

TURKEY ASKS PEACE

PROPOSAL CLAIMED TO BE ON WAY TO AMERICA YIELDING TO U. S. TERMS

Interest in Washington Centers On New Austrian Peace Note Which Is On Its Way At This Time.

NO ANSWER TO GERMANY

Independent State Is Set Up in Hungary Under Count Karolye After Row with Emperor Charles.

(BY ASSOCIATED PRESS) London, Oct. 29.—Turkey has independently presented peace proposals to the entente nations, according to reports from Constantinople forwarded by the correspondent, at Copenhagen, of the Exchange Telegraph company. Negotiations, it is stated, are expected to end soon.

No Answer To Germany. Washington, D. C., Oct. 29.—Interest in official circles today centers on the new peace note from Austria which is on its way to Washington.

Though no official announcement has yet been made it is considered certain that no answer will be made to the latest communication of Germany delivered yesterday. Though the Austrian note, according to the unofficial text received here, goes farther than any German proposal, in that it asks President Wilson to begin immediate negotiations without awaiting further negotiations with Germany, officials see no signs of the expected break in the alliance of the central powers.

New Hungarian State.

Copenhagen, Oct. 29.—An independent and anti-dynastic state has been formed in Hungary under Count Michael Karolyi, in agreement with the Czechs and Slavonians, according to Vienna reports received by the Politiken. In a speech at Budapest, Count Karolyi declared he had presented his program to Emperor Charles who refused to accept its terms. He thereupon put into operation his plan for an independent state.

ATTENTION COMPANY F. Members of Company F will attend a regular drill at the city hall at 7:30 o'clock Tuesday evening. C. G. HEWITT, Captain.

German Council Is Favorable To Plan Amending Basic Law

(BY ASSOCIATED PRESS) Copenhagen, Oct. 29.—The German federal council has approved the bill amending the imperial constitution the form as adopted by the Reichstag, according to a Berlin telegram received here.

New Austrian Note Received By Cable In Washington Today

(BY ASSOCIATED PRESS) Washington, D. C., Oct. 29.—The new Austrian note asking for an armistice and peace terms was received by cable today at the Swedish legation for delivery to the state department. The text of the note is said to be identical with that cabled to the state department by the Associated Press from Basel, Switzerland, yesterday. Word of the arrival of the note came just as the cabinet was assembling for its Tuesday meeting, at which both the new Austrian plea and the latest German note were expected to be discussed.

NO DOCTOR FOR MAPLE RIDGE UP TO NOON TODAY

No Further Deaths Reported From Influenza and While a Few New Cases Develop Others Show Improvement.

THE TIDE SEEMS TURNING

People Are Taking Greater Precaution Than They Did a Few Days Ago and Home Care May Win the Day.

Spanish influenza conditions at Maple Ridge were reported to be no worse today, despite the fact that the community is still without the services of a physician or any nurses. A few more cases have developed, it was said but at the same time, some of those afflicted are showing signs of improvement and home care is being resorted to in a greater degree than had been practiced before.

Up to a week ago, the people gave but little attention to themselves, thinking that they had a slight cold and permitting it to develop into influenza set in. Now, however, two deaths and about 160 cases in the community have brought home to them the vital necessity for greater care and the exercise of preventative measures which it is hoped will result in checking a further spread of the disease which for a time, seemed likely to wipe out the little community.

No Physician Yet.

It was announced yesterday that a physician from Hubbell, Mich. had been ordered to Maple Ridge by the state health authorities, together with several nurses but up to noon today neither the doctor or the nurses had arrived.

The people of that community feel the lack of a physician sorely but are determined to do the best they can for themselves until aid arrives.

MILWAUKEE LAWYER HELD FOR SEDITION BY FEDERAL COURT

(BY ASSOCIATED PRESS) Milwaukee, Wis., Oct. 29.—John C. Kleist, well known attorney and prominent socialist, was arrested today on a federal indictment charging him with seditious utterances.

Mrs. F. E. Peterson has returned from Menominee, where, with her children, she was visiting her mother Mrs. E. J. Johnson.

LIEUT. KRATZE IS VICTIM OF DEATH IN EASTERN CAMP

Dr. Louis R. Kratze Falls on the Fighting Line in Attempt to Check Influenza Ravages in Allentown, Pa., Camp.

DEATH COMES AS SHOCK Another Delta County Man Yields Up His Life While Engaged in Defense of His Country's Honor.

Escanaba was profoundly shocked today when news of the death of Lieut. Louis R. Kratze, in a military camp at Allentown, Pa. became generally circulated. The well known young physician and surgeon passed away last night at 7:25 after but two days illness of Spanish influenza.

Day and night during the past weeks he has been fighting the disease in the camp and finally contracted it himself. Like Miss Anna Larson, the Escanaba nurse, who died at Camp Sherman, Lieut. Kratze gave his life for his country just as surely and certainly as have any of the men who have made the supreme sacrifice in the trenches, and thus is added to Delta County's honor roll another golden star emblematical of a gallant son who has died that humanity may triumph in the world.

Graduated Here.

Lieut. Kratze is an Escanaba boy. He came here with his parents from west through the public schools and Philadelphia, spent his youth here, graduated here. Later he went to Chicago where he graduated with high honors from the Chicago College of Physicians and Surgeons. Dr. Kratze was a natural physician. His boyhood tendencies were all in that direction and it was no great surprise to his friends to find him at the top of his class when he graduated.

Previous to taking his medical course he was associated with his father and brothers in business here for several years. He was 24 years of age and is survived by his mother Mrs. I. Kratze, four brothers, Simon, Jacob and William of Escanaba, and one sister, Mrs. Bender, of Milwaukee.

Brother At Deathbed.

Benjamin Kratze is now in the military service in New York, and was with his brother when he died, having been notified of his critical condition in time to reach his bedside before final dissolution came. Jacob Kratze and Mrs. Kratze left for Allentown Sunday night but did not arrive in time to be with their soldier hero at the time of his death.

After graduating from the medical school Dr. Kratze began the practice of his profession in Escanaba, later going to Engadine and thence to Chicago where his skill and natural aptitude for his chosen profession was advancing him rapidly in the estimation of a large circle of patients, when the war broke out. Dr. Kratze applied for admission to the medical corps and won his commission without trouble. He was sent east and when the epidemic of influenza broke out it found him on the fighting line where he remained with characteristic pluck and tenacity until he fell in action.

Lieut. Kratze was well and favorably known all over this county and his death will be the source of deep and genuine grief in many hearts in this community.

Funeral At Milwaukee.

A message received this afternoon announced that the body of the popular Escanaba man had been shipped to Milwaukee, where it will probably arrive tomorrow night. Simon and William Kratze, brothers of the soldier physician will leave tonight for Milwaukee, where funeral services will be held and interment made.

HUGHES REPORT ON AIRCRAFT PROBE TO BE MADE SHORTLY

(BY ASSOCIATED PRESS) Washington, D. C., Oct. 29.—Charles Hughes' report on the aircraft investigation will be given to the public as soon as it reaches President Wilson. This statement was authorized at the white house today. Attorney General Gregory expects to submit the report to the President in a day or two.

THRIFT STAMP SALES WILL BE PUSHED HEAVILY

Junior Red Cross Activities Will Be Speeded Up During the Next Two Months in This Country.

MUST MAKE A SHOWING

Plans Announced for Vigorous Campaign Among the Little Workers Who Want to Help Win the War.

New "Pep" is to be put into the work of the Junior Red Cross work in this city and county during the coming months. During the past two months the juniors have been making a specialty of selling thrift stamps and the saving of pins and etc. used in the army for manufactures of gas masks. The sale of stamps has not been as large as we hoped for and special efforts have to be made to reach the desired figures by January 1st, when complete reports must be made. Delta County is asked to reach a quota of \$5 per pupil in the schools of this county by January 1. This means that extraordinary efforts must be put forth.

14 NEW CASES OF INFLUENZA ARE REPORTED TODAY

Five of This Number Are in Two Families Where Sick-ness Existed Before and Conditions Are Considered Satisfactory.

Fourteen new cases of influenza were again reported for the period between noon yesterday and noon today, in the city of Escanaba. Some of them are what are called secondary cases, however, three of them being in one family and two in another. Dr. Carlson says the condition demands the greatest care and while authorities are holding their own in the fight, yet no precaution should be neglected.

Rose Funeral Held Here This Afternoon

Funeral services for Charles Rose, a prominent resident of Escanaba, who succumbed to influenza, several days ago, were held at the Wilkinson undertaking parlors this afternoon and interment was made in Lakeview cemetery.

T. M. Coughlin Now Recovering From Flu

T. Coughlin, assistant superintendent of the Peninsula division of the Northwestern railroad, is still confined to his home on Wells avenue by an attack of influenza but is on the road to recovery and expects to be out within the coming week.

LIEUT. COUGHLIN BACK FROM FRANCE FOR SHORT TIME

Is First Escanaba Boy to Return from Scenes of Actual Fighting in Which He Participated.

WAS WITH GEN. GOURAUD

Says Gallant French Commander Is Idol of His Men and Regarded As One of France's Greatest Generals.

Lieut. Hugh Coughlin, son of Mr. and Mrs. T. M. Coughlin, 1318 Wells avenue, arrived yesterday from Hoboken, where he had been seriously ill for a time, of Spanish influenza, after arriving from France. He has a ten day furlough and must leave here on Saturday for Fort Monro, Va., where he will be stationed for a probable period of three months as an artillery instructor. Lieut. Coughlin is the first Escanaba boy to return from the front.

Wins Commission in France.

Lieut. Coughlin won his commission in France where he had ample opportunity to demonstrate his merit and where it won for him the recognition due. His company was brigaded with Gen. Gouraud's Fourth French army the greater part of his time in France, nearly the entire year he was there, being spent on the line between Reims and Verdun. During all this period artillery fighting has been in progress and it was particularly violent while the Germans were trying to break through toward Chalons, which was their objective and for which they fought so stubbornly while the American army was doing so much to indent Fritze's nose at Chateau-Thierry.

Meets One Escanaba Man.

In all the time of his stay in France, Lieut. Coughlin saw but one Escanaba boy and that boy was Herbert Hughitt. He says it certainly was a meeting of long lost brothers.

He will leave Saturday night to take up his duties as instructor at Fort Monro and expects when that period of service is completed to be sent back over seas. This is what he most desires. He didn't want to return to America now for the reason that there was so much at the front to be learned and Lieut. Coughlin has determined to avail himself of all the military knowledge he can absorb while the opportunity exists.

Naturally his father and mother were overjoyed to see their son again particularly after his long illness in the east and it is certain that he was glad to be back among his friends for a brief period.

Archduke Joseph, Of Hungary, Is Given Something Of A Job

(BY ASSOCIATED PRESS) Copenhagen, Oct. 29.—Archduke Joseph has issued a proclamation stating that Emperor Charles has charged him with the task of securing the complete independence of Hungary, a dispatch from Budapest says.

Mrs. S. H. Longdin and daughter Miss Gladys, of Fond du Lac, have returned to their home after a very pleasant visit with Mrs. M. Mogan, of the Japon Block, this city.

OFFENSIVE OF ALLIES ON THE PIAVE RIVER IS DEVELOPING STRONGLY

Fifty-Five More Men In German Prison Now

(BY ASSOCIATED PRESS) Washington, D. C., Oct. 29.—The names of seven officers and 48 enlisted men in German prison camps were announced today.

AMERICANS ARE IN FIGHTING ON ITALIAN FRONT

British, French and Italians Take Fifteen Thousand Prisoners in Advance Across the Piave River.

LAST LINE IS BROKEN

Austro-Hungarian Defense system Is Crumbling and Tables Are Effectually Turned on the Austrians.

(BY ASSOCIATED PRESS)

Italian Headquarters on the Piave, Monday, Oct. 28.—American soldiers are in reserve along the Piave. The correspondent saw an American battalion going through its setting up exercises this morning. Fifteen thousand prisoners have been taken by the British French and Italians, up to late today in their advance across the Piave which, for the third time within one year, has become the scene of desperate fighting. This time, however, the tables have been turned on the Austrians and they are being driven back rapidly.

Austrian Report.

Vienna, Monday, Oct. 28.—A great battle is raging on a front of 37 miles east of the Brenta river, according to the official statement from Austro-Hungarian headquarters. Between the Brenta and the Piave Italian attacks were repulsed. There has been fighting all along the Piave where British thrusts as far as Tesz and San Polo di Piave were stopped by Austrians after a break through on a front of two miles.

Artillery Deeds.

London, Oct. 29.—Artillery duels and patrol encounters constituted the only activity on the front during the night according to the official statement from Marshal Haig today.

Approaching Guise.

Paris, Oct. 29.—Gen. Delany's first army continues to close in on the first line trenches, barracks and hospital south of the chateau in the town of Guise, according to today's war office report. South of Guise the French have passed beyond Louvy farm. They also continue to progress on the right bank of the Peron river.

Yank Aviators Active.

Washington, D. C., Oct. 29.—Continued aviation activity on the front of the first American army in spite of poor weather, was reported by Gen. Pershing in his communique for today. Three enemy airplanes and an observation balloon were shot down and all American machines returned. In the Woivre district prisoners were captured in successful raids.

Daylight Attacks.

With the Americans Northwest of Verdun, 10 a. m. Oct. 29.—Activity along the American front began long before daylight today, with further bombardment. The enemy opened a heavy fire with gas shells at 2:30 o'clock which was changed to high explosives between 4 and 5 o'clock. American artillery responded. American patrols were active in Bantheville wood all night.

Resistance Is Broken.

With the Allied Forces on the Piave Oct. 29.—The last lines of the Austro-Hungarian resistance on the center positions along the Piave river were broken yesterday by British, French and Italian forces.

Two of Three Railway Lines Supporting Austrian Positions Are Now Seriously Menaced By Allied Forces.

TAKE 15,000 PRISONERS

Heavy Fighting Virtually At Standstill on West Front Although Artillery Duel Rages On American Front.

(Associated Press War Summary)

Allied troops maintain their progress east of the Piave and have taken more than 15,000 prisoners, Italians, British and French now threaten the important railway points of Comegliano and Oderzo and two of the three railway lines supporting the Austro-Hungarians on the Piave front.

On the western front in France, heavy fighting is virtually at a standstill on the front north from LeCateau to the Dutch frontier but from the Oise to east of the Meuse, allied pressure continues, with gains for the French between the Oise and the Serre.

An intense artillery duel is in progress on the American front northwest of Verdun but no infantry fighting is reported.

While the allies have thrown their forces across the Piave on a front of 30 miles, the heaviest fighting is along a stretch of 7 miles between Comegliano and Oderzo where the British and Italians have advanced over 3 miles, making a formidable wedge in the Austrian positions east of the river and between two of their main communication lines. The allies are within 2 miles of Oderzo and Comegliano.

Along the Piave, south of Oderzo, there is little fighting but the allied advance in the north will force the Austrians to evacuate the lowlands of the Lower Piave. Apparently the allied thrusts in the mountain between the Brenta and Piave rivers were merely feints to attract the attention of the enemy away from the real purpose of the stroke. Troops and supplies are being rushed to the Piave and it is the evident purpose of the allies to push the offensive to the utmost.

Three Enemy Planes Downed

With the Americans Northwest of Verdun, Oct. 29.—Three German airplanes are believed to have been brought down in an aerial duel over Bantheville late today between an American patrol of eight machines and 13 Germans.

Allies Win On Piave.

Rome, Oct. 29.—The battle begun on the Piave Sunday the Italians and allies, is continuing victoriously, according to the official war office statement today.

AID DELTA COUNTY WOMEN.

Delta County women ask for the vote to protect our men overseas and to help win the war. These women are doing all the government asks them to do. "The women of America are too noble, and too intelligent and too devoted to be slackers, whether you give or withhold this thing that is mere justice."

Can you afford to deny them this privilege of registering their patriotic opinions at the polls?
Let Michigan take its place beside the other democratic states and countries of the world.

Two heads are better than one. Cast your ballots together next year—you and your wife; you can do it if you cast the right ballot next Tuesday.

Do you know any sound, logical reason why Michigan women should not have the vote? Will you not put this state in the list of progressive states and countries by voting for Woman Suffrage on November 5th?

REGISTRANTS TO HAVE CHANCE TO GET COMMISSION

Opening of New School at Camp Fremont, Cal., Affords Splendid Opportunity For Ambitious Men to Win Straps.

Chicago, Oct. 28.—Regulations under which candidates are eligible for the infantry officer's training school at Camp Fremont, Cal., which will be opened on Dec. 1, with a capacity of 20,000 students, were made public by the office of the commanding general, Central Department, Chicago.

The two months course for commissions of second lieutenant is open to draft registrants between the ages of eighteen and forty-six, who have had high school education or its equivalent. Physical requirements are those for general military service. The central department must supply 6,320 civilian candidates, prorated as follows: Colorado 150, North Dakota 110, South Dakota 110, Nebraska 220, Minnesota 350, Kansas 320, Iowa 420, Missouri 600, Wisconsin 440, Illinois 1,040 Michigan, 920, Indiana, 500, Kentucky, 430, Ohio, 880, West Virginia, 230.

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores.

charged with examining civilian applicants are instructed concerning the necessity of getting required numbers in short notice.

"It is an unusual opportunity for men desiring commissions in the army to get training," said Col. Buffington in announcing the regulations.

MEN OF FOREIGN RACES CITED FOR ACTS OF BRAVERY

Have Shown the Kind of Gallantry Which is Known to be an Attribute of the Real American.

It is instructive to read the names of soldiers of foreign birth or extraction which are appearing from time to time on the lists of those cited for distinguished service.

Of the 35 men recently mentioned in American Official Communique No. 13, at least nine bear names which reveal an extraction other than Anglo-Saxon. These names are Hahn, Christman, Jankowski, Hartman, Costianes, Gardella, Tobin, Kuehlman, Shaminski and Kaufman.

And these men have displayed conspicuous bravery. The records of two of them will suffice to prove that they have shown the kind of gallantry which is supposed to be an attribute of the real American, no matter what his race or native land may be.

Of Private Shaminski, the Communique says "Having entered a cellar to install his telephone, he was attacked by 11 of the enemy, of whom he killed two and took nine prisoners, single handed."

Of 2nd Lieut. Kuehlman, Engineers, it is said that "He was sent on the night of August 6-8, 1918, to make a reconnaissance of all possible means of crossing the River Vesle, near Pismes, France. It had been reported that the Germans had all retreated from the south bank of the river, but

TO ORGANIZE CLASS IN HOME NURSING AT RED CROSS QUARTERS

Classes in home nursing are to be conducted by the local Red Cross chapter. Plans are already in process of formation for starting these classes quickly. The course will consist of 15 lessons in elementary hygiene each lesson requiring about an hour and a half. Experienced nurses will give the instructions.

It has been arranged that each class meet once a week and at the end of the course an examination will be held and Red Cross certificates will be issued to those who pass. Those

who pass will not be called for service unless they so desire. The classes will be started as soon as the ban on public meetings is lifted.

SUBSTITUTES TO SAVE ESSENTIALS

Automobile Makers Are Urged to Exercise Greatest Care in Selecting Materials.

STRAIN IN LEATHER SUPPLY

Tests Have Repeatedly Shown That Tensile Strength is Greater Than Real Article—Are Not Affected by Weather.

Manufacturers of motorcars can effect a considerable saving in material if reasonable care is exercised in the selection of substitutes, according to Fred K. Parke, president of a Michigan motor concern. As one of the first and most important steps in this direction, Mr. Parke suggests the use of substitute leather for upholstering in passenger cars and trucks.

"Automobile manufacturers will go a long way toward meeting the government half way in its efforts to keep the industry going by the use of substitute leather," says Mr. Parke. "In addition to the tremendous amount of leather being used by our government for harness, saddles, shoes and a hundred other things, the allied governments are laying plans to buy leather in the American markets for use of the armies in France in a very short time. The British government purchased a large amount of leather last year and consumed almost the entire supply of some grades.

Leather Supply Strained. "Shoe factories also will be busy making shoes for General Pershing's army, as the war department plans to call for a million and a half each month. This means that the country's source of leather supply will be strained to the limit."

Mr. Parke has made a complete investigation of the possibilities of substitute leather and has come to the conclusion that for most purposes, it should give as much or more satisfaction than the best leather. Tests have repeatedly shown that it will far outlast real leather. Substitute leathers are usually made of a waterproof material and are not affected by weather as is leather. For this reason, the war department has specified uses, such as truck covers, ambulance upholstery, sweat bands in steel helmets, leggings, waterproof coats and ponchos.

No Saving in Substitute. The automobile manufacturers will not save any money in using the substitute leather. It will cost him as much as some grades of leather that have been universally used during the last few years.

"I believe automobile buyers will readily co-operate if all automobile manufacturers will adopt the substitute leather as a patriotic move," says Mr. Parke. "I have discussed the subject with a great many dealers during the last week and all have expressed their enthusiastic willingness to co-operate."

"These same dealers have since written me that owners to whom they have talked declare that they will be glad to accept their cars, whether they be expensive twelve-cylinder cars or light medium-priced cars, upholstered with substitute leather. It is up to every one of us to work with the government at this time, and I believe the automobile industry can do much by taking action in this matter at once."

To Prevent Skidding. Unequally adjusted rear-wheel brakes are a potent cause of skidding and it is wise to make frequent tests of the parts for incorrect adjustment. It is necessary to have some one with you to watch the wheels. Drive the car along a dry road, accelerate quickly and then suddenly apply the brakes. If one wheel slides while the other is revolving, it may be taken for granted that the brakes are not holding with equal effectiveness.

MISS FENTON RETURNS TO MINNEAPOLIS FOR WAR WORK CAMPAIGN

Miss Blanche D. Fenton has returned to Minneapolis, having spent Sunday at her home here. She is serving women for the coming United War Work Campaign under the chairmanship of Wm. Jones Bell of Minneapolis. She has been in Chicago attending the Central Conference of workers for the drive which is to take place in November.

The drive includes all the organizations, with the exception of the Red Cross, recognized by the government for social work among the soldiers the National Catholic War Work Council the Jewish Welfare Board, the American Library Associations, the War Camp Community Service and the Salvation Army.

Miss Jennie Giguere left this morning for her home in Spalding. Mrs. David Jerow Perkins is an Escanaba visitor.

KNOCKS OUT PAIN THE FIRST ROUND

Always ready for use, it takes little to penetrate without rubbing and produces results. Clean, refreshing. At all drug stores. A large bottle means economy.

ELMER SWANSON MEETS ESCANABA BOYS IN FRANCE

Says He Has Had An Opportunity To Be Out with Friends From Home Almost Every Night.

FORMER COP IS HAPPY

Is in Splendid Health and Apparently Enjoying Every Minute of the Life of An American Soldier Abroad.

John Swanson, 208 South Birch St., is in receipt of a letter from his son, Sergt. Elmer Swanson, former motor-cycloped in this city, but now with the American forces overseas. The letter was written Sept. 23.

Sergt. Swanson says he is in splendid health and in referring to the Red Cross says it is doing a wonderful work in France. He says he sees more every day of what the Americans are doing and it is really marvelous.

Germany Getting Paid. One significant sentence says, "Germany is sure starting to pay for what she has done and here is hoping that she gets paid in full."

The weather was splendid at the time the letter was written, many days being very warm but the nights are chilly. Elmer speaks about being stationed in about the best quarters in the town in which his company is located. The ticks are filled with straw and

MANY LIKE THIS IN ESCANABA

Similar Cases Being Published in Each Issue.

The following case is but one of many occurring daily in Escanaba. It is an easy matter to verify it. You cannot ask for better proof of merit.

Richard Steinke, baker, 615 Wells Ave., Escanaba, says: "While working out in the woods, I caught cold and it settled in the small of my back. My back was so lame I could hardly go about my work. When I arose mornings, I could hardly bend over to tie my shoes. My kidneys were disordered, too, and the secretions were highly colored. Five boxes of Doan's Kidney Pills fixed me up in good shape, strengthened my kidneys and regulated them. I felt like a different man. Doan's certainly can't be equalled."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Steinke had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mummy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

IMPORTANT

In Order to Combat the Epidemic of SPANISH INFLUENZA Which is Now Most Prevalent in Our State, and in Compliance With the State Board of Health, the Local Board of Health Requests That the Following Precautions be Observed.

1. It is especially important to beware of the person who coughs or sneezes without covering his mouth and nose. It also follows that one should keep out of crowds and stuffy places as much as possible, keep homes, offices and workshops well aired, spend some time out of doors each day, walk to work if at all practicable—in short, make every possible effort to breathe as much pure air as possible.
2. Where crowding is unavoidable, as in street cars, care should be taken to keep the face so turned as not to inhale directly the air breathed out by another person.
3. In guarding against disease of all kinds, it is important that the body be kept strong and able to fight off disease germs. This can be done by having a proper proportion of work, play and rest, by keeping the body well clothed, and by eating sufficient, wholesome and properly selected food.
4. It is very important that every person who becomes sick with INFLUENZA should go home at once and go to bed. This will help keep away dangerous complications and will, at the same time, keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient. In fact, no one but the nurse should be allowed in the room.
5. Call a physician and take only such medicine as is prescribed by the doctor. It is foolish to ask the druggist to prescribe and may be dangerous to take the so-called "safe, sure and harmless" remedies advertised by patent-medicine manufacturers.
6. The ordinance relative to spitting on the sidewalks and in public places, will be rigidly enforced.

F. H. ATKINS,
JOHN J. TOLAN,
A. J. CARLSON,

T. E. Byrnes, of Chicago, is visiting in the city this week.

Peter H. Bamster, of Green Bay, is calling on his many friends in Escanaba.

Frank Hortman has returned to his home in Marinette, after a visit in the city.

B. Casper, of Milwaukee, is transacting business here.

P. Arnovitz has returned to his home in Marinette after having spent yesterday in the city.

R. A. Hardy of Marquette is in the city.

R. Hye of Menominee is calling on friends and relatives here.

Miss Anna Donnar left this morning for Milwaukee to spend several weeks.

Miss Gauthier left this morning for Milwaukee where she was called by the serious illness of her brother.

Mrs. A. E. Wickert has returned from a visit with relatives in Marinette.

Miss Minnie Maves has left for her home in Hermansville where she will remain until school opens.

Mrs. H. Carlson left this morning for her home in Peshtigo after a weeks visit with friends here.

Mrs. G. Nimmergold and little granddaughter left this morning for Grand Haven in Peshtigo.

Miss Isabell Cass left this morning for Bark River where she will spend several weeks with relatives.

Mrs. Joseph Girard left this morning for Carney where she will spend a few weeks with relatives.

GAS IMPORTANT ELEMENT IN WAR

Chemists Are Constantly Studying New Fumes.

STARTED BY BRUTAL HUNS

Forces Rest of World to Enter Upon Cold, Calculating, Merciless Work of Human Destruction—Germany Believes Gas Will Be the Biggest and Most Effective Weapon to Hasten the End of the War.

On a table in a large room in which were several American officers—until recently professors of chemistry and noted scientists connected with prominent American corporations—were several shells, jars of liquid, small containers filled with powder and every imaginable thing connected with the business of "killing and safeguarding with and against gas attacks."

To sit with these experts in killing and listen to their simple statements about the possibilities of destruction, and at the same time to know them as men of finest sensibilities and humane impulses, is a sort of grim revelation of the terrible nature of this war and the appalling transformation that is overcoming at least a part of humanity.

COUGHING SPELLS. BREAK YOUR REST

Put a stop to them with old reliable Dr. King's New Discovery

That raw, hoarse throat must be soothed. That phlegm-laden chest must be loosened. That cough must be checked so you can sleep. Dr. King's New Discovery has been relieving colds, and coughs for half a century without the least disagreeable after-effects.

Try this for Constipation Keep the bowels on schedule time with Dr. King's New Life Pills, the system freed from poisonous wastes, the complexion clear, the stomach sweet, the tongue uncoated, the breath unaltered. Mild yet positive. 25c

and a surrounding layer of TNT which causes an explosion which suggests shrapnel and high explosives instead of gas. The powder is widely spread and is intended to irritate the membranes of the throat and nose just enough to cause the person reached by it to sneeze. When he begins to do this the supposition is that he will remove his gas mask and on the theory that he will do so the apparently harmless powder shells are followed by a blast of mustard gas or phosgene.

Working on New Gases. "Suppose," I asked one of the distinguished experts, "a gas shell should explode in a city street on a perfectly still day, how far would the fumes penetrate and how long would they take to cover a given area?"

The expert opened a jar containing about a quart of dark liquid. When the air touched it a white smoke arose slowly. The expert blew this softly into the room and it settled with about the speed of a ring of smoke from a fragrant cigar.

"That's about the way the gas would travel if the air were perfectly still. One shell probably would cover an area 50 feet in circumference and the gas would remain for a half hour or more."

Shells gathered by the Americans show that the Germans are constantly working on new gases. This, coupled with the statements made by German prisoners, indicate that the German believes gas will be the biggest weapon to hasten the end of the war.

No gas bombs have yet been dropped by either side to the war. Not long ago some small rubber balloons were found after a German airplane had passed and they were thought to have contained a poisonous gas. This is found to have been untrue. The balloons were filled with ordinary gas and were used for meteorological purposes.

NOTICE

To Dealers in Milk and Cream, and Owners of Dairy Herds Supplying Milk and Cream to Dealers or Citizens of Escanaba.

Your attention is called to ordinance No. 161, adopted at a meeting of the City Council of the city of Escanaba, Michigan, held December 7th, 1909, Section One (1) of said Ordinance reads as follows:

"No person or persons shall barter or traffic in milk or cream within the city of Escanaba, without first having license to do so."

Section Nineteen (19) provides a penalty for the violation of the said ordinance.

Applications for licenses must be made to the City Clerk. No licenses will be issued until the City Milk Inspector shall be satisfied with the sanitary conditions of the stables and premises.

You are hereby notified that the said ordinance must be strictly adhered to and is to be rigidly enforced.

By order of the City Council. CARL E. ANDERSON, City Clerk.

Dated this 18th day of October, A. D. 1918. 1260-304

AN ORDINANCE TO ESTABLISH A RECREATION COMMISSION IN THE CITY OF ESCANABA.

The city of Escanaba Ordains:—Section I A Recreation Commission shall be established in the city of Escanaba under the provisions of Act 156 of the Acts of 1917. Said Commission shall be appointed by the mayor in the following manner: Two members shall be appointed annually, one to represent the School Board and one to represent the Park Board; three others, two of whom shall be women, shall be appointed to hold the office for three years from their appointment except that the person first appointed shall hold office one for one year, one for two years, and one for three years, respectively. A person appointed to fill a vacancy shall hold office for the remainder of his predecessor's term. The members of the commission shall serve without compensation.

Section II. Said Commission shall have the dispensing of all funds appropriate for the maintenance and operation of its work. It shall be the duty of said commission to organize, arrange, and supervise whatever provisions are made by the City for recreation in its broadest sense, including playgrounds, playfields, indoor and outdoor recreation centers, swimming pools, and similar or related activities.

Section III. Said Commission shall have authority to use any land, buildings, or other appropriate facilities belonging to the City useful or requisite to carry out the purpose of this Ordinance and of said Act; subject to reasonable regulation by the board having said land, buildings or facilities in charge and provided that the use by said commission shall not interfere with the major defined use of the same.

Section IV. Said Commission may of its own initiative take charge of any grounds with buildings thereon erected, the use of which is offered temporarily by individuals or corporations for recreation purposes.

Section V. This ordinance shall take effect after its passage and publication.

Recipe for Success. It is well for us to remember that nothing succeeds like success, and even if in the beginning we just "make believe" it really grows to be true. Try it.

How Primitive Man Got Fire. Fire was known early in human history. Primitive man probably first learned to produce it by rubbing pieces of wood together.

DANGER OF NIGHT FLYING DOES NOT DETER BRITISH

Arrangements For Aerial Express Between London and Cairo, Egypt, Are Going Forward Steadily At This Time.

(BY ASSOCIATED PRESS)

London, Oct. 22.—Danger of flying at night will not interrupt the aerial express service already being planned here for lights between London and Cairo or Calcutta, says aviation experts. The great machines designed for this work will fly by compass throughout the night, with powerful lamps lighted on their wings and the instruments in front of the pilot brilliantly illuminated. Lights will be turned on in the cabins, and the members of the crew who are off duty will turn in and sleep as they do on steamships.

If the weather has been bad during the day-time and it clears up at dusk, the delayed machines will leave once in order that their cargoes and passengers may be delivered on time at their destination. It is believed that businessmen, traveling from London or Petrograd or Rome, will prefer to journey at night, so that they may sleep during the voyage and waste no time. The wind, which is an important factor in aviation, is nearly always less strong at night.

Each airplane will carry powerful navigation lights, visible twenty or thirty miles off and also a luminous number. There will be frequent landing places along the way, so that whatever its need, a machine will always be able to land.

Each landing ground will be brilliantly and near it illuminated wind arrows will automatically indicate the direction of the wind, a knowledge of which is essential to the pilot of a machine about to land. All machines landing will display a bright color, in order to warn pilots of other machines of its intentions.

Aerial lighthouses, probably will be used in the same way as coastal lighthouses. They will consist presumably of vertical search lights, flashing on and off, twin searchlights, colored searchlights, or bright flashing lights on the ground. Machines will be able to land either at sea or on the ground, and will carry large flares to light up the ground below in case of a forced landing.

All that war conditions have taught the allied armies will be of immense value in organizing night-flying after the war.

WORK OF SUPT. KING HIGHLY COMMENDED BY STATE BUREAU

B. E. King, superintendent of the public schools and chairman of the Delta County School committee of the Junior Red Cross movements, is in receipt of a letter from Mark T. McKee, director of the bureau of development, which follows:

"Dear Mr. King:—The report on Junior Red Cross activities in Delta county has just been received from Mrs. Frank L. Fowler, our field secretary who mentioned the unusual progress made through your hearty co-operation. As director of the Bureau of Development accept my appreciation and thanks for your good work. Mark T. McKee, Director Bureau of Development."

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that most meats uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or neck, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. The famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; also to neutralize the acids in uric acid so it no longer irritates, thus preventing bladder weakness. Salts is inexpensive, easy to take, and makes a delightful effervescent water drink.

Conservation

We wish every one to conserve food as much as possible, in order to give our boys "over there" their plenty. But we can give you prices on specials today, where you can save both food and money. Here are a few offerings:

DRAFT BOARD WANTS FOUR VOLUNTEERS TO MAKE OUT REPORTS

Four expert office men are wanted by the Delta County Draft Board. The board has received instructions to make out a report showing the record and disposition of the cases of over 3,000 registrants in this county and as the making up of this report involves a search through the record of each man, it is apparent that the job requires men familiar with office work. The board is allowed 15 days in which to complete the work and the war department says it must be done by volunteers. So that is why the board is looking for four men who are fully qualified for this work to volunteer and get busy quickly.

The J. F. OLIVER ESTATE C. B. OLIVER, Manager STEAM AND HEATING COAL Phone 199

A large class of girls was to start today on an intensive course in agriculture at the Michigan Agricultural College. The girls who joined the class are actuated by a desire to learn all there is to know about farming and are not taking it up as a pastime. Today the college let down the bars which in the past restrained women from joining men in agricultural classes. War conditions are responsible for this invitation to women to the agricultural field. They will be permitted to take up farm management, poultry husbandry, dairying and other similar subjects. This feature at the college will be maintained permanently by authorities believe.

THRIFT STAMP SALES WILL BE PUSHED HEAVILY

(Continued From Page One) they have on hand so that a carload may be sent from this county as soon as possible. The Escanaba schools have already turned in over 500 pounds and Gladstone has contributed 272 pounds of pits. It requires seven pounds of pits to make one gas mask so that every school can tell just how many masks its contribution will make.

Manuals Sent Out. Supt. King, of the local schools, who is chairman of the Junior Red Cross work in Delta County, is sending out to every teacher in the county, a copy of a book authorized by the government entitled "Our Country's Call to Service," also a teacher's manual which is to be used as a guide book to all lines of Junior Red Cross Service.

Every pupil in the county is asked to keep a "Service Book" showing what service he or she has performed to help win the war, spare being given for each item of service. As it is not possible for all Red Cross workers to come to a central meeting frequently, township leaders have been appointed to arrange for meetings at some central point in each township. These meetings are to be held as often as practical. Leaders will notify the teachers of other schools and communicate with Commissioner C. U. Woolpert at least one week in of the meeting date.

Township Leaders.

o'clock Sunday morning following an attack of influenza. Mrs. Arley was a daughter of Joseph LeClaire, a former well known printer who for many years was identified with the Mirror.

ANOTHER CHANGE IN WAR EXCESS PROFITS TAX MADE IN SENATE

(BY ASSOCIATED PRESS) Washington, D. C., Oct. 29.—The war excess profits tax imposed only on corporations in the war revenue bill as it passed the house, has been extended by the senate finance committee to individuals and partnerships in business or trade.

FINE PATRIOTIC WINDOW DISPLAY SHOWS ABILITY

Secretary Lang of War Relief Association Mingles Artistry and Patriotism with Splendid Effect.

Secretary Lang, of the Delta County War Relief Association blends much artistic wizardry with a patriotism that is as broad as the universe and as deep as that bottomless pit to which the cause of the central powers has been consigned by the rest of the world.

In the center is a large cardboard carrying the photographs of many Escanaba boys in the service, the center picture being a splendid likeness of Serg. Johnny Teichler, former Escanaba ball player who was killed in action with Capt. Falk, of Menominee.

The Association asks parents and relatives of men in the service to loan their photographs for display purposes. The pictures will be given the best of care and returned unharmed.

In one corner is a British Gas mask which is the personal property of Lieut. Hugh Coughlin, who is now home on a brief furlough and who has loaned the mask for a few days. In addition to these are other gas masks, helmets, steel hats, revolvers and trench knives—in fact all sorts of smaller implements of warfare.

"FLU" SUBSIDES IN ALL BUT TWO NAVAL STATIONS

Vaccine Is Now Being Produced in Sufficient Quantities To Safeguard All Men in Army Cantonments.

(BY ASSOCIATED PRESS) Washington, D. C., Oct. 29.—Surgeon General Braisted announced today that the influenza epidemic had passed in ten naval districts and was on the wane in all other places except Paris Island, S. C. and Mare Island, California.

U-BOAT QUIET IS REGARDED WITH DEEP SUSPICION

Germany Believed To Be Withdrawing Submarines in Order To Repair Them For Last Great Effort of War.

(BY ASSOCIATED PRESS) London, Oct. 29.—Reports of German submarines being recalled to home ports, coupled with the complete inactivity of the U-boats, is being discussed by British admiralty officers here. It is not believed that Germany's submarine campaign has been abandoned.

Mrs. August Johnson of Schaffer is the guest of Escanaba friends. Mr. and Mrs. James O'Brien of Cooks Mills visited their many Escanaba relatives yesterday.

Nearly 15,000 More Men From Wisconsin

(BY ASSOCIATED PRESS) Madison, Wis., Oct. 29.—A call for 14,784 men from Wisconsin was received by Governor Philipp. With the exception of 1,892 all of these men are in class one of the September 12 registration. They will be sent to camp November 11.

Henry Anderson of Marinette has arrived in the city this morning to attend the funeral of his uncle Mr. Charles Ross.

LIVED LONG IN WILD STATE

Alredale Dog for Several Years Maintained Wild Predatory State in the Yellowstone Park.

An instance of a dog's return to the savage state of his wolf ancestry came to light in February in the Yellowstone National park when Scout Anderson's report of a trip into the Buffalo Fork country contained, under the heading of predatory animals killed, a mention of one mountain lion, one bobcat, four coyotes and an Alredale dog.

This dog, which probably wandered into the park from some farm or settlement a few miles over the border, has been living in the Yellowstone in a wild state for several years. Whether or not he fraternized with his cousins the wolves and the coyotes can not be known certainly.

Anyway, the dog had been seen at intervals for several years and was officially classed among the animals which, alone of all Yellowstone's animals, are sought and killed because destructive of the harmless animals which make of this national park the best-populated wild-animal preserve in the world.

ELEVATING INFLUENCES WERE NOT IN EVIDENCE HERE

Chicago Tribune Says: "Mayorality Campaign in That City Failed to Develop Refining Effects."

The Chicago Tribune, which has long supported the woman suffrage movement, gives impressions of a spring election in Chicago, and the part women played in it, and says:

"The first mayorality campaign in which women voters participated failed to develop the refining and elevating influence which the sex was expected to exert. When one sees a woman of dignified presence and cultivated appearance greeted with torrents of hisses and insults from the frenzied lips of both men and women; when one sees her finally driven from the platform with no chance of speaking a word, one is tempted to retire to some quiet spot for a moment and meditate on what it all means.

"When one watches a venerable lady trying to quell the tumult by waving a flag and almost dancing to the same rhythm, while 1,200 shrieking men and women order her to 'sit down and chase herself,' one remembers his own grandmother, and makes a feeble effort to blush."

Avoid the Discourager

Sometimes people grow discouraged because their work does not seem to count for much. A taper lay in a drawer, whence its owner took it out and carried it away. "Where are you taking me?" asked the taper. "To show big ships their way across the sea," was the reply. "But no ship could see by means of my tiny light."

Lines to Be Remembered

Think well about great things; and know that thought is the only reality in this world. Lift up nature to thine own stature; and let the whole universe be for thee no more than the reflection of thine own heroic soul.

BOOKS AND MAGAZINES ARE IN DEMAND

Camp Custer, Oct. 29.—Books and magazines are needed at Custer now more than ever. During the recent quarantine due to the influenza and pneumonia reading material was furnished the boys in barracks buildings as well as at the hospital through the medium of the library, the "Y" and K of C clubs. In most instances the supply was exhausted. Now practically all of such reading material has been destroyed to preclude the spreading of the epidemics.
