter in the form of a poem. He asks that his kindest regards be conveyed to several friends whom he mentions and states that he hasn't received a letter since he has been in France, which, Mr. Grabowski says has been for about six months. This young man would appreciate it if his friends in this section of the country would write to him and tell him what is going on.

His address is Ernest Luecke, Medical Dept., 35th Engrs, R. W. Y. A. P. O., Bordeaux, France.

**TROCO**

**TROCO Time Is Here**

THESE bleak, chilly days bring us Troco at its best just when we need it most. When you want it spread thick on biscuits and griddle cakes. When it makes Sunday morning waffles better with its sweet, delicate flavor.

Moderate price allows you to use all you want—on the table and for cooking.

The more the better from the standpoint of health. Troco is high in caloric value—and calories give us strength and energy and help keep us warm.

**When Troco Is Best**  
**The Old Time Product Is Highest**

The banner Troco season begins at the most opportune time—just when prices of other products are soaring.

It gives the quality, the perfection of flavor and texture, that is only found in the finest table product.

All at a modest price that means a saving of from 15c to 20c on every pound you buy. Without the slightest sacrifice in satisfaction or quality.

**Fresh Shipments of Troco Always En Route**

Every few days we receive shipments of Troco—every carton fresh and sweet, straight from the churn.

When you taste it you will say Troco cannot be surpassed in true goodness by any product, regardless of its prestige. This is because the Troco Company knows how to incorporate the true flavor.

For Troco is made by a special process—churned from pure white coconut fat and pasteurized milk.

Don't judge it by other nut margarines. They are wholesome enough products, but they haven't the Troco flavor.

**Order From Your Dealer**

Order Troco from your dealer. He has it or can get it for you. Don't accept a substitute—you want Troco—for flavor and food value. A capsule of pure vegetable coloring supplied by your dealer.

## Here at Escanaba's Big Store

### Every man in the U.S.A. knows clothing prices have gone up

and up—and some of these "war prices" are entirely unnecessary, we think. There never was a time when a "good excuse" was the cause of such price-boosting as at present. Some have even gone so far that they are ashamed even to quote their present regular retail prices in print. Not so here—we believe in keeping the public posted on the market. If we can't sell the goods—we are at least preventing some one else from taking undue advantage of today's situation—boosting prices way beyond reason.

Take particular note of the fact that suits as well as overcoats have advanced less here than in any other Escanaba store. The reason is—we in most instances contracted for our new stocks months ago—when prices were much lower than today.

Until Further Notice  
While Our Present Stock Last

You Can Buy

Good Winter Suits at \$17.75 to \$39.75

Good Overcoats \$17.75 to \$55.00

At these prices our stock won't last forever, so better get busy now at once. If you need either suit or overcoat, buy, and buy at once without further delay.

Just to convince yourself drop in tomorrow or if you can't get away during the day stop in Saturday night and look around. You know what stores far and near are getting for them—you know what you like and what you don't like.

While we still have Hirsh, Wickwire's sample line on display, is a good time to come in. They are going very fast, so if we have your size, you'll have some mighty good looking coats and suits to pick from.

HIRSH, WICKWIRE CO.

### RESTRICTIONS ON WOOL.

Those who have been doing their bit in war work by knitting warm woolen garments and articles for American soldiers and sailors are to continue to receive a supply of hand knitting yarn under plan approved by B. M. Baruch, chairman of the War Industries Board, and worked out by the Woolens Section, of which H. E. Peabody is chief.

Spinners of hand knitting yarns will be required by an order from the Woolens Section to confine their products to the so-called relief colors—gray, natural gray, oxford, khaki and navy blue. To these colors white may be added, if desired. By restricting production to the colors named the Woolens Section believes there will be a sufficient supply to meet the demands of those knitting for relief organizations and for the home manufacture of essential apparel.

The order, it is believed also, will tend to further conservation of wool while it adheres strictly to the policy of War Industries Board of confining the use of wool to only those purposes necessary to the maintenance of the national welfare. The Woolens Section requests all spinners to refuse further orders for yarn other than the six colors mentioned, and asks written assurances of co-operation.

### AMERICAN MOTHERS MUST SERVE FOR A FOREIGN BOY TOO

Food Conservation in the American Home Means Some Baby in the Allied Army is Being Cared For.

Lansing, Oct. 1—Chairman Michael E. Foley, of the Indiana State Council of Defense says:

"In the present world situation the American mother must serve as the mother for not only her own boy, but of these of other lands, less fortunate in the matter of parentage and food supply. She represents and controls the opportunity for the most important service her sex can render not even excepting that of nursing the wounded. This the army recognizes and appreciates. Food is the first essential for an effective fighter, and, except that the American mother save thematically, the boys cannot be fed. America is not only the sole surviving producing nation, so far as food stuff is concerned, she is the one hope of the world in the measure of her sharing.

"I can think of no more patriotic work, no more natural duty than that the home makers of this country, of Indiana, should unite in the common purpose of co-operating to make certain that their boys should have the same assurance of wholesome, nourishing food, in sufficient quantity to sustain them, just as they were assured of anything and everything-if they wanted it—that the family larder contained, while at home."

### LANSING BOYS' BAND BROKEN UP BY BOYS BEING GRADUATED NOW

Faculty Will Proceed to Organize a New Musical Organization at Once and Maintain Reputation of the School.

Lansing, Oct. 1—Thirty of the 50 boys who are members of the Michigan industrial school for Boys' band left school today to take places in the world for which training in the school has been intended to fit them. Their graduation marked the passing of the school band which was well known in every section of the state.

The state school always maintained a band but the one leaving soon is considered the best ever developed. The boys made trips to several state fairs and recently had a part in patriotic demonstrations in various parts of the state. The last out-of-town trip made by the band was when the boys were guests of the Lansing Kiwanis club.

With the nucleus of 20 pieces Director E. C. Moore will start out at once to develop another organization. A special course has been devised which is expected to furnish efficient bandmen in one year.
