ENEMY DEFENSES CRUMBLING RAPIDLY

LONG, BITTER BATTLE IS TURNING DESPERATELY IN FAVOR OF BRITISH

It is Not Considered Even Premature to Hail It As a Great Victory This Early in the Fight.

GERMAN LINES BROKEN

Enemy Retirement on Large Scale Seems Probable Following Loss of St. Quentin and Lines From It.

(BY ASSOCIATED PRESS)
British Headquarters in France, Oct. 2.—The long, bitter battle is still raging but has turned so desperately in favor of the British that it is scarcely now even premature to hail it as a great victory.

London, Oct. 2.—Between Cambrai and St. Quentin the German line of defense has been broken. It is uncertain what lines the enemy has in the rear. The British advance is threatening the German line of retreat in the Oise valley and also from the massif of St. Gobain.

Between the Aisne and the Vesle rivers French troops in the last three days have advanced on a front of ten miles to a depth of between three and four miles. The Germans are now retreating to the line they held in 1917. In view of the loss to the Germans of St. Quentin and the lines to the north of that city, an enemy retirement on a fairly large scale seems probable. Given good weather for the next few weeks some big changes on the west front will be seen before winter.

Damascus, the capital of Syria was occupied by Gen. Allenby's forces Tuesday, according to the official statement issued by the British war office today.

Serbia is being evacuated by the Bulgarians, who are returning to Bulgarian territory, according to the Serbian official statement issued on Tuesday night.

Two thousand prisoners have been taken by the British and French between the Vesle and the Aisne in their operations of the last two days.

Encircling Armentieres.
With the British in Flanders, Oct. 2.—The British second army co-operating with the Belgians in the Flanders campaign continue to press forward. In the process of encircling Armentieres it took the hamlet of La Biset, close to Armentieres on the north.

Field Marshal Haig's forces today captured Hollegem-Capelle and advanced for a distance of 3,000 yards southeast of Roulers.
French Capture More Towns.
Paris, Oct. 2.—Gen. Bertelot's army is making good progress between the Vesle and the Aisne canal. The French have captured five or six villages and their advance at some points has reached a depth of from five to six kilometers.

Anti-German Riots Flaming Forth In Bulgaria Is Report

(BY ASSOCIATED PRESS)
Paris, Oct. 2.—Anti-German and pacifist riots are in progress in Bulgaria, according to dispatches from Zurich to the Journal. It is added that rumors are current of the formation of a national cabinet in Bulgaria under the leadership of Premier Mallinoff and Dr. Chemadelf, released from prison a few days ago under a pardon granted by King Ferdinand.

ST. QUENTIN IS ENTERED BY THE FRENCH TUESDAY

Germans Driven Back to East Bank of the Canal Which Runs Through Eastern Suburbs of the Town.

FOE FIGHTS WITH FURY

French Have Passed Beyond the Town on Three Sides and Are Holding the Greatly Strengthened Positions.

(BY ASSOCIATED PRESS)
Paris, Oct. 2.—French troops have entered St. Quentin. Violent explosions were observed early in the day. Gen. Debeny's forces operating with the British to the north of the town advanced to the St. Quentin-Cambrai road.

Heavy fighting was encountered in entering St. Quentin. After resisting stubbornly the Germans were driven back to the east bank of the canal. West and north of Rheims the French have made further progress and important gains. The entire massif of St. Teery is now in French hands. Northwest of Rheims the French have taken Touillon and Thil and have reached the southern outskirts of Villers-Franqueux. North of Rheims they have pushed forward their line to the outskirts of Bethany.

The Germans are moving their heavy artillery away from the Belgian coast, according to reports received here today. The Belgian army co-operating with the British army of Gen. Plummer and the French army of Gen. Degoutte successfully renewed their attacks on the Flanders front today.

French troops now have passed beyond St. Quentin northeast, east and southeast of the town, according to the Havas agency reports. They now hold a line running along the Somme from Tounouy to Rouvoy and then along the St. Quentin-LaFere road to Oise at Vendeuil.

A Wreck in Sweden Kills 350 Persons

(BY ASSOCIATED PRESS)
London, Oct. 2.—It is feared that 350 persons were killed in a railway accident at Valmo, Sweden, according to dispatches received here today from Copenhagen.

Hurley Would Build 454 Vessels With A 2 Million Tonnage

(BY ASSOCIATED PRESS)
Washington, D. C., Oct. 2.—The construction of 454 vessels with 1,800,000 tonnage, is the additional program of the shipping board disclosed today by Chairman Hurley to the House appropriation committee in explaining his request yesterday for \$484,000,000 additional to meet the needs of the present fiscal year.

FRANK TURNER TAKES HIS LIFE THIS AFTERNOON

Escanaba Avenue Man While Temporarily Deranged Fires Bullet Into His Brain and Death Follows Immediately.

ILL FOR A LONG PERIOD

Came Here From Stephenson, Mich., About Six Years Ago and Was Employed as a Watchman in Northwestern Shops.

Frank Turner, aged 58 years, took his own life shortly before 3:00 o'clock this afternoon by firing a revolver bullet through his head at his home at 1317 Escanaba avenue, while temporarily deranged as the result of a long illness.

Mr. Turner had been in failing health for the past three years but recently his condition has become grave and it was said by his wife today that he came very near to death last night but rallied sufficiently to discuss his condition today. The deed was committed while Mrs. Turner was in another portion of the house.

Frank Turner has lived in this city for about six years, coming here from Stephenson, and accepting employment as a watchman at the Northwestern shops.

He is survived by his wife and four small daughters.

The body was removed to the Wilkinson undertaking parlors to be prepared for burial but the funeral arrangements have not been completed this afternoon.

FOURTH LOAN IN STRIDE TO BRING IN THE MINIMUM

Officials Sound a Warning Against Any Relaxation of Effort as Five Billions More Are Needed to Reach Goal.

(BY ASSOCIATED PRESS)
Washington, Oct. 2.—Telegrams today indicate that the Fourth Liberty Loan has hit the stride which will put it over the six billion dollar minimum by the end of the period, according to an official announcement from the headquarters today.

No totals are available now. The optimistic war news of the last few days has prompted officials to sound a warning against any relaxation of effort. In the weeks that remain at least five billion must be reached, since the subscriptions thus far do not reach the billion mark. Encouraging reports were received from the middle west today. Iowa has passed her goal and nearly all states of the Minnesota district are approaching their allotments.

WORKMEN HITS SNAG IN DRIVING CONDUIT UNDER LUDINGTON ST.

Workmen driving the conduit which will carry Western Union wires beneath Ludington street, this forenoon struck an obstruction of some sort which they were unable to get by. The conduit had been driven through to a considerable distance as the men have been on the job several days. It now becomes necessary to tunnel through from the opposite side of the street and the striking of the snag may mean considerable delay in completing the job.

Over Eleven Million Bales of Cotton In Crop For This Year

(BY ASSOCIATED PRESS)
Washington, D. C., Oct. 2.—This year's cotton crop was estimated at 11,800,000 bales of 500 pounds each. The condition of the crop Sept. 25 was estimated to be 54.4 normal.

Mrs. E. A. Jackson has returned to her home in Marinette after visiting at the home of her daughter in this city.

Asiatic Cholera In Vienna, According To Spanish Report

(BY ASSOCIATED PRESS)
Madrid, Oct. 2.—Several cases of Asiatic cholera have been discovered in Vienna and deaths have occurred there from the disease, according to news received here today.

BRITISH RIP GAP IN GERMAN LINE ON STRONG FRONT

Haig's Forces Break Strong Line of Germans Between St. Quentin and Le Catelet East of Later City.

BUSY AROUND CAMBRAI

British, Scottish and New Zealand Troops Capture Important Towns and Positions South of City.

(BY ASSOCIATED PRESS)
London, Oct. 2.—Wide gaps have been torn in the German line between St. Quentin and Le Catelet by Field Marshal Haig's forces. The British commander today reported the breaking of the German Fomesomes—Beaurevoir front. (Beaurevoir is two and one-half miles east of Le Catelet and Fomesomes is five miles northeast of St. Quentin.) Squard, four and one-half miles southeast of Veillecourt has been captured, as has the hamlet of Prieselles just to the north.

South of Cambrai, British and Scottish troops together with New Zealanders, occupied Crevecoeur and Rumlly. The Australians finished the work of clearing the German defensive positions south of Le Catelet and Gouy and have freed Joncourt just to the south of enemy troops.

French and Belgian troops have made fresh progress in the direction of Hoogledre and Roulers and the British have taken Ladeghem on the Roulers-Menin railway, according to the Belgian official statement last night. A British detachment crossed the Lys between Wervicq and Comines.

THIEF STEALS BOX CONTAINING FUND FOR SOLDIERS KITS

Box Is Taken From the Lobby of the Postoffice Some Time This Morning By a Hun-Loving Person Without Patriotism.

There must be at least one slacker, or pro-German or alien enemy or Hun-lover in Escanaba. The evidence is plain. For several weeks a collection box in which funds were placed for the purchase of comfort kits for American soldiers, has been standing in the post office lobby. It is believed to have contained quite a nice sum and the value of the money outweighed the loyalty and patriotism of some one in this city. Some time during the forenoon the box was taken from its place and it is believed to be gone without a possibility of return.

LOCAL MAN'S FRIEND SEVERELY WOUNDED IN THE RECENT FIGHTING

The name of Capt. David D. Phillips, of Jackson, Mich., appears in yesterday's casualty list. Capt. Phillips is a personal friend of W. A. Taylor, manager of the Strand theater of this city, and the news that the Captain was severely wounded came in the nature of a very personal shock to Mr. and Mrs. Taylor.

Capt. Phillips is a veteran of the Spanish-American war and was in the state guard when that body was mustered into the federal service. He left for service with the first contingent of Michigan men called and is one of the most popular men in Jackson.

Dr. Reynolds Better Today.
It was reported today that the condition of Dr. Reynolds, who has been seriously ill is somewhat improved today. Many of his friends called at the home today and were greatly encouraged by his appearance.

PLAY FESTIVAL GREAT FEATURE OF "BABY WEEK"

Rooms of Delta County War Relief Association Have Been Chosen as Headquarters During Week of Oct. 6-12.

COMMITTEES ARE NAMED

Physicians and Nurses to Lend Their Aid and Daily Programs Will be Carried Out in Interesting Manner.

Further plans for holding a "Baby Week" which will be filled with various phases of child welfare work were furthered at a meeting held yesterday at the Carnegie library. First it was decided that registration headquarters will be established at the headquarters of the Delta County War Relief Association at 703 Ludington street, just off Campbell. This location is most central and it is believed will add greatly to the interest in the affair.

Second, the Health and Registration committee was formed with Mrs. E. G. Royce as chairman. The other members of the committee are Miss Geniesse, Mrs. G. A. Cotton, Mrs. Judd Yelland, Mrs. R. H. Banks, Mrs. Cielia Cummsley and Mrs. C. W. Kates. This committee had a meeting today.

Physicians to Aid

It has also been arranged to enlist the assistance of all the physicians in the city as well as all the available nurses. The doctors will give advice and instructions to the mothers and it has been arranged to have at least one physician at headquarters between 4 and 5 o'clock each evening, with others dropping in during the day for such periods as they can spare. It will be the duty of the nurses present to weigh and measure the babies.

Daily Program.

It has been tentatively arranged to have programs every afternoon, a number of speakers from out of the city, expert in the care and study of children and, if possible one of these will deliver a talk every day. A story hour for the little folks while they are being kept waiting, is one of the features contemplated, and if the weather permits, the week is to wind up with a great play festival at Ludington park under the supervision of some person well qualified to direct such play.

The movement is gathering momentum as it swings along and "Baby Week" in Escanaba promises to be one of the most interesting public enterprises ever undertaken here.

CITY COUNCIL HOLDS NO MEETING TUESDAY EVENING; NO QUORUM

Because of the absence of a quorum, the city council held no meeting Tuesday evening. It has been arranged to hold the first regular meeting of this month on Friday evening of this week. Many of the members were busy on Liberty Loan activities and it is believed they will have pretty well ended by the end of this week when it is expected the Delta County quota will be away over the top.

Valuable Deposits Of Coal and Iron Taken by British

(BY ASSOCIATED PRESS)
London, Oct. 2.—Seizure by a British expedition of German Mining property and other development plants in Spitzbergen, including a big wireless installation, is reported by the Express with the intimation that the work of developing the great iron and coal deposits is in progress. These fields would be of the greatest importance to the United States and the allies.

Ultimatum May Go To Germany As To Destroying Cities

(BY ASSOCIATED PRESS)
Washington, D. C., Oct. 2.—An ultimatum to Germany regarding the ruthless destruction of cities and private property in northern France and Belgium is being urged on the allies and the United States and is now under consideration.

DETERMINED BLOWS HIT BY MASTER STRATEGIST BRINGS THE END NEARER

German Defenses Between Cambrai and St. Quentin Unable to Withstand Onrush of Allied Forces and their Withdrawal From France and Belgium is Drawing Nearer.

HINDENBURG DEFENSES ARE OVERRUN FROM THE SCARPE TO THE OISE RIVERS

Germans Removing Their Big Guns From the Belgium Coast where Allies are Slowly But Certainly Isolating Submarine Bases at Ostend and Zeebrugge.

(Associated Press War Summary)
The German defenses between Cambrai and St. Quentin are crumbling under the determined blows of Gen. Foch and the time of the enemy's expected withdrawal from France and Belgium is apparently drawing appreciably nearer. Under the attack of the British, French and Americans, the Hindenburg defenses from the Scarpe to the Oise, a distance of 50 miles, are being overrun.

In the north, the valuable network of railways in France have become useless to the Germans and in the south the French are pressing vigorously their advance west and north of Rheims.

Northeast of St. Quentin the British have advanced more than five miles east from the front line of the Hindenburg positions. A salient most dangerous to the enemy has been driven between St. Quentin and Le Catelet and the British are advancing through the big gap toward La Cateau, one of the most important traffic centers west of the German border.

Cambrai has not yet been occupied by the British but Field Marshal Haig's forces have taken important heights south of the town, thus drawing closer the net about Cambrai.

In Flanders the Germans are reported to have set fire to the railway junction of Roulers and Menin and to be removing their big guns from the Belgian coast around the submarine base of Ostend, which is now being outflanked on the south. The Belgians are now five miles from Thourout while the British are across the Lys, seven miles north of Lille and are within seven miles of Courrai. All these are important railway centers and Lillie is the strongest German point north of Cambrai.

The French met with spirited resistance in entering St. Quentin but succeeded in throwing the enemy across the canal which cuts through the eastern suburbs. North and south of the town the French have advanced to the east.

ESCANABA CHILD WELFARE WEEK IS MOVING FORWARD

Committee Heads Have Been Chosen and Each Chairman Is Selecting Members of Her Own Committee.

Headquarters will be established and exhibits shown during the week of October 6th and 12th inclusive at 703 Ludington street. This will also be the weighing and measuring station for the babies of Escanaba. The following committee heads have been selected:
City Chairman—Mrs. Cheever Buckbee.
Preliminary display—Mrs. A. H. Ryall.
Finance and autos—Mrs. C. W. Bisell.
House committee—Mrs. C. M. Cuthbert.
Decorations—Mrs. J. J. Cox.
Hospitality—Miss Anna Geniesse.
Exhibits and program—Mrs. P. R. Leighton.

Weighing and Measuring—Mrs. E. C. Royce.
Recreations—Mrs. J. R. Andrews.
Advisory Board—Mrs. L. A. Erickson, Co. Chairman W. N. C. of D., Miss Ruth Sherburne, Ass't Field Secretary P. R. Ass'n of A. Miss Sylvia Richardson, Delta Co. Home Demonstration Agent, Mrs. J. Munro, City Librarian. Each committee head is selecting her own helpers. The women of Escanaba are giving this affair their loyal support and are working hard to make it a success.

BALDWIN TOWNSHIP LOAN QUOTA ABOUT FULLY SUBSCRIBED

Chairman Gibbs Says Work is Progressing Most Favorably And He Looks For an Over-Subscription.
Chairman Gibbs, of the Baldwin township Liberty Loan committee, was in Escanaba this afternoon and reported to County Chairman Smith that the drive was progressing very favorably in that township. He says the quota will be over-subscribed in his estimation, and the reports he has thus far received indicate that the bulk of the allotment is already in.

PEA SHOOTERS MUST GO DECLARES POLICE DEPARTMENT OF CITY

"Pea Shooters must go." That is the dictum of the police department. There has been in the last few weeks an enormous growth in the popularity of the pea shooter among the school youth of this city and its use has taken on such alarming proportions that the police feel it their duty to interfere. A number of injuries have already resulted and local authorities want the practice broken up before

Some one loses an eye. Parents of children given to the pea shooter form of outdoor sport, are asked to co-operate with the officials and persuade the youngsters to give them up voluntarily rather than have the matter done by force of legal authority.

NORTHWESTERN MAN SETS GREAT EXAMPLE FOR HIS SHOPMATES

Takes Out Additional \$250 Worth of Liberty Loan Bonds After Subscribing for \$1,000 Worth.

Mastermechanic Becker of the Northwestern motive power department is one of the happiest men in town. He is intensely interested in the present Liberty Loan drive and has been inspiring all the men in his department by his splendid example. Yesterday one of the men in his department who had previously subscribed \$1,000 bobbed up with a further subscription of \$250. This man's wages, it is stated, do not measure up to the pay received by many other employees of the Northwestern but his patriotism is causing him to buy bonds until it hurts and then buying more to relieve the pain.

MARINETTE HIGH TO PLAY ESCANABA HERE SATURDAY THIS WEEK

The second football game of the local season will be played here Saturday between the Escanaba high school and Marinette. Marinette is said to have a very strong team this year although it is an unknown quantity so far. The local youngsters have been indulging in some heavy practice since their defeat by Ishpeming last Saturday and expect to have some new tactics developed by the time the Marinette squad arrives.

BOYS TO RELIEVE HELP SHORTAGE ON MICHIGAN FARMS

Next Year Will Likely See a Greater Shortage Than Ever And Boys Must Be Dependent Upon Absolutely.

(Special to Mirror.) East Lansing, Oct. 2.—The responsibility for keeping up the production of food to the level of American and allied demands rests now on the shoulders of boys of 15, 16 and 17 years of age, asserts Ashley M. Beverage, director of short courses at the Michigan Agricultural college.

"Next year," declares Mr. Beverage, "the help of boys from 18 to 21, and men from 31 to 45 will not be available. It will be up to the boys of 15, 16 and 17 to step into the breach on the farms of Michigan."

As a measure towards assisting these young men to render efficient service in this direction, M. A. C. has prepared a series of short courses, of two, four, eight and sixteen weeks in length. It is expected by means of these courses to intensively train boys who present themselves. The courses will be open to boys and young men without charge, except for a small entrance fee. They will be conducted as are other courses at the college with the difference, however, that the young men will be trained with a view to fitting them immediately for the tasks in hand.

It is suggested by the college that boys, and women also, if they are interested, get in touch with their county agent or write direct to the "Director of Short Courses, Michigan Agricultural college, East Lansing. One course for women; will begin on October 23, while another, for boys and men will commence on October 29.

STRONG EVIDENCE

Is the Statement of This Escanaba Woman.

Backache is often kidney ache; A common warning of serious kidney ills.

"A Stitch in Time Saves Nine"—Don't delay—use Doan's Kidney Pills.

Profit by the experience of Mrs. Frank Provo, 206 S. Wolcott Street. She says: "About four years ago I was feeling badly on account of my kidneys. My back ached considerably and I felt tired out and listless. My kidneys were out of order, too, and caused annoyance. At times, dizzy spells came over me and specks seemed to float before my eyes, blurring my sight. I got Doan's Kidney Pills at the Mead Drug Co. and they cured me of all signs of kidney complaint. Doan's are just wonderful and I can't praise them too highly."

L. C. PRANZ, Pres. and Mgr. Old Southern Hospitality in New Southern Hotel

Workingmen of America —what did we promise our boys in France?

Just this: That every minute of the day, every time they went into a trench, every time they went over the top, in a night patrol, every time they swept forward to smash a German trench, every time they risked themselves for the sake of Liberty and America—that we'd be back of them to the last ditch, giving for them, working for them, fighting for them in our factories to give them all the "tools" they need to lick the Kaiser.

There is only one way to make good on that promise—and that is for every last one of us, whether he runs a lathe or runs a 10,000-man plant, to put in every minute of his working day where it does the most good. Every working minute lost or wasted means less help for our men across the sea.

And there are not just minutes but whole days lost every time a man changes his job. A man has

to be found to replace him. He loses time in moving. He takes time to catch on to the ways in the new plant.

When a manufacturer needs more men, it is his duty to the country as a whole not to disturb plants that are engaged in essential war work, but to get the Government's help in finding men who can be taken from less important work. This can be done through the national labor clearing house that the Government has established with 500 branch offices and 20,000 agents of its recruiting division, the United States Public Service Reserve. There is no charge—and the Service is now placing 250,000 skilled and unskilled men monthly.

President's Statement

"Industry plays as essential and honorable a role in this great struggle as do our military armaments. * * *

"Therefore, I solemnly urge all employers engaged in war work to refrain after August 1st, 1918, from recruiting unskilled labor in any manner except through this central agency. [U. S. Employment Service.]

"I urge labor to respond as loyally as heretofore to any calls issued by this agency for voluntary enlistment in essential industry. And I ask them both alike to remember that no sacrifice will have been in vain, if we are able to prove beyond all question that the highest and best form of efficiency is the spontaneous co-operation of a free people."

WOODROW WILSON.

Let's keep ALL the essential war work going at top speed. Tell your labor needs to the local Examiner-in-Charge, local agent of the U. S. Public Service Reserve or to the Director General at Washington.

Reward

Do you know this man?

Height: 6 ft. 1 inch
 Weight: 145 lbs.
 Face: Thin
 Features: Prominent

Description: When last seen was on his way to hospital. Used to weigh 185, had florid complexion, good appetite and enthusiasm for work. Six months ago began to have irregular bowel movements. Took pills. Lost weight—still irregular. Took salts—violent results. Had medical examination: doctor diagnosed case as self-poisoning, due to clogged, decaying, food-waste in large intestine; said pills and purges had weakened the intestinal muscles so they would not function. Man protested violently that he was not sick. Doctor replied that he had been sick since first bowel irregularity. Prescribed complete rest and the Nujol Treatment. Said if he had cultivated regular habits with Nujol he would have had no trouble—now, however, he was an easy mark for the poisoning he was allowing in his own body.

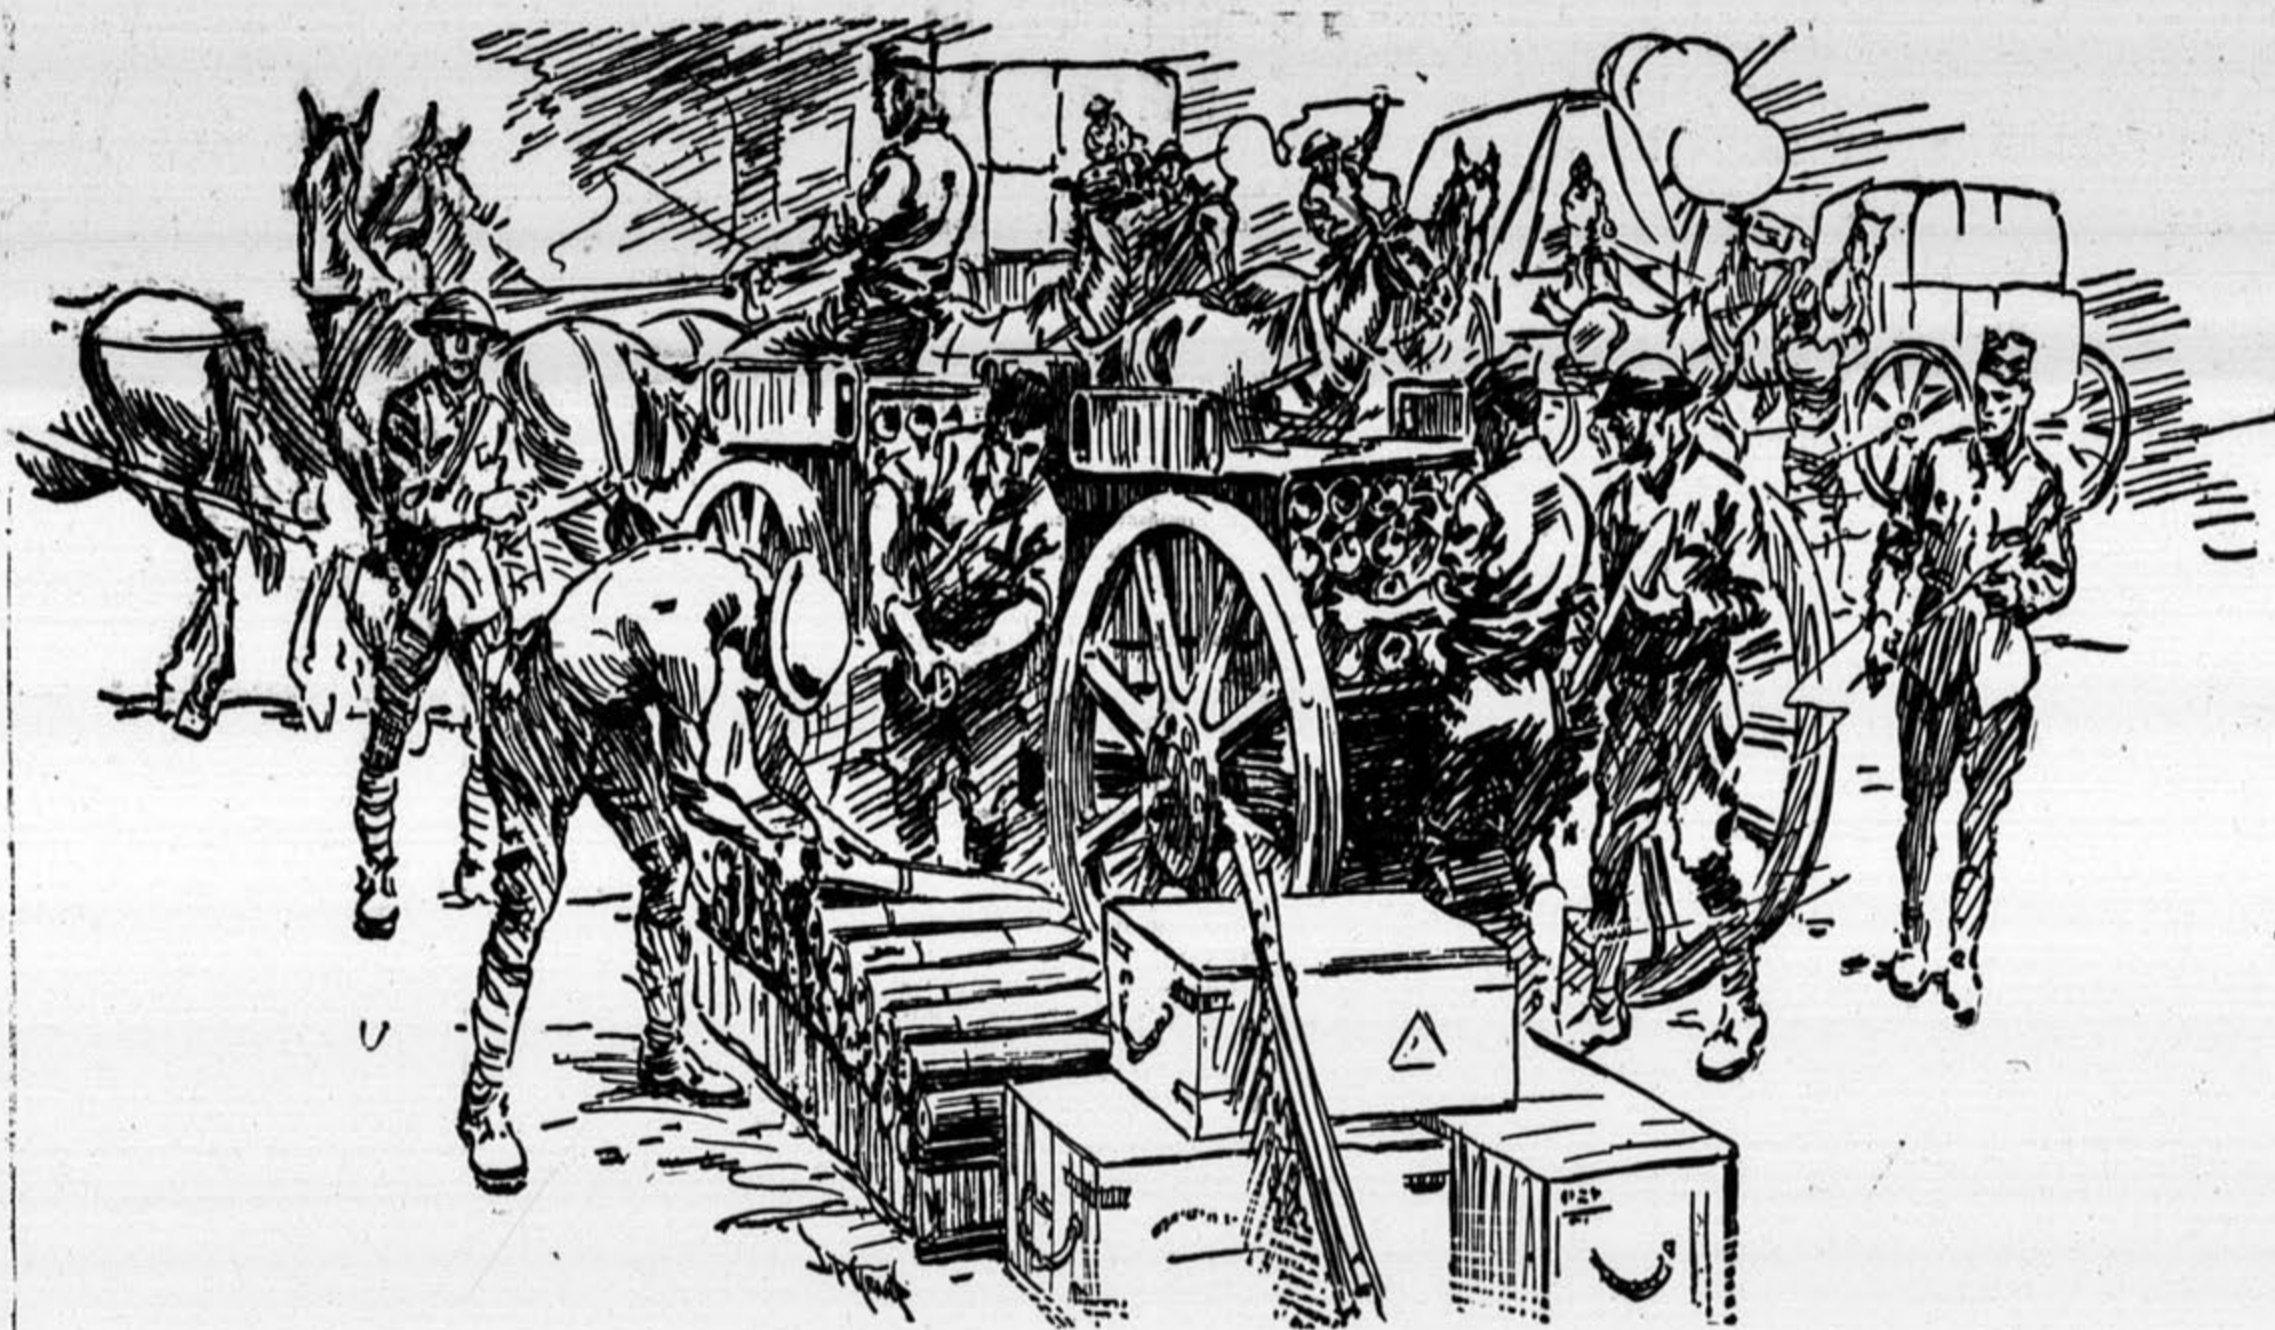

REWARD: For restoration of this man to regularity, Nature offers reward of health, and return to normal weight and keenness.

If you are the man, apply at the nearest drug store for one bottle of

Warning: NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on NUJOL. You may suffer from substitutes.

I am only a cog

I am only a cog in a giant machine, a link of an endless chain:—

And the rounds are drawn, and the rounds are fired,
and the empties return again;

Railroad, lorry and limber, battery, column and park;
To the shelf where the set fuse waits the breech,
from the quay where the shells embark.

We have watered and fed, and eaten our beef; the
long dull day drags by,

As I sit here watching our "Archibalds" strafing an
empty sky;

Puff and flash on the far-off blue round the speck
one guesses the plane—

Smoke and spark of the gun-machine that is fed by
the endless chain.

The ammunition carrier is only a link in the great war machine, but he is as vital a link in the chain as the man who goes over the top. And back of the ammunition carrier comes the ammunition maker and the railroad worker and the thousands of varieties of war workers until it all comes straight home to the individual man and woman

**Let us buy the Bonds we
know *they* want us to buy!**

This Space Subscribed to Winning the War by

J. R. Andrews

I am only a cog in a giant machine, but a vital link
of the chain;

And the captain has sent from his wagon-line to fill
his wagons again;

From the wagon-limber to gunpit dump; from
loader's forearm at breech

To the working party that melts away when the
shrapnel bullets screech.

So the restless section pulls out once more in column
of route from the right

At the tail of a blood-red afternoon; so the flux of
another night

Bears back the wagons we fill at dawn to the sleep-
ing column again—

Cog on cog in the gun-machine, link on link in the chain!

CURTAILMENT OF FELT.

Because of the government needs for felts for war uses and a reduction in the available amount of raw materials, B. M. Baruch, Chairman of the War Industries Board has approved a curtailment in the production of the felt shoe and bedroom slipper industry. Every possible co-operation will be given the felt mills in the production of felts for convalescent slippers, hospital slippers, lumberman's boots, etc., which are required by the government and the Red Cross and are essential. If allotments of raw material could be made the felt mills, it would be under the conditions that the felt should go first on an absolute requirement for civilians, such as in overcoats.

The felt section of the War Industries Board of which Sylvan I. Stroock is chief, is working in connection with the conservation division on a conservation plan covering the felts now in the possession of the felt shoe and slipper manufacturers, whereby a much smaller quantity of felt will be used in quality, weight and colors.

This will stretch to some extent their supply of finished merchandise. But before long this industry will reach a point where it will be unable to supply the demand.

The government has not available raw materials which can be allotted to the mills for the manufacture of felt for shoes and slippers for indoor use beyond the materials which are already ordered. The felt mills are now producing the capacity for war purposes and cannot be spared or diverted to the manufacture of felt for civilian industries. The probabilities are it will be a considerable time before the felt mills will be in a position to produce felt for civilian slipper manufacture.

The felt section has decided to grant permits to felt manufacturers to pro-

Danville, Virginia

duco felts for shoes and slippers only on the contingency that the felt mills produce such felts from raw materials which they own, and that the manufacture of such felts will not in any way interfere with, or cause the mills to delay or defer the fulfillment of any government contracts, direct or indirect, which they now have or which may be placed with them and which require priority of shipment.

Representatives of the felt shoe and slipper manufacturing industry were warned at a recent meeting with the Felt Section to prepare themselves for the situation that has arisen in their industry. Their stocks in hand will run them through this season, possibly into next season, and they have time in which to prepare. It was suggested they turn to the manufacture of toweling, fabrics for which are available.

MISSION OF AMERICA

The mission of America is about to be accomplished, says Will N. Hays, chairman of the Republican National Committee. American soldiers in France are at this moment demonstrating to the world the reason for America and the stuff of which this Republic is made.

There complete success and the consequent eternal establishment everywhere in the world of the integrity of American rights, interests and honor and the right of men to govern themselves, are all assured with the proper performance of the plainest duty of the citizen at home.

The Fourth Liberty Loan is our objective now.

There is no geography, political or physical, in the patriotism of this country. Democrats and Republicans alike love their flag and are ready to die for it. We continually insist for all parties that the war be kept out of partisan politics and that partisanship be kept out of the war.

Just as in Congress the Republicans led the fight that made possible the passage of the great war measures, so now the Party membership and or-

ganization has an immediate, definite war task in the accomplishment of which it can fully function. I repeat, let there be no contest in this country as to anything that touches the war except that contest—who can best serve, and who can give most.

The success of the Fourth Liberty Loan shall be the Republican party's supreme motif of thought and action until that objective is attained.

Wherever Republicans are together, by two or two thousand, it shall be a win-the-war meeting. Just as the Republican party's every action at all times has been and shall be determined solely by how we can contribute most to the war's success, so now our every thought and action shall be determined entirely by how we can make certain the quick over-subscription of the Fourth Liberty Loan.

This is a united country's next message to Germany.

The entire Republican organization in every voting precinct in this country shall be a fighting force in this Liberty Loan Drive.

This is the Republican organization's business.

This is the real business of every man, woman and child in America. "Everything else is chores."

Wartime Footwear in Holland.

The manufacture of slippers with wooden soles and cloth tops is a wartime industry which has sprung up in Holland, reports the United States department of commerce. The upper and inner parts of the slippers are formed of twill, corduroy and woolen stuffs. All these materials are relatively cheap, and yet make comfortable and durable slippers. The cloth parts are made by hand and the wooden soles by machinery.

In view of the mounting prices of leather footwear, these combination slippers, which retail for the equivalent of \$1 a pair for the best quality, are selling rapidly. It is claimed that they are entirely satisfactory for wear in the home and are practicable for women engaged in indoor occupations.

WHOLE STATE TO RAISE FUNDS ON WAR CHEST PLAN

MICHIGAN PATRIOTIC FUNDS
CREATED BY GOV. SLEEPER
TO STAGE UNION DRIVE
IN NOVEMBER.

7 AGENCIES REPRESENTED

Action in Accordance With Request of President Wilson's Organism. Men is Perfected.

The Michigan Patriotic Fund, recently created by Governor Sleeper to combine all appeals for funds by war relief agencies in one yearly drive, embracing the whole state, will make its first campaign the week of November 11. The amount to be raised is approximately \$10,000,000.

A number of counties are already raising funds through their own county war chest organizations and have their quotas in hand for this year. For that reason their participation in the first campaign will be passive and they will be credited with their respective quotas just as though they were taking an active part in the drive.

Different Agencies Essentially One

Establishment of the Michigan Patriotic Fund is in accord with the request of President Wilson, as voiced in a letter to Raymond D. Fosdick, Commissioner on Training Camp Activities. In this letter the president pointed out that the services rendered by the different agencies to our army and to our allies are essentially one and most of necessity be rendered in the closest co-operation. He asked that appeals for funds be united in order that the spirit of the country may be expressed without distinction of race or religious opinion.

Seven large national organizations engaged in war work will be represented in this drive. They are the Y. M. C. A. War Fund, the Knights of Columbus, the Jewish War Fund, the War Camp Community Service, the Y. W. C. A. War Fund, the Salvation Army and the American Library Association.

Each of these organizations had planned a campaign for funds for some period within the next six months. This would have meant a series of "drives" following one another in quick succession and even overlapping. By joining forces in a single campaign, conducted by the Michigan Patriotic Fund, they will save time and annoyance both for the public and the solicitors and promote a better feeling all around.

Giving an Efficient Business Basis

In other words, the object of the Michigan Patriotic Fund is to place Michigan's war time giving on an efficient business basis, and at the same time distribute the burden equitably among all the people. The people of Michigan have shown in the past that they are no shirkers when it comes to backing up the men who have gone to the front from within its borders. The Patriotic Fund will greatly simplify the task of collecting this money and save many precious hours for the real work of winning the war.

Organization of the fund was perfected at a recent meeting held in Detroit. Campaign headquarters have been established at 118-117 West Fort street, Detroit, and the work of organizing the counties is already being done under the direction of the executive committee. The war board in each county will be asked to head up the respective county organizations, and counties already operating on a war-chest basis will be asked to cooperate to the fullest extent.

Plan Copied After Detroit's Big Drive

The Michigan Patriotic Fund is an elaboration of the Detroit plan, which proved so popular that, with a goal of \$7,000,000, Detroit and Wayne county raised \$18,500,000 in a seven-day campaign last May. Executives of the state organization are confident that the people of Michigan will welcome the war chest idea, which affords them an opportunity to give once a year for all patriotic purposes and practically insures them against further solicitation in the meantime.

The Liberty loan campaigns, of course, are entirely separate, the purchase of a bond being in no sense a gift but a sound business investment.

Officers of the Michigan Patriotic Fund are: Carroll F. Sweet, Grand Rapids, general chairman; David A. Brown, Detroit, general vice-chairman; Mark T. McKee, Detroit, general secretary, and State Treasurer Samuel O'Dell, treasurer.

The executive committee is composed of the officers and the following: E. J. Bullard, Detroit, chairman of the state quota committee; H. H. Dow, Midland; Col. A. E. Kimball, Detroit; W. J. Norton, Detroit; Ernest A. O'Brien, Detroit; Helen Purross, Detroit; Adam Strohm, Detroit.

Each of the organizations participating in the drive is represented on the committee. Mr. Brown will be in general charge of the publicity end of the campaign.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Weyth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Weyth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

SPECIAL RALLY DAY SERVICE TO BE HELD BY PRESBYTERIANS

Sunday Morning, Oct. 6, has been Designated as Union Church and Sabbath School Rally Day.

Sabbath morning, Oct. 6th, in the Presbyterian church there will be a union church and Sabbath-school Rally-day service. An inspiring musical program has been arranged. The spirit of the program will be patriotic throughout. Most of the singing will be by the children of the Sabbath school. There will be an address by the pastor on: "Childhood The Power of The Nation."

It would seem to be rather providential that our children's program should have been arranged to take place on the initial day of Child Welfare Week. We hope that in some small way a spirit may be aroused in this service that may be helpful to those who are trying so hard to

the interests of our children.

We expect to make a supreme effort to get every man, woman, boy and girl whom we can reach out to church at 10:30 Sabbath morning. There is a welcome for all. We sincerely believe that you will miss a real treat if you miss hearing the children sing.

A special silver offering will be taken in the interests of the Sabbath school work. Our school has been carrying an extra heavy financial burden in the form of paying for their piano and it is very much in need of help that the friends in the congregation may see fit to give.

Parents are asked to keep in mind the fact that there will be no regular session of the Sabbath school at the 12:00 o'clock hour and that the children should be at the church for the special service promptly at 10:15, in order that all may be in their places to begin at 10:30.

UNITED STATES MUST CONTINUE SUPPLY SOURCE

Uncle Sam's Storehouse Will Have to Furnish Sustenance To Allies For Months to Come.

Food Administrator George A. Prescott says today: "With increased shipbuilding this year it was hoped that the surplus stocks of wheat, meat and sugar of Australia, Argentina, India and Java might be available to the allies, thus reducing the call upon the live stock of this country and Canada. No relief can be expected however from this quarter at least for another year. The need of greatly increased tonnage to transport 250,000 men per month and the supplies and ammunitions for our now vast army and for the allies will more than exceed the gain in shipbuilding and decrease in submarine sinkings. The shipping situation instead of being relieved will become increasingly difficult.

"It is therefore necessary to look to the northern hemisphere alone for allied food and supplies. That means the United States and Canada. The Canadian crop will not permit of increased shipment from there. The United States must therefore continue to be the allies' only or main supply.

BLIND MAN ENJOYS FLIGHT

Appreciated the Thrill of Intricate Aerial Maneuvers Performed by Experienced Pilot.

Thomas D. Schall, the blind congressman from the Tenth Minnesota district, made flights with Col. Charles Lee of the British royal flying corps in Washington recently. It was the first time he had been up in an airplane.

Congressman Schall was not satisfied with the plain "joy ride" Colonel Lee had given him. When they returned to earth after circling over the city at an altitude of about two thousand feet, the blind representative asked for more thrills.

"Fine! Fine!" he exclaimed, as the machine came to a halt. "But, Colonel Lee, if you wouldn't think me a nuisance, I would like to go back up and turn over."

The biplane was wheeled into position again, and off it shot on a trip of real sensations. Climbing rapidly to about two thousand feet, Colonel Lee started the machine into a series of dips and dives, spirals and other aerial antics calculated to make one's hair stand on edge. To complete the thrills, the airplane was made to roll over sideways and then drop into a beautiful nose spin.

The passenger's sightless eyes were blinking with delight when his wife ran onto the field to assist him from the machine.

CHARLES WOOD HOME ON FURLOUGH FROM FORT MONROE, VA.

Escanaba Boy Has Qualified as a Master Gunner and Will Enter Regular Service in Short Time.

Mr. and Mrs. C. N. Wood, of South Sarah street, were most joyously pleased yesterday when their son Charles Wood walked in on them for a visit until Saturday. The young man enlisted in the artillery last spring, and has been stationed in Fort Monroe, Va., since then. He succeeded in getting a furlough after having qualified as a master gunner, and will be with his parents here until Saturday, when he must again report for duty. Mr. Wood has been given his assignment to his battery and regiment for regular service, which he will enter immediately upon his return.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

FELT THAT HE NEEDED "PEP"

Little Fellow Simply Had to Spend a Nickel of the Dime in His Possession.

Frank Groninger, attorney, has a pink-cheeked, tow-headed youngster, whose name to every one who knows him, is synonymous with effervescent, overflowing spirits. He is a thinker, too, this small Jack.

It was he, who some years ago (he has now attained the mature age of eight years), after gravely meditating on the phenomenon that ensued when things were planted in the ground—i. e., that duplicates of the thing planted accordingly took root and grew up out of the ground—was discovered in the yard by his mother, carefully patting and slapping down a pile of wet mud with his small spade.

"What are you doing Jack; planting something?" Jack's evident reluctance to disclose the nature of his agricultural activities aroused his mother's suspicion. Grasping one of the miniature garden tools at Jack's feet she dug vigorously into the wet mud. A glint caught her eye, and in horrified silence she scraped the mud from her jeweled gold watch.

But, if Jack didn't succeed in growing nice little timepieces, that a small boy could hear tick undisturbedly, he has kept right on being active. Hence, his mother's surprise the other day at a reply of his.

Jack's father, before leaving for his office, gave Jack a dime. Afterward Jack's mother seeing the coin in his hand, admonished him to put the dime away and save it.

"O mother," Jack exclaimed indignantly, "I simply got to spend a nickel of it to give me some 'pep.'"
—Indianapolis News.

FAMOUS FOREST QUITE GONE

Absolutely Nothing Left of the Once Beautiful Woods That Were the Pride of Verdun.

Lovers used to stroll arm in arm through the well-ordered forests of Verdun. To stroll arm in arm where these forests once stood is no longer possible, Gouverneur Morris writes in Collier's. You must go alone. If there has been rain you should have nails in your boots. The smooth convolutions of the hills have been tortured and turned into ridges and hollows like the Atlantic ocean during the equinoctial gales.

I doubt if there is to be found one single square yard of the original forest floor. I doubt if there is to be found one single perfect example of a shell crater. One crater breaks into the next, and there, merged into one shocking hollow, are a dozen which at the first moment of looking appeared to have been but one.

It has been well but truly "worked," that forest floor; but not for 100 years can it ever again be worked by man in any peaceful and profitable pursuit. Rich soil (doubly rich now), it will be shunned by the farmer with his plow; a prospect very rich in copper and iron, the prospector will shun it, for here, buried and half-buried, the shells, great and little, which did not explode at all, are as thick as temptation in the life of every man.

Conservative Muse of History.

It is the unhappy usage of our schools and universities to study the history of mankind only during periods of mechanical unprogressiveness. The historical ideas of Europe range between the time when the Greeks were going about the world on foot or horseback or in galleys or sailing ships, to the days when Napoleon, Wellington and Nelson were going about at very much the same pace in much the same vehicles and vessels. At the advent of steam and electricity the muse of history holds her nose and shuts her eyes. Science will study and get the better of a modern disease, as for example, sleeping sickness, in spite of the fact that it has no classical standing, but our history schools would be shocked at the bare idea of studying the effect of modern means of communication upon administrative areas, large or small. This defect in our historical training has made our minds politically sluggish.—H. G. Wells in New Republic.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

SOLICITORS FOR LIBERTY LOAN TO START TOMORROW

Many Subscribers Dropped In to Local Banks Yesterday And Bought Bonds in the Smaller Denominations.

TOTAL MOVING UPWARDS

Committee Busy Today Checking Off Names of Those Who Bought Yesterday, Preparatory to Work Today.

Contrary to expectations it was impossible to send out the squads of Liberty Loan solicitors this morning, as had been partially planned. The idea was to have a number of committees of women and men call on those whose names were on the books who had not already voluntarily subscribed for bonds.

But such a large number were purchased yesterday from the local banks that Chairman Bissell thought it best that all these be checked off before the solicitors started their campaigns. Approximately 75 sales were made yesterday by the various banks, the bonds running in the smaller figures, from \$50 upward. The names of all those who purchased yesterday were turned over to the local committee this morning and will have to be checked off the books before the real canvass begins tomorrow.

The solicitors will start out surely Thursday morning, according to a statement by Mr. Bissell this morning. They will more than likely run across persons who subscribed for bonds to-day but those persons will understand that the committee did not have knowledge of that fact and no feeling can possibly be engendered.

Thus far the loan is coming along nicely. Chairman M. N. Smith of the county committee has had only a few unofficial reports from several of the townships but they are of a character which leads him to believe that the final reports will be eminently satisfactory. In the country precincts the work necessarily must be prosecuted on a little different line than in the city and it may be several more days before accurate reports are available.

Son Born to Soldier Fighting in France

A baby boy was born to Mr. and Mrs. William Trudell this morning at the home of Mrs. Archie Lanowett, 331 North Mary street. Mrs. Trudell was formerly Miss Estelle Lanowett. The father is "somewhere in France" with the American Expeditionary Forces.

HOW One's Work on War Gardens Helps Railroads

Making of war gardens next spring will contribute to the successful operation of the railroads by the government and help solve the war-time transportation problem, according to a statement made by Charles Lathrop Pack, president of the National Emergency Food Garden commission.

"We must all give Mr. McAdoo all possible co-operation," said Mr. Pack, "for the roads are for the time being your roads. In raising as much food as possible f. o. b. the kitchen door you are helping yourselves. A survey of available garden land is now being made in many states.

"Through the activities of the General Federation of Women's clubs, the National League for Women's Service and similar organizations co-operating with the commission steps are being taken to see that there is some one to plant every available space.

"Organize your community garden campaign. Help to help your railroads and help to feed yourself in this crisis which confronts your country."

USING UP REDWOOD FORESTS

Why It is Necessary to Call a Halt Before the Supply Has Entirely Given Out.

Constantly increasing production of redwood lumber in Humboldt county means that in less than a century the only commercial redwood forest in the world will be stripped bare, according to complications made by George A. Kellogg, secretary of the Humboldt chamber of commerce. In 1895 it was estimated that the standing redwood timber in the country would be sufficient for 200 years, but since that time the capacity of the mills has been more than doubled with the prospects for a continuous increase in the future.

Out of 538 acres of redwood timber standing untouched before lumbering operations were begun in the county, 98,000 acres have been cut over. This cut represents some of the best timber of the country, for the bottom lands along the rivers where the best timber stands have been harvested first.

Redwood lumber thus far produced from the forests of the country has represented a value of \$100,317,237 and has totaled 9,300,805,528 board feet.

DIPLOMAT OF HIGHEST RANK

Why It is Advisable That Country Should Be Represented by Ambassador.

Ambassador is the highest diplomatic officer. Ambassadors, in addition to the usual privileges accorded representatives of foreign governments, have the special one of personal audience with the head of the state to which they are accredited.

In the days immediately preceding the establishment of the American republic the officers who were sent to Europe on diplomatic missions were officially termed commissioners. When the diplomatic service was permanently organized the title of the highest representatives was made "envoy extraordinary and minister plenipotentiary," subordinate representatives being given the titles of ministers or ministers resident. In 1893 congress passed an act providing that whenever a foreign government elected its representative at Washington to the rank of ambassador the United States government would raise its representative to that foreign government to the same rank.

Why One Foot is Faster. Almost everyone walks faster with one foot than with the other, according to a scientist who has studied the subject. In a majority of cases it is the right foot that outdoes the left, but some left-handed persons also walk a bit faster with their left. This, argues the scientist, is not due solely to any failure of the sense of direction, but to the fact that one of the wanderer's feet was imperceptibly moving faster than the other.

Under ordinary circumstances a pedestrian turns corners, cuts into a different road, or is carried in one general direction by the course of a highway or street. And he does not attempt to walk in one exact line, but moves about more or less freely. Thus the speed of his step is equalized and the difference is not apparent.

As a proof that a person does not walk in a straight line the scientist proposes a test which he says has proved almost unerring. That is, to place two sticks about eight feet apart, then start from a distance of 60 feet away while blindfolded and try to pass between the sticks. He found that very few persons could successfully accomplish it.

Why Barley Flour is in Demand. No longer considered exclusively a food for growing babies or the standby for delicate invalids, barley flour has emerged from its dim cubbyhole of obscurity and stands boldly in the white limelight of modern usefulness.

With the slogan "save the wheat" ringing in our ears and the warning admonitions of our food experts staring us in the face from the store windows and from every coln of vantage in the street, we are all eager to embrace any suggestion that will aid us in conserving our precious food supplies. At the same time we want to maintain sufficient strength for our work as well as preserve our splendid feeling of cheerful optimism needed to back us in the trials we may yet be called upon to endure.

BABY MARIE OSBORNE COMING TO STRAND IN DOLLY DOES HER BIT Child Star Will Appear Thursday and Friday in What is Pronounced her Most Fascinating Picture. Baby Marie Osborne, the world's greatest child star, who will be seen at the Strand Theatre Thursday and Friday in the delightful Pathe feature, "Dolly Does Her Bit," was born in Denver, Colorado, about six years ago. When she was three years old Pathe released a feature called "Little Mary Sunshine," in which the tiny star appeared on the screen for the first time. The use of the child as a star was an experiment. No one had tried the drawing power of a picture which, from start to finish, depended upon the chubby personality of a tiny child to put it over. The result of "Little Mary Sunshine" made motion history. The picture cleared a fortune and "repeated several times, in the majority of theatres showing it. The fame of the child star spread even to foreign countries. As a result of the tremendous vogue of "Baby" Marie she was featured in a number of other productions.

WILBERT BROWN BADLY WOUNDED IN LAST FIGHT

Kipling Man Writes Wife That He has Lost Several Fingers And Is Anxious to Get Back Into Action Quickly.

Mrs. Wilbert Brown, of Kipling, who, since her husband has joined the colors, has been making her home on Delta avenue in this city, received a letter from him today in which he stated that he was recovering from wounds sustained in fighting several weeks ago. Mr. Brown's name, it is said did not appear on the list of casualties so far issued. He was in the path of bursting shrapnel and sustained a number of wounds, one in his shoulder being particularly bad. The thumb of his left hand was carried away and several fingers on the right hand were lacerated badly. He reports however, that he is now out of the hospital and has been a pass to visit certain sections of France while he is recuperating. He says he expects to be back in the trenches soon and is eager for that time to arrive.

Earl Taylor Wins Bowling Prize At The Delft Alleys

Earl Taylor coped the first prize in the prize bowling competition which was concluded at the Delft alleys Monday night at midnight. Taylor piled up a score of 267 with Joe Hirn second with a score of 243 and Sam Papadakis third with 235. During the competition there were not less than 75 scores of 200 or better rolled. Joe Klinger had a record of eight scores of 200 and better during the period.

Turkey Says She Is Going to Stick With The Central Powers

(BY ASSOCIATED PRESS) Amsterdam, Oct. 2.—The Turkish cabinet, according to a telegram published in the Cologne Gazette, has decided "in all circumstances to adhere to the alliance with the central powers.
