### CAMPAIGN TO BE SNAPPY

But Ten Per Cent of Purchase Price Must Accompany Applications, According to New Government Rule.

Next Saturday marks the opening f the Fourth Liberty Loan campaign. The campaign machinery has been in operation for the last two weeks in this county and already a large number of subscriptions have been pledged. County Chairman M. N. Smith and City Chairman M. K. Bissell have their organizations prepared and when the gong rings next Saturday morning, it is expected that Escanaba and Delta county will begin doing their duty in a way that will overtop all previous efforts.

Delta County's quota is \$628,000. It is understand that \$100,000 of this sum has been alloted to Gladstone. While no specific allotment has been made to the city of Escanaba proper, it is believed the city will have to go near the half-million dollar mark to realize the hopes of the directors of the campaign.

A Little Change. Arrangements have been made for O'Clock to Aid a Suffering in a little different manner from that heretofore employed. ### How Every Woman Gan Save Paper

"Don't mind wrapping it, please." If every woman who goes to the grocer, candy, or delicatessen store, each day, would use this phrase to the clerk, when buying package goods, she would save thousands of tons or matedial and chemicals, now essential in making munitions, poison gas, and other war materials Don't be ashamed to carry home a bottle of milk, unwrapped in the usual paper bag. War pride should prompt you to take a basket to market, re-using your saved paper bags, not only once but a number of times, and thus do your share in and thus do your share in paper conservation. len't the milk just as good; the package of chocolate as tasty, the biscuts as palatable. You must take the initative; the store clerk doesn't dare offend you.

Your government needs your cooperation; it needs to restrict paper making; it needs all paper for remanufacture into shell wrappings for packing soldiers' food and clothing, for questionnaires, for records, correspondence, for soldiers' letters. Do your past and prevent an actual shortage.

Chief of Police Tolan announced this morning that when these boys are aught there will be no mercy shown them. The address of this afternoon was especially interesting because of the manual training department at the local high school, and the printing shop which will commence work Thursday of this week. Miss Michaels spoke on "Supplementing Work in Phonics," a topic of special interest to all teachers.

# While Heads Are Bared.

IEUTENANT ELY, it is ours reverently to acknowledge the service you have rendered. To your country and ours, you gave all you had to give, a life, young and buoyant, offered when you had but just arrived at life's fullest understanding-and more than this no man can give.

But in the giving, sir, you gave as well the outpour of your stout young heart - that all of us to whom you pass along the touch might offer prayer, and carry on in better understanding of that ennobled cause for which no sacrifice shall be in vain.

Some of us are far behind the fighting lines of France today. For circumstance has made two battle lines, and there must be therefore those gone to fight, and others kept behind to carry on at home.

But as you say, both lines bring chance for deeds well done, and great investments too.

Little did you know, Lieutenant Ely, when you

went to the post that day, that your last letter to those proud parents you left back home contained a message not alone for them, but, simple and sincere, for all your countrymen as well.

It did, indeed, for you uncovered the heart of all America when you wrote, "I want to say in closing, if anything happens to me let's have no mourning in spirit or in dress, for like a Liberty Bond, it is an investment, not a loss, when a man dies for his country."

The Fourth Liberty Loan is now announced.

Do you think, Lieutenant Ely, that we shall soon forget your admonition-or that we shall not proudly subscribe for all we possibly can of your country's Liberty Bonds, which you so nobly glorified?

Indeed, we can do no less, for it seems to us that each subscription blank must bear your parting salutation—"for like a Liberty Bond, it is an investment, not a loss, when a man dies for his country."
