Toledo, O., July 3.-Rules governing the heavyweight championship contest between Jess Willard and Jack Dempsey in Tex Rickard's \$150,000 arena here tomorrow, are to be officially interpreted at a meeting today attended by Ollie Pecord, the referee, Rickard and Major A. J. Drexel Biddle, judges of the contest, the boxers themselves, and Jack Kearns, manager of the challenger.

Willard Favors Rules. Previous to the meeting Willard expressed himself as being willing to box under any rules, but suggested that the contestants be permitted to box as long as an arm is free, to break at once at the command of the referee and to break clean. Rickard said he Queensbury rules would apply, the the soldier. boxers to take care of themselves a

Kearns, who spoke for Dempsey, said he intended to press the point that the judges should not sit together but on opposite sides of the ring. He also said that he did not care how the rules were interpreted so long as each boxer and the referee agreed on what was to be exacted.

Betting on the outcome has proved surprisingly light, notwithstanding the gathering of thousands of prospective spectators. It was estimated this morning by one of the foremost spectators. It was estimated this morning by one of the foremost wagering commissioners that there was not much more than \$10,000 in actual stake in the hands of the various betting concerns. He explained this situation upon the theory that while the adherents of the two heavyweights were sharply divided in their opinion of the result, each contingent had too much respect for the fistic ability of the rival contender to weigh heavily the chances of their own favorite.

Sentiment for Champion.

In some quarters the sentiment appeared to be varying toward the champion, for while Dempsey backers were offering even money on the challenger a day or two ago, they are now asking that Willard men lay 10 to 8.

Every train arriving in Toledo is unloading its scores and hundreds of boxing fans and hundreds are making the trip here in motor cars. Once they arrive a small percentage of them go direct to hotels and claim rooms for which they made reservations a month ago and which they are privileged to occupy at the rate of \$5 a bed with two to ten beds in a room.

Chairman Declares Homecoming Is for Soldier, Sailor and Marine Here.

"We would like to see every service man in the parade tomorrow morning" said B. J. MacKillican, chairman on arrangements, this afternoon. "This celebration is a homecoming for service men-it is in their honor-and I hope they won't disappoint us by failing to turn out for the few minutes that will be taken up in parading."

Optimism among officers of the American Legion post here ran high late today when they had assurances from many former soldiers, sailors and marines that they would turn out in uniform tomorrow.

Demobolize Yankee Army By Sept. 30; Total Is 240,000

(BY ARROCLATED PRESS)

Washington, July 3.—Orders for the demobilization of the army by September 30 to the peace time strength of approximately 233,308 officers and men authorized by the national defense act, were issued today by the war department.

The national defense act authorises a total of 169,493 officers and men for the line and 63,815 officers and men for the staff corps and departments. A reduction of the military establishment to these figures would be 100,000 below the strength authorised in the 1920 army bill, but officials explained compensate for the heavy excess now Committee on Floats-James C. Baker, C. B. Smith, P. F. Geniesse, Chas. existing over the authorized total.

Announcement that the army would be reduced to less than 240,000 officars and men by September 30 was accepted here to mean that definite plans had been made to withdraw practically the entire American expeditionary forces before many weeks.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Bage Tea and Sulshur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Bage and Sulphur enhances its appearance a hundredfeld.

phur enhances its appearance a hundredfold.

Den't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's mage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightest tellet requisite for those who desire dark hair and a youthful appearance. It is not intended for the, cure, untigation or prevention of disease.

EITHER SCHWARTZ OR GERMAIN WILL OPEN GAME TODAY

Escanaba All Set to Do Battle Against Nahma; Game Begins at 3:30 o'clock.

Late today no decision had peen reached by the management of the Escanaba ball club as to who would go on the mound at 3:30 o'clock to morrow afternoon to open fire against the Nahma club, coming here tomorrow for the second time this season And whether pitcher Paul has been released from the Cloverland booster team so that he is available for the Nahma crowd, has not been made

known either. Anyway, a wild afternoon is fore shadowed, the kind of wildness that real fans appreciate. No rowdylsm is expected and neither will it be tolerated, but some of the most spirited playing of the season is expected, inasmuch as Nahma is aching to get revenge for the defeat of a few weeks ago when the winning end of the game was fairly crammed down the protesting throat of the Escanaba

Cap Olmsted remarked today that Escanaba was in a fair way to trim Nahma. "We expect to start either Jermain or Schwartz in the box," he said. "Which will be the choice it has not been decided"

The usual lineup of old timers will take part, it was announced, including Lantz and perhaps Olmsted, but Der win hardly can be classed as an old timer. Derwin is better grouped as a comer, both in fielding and in hiting. the latter qualify cropping out last Sunday when he tried hard to lift one over the right field fence at Niagara and somehow or other some body moved the fence back a little.

ing helps us look and feel clean, sweet, fresh.

Happy, bright, alert-vigorous and vivacious-a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-

cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particulary those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, be-cause the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morn ing helps us look and feel clean, sweet, fresh.

Happy, bright, alert-vigorous and tiral, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly. anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosycheeked people everywhere.

An inside bath is had by drinking,

each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it dity of said bond issue, and to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, billousness, nasty breath, rheumatism, colds; and particulary those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurthe pores in the thirty feet of bowels

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs -and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of-

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 11/2 lbs. per capita—a 3 days' supply.

100%

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

Celebrating Service JULY FOURTH

It is usually fitting that we celebrate our Independence Day in this year 1919 with thankful hearts.

Our boys who fought so gloriously "Over There" have assured its future security.

To them we owe a debt that can never be repaid, but in celebrating the Fourth of July this year we are in a small measure honoring them for the service they have rendered to us.
