TREATY FIGHT OPENED

TRIUMPHAL PARADE IS WITNESSED

French Marshals Lead Allied Soldiers in Paris March.

(BY ASSOCIATED PRESS)
Paris, July 14.—The triumphal march of allied and American troops through Paris began at 8 o'clock this morning. The weather was brilliant. A thousand wounded soldiers with crutches or in wheel chairs and for the most part in civilian clothes, led the parade, being preceded by a drum corps.

Marshal Joffre passed under the arc of triumph at 8:45 o'clock. He rode alone. Behind him came Marshal Foch, commanded-in-chief of the allied forces during the final campaign of the conflict. A storm of applause arose from the vast throng as the two marshals passed the president's stand.

General Pershing with a number of American generals came next in line and was received with equal enthusiasm. Forty American organizations, soldiers and marines, marched with wonderful precision and were greeted by a sea of waving handkerchiefs and flags and with deafening cheers.

Use Fast March Step.
The marchers used the so-called "triumphal marching step" by direction of Marshal Foch. This calls for 123 steps to the minute. The usual marching step of Americans is 120 steps to the minute.

Henry Ford Goes On Stand in Case
Mt. Clemens, Mich., July 14.—Henry Ford took the stand as a witness today in the libel suit against the Chicago Daily Tribune.

Decide Tonight On Building Purchase
Whether the city will purchase the C. M. Thatcher building east of the Municipal utilities office, will probably be decided tonight when the board of public works will hold a meeting. The building is occupied by the C. M. Thatcher insurance firm on the second floor and the Gildred tailoring establishment on the first floor.

Escanaba Wins In Paving Case

The litigation started by Joseph C. Valind to have the court restrain the city from collecting a special assessment on his property for paving improvements on Stephenson avenue was brought to an end today when Circuit Judge Richard C. Flannigan rendered an opinion that dismisses the plaintiff's bill of complaint and orders the costs in the case to be paid by the plaintiff.

The suit attracted considerable attention throughout the city, inasmuch as it served as a test case.

POLICE TAKE FLIVVER BUT WHOSE IS IT?

Folks are getting very careless with their Fords or flivvers—whatever you would call them. One was left at South Park several days ago and this morning the police were requested to take the poor thing in tow and find a home for it. Accordingly, Joseph Carney, police sergeant, and Earl Bourdiale, county motorcycle cop, went out and towed it back in to the police station here.

Motion for New Trial Is Denied by Circuit Judge

Motion for a new trial by the Gladstone Auto Sales company, defendant in a case started by the Escanaba Gamble-Robinson company, was denied today by Circuit Judge Richard C. Flannigan. The case was twice tried and twice the verdict was rendered for the Escanaba firm.

Attempt to Force Repeal of Bill On Prohibition Fails
Washington, July 14.—An attempt to force a vote on the repeal of the war time prohibition measure failed today in the house when an amendment to the pending prohibition enforcement bill proposed by Representative Igoe, Democrat, Missouri, was ruled out of order.

St. Paul Rainfall Heaviest This Year

St. Paul, July 14.—Reports from all sections of the state show the heaviest rain recorded this season fell last night during the storm which extended to all parts of the state. St. Paul received the heaviest fall, 3.1 inches. Rain was accompanied by high winds, but little damage was reported other than that to telephone and telegraph wires.

Little Interest Is Shown in Elections

But little interest was manifested throughout the day in the school elections in which Charles Gunderson is opposed by Xavier Greener for school trustee. Two ballots are being used, the other to determine whether the schools of Escanaba shall come under and act to classify them for government supervision. The polls will close at 8 o'clock tonight.

MIGHTY TEDESCHI PROVES A FROST; ESCANABA WINNER

Defeat Iron Mountain 8 to 1 Here Sunday; Moody Hits Home Run.

Escanaba fans had a glimpse of old time baseball here Sunday afternoon when Olmstead's colt frightened the Iron Mountain gang so badly they jumped out of their traces and never got back into them. When the score boy finished his day's work at the right field score board, he left figures that told a story of an 8 to 1 victory for Escanaba.

So far as Escanaba was concerned, it was a good game from stem to stem even if the colts were a little excited on a few occasions and staged a few boners—just a few thoroughly convinced that when Tedeschi tried out with the Chicago White Sox Comiskey either was suffering from a complication of diseases or Tedeschi was about 800 percent a better pitcher than when he was given a trial.

Leastwise, fans left the park satisfied that Tedeschi came out of Chicago without a rain check.

First Hit In Homer.
The manner in which Moody went up to the plate and smashed one over the left field fence for a homer before Tedeschi had drawn a good breath was almost tragic. It was the first ball pitched, and it was a beautiful one along the third base line and trapped him flat on his feet. Hirm followed with a sacrifice bunt and Desilets hit to left field. When the barrage cleaned, two runs had been scored.

Another pair of tallies went on the board after the Lind frame was finished. This time Jermain walked and scored on hits by Moody and Plath and an error on the part of Rahole in center field. In the meantime Moody had advanced to third and came in on a fielder's choice by Derwin.

Run Away In Fourth.
The fourth was the runaway inning. Desilets slammed out a two base hit to center field and scored a moment later when Hanson hit one for two bags. Hit by a pitched ball, Lantz went to first. Perrow took three heat-strikes, but Jermain was once more given free transportation. Then followed the third hit of the day from Moody's stick. It was a single, but Moody had registered.

The rest of the game saw Iron Mountain threatened but little except in the fifth round when Lantz reached first on an error, stole second and was trapped off second by a high fly which he thought was going safe. After that, the eighth saw a little start for scoring, but nothing materialized. Desilets went to first on Tedeschi's error at second on Powell's miff of the throw from Van Goethen.

Van Goethen Is Successor.
Tedeschi, by the way, retired from the mound after the third inning, but Van Goethen was forced to take a beating equally as bad if scores are to be considered. Tedeschi went to second and looked just as much like a novice there as in the box. Sandercock moved over to shortstop.

Iron Mountain's lone run was gained in the seventh round, but it shouldn't have been scored at all. Jermain walked Rahole and Bennett followed but struck out. Tedeschi, however, fortunately hit one and advanced the center fielder. A pass ball by Perrow permitted Rahole to register.

On two other occasions Jermain was in the hole, but he pitched strong ball despite that once in a while he lacked control. In the third frame he walked Tedeschi, first up, and by a hit and walk that followed, the little Italian got to third. In the eighth he walked Powell, who got to second by stealing and to third on Perrow's error. But that was as far as they got.

Allis Needed Crutches.
Except for a dozen things, Tedeschi was okeh. The only trouble with him was he couldn't pitch ball and he couldn't play in the infield very good, either. He had a bad case of swell head, presumably a hang-over from the time he stuck his head inside the South Side ball park at Chicago, and he had allis galore that were sorely in need of crutches.

The Iron Mountain club as a whole wasn't a bad organization, except for a couple of the players, but there was a decided lack of gray matter to be mixed in with their skill as ball players. The Colts, however, used their noodles generally, slipping up but a few times.

46 GRANTED CITIZENSHIP HERE TODAY

One Rejected Because He Asked for Draft Exemption.

Forty-six Delta county men were admitted to citizenship when the work of Examiner T. S. Griffing, of St. Paul, was concluded at the court house this morning. Jacob Mattila, Defiant applicant, was refused citizenship because he asked to be placed in class five during the draft classification. Doubt was expressed as to whether he could ever receive his citizenship, leastwise in Delta county.

Several soldiers were among those who were examined for citizenship this morning and their session in court was brief. Included among the others granted citizenship were several Austrians and one German resident of the county. Under the new ruling of the department of justice, enemy aliens may be admitted to citizenship if there is no doubt as to their loyalty. All who appeared today gave more than sufficient proof.

Majority From Canada.
The largest number granted citizenship were men who came here from Canada, desiring to renounce allegiance to Great Britain. They included the following:

Paul Hebert, 208 May street; Louis Caron, 1209 Ella street; Edward McCauley, 1373 Escanaba avenue; George Seymour, 4608 Jackson street; William E. Gossett, 630 South Oak street; David Turpin, 715 Delta avenue; Eugene Gamache, Gladstone; George Lemarb, Fayette; Arthur Chaput, Schaffer; Alphonse Lessard, Bark River; Charles P. Payne, Nahma; Fred Derouin, Ford River Switch; Joseph Ringuette, Schaffer.

Those who either gave Russia as their land of birth or were under Russian jurisdiction during the time they lived in Europe, included the following:

Israel Levy, 306 South Charlotte street; John B. Johnson, 1117 Escanaba avenue; Alfred Helm, Gladstone; Frank Smith, 323 Stephenson avenue; Matt Saari, Rock; Omni Kangas, Rock; John Hakanen, Rock; Alfred Tynela, Defiance; John Luoma, Rock; Fred Holm, Ensign. William Holm, Kipling.

Few Are Swedish.
Those of Swedish extraction admitted to citizenship included the following:

Karl V. Granlund, 1000 Escanaba avenue; Waldemar Flink, 416 South Jennie street; Theodore Vannberg, 208 Stephenson avenue; John Saalander, 622 Stephenson avenue; John Oteson, Gladstone; Axel E. Larson, Masonville; Carl O. Lind, Rapid River.

SHANTUNG DEAL NOT ALARMING

Senator King Is Told Chinese Will Get Footing.

(BY ASSOCIATED PRESS)
Washington, July 14.—President Wilson discussed the peace treaty today with Senators King, Utah, and McKellar, Tennessee, Democrats, who were among a half dozen White House callers. It was understood that particular attention was given to the Shantung situation. After the conference Senator King said he was convinced this question eventually will clear itself.

After weeks of preliminary discussion and maneuvering the actual fight over the unreserved ratification of the peace treaty with its league of nations covenant begins today in the senate.

Swanson Opens Fight.
The foreign relations committee opened consideration of the document which may bring on several collateral issues, including the question whether the president will be invited to appear and be questioned. In the senate chamber the debate for ratification will be opened by Senator Swanson, Democrat, Virginia, while at the White House, the president, it is considered likely, will begin conferences with colleagues of the senate over the senate situation.

Final plans for beginning committee consideration of the treaty have been arranged by the leaders. It is likely that opposition senators will urge several measures bearing directly on the Versailles negotiations.

Alleged Secret Treaty.
One of these is Chairman Lodge's resolution asking for information as to an alleged secret treaty negotiation in 1918 by which Japan was to safeguard Germany's interests in the peace conference.

The senate foreign relation committee, beginning consideration today of the peace treaty, reported three minor resolutions bearing on the Versailles negotiation, but took no action on the question asking President Wilson to take part in the committee discussions of the treaty.

The resolution reported would call upon the president and the state department for information regarding an alleged secret treaty between Japan and Germany; regarding a protest said to have been made by General Tasker H. Bliss, Secretary Robert Lansing and Henry White against the Shantung settlement; why Costa Rica "was not permitted" to sign the peace treaty.

No Talk Of Meeting.
Members of the foreign relations committee said there was no discussion at inviting the president to meet with the committee on the proposal to separately consider the peace terms and the league of nations covenant.

Immediately after the committee adjourned, debate on actual ratification of the treaty began in the senate, Senator Swanson, Virginia, Democratic member of the committee, opening with a speech praising the league covenant as the only possible plan for preservation of world tranquility.

The covenant, he said, was "one of the world's greatest documents" Rejection of the league of nations by the United States would mean that she would skulk in the greatest world crisis that ever occurred," the senator said.

All of the resolutions reported by the foreign relations committee were amended in minor particulars. That regarding the Japan-Germany treaty introduced by Chairman Lodge and that relating to Costa Rica, introduced by Senator La Follette, Republican, Wisconsin, were reported without record votes.

On Olson left yesterday on a fishing trip to Duck Creek.

W. E. Olds, named superintendent of schools to succeed F. E. King, will come here from Marshall, Mich., within the course of the next ten days, members of the school board have been advised. He will take charge of school affairs as soon as he arrives here. Mr. King, singularly enough, is successor to Mr. Olds at Marshall.

BUCKET BRIGADE'S WORK SAVES JACOB GROOS STRUCTURE

Fire Saturday Evening Threatens Farm Buildings, But 'All Hands' Saved Them.

A bucket brigade formed by employees and neighbors at the Jacob Groos farm Plat Rock, early Saturday evening, saved the building from destruction by fire. A residence valued at \$4,000 and a farm building and machinery worth considerably more were saved from destruction by timely action.

The fire started about 6:30 o'clock in the structure used for washing, and in ten minutes the flames had spread so rapidly that efforts to saving the building were futile. Attention was directed to surrounding structures, one of which caught fire twice.

Fearing the wall of the washing building would fall toward a wood shed but a few feet away, horses were taken out on chains hooked to the building, with the result that the burning structure was pulled away from the building nearby that it threatened.

It was the hard work of the bucket brigade that saved the building, however, declared Mr. Groos this morning. "I would have called for the fire department of Escanaba if the fire had spread a little closer to the residence," said Mr. Groos, "but we saw we would save the surrounding buildings with a little hard work. The work of the women in fighting the fire was no less effective than that of the men."

Children playing with firecrackers are believed to have started the fire.

BICYCLE IS SMASHED.

The front wheel of a bicycle owned by a son of Mrs. Baker, 313 Tenth (Charlotte) street was smashed when the Metievier automobile plowed it against the curbing on Ludington street. The accident was no fault of the driver, according to witnesses.

Wells Loses Game To Garden, 4 to 2

The Wells ball club lost a close game Sunday to the Garden club at Garden. Feathers pitching a game that was a trifle too strong for the Wells players to overcome. The final count was 4 to 2. Johnson hurled for Wells and was received by Dwyer. The excursion to Garden on the steamer Hazel was the largest in point of attendance so far this season.

Manitowoc Beaten By Menominee Club

Menominee, Mich., July 14.—(Special)—Manitowoc was unable to solve the left-handed twirling of "Did" Evans here yesterday. Menominee winning the contest 13 to 3. On the other hand, it was a slaughter so far as the locals were concerned.

Steamer Georgia Here Over Night

The steamer Georgia of the Goodrich line tied up at the Stephenson dock at 9 o'clock Saturday night and remained here until 8 o'clock Sunday morning, taking a number of passengers and freight south.

(Continued On Page Six)

THREE-FLAG RECORD BROKEN BY "HAP" SCHERER RIDING HARLEY-DAVIDSON NEW SPORT MODEL.

The Three-Flag record was broken by H. C. (Hap) Scherer of Tacoma, Washington, when he shaved off five hours and two minutes from the former record. The route extends from the Canadian border through Washington, Oregon and California, to Tia Juana, Mexico. ... "Hap" Scherer cut the record to 64 hours 58 minutes. He rode a Sport Model, the new medium weight machine, a creation of the Harley-Davidson Motor Co. Two features mark the feat. Scherer traveled almost one hundred miles farther than other record holders on account of road conditions and he traveled this 1716 miles at an average day and night, of 26.4 miles per hour.

Performing leopards coming in Al. G. Barnes circus, showing here Tuesday, July 22.

SOCIAL

Picnic for Soldier. A delightful picnic was held yesterday in honor of John Olson, of Gladstone, who is home on a two weeks' furlough. The following attended the affair: The Misses Henrietta Wurth, Rosemary Wurth, Yvonne Potvin, Rose Loritz, Bertha Chenier and Roy Anderson, John Olson, Bennet McCauley, Roy Pierson, Eugenie Peltier. A truck conveyed them to their destination, the South Ford River picnic grounds. A program of picnic games was carried out and an enjoyable picnic dinner was served by the girls. In the evening a marshmallow roast was held. Everyone had a most delightful time.

Jitney Dance Tuesday. The regular Tuesday Jitney party will be held at the Coliseum hall again tomorrow night. The Cleary Country Club orchestra which played for a large and pleased crowd last Tuesday, has been secured for the affair tomorrow night.

Bride-to-Be Showered. A miscellaneous shower was held at the town hall in Bark River, Saturday night for Miss Lillian Rheame who will be married to Otto Poquette tomorrow. Practically everyone in the entire town turned out for the affair. Miss Rheame received a number of pretty and useful gifts.

Club is Entertained. Miss Stella Nerbonne of 213 17th street entertained the W. H. B. club and their friends at her home last evening. Games were played, dancing and singing were enjoyed and a three-course luncheon was served by the hostess. Needless to say everyone has a most enjoyable time.

Picnic at Maywood. Miss Elsie Johnson and Robert Perry entertained a number of their friends at a picnic yesterday at Maywood. A program of picnic amusements were carried out and an enjoyable picnic dinner was served by the girls.

Surprise Miss Fisher. Miss Nellie Fisher, school teacher here until her failing health necessitated her going to a sanitarium in Illinois, was pleasantly surprised by a number of friends Saturday afternoon at the home of her sister, Mrs. E. L. Murphy of Sixth street. A pleasing social period was spent at the home, the unexpected hostess serving a splendid luncheon in conclusion.

Eastern Star Meeting. The regular meeting of the R. C. Hathaway chapter No. 49, O. E. S., will be held at the Masonic Temple Tuesday evening, July 15, at 7:30.

SIGN YOUR NAME. The Mirror is in receipt of a communication signed by "A Taxpayer," but because it was not signed, it will not be used. However, if the person who wrote the communication will inform the Mirror to that effect, it will be used, but his or her name will be kept in confidence.

CARD OF THANKS. Desire to take this opportunity to personally thank neighbors, employees and men of the paper mill construction crew who saved my buildings from destruction by fire when they came to my assistance early Saturday evening. I am no less grateful to the women who assisted us, for without their work I do not believe the buildings would have been saved. JACOB GROOS, Flat Rock. 165-196

NEW POTATO DISEASE. East Lansing, Mich., July 12.—"Potato Wart", a disease believed to have been imported to this country from Europe, has recently been reported by the U. S. Department of Agriculture as having put in an appearance in Pennsylvania. Fearing a possible spread of the disease to other parts of the country, the government men are advising farmers to be on the look-out for its appearance and to report any suspicious cases found. "In the Potato Wart disease the tuber is replaced by a cauliflower-like growth," says G. H. Coons, plant pathologist at the Michigan Agricultural College. "This growth quickly rots away. Anything of this nature should be sent in to the College for identification."

WANT FLYING SHIP AS TYPE FOR NAVY

Seek to Develop Model to Ride Out Storm.

SEE LESSON IN OCEAN 'HOPS'

Defects of Boats of the NC Pattern Studied by the Naval Experts in Washington—To Play Its Full Part in Naval Strategy Seaplane Must Become as Independent Unit as Modern Destroyer or Submarine.

Flying ships, instead of flying boats, will be the logical evolution of navy seaplanes, navy experts believe, as a result of the first air trip across the Atlantic. First impressions of the lessons taught by that trip had already taken definite shape in the minds of the men who conceived and built the NC machines, one of which Lieutenant Commander A. C. Read maneuvered to a safe mooring at Plymouth, England.

It was the experience of the NC-1, lost off the Azores, and the NC-3, battered out of usefulness by heavy seas before she made port at Ponta Delgada, that the inventive genius of the department turned for inspiration, rather than to the NC-4.

Experts are convinced that to play its full part in naval strategy the seaplane must become as independent a unit as a modern submarine or destroyer. It must be able to keep the seas in heavy weather, riding on the surface. It must be able to lift itself into the air or to plane down to a safe landing, even when tall seas are running, and it must provide for its crew, safety, shelter, and reasonable comfort under very adverse circumstances, for the efficiency of the plane depends upon the efficiency of its men.

To fulfill its function as a scout the seaplane of the future must be able to communicate at all times by radio.

Plan Flotillas of the Air. The answer to all of these requirements in the minds of the experts is larger craft, veritable flying ships. The vision toward which the designers are looking is that of flotillas of seaplanes relying wholly upon their own power for transportation on the surface or in the air and operating from swift "mother ships," as submarines and destroyers now operate.

As battleships have developed from 11,000-ton predreadnaughts to the 43,000-ton monsters for which the navy is now contracting, so, naval officers say, seaplane evolution will come type by type and year by year, each advance being based on results obtained with preceding types. This is the program laid out by the navy department as the basis for the request recently made to congress by Secretary Daniels for \$45,000,000 for aviation development in the next fiscal year.

Part of this appropriation, if granted, will go into lighter-than-air development. The general board is expected to recommend the immediate purchase of a British rigid dirigible for personnel training and the construction of a similar vessel on American designs as a pilot ship of a fleet of air cruisers. The purchase of the British Zeppelin would permit the training of a crew to handle the first American craft when completed.

The navy department is said to be ready to proceed with Zeppelin construction on its own plans whenever congress grants authority and appropriations. The ship, it is understood, would not be patterned exactly on the British modifications of German Zeppelin construction. The discovery of noncombustible helium gas to inflate the bags is said to have pointed the way to some radical changes in design. Details of what is contemplated have not been disclosed.

Naval experts point out that in both seaplane and dirigible development one of the most important elements to be considered is that of getting efficient power. The Liberty motors have proved highly satisfactory so far as endurance goes on the transatlantic flight, but no means have yet been evolved to get the full benefit of their power. The problem is the same as that encountered with steam turbines in surface craft.

Testing Reduction Gear. The navy has been working for months with a reduction gear system to go between the engine and the propeller. A similar device has permitted destroyers to use turbine engines, but it has been found a difficult task to design a lightweight reduction gear for seaplanes or other craft. Should this device be worked out, the NC seaplanes could be made much more efficient and their cruising radius could be greatly increased.

As to the sea-keeping qualities of the NC planes, the experiences of the NC-1 and NC-3 indicate to experts that some way must be found to get the plane surfaces higher out of the water. This would save them from battering into the sea when riding the surface.

New gasoline motors for lighter-than-air craft have been worked out and received their first test on the flight of the dirigible C-5 from Mount Point, L. I., to St. John's, Newfoundland. So well did they function that decision had been made to attempt a direct flight to Ireland with the C-5 before the ship was blown to sea and wrecked. Another attempt to cross the Atlantic will be made as soon as similar engines can be installed in another aircraft of the "O" type.

Rubies for July

The birthday present that contains the natal stone is always received with especial pleasure. It seems a little more individual and personal than any other present.

Lohmiller's collection of birthstone jewelry contains presents for young folks and older ones of both sexes.

In jewelry set with rubies—July's birthstone—there are wonderfully attractive designs in rings, scarf pins, brooches, charms and other ornaments, at prices one expects to pay for a birthday present.

Our long established reputation for quality makes purchasing the gift here an added compliment to your friend.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nervo wrecks," "rundowns," "brain fags" and pessimists who should see a virile, optimistic throng of rosy-cheeked people everywhere. An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening, and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

Own Your Home

THIS is a new department inaugurated by The Mirror for the benefit of its readers who have homes to sell or who want to buy homes. Right now Escanaba is booming. Property will never be cheaper than it is today. Therefore now is the time to buy your home. List your property with "Own Your Own Home." We will sell your property on a small percentage basis.

No. 103—If you want a complete home with hot water heat, on a lot 50x140 for \$5,000, here is the home you are looking for. There are nine rooms and bath and it is ready for occupancy without further expense. Situated on upper Wells avenue and is being sold because the owner no longer lives in this city. A bargain at **\$5,000**

No. 104—Eight room house on Campbell street with all the improvements. The house needs some repairs, but at the price one could afford to make them. Price **\$3,200**

No. 105—If you live near the factory and want a nine room house with stone foundation, we offer one on Ruth street that will just suit you. The price is **\$1,200**

No. 106—Here is a very desirable 8 room house on Hartnett Avenue. It has lights and water and would make a very good home for a large family. The Price is **\$2,300**

No. 107—Here is a modern house on Hartnett Avenue with lights, bath and sewer. There are six good sized rooms and is in the best of condition. Price **\$3,300**

No. 108—Taking into consideration location, condition of the property and the price, here is one of the best bargains in the city. The house has 9 rooms, new heating plant, gas and electricity, fire place, storm doors and windows and it is situated on Ogden Avenue. There is everything in the house for convenience and comfort. The Price is **\$5,500**

List your property with us. If it is not sold it costs you nothing.

For particulars and locations of any of the above properties address

"Own Your Own Home"
DAILY MIRROR

For Sale

Owing to the fact that the owners of this property do not live in the city any more, it will be sold at an exceptionally low price. There is a house thoroughly modern with exception of furnace. Large lot 70 x 140, cement sidewalks, sewers, gas and electricity. Purchases can divide property and sell two lots for almost what the whole property will be sold for. This is known as the Donovan property at the corner of Park Avenue and Jennie Street. Inquire of Mrs. Katherine Donovan at Hotel Delta or at the Daily Mirror office. Must be sold in three days.

MUCK FOR YOUR GARDEN

I will deliver to your property the very finest rich black muck at reasonable prices.

EDSEL FORD GOES ON STAND; TELLS OF PLANT RECORD

Declares Company Gave Profits to Government in Processes and Inventions.

Mount Clemens, Mich., July 14.—The financial affairs of the Ford Motor company, and the war work which it did for the government formed the sole topic of both direct and cross-examination of Edsel Ford, president of the Ford Motor Company, in Friday's session of Henry Ford's million-dollar libel suit against the Chicago Tribune.

It was developed on direct examination that both production and profits were doubled after the minimum wage scale of \$5 a day was fully under way.

It was shown that the net earnings of the company for the year before the profit sharing plan went into effect were \$28,460,767 in 1914. The first year that the profit-sharing plan was in operation the net earnings increased to \$30,338,000. The profit in 1916, after the profit-sharing plan was in full swing, were double those of 1914 as was the company's production.

The witness then underwent the rather unique experience of being cross-examined by his father's attorneys, exhibited a comprehensible grasp of the mammoth business in all its aspects, industrial, financial and scientific, and gave evident desire to continue his father's policies with regard to the welfare of the men.

Edsel Ford testified that he entered the Ford factory at the age of seventeen and spent about four years working in the various departments. He was working in the shop when the \$5-a-day-profit-sharing plan was begun and was able to gauge the effects of it in greater contentedness and prosperity amongst the working force. He explained the Ford policy of steadily reducing the price of the Ford car in order to keep down the high profits, and showed that the rebate to purchasers of the car amounted to \$12,000,000. He said that with the profit-sharing plan came also machinery changes designed to make the men's work easier.

The young president of the Ford Motor company testified that the minority stockholders had strongly objected to these successive cuts in the price of the car, and had also objected to allowing the Ford Motor company to do war work for the government without profit. The best that Henry Ford could do under such opposition was to remit his own share of the profits to the government. His personal share thus turned back amounted to 58 1/2 per cent.

The witness testified that the Ford organization had invented many time and money-saving processes for the use of the government during the war, but had not patented any of them, allowing the government full and free use of them.

On 400,000 cylinders for Liberty motors, which the company supplied to all Liberty motor manufacturers, the cost was cut from the government estimate of \$20 to an actual cost of \$8 at which they were given to the government.

The cost of Ford work on helmets was reduced three-fourths, the witness testified.

Armour plate had been made so thick to withstand the shot and shell of modern warfare that it was rendered to heavy for practical use on the tanks, but experiments in the Ford laboratories led to the invention of a new type of steel of half the weight and the same resistance texture. The tanks which the Ford company produced withstood the test of actual warfare so successfully that the government placed an order for 15,000.

Witness testified that Henry Ford hastened the production of the tractor as a war measure, selling 6,000 to the British government on order of the Ford department of the ministry of munitions. Upon the request of Lloyd George, the British government treated the tractors as war material and facilitated their shipment.

"Wasn't it true that because of the attitude of your father toward the war, the Ford company of England was boycotted by the English?" asked Tribune counsel.

"I don't see how that could be, because the British government bought our entire production over there all through the war. Our manager over there was an official in the ministry of munitions."

A noteworthy list of properties in the "For Sale" column today.

If you have idle capital at the moment better look them over.

Nothing more substantial, or sure of profit, than real estate.

ROYAL REFUGEES FLOCK TO ITALY

Among Them Grand Duke Nicholas Nicolaevitch.

'WE ARE ALL POOR,' HE SAYS

Buying a 30-Cent Tie, the Grand Duke Said It Was the First New Thing He Had Had in Three Years—He Looks Old, Shabby and Very Sad—Is as Strongly Anti-German as Ever—Ex-Grand Duke Peter With Him.

A bevy of ex-royal refugees have arrived in Italy, with such members of the old Russian aristocracy as were able to escape on board British battleships from Odessa before the bolsheviks took possession of that town.

The party includes that strong man of old Russia, the Grand Duke Nicholas Nicolaevitch, with his wife, Anastasia, who is sister to the queen of Italy; ex-Grand Duke Peter Nicolaevitch, brother to Nicholas, whose wife, Militta, is also a sister of the queen of Italy; and several lesser members of the late Romanoff household, including the czar's head coachman, an Italian, who was in his service 23 years, and says nothing but good of the treatment he received while with him.

Staying at Genoa. The two grand dukes, with their wives, are at Genoa, but went to Rapallo for a few days, where they were met by Queen Helena of Italy and her children, who made the journey from Rome on purpose to visit them. Every day the three sisters have long family talks over the telephone, using the ordinary hotel phone at Genoa or Rapallo.

The Grand Duke Nicholas, with his wife and a small suite, have taken rooms at the Hotel Bristol, Genoa, while the others are at the Eden. They arrived with less baggage between them than the average business man's wife from New York takes with her when she comes for a short trip to Europe. And their scanty trunks are much battered. They have dinner in the public rooms, but remain in their bedrooms most of the time, except when driving about on the Italian Riviera, very beautiful in its early summer freshness.

Nicholas Nicolaevitch talks to the boys he meets in the streets and on the seashore in broken Italian, and takes little children in his arms, who pull his long beard, now gone quite white. He looks old, shabby and very sad.

"We are all poor," he says to those who approach him. The other day he bought a 30-cent tie in a local store, and is very proud of it. "The first new thing I've had for three years," he said to the clerk who sold it to him.

As Anti-German as Ever. He has the air of a man who suffers much, mentally. He is as anti-German as ever, and has declared that if the Germans overrun Italy after peace he will leave the country.

Some comment has been made here upon the fact that the exiles, though so closely connected with the queen, are not coming to Rome and are not living in any of the many villas, palaces and castles owned by Italy's king. The explanation is that the king of Italy is not very much attached to his wife's family, and that the husbands are by no means decided if they intend to settle here or not. Also, the king of Italy has given several of his finest residences for the use of Italian war orphans, gifts which much reduced the number of his homes. Many of the others are in no state to house visitors, and would need a complete overhauling.

The king of Italy, though exceedingly rich, is very economical. His family spends part of the year at the Villa Savoia, in the Via Salaria, Rome—which is not any larger than those of many Roman business men, and is far smaller and simpler than those belonging to several Roman patricians—and part at Racconigi, not far from Turin. This palace is now being completely restored and getting a number of new bathrooms, which were badly wanted for a long time.

DID NOT KILL CAT

Instead of Death There Was a Birth of Kittens.

A Main street drug clerk was visited this week by a man and his wife, the latter much agitated over the errand. They asked for four ounces of chloroform with which to kill their cat. At least this was the husband's statement; the wife was too busy shedding tears to do more than cling sadly to his arm. They were given a bottle of anesthetic and departed, stopping en route home to purchase a new wash boiler at \$2.65 in which to perform the last rites on the cat.

According to data later made public, puss was put to sleep on a pillow in the boiler, the bottle of liquid was emptied within and the cover slipped on. In the morning preparations were made for the burial. But when the boiler cover was lifted, lo! instead of one cat there were five felines! The liquid was only spirits of niter, given by mistake by the drug clerk, and puss had become the mother of four likely kittens. It is rumored that a lease of life has been extended the family.

Here is a wonderful new CORD Tire.

It is a tire of remarkable **STRENGTH** and **RESILIENCE**—plus unequalled immunity from rim cuts and blowouts.

The sectional view below will **SHOW** you why it is so far superior to other tires in **WEAR** and **COMFORT**.

Instead of two or three plies of cord, this *supreme* tire has **EIGHT**. Note that these eight plies of cord are placed in transverse diagonal layers so that they give not only the greatest **STRENGTH**—but also assure the maximum **ELASTICITY**.

You'll know a new comfort when you equip your car with these tires. And your tire bill per thousand miles will be much less.

HE, TOO, LIKE BURLERSON.

A report coming from apparently
authentic sources, and which gained
circulation all over the country, to the
effect that Postmaster-General Burler-
son had sent his resignation to Presi-
dent Wilson at Paris, has been denied
by the Postmaster-General who says
that there was "absolutely no founda-
tion of truth in the story."

It is stated that when Representa-
tive of New Jersey saw the announce-
ment of Mr. Burler's denial he sent
him a long telegram from which we
quote the following:

"Read with great regret story in
the newspapers to the effect that you
deny truth of newspaper announce-
ment of your resignation. There are
times when in the interest of the pub-
lic a public servant must be willing to
renounce his immediate personal ambi-
tions. I believe that that time has ar-
rived in your case. There is no conso-
latable element in our citizenship
which wishes you to continue in your
present position. You have succeeded in
antagonizing every conciliating no-
one."

WHY CAN'T WE DO IT?

In order to avoid the occurrence in
France of food riots such as have taken
place during the last few days through-
out Italy, the French government has
taken action to lower the price of
food. Why can't we do it. At a cabinet
meeting attended by President
Poincare of France it was decided to
remove all war time restrictions on
imports. It is hoped that this action
will be followed by an increase in the
volume of food entering the country
and a consequent lowering of prices.

The government also took action to
avert the threatened strike of 350,000
employees of the state for higher wages
to meet the increased cost of living.
The government granted increases,
effective July 1, fixing the minimum
of such increases at 150 per cent.

Inasmuch as the strike was sched-
uled for July 21, to take place at the
same time as strikes in England and
Italy, as a protest against high food
prices, the action by the government
is therefore timely and may avert the
international strike which has arrang-
ed for next Monday.

If the old story that apples serve to
quench thirst for liquor holds good,
there should be a record sale of that
fruit this season. But maybe lots of
folks won't eat apples this year for
fear somebody will scent shabby
careers of the ast.

If ministers don't know much about
farming, they'll learn considerable
when they attend the Michigan Agri-
cultural college. But maybe some of
them are proficient in throwing the
steer.

MANAGER GRIFFITH DECLARES WALTER
JOHNSON AS GOOD AS HE EVER WAS

Washington Twirler Who is Good for Several Years.

"Walter Johnson has four or five more years before him," declares Man-
ager Clark Griffith of the Nationals.

"Johnson is as good as ever he was," Griff continued. "He is just past
his thirty-second birthday and when seen at work he really looks like a
youngster."

Asked whether Johnson was suffering with a sore arm this season, the
manager replied: "I have never known Walter to have a sore arm. There was
talk about his arm being sore at the opening of the season, but it was not so.
He was suffering from a bad cold, which caused general indisposition."

POOR RICHARD'S SAYINGS

- Lost time is never found again.
- There are no gains without pains.
- Diligence is the mother of good luck.
- The cat in gloves catches no mice.
- The key, often used, is always bright.
- For age and want save while you may.
- By industry and patience the mouse ate into the cable.
- Since thou art not sure of a minute, throw not away an hour.
- At the workingman's house hunger looks in, but dares not enter.
- But dost thou love life? Then do not waste time, for that's the stuff life is made of.

HOWARD E. MADSEN,
Sergeant, Co. D, 115th Infantry.
Sergeant Madsen was decorated
for conspicuous gallantry
in action at Bois-de-Consenvoye,
France, October 22, 1918. When
the platoon which he was com-
manding was held up by an en-
emy machine gun nest, Sergeant
Madsen, taking an armful of
grenades, advanced alone over
ground swept by machine gun
fire, put the machine gun out of
action, routed the enemy and
permitted the platoon to ad-
vance without casualties. His
mother, Mrs. Mary V. Madsen,
lives in Baltimore, Md.

The Standard Oil Company (Indiana) and Industry

THE phases of useful-
ness the Standard Oil
Company (Indiana) ren-
ders as a public servant
are varied.

One of the services not
generally known, which
the Company must ren-
der, is to assist industrial
institutions in keeping
down their manufactur-
ing costs.

The Company maintains a staff
of highly trained lubricating
engineers, whose business it is
to go into industrial plants,
make a careful and thorough
study of their mechanical equip-
ment, and determine what
lubricants are best suited to
each machine under the pre-
vailing conditions.

Their constant effort is to keep
down manufacturing costs by
specifying the particular oils
and greases that will enable the
machinery to deliver a maxi-
mum of service at a minimum
of cost.

The work of the lubricating
engineers is a part of the com-
prehensive service the Standard
Oil Company (Indiana) renders.

This is another phase of the
usefulness of the Standard Oil
Company (Indiana) as a public
servant, showing the constant
effort being made by the Com-
pany to discharge its obligation
in a complete and satisfactory
manner.

Ireland Soldier Group Object to German Professor

Dublin, June 19.--(Correspondence of The Associated Press) The returned Irish soldiers are organizing themselves and asserting their right to be heard. In Cork it was proposed by the local Municipal Music Committee to appoint as professor of traditional Irish music a German musician. There was no personal objection to the professor except that he was a German, but the soldiers would not have it. Four hundred of them turned out in a body and presented the appointment. The secretary defending their conduct in the press writes:--

"We are faced with a grave trouble in the people who yesterday were badly misled by hopes of German victories and who have now taken a definite stand against us. Without friends on any side and left to our own resources we find that our own county we are unwanted and insulted. Only recently a member of the Cork Board of Guardians proposed that no demobilization soldier or sailor get employment from that Board. The Gaelic players have seen fit to ban us from their games. These and many similar incidents are not likely to improve our temper.

"To understand the feelings of our men these people should have a heart to heart talk with some of their countrymen who spent three or four years in German prison camps. This is not a time to set Irishmen flying at each others throats over a job for

a German professor." The attitude assumed by Eamon De-Valera, president of the Irish republic towards the returned Irish soldier, has not been one of hostility. He gave them credit for fighting for what they believed to be the right cause and the one they thought most likely to serve Irish freedom.

Hold Last Rites for John Christie

Last respects were paid to the memory of the late John Christie Sunday afternoon, when the funeral services were held at the First Presbyterian church.

Escanaba Commandery, Knights Templar, acted as a guard of honor from the home to the church and then to the cemetery, where the final Masonic services were held.

Have Full Octave Of Bells At Abby

London, July 14.--For the first time in history there is a full octave of bells at Westminster Abby. Heretofore there had been only six. The donors of the two new bells are sisters. The bells have been named "Faith" and "Ruth."

Dr. Walch Reopens Office Tomorrow

Dr. John J. Walch, who returned Saturday from overseas duty, will reopen his office here tomorrow to resume the practice he left more than a year ago. He will have the same office as he had before he left, over the Groos drug store.

Look at the ads that offer employment, and you'll find the right one soon!

Notice From City Treasurer

Notice is hereby given that Tax Roll of the City of Escanaba, for the year 1919, is now in my hands for collection. The taxes therein levied can be paid at the City Hall at any time before the fifteenth day of September, A. D. 1919, without any charge for collection. Four (4) per cent collection fee will be charged upon taxes remaining unpaid upon said fifteenth day of September, 1919. Office Hours: 9:00 a. m. to 12:00 noon; 2:00 to 5:00 p. m. ARTHUR A. MAYOU, City Treasurer. Dated this 5th day of July, A. D. 1919. 199

Dr. Chenoweth returned last night from Chicago and several eastern cities where she has been for the past few weeks.

Miss Royce of Oberlin, O., and Mrs. S. M. Charles of Chicago, arrived in the city this morning to visit at the home of C. P. Royce.

Mr. and Mrs. Leonard Clapp motored here from Marinette yesterday, returning today.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result. --Advertisement.

Seymour Is Favorite

"Mother," said a business man here yesterday--he was talking to his wife--"we'll have to close shop next Sunday and see Johnnie Seymour ride in the motorcycle races. They say he's gonna beat those fellows from the 'big leagues' and I wanna be there to see him do it; so do you." That conversation is one of many which are illustrative of the interest being taken in Seymour as a motorcycle rider, more particularly since he is going to have competition that is the best in the United States, so if he has the right stuff--and all fans here believe he has--he will make a showing that will surprise the out-

siders. "You won't ride against a boob," Burns and Hepburn were warned when they were signed to come here. "We aren't taking any chances to be beaten," they replied. Which means there is going to be some fast riding and some hair splitting curve following, for somebody is going to take the pole and hold it if he can--and somebody else is going to oust him out of the fence position. With five big events for the day, Promoter D. F. Villemur feels confident he has booked races which should draw a big crowd.

HELLO KIDS! HAVE YOU ENTERED BIG ANIMAL CONTEST?

Free Circus Tickets Be Given Escanaba and Delta County Youngsters Soon.

Hello boys and girls of Escanaba! Here is a real rare treat for you. Al. G. Barnes big four ring wild animal circus is coming to Escanaba Tuesday, July 22, and the Mirror has arranged with the circus to give the boys and girls of Escanaba and vicinity an opportunity to see this wonderful circus free—yes, free.

The Barnes Circus is the only real wild animal circus in all the wide, wide world. Instead of people doing the circus tricks all kinds of animals are the performers. Of course, there are hundreds of people too. It would take hundreds of people to put 1200 wild and domestic animals through their capers, ride the hundreds of horses and ponies in dancing and posing stunts.

"She" Press Agent Here. The circus press agent was in town and she, for he is a she this time, told us about the wonderful things to be seen in this circus. Barnes circus comes here in the early morning hours of July 22 from Menominee, traveling in five double length railroad cars, for circus cars are longer than ordinary cars. After the circus has unloaded and pitched its tents, there will be a two-part, long 4-in town street parade at 10:30 showing. After the parade returns to the show grounds the circus animals will have lunch and at 1 and 7 p. m. acts to the main show will open and an hour will be allowed in which patrons to the circus can get acquainted with the animal actors before the performance an hour later.

Then there will be two hours of circus glories. Wild animal acts will be staged in a great steel arena in the center of the tent, the milder acts in the saw-dust circles on either side of the arena. In the great hippodrome track surrounding the arena and saw-dust circles magnificent parades, madstodie dancing horse acts, clown features and big novel animal acts are exploited, 1200 wild and domestic animals taking part in the performance as well as hundreds of people. The seats all have backs and foot rests and the tents and show grounds are lighted by their own electric plants.

All May See "Feed" After the afternoon performance the animals will be fed in the animal tent

and all may stay and see these jungle beasts eat their sixteen-pound raw meat daily meal. There are three distinct jungle bands and a forty piece Marine band that furnishes the music. Did you read the conditions of the contest whereby you get these free tickets in Saturday's issue of the Mirror? If not, be sure to get a copy and be one of the contestants.

Miss Hessel to Wed. A charming wedding will take place tomorrow morning at 7 o'clock when Miss Esther Hessel, daughter of Mrs. Quinton R. Hessel will be united in marriage to Carl F. Hayden of Plattville, Wis., at a solemn High mass at St. Joseph's church. The Rev. Father Xavier will officiate.

The bride will wear a white satin gown, and carry a bouquet of lilies of the valley arranged in a shower effect. The attendants will be Miss May Hessel, sister of the bride and Harold Gross. The bridesmaid will be attired in a gown of white georgette crepe and a large white picture hat. Her flowers will be daisies. Miss Hessel will be given away by her brother, Walter Hessel. The church will be beautifully trimmed with daisies and ferns. Mrs. John Semer will render a number of beautiful solos, including "This is Thy Bridal Morn." and "A Bridal Song."

The bridal couple will leave tomorrow morning on a wedding trip to New York and Boston. They will make their home in Canada. The out-of-town guests who will be invited for the wedding are Mrs. William H. Reed and son William, of Illinois. The bride is a sister to Miss Hessel.

Shapiro Nimbinsky. Fannie Shapiro, daughter of Mrs. Herman Shapiro, Ludington street, and Jacob Nimbinsky, a man, were united in marriage at 8 o'clock Sunday evening at the home of Rabbi Levy performed by the rabbi in the presence of a large number of friends.

The bride was attired in a white crepe de chine gown with a veil caught with orange blossoms. She was given away by both her mother and father. She had no attendants. George Nimbinsky, cousin of the groom, acted as attendant.

Following the ceremony a dancing party was enjoyed. LeDuc's orchestra furnishing the music, preceded by a wedding dinner served to more than 100 guests.

The bridal party will leave in a few days on a short wedding trip, returning to this city to make their home.

Rain Here Is Big Help to Race Track

The rain here today was a big help to the race track at the Fair grounds, said Promoter D. F. Villemur today, declaring that the track already is hard and that the rain will serve to pack it down somewhat more.

MICHIGAN LEADS IN WAR GARDENS, REPORT EXPERTS

More Than Thirteen Thousand of Entries Were Girls Who Did Canning.

East Lansing, Mich., July 14.—Michigan stands first in the United States in war garden work, according to a report recently received from Washington by the Michigan Agricultural college. Of 33 states listed in the report, Michigan leads in the results attained both by the home garden clubs and by the canning clubs which were organized to work with the gardeners.

Crops raised and harvested by the clubs in Michigan reached a total value of \$133,564.44 during the year 1918. More than 29,000 were enrolled in the work in this state, while Connecticut with 28,000 club gardeners stood a close second.

Girls of the state who took up canning work last year in the 648 clubs organized by the Extension Division of the Agricultural college canned a grand total of 254,994 quarts of vegetables and fruits, valued at more than \$88,000. There were 13,234 girls engaged in the work. Nebraska with 6,000 girls enrolled in the clubs stood second in the country.

Although special impetus was given the work last year by the nation-wide food campaign, the gardening and canning clubs for boys and girls of the state are to be kept up year after year as an aid to better gardening and canning work in Michigan.

2 Marinette Men Pay Speed Costs

Emmett Setright and L. P. Clapp, both of Marinette, paid court costs of \$6.25 each when arraigned before Judge C. D. McEwen today on charges of speeding. Both were arrested on Hartnett avenue.

Miss Wilma Williams will leave tomorrow for Milwaukee and Chicago where she will enjoy a two weeks' vacation visiting relatives.

Rodney V. Hill left this morning for Menominee, where he will visit for a few days, enroute to New York to reside permanently.

Mrs. Paul Kozina of Elgin, Ill., arrived in this city this morning to visit at the home of her mother, Mrs. D. Russel on Third avenue.

Barber Shop Sold To Menominee Man

In a deal consummated today, Joseph Nerbonne, Menominee man, became the owner of the Imperial barber shop at 714 Ludington street. It was sold by Joseph Richard, who has not announced plans for the future. Mr. Nerbonne contemplates a number of improvements at the establishment.

Urge Churches to Know the Laborer

New York, July 14.—Protestant churches of America should be brought into closer relations with the wage-earners of the nation, says a statement issued here today, by the Commission on Church and Social Service of the Federal Council of the Churches of Christ in America.

To accomplish this purpose, the commission proposes that hundreds of powerful, highly socialized and democratically organized churches should be established in industrial centers. It suggests that seminaries should train ministers to know how to administer such churches, men who will know economics and social problems, as well as theology.

It proposes an alliance of the church with the workers themselves, "to achieve the great objects for which the workers are struggling, such as living wages, reasonable hours for conditions of labor, equal opportunities and pay for women, participation in management and ownership and abolition of child labor."

It is proposed also by the commission that the church denominations should agree among themselves to establish non-competing parishes for these churches in industrial centers and that the denominations should close churches which compete.

Mail Captured On Steamer Delivered

Sydney, Australia, July 14.—A curious manifestation of German psychology is seen in the recent delivery of the Australian liner, Matunga's mails to the addressees. The Matunga was captured and sunk by the German raider Wolf off the coast of New Guinea in August, 1917. The mails on her were taken to Germany. After they had remained in German hands over a year they were delivered to the British authorities, after the armistice had been signed. In due course they were sent to Sydney, arriving two years late.

Michigan Club To Hold Shoot at Mackinac Isle

Mackinac Island, Mich., July 14.—A sport festival, the feature of which will be the annual shoot of the Michigan Gun club, is to be held on Mackinac Island, July 26 and 27. The entertainment program will include fishing excursions to Les Cheneaux and and sightseeing trips to historic points visiting to the old city of St. Ignace, across the straits and dancing parties and music.

A clear sky background will make the clay pigeons stand out, as the shooting course has been laid along the shore of the island for 600 yards, with not a tree to mar the vision.

On the first day of the meeting there will be five 20-target events and a 50-target handicap for the Michigan handicap championship trophy, open to both amateur and professional gunners. The fee of two cents per target will be added to the purse in each event.

The second day's program will include a 100-registered target shoot, with optional sweepstakes.

Women Voters of Germany Majority

Berlin, July 15.—Fifty-four percent of the voters in the last National Assembly election were women. The total number of qualified voters was 37,000,000 as against 14,000,000 in the last Reichstag elections.

Young women proved more ardent voters than youths of the same age. Both wings of the socialists polled forty-five and one half percent of the total vote.

Many a man is serving in a miss-fit position because he hesitates to start on a canvass for a new one.

A want ad will find the place you want and should have.

It is needless to remind you that when the position hunts the man a better salary is inevitable.

Mighty Tedeschi Proves a Frost

(Continued From Page One) Escanaba plays Wells at 6:30 p. m. Thursday evening at South Park, which will be an innovation in ball playing here. Sunday the club travels to Munising, after which they will play several games here.

Hit by pitcher, Bennett, Lantz. Umpire—Mike Walsh. Time, 2 hours. Attendance 400.

American Legion To Abolish Titles

As one of its first lessons in "Democracy" for its own members, the American Legion has decided to prohibit the use of all military titles among its members. The national executive committee has so announced and now the man who was a general across the water will be plain "Bill" or "Mister" when he meets the ex-doughboys at the weekly meeting of the American Legion post.

Military titles, like those of the judiciary, seem to persist after all connection with military life has ceased and even before the war, the United States was plastered with colonels and majors and not a few generals who hadn't been general or coloneling for many years.

"We certainly have performed a public benefaction by protecting the public from the thousands of new titles that would be inflicted upon it by our hosts of officers from lieutenants up," said Fred Alger, national executive committee man from Michigan. "Moreover, our efforts to further the cause of democracy will begin at home."

Sergt. Swanson Is Home From Service

Sergt. Elmer Swanson arrived here this morning from Camp Center where he was discharged from service. It is probable he will resume work as motorcycle policeman for the city in the course of the next few days.

Sergt. Swanson was a member of the military police attached to second army headquarters, having been assigned to the second army corps after arrival overseas. He was military police in Center before going overseas.

His arrival here this morning will give an additional member to the police force, as the police have been working "short handed" to hold the job open for him.

Nurses' Conference Today at Marquette

A number of Delta county nurses went to Marquette today to attend the conference of upper peninsula nurses called by the Michigan State Nurses' association. Talks scheduled on the program include one by the assistant director of the Red Cross nursing service, Chicago, who was slated to speak on the future plans of the Red Cross.

Japanese Teachers Near Death; Poison

Fusan, Korea, July 14.—Two teachers in the Fusan girls' higher school for Japanese, Miss Kikuye Nakano and Miss Mikiye Makino, recently swallowed large quantities of a poison kept in the school for chemical experiments. When discovered they were dying. The girls left letters saying they were depressed and no longer cared to live.

Less Intelligent Is Easier Cured

Ann Arbor, July 14.—The more intelligent you are, the harder it is for you to put into the frame of mind that is best suited to getting cured from tuberculosis.

This one of the contributions that a Michigan Anti-tuberculosis association representative brought back from the national convention at Atlantic City from discussion of the psychology of the tuberculosis victim.

Cause him to Worry. The more intelligent a person is, the more introspective he is likely to be, on the average, it was declared. He tried to figure out for himself how the germs in his lungs are getting a long. He worries about them and his thoughts are frequently on them. And this worry is one of the chief obstacles to a cure.

The less intelligent person does not know much of anything about his internal machinery. Disease is a mystery to him and the places confidence in the physician attending him, leaving the whole conduct of the case to him. It is more easy to get such a patient interested in some form of light occupation that will keep his mind occupied. And all this helps tremendously in affecting a cure.

Story of Experience. The experience of tuberculosis workers in the army has confirmed this principle again and again. The person who has a high degree of intelligence is generally unwilling to abdicate mentally and give himself wholly into the care of his physician, while the less intelligent person more readily does this.

But that is the first lesson for every tuberculosis victim to learn, the Michigan association advises. No matter how well posted he may be and no matter how good a mind he may have, he can't conduct his own case. He must entrust himself without reservations to a competent physician and try to keep his mind busy with interests that will make him forget his disease.

SUCCESS

And this Boy are Cronies

It is the boy that saves his money. And he is the boy of good habits and good character. If you would see the boy that amounts to something. Just keep your eye on the boy that persistently builds up his savings account. Something better than a job is in store for this boy. He is in line for a position. Good positions are everywhere looking for just this kind of a boy. There is a friendly interest in boys at this bank.

Sergt. Kimber in States, Tells Wire

Sergt. Douglas Kimber, son of C. F. Kimber of 1321 First avenue (Wells) south, was among the American soldiers arriving in Boston from Archangel, Russia, according to a telegram received at the family home.

Because he worked in Detroit, where he was engaged as a carpenter, Kimber enlisted from that point. He had not visited home several years previous to that time, so has not been here for a period of five years.

It is expected he will come to this city as soon as discharged, as his wife is at the home of his parents, returning later to Detroit.

No \$250 Car Will Be Made by Ford

Same old, flivver for many years to come, it seems, and it's a good old flivver at that.

Edsel Ford announces during the course of the Ford-Tribune trial at Mt. Clemens that a reorganization of the Ford Motor company means that the proposed \$250 car will not be built.

It also means no additional plants, as proposed by Henry Ford some time ago, will be built throughout the country.

FALL IN LINE, EVERYBODY!

A TRIP to remember! In after years and other places, you will recall these joyous promenades in the early summer morning 'round the deck of the "Noric".

Already the early risers are heading the procession. The circling Seagulls are flashing in the morning sun and dipping in the shimmering blue waters; while, far away the giant freighter glides on down the Lakes. It is good to be alive—to breathe these lake-swept breezes—to share such gay companionship.

Breakfast is waiting—bountifully prepared to satisfy these keen-edged fresh air appetites.

Noronic — Hamonic — Huronic

These mighty Steamers take us sixteen hundred miles—from Detroit to Sarnia, across Lake Huron, through the Locks at the " Soo " on to Canada's Twin Cities—Port Arthur and Fort William, until finally we reach our Northern terminus—Duluth. We are southward bound once more.

Spend six days of your vacation on board one of these luxurious steamers. Enjoy the rare good fellowship of the finest people of two nations.

\$59.70 for 6-Day Trip. For continuous 6 day round-trip cruises from Detroit, including meals, berth, afternoon teas, evening dances, picnic to Keweenaw Falls. Everything \$59.70 and up.

For full information enquire of C. Leitch, D.P.A., 69 Fort St., W. Detroit; Akers, Folkman & Lawrence, 733 Euclid Ave., Cleveland; H. C. Dennison, National Bank of Commerce, Steamship Dept., Toledo, or any Ticket or Tourist Agent.

Three Ships Weekly from Detroit for "Soo," Ft. William Port Arthur and Duluth. Northern Navigation Steamers, leave Detroit every Monday, Wednesday and Saturday. One way fares on application. Direct rail connections at all points en route.

Write to F. D. Geoghegan, Eastern Pass. Agt., Sarnia, Ont., or John W. Bliss, D.P.A., 345 Rockefeller Bldg., Cleveland, for "Cruise" Booklet.

1000-Mile Saguenay Cruise. Another wonderful Boat Trip—through 1,000 Islands, and St. Lawrence River Rapids; stop-over in Montreal and Quebec; and the glorious Saguenay. Write for Booklet—"Niagara-to-the-Sea."

NORTHERN NAVIGATION COMPANY, LIMITED—SARNIA
