BARN BURNS AND HORSES ARE CAUGHT

Chenier Structure Is Levelled by Flames Sunday.

Fire of unknown origin Sunday burned the barn belonging to Zeno Chenier, farmer of Flat Rock settlement, burning several horses and calves which could not be taken out of the structure before the flames spread. The loss, which is not covered by insurance, has not been estimated.

The barn was used as a cattle shed and machinery warehouse and grainery and considerable hay and other farm produce was stored there.

Three horses tied in stall on the lower floor were burned to death and several calves locked in another part of the building could not be taken out before they were caught in the flames.

A small pig was in the barn but it succeeded in getting out after the barn had burned almost to the ground.

It is estimated that half of the machinery stored in the barn is a total loss. A part of the apparatus was taken out before the fire spread.

Forest Fires Raging.
Forest fires continue to rage both in Delta county and surrounding districts, report people arriving in the city today.

Berry pickers were forced to leave the plains near Garth yesterday, reported Herman Leisner, deputy fire and game warden, because of the fire raging there.

Larch and Maywood also are experiencing trouble with fire, he said, as well as the district north of Rapid River.

The fires in Delta county, however, are largely confined to areas of plains.

SEYMOUR COPS BIG EVENTS OF CONTEST HERE

Some 4,000 people went to the Fair grounds yesterday afternoon and saw Johnnie Seymour, Escanaba's amateur rider, take first place in the last two events of the day after registering third three consecutive times in the classiest motorbike races ever staged here.

Seymour won the last five-mile event and the one of four and one-half miles.

It was a dry afternoon, so to speak, excessively warm, but the crowd remained through to the finish and was given some excitement that kept them on their toes.

Two Are Disqualified.
Both Parlow and Degaynor were disqualified after the second race, but neither had a show to ride with Seymour and his running mates.

Ralph Hepburn, 200-mile international champion, copped but one first but Burns took two of the events. In the last race Hepburn couldn't get his machine going so he wasn't a participant.

In the first event to be staged, a warming up run of two laps around the half-mile track, Burns took the lead at the start and held it, winning in 1:12.

CAPITAL'S BLACKS AND WHITES RIOT

Scores of Negroes Are Injured in Clashes at Capital.

(BY ASSOCIATED PRESS)
Washington, July 21.—The government intervened today to prevent recurrence of the attack made Saturday and Sunday night by soldiers, sailors and Marines against Negroes in retaliation for assaults by Negroes on white women in this city.

It was announced that 250 soldiers and marines would aid the police in patrolling the streets tonight.

Negroes Open Fire Again.
About noon today four Negroes in an automobile drove up to the naval hospital in Potomac Park, not far from the White House, and fired four shots at the sentry.

Then they whisked their machines around the street corner and fired four more shots at inmates on the hospital grounds.

All of them were sick or wounded sailors and marines. The Negroes escaped. The shots went wild.

Washington, July 21.—Police and hospital records today show scores of Negroes were injured in the widespread clashes between whites and Negroes last night.

More than a dozen Negroes are suffering from severe beatings at the hands of mobs and were treated at hospitals while scores were cared for at their homes.

Continued Unrest Morning.
The rioting, which began shortly after 10 o'clock last night, continued until early this morning.

Many arrests were made. The police reserve was kept on a jump nearly all night.

Most of the injured Negroes were set upon singly or in pairs, but the more serious clashes were between mobs and Negroes who assembled in crowds at several places.

MUNISING BEATEN BY COLTS, 10 TO 8; NAHMA IS WINNER

Escanaba Uses Three Pitches Before Upper City Gang Is Stopped.

Escanaba walloped Munising and Munising walloped Escanaba yesterday but the Olmsted colts got the best of the slaughter and won 10 to 8.

But that was not until after both Beltzer and Swartz had been relieved and Jermann went into the box to check the lively Munisingers.

Beltzer lasted two frames. Before he had hardly turned out to warm up Munising had scored a couple runs, chiefly because Beltzer was wild and couldn't gather any control into his frame.

For a while the score stood 7 to 3 with Munising on the lucky end. When Jermann went in, with the assistance of several miscues, they scored still another run, but that was the end of the scoring for Munising.

From then on the Escanaba club rustled seven across the threshold.

Lafleur hit a two-bagger to score the first runner for Escanaba and Lantz twice clouted safely with the bases filled, bringing home the majority of runs.

Nahma Beats Manistique.
Chief Paul's strong pitching won for Nahma easily at Manistique yesterday, the Indians copped the game 9 to 2.

It looked like a shutout for a while, but Empire Swingle called a close one in the eighth to permit a man to walk, forcing the first run.

After that, another was scored. Chief Paul pitched one of the best games of the season and his support was unusually good.

Lineup follows:
Nahma—Alguire, rf; Dason, lf; Ward, ss; Burt, c; J. Moses, 3b; C. Tobin, cf; Deville, 1b; Paul, p; D. Moses, 2b.

Manistique—Weingartner, ss; Norton, c; Ludlow, 1b; Bourbonne, 2b; Foy, 3b; Weber, lf; Griffin, p; Baker, rf; Williams, cf.

200,000 OF ENGLAND ON MINE STRIKE

Sir Eric Geddes Goes to Yorkshire to Settle Trouble.

(BY ASSOCIATED PRESS)
London, July 21.—Sir Eric Geddes, minister without portfolio, was appointed today a commissioner to attempt to settle the miners' strike and is on his way to Yorkshire where 200,000 men are out for wage increases.

Premier Lloyd George announced in the house of commons.

The premier said the last 24 hours had witnessed grave and unprecedented developments in the miners' strike.

He said the Yorkshire strikers had called out the pumpmen and engineers and that many mines in that district were suffering loss from the rising water and were threatened with destruction.

At 58 mines the necessary men were at work, but in 55 mines pumping had been stopped entirely.

Return to Work Today.
Boston, July 21.—The 7,000 street and elevated caremen who struck Thursday returned to work today with the assurance of an eight-hour day and pay up to 62 cents an hour.

They were receiving 48 and had asked for 73 1/2 cents an hour.

Milwaukee, July 21.—About 200 hod carriers went on strike today because a demand for a ten percent per hour increase in wages had been refused by the employers.

It is said the walkout will tie up a good part of the construction work in Milwaukee.

Bismark Ferris and his Georgia minstrels number 22 in number. They will make you laugh and drive dull cares away, says the press agent, and he says Flossa's magician, punch and Judy ought to be fun alone for the little folks.

And for the men folks who like wierd music, there's a troupe of Hawaiian singers and dancers, all beautiful young women.

Also Plans Free Show.
"Alice in Jungland," a paraphrase of the child lore story "Alice in Wonderland," will be shown tomorrow as one of the big opening features after several free shows are staged at the grounds.

PRESIDENT TAKEN SICK ON CRUISE

Admiral Grayson Says Condition Is Not Serious.

(BY ASSOCIATED PRESS)
Washington, July 21.—President Wilson returned to Washington early today from a week end cruise to Hampton Roads and was immediately ordered to bed by his personal physician, Read Admiral Grayson, who announced that the president was suffering from indigestion.

Admiral Grayson said the president's condition was not serious but that he probably would be unable to receive callers before the end of the week.

Engagements which Mr. Wilson had with a number of Republican senators to discuss the peace treaty and the league of nations were cancelled.

Thought Indigestion.
The president had been complaining of feeling badly for several days and when he started down the Potomac on the Marylander Saturday night, it was supposed he was suffering with a slight attack of indigestion.

Washington, July 21.—With three senators ready with prepared addresses, another full day of oratory with the league of nations and the peace treaty as the subject was promised when the senate reconvened today.

Senators Pomerene, Ohio, and Harrison, Mississippi, Democrats, are supporters of the president and advocate adoption of the Versailles pact as it stands with its league covenant and peace terms proper, without amendments.

Ask Mexico to Explain.
Washington, July 21.—Urgent representations made to Mexico City by the state department as a result of the attack on the American sailors in a small boat from the monitor Cheyenne, near Tampico, July 6, were expected by officials here to bring prompt action by the Mexican government.

Meantime further details are awaited by the navy and state departments.

Swanson Back On Motorcycle Job
Elmer Swanson, recently returned from overseas duty, today resumed work as motorcycle policeman for the city.

The position was held open by the combined efforts of other members of the department, who "doubled up" to avoid hiring a motor policeman before Swanson returned.

CHILD'S BURNS FATAL; DIES AT HOSPITAL TODAY
Burns sustained three weeks ago when she jumped into hot coals that were buried under a pile of ashes near a cooperage mill at Engadine, proved fatal to little Georgia Elliott, 9 years old, who died at 9 o'clock this morning at a hospital here.

Until Saturday there was every indication that the child would recover and she received visitors, one of whom presented her with a doll.

The child apparently was elated over receipt of the gift and reiterated her statement of several days previous that "I'm gonna get well."

The father of the child, Charles Elliott, III, at the hospital with pneumonia, was informed of the girl's death this morning. He will be unable to go to Engadine to attend her funeral however.

The body was taken to the Allo parlors to be prepared for burial and later was shipped to Engadine, accompanied by the mother. Burial will be made in the cemetery there.

Cut Down Two Events.
Because of the dust and loose track it was decided to make the other two races five miles each instead of ten and fifteen, as scheduled.

In the meantime, both Parlow and Degaynor had been ruled out of the races because they made too poor showings.

KUN'S ARMY OF REDS BREAKING UP; WANT FOOD

(BY ASSOCIATED PRESS)
Vienna, July 21.—It was a triumvirate of radical leaders that replaced the ousted Bela Kun, at the head of the soviet government, according to dispatches to the Vienna newspapers.

The three men composing the new government are Vago, former minister of the social protection, Moses Alpari and Tibor Scamuel.

The new government ordered Harbich, commander of the city, known as a "moderate," to turn over the city to them.

Volunteers for the "terror" troops have been called by their leader who formerly was Bela Kun's bodyguard.

The governing triumvirate, it is said, is convinced the allies are either too weak or unwilling to intervene forcibly.

Bela Kun's "Red" army is declared to be breaking up and food conditions are said to be unbearable.

SWISS PUT OUT OF PARIS HOTELS

Forced to Give Places to Heroes of War.

FIGHTERS ORGANIZE UNION

Under Threats of Disturbances Employers Had to Give Way and Clear Out All Foreigners From Their Places—Fear Prices Will Be Raised So High That Foreign Visitors Will Stay Away.

After a three months' campaign set on foot by French hotel workers to have all French hotels run by a purely French personnel, Gustave Schwenter, the manager of the Meurice, and all other Swiss managers in Paris have been forced to resign.

Schwenter is one of the best known hotel managers in Europe. He was put in to manage the Meurice when it opened 13 years ago, and his methods attracted American travelers. Royalty also was attracted to the Meurice, it being the favorite hotel of the Queen of Spain, the ex-départ king of Montenegro and others of princely blood. In a statement announcing his resignation, Schwenter said:

"I am Swiss, and the French hotel workers don't want any Swiss employees round their hotels. I want no trouble at the Meurice, so I have quit. Give Heroes Jobs.

"In justice to myself, however, I wish it to be known that all my men who have been demobilized have been reinstated in their old places, with double their prewar pay; those still in the army had a firm promise from me that they could come back just as soon as they were free. We had a personnel of 200 here and 225 of these people were French."

Following Mr. Schwenter's move, all other hotel managers in Paris not of French nationality have resigned.

The whole movement began when certain French managers, on being liberated from the colors, found that while they had been in the army Swiss hotel men had taken their places, and as they had given satisfaction to the financial interests concerned there was no disposition to remove them from their jobs.

The same state of things applied on a bigger scale to all classes of hotel workers—cooks, kitchen hands, porters, bellboys, waiters, etc.

Fighters Form Union

Thereupon a "Union of Fighters of the Hotel Industry" was organized, with the object of expelling all the Swiss, Spanish and Italian hotel workers out of Paris, and, under threats of disturbances, employers have had to give way. The same pressure is being brought to bear on restaurant men, and there is no doubt that it will be equally successful. I have talked over the situation with hotel and restaurant men and also with some well known chef waiters and chefs in Paris. They recognize the claim of all demobilized men to be able to return to old jobs, but there is a very nervous undercurrent of opinion that the movement is being carried too far and with ulterior motives.

One view expressed by a hotel man is that once the French hotel workers have matters completely in their own hands there will be all kinds of claims for concessions in regard to pay and working hours, that service in the hotels and restaurants will suffer, that prices will go still higher, and that the inevitable result will be that foreign visitors, and particularly Americans, will think twice about coming to Paris if, as is feared, the hotels are to become yet more expensive and the service loose and generally inefficient.

Any attempt to budgeon the hotel and restaurant men is bound to lead to an atmosphere of discontent in just those places where a hospitable atmosphere is most valuable as a business asset.

SPOILS CHILDREN'S CLOTHES

Man Finds It Expensive to Throw Out Dishwater.

Heaving a pan of greasy dishwater out of the back door seems like an innocent and inconspicuous act, but this did not prove the case for Peter Afanaris of Bath, Me., who has just paid \$35.31 rather than spend 60 days in jail, per the sentence accorded to him by Judge Keegan.

Peter had washed some dishes and was in the act of dumping the water and some refuse out of the back door of a Washington street restaurant when along came two kindergarten children, five and thirteen years old, whose best clothes were spoiled.

The dishwater spread itself over their gingham and muslins, their pretty little hats and all their ribbons. It broke their hearts and made their folks "mad." Peter paid the fine and costs and went home to ponder his dishpan luck.

Get Ring Lost 15 Years.

To find a ring that she lost 15 years ago was the good luck of Miss Emma Lelsnering of Danville, Ia. Nelson Kingston was digging a garden at the Lelsnering home when at a depth of fourteen inches he found the gold band bright and shining. Miss Lelsnering immediately identified it. The word "Mother" was engraved on the inside of it.

Close Affairs of American Army

London, July 1.—(Correspondence of The Associated Press) American army and navy officers who are trying to close up the war financial transactions between the United States and Great Britain, hope to have their task completed by September 1. If that end is reached the majority of the 75 army officers and 200 men now here will be sent home, and the navy force will be reduced to a few experts to tie the last remaining strings.

Two Million Tons.

The magnitude of the task will be appreciated when it is known that the army alone brought 2,000,000 tons of equipment and supplies here and shipped them to France, while the navy had large forces of ships which were constantly purchasing things from British warehouses.

Another element in the situation is the slow and deliberate manner in which the British render their bills. One such bill received at army headquarters today amounted to \$150,000 for supplies for the American troops in Northern Russia.

It frequently happens that errors occur, but they are quickly found and adjusted without friction, as in the case of a bill which reached the American naval headquarters here of an American battleship with which it had been working. The bill had been placed in charge tactfully returned it without comment, and some one in the British office probably spent an unhappy half hour.

Civilians are Released.

Civilian clerks are being released as quickly as possible and the 800 still at work expect to be gone in two months. American Red Cross activities also are being closed up with all possible speed, and it is possible that London force will be reduced to a few expert accountants and stenographers by August 1. They too are paying bills, but one canteen and one hospital are still in operation.

Wild Oats? Well, He Skidded Once

Port Huron, July 21.—A man has been found who has never smoked, drunk intoxicating liquor, seen a moving picture show, attended a theatre, witnessed a circus, or been sick in his 67 years of life, nor does he owe any person a cent.

This spotless is the life of Samuel See, janitor of the Stewart block for seven years.

The only time he ever came close to breaking one of the rules, was when he moved a piano out of the Majestic theatre once, and came near staying to see the show. This was the only time he was ever inside a theatre.

He is married and has three children. His wife has been to a circus only once in her life.

"I do not believe in that old story that every man must sow some wild oats. That is purely nonsense, I have never sowed any and do not intend to," says See.

**MAORIS BACK FROM WAR,
 HAVE TRIBAL MEMORIAL**

**Battalion Maintained at Full
 Strength Entirely by Volun-
 tary Enlistment.**

The battalion of Maoris, New Zealand aborigines, who fought in the Gallipoli campaign and afterward in France, has been welcomed home with a great feast, hokas (war dances) and tangi, or lament for those who fell in battle.

The acting prime minister, Sir James Allen, told them: "You Maoris hold a proud position. You have not one conscript." From the time of its formation early in the war the Maori battalion was maintained at a strength of 1,200 entirely by voluntary enlistment.

Great quantities of mutton, beef, pork and other food had been baked in earthen ovens for the occasion. About 2,000 Maoris in all shared in this feast. There were several poi (a native delicacy) dances.

The tangi was a scene of much emotion. The soldiers sat by tribes encircled by sorrowing natives. Led by their chiefs, the mourners grieved with low, wailing chants for those of their race who will never return. All the treasured heirlooms of the tribes had been brought from the safe-keeping for the welcome. There were jade ornaments, mata, chiefs' head-dresses and beautiful kilts. The chiefs of the various tribes, in their speeches employed the florid South Sea language, after which there was a haka by the famous Arava tribe and the speech of welcome by Sir James Allen.

BISHOP PITIES BEGGAR

Has Shelter Built for Legless Mendicant.

Taking pity on a legless mendicant, who for many years has occupied a place outside St. Barnabas cathedral, Nottingham, England, Doctor Dunn, Catholic bishop of Nottingham, has had part of the cathedral wall pulled down and a recess constructed in which the beggar can be sheltered.

**PROMINENT BASEBALL PLAYERS POSSESS
 LITTLE FADS OF ONE KIND OR ANOTHER**

Many ball players have fads of one kind or another. A brief list might be instructive.

Lena Blackburne, who has played shortstop on many teams, collects pennants from the various cities he visits.

Joe Benz has an account of every game he has ever pitched pasted away in a scrap book.

Dutch Leonard has a passion for talking machines, and spends much of his spare cash purchasing records.

Strong for Flowers.
 Eddie Collins is strong for flowers, and picks up a rose bush here and a new kind of plant there for his garden back in a suburb of Philadelphia.

A large number of players keep scrap books. Ed Walsh has a pile of them large enough to stock a small library. Few players have had so many features written about them as Walsh has enjoyed, and many a day he filed from one to four pages in his book.

Ed also picked up pictures of himself in action, and has fixed up a baseball den at his home in Meriden, Conn., which is said to be one of the finest of its kind in the country.

Eddie Cicotte is another who keeps a scrap book. His fondest hope is some day to place an account of his no-hit game in this volume. He has nearly everything else.

While on the coast this spring we visited Jack Fourshier, former Sox and

The bishop's act, telegraphs a London correspondent, has caused much commotion and interest in the neighborhood.

Boy Fells Robbers.

Eight Chinese robbers attacked Sing Hop, a wealthy Chinese shirt manufacturer, in his factory in San Francisco and demanded \$2,000. When he refused they beat and tortured him until he agreed to give them all the money he had with him.

While this was going on his twelve-year-old son, Sing Fu, slipped out of the place and summoned Policeman John Floyd, who, with Detective Sergeant James Skelly and members of the Chinatown squad, broke into the place and caught the robbers as they victim was handling them \$225.

**HAVE ROSY CHEEKS
 AND FEEL FRESH AS
 A DAISY—TRY THIS!**

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

UNCLE SAM GETS GOOD JOBS FOR HIS SOLDIERS

Many Agencies at Work to Place Service Men.

SEEKING SOMETHING BETTER

Government Anxious to Make Best Use It Can of the 4,000,000 Men Who Have, or Should Have, Increased Their Earning Capacity Because of the Training They Have Undergone During the War—Business Interests Helping.

By EDWARD L. BERNAYS.
(In the New York Times.)

Every man that the government took into the ranks of the army or navy was taken out of civil employment.

Every man that the army or navy releases from war service the government wants to see satisfactorily employed in his old job or in a better new job before it considers that man's discharge from war service complete.

Col. Arthur Woods, assistant to the secretary of war, who is correlating and utilizing all agencies for the employment of ex-service men, has at his command 24,000 field representatives. They are stationed at re-employment centers throughout the country, helping in the specific work of the particular bureaus under their care and keeping the central management aware of local needs and local opportunities. There are men, too, who travel from post to post, with the purpose of expediting matters and further unifying the work. Not only are the ordinary employment channels of the United States employment service used; practically every government department has added re-employment work to its ordinary duties. Secretary of the Interior Lane has placed 15,000 field representatives at the disposal of Colonel Woods. The department of agriculture has instructed its entire force to assist in the work of connecting the soldierless job with the jobless soldier.

Various Agencies at Work.
Every Red Cross employment bureau, every Salvation Army, Y. M. C. A., Knights of Columbus, Jewish Welfare board, war camp community service, army and navy commission on training camp activities, American Library association, governors of all states, mayors of the principal cities department of the interior, with 15,000 field representatives; department of agriculture, with 24,000 field representatives, post office department, labor department, navy department United States chamber of commerce chambers of commerce of the principal cities, National Association of Manufacturers, Merchants' association, principal labor organizations, and a host of other established volunteer agencies are now working with and for the government for the re-employment of ex-soldiers.

The first step taken toward giving employment to the ex-soldier is made before the man is dismissed from the service.

Booklets have been printed and issued to the man while he is on board ship from France to America. This literature, issued by Colonel Woods office, acquaints him with the economic situation that he will meet when he returns home. It tells him exactly how to go about getting a job. It points out the trades and professions which are open to him. Hundreds and hundreds of them, of all kinds. It removes all doubts a man may have as to his ability to begin life under favorable circumstances.

Each man is asked to fill an employment card. This questionnaire, far simpler than the one which took him from civil life, is designed to put him back into civil life without red tape.

Every card that is filled by returning men is immediately forwarded as a sort of preliminary application blank to the bureau, Red Cross, Knights of Columbus or any of the other volunteer agencies under government supervision which is located in the part of the country in which the soldier lives.

Case of John Brown.

So that when John Brown, who describes himself as a resident of Chicago, age twenty-six, with a previous training as a huckster, expresses a desire to become a machinist, his card is entered, and all efforts are made to get choice of jobs for him upon his personal application at his nearest re-employment bureau.

If a man is indifferent to the sort of job he gets his re-employment bureau will send him to any number of them until he finds what he thinks he will like. Or it will let him talk to a trained vocational guide, who may be able to discover in him a vocational preference.

These bureaus may help the men in material ways. The soldier who decided to have a vacation of a few weeks on his \$50 before starting to work may soon find himself without funds. The Salvation Army will see to it that he has food until his employment agency finds him a job. Or he may spend all his \$50 on a suit of civilian clothes. He belongs to the government until he has gone back to work. And the government is waiting to be asked to help him.

Jobs to Fit.
A man may not like his old job. Colonel Woods' office will try to find a new job for him that he will like better. It can in certain cases help him to learn a new trade. It will place him out as a well-paid apprentice. Or it will show him how to learn new things—direct him to evening courses, or day courses, and give him work so that he can earn his keep while he is learning a new trade.

If a man finds that his old job does not want him the government agent or the local employment agent looks into the matter, finds out what the trouble is and settles it if possible. If he can't he goes about finding another job, at least as good, and as nearly like the old one in kind as possible.

And if a man doesn't like the first job he can have a try at others. The government is doing it for the soldiers because the country wants to make the best use that it can of the 4,000,000 men who have, or should have, increased their earning capacity because of the training which they have undergone during the war.

The war department, through Colonel Woods, is directing re-employment of ex-service men, because it is sound economics. And business interests are helping, because they know that it is distinctly to their advantage to make the best of the men who have come back. There is no shortage of work for workers. And employers and employees both want to have the round peg in the round hole.

LIKE MATTY, LANNIN IS CHECKER EXPERT

Magnate One of Most Capable Players in Country.

Long Before Owner of Boston Red Sox Ever Thought of Becoming Owner of Champion Baseball Team He Was Checker Fan.

Baseball fans have heard so much about the expertness of Christy Mathewson in checkers they have been led to believe that Big Six is without a rival in the ranks of organized baseball. Such is not the case, however, for Joseph J. Lannin, erstwhile owner of the Boston Red Sox and leading spirit in the International league, when he is in practice can give Christy the game of his life at the checker-board.

Long before Lannin became identified with baseball he was a checker fan. Not only did he indulge in the game for his own amusement and pastime, but he backed with his bankroll some of the leading checker players in the United States.

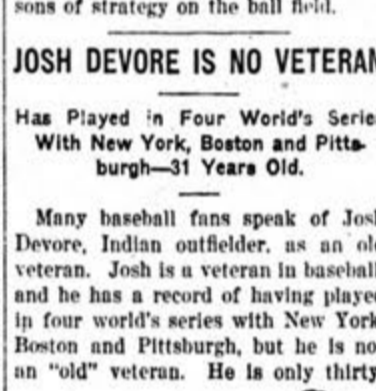

Long before Mr. Lannin ever thought of becoming the owner of a world's champion baseball team his thoughts were on checkers. He was only eighteen years old when his interest turned to the game up in Massachusetts. He soon perfected his play to such a degree that he vanquished all the so-called country store champions in the locality. Then he set about to conquer the champs of the towns in the immediate vicinity. As a member of the Boston Checker club he took part in a great number of club matches and often traveled long distances to see matches played. Less than ten years ago he traveled from Boston to Toledo to watch a match in which a player he had backed was engaged. He was rewarded for his pains by seeing his player lose.

Mr. Lannin has always believed that checkers were in no small way responsible for the success of Mathewson on the pitching mound. Big Six realized from his experience at the checker board that a ball game is not over in one inning; the score at the end of the game is what counts in baseball just as it does in checkers. Checkers helped Matty to plot and plan at the beginning of a ball game, as he had done many a time at checkers, and taught him many other lessons of strategy on the ball field.

JOSH DEVORE IS NO VETERAN

Has Played in Four World's Series With New York, Boston and Pittsburgh—31 Years Old.

Many baseball fans speak of Josh Devore, Indian outfielder, as an old veteran. Josh is a veteran in baseball, and he has a record of having played in four world's series with New York, Boston and Pittsburgh, but he is not an "old" veteran. He is only thirty-

Josh Devore.

one years old, as shown by the official dope book, which yearly prints his record from the time he broke into baseball in the Cotton States league in 1906. Devore shows earmarks of making a great comeback. His pins are steady again, he is a good fielder, a good base runner and he has been knocking the stitches out of the old apple since he joined the Indians. Josh was married last winter, and his more settled habits since that time appear to have given him new life.

REGRET PASSING OF CRUISE

St. Louis Fans Sorry to See Outfielder Go to Boston—Had Sprung Charley Horse.

Many St. Louis fans will regret the passing of Walter Cruise from the Cardinals to Boston as Wally has played great ball from time to time, especially in 1917, when he led the league in hitting for several months.

Miller Huggins picked up Cruise in the spring of 1914, while the Cardinals were training in Jacksonville, Fla. Wally was with the Jacksonville club at that time and made such an impression on Hugg that he brought the outfielder home with him. Wally failed to stick, Huggins sending him to St. Paul. Cruise made good there and was recalled. He sprang a charley horse this spring and has not been at his best.

About the Town

AT THE DELFT

Cecil B. DeMille in "For Better, for worse," will be shown at the Delft theatre tonight and tomorrow. The position of the man who stayed at home during the war because he felt he would be of more use to his country here than in the trenches is portrayed in this feature. Of course, it is woven around a woman, loved by two men—one who goes to war and one who doesn't. She had looked up to him as she looked to the man. He had failed in the test of courage; yet he was fighting a battle in his heart beside which the test of the field of honor was tame.

Mrs. G. Moras and daughter Eva and Florence left this morning for Crystal Falls.

Mrs. A. Bergola arrived last night from Garden to visit at the Sheedle home.

Eugene Sullivan left Saturday for Fond du Lac to visit his wife, who is spending the summer vacation there.

The Misses Leona and Irma Dietz of Green Bay, Wis., are here to spend two weeks as guest at the George Dietz home on 2nd Avenue.

Miss Evelyn and Patrick Gaylor returned yesterday from a trip to Minneapolis.

Mrs. John Trotter returned from a few days visit from Milwaukee last evening.

Big Baseball Party.

The big grand ball to be given by the baseball club of Escanaba will be held tonight at the Coliseum hall. All preparations for the event have been completed and it is indicated from the number of tickets sold in advance that there will be at least 200 couples on the floor. Special streetcar arrangements have been made so that Gladstone, Wells and Chemical addition people who attend the party will be returned to their respective town.

Cool, Restful Glasses

Glasses with tinted lenses are very welcome in summer time. These lenses filter out the heating ultra-violet rays which have no illuminating value. The glare of bright sun light is avoided. The glasses are cool and restful, without dimming vision.

We can fit you with such lenses made especially for you, in any style of frame desired. You will like them immensely.

American Scheme of Child Relief Is Now in Full Swing

(BY ASSOCIATED PRESS)
Prague, June 22, (By Mail)—The American scheme of child relief in Czecho-Slovakia is now in full swing. Large quantities of milk, cocoa and other goods are in the hands of the central committee and the feeding of the children has been completely organized in the different districts. Not every child in Czecho-Slovakia is being fed, but only those who are actually hungry and needy. In most districts, about one child in three is now receiving the American ration. With the co-operation of various national, religious and social organizations, encouraged by the Czecho-Slovak government, local and district committees have been formed to carry on the details of the child feeding scheme. Food is at hand in many places only awaiting the organization of the local committee. Additional American personnel has recently arrived from Paris, and as soon as word is received that a community is ready for organization, representatives are being sent out to put the relief into operation.

Vanity, jealousy, love, hate—each of the fads, foibles and freaks of human nature has been painted by Cecil B. DeMille in productions like "Old Wives For New," "We Can't Have Everything," and "Don't Change Your Husband." But never before has he shown you the feelings of a woman face to face with a man she loves but who is, in her eyes, a despicable coward. The heat of her anger at the man she loves, yet hates, shocks you. The punishment she metes out to him makes you say to yourself, "Serves him right." But the sublimity of his sacrifice makes you halt judgment for a moment and then—By the queerest twist of fate love conquers and the woman sees through the man's eyes and—Come! It's too great a pleasure to miss.

Seymour Cops Big Events of Contests

(Continued From Page One) The prettiest race of the afternoon was the fourth in which Seymour finished first, going around the track in 5:32. In this event the judges got "bawled up" and stopped it at nine laps, making it actually four and a half mile that Seymour rode. Hepburn broke a pedal on the eighth lap and injured a hip in a spill, but he

finished the race. Burns bumped his nose on the handlebars in the seventh, coming in for second place while Hepburn's mishap forced him into third. Again Davis was out of the running.

The final event of the day also was won by Seymour who had clear sailing. Hepburn was unable to start and Davis finally got his machine in shape so that he was able to run for second place. Burns stayed in the running and topped third.

SHARK SKIN "POKE"

Man Who Was to Go in Search of Gold Made It

Whiling away a few dull moments at San Francisco before the departure of the old schooner Casco on a cruise for gold in the frozen North, Dan Lofdahl, one of the chosen sailor-miners on board, caught a four-foot shark in fishing over the side.

Lofdahl was occupied nearly all day in skinning the fish. His mates wondered of what use the skin could be, and were told by the fisherman that it was to hold all the yellow dust they expected to find in Siberia. Every real miner has to have his "poke," or purse. The stripped skin is to hang in the cabin in which Robert Louis Stevenson dreamed so many of the romances that have made him beloved wherever good books are read. The Casco is lying at the bulkhead between piers No. 42 and 44.

MUFFS FIRST FLY IN TWELVE YEARS

Those fans who saw Larry Doyle set himself squarely under a pop fly from the bat of Casey Stengel in the first inning of a recent game between the Giants and Pirates, get the ball in his hands and allow it to slip through his clutching fingers to the ground, are hereby informed that they witnessed a very rare thing. To be specific, Doyle had not made an error of just that sort for twelve long years—that is, he had not muffed a fly ball under which he had time to settle himself for the catch. He blamed his recent defection on the fact that he had not yet fully recovered from the injury to his head. His head, he says, fairly swam as he scrambled backward to get under the looping pellet, and he was so dizzy that he could barely get his hands on the ball, to say nothing of holding it firmly.

Jap-American Bank Plan Progressing

The project was first suggested by bankers of California when Baron Megata visited the United States last year. The movement is interesting to bankers and capitalists on both sides of the Pacific as the first attempt towards a joint stock bank between American and Japanese bankers.

Kennedy Shows Are Clean, Says Fish

The Con T. Kennedy carnival shows are clean in every respect and the deportment of the showmen is nothing but exemplary, declared George Fish, exalted ruler of the Escanaba Elks, and Torval E. Strom on their return from Menominee where they saw the shows. Although the Elks changed plans and decided not to bring the Kennedy shows here, deciding to stage some other affair later, both Mr. Fish and Mr. Strom said that had the shows been brought to this city reports of misbehavior on the part of the showmen would have been proved unfounded.
