## HAMMER BLOWS FORCE GERMAN RETREAT ON A FRONT OF FIFTY MILES

Evacuation of Greater Part of Northern France By Germans Not Improbable As Result of Great Victory.

### GERMANS DEMORALIZED

Apparently Amazed At Quickness with Which Attack on Hindenburg Line Is Organized By Force Fighting to It.

(Associated Press Summary)

On a vital front of fifty miles extending from just below Ypres to a point near Peronne, on the Somme river, the German army is in retreat. This retrograde movement is not a voluntary one on the part of the enemy but has been forced by a series of unremitting hammer blows inflicted upon them by Marshal Foch within the last six or seven weeks. This movement has been accelerated by the notable victory of Gen. Haig yesterday in breaking through the dividing line which protected the railroads at Douai and Cambrai, and threatening to outflank the main Hindenburg line south of St. Quentin.

Although the German command must have been expecting an attack on the Hindenburg switch line, it is apparent that it was not expected at the moment it was delivered. The Germans seemed to have been surprised by the quickness with which Haig's Canadian and other British forces, after fighting up to the line, organized their crushing attack against the line itself.

This morning, along a 20-mile front, where the British are mainly engaged, they are reported to have advanced no less than a maximum depth of four miles. This emphasizes the clearness of the break and, with the large capture of prisoners, points to the demoralization of the German forces in this area.

It is too early to estimate the effect of the present big drive with any degree of accuracy, but the fall of Douai and Cambrai now seems not improbable in the near future. This would put the German line out of joint between the north sea and Rheims and would force an evacuation of the greater part of northern France by the Germans.

### BILLY HERBST GETS TRANSFER TO CAMP AT GETTYSBURG, PA.

Local Man Expected to be Sent into Machine Gun Company But is Not Certain of it at This Time.

A postal card received today from "Billy" Herbst, a former employe of the Mirror, now in the service, shows that he has been transferred from Buffalo to Gettysburg, Pa. He says he was transferred last Tuesday and the boys are now getting a touch of real army life by living in tents, every man having his own eating utensils and eight men sleeping in a tent. He says they have two tanks there for training purposes and he expects to be assigned to a machine gunners' squad but is not certain of it yet.

It is explained that the men know nothing of the future. They may be at Gettysburg two days or two weeks. Will is feeling fine and says he is "sleeping like a log."

a point to the west of Bulsy two and one-half miles southeast of Queant. Ten thousand prisoners were taken by the British yesterday and additional prisoners were taken this morning.

The British also hold Doignes, Velu, Brancourt and Rocquigny representing an advance to a maximum depth of four miles on a 20 mile front, this morning. In Flanders the British captured Wolzgaem two miles southeast of Kemmel. Contrary to expectations the enemy has not reached heavily with a view to recapturing of the Drocourt-Queant line.

Crack Divisions Used Up.

With the French army in the field at noon, Sept. 3.—The battle for the plateau north of Soissons has used up some of the best divisions remaining in the German army. Yesterday's fighting between Crecy-au-Mont and Lailly, and between Juvisy and Terny, was particularly severe.

### CORP. BLACKWELL ESCAPES DEATH VERY NARROWLY

Automobile Turns Turtle and Swaps Ends Pining Corporal Beneath Wheel Companion Is Thrown Free of Machine.

Corporal Ira W. Blackwell, who has been in charge of the local recruiting station in Escanaba for several months, had a narrow escape from serious and perhaps fatal injury Monday afternoon on the Ford River road. Corp. Blackwell had taken a friend for a drive in a Ford machine. It was his first experience with the machine but matters went well until they were about six miles out, when in turning his head to see if one of the rear tires was not deflated, he lost control of the car. In his frantic endeavor to miss a large tree alongside the road, the wheel was swung over in such a manner that the car "swapped ends" and at the same time turned over, throwing the young lady clear but pinning Corp. Blackwell beneath the car. Fortunately, he was not pinned down and escaped with a few bruises while his companion suffered no apparent injuries of any kind.

A local garage was informed by phone and a driver went out and brought back the wrecked car.

Thousands Enjoy Splendid Program of Entertainment and Speeches on Streets and At South Park.

### SPIRIT OF PATRIOTISM

Relationship of Labor to the Winning of the War Takes On a New Meaning in Minds of Many Men.

What is generally conceded to have been the most successful labor day celebration held here in years, was thoroughly enjoyed yesterday by hundreds of Escanabans and an unusually large number of visitors from surrounding sections of the county. Up until five o'clock in the afternoon the day was perfect, and the rain interfered somewhat with the closing sports at South Park where a great crowd had gathered, but not sufficiently to mar the pleasure of the day as a whole.

The forenoon was devoted to a number of races and a diversity of sports for the young folks, on Ludington street. The little people were so much in evidence that a number of extra events were put on in order that all might have been opportunity to participate. These contests were extremely interesting and were witnessed by big crowds.

Last night a great Labor Day Ball was given at the pavilion at South Park, which was largely attended and the day wound up with a sense of deep satisfaction to the committee in charge as well as the hundreds who enjoyed the fruit of their labors in preparing such an entertaining program.

Following is the list of prize winners for the various events staged on the street and at South Park: Boys Bicycle Race—Wm. Bink, Henry Gingrass. Harry Work and W. A. Hews, Popular Traveling Men, Willing to Help Out During Saturday Hush.

As indicative of the class of men who are volunteering for service in the "Help One-Another" movement which is designed to help merchants meet Saturday afternoon and Sunday night rush emergencies, the names of W. A. Hews and Harry C. Work were turned in to the Mirror today. Both are traveling salesmen for grocery houses and were in the business years ago and are willing to aid any services in any time they are in the city and not tied up on business. Both think the Mirror suggestion a splendid one and are glad to do what they can to help along. Work, please remember, is not the gentleman's middle name, it is his last name, and Harry says he's willing to demonstrate that he is properly named. The same goes double, Mr. Hews says and there is a team that grocery men ought to go into ecstasy over.

### CANDIDATES MUST QUIT

Effect of Order Will Be Felt All Over the Country and Many Men Here Will Be Effected.

Under date of Aug. 31, Director-General of railroads McAdoo has issued an order which was promulgated from Washington on Sunday. It has a wide spreading influence and will be the biggest kind of news to the large number of men employed on the railroads in this city. Following is the special dispatch from Washington, which appeared in Sunday's Chicago Tribune: Washington, D. C., Sept. 1.—William G. McAdoo, director general of railroads, has declared politics adjourned for all railroad employes of the country who are under government control. In an order issued today to all officers and employes in the railroad service of the United States, Director McAdoo declares that with the railroads under government control, "employees and managers must not engage in politics." The order forbids any railroad official or employe to affiliate, either as officer or member, with any political committee that solicits political funds; to serve as delegate to any political convention, to solicit or receive political funds, conduct political campaigns, become a candidate for any political office, or to "attempt to coerce or intimidate another officer or employe in the exercise of his right of suffrage." Violation of the last mentioned injunction, the order of Director McAdoo declares, "will result in immediate dismissal from the service." All Candidates Must Quit. ### GASOLINE RULE IS GENERALLY OBSERVED IN THIS COMMUNITY

Few Cars Were Out for Pleasure Last Sunday and Owners of Those Probably Did Not Understand About Request.

But few people placed themselves in the position of being pointed out as "gasoline slackers" Sunday, as the request of the government lay up pleasure cars that day, was generally observed here. A few persons drove to church, and one or two cars, apparently from the country, where the news had probably not penetrated by Sunday morning, were seen going through town. All in all it may be said that the first day of the experiment was a success in this section and thousands of gallons must have been saved this one community alone.

Movie managers want a 15-cent piece to facilitate making change. Before setting the mints to work on the proposed new coin, perhaps movie patrons could be induced to have the exact change ready. Certainly an indulgent public is not disposed to see the managers of its favorite amusement subjected to any such serious inconvenience as nickels and dimes appear to cause them.

NO REASON FOR IT

When Escanaba Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what an Escanaba citizen says: Mrs. C. F. Cooney, 113 N. Campbell St., says: "I was suffering with a weak back and it ached nearly all the time. My kidneys were weak and acted irregularly, causing much annoyance. I felt tired out and dizzy spells came over me. As Doan's Kidney Pills were so highly recommended, I used a box. They did me a world of good, relieving me of the trouble."

BARBERS BEMOAN TRADE LOSS

Women Who Are Taking Men's Places In Industries Are Not Helping Tonsorial Artist.

Memphis, Tenn.—Women taking the place of men in the industrial world may be filling the jobs all right, but they are not helping the barber.

Visit any tonsorial establishment and ask the man who wields the gleaming blade. He will tell you some of his best customers have gone—gone to fight the Germans. And he will tell you that all the women who took their places are strangers to him.

While the barber complains the "beauty doctor" has a different story to tell. She says her patrons are more numerous than ever before, and they are more liberal. They spend money lavishly. A few dollars to remove a wrinkle that has appeared as a result of business worries is handed over without a murmur. Powder and paint and toilet water are used lavishly.

GRAND DUKE WORKS AS CLERK

"London Michael" and Countess Endure Reverses Uncomplainingly in London.

London.—One of the Russian grand dukes, known as the "London Michael" to distinguish him from the other Grand Duke Michael, has fallen from great wealth to comparative penury as a result of the Russian revolution.

Before the war he lived in one of the finest residential estates in the neighborhood of London. When his income from Russia was cut off he subsided this property and is now a clerk at \$2,000 a year in an office near Westminster abbey. His wife, the Countess Torby, conducts their small home with zest and without grumbling.

"Probably no family in Great Britain has endured greater reverses than this one, or borne its misfortune more cheerfully," comments the Evening News.

Only at one place in the United States is there real tropical vegetation, says Popular Science Monthly.

Florida and California have what is called "sub-tropical" vegetation. In the midst of a desert in the extreme southern part of California is a true oasis. The oasis, Palm Springs, lies 250 feet below the sea level. So hot is it there that there is a riot of vegetation all the year round. Enormous fig trees and mammoth grapefruit and oranges are always to be had. The lemons that grow there weigh two and a half pounds apiece. The responsibility for all this may be laid to a beautiful little stream which is fed by the Colorado river and which flows through the oasis only to disappear underground at its end.

Truly Euphemistic.

"Just what is meant by a euphemism?" "I'll explain," said the erudite person. "When a widow who has been married three or four times ropes in another man it is announced that she was 'led to the altar.'" "Exactly." "That phrase, 'led to the altar,' is a euphemism."—Birmingham Age-Herald.

RAILROAD MEN ORDERED TO GIVE UP POLITICS

(Continued From Page One)  
must immediately sever their connection with the United States railroad service.

Mr. McAdoo's order is regarded here tonight as certain to provide a storm in congress. There were whisperings that it would be the subject of immediate criticism in both houses.

Attention will be directed to the fact that Mr. McAdoo, as well as being director general of railroads, is secretary of the treasury, and that employees of various branches of the treasury such as internal revenue collectors, customs officials, and others are still permitted to engage in political activity. Other senators insist that the order is against the spirit of democracy.

Order Issued By Politics.  
Director McAdoo's order, issued under date of Aug. 31, says:

"To all officers and employees in the railroad service of the United States: The approaching federal and state elections, including the primary contests connected therewith, make it both timely and necessary that the attitude of the director general towards political activity on the part of officers and employees in the railroad service should be clearly stated.

"It was a matter of common report that railroads under private control were frequently used for partisan political purposes; that railroad corporations were frequently adjuncts of political machines, and that even sovereign states had been at times dominated by them. Scandals resulted from such practices.

"Now that the government controls and operates the railroads, there is no selfish or private interest to serve, and the incentive to political activity no longer exists. Under government control there is no inducement to officers and employees to engage in politics. On the contrary, they owe a high duty to the public scrupulously to abstain therefrom.

These Actions Forbidden.

"It is therefore announced as a definite policy of the United States railroad administration that no officer, attorney, or employee shall:

"1. Hold a position as a member or officer of any political committee or organization that solicits funds for political purposes.

"2. Be a delegate to or chairman or officer of any political convention.

"3. Solicit or receive funds for any political purpose, or contribute to any political fund collected by an official or employee of any railroad or any official or employee of the United States or any other state.

"4. Assume the conduct of any political campaign.

"5. Attempt to coerce or intimidate another officer or employee in the exercise of his right of suffrage. Violation of this will result in immediate dismissal from the service.

"6. Become a candidate for any political office. Membership on a local school or park board will not be construed as a political office.

"Those desiring to run for political office or to manage a political campaign must immediately sever their connection with the United States railroad service."

NAPOLEON ONCE SAID

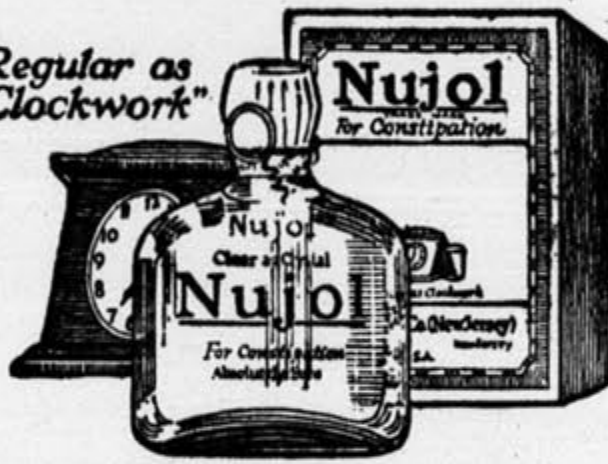

"A Footwear Army is An Army Half Defeated." Men in Training Camps, in Campments, in the Army and Navy suffer from blisters and sore spots on their feet. Every "Comfort Kit" should contain one or more boxes of Allen's Foot-Ease, the antiseptic powder to shake into the shoes. It freshens the tired, aching, smarting feet and heals blisters and sore spots. The Flatfoot Camp Manual advises men in training to make daily use of Foot-Ease. Sold everywhere, 25c.

Wallace Cobb left last night for Great Lakes, where he is in training.

Miss Etta Brown returned last evening after spending Labor Day at Chicago and Great Lakes.

Charles Chatsen and son Charles Jr., have returned from Chicago where they spent Labor Day.

"Regular as Clockwork"

You can foretell the future

You say "The man who could foretell illness would make a fortune!" Of course no man can—in the sense you mean. But you can tell pretty accurately what to expect your own body to do.

How? Get this simple physiology:

Your body machine has to be repaired. It also must have fuel to supply heat and energy. Your food supplies both repair material and fuel. But a furnace always produces ashes and clinkers. If these accumulate, the furnace becomes clogged and cannot work properly.

If your bowels become clogged—you suffer from constipation.

Perhaps you hurry to work or play and neglect to obey Nature's call. Waste matter stagnates in the bowels. You go right on eating, drinking, working. What happens? The constipation becomes established. Waste matter undergoes decay, fermentation and germ action. Poisons are formed, absorbed, carried all over the body. They attack the weakest part of you first.

Then you know you're sick. In reality you've been getting sick since you missed that first movement.

If you want to keep well—wholly well, all the time, so that you're on your toes every day, remove that waste.

Many people take pills, castor oil, purgative mineral waters to force the bowels to act.

These act, but they irritate, tire out the intestinal muscles, make the trouble worse.

Others take "salts," which attract water to the intestines and flush the bowels—about as gently as a fire hose. A reaction follows that makes the intestines dryer than ever and aggravates the constipation.

You needn't do this and weaken your system just because all of your ancestors did.

The Nujol Treatment moves the waste regularly, and easily. It is a purely mechanical process, absolutely harmless, based on a simple principle—that you can move a softened mass out of a tube more easily than a hard, dry one. It doesn't gripe—you won't know you have taken anything until after a few days your bowels move at the regular hour. It makes you "regular as clockwork."

Don't try to foretell illness. Foretell it. Don't wait until you are sick. Keep well now. Your druggist has Nujol.

So I just kept staggering around, and the sentry came up to me and looked me over pretty hard. Then I thought for the first time that things might go hard on me, but I figured that if I quit the play acting it would be all over. So I staggered right up to the sentry and looked at him drunkenly, expecting every moment to get one from the bayonet.

But he was so surprised that all he could do was stare. So I stared back, pretending that I saw two of him, and otherwise acting foolish. Then I guess he realized for the first time that the chances of anybody being drunk in that camp were small—at least for the prisoners. He was rubbing his ear all the time, but finally the thought seeped through the ivory and he began to laugh. I laughed, too, and the first thing you know he had me doing it

Last week's dollar was bigger than this week's. Both dollars look the same, but they don't buy the same.

In ordinary times a dollar kept was a dollar saved. In war time a dollar kept is part of a dollar lost. If it is wisely spent today it is worth MORE than a dollar tomorrow.

The best way to 'shrink proof' your dollar now—this week—is to invest it in staple merchandise you need.

## HUMAN INTEREST IS GREAT KEYNOTE OF WONDERFUL PICTURE

Les Miserables at the Delft Today and Tomorrow Meets Interest Demand for Better Pictures.

Human interest is the keynote of William Fox's production of Les Miserables according to the dramatic critics of New York City who witnessed the initial showing of the picture when it was presented at the Lyric Theatre, New York City. The production also was praised because of the care and accuracy with which the Victor Hugo story had been followed. William Farnum, in the role of Jean Valjean, generally was credited with having scored the triumph of his screen career. Les Miserables will be shown at the Delft Theatre today and tomorrow. It was the judgment of The New York Herald reviewer that "the photography probably is as close an approach to literature as has been accomplished on the screen," and The Morning Telegraph declares "the visualized work is every bit as strong as the printed word." Following are a few of the comments: "There are people who are continually crying for better pictures. To them we would say, 'See Les Miserables.'"—New York Tribune. "Quite the best picture that has been seen hereabout."—N.Y. Times. "In strength of plot and human interest Les Miserables surpasses the memorable 'Honor System.'"—New York American. "A note of poignant interest was dominant through it all." New York Herald.

**EPISCOPAL LADIES WILL MEET TOMORROW** The Womens Guild of St. Stephen's Episcopal church will meet with Mrs. A. P. Hoffman, 311 Ogden avenue, Wednesday afternoon, September 4, at 2:30 o'clock. All members are requested to be present.

**MEETING POSTPONED** The regular meeting of the music club will be postponed from to-night to next Tuesday night, September 10.

## POPULAR RAILWAY MAN IS MARRIED ON SATURDAY EVENING

Carl Otto Nyquist, a popular railroad man of this city whose run is through Marinette, was married to Miss Clara Bundy of Marinette, at the Swedish M. E. Parsonage by Rev. O. R. Palm, August 31st at 6 p. m. by Rev. O. R. Palm. They were attended by Mr. and Mrs. Alden King. Following the ceremony they left on the evening train for a wedding trip to Chicago, after which they will return to make their home in Escanaba.

## SAYS NAVY TOO SAFE WANTS HUBBY IN ARMY

Pittsburgh, Pa.—"I'll sign a release for him to join the army, but not the navy. It is too safe." So declared Mrs. John Bendthson, when she appeared in court against her husband, charged with nonsupport. After much argument Mrs. Bendthson was convinced that the navy was as dangerous as the army and she signed her husband's release.

**Performs Patriotic Duty.** Hazleton, Pa.—The famous Buck mountain, near here, will do its bit in beating the kaiser. The anthracite coal which fired John Ericson's Monitor when it defeated the Confederate ram Merrimac came from the ground of Buck mountain and now that same ground has been turned over to amateur war gardeners for the growing of potatoes.

**Passing the Sentry.** While I was on the Mexican border the camp had a heavy guard at night. The captain came back to camp late one night and it happened that the road over which he came into camp had three or four sentries which he would have to pass. Each sentry halted him. He had evidently had some trouble before he came back, he was not in his best mood and he got madder every time they halted him. When the guard at the last post heard the captain coming he called, "Halt, who goes there?" The captain yelled out, "Who in thunder do you suppose?" The guard returned, "Advance, Who in Thunder Do You Suppose, and give the countersign."—Chicago Tribune.
